WICHITA FALLS, TEXAS, MONDAY, AUGUST 21st, 1911

NUMBER 85

TRIP BY PRESIDENT TO WEST PLANNED

JOURNEY WILL BE ALMOST AS EXTENSIVE AS THAT MADE TWO YEARS AGO.

POLITICALLY IMPORTANT

Progressive Republicans, Who Will Oppose His Nomination Are to Receive Attention in Speeches.

Washington, D. C., Aug. 21.—Plans for President Taft's campaign trip through the West and to the Pacific coast practically were completed today. The journey will be almost as extensive as that taken by the President on his famous "swing around the circle" in 1903, when he traveled more than 13,000 miles and visited thirty-three States. He will break ground for the Panama Canal Exposition at San Francisco, make several scores of addresses and attempt to scale the 14,960 feet of Mount Rainier's precipitous height.

According to the present arrangement the President will be gone six weeks. In that time, it is expected he will make close to 200 speeches from platforms, from the rear end of his private car and at other places not on the regular schedule.

Republican leaders look upon the trip as the most important, politically. The President has mapped out since he entered the White House. He will go through all the States in the West in which is recognized the domination of the progressive Republicans, who are counted on to oppose his re-nomination next year.

Until the question of the adjournment of Congress was out of the way the President was undecided as to whether he should be gone three weeks or six. With adjournment practically assured for this week, the President feels that he can get three weeks' rest at Beverly and be in trim to stand the admittedly hard grind of forty days in a private car.

The President probably will leave Beverly Sept. 17, returning East about Nov. 1. He will go west through Iowa, Kansas, Nebraska, Colorado and Nevada to the coast. Most of the big cities in these States, including Des Moines, Kansas City, Omaha, Denver and Salt Lake, will be visited, but the plans for the trip contemplate stops at scores of smaller places as well. From California the President will go north to Portland and Seattle. Three days are to be spent in Washington State and the route eastward will allow him to stop in Idaho, Montana, the Dakotas and Minnesota.

While no "spell binders" are to be taken along, it is possible members of the Cabinet or Congressmen will become traveling companions of the President at various points en route. Topics for the President's addresses will not be hard to find, the party lead says.

President Taft went looking for an open church yesterday and had a hard time finding one. With Secretary of War Stimson and Major Butt, both members of the White House bachelor colony at present, the President started out yesterday about 11 o'clock. They strolled through Lafayette Square and up Fourteenth street to the church where the President usually attends. The doors were closed.

"We'll have to go over to Mrs. Taft's church, I guess," said the President.

Back they walked to K street, just across Lafayette Square from the White House, to the church where Mrs. Taft worships when she is in Washington. It also was closed, and the trip finally turned in the direction of the Church of the Epiphany.

Services were in progress and usher in a few minutes found seats for the three.

Many of Washington's prominent churches hold but one service each Sunday during the hot months. In such churches the service is usually held at night. The President had for gotten the custom yesterday when he started out.

LEAGUE WILL CLOSE SEASON WEDNESDAY

REMAINDER OF GAMES SCHEDULED IN TEXAS-OKLAHOMA LEAGUE WILL NOT BE PLAYED

THE PENANT SERIES

Will Start at Cleburne Thursday—Three Games Will Be Played Here Beginning Sunday.

With Wednesday's games the season of the Texas-Oklahoma League will be brought to a close and the remainder of the games scheduled will not be played.

This decision was reached at a conference in Fort Worth Saturday between President St. Clair and the managers of the teams now comprising the league.

Cleburne, which will finish at the head of the percentage column in the second period and Wichita Falls which finished first in the first series will play a post-season series of six games immediately upon the close of the schedule. Three games will be played in Cleburne and three in Wichita Falls and in case of a tie some neutral city possibly Fort Worth or Dallas will be chosen for the deciding game.

The Wichita Falls and Cleburne players will leave here Wednesday night for Cleburne and the first game of the pennant series, will be played there on Thursday afternoon. Games will follow on Friday and Saturday and on Sunday, Monday and Tuesday the games will be played in Wichita Falls.

The Wichita Falls team will disband immediately after the pennant series and no post-season exhibition games will be played. Morris and Witherspoon will immediately go to work for cotton firms and several other of the players have good jobs awaiting them.

It is practically certain that the league will be in existence again next season and it is probable that several other good north Texas towns will come in next season. None of the teams have been a success in a financial way but the league has put up an exceptionally good article of ball for an organization of its class.

ACCIDENT IN THE ELECTRA OIL FIELD

Arthur Madden, a driller employed in the Electra field by the Clayco Company was painfully injured this morning when a long section of pipe which was being put in a well was set upon one of his feet, mashing several of his toes. The injured man was brought to this city and placed in the Wichita Falls Sanitarium.

BEATTY ON TRIAL FOR WIFE MURDER

Defense Motion For Continuance Overruled—Seven Jurors Secured Before Noon Recess.

By Associated Press. Chesterfield, Va., Aug. 21.—Henry Clay Beatty, Jr., was brought into Judge Watson's court at ten o'clock this morning to answer a charge of murdering his wife. When the clerk formally called the case the attorney for the defense asked a further delay till August 28th on the ground that the defense was not ready for trial. The court denied the plea for delay but said the matter of a continuance might be considered later. The defense moved that the indictment be quashed on the grounds of error. This was overruled. Beatty was then arraigned and pleaded not guilty.

Shortly after eleven o'clock the task of securing a jury began. After securing seven jurors, court adjourned for the noon recess.

Work is being pushed on the railroad leading from Brownwood to May, Texas, and the owners of the road announce that it will be completed by the first of October.

View from a 1600 Barrel Oil Tank at Electra

Only one of the wells at Electra flows a steady stream. Twenty-five acres on the production of that well are not obtainable, but it is known its production exceeds 1600 barrels every twenty-four hours.

Other wells in the field flow at intervals varying from twenty to fifty minutes, the period of the flow being from ten to twenty minutes.

When the head is at its fullest the front rises almost to the top of the tank which shakes as if it would come to pieces. The man who can stand on the cover of the tank at this time has more than ordinary nerve.

4 INCHES RAINFALL 20 BUSHEL WHEAT

Secretary Burns of Dry Farming Congress Believes Farmers Will Overcome Drouth.

Colorado Springs, Colo., Aug. 21.—Farmers of the United States needlessly threw away 8,896,000 bushels of winter wheat this year, not to mention an enormous loss in other farm products, simply because they failed to prepare against drouth by taking steps to keep moisture in the soil.

This is the declaration of Secretary John T. Burns of the International Dry Farming Congress, who is now preparing to conduct the Sixth Congress which meets in this city next October.

Mr. Burns had just read the report of the United States Department of Agriculture for August, showing that loss under the 1911 crop. Before him lay a sheaf of wheat raised by J. M. Bradshaw of Peyton, Colo., who has just threshed an average of 20 bushels per acre from 100 acres, patches in which ran as high as 57 bushels. On the Bradshaw land only four inches of moisture fell from the time this wheat was planted, September 2, to the day it was cut, July 15, and there is not a live stream in 25 miles. This land was summer tilled, and is carefully cultivated and the weeds kept down the summer before it was planted.

This is one of the tenets of scientific dry farming as taught by the Congress. It is applicable to every part of the land, says Mr. Burns. The average of all wheat in the United States according to the government is only 14.5 bushels, and the quality is 92 as against 92.6 last year. So there is nothing wrong with the 1911 wheat but lack of moisture.

"Every farmer in the land could have done as Mr. Bradshaw did with his little four inches of rainfall, had he been intelligent enough to study dry farming methods and willing to do the necessary work," declares Mr. Burns. "Some day they will prepare to meet drouth as they do all other adverse phenomena of nature, and overcome it, too."

His Bond \$1500.

By Associated Press. Dallas, Texas, Aug. 21.—Frank P. Tibbs of Caddo Mills, was placed under a \$1500 bond this morning on a charge of conducting an illicit still.

Crazed From Heat.

By Associated Press. Gainesville, Texas, Aug. 21.—A. P. Russell, aged 26, last night shot and killed his seven-year-old son and then blew out his own brains. It is believed he was crazed from the heat, which yesterday reached 111 degrees.

MANY CASES DISMISSED IN COUNTY COURT

The county court criminal docket was cleared of a large number of cases this morning on motions for dismissal by the county attorney on account of lack of evidence, inability to find witnesses and other causes.

A non jury case may be tried this afternoon and the docket will again be called tomorrow morning.

The following orders were entered this morning: State vs. Rose Franklin, keeping a bawdy house, dismissed on motion of county attorney.

State vs. Dave Ward, theft, dismissed on motion county attorney.

State vs. Rose Cato, dismissed motion county attorney.

State vs. May Howard alias May Miller, keeping bawdy house; dismissed.

State vs. Sarah Humphries and Rose Franklin, keeping bawdy house; dismissed motion county attorney.

State vs. G. M. Linton, selling liquor without license, dismissed motion county attorney.

State vs. Royal Hopkins, set for Wednesday.

State vs. Harvey Strong, set for Wednesday.

State vs. Wray Clark, dismissed motion county attorney.

State vs. Geneva Keys, dismissed.

State vs. Charles Shubert, theft; retired from docket on motion of county attorney.

State vs. Jim Jones, dismissed on motion of county attorney.

State vs. I. J. Galloway, selling liquor to a minor, dismissed on motion county attorney.

State vs. Myrtle Bryant, unlawfully selling liquor, retired from docket.

State vs. Elbe Allen, theft; dismissed.

State vs. Robt. Church, carrying pistol; dismissed on motion county attorney.

State vs. Dale Church, carrying pistol; dismissed on motion of county attorney.

State vs. Jess Mosely, theft; dismissed on motion county attorney.

State vs. McMullen, indecent language; dismissed motion county attorney.

State vs. R. H. Lyon, gaming set for Sept. 11.

State vs. J. H. Foster, gaming, set for Thursday.

State vs. A. Humphries, gaming, defendant plead guilty and fined \$5.

PROMISE NO RELIEF FROM EXTREME HEAT

Justice peace court, set for Friday. State vs. Frank Davidson, appealed from justice peace court; set for Friday.

State vs. Iven Munnato, unlawful sale of liquor; dismissed.

State vs. Jack Kalkeman; dismissed.

State vs. Raymond Smith, dismissed.

State vs. Roy Steed, dismissed.

State vs. Iven Munnato, unlawful sale of liquor; dismissed.

State vs. Raymond Smith, dismissed.

State vs. Roy Steed, dismissed.

PROMISE NO RELIEF FROM EXTREME HEAT

Washington, D. C., Aug. 21.—There are no indications of extreme changes in the temperature the coming week. A disturbance, which is now over the Northwest, probably will move eastward, accompanied by showers. The weather bureau in its weekly weather bulletin, issued last night says:

"Fair weather with moderate temperatures will continue Monday and Tuesday in the lower lake region, the middle Atlantic states and New England. A disturbance now over the Northwest will move eastward, preceded and attended by showers and rising temperature that will cover the Northwest and the central plains states Monday and Tuesday, with showers continuing Tuesday in the latter district; the Missouri and upper Mississippi valleys and the upper lake region by Tuesday, reaching the middle Atlantic states and New England Wednesday and Thursday. The disturbance will be followed by a high area now on the north Pacific coast, bringing with it falling temperatures that will reach the northwestern states Monday and Monday night, the great central valleys and the upper lake region Tuesday or Wednesday and the eastern portion of the country Thursday and Friday.

"Generally fair weather will prevail after Wednesday in the Central West and after Tuesday in the extreme West, except in the central and southern Rock mountain region, where local showers are probable. In the South Atlantic and East Gulf states the weather will be generally fair."

The Producer's Company is entering the oil sands in another well on the Stringer lease also one on the Wagoner lease across the railroad.

Showings indicate good flows in both of these wells.

Benson, Little and Bell have staked out a location and are putting material on the ground for a well on the Douglass tract. They expect soon to start other wells near Wichita Falls.

The Fort Worth & Denver is extending its switch to the Electra Machine and Supply Company's plant adding several hundred yards of trackage which is constantly kept full of cars loaded with rigs and material waiting to be unloaded.

Many new operators have come in to the field within the past two or three days.

Normal Service Restored.

By Associated Press. London, Aug. 21.—The House spent the most of the day considering the text book bill. Several amendments were adopted. The Senate is also considering the same bill today.

By Associated Press. London, Aug. 21.—The House rapidly restoring their normal services today and it is confidently expected by this evening that all lines will be operating smoothly. There are a few hitches but they are believed to be only temporary. The settlement was brought about Saturday evening through the good offices of the government and the board of trades.

By Associated Press. Washington, D. C., Aug. 21.—Speaker Clark at noon today expressed a belief that congress will adjourn tonight.

Congress May Adjourn Tonight.

GOVERNOR'S SON BEFORE PROBERS

HE SAID NO PROMISES WERE MADE TO ANY MAN FOR SUPPORTING HIS FATHER.

FORMER ANTI DISGUSTED

After Associating With Antis 25 Years Caldwell County Man Quit Them.

By Associated Press. Austin, Texas, Aug. 21.—R. M. Colquitt, a son of Governor O. B. Colquitt, appeared before the House investigation committee this morning. He testified that he acted as chairman of the speakers bureau of the antis and said he had charge of the speakers in the field, but knew nothing of the compensation they received. He said "at no time during the gubernatorial campaign was any man or set of men made promises whatsoever for any contribution or for support to my father for Governor."

"I have associated with them 25 years and finally became disgusted and quit them," was the manner in which Lex Beattie, of Caldwell county, expressed himself concerning the antis.

Walter Gresham appeared before the Senate investigating committee today. The Galveston man declined to answer a large percentage of the questions. He said he received no reimbursement from the liquor interests for three or four years he has been working against prohibition as a free lance, not being connected with any organization.

L. T. Dashiell, former secretary of state admitted on the stand this morning that he received compensation for speeches made during the campaign, but refused to say how much. The checks he said were signed by Jake Wolters.

ANOTHER GOOD WELL AT ELECTRA

By Associated Press. Electra, Texas, Aug. 21.—The Electra Oil and Gas Company an Indiana corporation brought in a good flowing well on the Douglass lease Sunday morning. The well is doing between 300 and 400 barrels a day. The flow was struck at a depth of less than 1000 feet. This company will at once put down two more wells on its lease in the proven territory.

The Producer's Company is entering the oil sands in another well on the Stringer lease also one on the Wagoner lease across the railroad.

Showings indicate good flows in both of these wells.

Benson, Little and Bell have staked out a location and are putting material on the ground for a well on the Douglass tract. They expect soon to start other wells near Wichita Falls.

LOVE LETTER TO COL. NED GREEN

TEXAS RAILROAD MAGNATE GETS MATRIMONIAL PROPOSAL FROM WIDOW OF 43

SHE HAS A GOOD FIGURE

Other Missives Indicate That There Are Many Tall Ones With "Good Figures."

New York, Aug. 21.—Colonel E. R. H. Green, son of Mrs. Hetty Green, received today a letter on "dainty" robin's egg blue paper, fastened with red wax, bearing the imprint of a smart seal and reading as follows:

"Chapman Colminton London, S. W. England, Aug. 19, 1911.—Dear Colonel Green: You say you wish to be married for yourself alone. Well, I will marry you, if you will ask me to for yourself alone, as I think you must be a dear, good man to make that promise to your mother and keep it. I am sure you would make a nice husband.

"I am a widow, aged 43, and my dear husband died fourteen months ago from an attack of appendicitis. He was taken from me so suddenly after seven years of happy married life, and I feel so very lonely and miss him so, and do so want some one to care for, I have only two only brothers and a sister. My family are highly respectable and my two brothers are business men in the city of London. If you would care to write to me I would be pleased to receive and reply to your letter. Hoping to hear from you if this should reach you, I remain, yours very faithfully,

"Liella Crutchers.

"I am tall and fair and considered good looking and have a good figure." Colonel Green says his mail for the past week has consisted mainly of letters of proposal and he has begun to think the world is inhabited by almost no one else than beautiful women, tall and of good figure. The only difference between them is that some of them are blondes and the others are dark.

SECOND SURVEY TO CHEYENNE

Cheyenne, Okla., Aug. 21.—The surveying party of the W. F. & N. W. from Hammon reached Cheyenne Tuesday. The survey just made follows closely trails the C. O. & W. route which was made last year.

Two more lines will be run between these places before the actual construction work is commenced.

The civil engineers lost no time in starting on their second survey. When the line was completed into the city limits they turned back to Hammon working hard to find a route with less grade than the one just finished. When they reach Hammon the official of the road will make a proposition and if accepted the permanent survey will be made and work will commence at once.

The present outlook is that Cheyenne will have at least two railroads by spring. The Oklahoma Pacific railway company have signed a contract with our commercial club to have their road in operation by May 1, 1912. While there is no actual work being done on the road at this time, the officials of the company are in the East arranging the financial end of the deal. It is generally thought that the work will begin in earnest in a very short time.

NEGRO PYTHIANS IN INDIANAPOLIS

Indianapolis, Ind., Aug. 21.—Upwards of 30,000 visitors are in Indianapolis to take part in the world's meeting of the supreme lodge of the colored Knights of Pythias and the national encampment of the Uniform Rank, which will hold forth here this week. Booker T. Washington is scheduled to address the gathering tomorrow.

YOUNG COUNTY IS AGITATING A BOND ISSUE FOR \$100,000 TO BUILD GOOD ROADS.

Roberts' Mineral Water is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jars or cases. This well is located one mile north of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Roberts, Owner. Phone 1691—1 long—3 shorts.

AN OIL MAN'S VIEW OF THE ELECTRA FIELD

If the wells now being drilled several miles out in different directions from Electra come in with a good production there will be the greatest rush of oil men to this place ever known in the history of any oil field.

This is predicted by the Oil and Gas Journal and other publications devoted to the oil business from the fact that there is not now another promising new field in the United States.

The Oil and Gas Journal last week devoted considerable space to the developments at Electra. Although several of the wells named have since been "drifted" in and are among the heaviest producers of the field and the production has been doubled since the following from the Journal was written it will be of interest as it comes from an experienced oil man:

"The following interesting letter written by Mr. Bert Leonard, formerly of Pittsburg, Pa., who spent several months in this city and who is at present located at Wichita Falls, gives a general idea regarding operations in the Electra oil field of Texas. Mr. Leonard has given the field careful study. He is familiar with the oil business and his observations can be thoroughly relied upon:

"The Electra field, 26 miles from Wichita Falls, looks very promising. Oil has been found in six or more sands from depths of 50 to 1,900 feet. The main sands seem to lie at about 740, 820 and 1,900 feet. The question of drilling with rotary or cable tools is not satisfactorily settled yet. There is some caviting. Cable tools generally have in addition, a draw, outfit for landing casing. The California calf wheel is not yet in use; objection on part of some to rotary is that unless one can rely on watchfulness of drill-er it is hard to tell what formation is being gone through, and whether an oil showing is worth examining or escape notice altogether.

"About six small tank cars of oil go out per day, representing the production of three wells of the Clayco Oil Company on Woodruff Nos. 1, 2 and 3, No. 1 being the well which in reality created the field, although oil had been found on the town site about ten years ago, while drilling for water, and the Texas Company had later taken a lease on the Waggoner ranch of over 900,000 acres and put down eight or more wells. No. 1 of the 'layco lies about one and one-half miles northeast of the Texas Company's wells. It came in at 1,630 feet and flowed for months at better than 50 barrels a day, and is still doing about 200 barrels. The next well, No. 2, stopped at 640 feet and is rated at 100 barrels flowing. The Texas Company drilled the next well on the Stringer ranch, about 700 feet west of the Clayco No. 1, and at 1,580 feet reported a good well flowing or, rather spraying. Clayco No. 3 came in about two weeks ago at 1,900 feet, after having gone through the other sands without satisfactory results. It was considered a failure until it reached this depth. It started off at better than 1,000 barrels and now flows steadily 1,200 barrels per day. It is believed this is the sand in which most of the old Texas wells got their oil. These old wells have not been producing much—it's hard to say whether they are good or just small wells, and so far reported were from 10 to 30 feet thick, so far as I can learn and they dip north. Don't know the depth of the 1,900 foot sand.

"This week a well just north of the Clayco Company is showing a lot of gas and has already encountered oil less than 900 feet. To the east of the 'layco the Gilchrist, or Indiana well showed for a 50 barrel producer at 140 feet, and is now 920 feet, pumping and flowing 100 barrels a day. On the Stringer the Texas Company has one or two new producers. So far the field has not been extended, but the Gilchrist well gives good encouragement. There are, perhaps, a dozen wells drilling, over a half of them being in the same little area of development stuff lying along the Stringer and Woodruff line. There is 1 drilling about 4 miles north of east of Electra, called the Honaker; 2 about 4 miles north of town and 1 ready to start 6 or 7 miles west.

"The oil is a light green, said to be 12 per cent and better than the Bradford oil. It brings 55 cents. As prices for land go in the Mid-Continent field they are high here, \$2 per acre and \$1 to \$2 per acre rental being paid for stuff 10 or 12 miles from the field. Oil indications are plentiful and through this stretch of country from the old Petrolia field through north of Iowa Park to Electra and even to Vernon. The past week has been bringing in the oil men from Illinois and Oklahoma and the game is now on in earnest."

Exceptional Buying Chances Monday and Tuesday

IT'S USELESS TO LOOK FURTHER than this store for underpriced bargains in hot weather fabrics and ready-to-wear garments, for you'll not find them in this town. Read over this list of genuine reductions, and don't fail to attend this sale Monday and Tuesday.

THE BIG BUSY STORE

FOUR POINTS TO BE CONSIDERED

There are four points that should be considered in selecting a school to attend.

First: The school's financial standing, for the student does not want to attend a school today that will pass out of existence tomorrow. The Tyler Commercial College of Tyler, Texas, has a paid in capital and surplus of over \$60,000.00. It is owned and operated by men who have proven themselves successful business men.

Second: The moral surroundings. Our teachers, twenty in number, are ladies and gentlemen of the very highest character. We look after our students while in school, we encourage them in honesty and uprightness.

Third: The systems and methods used. We use the famous Byrne systems of Shorthand and Book-keeping, which enables us to turn out a better book-keeper or stenographer in half the time and at half the cost of other schools teaching other systems. We have the exclusive control of these systems in this state. Therefore, the Byrne systems are a case of "sour grapes" to our competitors. The fact that we turn out better stenographers in three months than they can in six, should interest the prospective student. Read our catalog; see the endorsements from hundreds of students and business men.

Fourth: Our ability to place you in a good position with a responsible firm. We realize that if we hope to succeed, our students must succeed; the greater their success, the greater our success. Other schools haven't the advantages of our most modern systems, therefore it is utterly impossible for them to make a good stenographer or book-keeper of you in as short a time as we can. Write for free catalogue. Tyler Commercial College, Tyler, Texas. 85-11c

Navarro county has added a modern up-to-date traction engine to her road building outfit.

The Haskell Broom-Factory shipped last week 7,628 brooms of its own manufacture. The shipment was made to El Paso firms.

BAKED BEANS ARE SO CONVENIENT

So often, especially these hot days when any cooking is a burden, it does sorely puzzle the best of housekeepers to keep the table well supplied with plenty of wholesome, economical and appetizing food without simply "wearing one's self out in the effort."

But literally hundreds of women are learning the convenience and value of the Campbell's Beans.

Notice we say baked beans. Campbell's beans are really baked in the old fashioned way and as a result they can be served more often than any other brand of beans without becoming monotonous. Campbell's beans go better cold than any other brand—that means added convenience and economy.

She Eloped With a Chaffeur

Mrs. John Paul Geraughty, the beautiful and wealthy society young woman of New York and Toledo, formerly Miss Julie Steele French, who eloped with her youthful husband, who is a Newport chaffeur. It was one of the most spectacular episodes of the Newport season. Mrs. Geraughty is a relative of the Vanderbilts, being the niece of Mrs. Elsie French Vanderbilt, former wife of Alfred Dwyane Vanderbilt. When the news of the elopement began to get around the relatives of the young woman started out in search of the couple and telegraphed to all points where they would be likely to go, in the effort to stop them.

...Hysteria a Disease...

By Gordon Lloyd, M. D.

Most protean of all diseases is hysteria. Indeed, this grave malady takes on so many and such variable shapes that we might well dub it the phantom of diseases, and it may often lead the physician into error by virtue of its remarkable similarity to this or that other disease. It may mimic neurasthenia, paralysis, organic brain disease, blindness, deafness and many other disorders.

A widespread misconception concerning this disease is the belief that it is trivial and due to a sort of perverseness on the part of the sufferer. Nothing could be further from the facts. The hysteria is a grave disorder, capable of producing death; and it is in no sense dependent on willful perversity or petty meanness. It is a disordered condition of the mental processes, just as in the case of mania or melancholia.

Hysteria is much more common than is generally supposed. Moreover, it is not confined to women by any means nor to any age or period of life. It is most common, however, in young women.

Among the more striking symptoms are excitability, involuntary crying or

laughing, severe neuralgias, contraction of the field of vision, loss of sensation in certain parts and areas of the body, tenderness along the spine, contraction of one or more muscles, a choking sensation in the throat, and occasional spells of convulsions. Also subjects are very susceptible to "suggestion," and often psychic suggestion proves to be the most effective treatment now and then achieving seemingly miraculous cures.

A good authority says that hypnosis should never, under any circumstances, be employed in the treatment of hysteria. Hypnotism is totally different and distinct from "suggestion."

Inherited instability of nerves plus a shock is the usual causal combination in hysteria. Few, if any, drugs are of use in the treatment of this disease. Rest, change of environment, careful nursing, nourishing diet and firm, though kindly, supervision are the best measures. Massage, electrical treatment and scientific baths are often quite effective adjuncts. But probably change of scene and "suggestion" are the two most essential elements of treatment.

EAGLE CONVENTION OPENS AT 'FRISCO

San Francisco, Cal., Aug. 21.—"The Best Ever" is the slogan of the great convention opened in this city today by the Fraternal Order of Eagles. Tens of thousands of visitors are here from cities and towns in every part of the United States and Canada and the prediction that the attendance would establish a new high record has been fulfilled.

By common consent the people of San Francisco have decided to make the convention the occasion for a seven-day carnival. The business section of the city is gayly decorated with flags and bunting and the emblems of the order. Business will be largely suspended until the screaming Eagles have furred their wings and flown to their far-away homes. For the present it is mirth and music by day and music and mirth by night.

Street pageants, barbecues, balls and other features of entertainment are to follow one another in rapid succession. The festivities are to be entirely Californian in spirit, the pageantry and special events being of the pioneer days of '49, with the vivid descriptions of Bret Harte as the setting. "Roaring Camp," immortalized by the famous writer, has been established as one of the big-features of the carnival.

But it would be a big mistake to imagine that there is no work to be done during the week. Senator T. F. Grady of New York is to retire from the office of grand-president and the choice of his successor has started a

South Bend, Ind., J. J. Cusack of San Francisco and several others are mentioned for the head of the order. Another contest has developed for the office of grand secretary to succeed Conrad H. Mann, who is retiring from the office after a service of many years.

Apart from the election of officers and other routine business, the convention will be called upon to deal with several radical measures which if passed will have an important effect upon the future of the order. The first of these new measures will deal with the matter of age limit and is designed to bring an army of young men into the order. There is a strong feeling that the age limit should be set at 18 years, and there are said to be thousands of youths throughout the United States and Canada, who are awaiting the decision of the grand body so that they may be initiated. Another important matter to be considered is the proposal to institute a women's auxiliary to the Eagles.

Loyal Order of Moose

Oetroit, Mich., Aug. 21.—With an attendance of thousands of delegates from all over the United States and Canada, the annual grand lodge convention of the Loyal Order of Moose met in Detroit today for a five days' session. Edmund E. Tamm of Columbus, Ohio, supreme dictator of the order, presided at the opening session this morning. Officers for the ensuing year will be elected tomorrow. The convention parade will take place Wednesday night.

I will open a private school Sept. 11th. Primary work a specialty, same books and course of study as used in public school. For further information call on Mrs. A. J. Miller at 708 Lamar

PEN USERS HARD HIT BY GOVERNOR

Chief Executive Says Naughty Things About Newspaper Men.

Columbia, S. C., Aug. 21.—"I'm governor, the skunks who use pens for the newspapers to the contrary notwithstanding."

This is one of the dignified statements which Governor Cole L. Blease makes in a letter published today denying he was discourteous to Miss Rogers, ticket agent of the Southern Railway at Belton, this state.

J. A. Willis, editor of the Times, which published the story, is a member of the legislature. His attorney L. L. Rice, said today that Mr. Willis plans to bring impeachment proceedings against the governor.

It is charged that while one hundred persons were waiting to buy tickets for a train which left in ten minutes, Gov. Blease approached Miss Rogers and asked her to exchange mileage for a train which left fifty-five minutes later. Miss Rogers asked him to wait until she had attended to the others.

According to the Belton Times, the governor straightened up "and in a most insulting manner informed Miss Rogers that she must know who she was talking to." He further informed her: "I am Cole Blease, the governor of South Carolina. I've got a right to buy a ticket any time I call for it and you've got to sell to me." According to the Times the governor added:

"I'll write about you to the superintendent of your pld road, which I would not ride on if I did not have to."

In his letter Governor Blease declares he told Miss Rogers who he was so that he could call her as a witness if he decided to sue the railroad for damages.

"Some people will hear from this dirty transaction later," writes the governor. He has summarily revoked the commissions of three notaries public, James M. Alexander, J. H. Merritt and John A. Horton, Mr. Alexander having made an affidavit supporting the charges and the two others having attested to similar affidavits.

Laundrymen Seek Public Favor. St. Paul, Aug. 21.—Plans for a nation-wide advertising campaign to remove, if possible, from the public mind some popular prejudices against laundry methods are to be discussed at the annual convention of the National Laundrymen's Association which began in this city today. The convention is attended by members from all sections of the country and by representatives of all the industries connected with the laundry business.

Montreal Welcomes Togo.

Montreal, Aug. 21.—Admiral Togo received a cordial welcome upon his arrival in Montreal this morning. He was the guest of the Canadian Club at a luncheon given at the Sailors' Institute and later in the day was tendered a civic reception. Tonight the distinguished Japanese naval commander departs for Vancouver.

Life is Smooth Sailing
After You Have Saved Your Money and Put it in the Bank
Debt is A TERRIBLE MASTER. Debt comes often from unsafe speculation. Instead of listening to the get-rich-quick talk of some smooth stranger, who promises the impossible result of doubling your money in a short while, take banker's advice: **PLAY SAFE**—bank your money until some good business chance comes **RIGHT HERE AT HOME** where you can **ATTEND TO YOUR OWN BUSINESS**. THEN life will soon be smooth sailing.
Let OUR Bank be YOUR Bank.

305 305

Wichita Falls, Texas, August 19, 1911.

"THIS DATE IN HISTORY,"

August 21.

- 1762—Milwaukee visited by Lieut. James Gorrell of the 80th Royal American regiment, stationed at Mackinaw.
- 1763—Richard Ward, colonial governor of Rhode Island, died. Born April 15, 1689.
- 1785—Continental army under Gen. Montgomery arrived at Fort Ticonderoga.
- 1866—Hamburg joined North German Confederation.
- 1902—Gen. Franz Sigel, a noted Union commander of the civil war, died in New York. Born in Baden, on Nov. 18, 1824.
- 1910—A decisive battle was won by the revolutionists in Nicaragua.

And now the people of Wills Point and Van Zandt county are petitioning floral Representative Clarence Gilmore to become a candidate for governor in 1912.

So far, in every instance, where Attorney General Jewell P. Lightfoot and Governor O. B. Colquitt, have clashed on a question of law, the courts of Texas have sustained Lightfoot. Further comment is unnecessary.

October 28th has been designated as the day Governor Woodrow Wilson of New Jersey, will address the Democrats of Texas at the Dallas State Fair. Governor Wilson has accepted the invitation as tendered by the Woodrow Wilson State Democratic League.

While The Times favor the nomination of Dr. Woodrow Wilson for the Democratic presidential nomination, it recognizes in Gov. Harmon of Ohio, an able man—one whose popularity was great enough to overcome a normal Republican majority of about 50,000, defeating for governor one of the most able and popular men the Republican party could nominate. Harmon was elected governor of Ohio on a platform that pledged that all property should be assessed for taxation at its true value, and he carried out the pledge of his party platform in that respect, at least. As an evidence of this fact, the State Tax Commission appointed by Gov. Harmon in 1911 increased the appraisement of Ohio railroads for taxation from \$82,178,041 to \$427,777,890, showing an increase of \$345,599,849. In doing this no injustice was done the railroad interests. They were simply required to stand their just and proportionate share of tax to sustain the State government. Gov. Campbell of Texas, succeeded in making his two administrations unpopular because he insisted on the full rendition law being enforced, but the opposition was so strong that but little attention was paid to the law in most counties of the State. But it is different in Ohio, and Harmon has made himself so popular that even here in Texas some of the great daily papers that have never neglected an opportunity to hit Gov. Campbell below the belt for attempting to enforce the full rendition law, are now singing the praises of Gov. Harmon as a Democratic presidential candidate. Gov. Campbell was also condemned for sending the Ranger force to certain portions of Texas to enforce the State law in instances where public sentiment was against such law, and

yet Gov. Harmon did the same thing, only he sent men from the State capital of Ohio to take complete charge of the city and county government in an instance where both the city and county officials refused to enforce State laws. It is these things that come us to wonder why the Fort Worth Record and Houston Post can see so little good in ex-Governor Campbell of Texas; and so much that is commendable in the record of Gov. Harmon of Ohio.

WHY THE WIND BLOWS.

The Astronomer Royal of England Says It is Due to Heat and Gravitation.

Astronomers and other scientists have not yet succeeded in ascertaining just how far the atmosphere of our earth extends above the land and the sea on which it rests, but some of them hope to some day soon. The astronomer royal of England, who has completed his report for the fiscal year ending May 10, tells some very interesting things about the varying densities, altitudes and temperatures of the air cushions, air pockets and air currents surrounding the earth. In reference to air currents and the reasons why the wind blows the report explains that air consists of gaseous particles, all trying to get away from one another, and that, under certain conditions, they can be compelled to come closer together by contraction, or forced to fly further apart by expansion. A quart bottle for example, holds twenty-two grains of air at the temperature of 70 degrees. If the bottle be cooled by surrounding it with ice, the air inside contracts. When this occurs, more air rushes in through the bottle's neck. The quart of air now weighs more than twenty-two grains. If the bottle be heated, the air it contains expands; its tiny particles fly further asunder and many of them escape from the bottle altogether. There is still a quart of air, but it weighs much less than the original twenty-two grains.

Now, consider the earth and the sea under the influence of varying degrees of the sun's heat. Where the heat is greatest, the air is made lighter, and expands. Where the heat is least, the air is unexpanded, and heavy. Letter to T. L. TOLAND, Wichita Falls, Texas. Dear Sir: Will you give your Arithmetic class—and Algebra class—this problem? If average paint is worth \$1.60 a gallon, and goes two-thirds as far as Devos, and wears half as long, what is Devos worth put on painters' wages being \$3.50 a day and a day's work a gallon of paint. The answer is \$11.80, but don't tell 'em that. Yours truly, F. W. DEVOE & CO. E. R. McClendon sells our paint. We write Fire Insurance (good for this world only, and write it right, see H. J. Bachman, Fire Insurance and Real Estate, 722 Ohio avenue, Phone 157. Stockholders Meeting. Notice is hereby given that the annual meeting of stockholders of the Frear-Bris Furniture Co. will be held on Tuesday, Sept. 12th 1911, at 8 p. m. at the office of the company in Wichita Falls, Texas, for the purpose of the election of a Board of Directors and the transaction of such other business as may properly come before it. W. A. FREAR, Secretary-Treasurer. Wichita Falls, Tex., Aug. 16, 1911. \$1-ood.112 Winona Bible Conference. "Warsaw, Ind., Aug. 21.—Rev. "Billy" Sunday, Dr. G. L. Robinson of McCormick Theological Seminary, and Dr. John Timothy Stone of Chicago, are among the well known religious workers on the program of the annual young men's Bible conference which opened at Winona Lake today. The conference will continue until August 30.

STEERING COMMITTEE GOES TO AUSTIN

Dr. J. M. Bell, J. B. Marlow and N. Henderson, the committee appointed to visit Austin in the interest of a special road law, left for that city yesterday for the purpose of presenting the matter to the governor today with a request that he submit the same to the legislature. That the governor would respond readily to such a request was intimated in a telegram published in The Times of Saturday in which Judge Edgar Scurry wired to Wiley Blair that such assurance had been given by Mr. Colquitt. It was expected that the governor would submit the question today and that the measure would at once be introduced in the house and senate and referred to the respective committees in order that a report may be had before next Monday which is the day set apart for the passage of all local bills.

Constable Tom Pickett arrested M. E. Roark Saturday at Collinsville and returned with him to this city where he was placed in jail. Roark is charged with securing money on bad checks at this place some time ago and a reward of \$50 was offered for his arrest.

AMUSEMENTS.

Black face comedy and straight singing and dancing is the bill at the Lamar Airdome tonight. The Two Hoys are the attraction and the press reports speak of them as being among the top liners. Mrs. Hoey's song "Why Don't You Be a Man Like Your Dad?" dedicated to the Elks, is a distinct hit wherever it is heard and especially appreciated by the boys of the B. P. O. E.

There is also three good pictures at the Lamar tonight, making a very entertaining program all around.

Dramatic productions in home pathic roles is the program at the Colonial Theatre tonight, and those who want to see the plays boiled down to the real sentiment should be sure to attend. Russell and Davis are the headliners, producing the eccentric comedy "The Substitute," and the well known drama "The Awakening." In addition to this there is three reels of pictures and a good vaudeville number as well as a new illustrated song. The Russell-Davis Company is one of the best attractions now playing in the Southwest. For many years they played in the standard productions, playing all of the big cities. As a novelty they determined to try the miniature plays in vaudeville and everywhere they have shown they have made a hit. Owing to the length of the program tonight there will be only one performance, the curtain to rise at 8 o'clock. The price is just the same as at the ordinary performance.

The first American Merchant Ship to pass through Panama Canal will contain goods manufactured in Texas.—The Texas Commercial Secretaries' and Business Men's Association is planning the project.

The International & Great Northern Railway is having repairing and building sheds constructed at Taylor, which will be the largest sheds in Texas, being 55 feet wide and 648 feet in length.

Ground has been broken on the Girls' Dormitory of Trinity University at Waxahachie. The new building is to cost fifty thousand dollars.

Sherman has raised \$10,000 for preliminary work on the Paris-Sherman interurban. Paris will raise a like sum and intervening towns the remaining \$20,000.

The pike between Waxahachie and Midlothian is being finished rapidly. More than thirty wagons are being used to haul gravel for the road.

The Clay County Cotton Oil Company of Heagletta, filed its charter with the Secretary of State last week. W. B. Worsham, J. B. Dale and J. T. Dale are incorporators and the concern has a capital stock of \$67,000.

Texas Boy Held Blameless. By Associated Press. New York, Aug. 21.—The coroner's jury held blameless James Cullen Henderson, the San Antonio boy, who was held for the death of Mrs. Ross Macheode, a news woman. Several witnesses corroborated Henderson's story that he dropped the pistol accidentally and it was fired when it struck the pavement.

The re-organized I. & G. N. Railway Company of Houston, has filed its charter with the Secretary of State with a certified capital of \$11,600,000.

WEBSTER

ON THE INTERURBAN
MIDWAY BETWEEN HOUSTON AND GALVESTON

If the reader happens to be one of the great army of thinking men or women who has come to realize that modern city life is not worth the pace necessary to maintain it, this message will prove well worth reading.

Those who have been longest in the business of growing Satsuma Oranges in this section state that four year old orange groves should produce \$300 to \$400 per acre with an average increase of \$100 per year thereafter. While orange trees are maturing the land between rows will produce more than a livelihood if properly planted with vegetables and berries. Mr. A. Bouton who lives on a Webster property has this season sold over 3000 crates of okra, produced on four and one half acres, average price over 50 cents per crate.

The soil at Webster is as rich as the soil in the world-famous Valley of the Lower Nile. It is a black, sandy loam, easy to till, beyond the need of fertilizer for a decade to come, and produces equally well the Orange or the Cabbage, the Fig or the Cucumber, the Melon or the Potato.

Here not only do climate, soil, irrigation and definite assurance of crops combine for a safe income, but constant and unfailing markets for the products of the soil are within an hour's reach by steam cars and electric railroad.

There are a hundred locations in Texas where property can be purchased for less than the prices set upon Webster farmsteads. You can buy a front foot on the desert for a good intention, while a front foot at the corner of Broadway and 23rd Street, New York, is almost priceless. Native advantages cause the difference in value.

CONCERNING PRICES

If you would be really interested in such an ideal Farmstead Proposition as the above barely indicates, we will be pleased to send you full particulars as to prices and our most convenient terms of payment. These terms are calculated to meet the requirements of any prospective purchaser who is seriously inclined.

The Wichita State Bank

Wichita Falls, Texas

This Bank and Your Business

There are many banks in the country larger than The Wichita State Bank. They may have more capital and perhaps do a greater volume of business. But for the smaller business man, farmer or manufacturer, had it occurred to you that the small bank is the best place for the beginner to go?

The big bank is often cold-blooded and independent. Your business in the big bank is but an incidental detail, and your interests are scarcely noticed.

The small bank, however, can give your business more time and attention, for it is interested in your success.

This bank while small in comparison to some of the large banks, has ample means and facilities to properly care for your business. Its officers have time to consider your interest and welfare. Your business will be welcome and will receive their best attention.

HAVEN'T WE HEARD SOMETHING LIKE THIS BEFORE?

(Amarillo News)

Word was received by Mr. Harris, manager for the aviators, who will fly at Glenwood Park September 3 and 4, that Aviator Bennie had quite an accident yesterday at Kenloch Park, St. Louis. It seems that the Beloit monoplane driven by Cesnas, after rising about fifty feet, suddenly started to slide down sideways, striking the ground with considerable force, breaking the left wing completely off and

crushing the tail. Cesnas, however, escaped without serious injury, being but slightly bruised about the head and arms. Mr. Harris states that repairs will be made at once so all will be in perfect shape when the machines are brought here for the flights at Glenwood Park. Manager Layton is bending every effort to make the two days' celebration the biggest ever held in Texas, and with varied program already arranged for bids fair to equal if not surpass anything of a similar nature attempted anywhere.

San Antonio capitalists are planning the construction of an interurban line from San Antonio to the big dam recently built on the Medina River.

Barnard and Miss Dena Carry returned Saturday night from their trip to the Eastern markets. Mr. Barnard is quite ill, having been sick for several days at St. Louis. F. P. Childress will leave Thursday for Amarillo, where he will make his headquarters in the future travelling out of that city for the Crescent Candy Company. Mrs. Childress will follow in the course of a week or two. Deputy Sheriff Bryan of Burckently a resident of this city, but now associated with the office of general attorney of the Frisco railroad at Lawton, Okla., is in the city today visiting friends and looking after business matters. To Open a New Store. The Freer-Brin Furniture Company will open a new store in the Vreeland block, next to the Wichita State Bank in the room recently vacated by the Kirsch Company on Sept. 1. The new store will be devoted entirely to manufacturers samples and second-hand furniture and the firm will endeavor to make it a place where one can buy or sell anything in the furniture line. The store will be run independent of their main store and will be in charge of a competent manager. They will buy or trade for furniture of all kinds, and expect to do a business covering all of the territory contiguous to Wichita Falls. Dr. M. R. Garrison, Dentist; office First National Bank Bldg. Phone 49. Alderman Young of the street committee of the city council stated today that they expected to put the street sweeper in operation tonight and would give the streets a thorough sweeping. This matter has been postponed in order to give the blocks time to settle and get out of the habit of "bleeding" so freely. Misses Simmons have moved their millinery store to 418 8th street, next door to Anderson & Patterson. 80-1fc Mr. and Mrs. Walter Moran, who reside at 2013 Eighth street, in Floral Heights, are the proud parents of a fine ten pound boy, born last night. Mother and child are doing nicely and Mr. Moran is all smiles, in fact is one of the proudest men in the city today. For fire insurance see Kell, Perkins & Cravens, room 208, Kemp & Kell building. 52-1fc A card from Prof. W. M. Craig, who is spending his vacation in Chicago and other points, states that he will return to Wichita Falls September 7, after making a stop of a few days at Georgetown to visit friends. He writes that he is having a splendid time and that the weather there with the exception of one week has been like fall weather in Texas. FREEER-BRIN FURNITURE CO. Undertakers and Embalmers JESSE DOLMAN (Graduate Licensed embalmer in charge.) Day 'phone 136. exceptionally pretty showing of the very newest styles, and Mrs. Clopton also has on display some of the nobby ones that stylish dressers will be after before long. For nice, sweet, clean, fresh meats go to the Wichita Meat Market, 906 Indiana Avenue. 68-26c Jim Farmer, the young man who was shot near Grandfield, about ten days ago, paralysis of the lower limbs resulting from his wounds, was able to move his feet for the first time this morning. It is now believed he will recover. E. G. Hill, undertaker, office and parlors 900 Scott Ave. Phone 225. The new front to the Globe clothing store has been finished and presents a very modern and up-to-date appearance. Under the handiwork of Louis Kleiman the windows have been handsomely decorated in a manner to show of the firms goods to the very best advantage. A little novelty out of the ordinary is an electric fan placed in front of the entrance which keeps the flies away and presents an inviting place for passersby to stop and view the window displays. Dr. Prothro, Dentist, Suite No. 1 Ward Building. 62-1fc I am in the market for Vendor Loan notes and good land loans. Money on hand. R. L. Gillentine, 800 Ohio avenue. 82-3fc Seven applicants took the civil service examination before Secretary Fort McHam at the High School building Saturday for clerk and carrier position in the local postoffice when their services may be required. The examination was held under direction of the civil service department of the government. FREEER-BRIN FURNITURE CO. Undertakers and Embalmers JESSE DOLMAN (Graduate Licensed embalmer in charge.) Day 'phone 136. Night 'phone 665-815 Prompt ambulance service. Marriage licenses were issued today to Hanesy Gracey and Mildred Hanesy, both of Crowell, and to C. L. Owens and Mrs. M. L. Voight, of this city. A license was issued Saturday to Howard Williamson and Miss Alpha Wheat.

EDITORS WILL SEE GUSHERS AT ELECTRA It has been definitely decided that the editors will make a trip to Electra in connection with their meeting at this place Friday and Saturday. The trip will be made Saturday afternoon and the visiting editors will be treated to an auto ride to the oil field and to a luncheon while in Electra. Going, the trip to Electra, will be made on the 1:50 on the Denver and the party will return on local late in the afternoon. The Electra people promise to show the newspaper men a good time as well as one of the most promising oil fields in the entire country. DELIVERY HORSE RAN HOME AND STOPPED A horse belonging to McConnell Bros., and hitched to the delivery wagon of that firm ran away this afternoon but no damage resulted further than breaking the bridle bit. The animal started near the corner of Twelfth street and Scott avenue and was soon going at a lively gait in the direction of the business part of the city, but instead of running wild as is usually the case, the horse ran to the front of the store and stopped as if
