## STOKES GAVE FATHERLY ADVICE

### LETTERS FROM MILLIONAIRE TO YOUNG ACTRESS DISCLOSE NOTHING OBJECTIONABLE.

## A FAKE SUICIDE STORY

### Miss Conrad Told Stokes that Miss Graham Had Committed Suicide, He Testifies.

Special to The Times.  
New York, July 7.—The examination of Lillian Graham and Ethel Conrad on a charge of attempt to murder W. E. Stokes, the millionaire hotel man continued today. Defendants and Miss Graham's sister, Mrs. John Singleton, wife of a wealthy California mining man, who accompanied the girls in the court listened to Stokes' testimony with frequent derisive smiles.

Stokes testified today Miss Conrad two months ago came to his office saying that Miss Graham, whom she had befriended while penniless, had attempted to commit suicide and had left a bundle of letters to be returned to him and other men.

Stokes said this occurred on May 21st last, when Miss Conrad came to his office, so highly excited that for some time he was unable to speak. "She told me," said Stokes, "she had met Miss Graham at a dinner the night before, that though the lady was in distress with little money and no clothes and that she had taken her home to her own rooms. When I went out this morning to business Miss Conrad said 'I left Miss Graham in bed.' I forgot my pencil and returned for it and when I got in to the room I was shocked to find a note on the table together with a bundle of letters and a note saying Miss Graham had committed suicide and she had addressed a letter to the press. Miss Conrad told me that she rushed into the bedroom and found Miss Graham in bed, her face all bilatered and burned where she had spilled carbolic acid which accident had saved her life."

Stokes said Miss Conrad then told him that she was the daughter of a Russian prince, who eloped with her mother in Louisville. Miss Conrad he said told him she was born in Venezuela where her father was killed in a riot and that the widow's property dwindled from \$2,000,000 to \$20,000 which Miss Conrad said was squandered by a man her mother married.

The letter to which Stokes referred yesterday were found by detectives in the girl's room a few days after the shooting and since then have been in possession of the district attorney. When Stokes, who said he was fifty-seven years old for the most part adopted the attitude of fatherly concern toward the young girl.

In the letters from Stokes to Miss Graham there were many bits of advice to the young woman. One sent to Miss Graham early in December, 1909, warned her that the stage held but a "heartless social life" and urged her instead to "marry some rich young fellow, whose company and will be worth more than all the worthless admiration of a cheap stage."

In another the writer said: "I am a cross and crabbed and ugly old cove and such a nice letter from such a pretty girl has turned my head. In the first place, you know I am a divorced man, and I don't want to marry; second, any man who has failed to return the love of a woman who was desperately in love with him would count it a crime to try matrimony on a girl for the second time; in the third place, I am too old, so all I could do is to wait for a widow or divorcee who has had all the matrimonial experiences she wants for life and so you will just be good friends."

"We will go traveling and auting together and have pleasant talks and such things. There are several dozen widows and divorcees here I intend looking over carefully before I return, but I will make no selection before I have talked it over with you."

"There is a widow, right small, about 40 years old, very pretty and

## GOOD SHOWERS OVER WIDE AREA

### RAINS EXTEND FROM WICHITA FALLS TO DENVER, COLORADO.

## UNSETTLED WEATHER

### Forecast for Tonight and Tomorrow—Heavy Showers at Some Points.

Rains from Henrietta, Texas, to Denver, Colorado and from Newcastle Texas to Hammon, Okla. fell yesterday over one or more columns of Washington news and give this local opinion: That on certain important questions under discussion there are honest differences of opinion. To lay the dust, good rains are reported at other points.

In the country adjacent to Byers and Petrolia a heavy shower has fallen, enough it is reported to make fields boggy and start small streams to running.

At Iowa Park a heavy shower fell, and at Duffice the rain is reported to have been much heavier than here. Good showers fell at Archer City, Olney and Newcastle and at Devol, Grandfield, Loveland and Hollister, Okla. The precipitation northward from Tipton was light but on the Wellington branch a good rain fell. The Fort Worth and Denver's weather report at seven o'clock this morning showed no rain as far south as Henrietta. At Vernon, Okla., Tolbert, Chillicothe, Quanah, Acma, Goodlet and Kirklund good showers were reported.

The agent at Iowa Park reported more than an inch, but only a light sprinkle was reported at Electra. On the Wichita Valley heavy showers were reported at Duffice and Seymour and light rains from Seymour to Jefferson and over the Stamford and Northwestern.

Amarillo Drenched. Amarillo, Tex., July 6.—Following one of the warmest and certainly the most sultry days of the year, Amarillo and surrounding communities were drenched with rain, heavy at times, after a clear, hot day. The precipitation continued till night. Up to 7 o'clock the registration was slightly less than half an inch. The good of the rain to crops can not be estimated as all classes were beginning to need the downpour. Reports from other points indicate that the fall was somewhat heavier at an early hour than at Amarillo.

On the Northwestern. Reports received at the general offices of the Wichita Falls and Northwestern from points indicate that a light rain fell from Wichita Falls to Grandfield, while beyond to Tipton there was a good rain. The rain was light north of Hammon, but a good rain fell on the Wellington branch in the vicinity of Hollis. At Doolittle the rainfall amounted to half an inch and was light from points not mentioned. A good rain is reported to have fallen at Archer City and Olney.

More Than an Inch at Iowa Park. The rainfall at Iowa Park last night amounted to more than an inch. Editor Tom Parker of the Iowa Park Herald says that it put more than an inch of water into the grain tank. He came in to Wichita Falls this morning and reports water standing in the road to a depth of a foot or more in many places.

Tanks Filled to Overflowing. Special to The Times. Petrolia, Texas, July 7.—The best rain in 12 months fell here last night. Tanks in the oil field were filled to overflowing and it is expected that activities in the oil field which have been practically suspended on account of the lack of water will be resumed immediately.

Farmer Hines who lives two miles east of town says the rain was much heavier there than in the city. He said that sorghum and other feed crops he planted after the rain and hail storm that vicinity about ten days ago are coming up nicely.

Two Inches Reported at Byers. Passengers from Byers and Petrolia this morning report the heaviest rain in that country since July 10, 1910. The precipitation is estimated at two inches by some.

Beaumont Wins Aviation Race. By Associated Press. Paris, July 7.—Lieutenant Conneau of the French navy whose racing name is Andre Beaumont won the one-thousand mile international aeroplane race which started from here and traversed several European cities and went to London and return. Of the fifty who started on June eighteenth, nine finished third. Carros was second and Vidart third. A hundred thousand dollars was won.

Kimmerling fell into a wheat field on the last lap today but escaped injury.

## SHORT WEIGHTS AROUSE ABBOTT

### THE FOOD COMMISSION BEGINS CRUSADE TO END EVIL SAID TO EXIST IN EVERY SECTION OF STATE.

## OFFICIAL HIMSELF STUNG

### Dr. Abbott Determines to Take Action When He Gets But Sixty Pounds For One Hundred.

If any Wichita Falls ice dealer work without having a jury sworn to trial cases.

## E. M. WINFREY

ice dealers, generally speaking, have a habit of loading their wagons with a stated number of pounds of ice and depriving of the driver that they are owing back pay for the full amount. This means that the consumers must pay for the loss along the way caused by melting. For instance, if twenty-five of every 100 pounds of ice on a wagon melts as the driver progresses along the route, why, of course, the consumer gets only three-fourths as much as he pays for. Hereafter when a dealer sells fifty pounds of ice to a customer he must deliver fifty pounds or run the risk of getting into serious trouble.

Complaints to Be Filed. The commissioner held a long conference with members of the attorney general's department this morning and it was said that complaints along the route in question might be forthcoming within a few days. It is known that the commissioner was not at all satisfied with the weight of one ice delivery made to the refrigerator in his laboratory at the state house yesterday. In fact, he is quoted as having said that he paid for 100 pounds, but the commissioner's scale in fact counted on to start his full weight crusade right here in Austin. Aaked point blank this morning if such was his intention, the commissioner shrugged his shoulders and answered evasively: "You can't sometimes always tell. This department expects to institute prosecutions for short weights wherever found. We have taken some hand in local affairs and we could do so again."

The commissioner said that his ruling of yesterday in which he held that short weights of ice could be prosecuted under the state pure food law had also the backing of the national pure food commissioner. He said that his records showed that five ice dealers had been prosecuted by the federal government for selling short weights of ice, and that two prosecutions had been instituted for unclean water.

Impure Butter Seized. Dr. Abbott announced yesterday morning that he had confiscated 150 pounds of butter shipped into Austin from Lockhart. He has asked the attorney general's department to draw up complaints against the seller with a view to filing criminal charges. This is the first prosecution that has been started in the state for the sale of impure butter.

At the instance of the commissioner shipments of apples, syrup and butter were confiscated in different sections of the state. Until complaints are filed and arrests made the commissioner declined to give the location of these seizures, or the names of the parties, who will be made defendants of the contemplated actions.

## SUNDAY EVENING SERVICES AT AIRDOME

### Rev. Hamlin Engages Amusement Place for Religious Meetings.

Motion pictures are to give way to sermons and the vaudeville singer will be supplemented by the church choir at the Lamar Airdome on Sunday nights for the remainder of the summer season. Rev. R. R. Hamlin pastor of the Christian church has made arrangements for the use of the Airdome for the Sunday evening services of his church. The first service will be held next Sunday evening when Rev. Hamlin will open a series of popular lectures. The first will be "Why I Love the Church, a History of Her Achievements and Victories." Rev. Hamlin is trying to arrange for biblical picture slides to illustrate these lectures.

He selected the Airdome as the coolest place in town for holding evening services during the hot summer months. The fact that the Airdome was centrally located and that many who would otherwise be reached would attend these services was another inducement.

## Seven Days of Rain.

### Houston, Texas, July 7.—Another hard rain fell here today making rain fall on seven successive days.

## TRouble IN TRADE AT GRANDFIELD

### B. H. Haley Alleges W. H. Taylor De-frauded Him—Says He Got Only Half His Money's Worth.

## KATY-NORTHWESTERN NEW TRAIN SERVICE

### KATY OFFICIALS AT DALLAS ANNOUNCE NEW THROUGH PAS-SSENGER AND FREIGHT SERVICE.

## EFFECTIVE ON AUGUST 1

### Train Leaving Dallas at 8 P. M. Will Go Over Northwestern—Return Will Arrive at Dallas About 8:30 A. M.

Information given out by officials of the Katy at Dallas is to the effect that arrangements have been perfected with the Wichita Falls Route whereby a new passenger and freight service will be inaugurated August 1 between that city and points on the Wichita Falls & Northwestern and the Wichita Falls & Southern. On the date mentioned the Missouri, Kansas & Texas will put on a new passenger train—handling through sleepers between Dallas and points on the Northwestern road. This train will arrive in Dallas about 8:30 a. m. and returning will leave Dallas about 8 p. m. It is also announced that package car service from Dallas will be inaugurated at the same time.

The new passenger service will afford quite a convenience to visitors to Dallas from points on the Northwestern and Southern, as the round trip can then be made in a day at the same time allowing a full day's stay in that city.

While the above report as published in the Dallas News of today, estimates from W. G. Crush, General Passenger Agent and J. L. West, General Freight Agent of the Katy, it lacks confirmation at the general offices of the Wichita Falls Route in this city. owing to the fact that Mr. Fontaine, the General Freight and Passenger Agent, who attended a conference of the Katy officials and the secretary of the freight bureau of the Chamber of Commerce of Dallas; has not returned home, neither has he advised the general offices of any arrangements that may have been made. Asked regarding the matter this afternoon, Frank Kelly, vice president and general manager of the Wichita Falls Route, stated that he was not in a position to officially announce an agreement for the service referred to above until Mr. Fontaine had been heard from. He stated, however, that such negotiations had been pending for the past six months and that it was possible the agreement had been made as indicated.

## CARRIERS LIABLE FOR DISREGARD OF ORDERS

### By Associated Press. Washington, D. C., July 7.—A carrier is liable for damages resulting from disregard of shippers specific routing instructions even though it sends shipments via a route taking a lower rate than the original billed destination. This is a principal announced by the Interstate Commerce Commission today in a decision in the case of the Switzer Lumber Company of Shreveport, La., against the Texas & New Orleans Railroad and other carriers. The commission held that it was not part of the carrier's duty to speculate upon reasons which would affect such instructions and to assume they do not express the shipper's desires.

### Col. Lyon Passes Through City.

Col. Cecil Lyon, of Sherman, chairman of the State Republican Committee, passed through the city on a business trip up the Denver, his point of destination and the nature of the business not being given out during his short stay at the Union Station. He did say, however, that he was not en route to his ranch at Damsite, as is frequently the case on the occasion of his visits to this city.

Mr. Lyon was met at the depot by a number of his friends, including some of the leading republicans of the city, and with all he chatted freely regarding the weather and general conditions, but if he had a word to say politically it was communicated in an undertone and hurriedly spoken. Mr. Lyon had nothing to give out further than to say that there was practically no rain along the Denver to this place, the first evidence of a precipitation being noticeable this side of Henrietta.

## MEETING WILL BE HELD TONIGHT TO ORGANIZE AUTOMOBILE CLUB

### All automobile owners and especially those who fell an interest in the proposed Automobile Club, the organization of which was begun some days ago, are urged to meet at the city hall this evening promptly at 7:30 for the purpose of perfecting organization. It is planned to make the club a power for the development of this city and section, especially with reference to good roads, and the promoters of the club hope to have the cooperation of every owner of a car in the county. As a feature of the completion of the organization, officers of the club will be elected tonight, a good road committee will be named, and the general plan of the work proposed will be discussed and such action taken as is thought for the best interest of the organization.

## WANTS HER FATHER TO SUFFER PENALTY

### By Associated Press. Jonesboro, Ark., July 7.—In a letter today Mrs. Ida Despain daughter of Thomas Powell who is under death sentence for criminal assault on Mrs. Despain pleads with the public not to sign the petitions now circulating for executive clemency to Powell. She declares that her father is guilty and her chief desire is to be present at his execution.

### Will Skeen who came in this morning from Vernon reports a five hours' rain at that place last night.

## WINDOW GLASS MAN HERE—MAY MOVE FACTORY TO WICHITA FALLS

### Andrew Hudson, president, and Frank M. Boettick, secretary of the Chanute Window Glass Company of Chanute, Kan., arrived in the city today on the afternoon Denver train from Fort Worth for the purpose of investigating the conditions here with a view of moving their factory. These gentlemen, as announced in a previous issue of the Times, have concluded to move from their present location and favorably impressed with Wichita Falls as a result of correspondence had some time ago with the Secretary of the Chamber of Commerce. Secretary Day received a letter from Mr. Hudson several days ago announcing their decision to move, in which a meeting with the business men of this city was requested. Mr. Hudson was notified that a meeting could be held at any time and that our people would be glad to entertain a proposition look-

ing to the location of the factory at this place.

A conference between the visitors and the Manufacturing Committee is being held this afternoon at the office of Frank Kell at which a proposition will be submitted. The nature of the proposition has not as yet been given out but it is understood that the removal of the plant will depend largely upon the gas rate provided, in this respect Wichita Falls will have a decided advantage over a large majority of the points that will likely contest for the location.

Following the submission of the proposition this afternoon the committee of the Chamber of Commerce will take the matter under consideration if the offer is at all favorable and upon their recommendation that organization will likely take early action.

## BEAUMONT WINS AVIATION RACE

### By Associated Press. Paris, July 7.—Lieutenant Conneau of the French navy whose racing name is Andre Beaumont won the one-thousand mile international aeroplane race which started from here and traversed several European cities and went to London and return. Of the fifty who started on June eighteenth, nine finished third. Carros was second and Vidart third. A hundred thousand dollars was won.

Kimmerling fell into a wheat field on the last lap today but escaped injury.

## WILLIAM J. CUMMINS, ALLEGED "MASTER SPIRIT" OF THE DEFUNCT CARNEGIE TRUST COMPANY OF NEW YORK, WHO IS SOON TO BE TRIED IN CONNECTION WITH THE SENSATIONAL SMASH-UP OF THAT CONCERN.

The last of the trials of others in connection with the failure of the institution was that of Joseph B. Reichmann, president of the company, who was found guilty of making a fraudulent report to the State Banking Department. Former City Chamberlain Charles H. Hyde will be tried after Cummins for alleged irregular use of city funds in his official capacity in making large deposits with the Carnegie Trust Company.

MEMBER ASSOCIATED PRESS

Wichita Falls, Texas, July 7th, 1911.

Superintendent Gauswitz of the  
 Denver railway says that the rain  
 which fell along the line of that road  
 is worth a billion dollars to Texas.

These rains are exceedingly encour-  
 aging. Reports from the country are  
 to the effect that most of the cotton  
 crops have withstood the drought splen-  
 didly, and there is yet a prospect of  
 raising a very good cotton crop.

The light rain of this morning will  
 help some, and if followed by others  
 will make it possible to produce a par-  
 tial cotton crop and a very good forage  
 or feed crop.

The State Pure Food Commission  
 has issued a bulletin calling attention  
 to the fact that unclean ice comes un-  
 der the terms of the Texas pure food  
 law. Water was placed in the same  
 category. Next thing now is to en-  
 force the law. There is hardly a dealer  
 in ice and water in the state who is  
 not violating the law almost daily.

Clay county is to vote on the propo-  
 sition of issuing \$200,000 worth of good  
 roads bonds on August 5th, and it is  
 predicted that the proposition will  
 carry by a majority of something in  
 the neighborhood of 5 to 1. Wichita  
 county should do likewise.

"The disturbing element" is Govern-  
 nor Colquitt's name for prohibitionists.  
 It may be that he is right about it, but  
 there are times when peace costs too  
 much to be peace. The devil is always  
 ready to make peace if you make it on  
 his terms. George Washington be-  
 longed to a disturbing element and it  
 was somewhat of a disturbance that  
 he kicked up. If the prohibitionists  
 will only take enough interest to vote,  
 Texas will be given real peace July  
 22—the kind that she has never known—  
 Abilene Reporter.

#### DALLAS GRAND JURY REPORT.

Speaking of the report of the grand  
 jury of Dallas county, the Dallas News  
 says in part:

The report which a Dallas county  
 grand jury made last Saturday, and  
 which the News printed in full Sunday  
 morning, is one of those documents  
 which ought to be read, not merely by  
 every citizen of Dallas county, but by  
 every citizen of Texas. We commend  
 it particularly to the newspapers of  
 the state. It is worth their perusal and  
 their comment, while there are a num-  
 ber of passages in it which they can  
 well afford to reproduce; for though  
 some of the matters it treats of are  
 true perhaps of only a few counties of  
 the state, it discloses some conditions  
 which are common to all counties in  
 Texas.

There are enough cases already on  
 the docket to take up the time of the  
 Dallas County Criminal Court for the  
 next three years, if no other cases  
 are added. Of course the additions  
 will be steady, and if at the normal  
 rate, this court will, at the end of  
 three years, be probably five years  
 behind in its work. It can hardly be  
 necessary to suggest what this means.  
 The first and perhaps the worst con-  
 sequence of it is that this delay works  
 to defeat the ends of justice. Wil-  
 nesses die, are "lost," or are sent off,  
 and that sense of injury which the  
 commission of a crime immediately ex-

cites is worn off. Every day of delay  
 adds definitely to the difficulty of  
 convicting criminals. It means for  
 another thing, that while a well-to-do  
 criminal can enjoy a long period of  
 liberty which he may utilize for fab-  
 ricating a defense, the poor wretch  
 who has neither property nor friends  
 must languish months and years in  
 jails that are not only in themselves  
 a torture that makes more than a  
 condign punishment for the crime  
 charged to him; but in many cases  
 give death an irremovable grip on the  
 prisoner. Indirectly the death punish-  
 ment is assessed against him even  
 before the question of his guilt is de-  
 termined. This condition of things con-  
 stitutes not only an essential violation  
 of the Constitution, but it is a species  
 of barbarism and inhumanity that in-  
 dicts our civilization. This state of  
 things is not peculiar to Dallas county;  
 it is true of most counties of the state.

What are the causes of these con-  
 ditions? The Dallas county grand  
 jury points most of them out with a  
 candor that is admirable. It says a  
 great deal of crime in Dallas county is  
 due to whiskey drinking. There will  
 be none to deny that; but whiskey  
 drinking is not the main cause of the  
 law's breakdown and those travesties  
 that are so solemnly enacted in court  
 houses. We venture to say that the  
 number of crimes which may be direc-  
 tly imputed to whiskey drinking, great  
 as it is, is not greater than the num-  
 ber of crimes that are to be attributed  
 to a fearlessness and contempt of law  
 which lawyers and judges and jurors  
 have unwittingly inspired in men. The  
 grand jury, with an impartiality that  
 is admirable, frankly acknowledges  
 this truth. It recognizes as one of the  
 causes of this condition a superstitious  
 adherence to a "code of criminal pro-  
 cedure that belongs to the Dark Ages,  
 if not to prehistoric times; a code  
 which was in vogue 200 years ago in  
 England, but which has been aban-  
 doned for at least 50 years; a code  
 which recognizes the rights of the  
 criminal, but absolutely fails to recog-  
 nize the rights of society, the private  
 citizen or the taxpayer." Is there any  
 one to challenge that statement?

What is another element in this con-  
 spiracy under the form of law against  
 society? The grand jury says: "We  
 are told by the Judge that it is getting  
 serve on the jury." Is that not true  
 to be a hard matter to get good men to  
 of every county? The men who are  
 foremost in deploring lawless condi-  
 tions are for the most part, the men  
 who are foremost in shirking jury ser-  
 vice, and so skilled and successful have  
 they become, resorting even to a con-  
 ventional form of perjury to excuse  
 themselves, that juries are made up  
 frequently of a combination of ignor-  
 ance and knavery that works alto-  
 gether to the advantage of the crim-  
 inal. Here, as at all other points,  
 the law is at fault, but the chief de-  
 fect here is a recreant citizenship, a  
 readiness on the part of so many  
 men to shirk a duty which rests on  
 them as heavily as any other. The  
 excuse they give has some validity;  
 to be herded like cattle and to be  
 locked up for days and perhaps weeks  
 in stinking and filthy quarters is  
 certainly not pleasant. But what kind  
 of patriotism is it that can not endure  
 even discomfort.

Mr. and Mrs. Fred Steiner of Pres-  
 srick, Okla., are at the Westland for  
 a week or two, noted in the city on  
 business.

**Son Returns Home After Eight Years Absence.**  
 Hiram Davis of Newburg, N. Y., went walking one day eight years ago and did not return until yesterday. He was about 20 years old when he disappeared. The police all over the state were on the lookout for him, the Hudson River was searched and finally he was given up as dead. When he greeted his mother last night it was some hours before she could be calmed. Davis had been out West.

**Two Years a Policeman Becomes a Fire Hero.**  
 Andrew Kruska of Chicago had been a policeman just two years when he smelled smoke, discovered a fire, broke in to a burning house and rescued a woman who had been rendered unconscious by the fumes. He also turned in an alarm that brought the fire department to the scene.

**This is My 62nd Birthday.**  
 Solomon Schechter

Solomon Schechter, the noted theologian and author upon whom Harvard conferred the honorary degree of Litt. D. at its recent commencement, was born in Roumania, July 7, 1849, and received his education in the universities of Berlin and Vienna. After completing his education he went to England and for some years was a member of the faculty of the University of Cambridge. Under the direction of the university he traveled extensively in Italy, Palestine, Egypt and other countries for the purpose of examining Hebrew literature. After leaving England he came to America and for the past ten years he has been president of the faculty of the Jewish Theological Seminary of America.

**By Associated Press.**  
 Pittsburgh, July 7.—Notwithstanding the breaking of the heat spell here five deaths from this source occurred today. Among the victims was Dr. Thomas Welsh who overtaxed his strength during the past few days caring for heat prostrations. He had been up at his office until three this morning with patients and dropped exhausted half an hour later.

### A Reply to Clarence Ousley

To The Times,  
It may be presumption on my part to attempt to refute the line of argument used by Clarence Ousley in his answer to Dr. P. Brewer, published in the Houston Post, under date of July 2nd, 1911.

I say, presumption on my part because, notwithstanding my newspaper experience and as an officer of the law for twenty years, circumstances and conditions have not given me prominence in the public eye that it has my friend Ousley.

Nevertheless my observation has been none the less keen and my interest none the less great in public issues.

Naturally, the ladder upon which a man climbs to prominence would be his opinions, but I forbore to remind my friend Ousley that I remember when he was managing editor of the Galveston Tribune, and the policy of the paper helped to elect a Republican congressman, for he is now an apostle of true Democracy and a friend of the great Bailey. But with the tenacity of one whose curiosity overcomes his discretion, I am constrained to say, Brother Ousley, you remind me of Bill Sterrett, when he was the "Washington" correspondent of the Galveston Tribune. When the News desired to remain silent on the merits of a measure before the House or Senate, the facile pen of William would travel over one or more columns of Washington news and give this lucid opinion: "That on certain important questions under discussion there were two rooms for honest differences of opinion but from a hypothetical view it seemed to your correspondent, that if so and so were true, the measure was undoubtedly meritorious but to the mind of your correspondent the logic is false."

To what extent Brother Ousley has been influenced by associations with the versatile William I do not know, but his answers to Dr. Brewer has a familiar ring.

It is not the purpose of this article to follow Brother Ousley on his anti-monoplane into the academic atmosphere of rhetoric, where he has cut the figure eight with all the grace of a bird-man. As he has confused the issue until the common people can only look on and exclaim: "Well I'll be d---! He's going some!"

No, Brother Ousley, the writer will stick to the ground floor in this state-wide issue, and though you may deny the mild assertion that you are trying to see-saw, the writer covers Dr. Brewer's shoulder, when you advise us common people to "read the great religious scientific preaching, Drummond's Natural Law in the Scriptural World," we say to you in the language of the old Texas cowboy "please excuse me, pard, I don't know what you mean, but I am willing to do what's right about it."

No, Brother Ousley, your glittering generalities do not meet the issue of voting out the open saloon in Texas. Your trip to Georgia and observation in Charleston, S. C., might have been

extended to Europe, so far as being of any practical value in aiding the voter on the 22nd, for both the conditions and the issue were different in those states.

The only issues for the voters, who on the 22nd, will be the lawmakers for the state of Texas is, will the legislature or injured by the adoption of the amendment? Whether the law will be enforced if the amendment carries is not a matter of pre-judgment by comparison with other states but, rather should be a pre-determination of state pride to enforce the law as an example. The fact that the anti, including Ousley, are constrained to admit that the prohibition law in 167 counties in Texas, (territory almost as large as Georgia or South Carolina,) is enforced, is a guaranty, that statewide will be enforced. The trouble of the anti is, they want to cross the bridge before they come to it and, bid the devil good morning before they meet him.

The writer will not believe or for one moment intimate that Ousley would intentionally try to mislead the Texas voter, but in the language of Cone Johnson say "I was struck with the fact that every citation of the alleged failure of prohibition laws had to be drawn from other states, where the conditions and situations must remain largely unfamiliar to the people of Texas, and with regard to which misrepresentations can be made with considerable safety."

Patner Murphy struck the meat of the issue when he said: "Is the saloon business, as we have it in Texas today, an evil thing and a thing that we cannot change into a beneficial thing?"

Brother Ousley is like the lawyer, who enters a "plea of confession and avoidance." He is too well informed as an editor to deny that the saloon in reality, of all the charges, brought against it, but seeks to avoid defeat for the anti by holding up the failure of other states to enforce the law.

In the face of the decisions of all the Appellate courts in the United States, including the United States Supreme court, that no one has an inherent right to sell liquor and that the business itself promotes lawlessness, disease, poverty and suffering. And, that the doctors tell us that alcohol is not a food and its use vitiates the blood, inflames the stomach, weakens the heart, destroys the kidneys, hardens the liver and softens the brain, there can be no rational defense, not only for the whiskey traffic and any excuse or any scarecrow even clothed in academic language and dressed in the Polish of Clarence Ousley; will not keep the law-abiding citizen from doing his duty on the 22nd.

No, Brother Ousley, what is good for 167 counties is good for the state, for each county is a unit of the state and each precinct a unit of the county-- give us Statewide Prohibition, and let Kansas, Oklahoma, Georgia and South Carolina prosecute their own citizens who violate the law.

EDGAR RYE.

### 25TH OKLAHOMA DISTRICT COURT DATES

Special to The Times,  
Frederick, Okla., July 7. District Clerk J. L. Copeland has received a copy of an order of the supreme court of Oklahoma, setting the terms in the Twenty-fifth district, as follows:

In Jackson county, at Altus on August 21 and September 1 and 2, 1911.

In Harmon county, at Hollis on September 5 and 6, 1911.

In Tillman county, at Frederick on September 5, 6 and 9, 1911.

In Jackson county, at Altus commencing on the 11th day of September, 1911, and continuing up to and including the 30th day of September, 1911.

In Tillman county, at Frederick commencing on the 20th day of October, 1911, and continuing up to and including the 21st day of October, 1911.

In Harmon county, at Hollis commencing on the 23rd day of October and continuing up to and including the 11th day of November, 1911.

On the September dates in Tillman county Judge Mathews will hear motions and dispose of this part of the work, without having a jury summoned. The October term will be devoted to trial cases.

James Gault, an attorney of this place, while hunting rabbits near here yesterday was attacked by a large rabbit after an animal had been wounded and was severely bitten and scratched before the rabbit was killed. Gault had fired on the rabbit and on seeing that he had wounded it, ran forward when the animal suddenly sprang at Gault's

### FORMAL OPENING OF MARTIN'S BOOK STORE

Handsome New Store Will Be Opened With Reception from 7 to 9 p. m. Saturday.

Martin's book store in the new Ward building on Eighth street, will be formally thrown open to the public Saturday at which time a reception will be given to the friends and patrons and the public generally. The hours for the reception are from 7 to 9 p. m., during which good music will be given, and drinks from the fountain and cigars will be served free to all who attend. The store will also be handsomely decorated for the occasion.

Mr. Martin has installed a very pretty and inviting store, especially for ladies. The store is equipped with new mahogany fixtures with an especially cozy corner for serving fountain drinks and ice cream. This is in the rear of the store away from passing street gazers, well supplied with fans and lights.

In his Eighth street store Mr. Martin will handle books, stationery, magazines and will be kept entirely free from any objectionable features so that ladies may be assured they will be received with courtesy at all times.

In his Ohio avenue store Mr. Martin will continue the office fixtures portion of his business, as well as carry his regular line of cigars and fountain drinks.

Be sure to call at the new store Saturday evening if for nothing else than to see the store and get acquainted with the owner.

Zemo Cure Eczema, Pimples, Dan-druff, Prickly Heat, Sunburn, and affords you skin comfort during the hot weather. We give you the reasons why we recommend ZEMO for skin trouble.

1st. ZEMO is a clean, scientific liquid preparation, pleasant and agreeable to use.

2nd. ZEMO stops itching at once and allays the irritation and promptly soothes and heals the skin.

3rd. ZEMO gives universal satisfaction and is recognized by skin specialists as the standard remedy for all skin and scalp troubles.

If you wish to try a bottle of ZEMO for yourself or one of your children and it does not do exactly what we say, we will return your money without quibble or question.

Word reached Lawton yesterday to the effect that Ott Pokorny, the former first sacker for the Medicine Men had been shot by Wellington, Kansas in Omaha, in the Western League. He is now playing with a class B crowd the same he would have played with Oklahoma City--Lawton Star.

### Prohibition Snap Shots

Note--The matter published in this column is authorized by the county prohibition committee, J. M. Bell chairman.

When the anti say that prohibition will not prohibit, it is enough to tell them that license to sell does not prevent the saloons violating the present liquor law. Where is the saloon that keeps an orderly house, does not sell to habitual drunkards and obeys all the regulations under their \$5,000.00 bond?

The whole liquor business is inherently lawless and were it not that it is backed up by over \$200,000,000 capital in every prohibition campaign the saloons would not have a friend to lay a wreath on their graves. As it is, whenever prohibition carries in any state or county, the whole force of the liquor power is brought in to action to try to discredit and violate the law.

Liquor men themselves create the lawlessness in prohibition states and counties, then turn to the people and say prohibition will not prohibit! Is it not strange that good men in the anti ranks can not see that the saloon men create an atmosphere of lawlessness in prohibition districts by deliberately shipping liquor to any "blind tiger" or "bottlelegger" who desires to violate the law. As well sell a burglar tools to break into a house or a robber a pistol to hold up a train. On this account, if no other saloons should be voted out of the State.

There are many excuses made, but no real argument for the saloons; not a single good thing has ever emanated from a saloon. It is the one business that has not a single redeeming feature. Even the saloon men who make money out of the business ought to be saved from the consequences of the business by voting them out. Did you ever see a saloon man who is proud of the business, and take his wife and children and show them his stock in trade?

There is only three businesses in any community that saloons help; the doctor, lawyer and undertaker.

### A BIG CUT IN FANCY CANNED FRUITS

For some time we have been handling "White Horse" canned fruit--an excellent piece of goods too. But we have too many brands in our stock and as our line of White Horse goods is rather low we are going to close it out entirely. Our present stock consists of grapes, apricots, pears, cherries and sliced peaches that sell regularly at 35 cents per can or 2 cans for \$1. To quickly close out our few remaining cases of this fruit we offer them at 27 1/2 cents per can or 2 cans for 55 cents.

Every can guaranteed.

## A Dream

IT IS SAID that "dreams go by contrary to the sub-conscious mind. But "day dream" is a keen judgement, and a considerable energy of the human race.

WHEN MR. PENNINGTON, for that some day it would be recognized leader of the human race, be many times larger than the sum of many of each individual the best service possible. He cared not so much by its concrete foundation of originality, its progressiveness, its leadership, be pointed to as a symbol of progress and development, a conscientious store and about

HE BUILT A CASTLE IN THE FOUNDATION underneath his enterprise his money, 200 parts determination and 799 parts that drives civilization and his support of a faith of Plymouth Rock will provide abundant privations, that laid the foundation of the above the many obstacles that brought it from in Wichita Falls reaching the skies; faith in their store would grow in the exact ratio that would refund the money any purchase with

DID THE DREAM COME TRUE? --Let us see: five years ago \$8,700 in money and tons of daring, represents an investment of nearly \$100,000.00 and a prestige and good will worth that amount many times over. Then five employees could comfortably handle all the trade; today 25 are employed regularly. BOASTING?--No, indeed, we are not; merely reviewing the many things for which we are indebted to you. We can never be able to repay; we shall endeavor to pay, in part, in the

## Fifth Anniversary Sale Beginning 8 O'clock, a. m., and Closing Saturday

THE ANNIVERSARY SALE is the method by which this great and growing institution extends its tribute to its customers. Two weeks each year are devoted to showing our appreciation for the loyalty, good will, confidence and generous support of our customers. Our thankfulness in some substantial and practical manner. Sweetly worded phrases, no matter how sincere, would never be considered more than an advertisement. Money, in the way of a cash dividend, could never be distributed to you our profits during the next two weeks, on practically everything we sell. In this way you will benefit in the exchange of articles, on which the price is restricted. Every article in the entire house will be sold at a price approximately cost. The same rule applies. No matter whether it be a yard of muslin or dress materials--A 100 percent or an entire practically what it cost P. H. Pennington Company's store. Such a plan would be ruinous to any store but we have **MANNER THAT WILL BE LONG REMEMBERED BY ALL WHO HELP US**

# ANNIVERSARY SALE

## Dream That Came True

That "dreams go by contraries." Night dreams usually do; they are only the fanciful imaginations of a conscious mind. But "day dreams"—dreams of the conscious mind, and of the heart, backed by initiative, judgment, indomitable energy and unflinching persistence—result in the greatest and mightiest achievements of a race.

MR. PENNINGTON, founder of this business, looked at his tiny store five years ago—he dreamed it would be the recognized leader of its class in this part of the state. He dreamed that some day it would be made up of many departments, employing many people, catering to many classes and giving to the best service possible. He dreamed of an institution greater even than its physical self—a store measured by its concrete foundations, its brick and mortar superstructure, its rafters and its beams, as by its progressive business, its leadership, its worth to the community. He dreamed that, in years to come, it would be a symbol of progress and development—of its being recognized as a standard of reliability; an accommodation store and, above all, AN HONEST STORE.

WILT A "CASTLE IN THE AIR," but with his associates immediately began constructing a material enterprise had been analyzed it would have been found to consist of about one part of determination and 799 parts of faith. Faith is the mainspring of progress, the generator of the energy of illumination and the support of all at the hour of entrance into the shadow land of the unknown. It was the Rock of Ages providence, supplemented by diligence and indefatigable hard work through unspeakable trials that laid the foundation of the New World. It was the faith of the early builders of this store, rising above all obstacles that brought it from the embryo through the chrysalis stage into its full development. Faith is reaching the skies; faith in their business principles as deep as their lives; faith in their convictions that would grow in the exact ratio that it deserved to grow; that the one price principle must win and that they would get the money on any purchase whatsoever not satisfactory. Such was the "faith" that inspired the vision.

On money and on daring, dauntless pluck were the entire assets of this business; today the enterprise has that amount many times over. Five years ago only a tiny floor space was needed; today 8,500 square feet are employed regularly and as many as 75 during the busy seasons.

For which we are indebted to the Wichita Falls public. To our patrons we owe much—more than we shall

Beginning Saturday, July 8th at  
Closing Saturday Night, July 22nd

stitution extends its tribute to the people of Wichita Falls and surrounding country who made it grow. Two will, confidence and generous support of our patrons. We would be ungrateful, indeed, if we did not express our sincere appreciation. Souvenirs, no matter how elaborate or costly, could be distributed equitably. So we use the only possibly and satisfactory means—That of giving you a benefit in the exact proportion that you patronize. With the exception of less than a half dozen items at a price approximately cost. Regardless of what the article is, how reasonable it is, or how much wanted it is—A 10c button or an entire wardrobe—a paper of pins or a suit of clothes—it can be bought here at a price that is a birthday to celebrate AND CELEBRATE IT WE WILL—IN SUCH A

**JAPANESE BANKING HOUSE INCORPORATED**  
Houston, July 7.—Today's report of the Fuhushima Company incorporation in the United States closes the invasion of the Texas field by the Mitsui banking house of Japan. Offices have been opened here with Fuhushima as manager and the main business will be the exportation of cotton to Asiatic countries. This is regarded here as the most aggressive move yet made by the Orientals in connection with the cotton industry.  
It is also announced the Mitsui Co. has perfected arrangements through-out the Orient with a view to cotton operations. These plans all follow the personal visit of Baron Mitsui to Texas as a little over a year ago when he made a study of the cotton and rice situation.

# HOGS REGAIN SOME YESTERDAY'S LOSS

**CATTLE DEMAND LIGHT**  
Special to The Times.  
Fort Worth, Texas, July 7.—Hogs receipts 3800 head. The market recovered some of the ground lost yesterday, and at the close was from 5 to 10 cents higher than yesterday's close. Tops brought \$6.70 and the bulk went at \$6.20. Lightweights sold at \$5.50 to \$6.20. Mixed at \$6.25 to \$6.60. Heavies at \$6.50 to \$6.75. Pigs at \$4.50 to \$4.60.  
Receipts 2700 head, including 400 calves. Steers were steady, but the demand was light. Tops brought \$5.60. One lot sold at \$5.10 and the bulk went from \$3.50 to \$4.50. Cows were active. The bulk sold from \$2.75 to \$3.25. Bulls were steady. Calves were slow. The quality was poor and but few were sold. The top was \$5.00.  
**Sheep**  
Receipts 300. Market steady.

**Rio Grande On Rampage.**  
El Paso, Texas, July 7.—The Rio Grande today was still rising and is higher than for years. Several Mexican houses were carried away, but there has been no loss of life.

**THE BOWERY TRIO FEATURE AT COLONIAL**  
The Bowery Trio is the vaudeville attraction at the Colonial this week, and with three good pictures and an illustrated song makes up a very active program. The Bowery Trio are singing and dancing artists who intersperse their melody with some of the cleverest and cleanest comedy work ever viewed here.  
Tonight they will sing a medley of old favorites which should make a most delightful number.  
In the matter of weather protection the Colonial has got them coming and going, being both an open and a roofed theatre. Last night when the rain came up the audience moved to the covered portion and continued to enjoy the show, and on clear nights the house presents all of the delights of an air-oume.

**FREDERICK WON FROM LOCAL TEAM**  
Frederick Pitcher Struck Out Sixteen Men and Yielded Only Four Hits.  
The ball game at Frederick yesterday afternoon between the team of that place and a picked nine from Wichita Falls, resulted in a victory for Frederick by a score of four to one. Those in attendance report that the game was a very interesting one, and as one of the Wichita boys expressed it, the only trouble was the inability to hit the ball. Kramer, who pitched for the Frederick team, secured sixteen strike outs and allowed only four hits while Collier was touched up for eleven hits.  
The boys from this place report that they were royally treated at Frederick, and had no occasion to complain. Those who were in the game and their positions were as follows: Bachman c. Collier p. Will Huff 1st. C. Smith 2nd. Harrison 3rd. G. Cecil ss. L. Smith lf. Murray cf. Scheurer rf.

# LATE SPORTING NEWS

**TWELVE INNINGS TO DECIDE CONTEST**  
AFTER TWO POOR EXHIBITIONS ALTUS SHOWS GOOD FORM YESTERDAY.  
A SEE-SAW THROUGHOUT

Wichita Falls and Altus battled for twelve innings yesterday afternoon for the last game of the series and furnished those present with one of the best exhibitions of baseball that has been seen on the local diamond this season. It was a see-saw game throughout, the local team leading off in the second inning with one score secured on a hit by Clark followed by a single by Lawrence after D. Naylor had gone out on a fly to right field. Altus came back in the first half of the sixth with two runs, the result of a single by Kizlar, who was advanced to second by Latham on a wild throw to first on an error by Clark, and a two-base hit by Bergman scored Kizlar and Latham. In the last half of the sixth inning Bergman scored Kizlar and Latham. In the last half of the seventh inning Bergman scored Kizlar and Latham. In the last half of the eighth inning Bergman scored Kizlar and Latham. In the last half of the ninth inning Bergman scored Kizlar and Latham. In the last half of the tenth inning Bergman scored Kizlar and Latham. In the last half of the eleventh inning Bergman scored Kizlar and Latham. In the last half of the twelfth inning Bergman scored Kizlar and Latham.

of game—2 hours and 30 minutes.  
Umpire—Frisson.  
Ardmore 10, Cleburne 4.  
Cleburne, Texas, July 7.—Ardmore won over Cleburne yesterday by a score of 10 to 4. Cleburne put in two pitchers, but was still unable to win out. The visitors seemed to have the best of the contest from the start to the finish and kept up their lead. They amassed fifteen hits, while the locals only got six.

# SPECIALIZATION

We began SPECIALIZING on Men's and Boy's Wear at Dallas more than 10 years ago, by doing so we were enabled to better serve our customers each succeeding season, we accomplished this by better buying, always being alert, and inquisitive for possible better bargains in our specialized lines. Today we do not only buy direct from mills and manufacturers, but also buy from them at the best possible prices, of course selling accordingly, which means better merchandise at the same or lower prices.

### TEACHERS THROUGH SAN FRANCISCO

DELEGATES ARRIVING FOR 49TH ANNUAL CONVENTION NATIONAL EDUCATIONAL ASSOCIATION.

#### FIGHT AGAINST OLD ORDER

Illinois and New York Teachers Will Lead in Campaign for Progressive Methods.

San Francisco, Cal., July 7.—San Francisco is rapidly filling with delegates and visitors to the forty-ninth annual convention of the National Education Association, some thirty thousand of whom, representing all branches of educational work from the kindergarten to the university will make this city their mecca during the coming week. The national headquarters were opened this morning at the St. Francis Hotel by Secretary Irwin Shepard of Winona, Minn., who, with a large force of assistants, will be in continual session save during sleeping hours, until the delegates have gotten into working order the first of the week.

The officers expect that all records for attendance will be broken by the present convention. A vast array of visitors is already here and every arriving train is adding hundreds to the crowd. All of the teachers are found in their private or the local arrangements for handling the visitors and for their entertainment. Each train is met by members of the reception committee, who pilot the visitors to the headquarters for registration or assignment, or show them to their rooms if accommodations have been secured in advance. The business section of the city is decorated with flags and bunting and signs bidding the N. E. A. welcome are displayed everywhere.

The first general session of the association, in the Greek Theatre of the University of California, will not be held until Monday afternoon, but the convention will be preceded tomorrow by meetings of standing committees and several of the affiliated organizations. At the formal opening Monday afternoon addresses of welcome will be delivered by Governor Johnson of California, Mayor McCarthy of San Francisco and President Wheeler of the University of California. Responses for the visitors will be made by Dr. Elmer E. Brown, late United States Commissioner of Education and who is soon to enter upon his new duties as Chancellor of New York University. Mrs. Ella Flagg Young of Chicago, president of the association, will preside at the session and deliver the opening address. Dr. David Starr Jordan, president of Leland Stanford Junior University will be another noted speaker at the initial session.

Among the persons of prominence in the educational world who will be included among the speakers of the week are Carroll G. Peares, superintendent of schools of Milwaukee; J. H. Van Sickle, superintendent of schools of Baltimore; Joseph Swain, president of Swarthmore College; J. H. Baker, president of the University of Colorado; Robert J. Aley, president of the University of Maine; Samuel Avery, chancellor of the University of Nebraska; Robert Lee Jones, State superintendent of education of Tennessee; Francis G. Blair, State superintendent of public instruction of Tennessee; George B. Cook, State superintendent of Arkansas; Thomas C. Mott, superintendent of schools of Richmond, Ind.; J. W. Crabtree, State superintendent of Nebraska; Nicholas Murray Butler, president of Columbia University; John R. Kink, president of Missouri State Normal School; J. H. Phillips, superintendent of schools of Birmingham; W. E. Harmon, State superintendent of Montana; Thomas F. Kane, president of the University of Washington; C. A. Dunway, president of the University of Montana; and P. L. Campbell, president of the University of Oregon.

From an instructive viewpoint the program promises one of the most successful conventions in the history of the organization. Aside from this however, the convention is likely to prove of more interest to the membership than any of the annual meetings of recent years. For several years the membership has been afflicted with internal rival factions, whose differences came to the surface at the Boston convention last year. Since then the war clouds have been looming blacker and blacker and all signs now point to a bitter storm which may greatly affect the future of the big teacher's organization.

It will be a fight against the "old order" led by the combined forces of the teachers of Illinois and New York. The main issue, and the one which is expected to bring up the most serious opposition, is the proposal to abolish the national council, which is vested with the power of recommending appropriations and fixing the expenditure of funds. The so-called insurgents charge that the council has fought against progressive methods for the association and it is also hinted that the expenditure have been recklessly and imprudently made.

#### New Laws in Nebraska.

Lincoln, Neb., July 7.—Many of the laws passed at the recent session of the Nebraska legislature went into effect today. One prohibits any person under the age of 18 from using tobacco in any form. Another prohibits all public exhibitions of hypnotism or mesmerism. Another provides heavy penalties for persons concerned in the "white slave" traffic and makes it competent for a wife to testify against her husband in such cases.

Miss Margaret, daughter of Mrs. W. K. Vanderbilt, Sr., who is to be married to Ogden Livingston Mills, son of Mr. and Mrs. Ogden Mills of New York. This is the information that has been received from Paris, where Miss Vanderbilt is living at present, and although no formal announcement has been made it is generally understood that the marriage will take place in the fall.

### A SUCCESSFUL FLIGHT AT CORPUS CHRISTI

Special to The Times.

Corpus Christi, Texas, July 7.—There is still a flutter of excitement in the old town tonight over Mr. Oscar J. Brindley's most successful flights with one of the Wright's Bros. biplanes here on July 3 and 4. This was the first aeroplane to exhibit in all of South Texas, south of San Antonio and the one to make a world record in weight and passenger carrying. If one is sought to perform a daring feat, it is needless to go outside of Texas to find that one and in this instance the individual was found in the person of F. Z. Bishop, the owner of the new town of Bishop in this county, who weighing well up toward the three hundred mark, dared to take a long flight up through and above the clouds with aviator Brindley who says this is the world record for freight carrying by aeroplane. The aviator visited his big passenger at the new town today and reports him well over the sensations of his exciting experience and declaring that next to town building he would be a birdman.

#### Allendale Notes.

Mrs. C. C. Allen visited her daughter, Mrs. R. V. Gwin in Wichita several days last week.

Master Ernest Gilman of this community, is visiting friends and relatives in Naomona, Texas.

Miss Hattie Gwin is spending this week in the city visiting friends and relatives.

Mrs. Vera Hardwick returned last week from Frisco, Texas, at which place she spent several months visiting relatives.

Mr. Lish Gates is in Olney, Texas on business this week.

Mr. and Mrs. W. H. Gwin were the guests of Mr. and Mrs. T. B. Taylor of Bowman Sunday.

Mr. W. P. Billingsley is attending court in Wichita Falls this week.

Mr. J. T. Cross of this community has returned from a prospecting tour to Bowie, Texas.

Mr. and Mrs. M. Langford entertained a large crowd of young folks Sunday with a dinner.

Mrs. Maymie Teague of Wichita is visiting her parents, Mr. and Mrs. W. P. Billingsley.

Mrs. J. T. Gilman and daughter, Mrs. Gilman and children were the guests of Mrs. A. E. Gwin Wednesday of this week.

Miss Otis Gwin has returned from a three weeks' visit with friends and relatives in Oklahoma.

Rev. Hamlin, pastor of the Christian Church at Wichita, will deliver an interesting talk on prohibition at the M. E. Church at Allendale next Sunday evening.

#### WEALTH OF HAIR.

O. F. Marchman Has the Preparation that Grows Hair, Stops Dandruff and Makes Hair Gloriously Radiant.

Money back says O. F. Marchman if Parisian Sage doesn't eradicate all dandruff, stop splitting hair, falling hair and scalp itch, and put life and lustre into the hair of any man, woman or child.

And Parisian Sage is so pleasant and refreshing. No cheap perfume odor to carry around all day, no disagreeable concoction that disgusts the senses, but a kindly perfumed tonic that proves its goodness the first time you use it.

### FOWLKES TOWNSITE AND OIL COMPANY

H. B. Hines, R. L. Fowlkes and others are promoting a townsite-oil company at Fowlkes, a switch station on the Fort Worth & Denver between Iowa Park and Electra. The company they are promoting owns 400 acres of land immediately northwest of the tract on which oil was first discovered in Northwest Texas at a depth of 200 feet while digging a water well a number of years ago.

For \$10 a lot can be purchased in this tract carrying with it ten shares of the capital stock of the company of a par value of \$10. As soon as one-third of the tract is sold the promoters agree to sink two deep wells for the benefit of the stockholders and lot owners.

This is the same plan under which companies are operating and developing territory at Electra and other places.

The home offices of the company are located in Wichita Falls.

Roehach's Mineral Water. Is highly recommended by physicians and patrons who have tested its merits, for indigestion, a catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretions of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the well or delivered in jars or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon.—G. J. Roehach, Owner. Phone 1601—1 log—4 shorts.

GANZER MAY ORGANIZE COTTON CLUB HERE. W. M. Ganzer, of Denton, in charge of the U. S. Government demonstration work over a considerable area of Texas, arrived in the city today to spend tomorrow here investigating conditions with reference to the work in this county, and it is possible that he will remain over Monday to discuss with the commissioners' court some of his plans for another year. In discussing the raising of the county fund, Mr. Ganzer stated that generally speaking it was quiet as a result of the droughty conditions in many parts of the state, he was very optimistic and stated that even in the dryest sections that much feed and forage could be raised now with a reasonable amount of rain. He stated that there are a number of crops including the Hickory corn, maize, cane and the like, that will produce well with rains from this time on and that the production of such crops will go a long way in relieving conditions incident to the failure of the corn crop. Mr. Ganzer, while looking after present conditions in line with his work, has plans for next year that will be of general interest, and which he is working out, including the organization of cotton clubs in every county in his territory. These clubs will be after the order of and in addition to the corn clubs and it is the purpose of the department to give this matter considerable attention another year. Plans are now being worked out for the demonstration work for 1912 and while Mr. Ganzer is not in a position to make public the details of the movement, he indicated that a feature of the campaign for improved farming conditions could be an effort to interest the commissioners' courts of the different counties in the work on the basis that the government will put up one dollar for every dollar appropriated by the county. On this plan he hopes to accomplish much greater results in the future than have been possible in the past in many counties and in this connection it may be stated that he is very hopeful of the co-operation of the commissioners generally.

GENEROUS RESPONSE TO RELIEF SUBSCRIPTIONS

Secretary Day of the Chamber of Commerce and Miles O'Reilly of the relief committee were out yesterday afternoon making an effort to raise the amount designated at the meeting of the directors Tuesday. Only a short time was spent in the work and the list this morning showed a total subscription to the amount of \$85.00 of which \$254.50 is to go to the relief of the Oklahoma district while \$630.50 will be held for the aid of the people of this section. The committee expects to very materially increase this amount today, and will strive to raise the \$500 contemplated for the Oklahoma sufferers and the \$2000 planned for the relief of the situation in this immediate section.

PREPARING STATISTICS INDUSTRIAL COMMISSIONER

Secretary Day is engaged in preparing data for R. W. Hockaway, Industrial Commissioner of the M. K. & T. railway system, with headquarters at St. Louis, which information is to be used in connection with their advertising campaign, and it is promised that Wichita Falls and this section shall have prominent mention in this connection. The information being supplied by Mr. Day is of a detailed nature, showing the advantages of the city and surrounding country, the enterprises now located here and those that would find this a profitable place for operation. The M. K. & T. officials have given assurance that considerable space will be given in advertising Wichita Falls and as great quantities of literature are sent out from the St. Louis headquarters of the industrial bureau, much good will no doubt result to the city.

HAVANA THROWN INTO INTENSE EXCITEMENT

Following yesterday's disquieting rumors of a projected uprising in Oriente and Pinar Del Rio provinces this city was thrown into intense excitement today when the drums beat to quarters in Lafuzza Palace and the garrison of two hundred sailed forth and drew a hundred around President Gomez's home. Soldiers stood on the defensive apparently waiting to repulse an attack. Soon afterwards nothing having happened the troops marched peacefully back to their quarters. President Gomez watched the movement from the upper window in the Palace and later explained that the maneuvers had been ordered merely to see how quickly the garrison of Lafuzza would be able to surround the palace in case of an emergency. Fort Worth Bureau Reports Excess of Heat Accumulation Above the Average 819 Degrees.

Fort Worth, Tex., July 6.—This will go on record as the hottest year since weather bureau observations were established in Fort Worth, for the excess of heat accumulation above the normal to this time is 819 degrees. A number of new high temperatures were made this year prior to the beginning of the present heated spell and those contributed to the excess accumulations. For example, May, 1911, made a record for high temperature 10 degrees above the high for May 1910. This year the highest in May was 103 degrees, while last year the highest in May was 93 degrees. Last year the high of June was 104; this year it was 105.2. From May 21 to June 17 the greatest heat wave of which there is any record swept over Texas and the average high temperature for those days was over 100 degrees. In no place in the United States was ever such a record made. The August heat wave of 1909 which has the distinction of holding the high record here, when Aug. 18, 1909, 112 was made, lasted but four days. In addition to being abnormally high as to temperatures, the current year has been abnormally dry and the number

ber of clear days to this time is greater than ever before recorded at this station.

There was a rainfall over the southern edge of Fort Worth last evening that was not recorded at the Weather Bureau station on the Federal Building at Baggett avenue, where there is a standard rain gauge and must have been 35 of an inch out about Shaw's Heights in the southwestern part of the city. That estimate was made by one familiar with rainfall measurements. The temperature at Fort Worth attained the maximum of 99 degrees today about 1:15 o'clock. At 11:30 o'clock it was 95 and after that climbed to the maximum. The counties lying along the base of the plains seemed from the cotton bulletin reports to have been in the trough or heated atmosphere, as they have been several other times this summer. Beginning at Brownwood, 102 and Ballinger 100, the temperatures of 100 degrees or more extend thence northward to Clarendon, where 104 was recorded yesterday. Nearly all the way eastward to Fort Worth that heated area extended. The "highs" of 100 or more were Quannah 108, Henrietta and Dallas 106, Clarendon, Haskell, Weatherford, Greenville and Waco 104, Brownwood, Longview, Sherman and Waxahatchie 102, Fort Worth 101, Ballinger, Snyder, Spur, Lampasas, Mexia, Temple, and Cuero 100. Except Galveston, 88 and Corpus Christi 88, none of the other stations report lower maximums than 94. The temperatures overlying Oklahoma were much higher than Texas for the district of Oklahoma's maximum of 106, while the Texas cotton district had a maximum of 100 degrees. The rainfall was very heavy at Nacogdoches, 2.74 inches. Other precipitations were Dallas .04, Longview .80, Dublin .32, Kopperl .34, Mexia .50, Waco .20, Waxahatchie .66, Brenham .10, Galveston .34, Huntsville .54 and Palestine 1.60 inches.

Announcement

We are installing one of the best equipped Dry Cleaning Plants in North Texas, with all the latest machinery that is used in this line. Our workmanship will be equal to any that is done in large cities. We are mechanics along this line. We are here to stay. We also own plants elsewhere. We clean and press and positively guarantee to give perfect satisfaction. We are not operating a place generally called a pressing joint. We clean press ladies' fancy dress goods; also call for and deliver to any and all parts of the city. Our office location, 707 8th street, will be open for business Monday, July 10th.

PURE DRINKING WATER

AN IMPORTANT ITEM THESE DAYS One of our corrugated Iron Cisterns and Filter will solve that problem, besides cutting out doctor bills and water rent. Better see us about it..... J.C. ZIEGLER Mgt. Co. Cor. Indiana Ave. and 10th st.

POULTRY RAISING is a profitable and fascinating work if it were not for the insects. CRESOLYTE puts the insects out of business and is in reach of all. Twenty-five cents a pint and a pint dips fifty chickens. Sold only by the Palace Drug Store Corner 8th and Wall.

PRETTY HOT WEATHER TO TALK COFFEE! Winter of course is the real coffee season, but at the same time its a fact that a cup of good coffee correctly made is a life saver these hot mornings when you can eat no breakfast—Its food and drink in one—It produces contentment of mind, allays hunger, mental and bodily weariness, increases the capacity for work, makes man forget his troubles and anxieties, enabling those who use it judiciously to endure unusual fatigue and remain a long time without food or sleep, as well as to preserve their temper and cheerfulness. Now to make this kind of coffee you want the very best, well aged coffee—scientifically blended and FRESH ROASTED—That's where we come in. Tell us what you like in coffee and we will suit your taste. 608 Ohio Ave. Phones 35 and 604 O. W. BEAN & SON ...GROCCERS AND COFFEE ROASTERS... 604 Ohio Ave. Phones 35 and 604
