ATTENDANCE AND INTEREST GROWING

LAKESHORE ASSEMBLY PROVING INTELLECTUAL TREAT AND PHYSICAL REJUVENATOR.

DR. RICE AND DR. BOAZ

Delivered Addresses This Morning that Were Intellectual Inspirations. Dr. Cope Tonight.

Both the attendance and the interest at the Lakeshore Assembly are increasing, and justifiably so, it is proving a success in every sense, and more especially in the character of the program provided. Today has been an especially enjoyable one and the lectures have been a literary and spiritual treat.

Trains arriving today have very materially increased the attendance and indications are such that additional chairs will have to be provided in the Assembly hall upstairs in the Colonade. Such an addition to the seating capacity will be the second provision of this nature necessary to care for the crowd. The general arrangement for the comfort and convenience of the people is ideal and all seem to enjoy and appreciate to the fullest extent the splendid opportunity afforded in Lake Wichita for an outing which at the same time carries with it a season of spiritual uplift.

Features of the program for the forenoon session today were the lectures of Dr. J. E. Rice, pastor of the First M. E. Church, South at Fort Worth, and Dr. H. A. Boaz, president of Polytechnic College at Fort Worth. Dr. Rice had for his subject, "The Old Testament," and his address was one of the most forceful ever heard at this place. He discussed at length the proper study of the Bible and in this connection stated that each book of the Old Testament must be read in the light of the historical situation in the midst of which the book was written. He stated further that the Bible was not written to teach geology or astronomy, but to teach man moral and religious truths. "There can be no conflict," said the speaker, "between science and religion unless one crosses over into the territory of the other." Continuing Dr. Rice said: "The Bible is a progressive book which finds its final and complete standard of ethics and religion in the character and life of Jesus Christ, and the religious customs of the Old Testament for He is the full and final revelation from God to man."

Dr. Boaz had for his subject, "Fools and Other Funny Folks," and his lecture was very much enjoyed. Throughout his remarks he injected humorous stories and interesting anecdotes and frequently had the audience in an uproar of laughter, only later to give way almost to tears as he would recite some touching incident in the history of his career as a minister. His remarks were full of splendid thoughts, clothed in eloquent language and he was listened to with close attention throughout the address.

This afternoon beginning at 3:30 Dr. Geo. C. Rankin addressed the Assembly, giving one of his characteristic lectures and tonight Dr. H. F. Cope, General Secretary of the Religious and Educational work of the church, with headquarters at Chicago will speak on "The American Hope." Dr. Cope is said to be one of the ablest speakers in the country, a man of deep thought and wonderful expression, and who stands pre-eminently above all others in the knowledge of the work in which he is engaged. So well known is his ability that liberal applause rang forth at the morning service when the announcement was made that he would speak tonight. Those who can possibly do so should avail themselves of the opportunity to hear Dr. Cope and it can be said without reluctance that all who attend will be well repaid for the trip.

The program will be carried out tomorrow morning as heretofore announced in The Times, but there will be no program in the afternoon, or on Saturday afternoon, on account of the aviation meet scheduled to take place on those days.

A ball game is being played this afternoon between the Stamford and Vernon teams, this being the concluding game of the series. Stamford was defeated by Vernon in the game yesterday afternoon in a eleven in

WAR DOGS STRAIN AT THEIR LEASHES

FRANCE AND GERMANY REPORTED AT THE POINT OF WAR.

THE MOROCCAN SITUATION

Has Assumed a Menacing Appearance Premier Asquith Tells House of Commons.

By Associated Press. London, July 27.—(Bulletin)—Premier Asquith told the House of Commons today that the Moroccan situation between France and Germany had become difficult and harassing. His statement bore out reports that the situation was causing great anxiety.

France, Germany and Spain have landed forces in Morocco. The French have the largest force there. The situation has become so grave that Germany and France may become involved in actual warfare at any time.

In discussing the proposed connection this afternoon, Superintendent Sullivan of the Wichita Falls Route stated that there would be no change in the time of the Northwestern train as the arrangement of the new Katy train would provide the connection desired.

At the Lamar Airdrome. The Angel City Tio is the name of the vaudeville team at the Lamar Airdrome tonight, and the balance of the week. The act consists of harmony singing, and concert whistling from operatic selections, interspersed with refined comedy. The management has made a special effort to have a good program for this week, and the Angel City Tio come recommended as one of the best numbers on the Frankel Bros. circuit.

HOW TO STOP ROOSTER FROM CROWING

Chicago Police Department Issues Instructive Bulletin on Subject.

By Associated Press. Chicago, Ill., July 27.—"How to stop a rooster from crowing," is the title of a pamphlet prepared by William Luthardt, secretary to Chief of Police McSweeney.

Since the publication a few days ago of a story that told of the chief's success in suppressing the rooster, the head of the police department has received scores of letters asking him to stop crowing roosters in all parts of the city.

"Say Billy," said the chief to his secretary yesterday. "We will have to answer these letters about the roosters." Secretary Luthardt wrote the following instructions to owners of roosters. "This department has received several complaints from persons whose early morning slumber is disturbed by crowing roosters. It is natural for a rooster to crow, but in order to do so he must raise his head. A simple device to stop the bird from crowing is to nail a board twelve inches above the perch in the chicken house. This will prevent the rooster from raising its head to the proper angle for crowing, thereby suppressing the clarion notes."

CLOCK CELEBRATED ANTI VICTORY

Court Chronometer at Palestine Strikes 350 Times Without Stopping.

By Associated Press. Palestine, Texas, July 27.—The ordinary correct and sober town clock which reposes on the county building broke loose without apparent provocation this morning and struck 350 times continuously. This has been the only unusual demonstration since the election.

At the Colonial. The Magnetic Mirth Makers, Claude and Emose Summers, come to the Colonial tonight. These well known vaudeville actors have a top place on the program of the best vaudeville houses in the country and come to the Colonial for the balance of the week with a number that is sure to please everybody. Their act consists of melody and humor that is spontaneous.

Money From Maine Wreck.

New York, July 27.—A quantity of money, said to have been reclaimed from the ruins of the battleship Maine, was deposited in the Trust Company of America yesterday. Officials of the bank would not verify the report, although they did say that a sum of money was deposited by a Cuban bank and that it was in a badly mutilated condition. All the money was in the form of bills of an old date.

NEW SCHEDULE ON KATY ON AUGUST 6

The proposed change on the M. K. & T. providing a new train to Dallas will take effect on August 6, instead of the first as has been expected. While the official schedule has not as yet been received at this place it is understood that the train from Dallas will leave this city about midnight, connecting with the Wichita Falls & Northwestern train arriving from Oklahoma at 11:45 p. m. This train will carry the sleeper from the Northwestern as will also the returning train which will reach this city from Dallas about 3 o'clock in the morning to make connection with the outgoing Northwestern train at 3:30 a. m. The new arrangement will provide a direct connection including sleeper service with the Northwestern to and from Dallas and will no doubt prove to be a popular route for travel to Dallas from this city as well as from points north of this place on the Northwestern.

In discussing the proposed connection this afternoon, Superintendent Sullivan of the Wichita Falls Route stated that there would be no change in the time of the Northwestern train as the arrangement of the new Katy train would provide the connection desired.

At the Lamar Airdrome.

The Angel City Tio is the name of the vaudeville team at the Lamar Airdrome tonight, and the balance of the week. The act consists of harmony singing, and concert whistling from operatic selections, interspersed with refined comedy. The management has made a special effort to have a good program for this week, and the Angel City Tio come recommended as one of the best numbers on the Frankel Bros. circuit.

Farmers Endorse Dr. Wiley.

By Associated Press. Columbia, S. C., July 27.—The South Carolina State Farmers' Union in session here yesterday, adopted a resolution endorsing the work of Dr. Harvey W. Wiley, the pure food expert, and recommending that he be retained in office.

TWO-YEAR-OLD BOY WEIGHS 100 POUNDS

Youthful Prodigy Boasts Chest Measurement of 36 Inches.

By Associated Press. Atlanta, Ga., July 27.—James A. Coda, aged two years and four months, weight one hundred pounds, created a sensation on the streets of Atlanta today as he walked beside his father from a railroad station to a hotel. The giant baby lives at Mount Airy, Ga. His mother is of medium size, while his father weighs 160 pounds.

James Adolph was the center of interest wherever he appeared here and was followed by a large crowd for several blocks. The infant stands three feet three inches in his socks and boasts a chest measurement of 36 inches. The boy is blessed with a good appetite, eating from four to six biscuits at each meal and has a passion for sweets.

Vice Presidents Double and His Troubles.

By Associated Press. Washington, D. C., July 27.—Vice President Sherman met Senator Bradley of Kentucky in the lobby of the White House offices. "Come down to Kentucky with me for a few days, Mr. Vice President," Senator Bradley said. "Can't do it; too busy," said the Vice President.

"Why don't you send a substitute?" suggested a friend. "I see by the papers that a man out in Iowa, who looks like you has been having a lot of trouble lately."

"Well," said Mr. Sherman, "I don't know about that Iowa man, but I know Representative Rothermel of Pennsylvania, 'Dutch Rothermel' you know, has had a lot of trouble since he came to Washington. Everybody has taken him for the Vice President and the porters and waiters in the hotel have spotted him so that he has to give fifty cent tips instead of ten or fifteen cents. It doesn't work that way with me, because I look like Dutch. I just take them out and buy a glass of beer."

On account of the aviation meet our store will be closed Friday after 2 p. m. TREVATHAN BROS.

Wichita Falls Girl Will Ride With Pontius in Biplane

Miss Fannie Sloane, who has a position in The Times office, may be the first Texas girl to ride in an airship. Aviator Pontius has promised to take Miss Sloane with him on one of his flights tomorrow provided the weather conditions are propitious.

declares she is not in the least bit afraid and the only thing that troubles her is a fear that Pontius may find the weather unpropitious. The big biplane has been hauled out to the ball park where it is being put together. Pontius says that the ball park makes a splendid aviation

J. J. Pontius, the "Flying Dutchman," in his Curtiss Biplane. Pontius will fly at the Lakeside ball park Friday and Saturday afternoons.

Miss Sloane is the only person connected with The Times office who cared to accept an invitation for a ride in the airship. She is not only willing but anxious to make the trip and promises not to get scared and back down at the final moment. She

field, in fact he says it is as good as any he has ever seen. The gates will open at 2 o'clock tomorrow afternoon, when a lecture will be given at the hangar. At four o'clock the first flight is scheduled to start.

BREAKS AEROPLANE ENDURANCE RECORD

St. Croix Johnson Remains in Air More Than Four Hours.

By Associated Press. Mincola, I. I., July 27.—St. Croix Johnson, the Chicago aviator today broke the American aeroplane endurance records, by remaining in the air four hours, one minute and fifty-three and three quarter seconds. He was in a monoplane.

To Investigate Banking Combine.

By Associated Press. Washington, D. C., July 27.—The next big investigation by the House will be to determine whether there is a great banking combination.

MORRIS-FLYNN FIGHT TO BE IN NEW YORK

Will Probably Be Held Labor Day and Training Camp Will Be Established on Coast.

Tulsa, Okla., July 27.—Carl Morris and Jim Flynn will fight in New York City in a great arena for which negotiations are now pending, according to Frank B. Ufer, promoter of the contest. Mr. Ufer had just been advised that ten-round boxing contests had been legalized in New York when the Governor of that State yesterday affixed his signature to a law to this effect.

When Carl Morris leaves for the East he will bid adieu to his native health for years, if not forever, should he be the victor in the fight with Flynn, which he says he will. His training camp will be located on the Atlantic Coast near New York, and he will continue under the training of Con Riley and will have one or more fast new sparring partners. The fight will probably take place on Labor Day. Mr. Ufer said the company will move in five or six days.

JOHN T. ROBERTS WILL GO TO AUSTIN

Office of Katy Traveling Freight Agent Here Will Be Consolidated With Denison Office.

John T. Roberts who has for some time been Traveling Freight Agent for the M. K. & T. at this place, will be transferred to Austin as agent for the company at that place. The duties of traveling freight agent for the road will be performed out of the Denison office of the company after the departure of Mr. Roberts, who expects to be transferred about the first of August. Mr. Roberts, during his residence in this city has made many friends who will regret to know that he is soon to remove from the city, but who wish for him a liberal measure of success and a pleasant residence in his new home.

Four Killed in Portugal.

By Associated Press. Lisbon—(Via of the Frontier)—July 27.—Dispatches just received here tell of a serious conflict which occurred in a church at Lobriga, between the Royalists and Republicans. Senator Costa, a Republican leader, was stabbed to death in the back and a fierce fight followed. The affray was soon transferred to the street, assuming considerable proportions. Quarters were neither asked nor given. Troops were called out and finally restored order.

Four persons were killed, fourteen fatally injured and thirty less seriously hurt.

THE SENATE FOR LOWER WOOL TARIFF

VOTES FOR REDUCTION TO THIRTY-FIVE PERCENT ON RAW WOOL AND WOOLEN ARTICLES.

A COMPROMISE MEASURE

LaFollette and Republican Insurgents Join Democrats in Fight for Tariff Reduction.

By Associated Press. Washington, D. C., July 27.—The Senate defeated the Underwood house wool bill by a vote of 44 to 36 after defeating La Follette's amendment to it 44 to 36. La Follette then by a vote of 49 to 31 secured a reconsideration of the vote on the House wool bill and offered a modified substitute of his amendment as compromise between the House bill and the original La Follette bill. This compromise was passed by a vote of 48 to 22 through the union of Democrats and Republican Insurgents.

The bill passed reduces the raw wool duty to 35 per cent and ad valorem and correspondingly reduces the duties on woolen articles.

Early in the day La Follette started the Senate by declaring "there was to be a little performance today to defeat all real tariff legislation and that several high protectionist Republicans had agreed to vote for the Democratic House wool bill, being sure that its excessively low duties would justify the President's veto, offered amendments proposing reductions in duties, woolen goods, urging that these reductions, if adopted, would compensate the farmers at least in part of the losses they will suffer as a result of free trade in agricultural products with Canada. His amendments would reduce the average duty on raw wool from forty-five cents, the present figure to forty per cent. He said this would do away also with the "gross inequalities," which now work to the disadvantage of makers of poor men's clothing.

FARMERS DISCUSS SUBJECT OF RENTS

Special to The Times.

College Station, Texas, July 27.—The session of the Texas Farmers Congress at this place is proving a very interesting one at which the corn and cotton growers today discussed a question that is causing no little concern in some portions of the state at this time, that of an equitable contract between the landlords and tenants.

It seems that in some portions of Texas notably in the central part in the black land belt, there is a disposition on the part of leading landlords to raise the rent above the amount that has heretofore prevailed and in some places they are demanding for another year one-third of all the crops raised, whereas but a fourth of the cotton crop has been paid in years past. The tenants are protesting vigorously and in certain localities indignation meetings have been held. So pronounced has been the agitation that the business men have taken a hand in order to effect an amicable adjustment of the differences.

It is presumed that this action is the occasion for the presentation of the subject before the congress at this time.

Bailey Resigns.

By Associated Press. Washington, D. C., July 27.—Objecting to the Senate's methods of taking testimony in investigations Senator Bailey resigned from the committee on privileges and elections. His resignation was accepted.

Testimony was concluded shortly

afternoon today in the suit of McGlasson vs. the Wichita Falls Traction Co., and the attorneys are presenting their arguments this afternoon. Each side has been given three hours for its arguments and it is probable the case will reach the jury tonight. Most of the morning was taken up with testimony by physicians. An X-Ray expert was on the stand this morning.

Large Crowds Expected Here For Aviation Exhibitions

Preparations for the aviation meet continue in a very satisfactory way and indications are that everything will be in readiness for the initial flight Friday afternoon at 4 p. m. The aviation party is busily engaged in preparing the biplane for the exhibition, the entire day having been put in at Lake Wichita in connection with this work. It is expected that the machine will be ready and in tip-top shape by noon.

Indications are that the flights will

WASHINGTON TOPICS OF INTEREST

BILL INTRODUCED IN HOUSE AUTHORIZES VALUATION OF RAILROADS BY I. C. C.

GOOD ROADS MEASURE

Gifford Pinchot Issued Statement Today Criticizing President's Controller Bay Action.

By Associated Press. Washington, D. C., July 27.—A resolution authorizing the Interstate Commerce Commission to ascertain the valuation of all railroads in the United States has been introduced by Representative Adamson of Georgia, chairman of the interstate foreign Commerce Commission. This information when obtained, it is provided, is "to be admitted as prima facie evidence of facts in investigations or trials before the Interstate Commerce Commission or in any court."

The roads of the country will be benefited to the extent of \$20,000,000 during the next five years if the House adopts and the Senate and President then approve a resolution which Representative French of Idaho has introduced. It provides for an annual expenditure of \$20,000,000 by the government for five years, the states to add an equal amount for improving their roads.

The money would be divided among the states according to population, not counting cities with 30,000 or more population.

A resolution expressing confidence in Dr. Harvey W. Wiley, chief of the chemistry bureau, of the Department of Agriculture, and recommended for removal on technical grounds by Attorney General Wickersham, has been introduced by Representative Roddenberry of Georgia.

Charles D. Hillis, Secretary to President Taft, sent Mrs. Hillis and his two children down on Long Island for the summer. Before they left, he promised the children ten cents for each meal they sat through without raising any disturbance and during which they comported themselves in a dignified fashion.

This bill has just reached the White House.

"Charles Dewey Hillis to—

"Hilless Brothers, dr.

"For four correct sittings—40 cents"

Mr. Hillis has liquidated the debt.

The revenue cutter Bear, cruising in the Bering sea, has been ordered to send landing parties ashore in Alaska and capture 25 male reindeer.

The bucks will be taken to St. Lawrence Island where the interior department already has a large herd. It is the governments intention to introduce fresh blood into the herds every year if possible.

By Associated Press. Washington, D. C., July 27.—Objecting to the Senate's methods of taking testimony in investigations Senator Bailey resigned from the committee on privileges and elections. His resignation was accepted.

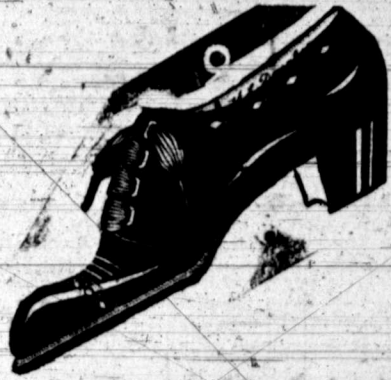

Testimony was concluded shortly after noon today in the suit of McGlasson vs. the Wichita Falls Traction Co., and the attorneys are presenting their arguments this afternoon. Each side has been given three hours for its arguments and it is probable the case will reach the jury tonight. Most of the morning was taken up with testimony by physicians. An X-Ray expert was on the stand this morning.

Large Crowds Expected Here For Aviation Exhibitions

Preparations for the aviation meet continue in a very satisfactory way and indications are that everything will be in readiness for the initial flight Friday afternoon at 4 p. m. The aviation party is busily engaged in preparing the biplane for the exhibition, the entire day having been put in at Lake Wichita in connection with this work. It is expected that the machine will be ready and in tip-top shape by noon.

Indications are that the flights will

be witnessed by the largest crowd that has ever assembled at the lake. Information received would indicate that the attendance from outside towns will be large, while it is expected that many will visit the grounds from the city. Many of the stores have announced that they will close for the occasion in order that their employees may witness the event and it is expected that the business part of town will be practically deserted during the afternoon Friday and Saturday.

A SUGGESTION

This kind of weather suggests W. L. DOUGLAS LOW CUT SHOES keep your feet cool, and you'll be healthy and happy. We have a complete line of sizes any widths in up-to-the-minute styles.

Maxwell Hardware

721 Ohio Avenue

New York social leaders in war for supremacy, Mrs. John R. Drexel, on the left, and Mrs. Ogden Mills. The other day at Newport it was noticed that at one end of the piazza at Bailey's Beach (the fashionable bathing place) Mrs. Ogden Mills sat surrounded by her closest friends. At the other end of the piazza sat Mrs. John R. Drexel, similarly attended. Mrs. Mills and Mrs. Drexel are rivals for the highest social position in America—the leadership of the New York-Newport set. Each aspiring to the position which was indisputably held by the late Mrs. Astor—"queen of American society." And their sitting apart, each with her followers, meant the opening skirmish of a battle for supremacy that will be waged throughout the Newport season, and no doubt will be continued throughout the Fall and Winter in New York. It is now admitted that the place left vacant by the death of Mrs. Astor belongs either to Mrs. Mills or Mrs. Drexel.

WARM CAMPAIGN IN MISSISSIPPI A UNIQUE PLEA FOR ECONOMY

Jackson, Miss., July 27.—One of the most spirited political campaigns that Mississippi has seen in years opened upon its final stage today. Next Tuesday a statewide Democratic primary will be held for the endorsement of a candidate for United States senator and the nomination of candidates for governor and other State officers to be chosen at the next election. In this State the Democratic nomination is equivalent to election. Public interest centers almost wholly in the contest for the senatorship. Senator Leroy Percy, whose term will expire in 1913, is a candidate for reelection. His principal opponent in the fight for the toga is ex-Governor James K. Vardaman, one of the most aggressive and picturesque politicians that Mississippi has turned out in many years. C. H. Alexander is the third entrant in the senatorial race. Alexander has developed a considerable following, but most unbiased on-lookers are of the opinion that the real fight will be between Vardaman and Percy, with a close finish and the probability that a second primary will be necessary to a choice. Earl Brewer, a prominent lawyer of Clarksdale, will be nominated for governor without opposition.

Inquiry at to Express Rates.
Chicago, Ill., July 27.—With a view to getting at all the facts in regard to express rates and also to determine the desirability of greater co-operation between the State railroad commissions and the Interstate Commerce Commission in the control of express companies, a committee of railroad commissioners from several States met in Chicago today to begin a series of hearings in the matter. The committee is composed of Commissioners Staples of Minnesota, Berry of Illinois, De Pass of Arizona, Gohlin of Ohio, Erickson of Wisconsin, Finn of Illinois and Decker of New York. Upon the conclusion of the investigation the committee will present its report to the National Association of Railroad Commissioners when that organization meets in Washington next October.

Archbishop Messmer Going Abroad.
Milwaukee, Wis., July 27.—Archbishop Messmer, head of the Roman Catholic archdiocese of Milwaukee, left with a party of friends today for Montreal, whence he is to sail next Saturday for Europe. The Archbishop will go direct to Switzerland, where he will spend the remainder of the summer at his old home in Tyrol.

What is regarded as the oddest appeal ever made to railroad workers to save money for the company by which they are employed is contained in the current issue of the Pere Marquette Monthly Magazine. "Save the pennies and the dollars will take care of themselves," is the essence of the plea that has been made or a reduction all along the line in general expenses. In order forcefully to illustrate how economy in little things results in a large saving in the end the following table is presented for the consideration of the road's employees.

Miles		
Two-cent postage stamp (equivalent to hauling one ton of freight)	35¢	
Lead pencil (equivalent to hauling one ton of freight)	2

wife of George S. Wilkins, of New York who arrived home from abroad the other day with strong hope of solving the American servant problem. She brought with her a Philippine girl named Dugima.

"My husband was a commissioner to the Philippines," she said, "and, while there I found the native girls splendid servants. My idea is to open schools for them in this country and solve our vexed servant problem. I have already been promised help by society women for various entertainments. I will give to get the schools started."

which he is receiving. "This should not only be a full measure of physical effort or a full measure of mental effort, but he should accompany this with a full measure of loyalty and enthusiasm for the best interests of the organization which he is attempting to serve."

"No matter what position we hold if we do our best and if we all would give these matters the consideration that we can not help but feel they are entitled to, and if each employe and officer of this company would save a little each day, we should be more than compensated in its prosperity."

Hamilton Has Aviation Meet.

Hamilton, Ont., July 27.—Hamilton's first aviation meet opened today under the auspices of the Hamilton Auto Club. The scene of the meet is a large field conveniently located about two miles from the city. Several well known aviators are scheduled to take part in the events which will continue through the remainder of the week.

American Weds English Girl.

London, July 27.—Many Americans of social prominence attended the wedding today of Miss Dora Jeslyn Taylor, member of a well known English family, and William Pancoast Clyde, Jr., of New York city. Mr. Clyde is a Yale graduate and belongs to the well known family of steamship owners.

"Steel Trust" Hearings Resumed.

New York, July 27.—The so-called Steel Investigating Committee of the House, of which Representative Stanley of Kentucky is chairman, came to New York today to resume its hearings within a convenient halling distance of the offices of the giant corporation and where some of the big men of Wall street and others who are supposed to know the inside history of the formation and operations of the United States Steel Corporation can be summoned before the committee without loss of time. It is understood the committee will resume its investigation of the absorption of the Tennessee Coal and Iron Company by the United States Steel Corporation. So far nothing has transpired to verify the rumors that J. P. Morgan, George W. Perkins, ex-President Roosevelt and other big men would be summoned to testify, but the belief prevails that the committee will not hesitate to take such action should it seem necessary in order to get at the foundation facts in regard to the Tennessee merger.

Don't You Need One?

Our hams are always good because we buy a few at a time and buy often. If you can't use a whole one let us send you a "Cottage Style Ham," which is a boneless piece of cured pork, very close to the ham.

We have some white fish that are nice for a breakfast change and only five cents a fish. Keep well by using plenty of lemons. We have good ones.

Rohatch's Mineral Water

is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretions of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases. This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Rohatch, Owner. Phone 1601—1 long—4 shorts.

COLD DRINK STAND BURGLARIZED WEDNESDAY

The cold drink stand of W. J. Howard at the car barns was burglarized Wednesday at noon while Mr. Howard was away at dinner, \$6.15 in money being secured. The burglar effected an entrance by using a wire to unhook a sliding window in the building through which he crawled to the inside, securing the money and getting away before Mr. Howard returned.

The officers made an arrest yesterday afternoon and it is believed that the right party was captured. The offender was a youth, one who has been up for their before.

PRAYING CAPS IN FASHIONABLE CHURCH

Chicago, Ill., July 27.—"Praying caps," a recent departure in feminine headgear, are the epitome of the recent hot weather. Should warm weather return they may be seen on the heads of women in the church of the Redeemer, fifty-sixth street and Washington avenue. The new millinery is the outgrowth of the custom of women to go about in hot weather without a head covering. The women attending services at the churches, however, discovered that they were violating the church rule which prohibits a woman from entering without a head covering.

So the women got together and devised the praying caps. They are small, circular caps of black that scarcely can be seen when perched on top of the head of a dark haired woman. Lighter ones will be made for the blonde women who don't want to wear conspicuous headgear.

A supply of the caps has been placed just inside the entrance of the church and any woman who desires to attend services without fear of violating church rules.

HOW BIRDS FLY IS STILL A MYSTERY

Man Has Learned Little From Them in His Attempts to Navigate the Air

(Kansas City Star)

Oliver Goldsmith, in his "History of Animated Nature," a work of absorbing interest, though more than 100 years old, accounts for the existence of the mole by saying that nature is so prodigal of life that earth, air and water must be inhabited by appropriate creatures. The life of a mole or the life of a fish is less mysterious than the life of a bird. Early in the history of our race mankind learned the lesson of locomotion through the water, and, perhaps, even earlier sought out dwellings or hiding places in caves; men thus followed the modes of life of the mole and of the fish while the race was yet young. But the bird's life in the air is only just beginning to be imitated by flying machines.

The mole has not taught us much about mining or the practice of underground life, nor has the fish led us in the way of navigation; neither has the bird furnished us a model for the flying machine. The flight of birds through the air still is a mystery. No man knows how they do it. This is a secret of nature and one of the most fascinating of her secrets. There is certainly nothing more pleasing than the contemplation of birds in their evolution and gyrations through the air.

The eagle is the strongest and loftiest flier native to this country, and is excelled only by the condor of South America. The condor is larger than our eagle, and it ranges at a greater altitude. These South American birds float at a height beyond the power of human vision. If a hunter in South America slays an animal the condor drops down from invisible depths of sky and begins to devour the victim. The eagle of North America never goes beyond the range of human vision, and he is never tempted to come down to profit by the hunter's prowess. The eagle is quite capable of making his own living and he seems to eat what another has killed. The eagle is a very worthy emblem of a country where men are self-reliant and free.

The eagle is a kind of hawk; we might call him the king of hawks. The hawk tribe is noted for good fliers, graceful, strong, swift. Any bird that seizes its food on wing becomes expert in wing exercise. The hawk can regulate its speed with the greatest exactitude. It can pounce in mid air, either moving up or down or forward, remaining quite stationary while locating a victim in the grass beneath. Having located the object of attack the hawk descends as though shot from a cannon and seldom is there any escape from the quarry. The extreme of wing motion is attained in the hawk. Of all our native birds the hawk is in many respects the most interesting to observe on wing. The larger hawks, like the red tail, mount to great heights, and there float for hours with a lazy motion characterized by a leisure which is not altogether devoid of tokens of energy.

But we need not seek out the eagles and hawks for diversion in observation of wing exercises. Some of our smaller birds afford great amusement and are fine objects of observation and study. The swallows and flycatchers are numerous and these are dexterous on wing. The chimney swift is seen everywhere and is distinguished by the fact, easily observed that the wings beat the air by alternate strokes. This bird flies very much like a man walks, or more ac-

Mabledean Items.

Mr. and Mrs. Arthur Ragin are visiting the old folks in Knox county, and will be gone for a few weeks.

Mrs. Sarah Kelley aged 78, died at the residence of her daughter, Mrs. Dr. Reason on Monday afternoon, after a short illness. She had lived among us but comparatively short time, but had made many warm friends and she will be greatly missed from our midst. She was buried from the Baptist church, Rev. Bowls officiating.

Mr. and Mrs. Dickson, from Fort Worth, came in Tuesday to attend the funeral of their grandmother. The other grand children being too far away to summon them in time.

Jay Bryant, a long-time resident of Mabledean, was here from Stamford this week, visiting old friends.

At the Mabledean voting precinct 54 voted for prohibition and 12 against it.

Mr. and Mrs. John McGuire have returned from their pleasure trip. They were gone seven weeks. They camped out and report a good time. They returned with an extra coat of tan, but looking much improved from their trip. They passed through thirteen counties, seeing both good and bad country, but taking all things into consideration, concluded Mabledean was good enough for them.

Wants Dividends Paid.

Pittsburg, Pa., July 26.—Stockholders of the Westinghouse Electric and Manufacturing Company assembled in Pittsburg today to take part in what promised to be the most important annual meeting since George Westinghouse was ousted from the presidency of the great corporation several years ago. Dissatisfaction with the present management is believed to have reached the point calling for decisive action. For months the stockholders have been clamoring for some return on their investment, but those in control have continued to pass the dividend, notwithstanding that a dividend has been earned and the company's surplus has been steadily accumulating. Should the plans of the dissatisfied stockholders end successfully it is probable that Mr. Westinghouse, who has been the ruling genius of the company since its inception, will be restored to his old position as the head of the corporation.

Exposition a Stimulant.

There is some question whether an exposition is a real help to a city, but in San Diego, which is preparing to hold one in 1915, the building operations have amounted to \$2,352,000 in less than six months of 1911; and for a city of some 40,000 people, that is admitted to be going some.

According to government figures the number of food animals in the United States has decreased about 5,000,000 in the last decade while the number of consumers has increased about 12,000,000.

LOCAL ARCHITECTS TO PLAN BOWMAN SCHOOL

The trustees of the public school at Bowman have contracted with Jones & Orloff to prepare plans and superintend the construction of a new school building to be erected at that place. The building is to cost \$10,000 and will be constructed of brick, with fire proof partitions and steel columns and will be modern in every respect.

The architects will prepare plans at once when bids will be received preparatory to beginning the construction work, it being desired to have the building complete in time for the fall and winter term.

This is My 40th Birthday.

Ollie M. James.

Ollie M. James, who has been indorsed by Kentucky Democrats for the United States senate, was born in Crittenden County, Ky., July 27, 1871. He began his career as a page in the Kentucky legislature and when he was only 26 years old he was sent as a delegate to the Chicago convention which nominated Bryan, being made chairman of the delegation. In two subsequent conventions he served in the same capacity. In 1908 he seconded the nomination of Bryan at the Denver convention. Mr. James was the leading counsel for the late Governor Goebel in the celebrated contested gubernatorial election case in Kentucky before he was 30 years of age. He was offered the nomination for Vice President at the Denver convention but declined and has several times been tendered the support of his party for governor of Kentucky. Since 1903 he has represented the First Kentucky district in the House of Representatives. He is known as a low tariff Democrat and an uncompromising party man.

Year 'Round Exposition.

While San Francisco will be content to keep its exposition open for six months, San Diego will keep its open the full year of 1915. After all, when the climate is so well adapted to that purpose, why shouldn't San Diego make the most of its show?

We have arrived and our stock of goods is moving this way. We are now ready for business, and solicit your patronage.

Negro to Die on Gallows.

Oklahoma City, Okla., July 27.—Spending his few remaining hours of life in reading the Bible and smoking cigarettes, John Henry Prather, a young negro, is awaiting the call to the gallows tomorrow morning. The near approach of the day of execution and the knowledge that there is little or no probability of a reprieve have caused no noticeable change in the demeanor of the condemned man.

Prather and four other young negroes were convicted of the murder of W. H. Archie in this city last April. Prather has never denied firing the fatal shot, saying he committed the murder after he and his companions had robbed Archie so, he could be "able to say he had murdered a white man." The execution of the other four negroes has been delayed by the appeal of their cases to the high court.

Growing Up To It.

San Diego was thought to be a small city to aspire to hold an exposition; but before the gates of its Mission City open in 1915 it will be a great deal bigger than it is now.

Missouri Boosters Meet.

West Plains, Mo., July 27.—Governor Hadley and other State officials joined in a meeting here today with representatives of commercial clubs in cities and towns throughout the southern half of Missouri to discuss plans for an organized campaign to exploit the Ozark region. It is proposed to begin a systematic campaign of advertising to call public attention to the wonderful fruit-growing and other natural resources of this section of Missouri.

Texas Cotton Gin.

Uncle Sam has been inspecting the Texas cotton gins and he reports 4,057 ginneries, 13,641 gins and 928,820 saws. Of these ginneries 3,892 are run by steam power, 54 are run by water, 86 by gasoline, 12 by animals and 13 by electricity. Texas has the extremes in power from the oxen to electricity and we have a complete variety.

MEMBER ASSOCIATED PRESS 505 505

Wichita Falls, Texas, July 27th, 1911.

According to statistics furnished by Acting Comptroller White, the increase in the wealth of Texas during the last year is more than \$70,000,000.

Senator Bailey, of Texas, Senator Clark of Arkansas and Senator Simmons of North Carolina, were the only Democratic senators who voted with the Republicans to defeat the Canadian reciprocity bill.

The Nebraska state convention adjourned without going on record as favoring either Harmon or Wilson for the Democratic presidential nomination. Mr. Bryan was not present, and so far has failed to make comment.

There are very few if any "Cool Colorado" summer resorts that could furnish more delightful weather than is now being enjoyed by the people of Wichita Falls. It is so cool that the manager of the swimming pool at Lake Wichita is likely to go broke if this weather keeps up much longer.

Notwithstanding that Gov. Wilson of New Jersey stands for nearly everything that certain other Democratic statesmen "abhor and view with alarm," he is gaining strength daily, and is clearly in the lead for the Democratic presidential nomination.

After the meeting of the executive committee of the Statewidens to be held at Fort Worth Saturday, it can be explained why a county credited with only about 1200 poll tax payers can cast a vote of 5000. If such things as that are possible under the Terrell election law, then it is time the law was changed.

The Northwest Texas Press Association is to meet in Wichita Falls on August 25th. Referring to this event the Childress Index says: "The Northwest

The Gem

the only exclusive Motion Picture Theatre in the city. Change of program Every Day. Matinee at 2:30. Night show at 7:30. "Unto Us a Child is Born." "Opportunity and the Man." "The New Life." Song—by Miss Baker, "Any Old Time and Any Old Place."

H. S. TRITCH Proprietor

Texas Press Association meets at Wichita Falls, Friday, August 25. The program will be published in a few days. Wichita Falls entertained the association last year, and the members were so well pleased that they decided to go back this year, and it may be that Wichita Falls will be made the permanent meeting place of the association.

Reports of the condition of cotton crops in the country lying between Wichita and Red River in Wichita county, are to the effect that they are decidedly better this year than was the case at this time last year. This is indeed encouraging, considering that just a few weeks ago, or more correctly speaking, just before the rains fell, it looked like a complete failure. If this be the case, then it may be expected that Wichita county, as a whole, will produce as many bales of cotton for the year 1911 as she did for 1910, and in 1910 11,000 bales were produced in this county.

An outcome of the campaign just closed, and a logical sequence to the results of the balloting looms up in an opposition candidate for the governorship. Governor Colquitt went into office as a minority nominee, and his taking the stump in behalf of anti-prohibition was the red rag which infuriated many a one against him, people who were inclined to overlook his firm position along the same lines during his race for the office and as manifested in his exercise of power as governor. Thus inflamed and believing that a democratic primary would show a big majority to favor a pro-candidate, it is almost certain that there will develop opposition to Governor Colquitt's reelection. His safety lies in the aspirations of pro candidates, or in the success of his followers in getting several of them to run. No doubt he could win in a three cornered race—Temple Telegram.

"THIS DATE IN HISTORY"

- July 27. 1689—The adherents of James II. defeated the forces of William, III. at Killbuck. 1752—Gen. Samuel Smith, who held Fort Mifflin for seven weeks against the entire British squadron, born in Lancaster, Pa. Died in Baltimore, April 22, 1839. 1757—Franklin reached London as Colonial agent. 1828—Gilbert Stuart, famous portrait painter, died in Boston. Born in Narragansett, R. I., Dec. 3, 1755. 1830—Revolutionary outbreak in Paris, ending in the abdication of Charles X. a few days later. 1847—Brigham Young became head of the Mormon Church. 1894—War declared between Japan and China. 1901—The new battleship Maine was launched at Philadelphia. 1910—Ohio Republicans nominated Warren G. Harding for governor.

COLQUITT'S VOTE QUESTIONED

Governor's Ballot is Attacked on Technicality. Austin, July 26.—There was a lot of talk around the state house today regarding the vote which Governor Colquitt cast in the prohibition election at Terrell last Saturday. Some there were who were inclined to believe that the vote was illegal. The governor himself said he was not sure. He cast his vote in good faith, he said, and at the time and for two hours thereafter was ignorant of the fact that a city poll tax was required in addition to the state poll tax receipt.

"It is my opinion," said the governor, going further, "that all this talk started from an effort on the part of some of those who differed with me in my views on this question to make political capital. Last December I sent a check for \$2.75 to President Riley of the First National Bank of Terrell, requesting him to pay my poll taxes and send me my receipts. I was under the impression then that the city ordinance requiring a city poll tax of \$1 in addition to the state tax was still in effect. Mr. Riley paid my state poll tax and returned the receipt to me with a check for \$1 and the information that the city poll tax was no longer required. I thought nothing more of the matter until after—in fact until two hours after—I had cast my vote last Saturday. Then I heard it talked around that my vote was illegal because I had not obtained a city tax receipt. The vote was not challenged at the time I cast it. I had showed my willingness to meet all the requirements of the law. Now whether it should be thrown out in the event of a contest in that particular box is not for me to say." It was said of the legality of the governor's vote had been raised in Terrell on the afternoon of the election and that some one had telephoned to the attorney general's department here to know whether or not the vote could be thrown out. Assistant Attorney General Robertson answered the telephone. He informed the information hunters at the other end of the line that while the vote was not strictly legal that since it had already been cast unchallenged that it would have to be allowed to stand. The judges, he ruled could not open up the ballot boxes and reconsider the vote. He held, however, that if the box should be contested that the question of the legality of the vote might be raised and the ballot thrown out.

Not a Day in Bed.

Pravling, S. C.—In a letter from Gramling, Mrs. Lula Walden says: "I was so weak before I began taking Cardui, that it tired me to walk just a little. Since taking it, I do all the housework for my family of nine, and have not been in bed a day. Cardui is the greatest remedy for women, on earth." Weak women need Cardui. It is the ideal women's tonic, because it is especially adapted for women's needs. It relieves backache, headache, dragging feelings, and other female misery. Try Cardui. A few doses will show you what it can do for you. It may be just what you want.

More Money Will Be Asked.

Washington, July 27.—Congress will be shortly asked by the War Department to appropriate \$250,000 more to complete the work of raising the battleship Maine in Havana harbor. This will make an expenditure of \$900,000.

In order that our employes may attend the aviation meeting our store will be closed at 2 p. m. Friday.

TAFT'S MESSAGE LEAVES THE GIST UNTOUCHED

By Associated Press. Washington, July 27.—Gifford Pinchot issued a statement today declaring Taft's Controller Bay message leaves the gist of the matter wholly untouched.

AERO CLUB BARS FLIGHTS OVER CITIES

New York, July 27.—The Aero Club of America has placed itself in line with various cities of Europe and aero nautical organizations abroad by barring out flights over large cities. Aviators who indulge in such flights may hereafter be deprived of their license in this country. The aero club's new rule on the subject declares that the practice of flying over large cities at this stage of the development of aeronautics presenting in many cases danger to the public and offers no particular good or utility.

HUGE SWORDFISH BEARS MAN'S NAME

Boston, Mass., July 27.—A white and blue swordfish with the name "Frank Doucette," carved in its spotted left side, is proving the puzzling catch of the season to Boston fishermen. It was brought into the quay fish market by the schooner Rita Vlator. The fish is four feet long, weighs 120 pounds and was harpooned off Georges Banks by Captain William Enos. Who "Frank Doucette," is and how he came to sign his name on the side of a fighting fish is a mystery which will provide the old salts of the fleet with material for a whole winter's argument.

PROHIBITION DAILY UNDER CONSIDERATION

By Associated Press. Eckhart, Texas, July 27.—Lea Bealy, of this city, who will attend the prohibition committee meeting in Fort Worth Saturday said that plans would be discussed for the launching of a great daily newspaper in North Texas to be devoted to the prohibition cause. He said large sums of money for such a paper had already been subscribed.

GRADING CROSSINGS' FEARFUL TOLL

Stating Statistics in Report of National Highways Protective Association. New York, July 27.—Forty six men, thirteen women and nine children were killed during the past six months by grade crossing accidents in New York, New Jersey and Connecticut, according to a report prepared by the National Highways Protective Association. The association will begin at once a vigorous campaign for universal abolition of the grade crossing death traps.

Great Damage to Fruit Crops.

Buffalo, N. Y., July 26.—A careful survey of the Niagara and Orleans county fruit belt indicates that the high winds of the past 24 hours have destroyed between 20 and 40 per cent of the growing apples and pear crops. Experts place the loss at \$500,000. Many cornfields were swept clear by the wind and will be practically a total loss.

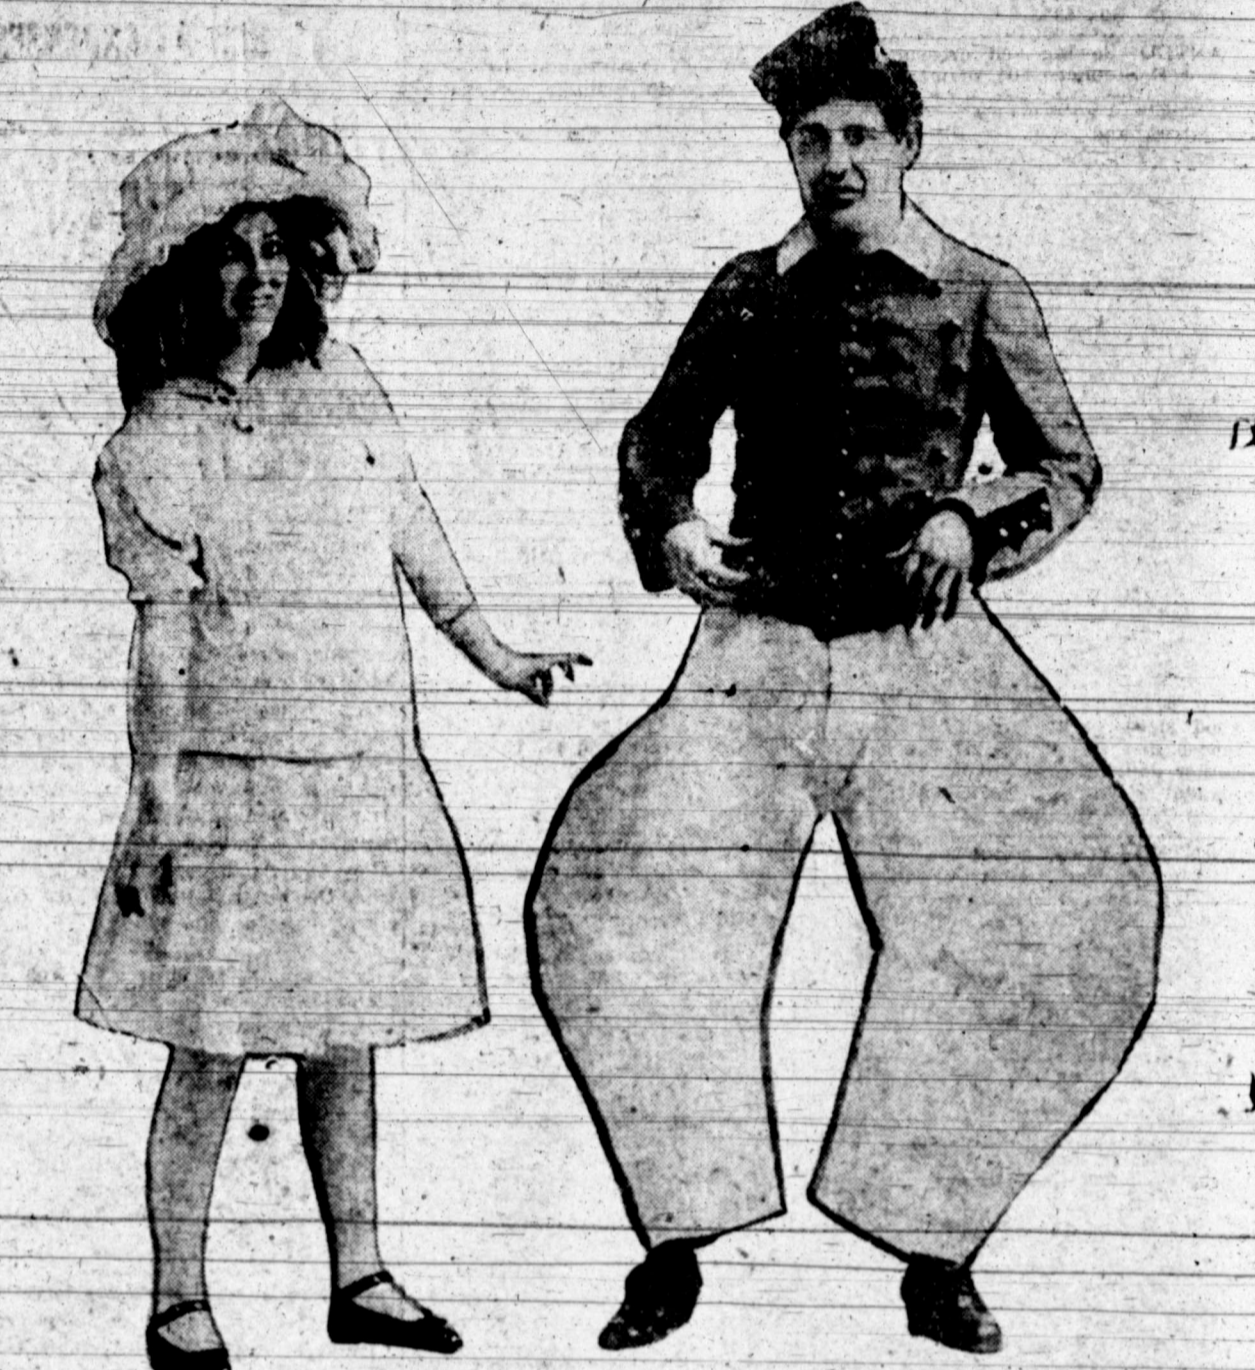

Some Postscripts.

"Caloriculture" is a word that has been coined to designate a new system of horticulture designed to replace intensive fruit and vegetable forcing by soil cultivation in France.

In order that our employes may attend the aviation meeting our store will be closed at 2 p. m. Friday.

MOTHER KENNEDY PENSIONED BY CARNEGIE
By Associated Press.
New York, July 27.—"Mother Kennedy," a well known character at the Coney Island Beaches, where for 50 years she has sold pails and shovels to thousands of children, has been pensioned by Andrew Carnegie. When her life-time savings were wiped out in the Dreamland fire a few months ago, she recalled her late husband's friendship with Mr. Carnegie, who had been an employe of the Pittsburgh division of the Pennsylvania Railroad when her husband was a popular conductor. So she sat down and wrote to the ironmaster. This week an answer came from Skibo Castle, notifying her that hereafter, she would receive a pension of \$25 each month.
SCOUT CRUISERS REMARKABLE RECORD
Steamed 1400 Miles in Three Days and Three Hours.
By Associated Press.
Washington, D. C., July 27.—The flying trip of the scout cruiser Chester from New England to Haiti to protect Americans in that quarter during the revolution has amply justified the building of the rapid scouting ships of this class in the opinion of naval officers.
The Chester, a turbine driven ship, got her sailing orders last Thursday afternoon and was able to steam away from Bradford, Newport, R. I., the next morning. She struck a gale of 18 23 knots an hour and covered the 1,400 miles in three days and three hours, arriving there Monday morning.
Commander B. C. Dacker is receiving much praise at the navy department for the preparedness in which he had kept his ship.

PROS AND ANTIS MUST REPORT EXPENSES
Assistant Attorney General Holds Reports Must Be Made By County and State Organizations.
By Associated Press.
Austin, July 27.—Assistant Attorney General Mead holds that the pro and anti organizations are political parties, and must file reports on their campaign expenses both state and county.
HOMING PIGEONS START ON RECORD FLIGHT
San Antonio, Texas, July 27.—What will be the longest flight of homing pigeons on record was started from San Antonio at 6 o'clock Wednesday morning, when eighteen birds of the Essex district of the National Federation of American Homing Pigeon Fanciers of Newark, N. J., were liberated by E. S. Peterson. The pigeons are to fly back to Newark. The length of time in making the trip has not been estimated. This flight will be 500 miles longer than the one recently had from Denver to Pittsburg, which consumed eight or nine days.
Notice.
On account of the aviation meet at Lake Wichita we will close Friday, July 28th, at 1:00 p. m.
Our customers will please take notice and attend to any important business before that time.

Dr. Myer's Address Friday Night.
The great attraction at Lakeshore Assembly for tomorrow, Friday night, will be the lecture by Dr. Robt. Stewart Myer, president of the Southern Methodist University. The theme will be "Spiritualism, Hypnotism and Kindred Phenomena." This lecture has been delivered before scientific bodies in several of the large American cities, and it has always created a sensation. This lecture will give the people a chance to learn many of the deep secrets of psychic phenomena.
Dr. Myer demonstrates his lectures. He shows just how the fake magicians deceive their audiences. Dr. Myer has given years of painstaking study to the subject. He presents in an attractive and popular style.
The Southwestern University Quartette will sing. The quartette continues popular each time they appear they receive vigorous applause.
Mrs. Vest Felt Like Crying.
Wallace, Va.—Mrs. Mary Vest, of this place, says, "I hadn't been very well for three years and at last I was taken bad. I could not stand on my feet, I had such pains. I ached all over. I felt like crying all the time. Mother insisted on my trying Cardui. Now I feel well, and do nearly all my housework." No medicine for weak and ailing women, has been so successful as Cardui. It goes to the spot, relieving pain and distress, and building up womanly strength, in a way that will surely please you. Only try it once.

CORZINE HELD LADS SCORELESS
DURANT'S DIMINUTIVE SOUTHPAW PITCHED GREAT GAME WEDNESDAY.
THE SCORE WAS 1 TO 0
Robinson's Quick Recovery of Ball Put Out Clark at Home Plate.
Durant, Okla., July 27.—Corzine, Durant's diminutive southpaw, yesterday held Wichita Falls to four widely scattered hits and with brilliant support administered a shut-out. The game was fast and snappy throughout and abounded in brilliant plays. Robinson's throw from center field to the home plate in the fourth being the most spectacular. With Clark on second, Witherspoon hit a fast ground ball through short and out into center field. Robinson's recovery of the ball was so rapid and his throw home so accurate, that Burge had the ball waiting for Clark, although the latter is a speedy runner. The visitors had another chance to score in the ninth after the first man up had singled but a quick double play from Corzine to Grady cut off the batter and the man at first. Three singles filled the bases for Durant in the sixth and a sacrifice fly-out scored one run.

Joe Sap's First Experience with an Auto

(Temple Telegram) Until recently all on earth I knew about automobiles was learned from reading advertisements and looking at highly colored pictures of them that have been appearing in the magazines for the past ten years; but my first ride in one convinced me that there is but little in common between the advertised auto and the real article.

In the advertisement, we see it at its best, dressed as it were, in its Sunday clothes, gently gliding along beautiful landscapes and loaded with well-dressed, pleasant-looking people. But a few hours aboard one of the things on a sultry summer day convinced me that these scenes were not taken from real life.

None of these advertisements ever shows the photo of a fellow on a hot day with his coat off, lying on the flat of his back with a monkey wrench in one hand and a screw-driver in the other, gazing into the rumbling bowels of an auto, trying to find out whether it was the whizzing-trumpet, the mortar-dingus, the razzlerocus or the jimflam that had caused the darn thing to stop. Neither do these ads ever show a sturdy farmer chasing the proud and haughty autoist over a large field for causing his team to run away. Neither do they ever show the auto homeward bound in charge of a horny handed son-o'-toll driving a pair of dark bay mules, with the autoist sitting in the rear seat of said auto, wrapped in gloom and melancholy silence.

The friend who took me on my maiden trip was the proud possessor of a blood red, two seated car that cost him \$1639.50. He had just bought it and took much pride in telling me all about its different parts and how to run it. He said to save his life he couldn't see how any one that had as much sense as a grasshopper would put up with an old poky horse and that he wouldn't give \$15 for the best horse in the county. By way of illustration he said that it was eighteen miles to where we were going and that we would make the round return within two hours, whereas if we were driving an old out-of-date horse it would take us all day. He predicted that in less than ten years the horse would be almost extinct and could be seen only in menageries along by the side of the giraffe, the hippopotamus and the fellow with whiskers. Just as he finished this prediction we met our first country horse after leaving town. The horse was a tall, away-backed, animal with one white eye and was being ridden by a short Dutchman who was smoking a long, crooked stem pipe. The old horse began to rear up on his hind legs and rug sideways as soon as he saw the machine which made my friend angry as we were making a record run and were losing much valuable time by the fool capers of the old horse. He said that he sincerely hoped the next legislature would have enough sense to pass a law prohibiting the riding of foot horses where autos were liable to be encountered. The Dutchman tried every way possible to get his horse by us, but he made no headway. He finally got mad and cursed us and the auto in broken English and swore he was going to see the law already about us and make us lay behind the yale inside for scaring his horse wit that tam devil wagon. My friend by this time lost his temper and gave his horn a toot and took out after him. We were in a narrow lane, two miles long and the Dutchman had no way on earth to escape except to outrun the auto. The machine was put to its utmost speed and the horn tooted as fast as it would toot. The old horse curled his tail over his back and simply flew with the Dutchman clinging to the horn of the saddle and yelling curses at us. We ran him to where the lane forked and where we intended to leave him, but just as we made the turn the machine came to a dead stop. My friend told me to keep my seat, but he would soon have it fixed. But it took him almost an hour to fix it. While he was working at it, the Dutchman heaped epithets on us from a safe distance and the old horse reared and cavorted and champed his bits.

When my friend got the machine to going again, he was wet with sweat, his collar wilted, his suspenders broken, his face greasy and his hair down in his eyes. It was now ten o'clock and we began to meet farmers coming to town, and every team we met tried to run away. We met so many teams that we finally had to go out into a field and get a lot of sheep oats and cover up the auto so the farmers' teams would pass. We stood there in the broiling sun, until noon waiting for the last farmer to pass, before resuming our journey. We had been all the forenoon going five miles, but my companion assured me that now the road was clear of teams would cover the remaining fifteen miles in forty minutes, and

had me to consult my watch that I might time the run. We made splendid time for about half a mile, when the thing stopped running again. I was invited to keep my seat with the assurance that it would be going again in ten seconds. My friend crawled under the thing with his monkey wrench in his hand and tightened a few bolts and then came out with the glad announcement that everything was now ready, that he had found the flackjack unscrewed and the whiffleplunker pushed to the board which had caused all the trouble. He rolled a cigarette after which he requested me to look at my watch and see how much time we had lost as he didn't care to have the few minutes he had just lost counted in the run he was about to make. I gave him the correct time and he tried to start the machine, but it wheezed and coughed and finally choked down. Once more he crawled under the thing and began hammering on it with all his might and in a little while came forth and tried to crank it, but it was dead. I asked him if I should consult my watch again and he retorted in a stern tone of voice, "Keep that d—n watch in your pocket." He was now plainly out of humor and hammered and cursed it in the most reckless manner. We were about ready to abandon the thing and hot hoof it back home, when I asked a question that saved the day. I felt like I ought to say something, so I said or asked the first thing that came to my mind. I asked if he was sure the gasoline had not given out. The effect of that question was electrical. He unscrewed the top of the oil tank and stood for a moment speechless. The tank was dry. He grasped my hand and wrung it fervently and said that I had made a discovery that he would never have detected. I felt proud of myself for making the discovery and told him that I had suspected for some time that the gasoline had given out. He invited me to accompany him to a country store that was hard by, that is if a store two miles away could be called "hard by" and assist him in bringing back five gallons of gasoline. We had to go through a mile of freshly plowed stubble on the way to the store and when we returned we were so exhausted that we had to lie down and rest awhile before we could pour the gasoline in the tank.

We arrived at our destination at 7 o'clock that afternoon, notwithstanding we had punctured two tires and had run into four ditches within the last ten miles of the trip. When night came we lighted the auto lamps and bade the friends good bye who had entertained us and started on our return trip. But the machine would not move no matter how hard he cranked it. He worked for an hour at it, loosening a tap here and tightening a screw there. He finally gave it up and was making arrangements with our host to have him haul us back home, when I ventured another interrogation that put things to the good. I asked him if he was quite sure that the gasoline was turned on. He saw at a glance that it had not been and in less than forty seconds we were burning the wind toward home and loved ones.

We got along fine for about five miles and my friend had regained his former enthusiasm and was expressing his admiration of me for making the two brilliant discoveries that I had, and ventured the prediction that I would some day own an auto of my own, when all at once the thing went dead. He worked at it for two hours and examined it all over, and screwed and unscrewed every tap that he could find and stove up two toes kicking it, but it would not budge an inch. "This is a cold cruel world at best and man's unhumanity to man" has caused countless thousands to mourn. The friend who had pressed my hand just a little while before and expressed his admiration for my brilliant intellect, called me a dern fool nine-tenths times in less than ten minutes, after the machine came to a standstill that night for no other reason than I had failed to guess what ailed the thing. As a sample of his discourtesy and lack of appreciation of my suggestions as to what had caused the auto to stop, he said, "Shut your fool mouth. You talk like a poll-parrot. You don't know as much about one of these machines as an orad lizard, and you will accommodate me if you will keep that head of yours closed."

Of course, he may not have realized it, but he came very nearly destroying a friendship that night by his uncouth language to me, that has exalted there in since we were boys. But he was unduly worried and I have forgiven him for those hasty words. After abandoning all hopes of starting the machine we went in search of a farmer to haul us back to town. We went to the nearest house on the road and called a farmer out of bed and told him that our auto had broken down and we would pay him well if he would haul us and the machine back to town. Think what must have been our surprise when the farmer began to curse us in broken English and call his dogs all at the same time. It was our sawed-off Dutchman that we had met that morning.

It was after midnight before we found a farmer who wanted the job of hauling us back to town. While coming in home that night I picked up the courage to ask my friend if he still thought the horse would become extinct within the next ten years; but his reply to this civil question convinced me that he was in a bad humor for he yelled with all his might, "SHUT UP."

Friberg-Thornberry Notes. Willie Lamb left last Saturday for Italy, Texas, where he has a position in a restaurant. He had formerly held the same position. Next Sunday being the fifth Sunday of the month, the pastor will preach at Thornberry in the morning and at Friberg at night. The night service at Friberg last Sunday was poorly attended. C. O. Quarstrom was on the election board at Wichita last Saturday. A. J. Andree is on the jury at Wichita this week. Mr. and Mrs. E. E. Byman visited her parents in Petrolia last Sunday. The recent rains have greatly improved the peach crop at Thornberry, and many are buying out there. The two hail storms at Friberg, the one at blooming time and the more recent one destroyed the crop here. The Ladies Aid Society of the Thornberry Methodist Church, met with Mrs. D. E. Bentley. Seven members were present and a good meeting was had. They decided to have an ice cream supper at the church August 8. The next meeting will be with Mrs. J. R. Fowler, August 16. Mrs. R. E. Sawdon, who recently underwent an operation in Wichita, is improving nicely. The appearance of pastures and fields makes one think of spring more than summer. The grass is better than for many months past and the farmers are as busy planting as in early spring, with reasonably good season in the ground. Cotton is in splendid condition and growing rapidly and the outlook for the later season is good. May it continue. Mrs. M. E. Linskey was in Wichita Tuesday and called on Mrs. Sawdon at the sanitarium. G. E. Friberg's family is surviving a siege of tonsillitis. Both of these communities did, they

Mrs. E. H. Harriman widow of the late railroad wizard, who during the past year has received more than five thousand begging letters. The aggregate amount of money asked for reaches the gigantic total of \$110,000,000. The amounts requested ranged from sums as small as \$10 to amounts sufficient to found a college or buy a cattle ranch. So interested did Mrs. Harriman become in this enormous unsolicited one-sided correspondence that she left instructions to have all the begging letters in her daily mail turned over to her personally so that she might get at the "psychology" of it all. The task became so enormous, however, that Mrs. Harriman was obliged to turn the letters over to the Municipal Research Bureau, asking it to aid her in tabulating the letters, the proportion of worthy ones to unworthy ones, etc.

Cotton is in splendid condition and growing rapidly and the outlook for the later season is good. May it continue. Mrs. M. E. Linskey was in Wichita Tuesday and called on Mrs. Sawdon at the sanitarium. G. E. Friberg's family is surviving a siege of tonsillitis. Both of these communities did, they

road and called a farmer out of bed and told him that our auto had broken down and we would pay him well if he would haul us and the machine back to town. Think what must have been our surprise when the farmer began to curse us in broken English and call his dogs all at the same time. It was our sawed-off Dutchman that we had met that morning.

It was after midnight before we found a farmer who wanted the job of hauling us back to town. While coming in home that night I picked up the courage to ask my friend if he still thought the horse would become extinct within the next ten years; but his reply to this civil question convinced me that he was in a bad humor for he yelled with all his might, "SHUT UP."

In order that our employes may attend the Aviation Meeting our store will be closed at 2:00 p. m. Friday.

L. H. LAWLER, Proprietor

Christian duty in the recent statewide election. We were informed that out of 73 votes at Thornberry 61 were prohibition votes. In fact it seems that all North Texas voted on that side, or at least a good majority. Mr. Mike Emmert has been appointed collector of telephone dues in the Friberg community instead of paying them at the office in Wichita. We do not say it for advertising, but for educational purposes, that every man, woman and child who can should see the air ship flight at Wichita, the greatest of all navigation inventions, Friday and Saturday, next.

DIAMOND SAND

Good sharp, dry-pit diamond sand. Best for building and cement work of all kinds.

In car lots and small quantities at lowest prices. Delivered on board cars at Burkburnett.

For prices address

W. C. WALLING

Burkburnett, Texas.

ARRESTED FOR CRIME

COMMITTED 21 YEARS AGO

Special to The Times. San Antonio, Texas, July 27.—Twenty-one years ago a mad by the name of Moody and his son were murdered very mysteriously in San Sabu county, Texas. For months, detectives worked on the case without any apparent clue. After a time, however, it was decided that the murder was committed by a man by the name of Mitchell Pickett. Pickett could not be found at that time, and diligent search for him was fruitless until a day or two ago when Deputy Sheriff Chamberlain, of San Sabu county, while on a train in McAlester, Okla., recognized Pickett as one of the passengers on the train and arrested him. Pickett was enroute from Durant, Okla., to Little Rock, Arkansas, where he has relatives, and was accompanied by his daughter and her two children. Pickett declares he is innocent, but the deputy sheriff is quite sure he has the right man. The murder of Moody and his son, an account of the mysterious manner in which it was done, attracted wide attention at the time, and it is said that Pickett took an active part in the search for the murderer for a time, and then mysteriously disappeared. It was this disappearance that pointed to him as the probable murderer.

On account of the aviation meeting our store will be closed Friday from 2 o'clock and remainder of the day.

Oddities in a Day's News

Center of U. S. Population Moves 31 Miles Westward.
 The center of population in the United States is four and one-quarter miles south of Unionville, Monroe County, Indiana.
 Since 1900 it has moved 31 miles westward and seven-tenths of a mile northward. It is 550 miles from the geographical center, which is in Northern Kansas.

Six Required to Set Elephant's Dislocated Leg.
 While pushing the heavy cook wagon in place during a circus exhibition at Marinette, Wis., Jumbo II, one of the big elephants, slipping on the rainy road and dislocated a hind leg.
 It took a veterinary and five assistants one hour to set and bandage the limb. Jumbo will be in the hospital for several weeks.

Girl, 17 Years Old Weds for Third Time.
 At the age of 17, Mrs. Mary Luther Smith of Shelbyville, Ind., has three times been a bride. Soon after obtaining a divorce last week she married Cary Smith.
 Her first marriage took place when she was only 14 years old, her second a year later.

Mirage on Lake Michigan Gives Chicago Odd Sight.
 Because of peculiar atmospheric conditions, residents of Chicago witnessed a fine mirage over Lake Michigan.
 The white shore line and trees near Michigan City, Ind., were visible, as were steamers 40 miles from shore. Parts of Michigan also could be seen.

Insect Stings Bishop and Wedding is Delayed.
 Because an insect stung Episcopal Bishop Kinsman on the knee at Cooperstown, N. Y., the marriage of the Rev. Guy Emery Shipley of St. Louis and Miss Margaret Strong of Chicago has been postponed at Wilmington.
 It probably will take place when the bishop returns from Maine September 1.

Laughs at Harem Skirt and is Fined \$25.
 When Samuel Spain of Philadelphia saw a girl in a harem skirt on the boardwalk at Atlantic City he yelled, "Oh, look at the girl in her pop's pantaloons."
 It was the first time he had seen a harem skirt, and he raised such a row and such a crowd he was arrested. The court fined him \$25 for his ungallantry.

Meanest Man Steals a Tombstone From Grave.
 The latest aspirant for the meanest man honors is the person who robbed the grave of Cornelius Decker of its tombstone at Montgomery, N. Y.
 It was an old tombstone, too, Decker having died in 1862.

Man Faints and is Choked to Death in His Chair.
 Stephen Toth, 48 years old, his head tightly wedged in the back of a chair was found strangled to death in his home at Newark, N. J. He had fainted, his head dropped between the sides of the chair back and was caught in the acute angle formed by the sides coming together.

William K. Vanderbilt, Jr., Newport, R. I., July 27.—The triumphant return of William K. Vanderbilt, Jr., in his steam yacht Tarantula has caused much talk here of reconciliation between the strenuous living young multimillionaire and his beautiful wife, both of whom are among the most popular persons in the Newport social colony. Vanderbilt was welcomed by the entire settlement when his powerful yacht steamed up the Bay. It is said that friends of both he and his wife are active in trying to bring them together again, and also that his father would not be averse to such an event. When Vanderbilt arrived the first thing he did was to go straight to see his mother, Mrs. O. H. Belmont.

PLAYS AND PLAYERS

The Friars are planning to go on another frolic for funds next spring. Villanova College has conferred the degree of doctor of music on Victor Herbert.
 Lee Arthur is making important changes in "The Fox" preparatory to its New York premiere in September.
 Lillian Russell is to be offered "Cis Cis" Frederick Lincke's new opera for her operatic starring tour next season.
 Blanche Chapman is to play the title role of "Mrs. Wiggs of the Cabbage Patch" for her fourth consecutive season next winter.
 Luisa Tetrazini will sing at the Metropolitan Opera House next season and Giuseppe Sturani will be one of the conductors.
 Everett Butterfield is considering an offer from Martin Beck for a season of Vaudeville, which is to begin the latter part of September.
 Mrs. Elizabeth Chester, wife of George Randolph Chester, author of "Get Rich Quick Wallingford," has brought suit for divorce.
 A farce written by Abe Ruef, the convicted San Francisco hoodlum politician was a feature of the Fourth of July vaudeville show at St. Quentin.
 Chicago music lovers have subscribed \$200,500 for the next grand opera season in that city. It is to begin November 18, with "Samson and Delilah."
 Fuller Mellich has been re-engaged for the role of the priest next season in support of Miss Gertrude Elliott in "Rebellion" Joseph Medill Patterson's latest play.
 Charles Dickson, author of "Three Twins," "Bright Eyes," and other successes, has practically completed the selection of his cast of principals for his new play "An Average Chap."
 A. H. Woods will produce "The Broken Rosary," a new play by Edward Peple, during the engagement of Dustin and William Farquain in "The Littlest Rebel," at the Chicago Opera House in October.
 A series of motion pictures of Mary Anderson in her home near Exeter has been obtained by E. M. Newman in connection with other material for his travel talks the coming season.
 The Chicago Opera House, one of the most important playhouses in Chicago for many years, is to be torn down. The Marshall Field estate will build a \$10,000,000 store and office building on the site.
 Rose Stahl, who is resting in Ireland, will return August 18, and directly afterward rehearsals will begin for the New York production of the Klein play, "Maggie Pepper," which is to open the Harris Theatre last week in August.
 Ian MacLaren, the noted English actor, is now in New York, ready to go to work for Liebler & Co., who will place him either in "Diarsell" or "The Garden of Allah." Mr. MacLaren has never appeared in America, but enjoys a fine reputation in England.

7 MONTHS-OLD CHILD CAREFULLY TRAINED

Kennett, Mo., July 27.—Miss Vivian Hamon of Kennett, Mo., was always known among her girl associates as an original. She had her own ideas, unobtrusive, but firm. Particularly independent from a feminine point of view, she designed her own dresses, usually in defiance of current fashions, but always charmingly. So with the curious maturity of Southern girls when she was married, a slender slip of girlhood 18 years old, she determined that if she had a child it should be an original baby.
 A child was born last December, when the mother was 19 years old. Before its birth she studied—as a student—"grinds" for a college examination—all the books and articles concerning the rearing of babies upon which she applied with scientific rigor the principles of child training which she had learned—like a polytechnic graduate upon his first enterprise of surveying.
 This child, when 2 months old, "chinned" herself while holding to her mother's fingers. A month later she supported her weight of sixteen pounds by hanging with the grip of her minute fingers from a horizontal

OPEN AIR SCHOOL

TO OPEN AT ATLANTA

Atlanta, Ga., July 27.—The first open air school to be established in the South will be opened in Atlanta in September, under the auspices of the North Avenue Presbyterian Church of this city. The school building will be so constructed as to allow abundant ventilation and fresh air, but at the same time the rooms can be comfortably heated in cold weather. New York, Chicago and other larger Northern cities have recently introduced the open air school system, and it is understood to have met with great success.

LOCAL NEWS BREVITIES

The Misses Simmons will move their millinery store from the rear of the Warj building to 618 Eighth street.

On account of the aviation meeting our store will be closed Friday from 2 o'clock and remainder of the day. 63-2tc J. L. LEA, Jr.

Charlie Yeary, is in Abilene today on official business and expects to return tonight.

We write all kinds of insurance. Phone 694, Kell, Perkins & Craven, Kemp & Kell Building. 52-1tr

There was one plea of guilty in the city court this morning the offender being charged with intoxication.

New Dental Office.

I have opened up a first-class office in the new Ward Building on Eighth street, where I will solicit the patronage of the public. Dr. A. R. Prothro, 62-3tc

A rooming house on Indiana Ave. was raided last night and ten arrests were made, half of the cases being docketed in the city-court and half in the justice court.

For fire insurance see Kell, Perkins & Craven, room 208, Kemp & Kell Building. 52-1tr

City Tax Collector Robertson stated this morning that he was very much gratified at the total payments for street tax, which amount has far exceeded that of any previous year. He is trying very hard to get this matter closed up by the first of the month of which delinquents are expected to take notice.

On account of the aviation meeting our store will be closed Friday from 2 o'clock and remainder of the day. 63-2tc J. L. LEA, Jr.

LOT 2—400 pair of Edwin Clapp and Kahn's Special Oxfords to be sold for three days only at \$4.80. SEE OUR EIGHTH STREET WINDOW FOR HIGH GRADE SHOE BARGAINS. KAHN'S 725-727 Indiana Avenue.....

Byron, the three-year-old son of Mr. and Mrs. W. C. Heath tumbled from a second story window at his home, 1008 Travis avenue yesterday afternoon sustaining a fracture of his right wrist. The young man displayed remarkable pluck following the accident and is getting along nicely today. Mr. George Simmons has let the contract for a nine-room two-story residence at 1404 Broad street. Mr. Bardwell secured the contract at \$2000. E. G. Hin, undertaker, office and parlors 900 Scott Ave. Phone 225. Prompt ambulance service. J. B. Nicholson, whose farm is located one and a half miles east of the city, brought a wagon load of peaches to the city this morning and readily disposed of them at \$1.75 per bushel. They were of the Elberta variety, and as fine as can be grown. Mr. Nicholson has 250 trees in his orchard and says he will have no trouble in gathering and marketing at least 500 bushels. He has the thanks of the Times for a nice box of peaches. Dr. M. R. Garrison, Dentist; office First National Bank Bldg. Phone 49. Rev. W. M. E. Fisher of the Abilene district of the Church of the Nazarene will arrive here Friday night for services Saturday evening at eight o'clock at the corner of Seventh street and Indiana avenue. He will also conduct services at the church corner of Fifth and Bluff streets at 11 a. m. and 8:30 p. m. Sunday. At this visit of Rev. Fisher plans for the entertainment of the conference of the church of the Nazarene which will be held here soon will be discussed.

All street cars now stop on the south side of Seventh street in front of the store of W. B. McClurkin's store instead of crossing first heretofore. This concession has been granted by the traction company as an accommodation to the ladies and others who have business on Ohio between Seventh and Eighth and prefer to get off at the McClurkin corner rather than cross over and have to walk back across the street. The change will prove quite a popular one and many will appreciate the action of the company in complying with the request. FREEAR-BRIN FURNITURE CO. Undertakers and Embalmers JESSE DOLMAN (Graduate Licensed embalmer in charge.) Jay 'phone 136. Night 'phone 665-815 On account of the aviation meet our store will be closed Friday after 2 p. m. 64-1t. TREVATHAN BROS. In order that our employes may attend the aviation meeting our store will be closed at 2 p. m. Friday. HARDEMAN & ROBERTS. Rev. J. Marvin Culbreth, assistant secretary of Epworth League, Nashville, Tenn., arrived today. He will speak at Lakeshore Assembly at 9 o'clock tomorrow. A delegation of sixteen, headed by Rev. J. R. Wages, pastor of the Methodist Church, South, come in today from Bellevue, to attend the Lakeshore Assembly. Dr. G. C. Rankin spoke on "Sights and Scenes on Land and Sea" this afternoon. He captured his hearers with his pleasing wit and marvelous periods of description. One of the interesting diversions out at Lakeshore Assembly this afternoon is a base ball game between the North Texas and Northwest Texas Conferences. The preachers are in the line-up and a great game is expected. FREEAR-BRIN FURNITURE CO. Undertakers and Embalmers JESSE DOLMAN (Graduate Licensed embalmer in charge.) Jay 'phone 136. NO MOSQUITOS

A SLAP AT MISS KEETER...

When the summer sky is azure blue, when your heart is light and your love is true, when your sole idea of a joyous lark is a slender waist in a spot quite dark; when you have the place, the girl and that and you're sitting here for a quiet chat; can you recall in your young life of such unger deep, or a wrath so rife when with a fearful ire your arms you fling to anticipate the mosquitoes sting? When you scratch and thrash and slap and swear, and on claw and slash and he's not there. If you want relief invest a quarter, and Marchman's Skeeterine will complete the slaughter.—Mudyard Dipping. Don't get stung! See! Marchman's Skeeterine.

Marchman's Drug Store THE REXALL STORE 702 Indiana Ave. Phone 124. Free Delivery.

ALEXANDER ON STAND IN OWN BEHALF. Anson, July 27.—Dr. Alexander was a witness in his own defense here today. He said that in 1909 he had an anonymous report from Mineral Wells that his wife was seeing O'Neal too often. He said he accepted her explanation and shot at O'Neal in Abilene for Auto riding with Mrs. Alexander a year later, the latter holding his baby up preventing Alexander from firing until O'Neal was practically out of range. He said the letter which figured in yesterday's evidence caused the next and final trouble.

BUTTER. is an important item on the family grocery list. To always get it fresh and sweet is one of the hardest problems in this hot time. J. B. Evans and W. J. Hollingsworth enjoy the distinction of making the best butter in Wichita county, and their output always comes to us. We also handle the best creamery butter, thus insuring our customers the very best. SHERROD & CO. GROCERS. Phones 177 and 858. 811 Indiana Ave.
