

THE FOURTH OF JULY IS CELEBRATED THROUGHOUT THE UNITED STATES

Wichita Falls, as the host of a vast concourse of people from points in Texas and Oklahoma, is today appropriately celebrating the Fourth of July. The excursion rates were so low that many are visiting this city and beginning with the Wichita Falls & Southern which was the first to arrive, all trains entering the city during the day have brought large and satisfactory crowds. About two hundred came over the Southern from Archer City, Olney, Newcastle and other points along the line, while the Wichita Valley, the Denver and the Katy each brought several hundred people. The Wichita Falls & Northwestern will furnish the largest crowd, reports from the general offices being to the effect that the excursion train, expected to arrive at 1:30, is bringing about a thousand people. In all the visitors to the city will likely number about three thousand, and which added to the attendance of home people will give the lake a crowd of something like five thousand people.

The program for the afternoon will consist of a double header ball game between the Wichita Falls and Altus teams of the Texas-Oklahoma league boat races, swimming in the new pool, dancing and numerous contests for old and young alike, including the baby show, which is expected to attract much interest. For tonight there will be the fireworks display on the lake, dancing in the Colonnade, swimming in the pool and other features calculated to amuse the large crowd expected to be in attendance. The management of the lake has completed the construction of the new fountains

on the grounds and these will supply free ice water to the people, a feature which will be very much appreciated by the public. All cars are running to the lake today and the crowd will be handled with as much dispatch and comfort as is possible.

New York Has Double Celebration.
New York, July 4.—This city was the scene today of a double celebration. Independence day was observed in a "Safe and Sane" manner by the holding of patriotic exercises in the various parks and population centers, and a special celebration was held including as a special feature a parade of the various nations represented in the city's population, to commemorate the dedication of the city hall, July 4, 1811.

Patriotic Pageants in Chicago.
Chicago, July 4.—Independence Day was celebrated here today in a comparatively "Safe and Sane" manner. The principal features were the patriotic pageants and historic tableaux, and then the old fashioned games, circuses, frolics and band concerts in the various parks.

St. Louis Joins the Sane Column.
St. Louis, Mo., July 4.—Band concerts, patriotic exercises with speeches and the reading of the Declaration of Independence, inter-school contests and athletic sports in all the parks were the features of today's "Safe and Sane" observance of the Fourth in this city.

Dr. Elliot Orator at Faneuil Hall.
Boston, Mass., July 4.—The citizens of Boston observed the Fourth in a quiet and dignified way today. Among the features was the reading of the Declaration of Independence from the balcony of the Old State House and a mass meeting at Faneuil Hall with Dr. Charles W. Elliott, president emeritus of Harvard University as the principal orator.

King Reviews the Boy Scouts.
London, July 4.—Thirty thousand Boy Scouts from all parts of the Empire were reviewed by the King today in the Great Park at Windsor. The Canadian contingent, numbering 450 boys and representing all the provinces of the Dominion, occupied the place of honor on the right of the first division.

Nations Exchange Honors.
Caracas, July 4.—In connection with the celebration of the centennial of the Venezuelan independence, President Gomez today paid a grateful compliment to the United States, on the latter's Independence day, by placing a wreath on the Washington statue in Caracas. Mr. Thomas C. Dawson, the special American representative at the centennial, returned the compliment by placing a wreath on Bolivar's statue.

Ambassador Held Receptions.
London, July 4.—The American visitors in London together with many who come over for the coronation, were received by Ambassador and Mrs. Reid today on the occasion of the American Independence day.

FORTY YEARS' RAINFALL SHOWN IN SILL RECORD

The figures showing the rainfall at Fort Sill will be of local interest from the fact that the precipitation at Fort Sill and at Wichita Falls vary but little.

The following is taken from the Lawton Constitution:

Some interesting figures as to the rainfall of Southwestern Oklahoma, which shows that drought is not the average condition, are given below in governmental records kept at Fort Sill of the annual rainfall for the past forty years, practically the life of the post.

Fort Sill was established in 1868. Not until April 1, 1870 however, were the necessary books, instruments and apparatus for a meteorological register in order. Beginning at that time, the official record shows that the amount of rainfall in April was 3.2 inches; no rain in May; in June, 6.80 inches; in July, 4.55 inches; in August, 3.03 inches; total for the five months, 15.90 inches. The average annual rainfall is approximately 20 inches.

The lowest extremes are: In 1871, 19.73 inches; 1886, 19.57 inches; 1893, 19.20 inches; 1901, 19.44 inches, and 1910, 17.15 inches.

The highest extreme: 1877, 43.11 inches; 1888, 35.72 inches; 1898, 42.92 inches; 1908, 60.01 inches.

This would indicate that both wet and dry extremes come somewhat in decades and that we are now in the midst of the ten-year dry extreme with promise, however, of an average rainfall next year exceeding twenty inches.

The record for the forty years is as follows:

Year	Inches
1871	19.73
1872	25.14
1873	33.80
1874	28.92
1875	37.39
1876	24.42
1877	43.11
1878	27.97
1879	25.07
1880	33.75
1881	28.22
1882	31.13
1883	Incomplete
1884	Incomplete
1885	45.05
1886	19.57
1887	37.17
1888	35.72
1889	29.37
1890	31.09
1891	19.73
1892	34.32
1893	19.20
1894	27.49
1895	29.54
1896	31.40
1897	31.53
1898	42.62
1899	32.87
1900	28.70
1901	19.44
1902	40.23
1903	32.58
1904	30.89
1905	38.49
1906	41.40
1907	36.74
1908	60.01
1909	31.76
1910	17.15

F. O. Crockett, Mr. and Mrs. J. A. Fisher and Mrs. Jennings comprise a Fourth of July party here to spend the Fourth.

REAL MOVELTY AT LAMAR AIRDOME

Woodley and Castle at Lamar Airdome for the first of this week are offering a real novelty in a vaudeville program, and one that has merit, both from an artistic standpoint as well as the humorous. They get music out of any old kind of an instrument and when it comes to the real musical instruments they display a talent far and away beyond the ordinary performer.

Miss Castle plays the piano blindfolded and with the keys muffled with a blanket. She also played an original cello made of a box and a broom handle, and from that goes to a flute. Mr. Woodley plays on spoons, an old coffee pot, a tin whistle, and also plays two flutes at one time. Interspersed with the music is an olio of new and clever comedy that is good.

Tonight, along with Woodley and Castle, the Airdome gives the only motion pictures of Dr. Frederick Cook's trip to the North Pole in which the explorer seeks to show the American people the results of his trip, and expose what he terms the world's greatest conspiracy. This picture should be interesting from a scientific standpoint, as well as from a viewpoint of fairness, as all are anxious to learn whether Cook really did reach the pole, and whether he has been defrauded out of the honor by the claims of another.

TO PRACTICE SHOOTING AT AEROPLANES

Washington, D. C., July 4.—Targets for aeroplane practice of the Atlantic fleet and sea coast forts during the August maneuvers will consist of sheets of canvas shaped to represent dirigible balloons and aeroplanes. These will be suspended from batteries of powerful box kites. The practice intentions is to direct at these targets nothing more formidable than army rifles, the marines and soldiers firing in squads and a careful record being made of the damage inflicted on targets.

Some of the small three inch boat guns may also be tried but the U. S. guns cannot be elevated much. They must fire at long range while the targets are low down on the horizon. The army is organizing a bureau to perfect a gun that may be safely elevated to shoot into the zenith, but while a suitable carriage has been devised no practicable way has yet been found to adjust the sights of such a gun because of the variance of the trajectory of the projectile at different elevations.

Fly Killing Contest.
San Antonio, Texas, July 4.—One and a quarter million dollars in one heap making a pile three feet high and five feet wide is the result of a fly killing contest among small boys which ended here last night. Robt. Besse won the first prize of ten dollars with an official record of 454,320 flies.

Mr. L. F. Wilson came in from Kansas City last night on his way to the ranch in Archer county.

TOO MANY KICKS; UMPIRES' FAULT

Protested games in the two big leagues have been many and the causes varied this season. If they keep on a fan will have to qualify as a baseball lawyer, versed in all manner of rules and with ability to change them about to suit conditions in order to keep up with things. Pittsburgh has filed several protests as have Boston, Amherst, Harry Nelly in the St. Louis Star, says:

"The Pirates have had a lot of trouble with the infield fly rule this season. In fact, this particular section of baseball code has stirred up bother all along the line. Some of the umpires have vague ideas concerning an infield fly, and when it is and isn't a lot of the players also fall shy of a true understanding thereof."

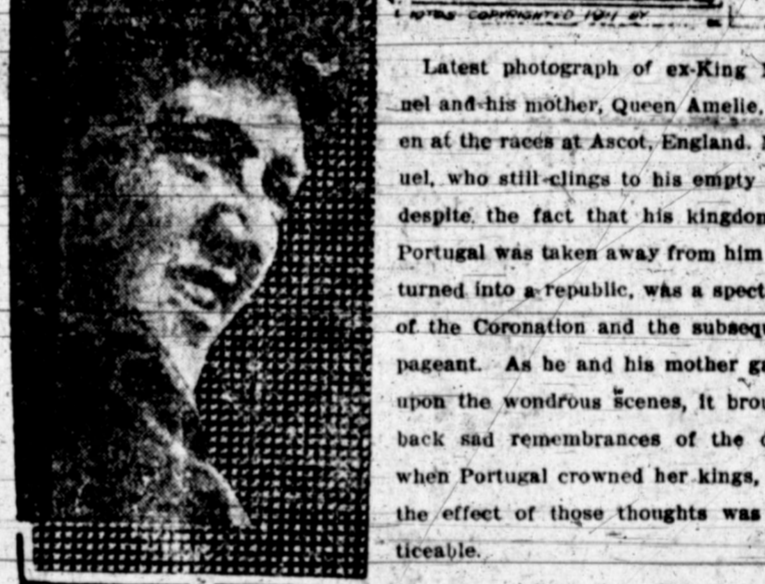

"Umpire Perrine, in the American League, let a batter take his base in violation of this rule in a game here early this season. The only instance at the local American League Park this season is a umpire performed all the functions of his office on an infield fly occurred Sunday, when Billy Evans shouted loudly that the batter was out as soon as the ball was hit. Where the Umpire Falls Down."

"The infield fly rule provides that the batsman is out without exertion on the part of the fielders if he knocks an infield fly with men on first and second bases and with one or no men out. The rule defines this particular kind of a fly as 'one that can be handled by an infield,' and further provides that the umpire shall announce immediately when the ball is hit that it is an infield fly if the situation is such as will make this rule operative."

"Right there is where the umpire falls down. He neglects to shout if the batsman is out, some infielder falls to handle the ball, and the base runners are up a tree. How's the runner to know if he must run or stand still when half the umpires in the business decide the infield fly thing one way and the other sets up a different interpretation?"

"The protest filed by Pittsburgh against Boston raises a nice point. The stage was set for the infield fly rule when the batter bunted a fly. Possibly the fly did not attain the height and dignity of an 'infield fly' as defined in the book, and maybe it did. The umpire, of course, neglected to inform the players immediately as to the nature of the bunt. Itself among several holders and the bases were filled."

How to Cut Down Kicks.
"The fault is wholly with the arbitrators. Men who collect from \$2,000 to \$4,000 per six months' work for laboring two hours a day ought to have enough leisure to acquire a working knowledge of the baseball code. Yet the announcement of Bill Evans Sunday that the batter was out following a fly ball that might have been ruled infield or outfield is the first instance we can recall in a half dozen years' constant baseball reporting that the umpire did his duty as printed plainly in the book of rules. Prompt judgment in this instance aggravated the players of the situation and effectively plugged all possibility of there ever being a protest if some idiotic athlete was trapped by a trick play."

Latest photograph of ex-King Manuel and his mother, Queen Amelia, taken at the races at Ascot, England. Manuel, who still clings to his empty title despite the fact that his kingdom of Portugal was taken away from him and turned into a republic, was a spectator of the coronation and the subsequent pageant. As he and his mother gazed upon the wondrous scenes, it brought back sad remembrances of the days when Portugal crowned her kings, and the effect of those thoughts was noticeable.

AUSTIN LANDLADIES IN SMILES AGAIN

Extra Session of Legislature Means Riches for Her—Weather Hot But Proceedings Say Be Hotter.

Austin, Texas, July 4.—The Austin boarding house landlady smiles once more. The convening of the extra session of the Legislature is close at hand. The legislators, several score strong, will invade the capital four weeks hence, and immediately upon their arrival these genial souls—the boarding house landladies—will proceed forthwith to separate them from a goodly sum of the coin of the realm. These same generous ladies will also throw out the dragnet for the squad of newspaper reporters, who will dignify the extra session with their presence. Among the prospective victims in this class are the Hon. Tompa de Finty, the clever Georgia la Armistead, the scintillating McGillicuddy Moravia Harris, the versatile Duba Dubose, Willie Philpott, and the Beau Brunnel of the Fourth Estate, and others yet to be assigned.

The corner grocer of the capital city is oiling the cash register, and gleefully contemplating the pro rata fee he is destined to receive from the boarding house proprietresses. The increased receipts will, of course, necessitate his putting on an extra delivery man or two, and possibly a clerk, but since this is the glorious vacation time students are eagerly watching opportunities to annex their names to the payroll of most any institution, regardless of the stipend feature.

The weather man has promised sun enough summer weather for the benefit of legislators who were unable to draw off from silly arguments and time-killing, nonsensical chatter during the regular session, necessitating their being brought back for the extra session. It has been intimated that in the event the statewide amendment should carry, the doing in the legislative halls will be several degrees "more hot" than any weather inflicted on Texans. In the event the measure is lost, the Governor will doubt

YORK ON TRIAL SECOND TIME FOR FORGERY

E. L. York was on trial in the district court this morning on the second of five indictments charging forgery. At his first trial he was acquitted. At this trial the state introduced a new witness. It is expected that the testimony will be completed by noon and it is probable the case will go to the jury soon after dinner.

DOUBLE HEADER AT LAKESIDE BALL PARK THIS AFTERNOON; FIRST GAME 2:30

On account of the failure of the Altus team to reach the city from Bonham in time for the forenoon game it was necessary to pull off a double header this afternoon instead of a game at 10:30 and another at 3:30 as was originally contemplated and announced. The double header was advertised to begin at 2:30 this

afternoon and the second game will be an agreed seven inning contest. The Altus team will be here for a series of four games concluding Thursday afternoon when the Wichita Falls team will go to Cleburne for four games, then returning home for a series with Ardmore July 11, 12, 13 and 14.

HEAVY SHOWERS AT HUFF AND OLNEY

At Olney Strip Eight Miles Wide Covered At Huff the Strip Was Smaller But Rain Heavier.

R. Shuffler, editor of the Olney Enterprise, was one of the excursionists who came in on the Wichita Falls & Southern this morning.

Mr. Shuffler reports a good shower at Olney yesterday. He says enough rain fell to bring up feed crops and that growing cotton has been greatly benefited. He said that the rain covered a strip about eight miles wide including the town of Olney.

A harder rain covering a strip only about two miles wide fell yesterday in the vicinity of Huff, twelve miles south of Wichita Falls. There the rain was heavy enough to provide stock water.

REDUCED RATE RUMOR CURRENT

General Manager Farnsworth of Southwestern Telephone Company Gives Denial.

Dallas Times-Herald.

Reports are current today that the Southwestern Telegraph and Telephone Company would soon institute a reduction in its long distance rates, are denied by General Manager J. E. Farnsworth. The rumor was to the effect that instead of the present two minute long distance conversation, three minutes would be allowed for the same charge.

Asked about the matter, Mr. Farnsworth said:

"The rumor probably started because of correspondence which has been had with companies in other sections of the country, with which the Southwestern now has connection. The lines of the Southwestern are now connected with the lines of other companies in all surrounding territory—for instance with the Cumberland, which operates in Louisiana and Tennessee; with the Missouri company, which has lines throughout Missouri and Kansas; the Pioneer company, with its wires radiating over Oklahoma and the Colorado company in that state. All these companies have rates which are all uniform—our rates are made on different basis."

"We are entering upon a study of these things which will take a number of months. The effort is to ascertain what is necessary to arrive at a similar uniformity, to the end that traffic arrangements with the other companies may be more readily worked out."

"Then there is no immediate prospect of a change in the present rates" was asked.

"No immediate prospect" was the reply. "The study will take until the first of next year at the earliest. After it is completed, we will be able to say what is necessary. Whatever is necessary to the end of better and more efficient service will be done."

EVERYBODY AT THE LAKE THIS AFTERNOON

The downtown streets will be deserted this afternoon. All the business houses excepting the saloons are closed and everybody is going out to the lake to spend the afternoon either at the ball game or the other attractions that have been provided an extra force of street car men are at work and Mr. St. Clair expects to be able to handle the crowds without any delay.

It is announced the fireworks will start tonight as soon as it becomes dark enough for the display.

C. E. McCutchen is here from McFarland on business.

W. H. Daniel and W. W. McLaughlin came down from Electra Monday night to stay over the Fourth.

\$85,000 Fire Loss at Floydada This Morning

By Associated Press.

Plainview, July 4.—The town of Floydada near here had an \$85,000 fire this morning, sixteen buildings being destroyed. The volunteer firemen fought with buckets in long lines, and it was not until nine o'clock this morning that they had the fire under control and the rest of the town was saved. Hardly the breeze was stirring which greatly helped the fire fighters. The fire started at two o'clock this morning from an explosion of gasoline in a pressing establishment. The First National Bank building was destroyed, but it is believed the safe and contents are unharmed. Other sufferers included the hardware and furniture stores of C. Surniger and Sons, E. E. Brown hardware and furniture, J. W. Blair, furniture and general store, Billie Brothers, Jeweler, The Floyd Mercantile Company. Also three drug

ON TO WASHINGTON AVIATOR ATWOOD'S PLAN

By Associated Press.

New York, July 4.—"On to Washington," remarked Harry N. Atwood as he stepped into his aeroplane this morning at 8:45 o'clock and flew away on his proposed flight to the National Capital.

Twenty-five thousand dollars, stores. The insurance aggregates about \$85,000.

Jack Bates, proprietor of the City Tailor shop, is spending a few days in Stamford on business.

Remarkable photograph of Lincoln Beachey, the California aviator, flying under the Cantilever Bridge at Niagara Falls. The aeroplane can be seen so close to the swirling waters that it appears about to plunge into them. The machine sped so near to the surface that both the aviator and his craft were dashed with spray and mist. When Beachey first tried to cross the gorge, his aeroplane was caught in churning air currents that pitched and rocked it so that he had to return to the American side. He waited for the breeze to subside and then made another effort. This time he flew down the Canadian shore to Lewiston, then returned, zig-zagging several times across the gorge, flew under the big steel bridge and returned to his starting point, where he made a perfect landing.

721 Ohio Avenue

CELEBRATING THE FOURTH OF JULY

The following has been sent out by
the State Insurance Board.
Independence day is here. It is too
much perhaps to expect that we shall
pass the glorious Fourth entirely with-
out the use of explosives dangerous
to life and property, nor can we hope
to go through the day without mis-
hap or injury.

While Texas' Fourth of July record
from a standpoint of accident, death
and fire may not be nearly so great
as that of some of her sister states of
the Union, the following table of sta-
tistics of Independence day in Ameri-
ca will doubtless be of interest to the
thoughtful public.

Year	Dead	Wounded	Total
1903	446	3,383	3,829
1904	183	2,385	2,568
1905	182	4,994	5,176
1906	158	5,308	5,466
1907	164	4,249	4,413
1908	163	5,460	5,623
1909	215	5,337	5,552
1910	131	2,923	3,054

1,662 35,620 37,282
The conclusion can at once be
drawn from the above statement that
not only should local officers exercise
vigilance in the enforcement of the
ordinances regulating the sale and
handling of the ordinary "joy produc-
ers" but also all careful citizens should
join in the vigilance committee. Be-

fore every Fourth of July every town
should be given a thorough cleaning
of rubbish. Clear-up committees
of trash old boxes and barrels, unne-
cessary collections of waste paper.
All such useless fire hazards should
be carted away to a dumping ground
and destroyed. A lighted fire-cracker
carelessly dropped into a trash pile
might cause a loss of thousands of
dollars worth of property.

The aim of the board since its in-
duction into office has been to draw
the attention of the public to the ne-
cessity of a rigid supervision over the
common fire hazards so prevalent
which as a general proposition are
present through carelessness and indif-
ference, although in some instances
the situation might be charged to ig-
norance of conditions. It is believed
that when the intelligent citizenship
of Texas once fully realize the neces-
sity of abating unnecessary hazards,
the old order of things will change
from the present enormous fire waste
record of our state to conditions that
must prevail if we are ever to enjoy
cheaper fire rates.

Every patriotic American should ap-
propriately commemorate the birth of
American liberty, but in so doing it
is well to remember that a "Safe and
Sane Fourth" will eliminate the pos-
sibility of accident, fire and the loss
of life in its celebration.

The Cattleman's "Trust"

(From Success Magazine)

Not so many years ago the cowboy
had orders to keep his fingers on the
trigger; today such actions savor of
wild West shows. Not so long ago
the cattleman was voting for
protection (and he meant it); today
he is all for fencing. Not so long ago
it was every cowman for himself, to-
day it is "join," "co-operate," etc. Why
change? Franklin's old saw gives
the answer, "We must all hang to-
gether or we'll all hang separately."

The cattleman were obliged to or-
ganize on a national basis some eight
years ago to get their business inter-
ests effectively represented in Con-
gress—in other words, to keep from
being eaten alive, first by the trans-
portation interests, and finally by the
sheepmen, who when profits in cattle
took a slump sprang up on every hand
like the mythical dragon's teeth. The
cowmen call themselves by the good
mouth-filling name of the American
National Live Stock Association. All
stockmen are welcome, but the mem-
bership is made up chiefly of cattle-
men, the sheepmen preferring to flock
by themselves. These men represent
over five hundred million dollars in
live stock, a source of gigantic power
in an age when money is ruling force
—if organized.

Alcohol and Memory

(Success Magazine)

Every person who drinks alcohol to
excess, says Dr. Alexander Lambert in
an article in "Success Magazine," will
not show every form of mental de-
terioration that may be produced by
excessive indulgence, and the degree
of deterioration in intelligence which
goes to make up the mental of men-
tal varies greatly in different in-
dividuals. All who drink alcohol to
excess, however, show some diminu-
tion in their judgment. Judgment
means the power of recalling various
memories of perceptions through the
senses, which have come in from the
outside world, memories of "ideas
memories" of emotions, and all the
complicated association of ideas that
these bring up, and in the recalling of
them weigh each one with the other
and judge of the value between them.
This also means reasoning and deci-
sion for action. This power of reason-
ing and judging is weakened in
the alcoholic, and his brain long
poisoned by alcohol, it is an impos-
sibility to exercise it. Memory itself
is also weakened. There is excessive
forgetfulness of the recent past, and
in some cases of advanced alcoholism
there is absolute forgetfulness of wide
raps of years; a man may be unable
to remember anything from the last
five minutes back for twenty years,
and then remember back to childhood.
The memories of childhood are more
easily stamped on the brain than are
those of adult life, both because it
takes less to impress a child, and be-
cause there is not the complexity of
association of ideas to be recorded.
Therefore memories of childhood
make a deeper impress and last
longer, and so the complex memories
of the adult are the first to be for-
gotten in the alcoholic, and those of
childhood remain.

Justice of British Naval Architects.
London, July 4.—The leading naval
powers of the world have sent rep-
resentatives to the naval jubilee meet-
ing of the British Institution of Naval
Architects. The meeting open today
and will continue until Sunday. Prom-
inent among the representatives from
abroad are Rear Admirals Capps, Cone
and Watts of the United States Navy.

Robson's mineral Water.
Is highly recommended by physicians
and patrons who have tested its mer-
its, for indigestion, catarrh of the
stomach, kidney and bladder trouble.
This water stimulates the secretions
of the stomach, increases digestion
and favors a more complete absorp-
tion of the food, and prevents the ac-
tion of germs that cause typhoid agi-
well or delivered in jug or cases.
This well is located one mile south
of Alamo school building in Floral
Heights, two deliveries daily morning
and evening.

Notice To Gas Consumers.
All delinquent consumers, whose ac-
counts are not paid by July 10th will
be disconnected. North Texas Gas
Company.

Lansing, Mich. has rejected a propo-
sal to adopt the commission form of
government.

Alleged Dynamiters to Enter Pleas.
Los Angeles, Cal., July 4.—Unless un-
foreseen circumstances arise, John Mc-
Namara and James McNamara will
appear in court here tomorrow and
plead not guilty to the charge of mur-
der contained in the indictments re-
turned against them by the grand jury
which investigated the facts connect-
ed with the fatal explosion and fire in
the Times building.

Georgia Young Baptists Meet.
Milledge, Ga., July 4.—The town is
filled with delegates and visitors
from all parts of the state, gathered
here to attend the seventeenth annual
convention of the Baptist Young Peo-
ple's Union of this state, which opened
here today. An interesting program
has been arranged for the three days.

Kaiser's Grandson Five Years Old.
Berlin, July 4.—Prince William Frod-
erick, eldest son of Crown Prince Wil-
liam, celebrated his fifth anniversary
of his birth today. The observance of
the event was mainly confined to the
imperial family and the household of
the Crown Prince.

Wichitans in Colorado.
Mr. and Mrs. Joe A. Kemp of
Wichita Falls, Texas, have rented the
Augustus P. Brizman, home at 123
East Espanola street, in Colorado
Springs, for the summer season. Mr.
Kemp is president of the Wichita Falls
and Northwestern railroad. Mrs. and
Miss Kemp are expected to arrive on
July 1.

Mr. Frank Kell and family of
Wichita Falls are expected in Colora-
do Springs early in July, to be the
guests of the Kemps.

Mr. and Mrs. Wylie Blair and chil-
dren of Wichita Falls, Texas, have
rented the beautiful Krich home at
1728 North Cascade avenue, for the
summer. This mansion occupies a
block, from Espanola to Del Norte
streets, on Cascade, and is an ideal
summer home, as the climate of Colora-
do Springs is such a delightful
one.—Denver correspondent in the
Houston Chronicle.

Wichitans in Colorado.
Mr. and Mrs. Joe A. Kemp of
Wichita Falls, Texas, have rented the
Augustus P. Brizman, home at 123
East Espanola street, in Colorado
Springs, for the summer season. Mr.
Kemp is president of the Wichita Falls
and Northwestern railroad. Mrs. and
Miss Kemp are expected to arrive on
July 1.

Mr. Frank Kell and family of
Wichita Falls are expected in Colora-
do Springs early in July, to be the
guests of the Kemps.

Mr. and Mrs. Wylie Blair and chil-
dren of Wichita Falls, Texas, have
rented the beautiful Krich home at
1728 North Cascade avenue, for the
summer. This mansion occupies a
block, from Espanola to Del Norte
streets, on Cascade, and is an ideal
summer home, as the climate of Colora-
do Springs is such a delightful
one.—Denver correspondent in the
Houston Chronicle.

Iowa Park Happenings

Special to The Times.
Iowa Park, Texas, July 4.—The glorious Fourth is being rather quietly observed here. A number of the citizens have gone for a fish fry on the Wichita River.
Miss Carrie Winfrey left Saturday for Henrietta, where she went to visit Miss Ruth Crutchfield for a few weeks.
The Boy's Intermediate Class of the Methodist Sunday school entertained the Girls' Intermediate Class at the home of their teacher, Mrs. Lola Sisk Saturday evening from six to eight-thirty. After the children had played several games refreshments of ice cream and cake were served. Mrs. J. C. Ralston teacher of the girl's class, assisted the hostess in entertaining.
Mr. Fred Householder of Wichita Falls, delivered a very interesting lecture at the Methodist church Sunday night in the interest of prohibition. Dr. Gregory former superintendent of the Terrell insane asylum is expected to make a prohibition speech here Friday night.
Miss Myrtle Dale of Electra is visiting her grand parents, Mr. and Mrs. Brown.
Mrs. Wilmot and Mrs. Jones of near Holiday, visited friends here the last of the week. Miss Mary Hutchins accompanied Mrs. Wilmot home for a short stay.
Mr. Ed Terhune, accompanied by his sister-in-law Mrs. Hubert Terhune, and her baby, left Sunday for Thorp Springs, where his parents are now living.
Dr. and Mrs. T. P. Lynch went to Como, Texas, the doctor's old home last week.
Mrs. Carrie Drum and baby and Miss Anna Tate of Pickwick, Texas, were the guests of Mr. and Mrs. R.

F. Abernathy during the past week.
Mr. Frank E. Mangel, a former citizen of Iowa Park now residing in Dallas, was here on business last Wednesday.
Mrs. S. J. Williams and little daughters Fern and Ruth visited Dr. and Mrs. Bell of Wichita Falls Monday and Tuesday of this week.
Mr. and Mrs. Middleton, of near Fort Worth, are here visiting Mrs. Middleton's parents.
Mr. J. B. Sisk went to Electra on business today.
Mrs. Tuttle and little daughter, Dixie, went to Electra Friday from which place they went on to Oklahoma where they expect to spend the remainder of the summer.
The Epworth League is to have a social tomorrow night at the home of the pastor, Rev. H. B. Johnson.
Miss Grace Eads returned to her home near Burk Station Wednesday. Misses Myrtle and Lola Munden accompanied her for a few days visit.
Little Miss Vera McKelvey, of Wichita Falls visited her grand parents, Mr. and Mrs. McKelvey last week.
Misses Laura McDaniel and Faye Robertson visited friends in Wichita Falls Saturday and Sunday.
A revival meeting was begun at the Baptist Church Sunday night, Revs. Morgan and Ferguson are conducting the services.
Mr. Matthews was called to Electra last week by a message announcing the serious illness of her mother.
Miss Emma Haynes of Wichita Falls was the guest of Mrs. Charles Birk Sunday.
Mrs. Maggie Burnett is considerably improved from her attack of appendicitis though still confined to the bed.

The Tax We Pay on Fire.
There was a time several thousand years ago when the heart of man and beast held one overpowering dread—the fear of fire. The human race took its first decisive step when it overcame this fear and began the use of fire. It was the significant victory that set mankind apart from the other animals forever.

Fire is a cunning slave—forever seeking an opportunity to escape its bounds. The history of Europe is marked with escapes of this nature that became conflagrations. It is only necessary to mention a few to show the severe lessons taught the peoples of other countries. It is not strange that there is an instinctive fire caution born in children.

London has been devastated again and again, notably in the years 798, 852, 1087 (shortly after the coming of William the Conqueror), 1132, 1212 and culminating in the "Great Fire of 1666." This fire took a heavy toll of human lives and burned four days its beginning was insignificant—a small blaze in a baker's shop—but it cost untold millions of dollars to repair the damage. It has been said that no famous building in London, indeed in all of England, is as it was originally built. The tax by fire has been levied everywhere.

What is true in England is equally true in all European countries. Berlin which stands today as a supreme example as a city with a comparatively insignificant fire loss, was totally destroyed in 1495. Lisbon, Venice, Moscow, Rome and Copenhagen, to mention a few others, the latter in 1728 was almost wiped out. No one can accurately compute the fire loss of the Old World.

The staggering fact that must confront everyone, who thinks on the subject, is that during all the centuries, in all the conflagrations, that which has been burned has been utterly and absolutely destroyed. The money, labor and time burned in the places was money, labor and time utterly thrown away—utterly and irrevocably lost.

The loss represents uncounted millions of dollars—so great a sum that the mind cannot realize it. It means that all the toil of the Eastern Hemisphere was taxed to replace that loss. It means that something is taken from the earnings of every man to pay that tax and, as long as we go on having preventable fires, the same tax will continue to be levied on us. It falls on rich and poor, the worker with his hands and the worker with his mind. The bitter part is that nothing is ever returned for that tax. Money raised by ordinary taxation is put into circulation and spent for value received. With the fire tax the money is applied to make good money lost. Nature is indomitable—she uses the products of a fire—the actual matter (speaking scientifically) still exists—but not for us bearing these things in mind, we approach the corollary with a new sense of responsibility.

Do not confound "fire with loss." The loss is preventable. The wasted tax can be lightened. The simplicity is its weakness; the causes of its not being applied. Cleanliness and watchfulness will cure. Here is a striking fact; the association of dirt with fire is so close that we find Constantinople, a city characterized by its cleanliness, the apothecia of filth, the most fire-sticken city of the world. It has been burned ten times since 1792.

That cleanliness and carefulness will prevent 50 per cent of the fire loss has been shown in Europe. Berlin has been mentioned. The fire risk in Europe today is only 23 cents per person, while in the United States the annual tax is three dollars for every man, woman and child. This brings home with sledge hammer force our neglect and carelessness.

No country in the world is so woefully derelictly equipped with fire-fighting apparatus as the United States. No country has such well drilled and skilful

men to handle this firefighting apparatus. The responsibility lies in the individual—not with the fire departments.

In the matter of health we mark ty man who is unclean. We fight the encroachments of disease everywhere showing wonderful results, and our public health is better than that of the old world.

The analogy between the two dangers is complete. A man with a contagious disease is quarantined—he is prevented by law from exposing others to infection. He is segregated, treated, and usually cured. At any rate, he is not allowed to menace the health of the people. Disease and fire have a common cause—dirt and carelessness. They have a common cure. Every man is as morally obligated to keep his place of occupancy clean and free from fire danger as he is his body free from disease. The individual must assume this personal obligation and by his attitude toward others create a public sentiment against the man who is threatening the public welfare by his carelessness.

Grown Men Cry For Bread.
Editor T. W. Little of the Devol Dispatch, passed through here this afternoon for Willow, where he has just moved from Brinkman. He will call it the Willow Will, and the first edition will come out next week. Mr. Little says our citizens should send some food and clothing at once for the sufferers in the east end of the county who were left destitute by the recent hail storm. He says grown men are seen on the streets of Devol crying for something to eat, and while the people of that town and community are doing what they can, it does not begin to take care of many people who are in actual want.

Some farmers have little chance of raising any crops this fall, and the business men have already extended all the credit they can afford, it is impossible for these settlers even if they own their farms to get any supplies on credit at the stores. This is the greatest calamity that has visited Oklahoma for years and will require the aid of the state to take care of many of the destitute—Devol Dispatch.

Don't forget that I am still in the real estate business. I have some good bargains in houses and lots, also farms.

Renting a Specialty.

Try This Tomorrow!
Ice Tea is Refreshing
That is if you use a tea that makes good iced tea and our Tokay brand is one of the best for this purpose. It makes a very flavorful drink—a flavor that is appreciated cold and it makes more liquid refreshment per pound of leaf than any other tea at less per pound.
It costs only 75 cents per pound, and a trial will convince you that it is the tea you should use not only for iced but for hot tea. May we send you a trial supply today?
A BEAUTIFUL CUP AND SAUCER WITH EVERY POUND.
Get a 25 cent bottle of Welch's Grape Juice. Put it on ice until dinner time.
Put a pitcher of ice cold water on the table and open the juice when ready to serve dinner.
Fill each glass nearly full of water and then add two to four table spoons of juice or enough to give it pronounced flavor and color. Some may like a little more, some a little less.
See how many glasses of satisfactory drink you can make with a 25 cent bottle, you will find it very refreshing and very economical. We have 50 to 90 cent bottles also.
YOUR JULY ACCOUNT IS SOLICITED.

Notes from Labor World

The Ironmolders' International Union has held no convention for three years.

The average age at which factory employes begin work in Hungary and Spain is ten years.

In the Netherlands the predominant hours of labor in most industries are ten to eleven per day.

In Italian factories and workshops more than three-fourths of the employes work ten to eleven hours a day.

The Factory Workers' Union in Germany increased its membership from 141,024 to 167,970 in the year 1910.

All the stationary firemen at Los Angeles, California, are now at work under union conditions as to hours and wages.

In the metal industries in Belgium nearly half the men work from nine to ten hours a day, and the majority of the rest ten to eleven.

The latest move on the part of the Canadian Pacific railway management is the displacement of colored employes and the introduction of Japanese.

The mass of French Canadians have been workers on the farm and in the forests and almost entire out of touch with industrial life in shops, mills, or factories.

The International Boot and Shoe Workers' Union at its recent convention re-elected all its officers, including President Tobin and decided to hold the next convention at Montreal in 1913.

The International Association of Machinists recently reached an agreement with the Michigan Central Railroad Company for an increase in wages, the rate now being 34 1/2 cents an hour flat rate.

For the first time in the history of the American labor movement, a serious effort is under way to establish the minimum wage by law. A vigorous campaign will be conducted by the unions throughout the country.

About eight thousand mechanics on the Southern railway have been granted a wage increase that will likely be extended to the Seaboard Air Line and the Atlantic Line, affecting nine thousand men.

The members of the Boston Barbers Union are willing to eliminate tipping, but under the condition that they receive an increase in wages. A meeting to that end will be held, asking for such an increase, to go into effect on August 1.

About ninety-nine per cent of the members of the International Paving Cutters' Union are employed on the piecework system, and most of the gains they strike for are in the nature of improved working conditions, which lead to better wages.

President T. W. Rowe of the American Flint Glass Workers' Union has sent out a circular letter to the Glass Bottle Blowers' Association, a rival organization, making overtures for a settlement of the long fight between the two organizations.

The International Garment Workers of America will make an effort throughout the country to the end that in the next Labor Day parades all who

turn out, whether in uniform or otherwise, wear garments bearing the label of the garment workers union.

Dumb Chills and Fever. Douglassville, Tex.—"Five years ago, I was caught in the rain at the wrong time," writes Miss Edna Rutherford, of Douglassville, "and from that time, was taken with dumb chills and fevers, and suffered more than I can tell. I tried everything that I thought would help, and had four different doctors, but got no relief, so I began to take Cardui. Now I feel better than in many months." Cardui does the thing, and does it well. That's the secret of its 50 years of success. As a tonic, there is nothing in the drug store like it. As a remedy for women's ills, it has no equal. Try it. Price 81.

Frederick Von Gamme. (Frederick Leader) Frederick won handsily in the second game with Bowie, at the local ball grounds Saturday afternoon, the score being 11 to 3. The Frederick team plainly demonstrated its superiority over the Texans, who departed well satisfied with the fact that Frederick has a high-class ball club and, with the good treatment they received here, before departing, the manager of the Bowie team signed a statement saying that the Bowie boys had received fair treatment from the local team, umpire and all concerned while here. Irving Ferguson umpired both of the Bowie games and did a good job of it.

Three good games are scheduled for this week. Wednesday Frederick will take on a team from Wichita Falls, Texas, which will include eight of the Irish Lads, the Wichita Falls League team. Thursday and Friday, Anadarko will be here for two games.

To Whom It May Concern: This is to certify that at our two days games with the Frederick ball team at Frederick, on the 20th of June and the 1st of July, that Umpire Irving Ferguson was fair and square in all respects and that the players are good, clean ball players and are gentlemanly in every respect. While we were defeated in each of the games, we considered that we received fair treatment in both.

(Signed) E. M. SPALLING, Manager of the Bowie, Texas baseball team.

The city hall has been a very much needed place today, both the city government and the Chamber of Commerce team plainly demonstrated its

Notice. I hereby call your attention to the ordinance requiring grass and weeds cut on lots and alleys. Attend to this at once and oblige. R. P. Brown, Sanitary officer. 423c

Officer Will Skeen yesterday made two arrests of parties charged with gambling on a pool game, the offense having been committed in one of the local pool-rooms. Pleas of guilty were entered in each case and the usual gambling fine was assessed. The officers state that they are going to break up the practice of gambling in these places and those who are in the habit of taking advantage of the amusement to violate the law had better look sharp or further arrests will soon be reported.

LOCAL NEWS BREVITIES

A report from Electra says that another good well is being brought in on the Woodruff-Putnam lease. E. G. Hill, undertaker, office and parlors 900 Scott Ave. Phone 225. Prompt ambulance service. The Pickett Detective Agency is polishing the grounds at Lake Wichita today. This morning was the regular time for the meeting of the city council. However, postponement was taken until Wednesday morning on account of this being a holiday. This day is being generally observed as a holiday in the city, the postoffice, the banks and many of the business houses being closed on account of the occasion.

Constable Pickett this morning arrested a negro woman on a charge of disturbing the peace and she was remanded to jail until such time as the case can be disposed of.

Fred. H. Whitman, who works at Collier's tailoring establishment and who has several medals for swimming feats has authorized the Times to issue a challenge to meet all comers in a swimming match at the lake on any Sunday after next Sunday. Mr. Whitman has quite a reputation in this respect and will be glad to arrange a match with any swimmer in this section of the country.

Considerable decoration is in evidence today in honor of the Fourth, bunting and flags being displayed from many of the buildings of the city.

DR. TYSON OFFERS USE OF LAND FOR OIL TEST

Secretary Day of the Chamber of Commerce stated today that Dr. L. C. Tyson, who lives about two miles from the city and is an enthusiastic member of the Chamber of Commerce, has offered the use of his land for the purpose of testing for oil or gas, stating further that in the event of a successful test that the well would be given to the man of company bringing it in. Mr. Tyson states that there are strong indications of oil on his place and he is anxious to co-operate with anyone who will try to develop the field and incidentally work for the prize offered by the Chamber of Commerce.

Prohibition Snap-Shots

Note.—The matter published in this column is authorized by the county prohibition committee, J. M. Bell chairman.

To our fellow citizen, hesitating on the dividing line between the pros and antis, who wants to do right, listen to this statistics. Not a hearsay communication from Kansas and Oklahoma, but statistics from the United States Revenue collectors. There are 995 "bootleggers" license, (45-8-4) your license in the five cities of Dallas, Fort Worth, San Antonio, Houston and Galveston, that do not pay state, county and city license. Can Kansas and Oklahoma make a record equal to that?

Antis. (Jake Wolters, especially), please send "Ant Ladies" and "Jo A. Johnson, of South Walker street, Oklahoma City, to the wet cities of Texas, their acute vision may detect something rotten at the anti headquarters.

Jake Wolters, of the anti-statewide campaign committee, says Texas shows up much better in matters of drunkenness and divorce than Maine with statewide, if that is true, what a splendid spectacle the Lone Star State would be if the saloons had been driven out a decade ago. The difference, would indeed be marked to such an extent that Mr. Wolters would not even have to call attention to it. Help drive out the saloon.—Greenville Banner.

Why doesn't Mr. Wolters state that there were three murders in Maine in 1910? Dallas, with saloons, had 55 and San Antonio eleven the first nineteen days of June, 1908, nearly all directly due to the saloon?—Ex.

Because! Jake prefers to hunt his data away from home these hot summer days. The people are trying to keep cool and have not the time or inclination to chase down Jake's rain-bow.

PRETTY HOT WEATHER TO TALK COFFEE!

Winter of course is the real coffee season, but at the same time its a fact that a cup of good coffee correctly made is a life saver these hot mornings when you can eat no breakfast—its food and drink in one—It produces contentment of mind, allays hunger, mental and bodily weariness, increases the capacity for work, makes man forget his troubles and anxieties, enabling those who use it judiciously to endure unusual fatigue and remain a long time without food or sleep, as well as to preserve their temper and cheerfulness. Now to make this kind of coffee you want the very best, well aged coffee—scientifically blended and FRESH ROASTED—That's where we come in. Tell us what you like in coffee and we will suit your taste
