NUMBER 51

RE-APPORTIONMENT MAY BE DELAYED

NEW YORK REPUBLICAN CONGRESSMAN WILL OPPOSE NEW APPOINTMENT.

GAIN FOR THE DEMOCRATS

Democratic New York Legislature Would Redistrict State to Their Advantage.

By Associated Press. Washington, D. C., July 12.—New York politics is becoming considerably involved in the re-apportionment of the House of representatives as a result of the 1910 census and conditions in that state, and may possibly cause a postponement of the re-apportionment until the next session. New York gains six members under the re-apportionment bill. The New York legislature is democratic and the republican leaders contend that any outlying of congressional districts now made would be in the interest of the democratic party. Senator Root moreover, is a strenuous opponent of the House re-apportionment bill. The democratic House leaders however are pressing for action on the bill.

Big Corporations Chartered.

By Associated Press. Austin, Texas, July 12.—Four charters for big corporations were filed this morning by acting secretary of state, the fees being of \$5,619. They were the charter of the East Texas Brown Ore Development Company of Point Bolivar, with a capital of \$2,500,000; the Home Telephone Company of Waco, which changed its name to the Brazos Valley Telephone and Telegraph Company, with capital of \$200,000. The Thompson and Tucker Lumber Company of Houston, capital increased from \$800,000 to \$1,800,000 and the Thompson Bros. Lumber Company of Houston increased from \$2,100,000 to \$3,100,000.

HEAT FATALITIES BREAK ALL RECORDS

By Associated Press. New York, July 12.—The break in the heat wave promised for today was felt slightly although little relief is in prospect before tomorrow. Thirteen deaths were reported during the night making 25 deaths from the heat in the past ten days, breaking all previous records.

Another Fire At Greenville. Greenville, Texas, July 12.—The offices of several city officials were considerably damaged by smoke and water today from a fire in the Shiff building on Lee street. The Alexander Shoe Company where the fire started and R. N. Wye, gents furnishings store were the heaviest losers. Their losses ran into the thousands but were well insured.

Mrs. Knight Dies From Injuries. Dallas, Texas, July 12.—Mrs. Lorena Knight, wife of Dr. J. Knight, a wealthy McKinney resident, died this morning from injuries in an auto accident here Sunday.

Hoke Smith Elected. Atlanta, Ga., July 12.—Hoke Smith was elected United States Senator today.

Johnson County Pioneer Dead. Cleburne, Texas, July 12.—Joseph Dalton, aged 75, a pioneer of this section and a Confederate veteran died today. He was the first tax collector of Johnson county.

F. H. McKinley, a farmer, who resides within the city limits, has complained to the officers that someone is stealing from his bin a considerable amount of wheat. So far the officers have not succeeded in running down the thieves. The officers say, however, that they suspect that the guilty parties are the farmers who are making it a daily and nightly business of stealing sacks and feed stuffs from barns. For this purpose a buggy or wagon is hired, and they go out daily or nightly to make their haul. How they dispose of the stolen property is not known.

Believe Gravel They Found is Suitable for Road Building

Judge C. B. Felder and County Engineer Snoddy yesterday made a tour over a large section of the county looking over the roads and searching for gravel beds. They report finding several gravel beds in different localities which they believe will supply an abundance of good material for road construction. If this gravel proves as good as they think, practically every cent of the proposed bond issue could and

MEETING OF PRESS ASSOCIATION AUG. 10

John W. Gates (above), the prominent American millionaire, who is seriously ill at the Hotel Maurice Paris, and his son, Charles G. Gates, who is rushing to his father's bedside.

URGES RAIN PRAYERS; DOWNGRADES COMES

Gov. Mann of Virginia Issues Proclamation and Precipitation Soon Develops.

Richmond, Va., July 12.—Much concerned because of the losses the people of Virginia were sustaining on account of the extreme heat and unprecedented drought, Gov. William Hodges Mann this afternoon issued a proclamation urging the people when they assembled in their houses of worship and in their homes, to invoke God's blessing in behalf of rain. Within fifteen minutes there was a heavy downpour of rain with indications of continued showers throughout tonight and tomorrow. The rain brought down the temperature, which registered 97 this being one of the three hottest days of the month.

Miss Marzie Carter returned today from a visit to friends at Stamford.

PROCEEDINGS IN DISTRICT COURT

DIVORCE SUIT OF LENA SPARKS VS STEPHEN SPARKS NOW ON TRIAL.

A SUIT IS COMPROMISED

North Texas Gas Company Pays Young \$1750 For Personal Injuries—Kennedy-Moore Case Continued.

After sentence had been passed upon Will Hudson in the district court this morning he requested Sheriff Randolph to pro rate the \$600 in cash found on him when arrested among those who had cashed forged checks that he had presented. His forgeries aggregated \$84 so that if his order is carried out those who cashed the forged checks will get most of their money back.

This request however, may place Sheriff Randolph in an embarrassing position as it is said that Hudson previously had instructed the sheriff to pay the money to the attorney who had defended him.

Hudson was convicted on a charge of forgery and his punishment assessed at two years in the penitentiary.

The suit of Lena Sparks vs. Stephen Sparks for divorce and for a division of property is on trial before a jury in the district court. Mrs. Sparks has been on the witness stand most of the time today. She speaks with unusual rapidity and the court stenographer has given up efforts to record her testimony in despair.

The damage suit of Young vs. the North Texas Gas Company for damages for personal injuries has been compromised. The amount agreed upon is said to have been \$1750. Young was burned in the explosion at the Cotton Oil Mill last December in which a man named Jerinjan was so badly burned that he died.

The suit of Wagon vs. the Texas Building Company for damages for personal injuries is the next case set for trial.

The suit of McGlasson vs. the Wichita Falls Traction Company for damages for personal injuries has been set for trial on July 24th.

The suit of Kennedy vs. Moore in which the plaintiff charges libel and slander has been continued until the December term. The continuance was granted at the instance of the plaintiff and was taken because persons at a distance had failed to answer fully interrogatories that had been propounded.

D. C. Martin of Wichita Falls, together with his mother, Susan Martin and brother, Vern Martin of Enid who have been visiting relatives and looking after the former's farm in the Big Pasture, took the train for their home this morning. D. C. Martin rented his farm 12 miles east and four miles north of Frederick to a cousin for cash, taking notes in payment. This farm happened to be in the zone of the recent storm and Martin came down to ascertain the extent of the recent loss. He found the newspaper reports had not been exaggerated, for the ground is absolutely bare and nothing can possibly be raised this season unless it is feed stuff. Seeing the condition of the country, Mr. Martin tore up the notes he held against his brother-in-law, as he thought the renter would have a hard enough time to live, let alone pay off debts.—Frederick Enterprise.

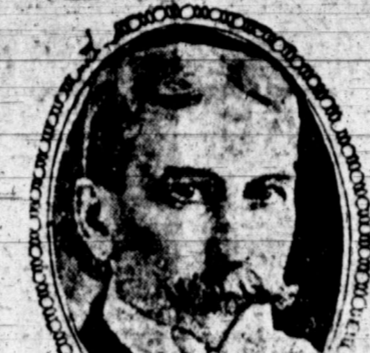

ST. CLAIR SCOUTING FOR NEW PITCHERS

F. P. St. Clair, it is understood in connection with his trip to Fort Worth is making an effort to secure additional pitchers for the team at this place, especially one man to take the place of Green, recently sold to Fort Worth. It is known that Mr. St. Clair has a line on one or two men and it is quite likely that he will materially strengthen the pitching staff of the organization while away. As it is the team is considerably handicapped in this respect, Jones and Myers being the only men who have been going reasonably well. Mallock is included in the pitching staff, but as yet he has been unable to demonstrate that he will be of value to the team. Of course "Brownie" can be depended upon in a pinch, and if his work of yesterday is a fair sample of his twirling ability, he may be considered one of the best pitchers on the team.

It was expected that Bobbie Myers would pitch the game this afternoon and unless Mr. St. Clair should come in with a new man Frank Collier will pitch tomorrow and Jones Friday.

Suspended From Practice.

By Associated Press. London, July 12.—Arthur Newson the lawyer who defended Dr. Clippin for the Belle Elm murder today was suspended from practice for one year for alleged misuse of newspaper reports to create a sentiment favorable to his American client.

Henry Lane Wilson, United States ambassador to Mexico, who is being dragged over the diplomatic iron from the stage draped to the American national hymn at the breakfast given by the Mexican president in celebration of the Fourth of July in Mexico City. A movement has been started by the American colony in Mexico City to petition the State Department for the transfer of Ambassador Wilson. It is declared Mr. Wilson refused to stand when the Mexican band played the hymn. President Delaharran rose, so did Madero and other rest were standing. It is said, the ambassador got to his feet slowly.

ALL BALLOONS DOWN CONTEST IS ENDED

St. Louis Pilots Win Privilege of Competing for James Gordon Bennett Cup in International Race.

Kansas City, July 11.—To St. Louis balloon pilots belong the right of joining Alan R. Hawley in defending the honor of the United States in the James Gordon Bennett cup race which will start from here, Oct. 5. The St. Louis VII, piloted by Lieutenant Frank P. Lahn, made the longest flight, landing near LaPas Junction, Indiana, fourteen miles south of South Bend, a distance of 521 miles. The Million Population Club, also of St. Louis, with John F. Berry as pilot, is second, landing in the night at LaCrosse, Ind. The Miss Sofia, also piloted by a St. Louis man, William Ossman, made the third longest journey, coming down near Franklin Park, a suburb of Chicago, 445 miles from Kansas City.

The location in which the balloon landed today and the unofficial distance made by them follow:
Miss Sofia, William F. Ossman, pilot, and John M. O'Reilly, aid, representing the St. Louis Aero club, landed near Franklin Park, a suburb of Chicago, a distance of 445 miles.
Buckeye, J. P. Wade, Jr., pilot, and R. H. Hancock, aid, representing the Cleveland Aero club of Cleveland, landed four miles east of New Holland, Ill., a distance of 315 miles.
Topeka II, Frank M. Jacobs, pilot, and E. Emerson, aid, representing the Western Association of Topeka, landed near La Harpe, Ill., a distance of 190 miles.

New York, Clifford B. Harmon, pilot, and A. A. Post, aid, representing the Aero club of New York, landed at Fremont, Iowa, distance 158 miles.
Kansas City, Captain H. E. Honeywell, pilot, and John E. Watt, aid, representing the Kansas City Aero club, landed near Lindy, Iowa, distance 150 miles.

The balloon Missouri, which left here shortly after dark last night in an attempt to break the distance record for 40,000 foot balloons, came down near Coal City, Iowa, about 14 miles from here. A message from J. Cowan Hubert, said his aid, Henry Weber and himself landed safely but encountered a storm. They failed to touch the record, which is 325 miles.

The New York, the Buckeye and the Kansas City, were also forced to descend because they encountered a severe thunderstorm.

The New York was sucked into the center of the storm and so violently was the basket shaken that both men were forced to hold to its sides to keep from being thrown out. Their balloon rose to an altitude of 5,000 feet. When they finally attempted to land they were dragged in the basket for more than a mile before the balloon stopped.

Honeywell and his aid descended shortly after 1 o'clock this morning and slept in their basket until daylight. They carried thirty sacks of ballast when they alighted, but as they were unable to demonstrate that they could not rise above it.

Immediately upon landing Captain Honeywell and his aid started to return here and the occupants of the New York headed for New York.

In a letter sent today from Fremont, Kansas, before Post and Harmon left by train for New York, the former described their experiences.

"We entered a terrific thunderstorm at midnight," said Post. "The balloon went to an altitude of 8,000 feet and the temperature dropped to thirty degrees. A volcanic vortex sucked us into its center and we were lost in the clouds with lightning playing around us. At the upper surface the storm center—the balloon was twisted and tumbled like a cork in Niagara rapids. Harmon and I had to hold on to the basket, while it dropped and rose with frightful rapidity.

PARENTS BLAMED FOR TRAGEDY

GRUDGE GROWING OUT OF ELOPEMENT SAID TO HAVE BEEN CAUSE OF KILLING OF JESSE BARKLOW.

THE COUPLE CAME HERE

Parents Refuse Forgiveness and Uncle Shoots Young Husband to Death.

Jesse Barklow, the young farmer who was shot Monday afternoon, was a son-in-law of Nick Gallant, a former resident of the Charlie community and well known here. Barklow and Besie Gallant eloped to Wichita Falls less than a year ago where they were married. A grudge growing out of this elopement is said to have resulted in the shooting of Barklow by Jesse Fletcher, an uncle of Mrs. Barklows.

The following story of the shooting is printed in Tuesday's Lawton Constitution:

Mrs. Jesse Barklow, fifteen-year-old wife of the young farmer who was killed yesterday near Randlett, blames her own parents, Mr. and Mrs. F. M. Gallant, for the crime as much as she does her uncle, Jesse Fletcher, who is now lodged in the Comanche county jail in Lawton charged with the murder.

"They talked him into shooting my husband," she told officers last night. "Oh, I wish we had never stayed near them. And when a sister came to offer consolation, the girl-wife ordered her from the place.

Walter E. Nix, sheriff and Henry Russell, stenographer for the county attorney, in the absence both of Mr. P. and Judge Henderson, went to Randlett last night to investigate the crime, spending the entire night on the trip and returning this morning. Preliminary hearing for Fletcher is fixed for Thursday morning in Lawton. "It'll have to be held here," said Russell. "They'll hang him if he were taken back to Randlett for trial."

Fletcher refuses to talk but pleaded not guilty when arraigned in justice court late yesterday. He was held without bail until preliminary examination could be held.

The killing, which occurred shortly before noon Monday, is said to be the result of an old grudge, maintained for a year, because Young Barklow, who was but twenty-one at the time of his death, eloped and married pretty fourteen-year-old Besie Gallant over the protests of her parents and of Fletcher, an uncle, sixty-six years of age.

For several months after their elopement, the newlyweds remained away and when they returned, this spring, the old folks refused to forgive them. Notwithstanding this fact, Barklow rented a farm within a mile of his father-in-law, seven and one-half miles northwest of Randlett and put in a crop. The place belonging to Arthur Pendergraft.

Things seemed to have gone smoothly for a time, although without dealings between families. But talk of a visit to Barklow's mother, near Durant and the possibility of permanent removal is said to have aroused trouble.

Fletcher a brother of Mrs. Gallant who lives at the Gallant home, is said to have made threats against the life of Barklow while at a public sale in the neighborhood yesterday morning.

Accordingly when W. A. Cornelius, a neighbor who was hauling stuff from the sale, saw Fletcher steal in to a clump of orchard trees, a double-barrel shot gun in his hand, with Barklow approaching along the road in the distance, he urged his team to a gallop, warned the young husband, and drove with him back to his home on the Pendergraft farm.

Here they were seated, in front of the house, when Fletcher suddenly appeared from behind a corner, and with one load from the gun which entered Barklow's right shoulder and a second which ripped a gaping wound in his head scattered brains and blood upon the ground, killing him instantly.

The young wife, who was across the road at a neighbor's, rushed to her husband's side, wild with grief, refusing to be comforted. She declares the crime was inexcusable.

Fletcher himself telephoned to Randlett for an officer. Deputy Sheriff Charles Gildwell could not be found at once, and L. N. Jerome, barber, drove to the scene by automobile. Fletcher got in the car with Jerome and started to Randlett when they met Gildwell and he was transferred to the officer's car and brought to Lawton arriving shortly after four o'clock.

Earth Tremors Recorded. Washington, D. C., July 12.—An earthquake of some violence and remarkable for its duration was recorded last night at Georgetown University. The tremors lasted about two hours beginning at about 11 o'clock. The earthquake occurred outside of the U. S. apparently and at some very distant point.

A deed transferring from R. H. Cook to John Proud for a consideration of \$500 lots 3 and 6, block 10, Woodruff addition. Electra, was filed in the office of the county clerk today.

Miss Constance Warren, rival in athletic prowess of Miss Eleanor Sears, of Boston, who added a new feat to her long list of unique accomplishments, when she helped the fire department of Newport, R. I., extinguish a blaze which threatened to destroy one of the most beautiful cottages in the fashionable resort. First she chopped a hole in the wooden wall with an axe she had snatched from a "fire-baddy" and then led the hose squad that shoved the nozzle through the aperture and put out the fire.

CONDITION OF COTTON BETTER THAN OTHER CROPS

By Associated Press. Washington, D. C., July 12.—Cotton showed the highest average on July 1 of any growing crop with lemons and oranges respectively second and third according to the department of agriculture today. All crops in the United States on that date aggregated 19.7 per cent below the average. Cotton was 10.2 per cent above the average, lemons 2.2 per cent, and oranges 5 per cent above.

CROP DESTROYING PESTS MULTIPLY

California Tuber Borer Reported to Be Ravaging Texas Potato Belt.

By Associated Press. Austin, July 12.—The California tuber borer, has invaded the Texas potato belt in the last ten days and in many places has destroyed nearly one-fourth of the fine seed potato supply in Wharton and adjoining counties, says Entomologist School today. He says if its ravages are not checked immediately the pest may secure a foothold and become as great a menace to Texas as the boll weevil is to cotton.

The Entomologist also found that a curious specimen of white ant is playing havoc with the fig, orange and pecan orchards of Matagorda and adjoining counties.

Pitcher Ebner Becomes Umpire. Durant, Okla., July 12.—Pitcher Squirrel Ebner, who was released Saturday by the Durant team of the Texas-Oklahoma league, has been appointed official umpire. Ebner was regarded as one of the most promising pitchers in the league but of late has been in poor health and has not been showing up well. While officiating during the absence of the official umpire recently his work in that capacity attracted notice and was favorably commented on by both fans and players. During a recent game the two players selected by the umpire to umpire were taken out and Ebner selected to umpire the remainder of the game alone.

Donkey and Elephant in a Race to Washington

New York, July 12.—The Donkey, Jennie II, is a little to the good in her race from Coney Island to Washington against the elephant, Judy.

John Evans, driver of the donkey, reported from Trenton, N. J., last night, that he had arrived at the New Jersey capital, leaving the elephant far in the rear.

During the afternoon he said he had passed Frank Walker and his elephant at the edge of a pond in Franklin Park, where Judy had fled from the heat, where Judy had fled from the heat, where Judy had fled from the heat, where Judy had fled from the heat, where Judy had fled from the heat.

SCORES ARE DEAD IN FOREST FIRES

NUMBER OF NORTHERN MICHIGAN TOWNS BURNED OFF THE MAP.

STEAMER CATCHES FIRE

Before Lost Refugees From Osceola Get Aboard, But Blaze Is Extinguished.

By Associated Press. Detroit, Mich., July 12.—Several families of settlers and several lumber camp crews are reported missing this morning in the forest fires in Northern Michigan. Osceola has been burned off the map and Lashabe has only one school house and one dwelling left standing. It is reported that lives were lost at both places.

Two hundred and eighty-five refugees from Osceola arrived safely in Port Huron today. They had barely time to get aboard a steamer. The flames were so close that both ends of the steamer were on fire when the last refugee got aboard and the boat cut loose from the dock. The steamer's fire, however, was quickly put out.

Other towns reported destroyed or damaged are Millersburg, Metzsa, Posen, Laroque and Fronttown.

At Sable refugees reported that several bodies so blackened as to be unrecognizable had already been found in the streets of the burned village.

30 Lives Lost Northern Ontario. North Bay, Ont., July 12.—Thirty lives are known to have been lost in the forest fires of Northern Ontario at Wiercupan. It is feared casualties will number a hundred.

By Associated Press. New York, July 12.—A real tragedy was recorded on the film of a moving picture machine here yesterday. Albert Breyton an actor and expert swimmer and diver leaped from a boat into the Staten Island Pond while a motion picture caught the rising bubbles where he went down, expecting to show his aquatic feats as he came to the surface. Moments passed and he did not rise and his body was found stuck in the soft mud at the bottom. He was dead when found.

MOTION PICTURE SHOWS REAL TRAGEDY

By Associated Press. Washington, D. C., July 12.—The attorney general's department rules that members of the legislature who accept the office of notary public thereby forfeit their seats in the legislature.

FRAUDULENT USE OF MAILS IS CHANGED

E. G. Lewis Indicted By Special Federal Grand Jury—Alleged He Secured Millions Fraudulently.

By Associated Press. St. Louis, July 12.—E. G. Lewis, until recently publisher of several magazines and promoter of other enterprises was indicted by a special grand jury today charged with fraudulent use of the mails.

The indictment charges he obtained several million dollars by misleading statements. It is charged he sold unsecured notes on the Women's Magazine Building, on the Women's National Daily Building, of University City, Mo., of which Lewis is mayor, also unsecured notes on the University Heights Realty and Development Company. Lewis was indicted in 1905 and acquitted on charges of conducting a scheme to defraud through the operation of the People's United States Bank, also of charges of defrauding the government of postal funds.

Not a Dark Horse Either.

FIXING THINGS FOR HARMON

DEMOCRATIC POLITICIANS COUNT OUT WILSON AND CLARK FOR 1912 POLITICAL CONTEST.

INSIGHT INTO SITUATION

Leaders of State Delegations Are Being Groomed For the Ohio Man.

Washington, D. C., July 11.—An eastern political writer who has achieved enough renown to enable him to attach his signature to all his work has these two paragraphs in an article discussing the presidential situation for 1912:

"It looks as if Wilson has passed his zenith, and with the publicity opportunity of the Jersey legislature past would retire into desuetude. The Harmon campaign is well financed, vigorously pushed and vouched for by the great majority of democratic politicians. It looks more like Harmon now than in six months past.

"The politicians are setting things up in a way that points more and more Harmon-ward, provided the politicians get to the convention."

An insight into the situation.

These two paragraphs give a good insight into the Washington situation. It has been pointed out many times that Washington has a wonderful effect on the point of view. Constituent changes in representatives who probably as well before election, might be more lenient could they understand the influence which the newcomer encounters. For instance, it is a strong willed insurgent, indeed, who is not convinced after a short stay in Washington that insurgency was a flash in the pan and that the only true allegiance is to the regular party organization.

Washington, being unable to see beyond the hills which encircle the city and consequently being ignorant of what is going on out in the "big world beyond, has proceeded to eliminate Woodrow Wilson from the running. In Washington one never hears "If Wilson can be beaten." It is always "now that Wilson is out of it."

Politicians Count Wilson Out.

All of which goes to show that the New Jersey governor is not popular with the democratic party as it is represented in the capital. There is one big grievance against the ex-president of Princeton. He is a progressive. The democrats want the jobs. And it is pointed out that with Wilson in the White House a republican who had proved efficient and honest would have more than an even chance of holding his place. Then, too, Wilson has not always been "regular." He is accused of having voted for McKinley and for Roosevelt.

So the "practical politicians" of the democratic party have proceeded to count Doctor Wilson out. It is admitted that the New Jersey governor is popular with the country, but his enemies are confident of their ability to fix things.

Some of those who are opposed to Woodrow Wilson are talking about Champ Clark, but most of the genuine Clark sentiment, as in the case of Wilson, is out in the states, not in Washington. It is for the governor of Ohio that the real votes are being pulled. On paper it figures out beautifully for the Buckeye state man.

Dr. Ida C. Nahm, prominent woman physician of New York, who declares that "women will be woman's friend when she ceases to make man her aim of life."

"Women don't like each other as much as they might, as I wish they would," she deplores. "If we search for the basic reason for many women's dislike for women, I believe it would be found in man. If there is not an actual man in a woman's life, there is a possible one, present or future. The women favored in face or figure or both, or who are endowed with charm, are regarded as possible rivals. And for the unhappiness that rivalry may cause, such women are disliked by the women whose thought is centered on man. Now, put man in his place, not as a god, or even a man god, but just a plain human, and women will not dislike other women."

Favorite sons are to be the catpaws to pull the chestnuts out of the fire for Harmon.

Clings Up For Harmon. Of course Harmon will be given the delegation from his own state as a nest egg. Then the big New York delegation will be instructed for Governor Dix as a compliment to the Empire state executive. When the time comes, however, New York will be expected to move over into the Harmon ranks.

Tom Taggart is said to have filed things in Indiana so that he will control a delegation instructed for Governor Marshall, but ready to jump to Harmon whenever Taggart gives the word. Massachusetts is expected to instruct for Governor Ross with the understanding that the Bay state's real candidate is the Ohio man. Illinois is to be looked after by Roger Sullivan and Senator Watson will take care of West Virginia. Then with these powerful states as a foundation the rest of the country will be told that if the democratic party hopes for success it had better listen to the voice of reason and obey the wishes of the important doubtful northern states.

KEEP THE KIDNEYS WELL.

Health is Worth Saving, and Some Wichita Falls People Know How to Save It.

Many Wichita Falls people take their lives in their hands by neglecting the kidneys when they know those organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when most all diseases and aches and pains due to weak kidneys can be quickly relieved by the use of Doan's Kidney Pills. Here is a Wichita Falls citizen's recommendation.

C. N. Harrison, 412 Burnett Ave., Wichita Falls, Texas, says: "About two years ago I had trouble from my kidneys, as this remedy had been used in my father's family and had been found to be very reliable. After I took Doan's Kidney Pills a short time, the lameness across my back was removed, together with the other symptoms of kidney complaint. I have had no trouble since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Prohibition Snap Shots

Note.—The matter published in this column is authorized by the county prohibition committee, J. M. Bell chairman.

The Dallas News in an editorial dated July 11th, states that a number of protests have been received about communications published on prohibition, claiming that people with fictitious names have sent in false statements, and among other things says:

"It appears further, that officers in Oklahoma have made a close search for men who have sent us communications reciting actual or alleged conditions in that State, but they have been unable to locate any man owing to the name signed to these communications, or any one who knows anything of them."

This proves what we have suspected, that the agents of the anti's, for a money consideration, have gone to Oklahoma and other States and deliberately sent out false statements

The Wichita State Bank

Wichita Falls, Texas

This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

DOCTORING OF MEATS.

Dr. Abbott Writes Letter to All County Attorneys.

Austin, Texas, July 10--State Pure Food and Dairy Commissioner Dr. J. S. Abbott has written a letter to all county Attorneys urging them to keep a close watch on butchers and prose cutters all found guilty of "doctoring" meats. He also says that he intends detailing a number of inspectors to trail ice wagons, with a view of detecting any who may be disposed to sell short weights. The penalty for violation of the law requiring full weights is a fine of not less than \$25 nor more than \$200.

A new pocket tool cleans insulation from electric wires as it is drawn along them and will separate without injury two wires which may be twisted together.

HORSE SHOEING RECORD MADE.

J. E. Briggs Shoes First Horse All Around in Four Minutes and Thirty-Two Seconds.

Childress, Texas, July 12--James E. Briggs, a local horse shoer, yesterday afternoon established a world's record in horse shoeing. Briggs shod all around, seven nails to the shoe, the first horse in four minutes and thirty-two seconds, the second horse in four minutes and fifty-one and two-fifths seconds. Both jobs were pronounced first class. Horse men kept time with standard pacing watches. Driving a nail crooked in the second contest prevented Briggs from lowering his first record.

The salt in the oceans would make 4,800,000 cubes each one mile in dimensions, or would cover the United States with a uniform layer 1.6 miles high.

Snap shots of the chief figures in the sensational Stokes shooting case in New York. Below is W. E. D. Stokes the wounded victim of the shooting affray. Above from left to right are Miss Ethel Conrad, one of the girls who fired at Stokes during the affair in their apartment; Mrs. John Singleton, who rushed across the Atlantic to assist her sister, Lillian Graham, in her defense; and Miss Graham, the ally of Miss Conrad in the shooting.

The two girls were held in \$5,000 bail yesterday to await the action of the grand jury on a charge of felonious assault. Magistrate Freschi, in deciding to hold the girls for the grand jury, stated that he would ignore the element of scandal in the case. He said a prima facie case had been out and that no defense had been offered and therefore there was nothing left for him to do but to hold the young women.

PASTOR CONDEMNS SLIM, THIN SKIRTS

Little Rock, Ark., July 12--King George and Queen Mary of England who are making an effort to reform the prevailing styles of women's dress, have nothing on the Rev. Ben Cox, pastor of the First Baptist church of this city. Where Queen Mary rebuked Mrs. Astor for the scantiness of her costume, the Rev. Mr. Cox rebuked all the guilty ones who came to hear him discourse on the announced text: "If you brethren can wear clothes enough to cover their nakedness the year round, we can, too, and not melt."

The sermon has aligned the congregation, and the subsequent talk of the town, into two groups, one of which condemns the minister for interfering "where he has no business," the other commending him. Two letters were a feature of the sermon, one being from a "Christian woman" and the other from a "business woman."

The Rev. Mr. Cox discussed the subject without reserve before a large, mixed audience, in which women predominated, and declared that present styles, as a rule, tend to indecency and immodesty, exposing bare arms, necks and shoulders, and displaying a great length of ankle through filmy silk hose. Time For a Protest. "I think the time has come when some emphatic protest must be made against the style of dress worn by many women in Little Rock," said he. "The dress, or rather, I should say, the lack of dress in the ballroom and kindred places has done and is doing very much harm. But in my judgment many dresses worn on the streets of Little Rock are leading to much greater evil. I refer especially to the openwork waists through which a goodly portion of the body is exposed, and to the short slim skirts which are so popular today. A woman who appears on our streets in one of these short, slim thin skirts, showing the shape of her body at every step, especially if she is walking against the wind either does not realize how she looks or is out for the purpose of attracting the gaze of men promiscuously. If the latter, we can not condemn her too severely; if the former, some of her friends should take her before a mirror and let her see how she really looks. In my judgment the harem skirt is far more decent, for there is enough cloth in one leg of the harem skirt to make one of the short slim skirts. I stood on Second street the other day and a superior-looking woman was walking facing the wind, wearing one of these short slim skirts of filmy material, displaying her anatomy at every step. The minister during his talk read a letter from a prominent young business woman who has been doing missionary work among her associates in an effort to bring about a modification of the prevailing styles of dress. 'There are today in this city many girls who not only are now but who have been all winter, wearing dresses without yokes, exposing almost a nude figure,' wrote this young woman. 'As a business woman, I personally feel exasperated at times because such girls are responsible for the belief of many men that lax morals prevail among business women. 'The dresses of many business girls have caused me to blush for shame while in their presence. Only last week several of the women who have been employed in the business world, equally as long as the writer in my office and we discussed the situation, outlining a future method toward influencing these girls to adopt a different style of dress, while employed as stenographers, not only to save themselves from insults but to protect the reputation of that class of business women. Dress Invites Liberties. "It is this class of girls that invite and permit liberties by those by whom they are employed." Even a greater sensation was caused in the congregation when he read the following paragraph from a letter written by a "Christian woman": "I stood some months ago on Canal street, in New Orleans, and saw a young girl accompanied by a smart young man waiting to take a West End car. Every garment the young woman wore, was so thin or full of holes that I could easily see what each piece was from her neck to her waist. A man also standing near said as they entered the car, 'I don't need to be told how that car ride will end.' Such glaring exposures of person is a wanton invitation for the advances of evil-minded man."

PANHANDLE WHEAT MAKES 25 BUSHELS

J. C. Cummins, one of Hale county's most successful farmers who has a large farm six miles east of town, in a conversation with the editor of the News-Saturday, said his 230 acres in wheat, will average twenty-five bushels to the acre. He has 120 acres in oats which will run as high as sixty to seventy bushels to the acre, though the average will be much less than this. He has 150 acres in other crops--maize, kafir-corn and millet, all of which look good at present. Last year which was very dry, Mr. Cummins' wheat averaged fifteen bushels to the acre.--Amarillo News.

Friberg-Thornberry. Wm. Friberg lost a good cow last week from her eating sorghum Arch McKinney lost one the same day in the same manner.

Prof. W. T. Holder, we learn, will teach the Cooper school the coming year.

The regular preaching services will be had Sunday at Thornberry.

Mrs. W. T. Holder will teach the grammar room of the Friberg school the coming term.

The ice cream supper at Friberg was changed from Tuesday night to tonight, Wednesday.

Rev. W. L. Cunningham will give an address on statewide prohibition at 4 p. m. next Sunday at Thornberry.

Mrs. Harley Friberg spent last Sunday with home folks at Iowa Park.

The Friberg farms are still needing rain, not enough has yet fallen to do much good.

An inspector was at E. G. Friberg's Monday night inspecting Mr. Friberg's stock, prior to taking them to his ranch near Stamford.

Misses Mary and Mabel Byman called on Miss Katy Lovell Monday afternoon. Rev. and Mrs. Cunningham were at J. W. Lovells last Friday afternoon getting acquainted with the new daughter. They also called on Mr. and Mrs. Bailey. Floating on two pontoons, a tower eighty feet high has been built at an English port to lift coal from barges and load it into vessels at a rate of 160 tons an hour.

"THIS DATE IN HISTORY,"

- July 12
- 1712—Richard Cromwell died.
Born Oct. 4, 1626.
 - 1730—Josiah Wedgwood, fa-
mous pottery manu-
facturer, born. Died Jan.
2, 1795.
 - 1776—British troops under
Sir William Howe land-
ed on Staten Island.
 - 1778—Americans made an un-
successful assault on the
British works at Stony
Point.
 - 1804—Alexander Hamilton, fa-
mous American states-
man, died in New York.
Born in the West Indies,
Jan. 11, 1757.
 - 1812—Sweden concluded an
alliance with England.
 - 1849—Sir William Osler, noted
physician and author,
born in Freeman, Ont.
 - 1862—Confederates captured
Murfreesboro, Tenn., af-
ter a severe fight.
 - 1870—Admiral J. A. Dahlgren,
inventor of the system
of ordnance that bears
his name, died in Wash-
ington, D. C. Born in
Philadelphia, Nov. 13,
1809.
 - 1910—The Pan-American Con-
gress opened at Buenos
Ayres.

Whether it is good or bad, the Times
has made its arrangements to receive
the election bulletins on the night of
the 22nd.

With an increase of 12c on the \$100
assessed values of property Wichita
county can vote \$200,000 worth of 5%
bonds. This will bring the total coun-
ty tax rate to 47c on the \$100 valuation.

The grain and seed men of Wichita
Falls have been doing a good business
during the past week, which is an evi-
dence that the farmers located in dis-
tricts where it has rained are losing
no time in the planting of feed crops.
With an abundance of feed, the effects
of the drought will not be felt so much.

Every citizen and taxpayer in Wich-
ita Falls and Wichita county who can
should make it his business to attend
the mass meeting at the court house
tomorrow afternoon. This meeting is
for the purpose of determining whether
an election shall be called for the
purpose of voting bonds to build
good roads. There is no doubt but that
the county needs good roads, and no
better or more opportune time than
right now could be set upon to do the
work.

According to the Dallas News of to-
day there are 400 cases docketed for
trial in the criminal district court of
Dallas county, classified as follows:
Fifty-seven for murder; seventeen for
robbery with fire arms; six for crim-
inal assault. The balance being of a
less serious nature. The clerk of the
court estimates that even if no further
crimes are committed and cases dock-
eted it would require more than a year
to dispose of the present over-burdened
docket and uses this as a plea for the
establishing a new court in order to
keep the docket reasonably clear. The
report of the grand jury of Dallas county,
recently adjourned, says that the
cause for 70 per cent of the crimes com-
mitted in Dallas and Dallas county are

traceable directly to whiskey. In the
face of such evidence, Dallas and Dal-
las county seems satisfied, with her
conditions and the anti forces are con-
fidently counting on a big majority for
their side of the question of statewide
prohibition on the 22nd.

The Family Paper

The printing press is the industrial
educator of the age. The citizens of
Texas lead those of all other states in
the Union in the number of newspapers
read per capita. The improvement of
public highways and the establishment
of rural free delivery routes has ex-
tended the zone of circulation and read-
ing the newspapers has become as
much a part of the work on the farm as
caring for the stock, and it has proven
about as profitable. The ability of a
farmer can be as easily judged by the
literature he reads as by the crop he
harvests.

Pipe Lines.

Pipe lines are primarily city build-
ings. The pipe line brings the oil field
to the refinery and the gas well to the
city and to the factory, reducing the
cost of transportation, as well as pro-
viding a feasible method of distribut-
ing the products of the oil and gas wells
throughout the state. All enterprising
cities should be connected with a pipe
line.

Farm and Factory.

The farm and factory go hand in
hand and the prosperity of either is
dependent upon the other. By bringing
the factory to the farm we adjust econ-
omic conditions and the increase in
value of live stock goes to the producer
without increasing the price of meat to
the consumer. By building factories in
Texas we can greatly decrease the
high cost of living.

Rural Telephones.

The scientist in giving the farmer
the inventor varieties of products and the
inventor in giving us machinery that
reduces the cost of production, has per-
formed a great service to the farmer.
But the telephone, warm from the cre-
ative mind of the inventive genius is
destined to companion in utility and
convenience all human accomplish-
ments for the intelligent promotion of
agriculture. The telephone is the im-
proved public highway of informa-
tion and is as valuable to the farmer in
selling his products as good roads are in
hauling his goods to the market.

Exposition Architecture.

It might seem as if all the changes
had been run on exposition architect-
ure—the domes, pinnacles, minarets,
towers and bellfries of past show pal-
aces. But San Diego has found a new
style for this purpose, and one particu-
larly appropriate and pleasing be-
cause it is the one which the Mission
Fathers introduced into the New
World. San Diego will use an adapta-
tion of this, called by the architects
the Mission Renaissance. All of the
building will be in this style, and all
of them will be permanent, and will
remain in Balboa Park for the benefit
of future generations.

100-STORY BUILDING

PLANNED FOR NEW YORK
PLANNED FOR NEW YORK

Twelve hundred feet high Proposed
and Work May Start Soon.
Cleveland, Ohio, July 12.—Plans for
a building 100 stories and 1500 feet
high have been drawn, according to
George Mertimer, who addressed the
convention of the National Association
of Building and Owners and
Managers today.
The structure probably will be
built in New York in the near future,
he said.

GOVERNOR IS CHALLENGED.

Mrs. Armour of Georgia Wants to
Meet Executive When He De-
livers Address.
Fort Worth, Texas, July 12.—The
following challenge was issued to
Gov. Colquitt today for a joint discus-
sion of the liquor question:
"Fort Worth, Texas, July 12.—Gov.
O. B. Colquitt, Austin Texas: Dear
Sir—I notice from the press dis-
patches that you will probably make
some speeches in the north half of
Texas between now and July 28
against statewide prohibition and am
advised that you will be in Fort
Worth on the night of the 20th.
—I believe that in all public mat-
ters the people are entitled to hear
both sides of the discussion, in order
that they may more intelligently be
able to vote upon the merits of the
questions at issue. I therefore, chal-
lenge you for a joint discussion in
any and all appointments made by
you in North Texas, and especially for
the 20th of July. Mrs. Mary Harris
Armour of Georgia, desires to meet
you in joint discussion here in Fort
Worth.
I shall give this letter to the press
and hope to hear from you at your
earliest convenience.
Yours etc.,
"A. W. WALKER-Vice Chairman."

THE HONEY BEE

The honey bee is nature's factory
and this family of insects is the only
one which completely manufactures
and stores a product ready for the
market without the aid of man and the
ingenuity of the human race has never
been able to imitate its products. So
completely does it monopolize the ma-
nufacture of honey that in all probability
it operates in direct violation of our
anti-trust laws.
Like the human race, there are many
drones in the colony, but as a whole
the bee is the highest type of energy,
thrift, and enterprise—in the animal
kingdom and it leads in intelligence,
forethought and business persistency.

VALVE STICKS.

Balloon Ascends to Dangerous Height.
Aeronaut Unconscious.

La Harpe, Ill., July 11.—The balloon
Topeka-It, landed three miles west of
here today after thrilling adventures
so many thousand feet above the earth
that the recording instrument carried
by Pilot Frank M. Jacobs did not fix
the distance. Raffle Emerson, aid, was
made unconscious.
The high ascent was due to a valve
in the balloon sticking and making it
impossible to release some of the gas
which the hot rays of sun were rap-
idly expanding. Before the valve
stuck the aeronauts encountered a
thunderstorm and they rose to a high-
er strata to find better sailing.
By throwing out ballast the ascent
was speedily accomplished, but when
Pilot Jacobs found the level he desired
he was unable to prevent his craft
from going higher. Suddenly Emerson
fainted and fell senseless in the bot-
tom of the basket. Then Jacobs realized
that quick action was necessary.
He pulled the rip cord gently and the
gas escaped slowly and Jacobs and
Emerson were soon on the ground.

AS OTHERS VIEW IT.

Champ Clark is going to stump Ken-
tuck on behalf of Ollie James' sena-
torial candidacy. The question is, Are
the acoustic properties of Kentucky
capable of accommodating more
voices than Ollie's—at one time?
Houston Post.

Would be a Sizzler.
"One child is enough for the twenti-
eth-century wife," says the author of

there are too many investigations. He
probably considers that just conclud-
ed into the Cunningham claims one too
many.—Pittsburg Dispatch.

Blue Mass...

and clachona bark once hid every-
thing else crowded out of the
physician's mind. That was back
in the palmy days when he took
a sixty-horse man killer, that
fort strikes did not count, and
they treated appendicitis with a
mustard plaster.
That method of procedure
was all right. So was the stage
coach. However, most of us pre-
fer to wear out the paving in a
merry horse man killer, that
makes the telegraph poles look
like a picket fence.
Things have changed. Well I
should blizzard, and the change
includes drug stores. We do
things the modern way. We de-
liver everything except postage
stamps and weather reports.

A Good Start.
First to break ground for its expo-
sition in 1915, San Diego is making a
good start. It already has \$2,500,000
to spend on its big show, and foreign
countries will add a large amount to
that.

Italy Also Has Two.
Italy is holding two expositions sim-
ultaneously, one at Rome and one at
Turin. The precedent is merely being
followed by San Francisco and San
Diego in holding two Panama Expo-
sitions the same year—1915.

WANT ADS.

Placed under this head will bring satisfactory results. One Cent per word for an insertion; Half Cent the word each following insertion.

ENVOIOUS WOMEN.
 You Can Have Just as Lovely a Head of Hair as any Woman.
 Don't feel blue because your hair is lifeless and faded, get a bottle of Parisian Sage and see how quickly it will become brilliant and fascinating. Use it daily for a few days and note how quickly scalp itch ceases and dandruff vanishes.
 It stops falling hair too and makes this scanty hair grow thick and profusely.
 It's the real invigorating delightful hair dressing for men, women and children, and best of all, if it doesn't do just as advertised get your money back. It kills the dandruff germs, and for 50 cents you can get a large bottle at O. F. Marchant's and druggists everywhere. The girl with the Auburn hair is on every bottle.

FEED
 THERE IS NO KICKING. with our Feed either from the cow or its owner. The reason is simply that they both know they can get no better.

OUR HAY IS ESPECIALLY FINE.
 We have lowland grass, well cured, or alfalfa and at prices that will surprise you. All kinds of feed for all kinds of animals and fowls.

Wichita Grain Company
 PHONE 33 809 INDIANA AVENUE

YOURSELF AN INJUSTICE
 when you fail to install a Gas Stove in the kitchen. If economy counts anything with you and you go on the principle that there is nothing too good for your home, you should see our fine assortment of gas stoves and make your own home. You should use natural gas. Make your arrangements today.

BASEBALL NOTES.

Hugh Raymond is pitching for semi-professional teams around Brookline.
 Bob Spade the former Cincinnati pitcher, is unimpaired in the Cotton States league.
 Pitcher Vic Schiltzer, formerly of the Athletics is twirling the ball for Indianapolis.
 Pitcher Ed Walsh of the White Sox, stopped Ty Cobb after Ty had hit safely in 40 consecutive games.
 Shortstop Peters of the Athletics, has been turned over to the Trenton Tri-State League team by Connie Mack.
 Chesley Comisky denies the report that Manager Hugh Duffy, of the White Sox is slated to receive the pink slip.
 Russell Ford has never been beaten by the Boston Red Sox in the three years he has been pitching for the Highlanders.
 National league players will have to go some if they keep Honus Wagner from copping the batting honors of the season.
 The Cleveland Naps have yet to beat the Athletics and the Boston Nationals have not to date won a game from the Cubs.
 The St. Louis Cardinals have been shut out but once this season. The Cubs hold the honors of blanking Freshman's Crew in the game played April 23.
 Clyde Engle of the Boston Red Sox has been up against it this season. "Hack" has been playing in tough luck, which accounts for his being benched so often.
 Gregg of the Cleveland Americans and Alexander of the Philadelphia Nationals are the class among the young pitchers breaking into fast company this season.
 The Philadelphia team is burning up the National League. Horace Podge now has the laugh on the scribes who giggled when he was elected President of the Quakers.
 President Barrow of the Eastern League has released Umpires Rudderham, Bannon, Black and Pender. Rudderham goes to the Southern League and Pender to the Virginia.

WITH THE BOXERS.
 Jack Johnson has signed to box Curran, the Irish heavyweight, in Dublin in August.
 Frank Moran, the Pittsburg heavy-weight, is ill in Paris and will not be able to fight for several months.
 Knockout Brown looks to be the boy to get the next chance to show what he can do in the ring against champion Wolgast.
 Joe Jeannette wants another to go with Sam Langford. The previous bout showed that Langford had it on Joe from every angle.

What's the Hurry, Anyway?
 An effort to fix the date for the vote on reciprocity failed in the senate yesterday, on Mr. LaFollette's objection. It is hoped to decide the question, however, before the expiration of President Taft's term.

THE NEED OF Pure Water IS IMPERATIVE
 To protect the health of yourself and family during these terribly, hot, dry days.

CARTER MINERAL WATER
 Is shown by chemical analysis to be absolutely pure, and to contain just the medicinal properties which your system requires to maintain good health.

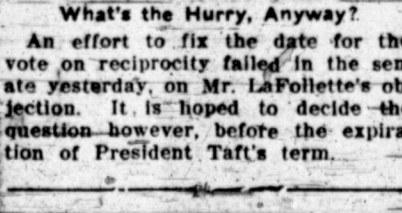

Is proven by test to be equal to any mineral water found in Texas.

It is delivered to your home for **TEN CENTS PER GALLON**

ALTUS FANS PROVE TRUE SPORTS

After seemingly reaching the end of its rope the Altus baseball team has once more weathered the storm successfully and will still remain in the Texas-Oklahoma league, endeavoring to increase its percentage in spite of the run of hard luck which was encountered at the beginning of the second half of the season. The sudden and untimely departure of one Dad Campbell for parts unknown was the blow that almost killed father and it seemed that nothing could save the team from a blow-up when the attendance dwindled to almost nothing.

But the directors of the club are sticking to the ship with the tenacity of a bull dog, and once more the team has been brought to life, a new manager appointed, the stock will be increased, and a committee is out today soliciting subscriptions. George Partin, Jr., better known as "Handsome George," the boy wonder from Nacogdoches, is the new manager, and many fans are confident that "Handsome" can get more out of the team than any other man.

Several changes are to be made in the lineup, according to statements from headquarters, and the team is to be strengthened in many ways, and if the people of Altus will lend anything like the proper support we will yet have as good a team as in the Texas-Oklahoma League—Altus Times.

A. S. Kerr, the druggist is having quite a demand for Aspirin, the preparation recently advertised in the Times and he is, as a result, more impressed than ever before with the value of advertising. This demand is not only of a local nature but includes letters from other towns, one mail order being received this morning from a party at Chillicothe and another at Vernon. Mr. Kerr has been a very liberal advertiser since locating in the city and as a result has built up a very satisfactory business.

Local Manager Lefler of the Lakeshore Assembly, has two assistants mulling out advertising literature for the occasion in an effort to complete this work as early as possible. Other matters are receiving prompt and careful attention and the progress made is very satisfactory to those interested in making the event a pronounced success.

One of the visiting baseball players was fined \$10 in the city court this morning on a charge of using rough language to one of the lady operators over the telephone, the complaint having been made yesterday afternoon.

A negro was arrested this morning on a charge of doing sanitary work without a license. The defendant asked for a trial of the case and was admitted to bail to await the return of Mayor Noble.

Several complaints have been made to the officers within the past few days regarding petty thefts supposed to have been committed by a party of youths and evidence is being gathered with a view to prosecuting the offenders. It seems that their stealing campaign is a systematic one in which they take all kinds of feed stuffs and seed from barns and granaries and peddle it, having first provided a conveyance for removing it from place to place. The officers are securing a pretty good check on their movements and it is quite likely that they will be landed in jail within the next day or two.

The agent for the "Ladies Baseball Club" a traveling organization was in the city today making an effort to arrange a game with a picked nine of city players. The matter was discussed with some of the baseball boys this afternoon, the question of dates and the securing of the park being considered, but at the hour of going to press no agreement had been reached for the attraction.
