About five-sixths of the voters of Wichita Falls were so well pleased with the records of Dr. J. F. Reed and he was elected councilman. The vote stood: Reed 180; Hickman 150. Yesterday's election was made necessary because a candidate elected at the regular election failed to qualify.

## JURY RETURNS VERDICT FOR THE PLAINTIFF

J. C. Hunt Awarded \$700 in Suit Against W. E. Allison—Motion For New Trial.

In the county court today in the case of J. C. Hunt vs. W. E. Allison, mention of which was made in the Times of yesterday afternoon, the jury returned a verdict in favor of the plaintiff for the sum of \$770 and interest at 6 per cent from date of the obligation. It is understood that a motion for a new trial will be filed and argued tomorrow morning.

The case of S. D. Adair vs. The Wichita Falls and Oklahoma Railway Co. was called this afternoon and is occupying the attention of the court. This is a case in which Mr. Adair is suing for the value of a horse, alleged to have been frightened by a train to an extent that the animal ran into a wire fence and was damaged to the amount of \$100.

## GOVERNOR GIVES OUT MORE CORRESPONDENCE

By Associated Press.  
Austin, April 26.—The remainder of the Colquitt-Lightfoot correspondence was given out today. In this installment Colquitt asks Lightfoot if he adheres to the opinion that an Elks' club may now dispense liquors. Lightfoot replies that the question is undecided but that the supreme court may decide it in the case of the State vs. Duke, et al. Colquitt asserts that Lightfoot is dodging the issue when he says he must wait the supreme court's action in the club cases and that the Galveston cases are misdeemeanors.

## Carter Will be Here Friday Morning to Close up Deal

W. H. Carter, the cotton mill man, will be in Wichita Falls Friday morning and it is expected he will be ready to furnish a satisfactory bond in the sum of \$200,000 for the performance of his part of a contract with the citizens of Wichita Falls for a \$400,000 cotton mill.

## SPECIAL BARGAINS FOR FIRST MONDAY

MERCHANTS WILL OFFER SPECIAL INDUCEMENTS TO VISITORS.

## A LIVESTOCK EXHIBIT

Premiums Expected to Bring Many Animals—Good Opportunity for Sales.

Preparations are about complete for the Trade Day to be celebrated here on next Monday and indications point to a large attendance and much enthusiasm with reference to various exhibits and the premiums to be awarded therefor. Especially is this true with reference to the livestock exhibit which is expected to attract a large number of horses from the surrounding territory.

There will be numerous free attractions during the day, including music by the Wichita State Band, a balloon ascension, and other features calculated to interest the old and the young. The livestock exhibit will be held on the vacant half block back of the opera house which is not only the most accessible place but will also be convenient to the indoor program to be held at the theatre.

In this connection it may be stated that many of the merchants will offer special inducements to visitors to the city in the way of reduced prices and in addition to this feature there will be the advantages of the offer of the Refund Fare Association to reimburse customers to the amount of their railroad fare upon a satisfactory showing of purchases from members of this organization.

The Trade Day is to be made a regular monthly feature and promises to develop into a great first Monday gathering and an occasion that will not only provide pleasure, but which will be profitable as well to those who take advantage of the special prices, and refund fare features.

## PEACH AND PLUM CROPS PROMISING

Most Trees Loaded and Heavy Yield is Expected.

Most people thought that the warm weather of January had put an end to any hopes of a peach crop in this vicinity this year, but that conclusion is not justified by the appearance of the trees at the present time.

A reporter for The Times recently visited the fruit farm of Mr. A. C. Spangnagel, southeast of town, and going over the place, he noted that the peach and plum trees were fairly loaded down already with well developed fruit, and the indications are that the crop will be larger than ever before. The grapes and berries are also looking fine, and the season has been ideal for the truck farming, so that those who are interested in that line are more enthusiastic than ever over the advantages of Wichita County.

Mr. Spangnagel owns what is known as the Carter Mineral Well farm, on which is located the famous well which has contributed so much to the healthfulness of the people who have used its water. The water of this well is equal in curative qualities to any of the mineral water of the State, and were they but developed by advertising such as has been given to other localities would make this one of the foremost health resorts of the southwest.

**Meeting of Negro Laymen.**  
Dayton, O., April 26.—A two days' convention of negro laymen of Ohio assembled here today to promote religious work among colored men and to discuss plans for the extension of foreign missionary work.

## MR. KEMP LEAVES FOR NEW YORK

HIS TRIP FOLLOWING ADOPTION OF AMENDMENT IN OKLAHO. MA IS SIGNIFICANT.

## LINE TO LAWTON, OKLA.

Giving Direct Connections With Oklahoma City and Other Points Now Almost Certain.

The constitution of the State of Oklahoma has been amended by virtue of the vote of the citizenship of that state yesterday in connection with the submission of an amendment to Article 9, Section 9, the majority of which will range from 10,000 to 15,000 when all the returns are in, as indicated by reports received here today.

While the above would ordinarily mean nothing more than a news item of general interest, as is covered elsewhere in this issue, it nevertheless means a great deal to the city of Wichita Falls, much more than many of our citizens would imagine from a casual glance at the press dispatches with reference to the matter. It means the early construction of a line of railroad providing direct connection with Oklahoma City and with the cities of the north and east.

This statement is borne out by previous utterances of Mr. Kemp, the president of the Wichita Route and can be relied upon as absolutely correct. While Mr. Kemp had nothing to give out this morning after being advised that the amendment had carried, still his statement on a former occasion that such a line would be built in the event that the amendment was successful can be taken as authoritative and indicating their purpose in the matter.

In this connection it may be stated that the Wichita Falls and Northwestern has in contemplation the completion of their line to Lawton at which connection will be had to Oklahoma City, which connection will not only provide through service, but through sleeper service as well. Such an arrangement will also provide a continual through connection to Kansas City, St. Louis and other eastern cities and will give Wichita Falls a service that has long been needed and which will mean a great deal to this city.

Mr. Kemp left this afternoon for New York on business matters and it is possible that he will be in a position to make an important announcement on his return home.

## DR. HYDE IS GRANTED HABEAS CORPUS WRIT

Kansas City, Mo., April 26.—Dr. R. G. Hyde, under life sentence for the murder of Col. Thomas H. Swope, was released from jail this morning on a writ of habeas corpus.

## JUDGE WELLS PREDICTS STATEWIDE DEFEAT

Says Prohib. Are Split into Discordant Fragments and Warring Factions.

Special to The Times.  
San Antonio, Texas, April 26.—James B. Wells of Brownsville, former district judge, former chairman of the State Democratic Executive Committee and always a potent force in the political affairs of the lower Rio Grande country, says Texas prohibitionists lack much of being as strong as they were four years ago, or two years ago. "They have been steadily losing ground," declared Judge Wells. "The pendulum they set in motion and which swung far in the direction they desired it to swing is coming back. Many of them realize the truth of this. It is so patent as to be observable by every witness of current affairs in Texas."

Judge Wells is at the Menger, having stopped off here to look after some law business. He came from Houston yesterday and will return to Brownsville from San Antonio.

"Former Assistant Attorney General W. E. Hawkins, the man with whom ex-Governor Campbell had some controversy while the former was acting as Commissioner of Insurance, has started a prohibition club in Brownsville," continued Judge Wells. "We have paid very little attention to Mr. Hawkins' maneuvering. The idea ever uppermost in prohibition, its essence, does not thrive in Cameron county. It does not thrive anywhere down in that section of the State."

"I feel convinced the Statewide prohibitionists are going to be decisively defeated July 23. They could not win if they were united. They are split into discordant fragments and warring factions and I am unable to see how the better informed of them can hope to carry their ideas to success. Pendulum never yet swung so far it did not swing back. Prohibition's pendulum described a wide angle in recent years, but it appears to be getting back into the old bearings, into the longitude most of us are familiar with."

"Prohibitionists showed the sharpness of their differences during the Legislature's last year. Observant men knew then what they know better now, that there were breaks in their lines no mortal man could mend. Differences are wider at present and growing bigger every day."

"Of course, there is no telling what the size of the majority against prohibition will be, but it is going to be of such generous proportions as to indicate to all the world the fact that Texas is not and never will be in sympathy with narrowness posing as a desire to uphold prejudice and quardering in the name of morality."

By Associated Press.

Work on the line of the Wichita Oil and Gas Co. is reported to be progressing in a very satisfactory way and in discussing the matter with a Times reporter this morning Mr. J. G. Culbertson stated that the main pipe line had been completed a distance of between seven and eight miles in the direction of Petrolia, and a camp has been established on the line to facilitate the work. Mr. Culbertson also reported that the firm had brought in a good well at Petrolia and that everything in connection with the establishment of the service at this place was very encouraging to those interested.

By Associated Press.  
Indianapolis, Ind., April 26.—Detective Burns appeared before the grand jury which is investigating dynamiting cases this morning. It is understood he refused to testify.

The grand jury probe will be double namely: to determine whether there has been a conspiracy of dynamiters or whether there is conspiracy of the enemies of the International Bridge and Structural Iron Workers to attempt by "planting dynamite" to convict it and its secretary, J. J. McNamara.

As Burns left the grand jury room this morning a man in the crowd outside shouted, "You're a damned crook."

"I'm good enough to get such men as you," was Burns' retort.

## Railroad Amendment Carries By Majority of 12,000 to 15,000

The amendment to article nine, section nine of the Oklahoma State Constitution was carried by a safe majority.

Frank Kell talked over the telephone this morning with Dorsett Gassett at Oklahoma City, who said that the amendment had carried in sixty out of seventy-five counties so far reported and the majority in its favor would be between 12,000 and 15,000.

The first luncheon of the Wichita Falls Ad Club, held at the St. James Hotel from 1 to 2 o'clock was a success even beyond the most sanguine expectations of the enthusiastic members of that organization. The club was organized less than two weeks ago with 19 enrolled members and at the luncheon today 21 were served and a most interesting time was had. Marvin Smith, the president of the club, acted as toast master, which position he filled in his usual pleasing way, and papers were read by Jack Binford and F. H. Day the secretary of the organization. While Eugene Thompson, of Dallas, made a most interesting talk on the question of advertising.

Those present at the luncheon were: Marvin Smith, F. H. Day, Frank W. Griffin, J. W. Thomas, H. A. Armstrong, Chas. R. Hine, E. W. Pyle, A. L. Huey, F. J. Arkins, J. W. Bradley, J. H. ## STUDENTS ATTACK AMERICAN WOMEN

Wives and Families of Americans in Mexico City Being Sent Home Says Refugee in Ft. Worth.

By Associated Press.  
Fort Worth, Texas, April 26.—Following an attack on an American woman by Mexican students, the wives and families of Americans are being hurried out of Mexico City, according to a statement today by Mrs. W. H. Southgate, who reached here yesterday to remain with her parents, Mr. and Mrs. F. M. Russell, until the Mexican trouble is over. She said the exodus was hastened by an unconfirmed rumor in Mexico City that the insurance had notified the National Railroad officials to sell 50 more tickets after Saturday as the road would not be open after that time.

Mrs. Southgate said the attack was made on Mrs. Tillman, society editor of the Mexican City Record, an American paper. Mrs. Southgate said Mrs. Tillman is a southern woman and has been outspoken in her feelings about the insurrection and that she is believed to have provoked the attack. "The American woman," said Mrs. Southgate, "was struck by several students whom she encountered on the street. The students then ran, making their escape. Several arrests were made but Mrs. Tillman was unable to identify any of the prisoners. A medical college and other schools have been closed as a result of this attack."

## ALLEN APPOINTED PAVING INSPECTOR

Special Meeting of City Council Held To Discuss Paving Matters.

The members of the city council held a special meeting this afternoon to discuss matters in connection with the paving work and more particularly to appoint a man to act as inspector of the blocks being used as the work progressed. Other matters in connection with the work were discussed informally but no official action was taken further than that indicated above.

## Railroad Amendment Carries By Majority of 12,000 to 15,000

A definite announcement from Messrs. Kemp and Kell concerning new railroad construction in Oklahoma is expected within the next few weeks.

Aside from any material advantage in the adoption of the amendment, its passage indicates a friendly attitude on the part of the people toward the railroads that is of equal or greater value.

## EAT CARROTS IN THE SPRING

Even if the Vegetable Possesses No Medicinal Quality It Is Good. Are carrots good spring medicine? asks Belle Case La Follette in La Follette's Weekly, and continues: Mrs. Weston said they were in that wonderful compendium of useful information which she wrote sixty years ago and modestly called a cookbook. Many an Englishman in middle life can remember having been forced in his childhood to eat a raw carrot before breakfast every morning in the spring, because Mrs. Weston said it was good for children.

And we can say that carrots have not some medicinal properties? The only rational attitude, in such matters, must be one of agnosticism. We can neither prove nor disprove the old theories. We must wait till science is further advanced.

It was through being served a carrot salad the other day that I was led to consider the virtues of carrots, medicinal and otherwise. In making this salad young uncooked carrots had been grated and heaped lightly on lettuce leaves and the whole had been dressed with oil and vinegar. For its curative qualities I cannot vouch, but for its palatability and beauty I can. Combining as it did the yellow of the carrot and the green of the lettuce it seemed very springlike and seasonable.

Having eaten this salad of raw carrots I began to wonder how carrots ought to be cooked in order to preserve all the nutrients that are in the raw vegetable. Mrs. Parson in "The Preparation of Vegetables for the Table," a farmers' bulletin that is helpful to housewives, says that when carrots are cut into small pieces and are cooked in water which is afterwards thrown off, at least one-third of their nourishment is lost and that, as much as a pound of sugar, the chief nutrient of carrots, may be lost in this way from a bushel of the vegetable.

But when carrots are old and their fiber is woody, long cooking in water is the only thing for them. It is only with the young carrots which are now on the market that other methods are possible. Such carrots may be cooked in their own juice, for they have more than seven parts of water for every one part of solid nutrients, and their fiber is soft. Or they may be cooked in such a small amount of water that it can all be evaporated before the dish is served. A satisfactory way is to cut them into a double boiler, with a little butter or oil, a slice of onion, a small amount of water, or still better, stock, in addition to the butter. In the latter case the water should be allowed to evaporate after the carrots are soft. Carrots and peas are frequently served together with a seasoning of butter, salt and pepper. This dish is much improved if the carrots are cooked in the way just described.

A good soup may be made by cooking grated young carrots in milk or in milk and water in a double boiler. Use about one-fourth cup of carrot to a cup of liquid. Thicken with flour mixed with butter, in the proportion of about one-half tablespoonful of each to every cup of the liquid. Season with salt and a very little maca, and strain.

Try a sack of New Process Cotton Seed Meal and Hull. It is the best milk and meat feed on the market. It is highly recommended by all the best feeders. Wichita Grain Co.

## NEITHER PIG NOR BUFFALO

KANSAS CITY STREETS A DISAPPOINTMENT TO TWO ENGLISHMEN.

## WERE SEEING AMERICA

In St. Louis They Were Told the Hards Had Gone, So Were on the Look-out for Drives.

Kansas City, Mo., April 26.—Will somebody please take a few pigs to the Hotel Baltimore? There are two Englishmen there who are awfully disappointed by love, with the pig-lessness of Kansas City. They came here to see pigs.

Isn't Kansas City the center of the pig industry. It was a beautiful country—almost like England—they came through this morning. But they did not see any pigs coming to market through the country lanes nor any droves in the street.

They registered—J. H. Edwards, J. Wood, and E. L. Garret, London—put on their best night seeing clothes and asked for pigs. Then, being persuaded that they might sit in the hotel lobby for hours without seeing any famous hogs go by, they went to breakfast.

"But where are the pigs?" they asked. And one of them explained that they had come farthest West to see those animals on their native heath. "We're seeing America," Mr. Garret continued. "It's ridiculous how little this country is known at home. Why, most people would expect to find buffalo loose in the streets here. But we've got beyond that. You see we spent a day in St. Louis on our way here. They told us about the buffalo there—and about the pigs, too."

You Slow Americans. Yes they were seeing America in a week. Why shouldn't they?—Americans see Europe in three weeks and we are quicker than they are.

"English quicker than Americans," "Certainly," said Mr. Garret, as he brushed his finger tips in a primitive struggle with a collar button. "It's a very mistaken idea indeed, to think that you are quicker than we are." The collar slipped again. "Ridiculous, it's the same wherever we go. If you want anything here that you can't get yourself, you know you have a dice of a time. Look at your waiters. They couldn't get a job in an East end lodging house in London. They crawl, absolutely. Why, it's one of the sights of this country to see how long it takes a waiter to crawl across a dining room with his head down, and his shoulders up, and coat wearing a bald spot on the back of his head. Oh, I don't know about Kansas City! We haven't seen anything here, yet. But we've been at the best hotels we could find in Boston, Atlantic, New York, Washington and St. Louis.

"Pants Pressed in a Day." "And in the shops, too. Of all the languid shop assistants—oh, by the way, we're only staying until tomorrow evening and we have a pair of trousers to be pressed. Oh, yes. Telephone Jack.

"Yes we are here on business in a general way. Just looking around, I'm connected with a paint and oil business in Liverpool my friend with another in London. But we are here to make a general brief-business survey. Oh, no, I don't know that we sell care to see anyone in particular here. You see we haven't much time here, only two days. But now for the pigs."

## KANSAS CRIPPLE LEARNED TO KISS ROD

Diary of Topeka Woman Contains a Remarkable Evidence of Religious Trust.

Topeka, April 26.—Several weeks ago three died in Topeka, Mrs. John P. Davis, 1044 Topeka avenue. For thirty years Mrs. Davis had been a helpless rheumatic cripple, her only means of locomotion being an invalid's chair. Scarcely a day passed in that more than a quarter of a century that she did not suffer great pain. In her few hours of ease Mrs. Davis kept a diary. After her death these lines were found in the diary:

"I thank the Lord that it is as well with me as it is. My duty is submission to the will of the Lord. Because I am disabled I need not be useless or unhappy. I accept my situation as of divine appointment and I will try to be contented in it. Lamenting over the past will do no good. I cannot recall or change it. Complaining of the present will not mend it. It may make myself and others wretched. My Heavenly Father has permitted things to be with me as they are, and He knows what is best.

"I know He loves me, therefore, I will leave all to Him. No rebellion shall be cherished in my heart, and no murmur shall escape my lips. My Savior has promised that His grace will be sufficient for me. He will never leave me, but be a present help in the time of need. Trusting in Him, and committing all to my Father's loving care, I will do what I can.

"I will make the place where my lot is laid as cheerful as possible, and I will wait in patience until I am permitted to go to my heavenly home.

TAKE ADVANTAGE OF THE TIME REMAINING TO THE FULLEST EXTENT. SOME HAVE DONE VERY NICELY CONSIDERING. THERE IS STILL PLENTY OF TIME FOR THE OTHERS TO CATCH UP. 12,000 VOTES FOR A \$500 SUBSCRIPTION.

STOP. THINK, then you won't let your bridge end in midstream—remember there is always another side to everything. Think before it is too late. Then what you have accomplished to date will do you some good.

Don't journey through life thinking the world owes you a living and that you will get one of our prizes anyway. The world owes no man a living and he who has health and opportunity and is not willing to use his own individuality to attain success deserves to suffer.

Do not rush on without seeing the road, and like a charging bull, fall to see the stone wall ahead.

Don't expect to find "X" the great unknown quantity, the twentieth dimension, the secret of the ancients, the magic formula of the alchemist which changed the lead of incompetency into the gold of results. Don't deceive your self with the idea that you will get wealth as represented by our magnificent array of prizes, without getting down to hard work.

The man who has wrought his own position out of the capabilities of his own endeavors, takes pride in his achievements because they are the outward token of his individual abilities. They show that he has not squandered his time or his opportunities.

There is something ennobling in the sight of a man trying to carve his way through to success. The majority of mankind would glory in his achievement, because success represents the inward gaze of the man.

When considering the grand total that has been taken in through the instrumentality of this contest, some of our contestants have done very nicely, while more have not.

Those of you who have not—especially in district number two, should change tactics and try and be one of the leaders when the final count is made next Saturday. If you figure that you have delayed too long to compete for our two grand prizes, make an effort to win one of the district prizes and see how much better it will make you feel.

Once you are started in the right direction, you may develop strength enough to put in line for one of the grand prizes. This will mean that your name will be among the winners at the close. You'd like this, wouldn't you? Very well, then get to work and don't rest till you are a winner. You can do it if you halt try.

We won't have to talk to you a great deal longer about the closing of this contest, because it will be over at 11 o'clock next Saturday evening and all our prizes will be won or lost by that hour.

Next Monday some will be lamenting their hard luck, and putting the blame for their failure on "goodness knows who" but take our word for it, they won't put the blame where it rightfully belongs.

You had better get right after the subscriptions—if you wish to be one of the winners, because there are only three days remaining. The 12,000 votes allowed on each \$5 subscription will materially help your totals for the final count, so don't overlook any more subscriptions of this denomination than you absolutely have to.

Lots of workers complain about the way they have been treated by numerous individuals. In a great number of cases where they approached friends—or supposed friends—in the beginning of the contest, they were promised assistance later in the race and were requested to call again on such a day.

When the return call was made they were put off with one excuse or another and again promised assistance at a still later date. In several cases three or four calls were made and all the results accomplished were promises of a subscription the last week.

Now that the last week is here these supposed friends have been compelled to show their hands, with the result that the contestants get nothing but excuses—in the majority of cases.

People of this class are not worthy of the name of friend and are a discredit to the community in which they make a living. If you are not one of these you can sympathize with the contestants.

If you are one of them you should have been open and above board in the beginning, and told the contestant that you regretted being unable to assist them and nothing would have been thought of it, as everyone is entitled to use their own judgment in such a matter, as there is nothing compulsory in taking out a subscription for the Times. But to keep the contestant running after you week in and week out when you had no intention of helping her is a dirty low down way to behave.

This might account and it possibly does, why some of our contestants have not accomplished more, as they might have accomplished more, if their time and shoeleather had been spent in a different direction.

## Contestants Take Notice

From now on, no more votes will be returned to out of town contestants, as it is getting too near the close of the contest. All subscriptions sent in from now on should be sent by Special Delivery, so that you will be sure the same will be received before the close, as the counting of ballots will take place immediately after the contest closes. The out of town contestants, together with those residing in Wichita Falls, must have every vote and subscription in the Ballot Box before 11 p. m. Saturday, April 29th, as that is the hour set for closing this great contest. Don't put your subscriptions in the postoffice, as heretofore, expecting that they will count for you in winning one of our prizes. THEY MUST BE IN THIS OFFICE AT 11 P. M. APRIL 29th, 1911, OR THEY WILL NOT BE COUNTED. ON THE LAST DAY OF THE CONTEST NO PERSONAL CHECKS WILL BE RECEIVED FROM ONE INDIVIDUAL FOR A GREATER SUM THAN \$25. IF YOU HAVE MORE SUBSCRIPTIONS THAN THIS AMOUNT, BRING THE CASH, A CERTIFIED CHECK, A BANK DRAFT OR MONEY ORDER.

**PROSPECTORS ROBBED IN SAN ANTONIO**

Twenty-Six Purses Containing An Aggregate of \$2100 Stolen While They Slept

Special to The Times. San Antonio, Texas, April 26.—Twenty-three purses, containing an aggregate of \$2100 were stolen by a burglar from a party of prospectors from Illinois, Wisconsin and the Northwest while they were asleep in the East Side Hotel on the Cross S ranch, in the artesian belt district southwest of San Antonio early Sunday morning. The burglar made his escape and up to last night no clue had been found.

The party of prospectors, numbering twenty-nine, were brought through San Antonio Saturday, several of them having already made investments on the Cross S ranch. A. G. Seegar, connected with the Cross S ranch, who reached San Antonio yesterday from the ranch, reported the burglary. About 2 o'clock Sunday morning C. M. Metzger of Chicago, one of the prospectors, was awakened in his room by a noise, and he discovered a man reaching under his pillow for his wallet. Metzger grabbed the man by the arm and attempted to hold him, at the same time crying for help. The burglar pulled away from Metzger and ran out of the hotel, closely pursued by Metzger, who after chasing his several hundred feet, lost the trail, the robber disappearing in the mesquite brush.

Returning to the hotel, Metzger aroused the other members of the party and investigation by them showed that twenty-three of them had lost their purses. One of the purses containing \$700, was owned by A. F. Johnson of Chicago. The other purses contained smaller amounts. The robber was smooth enough not to take any jewelry, railroad tickets or even trunk checks. He kept hands off any article that might be used in identifying him in the event of his capture.

The purse of J. M. Phillips, Chicago representative of the Cross S ranch, who accompanied the prospectors, and which contained \$105, was found by a boy after daylight, it having been dropped by the robber as he was being chased by Mr. Metzger.

"A short time after the robbery a heavy rain set in, which interfered greatly in the search made for the burglar," said Mr. Seegar. "When the occupants of the hotel had been aroused by Mr. Metzger and told by him that he had been robbed, all looked for their purses, and with few exceptions they failed to find them. The purses had been in most instances taken from under pillows on which the party slept. In a few cases clothing was searched and what change was found was taken. The burglar did not disturb railroad tickets, watches or any other articles of jewelry.

The Tortoise is Slow to Die—One Was 300 Years Old.

(From Duluth News-Tribune)  
Proverbially slow in every way, the tortoise is, perhaps, the slowest of all animals to die. Stories about toads found living in closed pockets of the solid rock may be discounted, but that tortoise live to be 300 years old is believed. In the hall of the Episcopal Palace of Peterborough, in England, was preserved under glass the shell of a large tortoise. Records proved that it sojourned at Peterborough in the time of seven bishops.

Besides the shell lies the description, which says in part:

"It is well ascertained that this tortoise must have lived 220 years. Bishop Parsons had remembered it for more than sixty years and had not recognized it in any visible change. It ate all kinds of fruit and often a pint of gooseberries at a time, but it made the greatest havoc among the strawberries. "It knew the gardeners well, and would always keep near them when they were gathering fruit. It could bear almost any weight; sometimes as much as eighteen stone was laid upon its back. About October it used to bury itself in a particular spot of garden, at the depth of one or two feet, according to the severity of the approaching season, where it would remain without food until the following April, when it would emerge from its hiding place."

**An \$875 House and Lot To Be Given Away**

We have constructed on Block 18, original plat of the City of Wichita Falls, 14 four and five room houses. This property is located on the North side of Wichita Falls. Each house is piped for gas, and water pipes in the yard. We have decided to sell thirteen of these houses and lots at prices marked on each lot in the accompanying plat, and to give away house and lot No. 13 to one of the purchasers of the thirteen other houses and lots. The manner in which this house and lot is to be given away is to be determined by the purchasers of the other lots, and the owner. There are several ways in which this can be done, but we have decided that it will be more satisfactory to the purchasers of the thirteen houses and lots to decide this matter and settle upon a plan that will be most satisfactory to themselves.

House and lot No. 13—Four large rooms and bath room. To be given to one of the purchasers of the other 13 above houses, and lots in a manner or after a plan to be afterwards determined upon by the purchasers and the owner.

House and lot No. 14—Five large rooms and bath room. Price \$1050.00. Terms: \$375.00 cash; balance \$12.00 per month.

My reason for disposing of this property is simply because we need the money, just at this time, more than we need the houses and lots, and every house and lot is a bargain at the price made. There will be no cutting of prices, nor changing of terms. Every home must bring the price named, except that the purchaser will be permitted to take up as many of the monthly payments at one time as will suit his convenience. Here is a most excellent chance to secure a home or a splendid investment. The rents for which these houses will readily rent for will pay more than 20 per cent on the investment, and besides the purchaser of one of these houses and lots stands an equal opportunity with the other twelve purchasers of attaining two houses and lots for the price of one.

LAY OF CITY PAVEMENT.

They took a little gravel, and then took a little tar, with various ingredients imported from afar. They hammered it and rooled it, and then they went away. They said they had a pavement that would last for many a day.

But they came with picks and smote it to lay a water main; and then they called the workmen to put it back again. To run a railway cable they took it up some more; and then they put it back again. Just where it was before.

They took it up for conduits to run the telephone. And then they put it back again, as hard as any stone. They took it up for wires to feed the electric light. And then they put it back again. Which was no more than right.

Oh, the pavement's full of furrows. There are patches everywhere; you'd like to ride upon it. But it's seldom that you dare; it's a very handsome pavement. A credit to the town; they're always dignified of it. Or putting it off down.

Chicago Inter-Ocean. While it has often been said that the Democratic party can always be depended upon to act the fool at a critical time, it would seem from the way they lined up on the Canadian reciprocity measure in the lower House of Congress that they were closer together at this time than ever before.

The cotton crop for 1910 in the United States was 10,600,885 bales and according to the Manufacturers Record Northern Mills took 1,933,994 bales and the Southern Mills, 2,417,303 bales and we expect 6,233,677 bales. Two-thirds of the crop of America went to England for manufacturing and 99 per cent of the Texas crop left the state in search of a factory.

IRISH LADS WON FROM GAINESVILLE

WITHERSPOON'S HOME RUN IN FIRST INNING DECIDED THE CONTEST.

PLAYED IN A DRIZZLE

Contest Was Fast and Exciting. Green Will Go On Mound Today.

Gainesville, Texas, April 26.—With Green on the rubber the Irish Lads expect this afternoon to repeat yesterday's performance when they defeated Gainesville by a score of 2 to 1. Although yesterday's game was played in a drizzle it was fast and exciting.

Wichita Falls' two runs and Gainesville's single score resulted from home runs over the fence and the startled town men thought Mexican revolutionists were attacking the town when they heard it screech through the drizzle-sogged atmosphere.

D. Naylor was some artist with the hickory. Three times up and two hits that put him at the second station was his record.

Gainesville, Cleburne, Ardmore and Lawton got an even start at the bottom yesterday.

Cooper, Brown and Taylor drew circles in the batting percentage column.

A crowd of 1,200 attended and witnessed an exciting game. After the third inning Trammell, for the visitors, had splendid control. Shaw, for the locals, was touched up for three scores in the seventh, but otherwise pitched an excellent game.

Batteries—Bonham, Shaw and Scott; Ardmore, Trammell and Williams. Three-base hit—Williams. Two-base hit—McCullom. Hits—off Shaw 5, off Trammell 2. Double play—Bonham. Errors—Ardmore 5. Struck out—By Shaw 5, by Trammell 5. Time of game—1 hour and 35 minutes. Umpire—Naylor.

WROTE BETTER ENGLISH IN 1911. The Bible Translators Went to the Heart of Things, a Scholar Says.

Boston, April 25.—That the men who translated the King James Bible three hundred years ago knew how to use the English language better than any body of scholars in the whole world today is the opinion of President William H. P. Faunce of Brown University.

Speaking at the Bible tercentenary meeting in Trinity Church last night, Doctor Faunce said: "Men knew how to use language then as we know how to use-edged tools today. We can't equal them. We know too much to be simple. We have too many doubts to be so sure; we are too conscious of the verdicts of critics to aim straight at the hearts of the people. Since 1611 no man in England or America has written in such direct or simple style as the Bible translators save John Bunyan and Abraham Lincoln—the latter in his second inaugural and Gettysburg addresses."

THE "PICTURE GAME." Speaking of motion pictures, the charge for admission is seldom more than ten cents. To offset this, however, from the manager's point of view he has no exorbitant headlines salaries to pay, no orchestra, no seat coupons to print, and only one or two ushers to hire. Besides he need not advertise in the daily papers.

There are, moreover no disputes to settle with the performers about the locations of dressing rooms or positions on the bill, and no regular treasurer need be engaged. In his place the moving picture impresario needs only a neat looking girl cashier, posted in a glass cage as close to the side walk as the law will permit—in order, I suppose to get a patrons money before he has time to change his mind about going inside. For there is no denying that the film habit distinctly lacks "class."

Managers go into the game because the risk is almost nil, and thousands of people patronize it simply because they haven't the price to pay for flesh and blood entertainments. In fact cheapness is rampant all along the line of the kinetoscope, even to the pay that the writers of the scenarios draw. Although it is much more difficult to devise a good wordless play than one in which dialogue can be used the authors receive for most part only ten to twenty-five dollars per piece.

WIT OF THE INDIAN

The Dignified Red Man Has a Keen Sense of Humor.

STORIES OF STANDING BEAR.

The Race the Old Chief Was Willing to Run Against a Government Attorney—A Gallant Brave and His Mirror—An Invisible Bridge.

The impression prevails widely that the Indian lacks the saving sense of humor—that most characteristic of all American qualities. To the credit and the spreading of this impression many recognizable traits of Indian character have indisputably contributed—his ancestral pride, his exclusiveness, his gravity of face and dignity of manner in public.

Nevertheless an injustice is done him, for among no primitive peoples is the sense of humor keener or more spontaneous and kindly. Years ago I was conversing with a group of children of the Omaha tribe. They were on their way to a reservation school, and directly in their path lay a swamp an eighth of a mile wide, and straight through this they were required to wade twice a day.

"It is too bad," I remarked. "Can you not go around the swamp? Your feet will be wet, and you will be uncomfortable and possibly ill."

"Oh," cried a girl of about twelve years, her dark eyes dancing with merriment, "we walk over the \$12000 bridge."

They all laughed at this. What could it mean? I saw no bridge; there was no bridge to be seen. It made them merry to see me mystified, and I heard them laughing and chatting as they went through the water and mud. Afterward I discovered the humor in the remark. Some years previous to that time the government had appropriated \$12,000 to build a bridge over this swamp, but somehow the money had vanished into somebody's pocket and the work was not done.

One evening I saw a gallant young brave making his way swiftly over the prairies of the Omaha reserve. He was dressed in all his finery, and at his side dangled a small mirror. Manifestly he was an ardent lover. This I should have surmised from his dress and eager haste, even if I had not known him. As he was a friend of mine, I had inside information of his hopes and purposes; also I ventured to stop him for a moment, precisely as I knew him time to be.

"That mirror at your side," I remarked, "is to give opportunity for Prairie Flower to discover how lovely she is, is it not?" He considered a moment, and then, with a twinkling eye, he replied: "No. Maybe so she will talk too much to me, and then I will look into my mirror to see how tired I am."

This certainly was the humor of absurdity. Examples of Standing Bear's humor I could give almost without number. During the trial of his case before Judge Dundy the contention of the government attorney was that an Indian is not a person within the meaning of the law. This puzzled the old chief greatly. It also amused him.

One day at my table he was vigorously playing a knife and fork when suddenly he paused in his eating, lifted up his hands, and, a humorous smile lighting up his noble, storm-scarred face, he remarked: "The attorneys say I am not a person. But I can use a knife and fork. Does a bear do that? If he, the attorney, is a person I am one also. We both eat with knives and forks. Indeed, I think I can use them faster than he can. If he wants to race me eating I am ready." We all laughed at this. When we were quiet Standing Bear added: "That is, I will run an eating race with the attorney if he will try for the beefsteak."

The first public address Standing Bear ever made was given in my church. In the course of it while he was pleading for assistance he addressed various classes of people present—the men, the women, the clergy, the business men, the children. When he was pleading with the women he said: "I appeal to you because you are brave and patient. Whenever you have anything hard to do you never rest until it is done." This was a gallant sentiment worthy of a chief. But Frank La Plesche, who was interpreting, rendered the sentence thus: "You women are patient. When there is anything hard to be done we men let you do it."

This was so true to Indian custom that the audience laughed. Standing Bear was puzzled. As he stood silent a moment wondering what mistake he had made Bright Eyes, the beautiful Omaha maiden, stepped forward and said: "My brother, Frank has made a mistake in interpreting the chief's thought." Then she gave the proper rendering.

The Chicago papers took liberties with Standing Bear's name, one of them referring to him constantly as Upright Bruin. When this was explained to the chief he took the matter with great good nature.

"What does it matter?" he remarked, his face beaming. "I am all tied up with names. I am like a pony tangled in his lariet. Father Hamilton, the Presbyterian, calls me elder. The Episcopal clergyman calls me warder. For I am an officer in the little church in our village, where both these good men preach. And now the papers call me—what is it? Yes, Bruin. No matter. The judge in Omaha says I am a person, and that satisfies me." —Southern Workman.

By Associated Press.

Galveston, Texas, April 26.—Wind here for five minutes last night reached a velocity of fifty miles an hour. But little damage is reported from the Texas coast from the storm which is off the Louisiana coast today. A heavy gale broke its moorings last night drifting into the railroad dregs and is delaying trains in and out of the city for several hours.

**WOMEN IN PORTUGAL**

Dig in the Fields and Do Laboring Work in the Cities.

A good part of the farm work is performed by the women, who see it as their duty to help their husbands. A few acres of land will often leave its cultivation to his wife and daughters while he labors as carpenter, stone mason or cooper, for caskmaking is one of their important industries. It also likes to get a job as a sculler in one of the numerous hotels at seaside resorts, for the country has thousands of continental and English visitors.

Women share in the heavy work of the cities as well. There are female porters, laborers on the docks, market tenders and even women coal heaver fishermen, or rather, fisherwomen, and sailors. They are as strong and hardy as their husbands and brothers and seem to stand long hours and hard labor as well.

Of course it rather takes away the glamour of romance when one sees a young woman with finely chiseled features and beautiful black eyes digging with spade and mattock or heaving a basket of coal into a ship's hold with as much ease as the American girl plays tennis and golf. Women seem happy under what we would consider hard conditions, so the women would probably hate the labor for his own if he suggested a change in the department of Portuguese national existence.—Christian Herald.

**KILL THEM YOUNG.**

Do Not Tolerate Weeds in the Garden of the Soul.

An old man was once walking with a little boy. They came across four shrubs. The old man said to the youthful companion:

"Pull up the last one."

He obeyed with ease.

"Now the next."

He obeyed, but it did not come so easily.

"And the third."

It took all his strength to move its roots.

"Now the fourth."

In vain the lad put forth all his strength. He only made the leaves tremble. He could not move the roots. They had gone strongly into the earth, and no effort could dislodge them.

Then the wise old man said to the ardent youth:

"This, my son, is just what happens with our passions. When they are young and weak one may by a little willfulness over self and the help of a little self denial easily tear them up. But if we let them cast their roots deep into our souls there is no human power can uproot them. The sluttish hand of the Creator alone can pluck them out. For this reason, my child, watch well over the first movement of your soul and study by acts of virtue to keep your passions well in check."—St. Louis Globe-Democrat.

**Something in the Eye.**

Small substances, like cinders, dust or small chips of stone or metal, can often be removed from the eye by very simple means. Sometimes catching the upper lid by the lashes and pulling it away from the eyeball and down over the lower lid, then letting it go, so that as it recedes its under surface is swept by the edge of the lower lid, will clear it out. If this does not prove successful a loop made of a horsehair or of a long human hair can be passed under the lid and swept from the outer side toward the nose and drawn down. Better than this, however, is the washing of the eye or flushing with the eye dropper. Every person should carry one in his traveling bag, for they are invaluable. Catch hold of the lower and upper lid, draw them away from the eye and then fill the dropper, which is like a small syringe, with water and flush the eye two or three times. This will always remove the cluder at once.—Family Doctor.

### A HOPEFUL MESSAGE TO SCALP SUFFERERS AND MEN WHO'S HAIR IS THINNING

Dandruff now--bald later. The same is true of scalp diseases. In fact baldness is a scalp disease. The trouble with the greasy salves and lotions, the so-called dandruff and scalp cures you have tried so far is that they don't do anything but temporarily relieve the itching and make the dandruff so it doesn't fall until it dries out again. Nothing can cure--really cure such troubles but a real scalp medicine that will kill the germs causing dandruff and scalp disease.

Learning from leading fellow druggists throughout America that they had found a whirling cure for dandruff, eczema and all diseases of the skin and scalp the Miller Drug Store on proving to the laboratories composing the treatment that it is the most prominent drug store in this city secured the agency for the remedy. This remedy is ZEMO, the clean, liquid preparation that kills the germ of disease and ZEMO SOAP to wash the scalp or skin clear and clean of the dandruff or scale and by its anti-septic qualities soothe and heal.

Sold and guaranteed by druggists everywhere and in Wichita Falls by MAYER Drug Co.

### Don't You Need Some Sauce Fruits This Week

How would some fancy apricots do? Nice bright clean fruit. Medium sized and very tender. They are only 20c per lb. Then there's peaches and we have as fine a stock of them as you will find in the city. Nature ripened, hand picked, sun dried and as clean, fresh and tasty as can be. Two sizes; the large ones only 15c per lb. the small ones 12 1/2c. Prunes are scarce. Last year's crop was small and its almost gone. Wholesale prices are up now, but while our present stock lasts we will sell 40-50's for 15c per lb. After they are gone OUR prices go up too if we can get any to sell. Dried apples are fine, we have some very nice ones at 15c per lb. Then if you haven't had any stewed figs lately try some of them. 12 1/2c per lb. for pulled figs of fine quality.

**SPEER CENTRAL FIGURE IN DEADLOCK**

Connection With Moffat Interests Causes Colorado Democrats To Fight Shy.

Denver, Colo., April 25.—One man's personal power in a state of nearly eight hundred thousand is held responsible by political observers for the deadlock over the United States senatorship in Colorado. The Eighteenth General Assembly has been trying for more than one hundred days to elect a successor to Charles J. Hughes, Jr., who died in January, but never has been near accomplishing an election. The man credited with causing the deadlock is ex-Senator Thomas M. Patterson. The Lorimer scandal in Illinois also has its effect, as, under ordinary circumstances, it would not be difficult in Colorado to form a combination in the legislature of Democrats and Republicans.

Before Senator Hughes died, it is declared, those allied with him politically were kept informed regarding his illness and knew all the time that his death was near, and consequently were organized for the senatorship fight when he died.

Mayor Robert W. Speer of Denver, long a friend of Hughes, denied vehemently before Hughes' death that he was a candidate for the senatorship, but after the former senator died he announced his candidacy.

Speer long has been known as a machine, or organization, Democrat. Hughes, before he became senator was attorney for the Moffat-Evans interests—the utility and railroad properties owned by the late David H. Moffat and William G. Evans, the Republican boss of the state, and it has been charged that the Moffat-Evans interests, which supported Speer in various municipal campaigns, have supported him for the senatorship.

When it became certain that Speer was a candidate for the senatorship, ex-Senator Patterson began a bitter campaign against him, though favoring no one in particular to oppose him. Patterson owns the Rocky Mountain News, a morning newspaper, and this has been filled with attacks on Speer from the start of the fight.

Patterson, from the beginning of the battle, has dwelt on the Lorimer case, frequently in editorial and news columns using the phrase, "Don't Lorraine Colorado." Before a ballot was taken in the legislature a veteran Republican senator, Cassius B. Barry, known as the "perpetual," because of his long service from Las Animas county, where the Colorado Fuel and Iron Company has been a dominating factor in politics—announced in caucus he would be willing to vote for Speer and that other Republican caucus was called and the minority in the legislature was pledged not to vote for a Democrat under any circumstances.

Patterson has been aided in his campaign by ex-Senator Frank J. Cannon of Utah. Cannon is managing editor of Patterson's newspaper and has had some experience in fighting machines.

Patterson, at the start of the senatorial battle, advised the legislature to refuse to enter a caucus under any circumstances, and he declared frequently that a deadlock was advisable—that it would be better to let the election go over to 1912, when a new primary law providing for nomination of senators on the Oregon plan will go into effect.

Speer recently, in a bitter attack on Patterson expressed confidence that he would be elected, but the prediction now is that the legislature will adjourn without an election, as the Pueblo county Democratic convention was reconvened last week and instructed the Pueblo representatives in the legislature to continue supporting former governor Alva Adams and refuse to enter a caucus under any circumstances.

**GUTENBURG BIBLE SELLS FOR \$60,000**

Henry E. Huntington Pays Highest Price On Record for Single Volume at Auction of Hoe Collection.

New York, April 25.—The first book ever printed from movable type to-night brought the highest price ever paid for any book. The price was the Gutenberg Bible, the purchaser was Henry E. Huntington of Los Angeles and the price \$60,000.

The purchase was made at the opening session last night of the sale of the library of the late Robert Hoe, the largest public auction sale of books ever attempted. Experts have estimated the collection to be worth more than a million dollars, and wealthy amateurs and dealers from Europe have come to vie with the American bidders in bidding.

The highest price previously paid at a public auction for the Gutenberg Bible was \$20,000, at which Bernard Quaritch purchased it in England 14 years ago. At private sale he disposed of it shortly afterward to Mr. Hoe at a profit of \$2,500, and it has remained in the Hoe collection ever since. The copy was printed some time between 1450 and 1455.

Bidding for the treasured book was spirited with Bernard Quaritch, son of the former owner, participating until the bids passed the \$21,000 mark. From there it jumped by thousands at a clip to \$45,000. At \$49,000 P. A. B. Widener of Philadelphia, who had been the most determined of the runners up, dropped out of the race and the even-\$50,000 was bid by Mr. Huntington.

Total sales for the day and night sessions were \$134,866 for 379 numbers.

Next to the Gutenberg Bible, the book of St. Albans, compiled by Juliana Berners and published by Caxton in 1485, brought the highest price—\$12,000—also bought by Mr. Huntington. It is the third book ever set up in type by English printers.

The tenth book of the history of the Ethiopians, by Heliodorus, printed in Basle, Switzerland, by Isaacus Oporinus in 1564, and bound by Grolier, went to Walter M. Hill of Chicago for \$5,000.

A history of Italy by Francesco Guicciardini, bound by Nicholas Eve in 1561, with a full length portrait in mosaic of morocco and vellum of Henry IV, was bought for \$2,600 by Mr. Huntington, who was the heaviest buyer of the day.

SHOW STYLE IN YOUR BELTS.

Linen and Crocheted Effects Will Be Popular This Summer.

The girl who embroiders may not feel certain of the spring designs for blouses and summer dresses, but she will scarcely go amiss in starting belts to be worn with her spring suits and summer costumes, the Christian Science Monitor says:

For morning wear the belts of heavy linen, done in conventional design of eyelet and satin stitch, are always in fashion with white linen skirt and blouse, and have the merit of washing well. These are of two kinds—the wide crushable belt that narrows slightly to the front, and has a rounded end that is drawn through a harness buckle, and the narrow straight belt that measures from less than three inches and is stiffened with canvass or worked on extra heavy linen and starched to keep its shape.

Interlaced sizes, a continuous scroll intertwined, and the Greek Key designs are appropriate for these stiff belts which are handsewn while done in heavily padded satin stitch rather than in eyelet work.

Often the buckles are made of linen to match the belt. The embroidery is finished and the belts are taken to a jeweler's to be mounted, or they can be covered over heavily wired pieces of shaped canvass, or used as a covering for an old brass or mother-of-pearl buckle. In this case the covering is basted, that it may be ripped easily for laundering.

It is a pretty fashion to make belt and jabot to match in white linen embroidered in white, in colored cottons on white or in white mercerized cotton on colored linens. These colored accessories are stylish, with the plain shirtwaist for golf or tennis. Frequently the Dutch collar completes the set.

The crocheted belt and tie in heavy silk or crocheting cotton are in favor by the outdoor girl. Any plain crocheted stitch may be used, or directions can be had from art needlework departments. The belts are worn with a plain hammered brass or a leather buckle to match the belt coloring. Quite young girls delight in having these crocheted belts in club or school colors. Other good looking belts for steady wear are done on canvass in cross stitch.

To permit a mother to carry a baby yet leave her hands free for packages or an umbrella, a Canadian woman has patented a basket with straps to suspend it from the shoulders.

IT'S THE SAME WITH DRUGS. The woman who begins to cook has all kinds of troubles at first. No matter how carefully she follows the recipe, her biscuits are flat until she learns the knack of mixing them just so. A prescription is just as easy for a druggist to fill as it is for a housewife to measure out flour and sugar for a recipe, but it is necessary that a prescription be filled just so in order to get proper results. Ask any doctor if this isn't the truth, then get your prescriptions filled here. We know how to do it "just so" and you will get the results intended. Marchman's Drug Store.
