MERCHANTS MEETING CLOSURES WITH BALL

CLOSING FUNCTION OF CONVENTION WAS ONE OF ITS MOST ENJOYABLE FEATURES.

MEET NEXT IN DALLAS

North Texas Metropolis An Easy Winner in Contest for Next Convention—Officers Elected.

Next meeting place—Dallas. Officers elected: S. B. Pfeuffer, New Braunfels, first vice president; W. S. Callaway, Temple, second vice president; Chapman Thomas, Dallas, third vice president; Charles M. Campbell, Temple, treasurer.

B. J. Bean, Wichita Falls, August Bream, San Antonio, and E. A. Hudson, Houston, directors for three-year term.

F. H. Crittenden, Fort Worth, director, succeeding F. A. Thompson. The ball and band concert at the Pavilion Thursday night fittingly brought to a close what delegates say was the best and most enjoyed convention ever held by the Retail Merchants' Association of Texas.

Everybody joined in making the final function in connection with the convention as enjoyable as possible.

The business sessions of the convention were brought to a close late Thursday afternoon with the election of officers and the selection of the next meeting place.

As forecasted W. M. Morgan was unanimously re-elected president of the association for another year and Dallas won out in the contest for the next convention. Before the roll call of towns was completed it was seen that Dallas was an easy winner and upon a motion of Mr. Solsky of Beaumont, a city that invited the convention to meet at that place, moved that the selection be made unanimous, which was done by acclamation.

R. E. Kerr, a prominent member of the Retail Merchants' Association of Fort Worth, who with Mrs. Kerr has been attending the state meeting at this place, left today for his home. Before taking his departure Mr. Kerr took occasion to say a number of nice things about Wichita Falls and the splendid manner in which the association was entertained by this people, which he said was a revelation to many of the visitors who were unacquainted with the hospitality of the city.

In discussing the convention and the entertainment features Mr. Kerr stated that the program provided here surpassed that of any furnished here before, both in the extent of the entertainment and in the variety of features furnished. "Too often," he said, "such conventions are overlooked until perhaps the last day and then the entertainment all comes at once and in a way that it can not be appreciated so well as when distributed throughout the session as was done in this instance."

"Another thing," said Mr. Kerr, "that added a great deal to the pleasure of the program prepared by your city, was the informal way in which we were entertained, just as though it was an every-day thing for Wichita Falls, it seemed to require no effort whatever upon the part of your people and we were made to feel perfectly at ease and at home."

CAMILLE TONIGHT AT TENT THEATER

"Noth Calina Folks," the play presented last night by the Ewing Company at the big tent theatre, attracted a good sized crowd. The play seemed to have pleased as well, if not better, than any that has been presented by these players.

This evening Miss Ewing will present the famous French romance "Camille." Theatre-goers are more or less familiar with the story and drama. Miss Ewing's interpretation of the heroine is regarded as one of her most finished portrayals.

The registration book used during the meeting of the Retail Merchants' Association shows a total of 279 names registered on account of the occasion.

FIREMEN REJECT MEDIATION PROPOSAL

Washington, May 26.—Representatives of the firemen on the Southern Railway today flatly turned down the proposal of the railroad that they submit the present controversy to a board of mediation. The firemen insist upon a twenty per cent increase in wages. The railroad asked for a further conference this afternoon.

STREET IMPROVEMENTS IN THE EARLY DAYS

The recent extensive work on the streets of the city recalls to the minds of some of the older settlers the early efforts in the way of street improvements in Wichita Falls, which began just about twenty-three years ago this spring. At that time O. T. Bacon was appointed by the Commissioners' Court to superintend some grading that was to be done under the old road law, for at that time there was no city supervision of street matters as exist at this time.

Mr. Bacon in referring to the matter this morning was quite reminiscent and recited the incident with a recollection that was remarkable for its accuracy in detail. He told of how he filled a hole in the rock and worked to a grade furnished by nature in the course of the waters as they would run on occasions when there was a rainfall, how he would place huge rocks in the low places, to be criticized by those who contended that they would make the streets too rough for travel.

The first work at this time was done near the corner of Indiana and Seventh, near the old city hall after which the activity in the matter of making the streets more passable was shifted from one part of the then small village to another until a great improvement was made in the condition of the different thoroughfares.

These incidents will be remembered with interest by those who lived in Wichita Falls at that time and to those who have watched the progress of the city, the difference in the place then and now is a picture of achievement perhaps without a parallel in the history of the state.

ST. LOUISIAN ATTEMPTS TO BULL WHEAT MARKET

By Associated Press. St. Louis, May 26.—Wm. Lanyon, a well known capitalist, is engineering one of the biggest wheat deals ever attempted here. May wheat valued at one million dollars is involved in the transaction, it is said. Lanyon is on the bull side and insists that every bushel he bought on option be delivered at Chicago at the market price.

A NUMBER OF ARRESTS MADE.

By Associated Press. San Augustine, Tex., May 26.—With the arrest of Henson Coulter, and two sons and Ellisha Ware, the authorities say they have but one additional warrant to serve before having in custody all the parties charged with the murder of Arch Lynch, the lumberman, alleged to have been killed in ambush near his mill Wednesday.

Canada's "Grand Old Man," Sir Charles Tupper, the veteran statesman, who will probably be the oldest notable at the coronation of King George.

Despite the fact that he is in his ninetieth year, he has accepted the invitation to witness the ceremony, and is expected to witness the ceremony, and is expected to witness the ceremony, and is expected to witness the ceremony.

Sir Charles, who was born in Nova Scotia and educated in Scotland, has been a great figure in the public life of Canada, and had no small share in bringing about the marvelous progress which has been made in that country during the past half century.

He helped to bring about the Canadian Federation, he had for a long period been premier of his own province of Manitoba. Subsequently he was high commissioner of Canada in London for twelve years, and then he became premier, a position he held for only a short period. The veteran statesman had a baronetcy conferred upon him in 1888. His son is also Sir Charles, a K. C. M. G. of 1883. He is a barrister, and first entered the Dominion Parliament in 1852.

KELL ATTACKS RECIPROCITY

Wichita Falls Man Tells Grain Dealers That Proposed Treaty is Inimical. DALLAS, Tex., May 26.—The Texas Grain Dealers' Association listened this morning to a vigorous address by Frank Kell of Wichita Falls, assailing the proposed reciprocity treaty with Canada.

Mr. Kell declared that the ratification of the proposed treaty would be a serious blow, not only to the grain dealers and millers of the Southwest, but would injure the farmer. The reciprocity treaty, he said, would enable the Minneapolis millers with their proximity to the Canadian wheat fields to completely dominate the flour trade and to gobble up the export trade, some of which the mills in the Southwest are now getting and would cause many mills to close for a longer or shorter period. He declared the millers of the Southwest on this account could not pay so much for grain, and that as a result the farmers would be the losers.

Mr. Kell's speech was delivered with conviction and force, and created a deep impression.

HIS WORK ALWAYS BEST D. O'REILLY VERY BUSY

Work on the addition to the Moore and Knight building at the corner of Seventh and Indiana, is progressing rapidly, and before very long will be ready for occupancy. The work is being done under the personal supervision of Contractor D. O'Reilly, who is taking pains to make it one of the best structures in the city, which by the way, is what Mr. O'Reilly always tries to do.

The building is of Coffeyville brick, with stone trimmings to conform exactly with the main part. The addition is to cost in the neighborhood of \$8,000, and when completed the store will have a depth of 140 feet. Mr. O'Reilly also has the contract for the construction of the front of the Benett & Hardy building on Ohio avenue. This front is to be of buff brick with trimmings of artificial stone made by the Southern Architectural Cement Stone Co. of Dallas. The front is designed by Jones & Orlop of this city, and with Mr. O'Reilly to carry out their plans, they propose to have the most modern and beautiful building front in the city.

Incidentally, the work that Mr. O'Reilly is now doing calls to mind the fact that he has had a hand in the construction of almost every building of consequence in the city, either as a contractor himself, or as foreman for his brother in the earlier days, and this fact speaks well of the character of the work he has done in his twenty years service for the people of Wichita Falls.

When a contract is awarded Mr. O'Reilly that is a guarantee that the building will be put up in proper shape. By Associated Press. Madrid, May 26.—Pierre Vedrine, the French aviator arrived at the Spanish capital from Bourdeaux at 8:06 o'clock this morning, being the first contestant to complete the third stage of the Paris to Madrid aviation race. On reaching the judges stand he was showered with roses and kissed repeatedly by the women.

EIGHTEEN SHOSHONE BUCKS ON WARPATH

WELL ARMED AND READY FOR MURDER, THEY EVADE OFFICERS IN LITTLE HIGH ROCK CANYON. Indians Thirst for Blood of White Man to Avenge Killing of Indian Band.

PROSPECTORS WARNED

By Associated Press. Reno, Nev., May 26.—Eighteen Shoshone bucks from the Duck Valley reservation are in the Little High Rock Canyon in Northern Washoe county to avenge the killing of the Indian band that murdered four stockmen last February. All prospectors have been warned by the officers to keep out of the canyon unless prepared to fight. The Indians are well armed and are subsisting on sheep stolen from the stockmen. Four bucks, two squaws, and two papooses were killed at Kelly's Creek on February 26 while resisting arrest for the killing of four stockmen.

WICHITA FALLS CO. GETS VERNON CONTRACT

The trustees of the West Vernon school this week awarded to F. L. Ernst & Co., of Wichita Falls, the contract for the building in that district for \$7,173. Construction is to begin at once and the building will be ready for occupancy by the opening date of the fall school term. The district recently voted an \$8,000 bond issue to be used in erecting and furnishing the building. The building is to be of brick, two-story, of some eight or ten rooms, and is to be modern in all of its appointments.—Vernon Record.

GIGANTIC METEOR FALLS IN CALIFORNIA

Missile Struck the Earth With Awful Force—Shock Felt for Thirty Miles. By Associated Press. Doyle, Cal., May 26.—The fall of massive meteor today caused consternation in Lassen county. The shock when the blazing missile struck the earth was felt for thirty miles.

VEDRINE REACHES SPANISH CAPITAL

Winner of Paris to Madrid Aviation Race Kissed Repeatedly by Women. By Associated Press. Madrid, May 26.—Pierre Vedrine, the French aviator arrived at the Spanish capital from Bourdeaux at 8:06 o'clock this morning, being the first contestant to complete the third stage of the Paris to Madrid aviation race. On reaching the judges stand he was showered with roses and kissed repeatedly by the women.

NINETEENTH KILLING IN DALLAS THIS YEAR

Frank Landry Shoots and Kills E. M. Taylor Over Non Delivery of Telephone Message. By Associated Press. Dallas, May 26.—Frank Landry fired two shots into the neck and breast of E. M. Taylor, manager of the Dallas Transfer Stables, this morning, the wounds causing death within a few minutes. Landry escaped and the officers are in pursuit. The trouble is said to have been over the failure of Taylor to deliver a telephone message to Landry yesterday. This nineteenth killing in Dallas during the current year.

PRESIDENT OPENED MOBILE CELEBRATION

Also Sends Message of Felicitation on Celebration in Honor of 200th Anniversary. By Associated Press. Mobile, May 26.—President Taft in Washington touched the electric button this morning which signalled the start of the big parade in celebration of the two hundredth anniversary of the founding of Mobile by the French. Included in the parade were 300 blue packets and marines. President Taft sent a message of felicitation as follows: "Having survived the failure of four flags may Mobile continue to prosper and grow more beautiful under the present one."

By Associated Press. Waxahachie, Texas, May 26.—The three-year-old daughter of Mrs. B. A. Belcher near Palmer is dead from drinking gasoline while its mother was absent from the room. Prosecutions Ordered. Paris, May 26.—United States District Attorney Owen today received instruction to prosecute several corporations in the eastern district of Texas for failure to report their income to the government for taxation.

BAILEY THREATENS TO DESERT LORIMER

Washington, May 26.—William Lorimer of Illinois is on the point of losing several of his most determined senatorial friends and champions. There are strong indications that Senator Bailey of Texas, who saved him from expulsion in the last session and led the small band of Democrats who voted for him in preparing to cut loose from Lorimer while Senators Simmons of North Carolina, who has four opponents; Johnston of Alabama, who is up for re-election, and Fletcher of Florida, are said to be anxious for a good chance to vote on Lorimer. The Bailey speech in the Democratic caucus yesterday morning is construed by his colleagues as meaning that Mr. Bailey no longer deems it possible to stand by him and is prepared to vote to unseat him, if a vote is taken. With the loss of Senator Bailey, the Lorimer defense would crumble, and the prediction is made by senators today after the caucus that Lorimer's expulsion would be by the unanimous vote of the Senate, unless he forestalls this action by resigning.

THIRTY-ONE CARS QUALIFIED.

By Associated Press. Indianapolis, May 26.—Up to noon thirty-one cars had qualified for the big Memorial Day automobile race. Those qualified include the best known drivers.

ONE MARRIAGE LICENSE SEVEN DIVORCE SUITS

Fort Worth, May 26.—The little love god was handed a stiff uppercut Thursday. While only one couple registered at County Clerk Lon Beaver's matrimonial bureau for a permit to wed, seven seasoned brides or bridegrooms expressed their willingness to forego a continuance of the matrimonial state. Seven petitions asking divorce were filed in the district clerk's office Thursday. The petitions urged everything in asking for the decree, from jealousy to abuse. Only one couple, M. E. Young and Miss Adenah Nolan of Avondale, secured a license to wed.

GOT VERDICT FOR \$5.

San Antonio, May 26.—Suing for \$10,000 damages, Ed. Holcombe in the Forty-fifth District Court, was given a verdict for \$5 against the Southern Structural Steel Company. He alleged the defendants made libelous statements concerning him.

United States and Canada Represented
Rome, May 26.—A score of nations, including the United States and Canada, are represented at the fifth International Fisheries Congress which opened here today. Dr. H. F. Moore of the United States Bureau of Fisheries heads the American delegation. Canada is represented by Prof. E. E. Prince, who is vice president of the congress.

Queen Mary's Birthday.
London, May 26.—Queen Mary was the recipient of innumerable congratulatory messages and many valuable presents from her royal relatives and friends today on the occasion of her forty-fourth birthday anniversary. Her Majesty was born in Kensington Palace, May 26, 1867.

Mobile's Day to Jubilate.
Mobile, Ala., May 26.—Closing the second century of her existence, there began in Mobile today a week's celebration in honor of the great forward strides that the two hundred years have witnessed. It was in 1711 that the settlements of Mobile were founded by the little band of French under the Canadian, others, Le Moyne, the Sieurs d'Iberville and de Bienville, who aimed to establish an empire for France.

Elks' Home Dedicated.
Mankato, Minn., May 26.—The handsome new clubhouse of the Mankato Elks was formally dedicated an opened today with an elaborate program of exercises and festivities. The dedication was attended by the grand officers and by many prominent members of the order from Minneapolis, St. Paul and other cities of Minnesota.

Benefit for Moran's Family.
Chicago, Ill., May 26.—An unusually large crowd flocked to the American League grounds this afternoon to witness the baseball game played by the Chicago and Philadelphia teams for the benefit of the family of the late Fire Marshal James Moran, who lost his life in the stockyards fire last winter. The dead fireman was an ardent baseball enthusiast. The Chicago club with the sanction of the league officials, decided to donate its entire receipts of the game to the Moran family.

Missouri Valley Games.
Des Moines, Ia., May 26.—The number and high class of the athletes entered for the Missouri Valley track and field games here tomorrow give promise of some record-breaking performances. All indications point to the most successful meet ever conducted under the auspices of the association. Nearly all of the leading colleges and schools of Colorado, Iowa, Nebraska, Missouri, Kansas and South Dakota will be represented.

Knew Chicago as Indian Settlement.
Chicago, May 26.—Fernando Jones, Chicago's oldest pioneer citizen, kept open house for his many friends on the occasion of his ninety-first birthday anniversary. Mr. Jones was born in Chautauque county, N. Y., in 1820, and came to Chicago with a load of hardware fifteen years later. The "city" at that time consisted of a few houses clustered around old Fort Dearborn, and the trade was principally with the Indians. Mr. Jones has seen Chicago grow from a town of a few hundred people to a metropolis of 2,500,000, and, as he told his friends today, he hopes to see 100 years and a Chicago of 4,000,000 persons.

GOOD NEWS FOR CATARRH SUFFERERS.

So many hundred of catarrh victims who have taken the HYOMEI treatment, have written thanking us for publishing our method of taking the HYOMEI vapor treatment in connection with the inhaler that we gladly publish it again.

The vapor treatment is especially recommended in stubborn cases of chronic catarrh of long standing, but remember that the inhaler should be used daily as usual.

This treatment only takes five minutes time before going to bed. Pour a teaspoonful of HYOMEI into a bowl of boiling water, cover, head and bowl with towel and breathe for several minutes the vapor that arises.

You will be surprised at the result of this treatment; it makes the head feel fine and clear; you will sleep better, and that stuffed up feeling will gradually disappear.

This method will break up the worst cold in the head in one night. A bottle of HYOMEI cost 50 cents at O. F. Marchant's who guarantees complete relief, which includes the little pocket inhaler, costs \$1.00. No stomach dosing; just breathe HYOMEI and cure catarrh and all diseases of the breathing organs. Free trial bottle by addressing Booth's Hyomei Co., Buffalo, N. Y.

Guy Potter Benton.
Dr. Guy Potter Benton, who has resigned the presidency of Miami University to accept a position at the head of the University of Vermont, was born in Kenton, Ohio, May 26, 1865. He graduated from Ohio Normal University and the University of Wooster. He began his career as an educator in 1890, when he was chosen superintendent of schools at Fort Scott, Kas., a position he held for five years. His success there led to his appointment as assistant State superintendent of public instruction in Kansas. A year later he was called to Baker University to the chair of history and geology.

member of the State Board of Education of Kansas. From this position he was called to the presidency of Upper Iowa University, which he filled with success until being called to Miami University in 1902 as president, which office he has since held.

LOCAL FIRM WILL CONTINUE VALUABLE AGENCY

Miller Drug Co., of this city has just closed a deal whereby they will continue to be agents for ZEMO—the well known remedy for eczema, dandruff, and all diseases of the skin and scalp.

The extraordinary leap that this clean liquid external treatment for skin affections has made into public favor in the last few years proves its wonderful curative properties and makes it indeed a valuable addition to the fine stock of remedial agents carried by Miller Drug store.

They have a limited supply of samples. One of which will be given free to any skin sufferer who wishes to test the merit of the medicine. A booklet "How to Preserve the Skin" will also be given to those interested.

THIS DATE IN HISTORY

- May 26. 1623—Sir William Petty, a noted physician who was one of the first to advocate industrial schools, born in Hampshire, England. Died in London, Dec. 16, 1687. 1814—Dr. Joseph Ignace Guillotin, for whom the guillotine was named, died in Paris. Born in Gaintes, France, May 28, 1738. 1822—Edmond de Goncourt, the writer who prophesied that Americans would conquer the world, born in Nancy, France. Died July 16, 1896. 1848—The French Government decreed the perpetual banishment of Louis Philippe and his family. 1861—The port of New Orleans blockaded by the sloop-of-war Brooklyn. 1864—Montana organized as a territory. Queen Mary, consort of King George V, born in Kensington Palace, London. 1892—Annie Clarke, one of the best known actresses of her day, made her farewell appearance at the Boston Museum. 1897—F. G. Marchand became premier of Quebec. Theodore Roosevelt received the degree of Doctor of Laws from Cambridge University.

It has occurred to many that if the telephone company proposes to maintain a station at Lake Wichita, it would be a little more convenient and pleasing to the public to have the line in working order, at least a part of the time.

Today's mail brought to the Times the following to be inserted as an ad: "On receipt of \$1.00 will send recipe to make good strong whiskey at small cost. This recipe has raised many a man from the ordinary walks of life to a fortune. Address, Oklahoma City, Okla."

Without doubting his statement especially the latter part, The Times will be compelled to decline this ad. First, for the reason that it does not believe in accepting money from an advertiser for something that will do him no good, and its reason for believing that this ad will not bring the desired results is that the Times is firm in its conviction that some parties in Wichita Falls have already discovered his receipt or one just as good, and has the advertiser skinned several city blocks when it comes to making a good strong whiskey at a small cost. In fact, it has not been a great while since a well known bottle supposed to contain a celebrated bottled in bond brand of whiskey was on exhibition in this office, the bottom of which had been cut out, its original contents withdrawn and refilled again with perhaps a brand of whiskey that is made from a recipe such as the advertiser is seemingly anxious to dispose of for the sum of one dollar. All that was necessary to make that kind of whiskey was a good glass cutter and a bottle of sealing wax. Uncle Sam has his agents out looking for such fellows, and occasionally they get into jail.

THE TRUSTS HAVE WON

The decision in the Standard Oil case will prove disappointing to the country. The dissolution of the Standard Oil Company works no hardship when the supreme court decision is virtually a license to reorganize under a pledge of greater security. No wonder the stock of the Standard Oil company went up 5 1/2 points when the decision was announced! Tobacco

the head of the Steel trust praises the opinion. The real meat of the decision is the AMENDMENT of the anti-trust law to meet the demands of the trust. For several years the trusts have been demanding the very amendment that the court has read into the law. There will be jubiling in Wall street, but there will be sadness in the homes of the masses who are now compelled to begin a campaign for the enactment of an anti-trust law so clear and explicit that the court can not repeal it by construction. The decision explains several things. First, it explains why Justice White was made chief justice instead of Justice Harlan. Second, it explains why Governor Hughes was made a justice of the supreme court. Third, it explains the discriminating care exercised by the president in selecting democrats who would help the republicans out of a hole by making the democratic party bear some of the odium of a decision that builds a bulwark around the predatory corporations. And, fourth, it explains why Wall street went over to Mr. Taft in March or April of 1908 and then coerced their employes and the business public into the support of the republican candidate in November. "Who will appoint the judges?" was the question raised toward the close of the campaign and Mr. Bryan was given an opportunity to decline to make any pledges. The people will learn after a while, what the corporations have long known, namely, that the power to appoint United States judges is a far-reaching power. The people agitate and congress legislates to little effect so long as the highest court in the land is in sympathy with those who exploit the public. The amendment which the court makes by judicial construction is the very amendment which Mr. Taft suggested in his Columbus speech when he announced his candidacy, and now the judges whom he appointed have so voted as to make it unnecessary to secure the amendment by legislation. Now let those democrats and republicans, who are opposed to trusts, set to work to overcome the decision by legislation. The democratic plan will be found in the following plank of the democratic platform of 1908:

"A private monopoly is indefensible and intolerable; we therefore favor the enforcement of the criminal law against guilty trust magnates and officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States. Among the additional remedies, we specify three: First, a law preventing duplication of directors among competing corporations; second, a license system which will, without abridging the right of each state to create corporations, or its right to regulate as it will, foreign corporations doing business within its limits, make it necessary for a manufacturing or trading corporation engaged in interstate commerce to take out a federal license before it shall be permitted to control as much as 25 per cent of the product in which it deals, the license to protect the public from watered stock and to prohibit the control by such corporations of more than 50 per cent of the total amount of any product consumed in the United States, and, third, a law compelling such licensed corporations to sell to all purchasers in all parts of the country on the same terms, after making due allowances for cost of transportation." Bryan's Campaign.

SHIRKING JAIL WORK.

Bidwell, the Forger, Was a Champion at Malingering. Malingering is common in jail, but surely a case quoted from his own experience by Dr. Quinton, the late governor of Holloway. In "Crime and Criminals" is a record. The "hero" was a violent prisoner who feigned stiffness of the index finger to avoid picking. He was so angry when the finger was forcibly bent that "on returning to his cell he promptly placed the offending finger in the hinges of his table, which was attached to the cell wall, and violently raised the table with the result that the finger was absolutely shattered and had to be removed." Another case even more remarkable by its way was that of the notorious American criminal Bidwell, who was sentenced to penal servitude for life in connection with the Bank of England forgeries. "He was in good health on conviction, but never did any active work. Feigning loss of power in his legs, he lay in bed from day to day and from year to year, defying the efforts of persuasion and resisting all unpleasant coercive measures devised to make him work. When I saw him at Dartmoor at the end of eight or nine years of his sentence long disuse of his legs had rendered him almost a cripple. The muscles were extremely wasted, and both hip and knee joints were contracted in a state of semiflexion, so that he lay doubled up in a bundle. Though he was examined time after time by experts, no one succeeded in discovering any organic disease or any cause for his condition other than his own firmly expressed determination never to do a day's work for the British government, a threat which, I believe, he ultimately carried out."

Dangerous Sport.

First Lady (reading a newspaper)—This golf seems to be a very dangerous game. Did you see what happened to a man named Taylor? He went into bunker and was in two when he came out.

Second Lady—How dreadful!

"Yes, here are the words: 'Taylor getting out in two, Braid secured a half.'"

"Does it say what happened to the other half?"

"No, but there was worse to follow. According to the report, Taylor then fell altogether to pieces."—Word of Golf.

Room For Doubt.

The cuckoo clock had just chirped the half hour before midnight, and the girl in the parlor scene was weary. "Mr. DeBorem," she said as she faintly attempted to strangle a yawn; "I heard something about you the other day that I'm sure is not true." "Indeed!" he exclaimed. "What was it?" "I heard some one say you were an easy going chap," she answered. Chicago News.

A trio of California-bred ponies which will be used by the American Cup defenders in the coming international polo matches at Meadowbrook, N. J., between the Meadowbrooks and the all-English team, the first game being on May 31. From left to right: Sorpala, Alvarnis and Bertia. They were sent here with five others by Walter H. Dupece, of Coronado, and were brought by Juan Fuentes, whose picture appears at the right. Alvarnis used to be regarded as the best of the lot played by "Dick" Tobin in California. The five ponies comprise the string of the British army cup challengers, while the American defenders have something like fifty in training.

LADS GOT THEIR WERE SHUT OUT

HAJSLIP WAS INVINCIBLE ON THE MOUND AND LADS DID NOT HAVE LOOK IN.

YIELDED ONLY FOUR HITS

Green Touched Up For Nine Safeties. Both Teams Put Up Splendid Game in Field.

Special to the Times. Bonham, Tex., May 26.—The mighty Wichita swatters-failed the ambient in vain here yesterday afternoon and went down in a shut out. Hajslip who was on the mound for Bonham was invincible and at no time during the game did the Irish Lads have a look-in. Boham batters took kindly to Green's offerings and lammed out nine hits, resulting in seven runs, six of which were earned. Guthrie was the only visitor who got two hits. A and D. Naylor were the others who connected with the sphere. Both teams gave their pitchers splendid support. The play of Bonham was errorless and D. Naylor made the only error credited to Wichita Falls. GAINESVILLE 3, DURANT 0. Educators Secure Two Hits And Home Team Gives Mitchell Errorless Support.

Gainesville, Tex., May 26.—Mitchell held the Educators yesterday afternoon, allowing only two hits and none were perfectly supported by the team. Only three men got to first and none to second. The Blue Ribbons bunched three hits in the second inning, bunching as many runs. With the exception of the second inning Jensen pitched a good game. The score:

LAWTON 12, ARDMORE 2. Visitors Get One Scratch Hit Off Daugherty While Medicine Men Land For Fourteen.

Lawton, Ok., May 26.—Daugherty let Ardmore down with one scratch hit yesterday afternoon, while the Medicine Men fell on Dunham for fourteen safe ones. Lawton winning, 12 to 2. Ardmore scored twice in the sixth on two errors and a bonhead play. In the ninth, with two out, Barnes was sent in to bat for Spence. Barnes tapped a slow one to short. The ball took a bad hop, went through short and was fielded by the second baseman, but too late to nab Barnes. Many disagreed with the official score in giving Barnes a hit and preventing a no-hit game. The play was a scratch hit. Dunham pitched fair ball until the eighth, when six hits and two walks gave six runs. Porkorney dropped one over the left field fence with one on base in the sixth. The score:

The price made a new record for the coast league. Strand stands exactly six feet and weighs 180 pounds. His speed is something terrific for a southpaw, and it is freely predicted in the Far West that the youth will make a ten strike for Patsy Donovan. The Red Sox were bidding against four other clubs at the same time, which accounts for the paying of five "thous" for him.

What the Farmers Union Has Done

To The Officers and Members of The Farmers Union:

A new epoch was written in American history when the Farmers Union became a truly national organization. Other associations of farmers had preceded it. But they had fallen by the sword of partisan politics or had failed to hitch enthusiasm to the harvest—so they fell.

I speak advisedly when I say that the Farmers Union is the first organization in history to successfully join theory with practice, to begin the movement of weeding the politicians from the innermost councils of the farmer, and to impress upon the latter that the improvement of his lot rests not in the hands of some far-off "uplifter" or fly-by-night reformer, but with himself.

Today the world asks less for rhetoric and more for results. This is a very slight summary of what we have accomplished; together with a statement of what we yet hope, with the aid of the Almighty and our own courage, to accomplish.

We have 1,628 warehouses, mainly for storing cotton. Mississippi leads the warehouse movement, with a million-dollar corporation.

We own and operate a large number of elevators and terminal agencies for the handling of grain.

We own and operate 245 pecking houses.

We own and operate dozens of newspapers.

We own and operate coal mines.

We own and operate several banks, flour mills, creameries, pickle factories, several hundred stores, an implement factory, a phosphate plant, a phosphate mine.

We own and operate tobacco factories and warehouses, produce exchanges, fertilizer factories, peanut warehouses, a peanut reclaimer, many cotton grading schools, co-operative life and fire insurance companies.

Any number of other general business agencies are owned or controlled by members of the Farmers Union.

In this connection, it must not be forgotten that the Union does not officially own these concerns. We are not a close corporation. In every instance, ownership or control rests in individual members, consorting together for their own benefit. That is the true spirit of co-operation.

Before this order was organized, statistics showed that 70 per cent of the farmers in the South were blighted with the curse of the mortgage. We have cut down the percentage by one-half, and our work in that direction has hardly begun.

The influence of the Farmers Union is written upon many of the best laws put in recent years upon state and national statute books.

In many states we have secured radical increases in public school appropriations. In many of the states the Farmers Union has been instrumental in the establishment of agricultural colleges.

Other important legislation, state and national, now pending, is an indication of the resistless influence of the organization among American farmers. We have made systematic canvasses of the various Legislatures, and of several successive sessions of Congresses. There is a new viewpoint in Washington toward the American farmer—and the might of the Farmers Union, demonstrated in elections, is responsible for it.

These achievements are the outward sign of a great new movement in American agriculture. But they are not comparatively important to the spirit of fraternity which we have wrought among the farmers of this nation. It is fraternity, appealing to intelligence, that has wrought this progress. And the same force will develop in a thousand unexpected directions to solve the problems of the American farmer.

Notable among the triumphs of the organization is that one which has brought a social awakening among the farmers. In many states it has brought thousands of white women and children out of the cotton fields into the schools and the homes—where they belong. Had it done nothing else, the existence thus far of the Farmers Union would have been justified by this transformation, that is merely in its beginning.

I cite these facts as the basis of an argument that now is the time for every American farmer to affiliate with this organization.

It has passed the stage of experiment. It is an assured, achieving, permanent institution. Every farmer, however small, who joins it, increases his own power by the organized might of his three million brethren.

If we have saved many millions for our members by co-operation and legislation; if we have defeated several congressmen who were unworthy of office, several senators who were untrue to pledges; if we have gradually nullified into our people, by grinding, persistent labor, the doctrine of business methods in farming; if we have weeded out of the organization some of the most unprincipled scoundrels in the land, and thoroughly strengthened it—

Have we not the right to go before the American farmer and, on the record of things done, bid him in his own interest and our interest to join with us?

We are entering upon a tremendous important era in our national history. Organization is the keynote; conservation of energy and effort its slogan.

Whether hard times or good times are ahead, the farmer will not be able to minimize the effect of the first or gain his legitimate share of the last, unless he is organized.

Do you object to the order because you know some crooked customers in it? There are many such in every religious denomination, in many secret orders, one or two black sheep in your own family.

Does that fact keep you out of the church, the secret order, or cause you to desert your family? Hardly. It has a more serious effect on you in

Paper Towels Now. Individual drinking cups, soap powder that one grinds out of a nickel cylinder directly on ones hands, and other hygienic devices for protection against infection have become more of less familiar. The newest idea along this line is the individual paper towel which may be pulled from the roller, perforations in the fibrous paper toweling separating the towels one from the other. The hands are first patted with the paper toweling which takes up the excessive moisture like blotting paper; then with the other end of the towel the skin is wiped perfectly dry. The used towel is crushed into a wad and tossed into a basket and the fresh towel hangs from the roller ready for the next customer.

A Mans Hat Box that may be Folded. The latest novelty in leather is a smart looking-hat box for a mans silk hat. Inside are compartments in which jewelry for the full dress costume may be carried. The box is in three sections and has a padded lining. When not in use it may be taken apart and folded up flat, the sides of the box opening and folding in octagonal shape.
