## JOHN JACOB ASTOR WEDS MISS FORCE

BEAUTIFUL GIRL OF EIGHTEEN BECOMES BRIDE OF MILLION-AIR DIVORCEE.

### A. CARPENTER PREACHER

Performed the Marriage Ceremony at the Summer Home of Col. Astor.

By Associated Press.

New Port, R. I., Sept. 9.—Col. John Jacob Astor and Madeline T. Force were married here this morning by Edward S. Straight, a retired Baptist minister of Providence. The ceremony was performed at Beechwood, the summer home of Col. Astor here. Straight resigned the pastorate of a small Baptist church in Rhode Island many years ago and has worked as a carpenter since, supplementing his wages by what fees he received from performing marriage ceremonies. "It is my custom never to set any price on my services for performing a marriage," Mr. Straight naively said. "I am willing to take as little or as much as is freely given me. I think the Rev. C. F. Lewis Brooks of Little Compton, and the Rev. Edward A. Johnson of Newport who are said to have turned down offers of \$1,000 each to perform the ceremony, were very foolish."

## ACTIVITY IN LEASING AROUND PETROLIA

Reported That 99 Company Has Entered Good Sand Below the Gas.

Special to the Times.

Petrolia, Texas, Sept. 9.—There is considerable activity here now in leasing land on account of the 99 Company's well two miles west of town, which it is thought will be a good one, as they are now drilling night's only, and have men in it, said watching the well. It is understood that a deep strata of good sand has been found, and land in that country around the well for several miles is being leased. The following have been here the last few days looking after leases: Bean and Markowitz, Wichita Falls, H. G. Heslop, Fort Worth, J. E. England, Little Rock, Ark. E. H. Short, Orange, Texas. Mr. Birmingham of Houston, with the 99 Co. The producers well on the Stein tract 4 miles east is expected in any time and it is thought will be a good one.

Fumes from a gasoline fire in Berlin cost four firemen all their hair and when they did raise new hair it was perfectly white.

Of the 19 mines producing quicksilver in the United States last year 15 were in California and two each in Texas and Nevada.

## Transfer of 1570 Acres of Oil Leases Recorded

A transfer of oil and gas leases on 4290 acres of land in Wichita county and 1580 acres in Clay county from Andrew Benson to Samuel Bell was filed for record in the county clerk's office.

Among the conditions of the transfer are that Bell will start drilling a well on the Douglas lease at Electra on or before September 15th and will drill two other wells at places to be designated by the said Benson. The wells are to be drilled to a

## SEN. BAILEY WILL NOT LEAVE TEXAS

Reports That He Intends to Remove to New York or Without Foundation.

Gainesville, Texas, Sept. 9.—Senator Bailey will not remove to New York nor remain in Washington after he retires from the senate in 1913, but will continue to reside in Texas. Furthermore, nothing can induce him to reconsider his withdrawal. His official career will end with his present term.

These positive statements were made this evening by several of the senator's friends who came this morning and spent the day with him. They were Col. R. M. Johnson, of Houston, John L. Wortham of Austin, Judge Nelson Phillips and J. J. Simmons of Dallas and Clarence Ousley of Fort Worth.

These friends came to pay him their respects, and to inquire about his future plans, and while no formal statement is issued, they all confirmed the purposes herein stated. They say that the gathering was in no wise a conference to formulate political plans or to suggest a candidate to succeed Senator Bailey, but purely a personal visit. The senator has declined and will continue to decline any attempt to dictate his successor.

As announced yesterday, Senator Bailey has canceled all speaking dates except that at Fort Worth at the producers and consumers' conference, Sept. 12. This speech will be mainly along economic lines and will not touch Texas politics. He promised, if possible, to make another speech at Houston as he is leaving the state, which will be about Sept. 18.

Senator Bailey will go to Fort Worth tonight and will be the guest of Capt. Burk Burnett and George Reynolds at the Seibold hotel for dinner. He will remain in Fort Worth until after the producers' conference.

## THREE YEARS SENTENCE FOR ALLEGED GRAFTER

By Associated Press. Columbus, O., Sept. 9.—Convicted of facilitating bribery in the alleged grafting in the Ohio legislature, Rodney J. Diegle, former sergeant-at-arms was today sentenced to three years in the penitentiary. The sentence, however, was suspended until April 18, 1912, to allow the case to be carried to the circuit court. Diegle meanwhile was released on bond.

A French aviator has shaped the planes of his aeroplane to resemble the lines of a rather flat bottomed but sharp pointed boat.

A machine has been invented with which the magnetic effect of the iron and steel parts of a ship upon a compass needle can be measured.

## WANTED—SOMEONE TO SHAKE THE BOTTLE

IT CONTAINS WHITISH LIQUID AND LIES BESIDE THREE FEET OF FUSE.

### WAS LEFT AS A SOUVENIR

By Two Prisoners Who Escaped From the County Jail This Morning. A Lurid Story.

Prisoners at the county jail today are walking about in their stocking feet and every time one of them coughs or sneezes the hairs stiffen on his companion's heads. They talk in low soft tones and keep away from a corner of the run-around where lies a small bottle containing a light whitish fluid beside which lies about a yard of fuse. They say that the bottle contains nitro glycerine and that the fuse is part of a yeggmen's outfit and some of them admit they know a yegg outfit when they see it.

The prisoners tell a lurid story about these articles and a hole under one of the windows in the run-around through which two guests of the hotel de Randolph made their exit last night without the formality of getting their names off the register.

The two men who made their escape gave their names when arrested yesterday in connection with the theft of a pair of shoes hung in front of a shop on Indiana avenue, as Mike Thompson and J. L. Delaney.

They said when arrested they were from Fort Worth and had just blown in yesterday morning.

Thompson was arrested by Deputy Sheriff Humphries and Delaney was taken in by Deputy Constables Yearly and Skeen. When searched at the jail a clothes brush was found in Thompson's pocket, but nothing was found on Delaney. Neither had a cent in money.

This morning at about one thirty o'clock Deputy Sheriff Geo. Hawkins heard something thump on the ground in the front yard and jumped out of bed in time to see two men jump the hedge in front of the jail and run into the street. His first action was to prevent the escape of the other prisoners. He then awakened Deputy Sheriff Humphries who was sleeping at the court house and with the city officers they searched throughout the night for the two prisoners who had escaped without success and they were still at large this afternoon.

The two men were not thought to be dangerous characters and were left in the run-around with two other prisoners last night when the cells were locked.

The other prisoners say that along toward midnight the man who gave his name as Thompson took from his sock the fuse and the bottle which he said contained nitro glycerine, while Delaney took a big automatic revolver from under his shirt.

"This shoe business ain't nothing. It's a case of life or death with me and the first one of youse that cheeps I'll put his light out," the prisoners say, was Delaney's warning and together he and his partner started to tear a hole through the brick wall under one of the front windows.

Not wishing to have their lights extinguished, the other prisoners kept quiet and watched the two men make a hole in the wall and cut a blanket into strips tying an end to one of the bars.

Thompson went down first and after a final warning to the other prisoners to make no noise Delaney followed with the automatic in his hands. That's the story the prisoners tell. The officers, however, say they are harboring a yellow journalist. Still none of them will shake the bottle containing the whitish liquid.

### Negotiations Broken Off.

By Associated Press. Austin, Texas, Sept. 9.—The State Railroad Commission today sent a notice to General Manager Freeman that all negotiations with the I. & G. N. as to the revaluation and re-organization of that railroad are broken off until the road emerges from the federal receivership.

## GETS DAMAGES FOR SMOKE FROM LOCOMOTIVE

In the suit of Charles Sholdberg against the Wichita Falls & Northwestern Railway, a jury in the county court this afternoon awarded the plaintiff \$250 damages.

The plaintiff lives near the Northwestern coal chute. He asked damages for annoyance from smoke from switch engines and noise from the same source.

## BEATTIE WILL BE ELECTROCUTED

By Associated Press.

Chesterfield, Va., Sept. 9.—Henry Clay Beattie, Jr., who was convicted of first degree murder last night had a flicker of a smile on his pallid face as he looked at two newspaper men this morning. Somewhat hopeful but sorrow-bitten the elder Beattie visited his boy today. Many lawyers think there is little chance that the court of appeals will grant a new trial. The verdict was received with little surprise by the community.

Before going to the jury room last night, the jurors knelt in prayer. Pausing in solemn contemplation for fifty-eight minutes, weighing carefully the meaning of their decision and once more on bended knees, beseeching Divine assistance that they might not err, they filed into the hushed stillness of a crowded court room and with startling suddenness twelve voices, instead of the usual one of the foreman, spoke the single word "guilty." It was almost a shout.

Electrocution was set for Friday, November 24.

## MANY ENROLLMENTS IN MUSIC CONSERVATORY

Indications are that Wichita Falls Conservatory of Music will open for the fall term Monday with more than a half hundred students. Already fifteen applications have been received from outside parties and many home students have been enrolled.

Today President Day and Dr. Dunne are busy arranging the rooms in the building leased for the conservatory at 1305 Eleventh street. The house has been painted and papered and everything put in first-class shape and the instruments and furniture and fixtures have been put in place, so that the school will start off Monday without a hitch.

Mr. Charles Sherwood Williamson, who is to be instructor in violin and wind instruments, arrived in the city this morning and the other members of the faculty who do not reside in the city will come some time tomorrow.

In addition to the number of pupils who have already enrolled, inquiries have been received from a great many more, and President Day is confident that before the first week is out the conservatory will have more than a hundred students.

## SEWER RENT MUST BE PAID BEFORE OCT. 1

Property owners of Wichita Falls who are delinquent in their sewer rents, must pay up before October 1 or they will have their sewer connections cut off. At a called meeting of the city council last night a resolution to this effect was adopted and the proper authorities were instructed to carry out the order without any exceptions.

The matter was brought up in checking up the reports of the city officials when it was found that there was over \$1500 delinquents in sewer rentals.

In addition to checking up the reports of the officers the proposed water and light and gas ordinances were discussed at the meeting, but no action was taken. Further action will be deferred until the ordinances of other cities governing these utilities have been heard from.

## BRYAN AND TEDDY CONFER IN NEW YORK

NEBASKAN SPENDS NEARLY TWO HOURS IN OFFICE OF THE FORMER PRESIDENT.

### SPECULATION IS RIFE

Announced No New Party Plans Made, But Politicians Are Wondering Why They Met.

New York, Sept. 9.—"What does it mean? Can it be that there is something after all in the prospect of a new alignment of parties in the next Presidential election?" These and many other questions and speculations ran through political circles today when it was learned that W. J. Bryan and Theodore Roosevelt were having a heart-to-heart talk in the ex-President's editorial offices in the Outlook Building, 287 Fourth avenue.

Mr. Bryan was in the building nearly two hours and spent most of that time with the former President.

Mr. Roosevelt was in the finest of spirits when he got through talking with his former rival and shook hands most cordially with him on the way to the elevator. When he saw a reporter a minute later he was all smiles and the famous teeth glistened.

"Mr. Bryan has been in to see you, Mr. President?" was suggested.

"Yes," with a regular Roosevelt smile. "Mr. Bryan and I have had quite a nice visit. We had a general talk on interesting subjects. That was all."

Mr. Roosevelt further explained:

"Now I said Mr. Bryan came in to see me. The fact is, he came into the Outlook Building, and I was one of several he came to see."

"Was it about forming a new party?" he was asked.

This seemed to tickle Mr. Roosevelt a lot. He threw his head back and almost roared. Then he sobered quickly and said softly a long-drawn-out, peculiarly inflected "No." Then as the significance of the situation became more clear Mr. Roosevelt explained further:

"Now I said Mr. Bryan came in to see me. The fact is, he came into the Outlook Building, and I was one of several he came to see."

## SUGAR HAS GONE TO \$7.35 PER HUNDRED

The price of sugar took another balloon ascension today, going to \$7.35 per hundred wholesale on the local market. This is the highest price quoted on sugar since before the McKinley tariff bill went into effect, which bill eliminated the tariff from sugar, and placed a bounty of 2 cents a pound on all sugar refined in this country. Local dealers are unable to give a reason for the present high price other than that it must come from the procreations of the sugar trust now being made by the government, although the crop conditions throughout the sugar growing territory are said to be rather poor, and this may also have its effect.

## COTTON CONDITION SEPT. 5, 67 PER CENT

By Associated Press. Austin, Texas, Sept. 9.—The Department of Agriculture today announced that reports from six hundred and forty-five correspondents show the condition of the Texas cotton crop on Sept. 5 as 67 per cent against 68 per cent, which was the U. S. Government report for Aug. 28. The State report gives the Aug. 28 figures as 421,005 bales, against 249,877 bales last year.

The largest lifeboat ever built, recently completed in Holland, is 63 feet long and is driven by a 76-horsepower motor.

A thin paste of Fuller's earth, over which porous paper is laid until dry, will remove grease spots from matting. A recent census indicated that London had 48 paupers for each 1000 residents, a much higher number than generally supposed.

## INSTALLING MACHINERY NEW LIGHT PLANT

Expected That Citizens Co. Will Be Furnishing Juice By Next Tuesday.

Work of installing the auxiliary machinery for the City Electric Light and Power Company plant was commenced yesterday, and by Tuesday morning at the latest it is thought the plant will be making "juice" from this machinery.

The machines which are now being set up are the small gas engine and dynamo, which after the larger ones are in operation, will be used, the engine for pumping purposes and the dynamo for making light at night, when the regular machines may be out of order.

The engine is a twenty-five horse power Bessemer gas engine, while the dynamo has the capacity of something like a hundred Tungston lights. They are being placed in position by an expert from the factory where they were made, who will remain here until the larger machines arrive and are installed to see that the entire plant starts off without a hitch.

## "MANHOOD" WILL BE SUBJECT OF LECTURE

Although rained out last Sunday night, Rev. Hamlin is advertising for a great open air meeting for tomorrow night at the Airdome. He will deliver his lecture on "Manhood" for men especially, though the ladies will be invited to hear it. A feature of the service will be some beautifully illustrated songs.

### Band Concert Program.

- 6:30 p. m. Sunday. 1—March "The Rovers," V. S. Tomkins 2—"Little Kinkies," T. Bendix 3—"Rastus" rag, H. A. Fischer 4—Operatic "Grand Selection," L. P. Laurendeau 5—"Napanee," (by special request), W. R. Williams 6—March "Tentonia," M. E. Frock 7—"Medley Overture," (selected) J. M. Fulton 8—"Yum Yum Tree," march, H. Von Tilzer.

## EXCURSION RATES FOR CIRCUS HERE

The Wichita Falls Route has put on an excursion rate of one and one-third fare for the occasion of the Wallace-Hakenback circus, on October 11th. The rate will be good on the morning of the 11th, returning on any train on the 12th. It is likely the same rate will be made for the Sells-Floto Show which comes on the 10th, but action has not been taken on this as yet.

## Vacation Days Are Over School Starts on Monday

Vacation days are over and Monday morning the youth of Wichita Falls will march toward the school houses to start the work of another school year.

All pupils above the sixth grade will report at the new High School building. Pupils of the first four grades east of the Fort Worth & Denver tracks will report at the Travis School in the Lakewood addition. West of the railroad and north of Seventh street from the railroad to

## FLIES 350 MILES WITH 6 PASSENGERS

ZEPPELIN DIRIGIBLE CRAFT COMPLETES A MOST NOTABLE TRIP.

### STARTED ON SEPT. 6TH

Feat Regarded As the Most Notable in the History of Aviation.

Berlin, Sept. 9.—The Zeppelin dirigible air craft the Schwaben, with six passengers aboard arrived at Berlin this morning completing its three hundred and fifty mile journey from Baden Baden, which began on Sept. 6. The feat is regarded as the most notable in the history of the aviation.

### Seawall Boulevard Completed

By Associated Press. Galveston, Texas, Sept. 9.—At five o'clock today the seawall boulevard will be completely opened to traffic, the last link of the four mile drive being completed. Governor Colquitt in an auto will lead a procession along the boulevard seawall. It cost over three million dollars.

## FREIGHT TRAFFIC GROWING HEAVIER

Reports from the Katy offices are to the effect that business has increased to such an extent that a third switch engine is now needed in the local yards, although the company has not yet seen fit to order it. It is stated that the rush is beginning extra early this year, and the indications are that the volume of business will be fully up to that of last fall. Local officials are endeavoring to induce the company to put on the extra switching crew at once and probably this will be done in the near future.

Increase in business on the Denver is demanding additional service to the extent that arrangements are being made to put on two additional freights out of Wichita Falls, and these will probably go into service early next week. This will make places for at least ten men. Another switch engine is also needed, as the four in use cannot keep up with the volume of business.

When the new trains are put on it is said the local which now goes through to Childress, will be cut off at Quanah, and another will be put on between Childress and Quanah.

More than 25 ocean going vessels are equipped or are being fitted with oil burning engines, ranging from 300 to 500 horsepower.

## Newest Well at Electra is Producing 600 to 1000 Barrels

Advices from Electra are that Red River well No. 1 drilled in on the Chapman tract late Thursday evening is producing better than 600 barrels. Some estimates place the production close to 1000 barrels every twenty-four hours. The sand was struck at a depth of about 1000 feet. The Clayco people are expecting to

bring in their No. 4 on the Woodruff tract within the next forty-eight hours. Oil men expect this to be one of the best wells in the field.

## PERSONAL INJURY SUITS AND MR. JONES

SHIPPER MUST ULTIMATELY STAND COST OF WASTE IN SUCH SUITS.

## VICTIMS DON'T GET IT

Half of Awards They Get Go for Lawyers Fees and Court Costs—What the Sum Wasted Would Do.

By Associated Press. Austin, Texas, Sept. 9.—H. C. Askew, statistician for 32 of the leading railroads of Texas, that comprise about 93 per cent of the mileage of the state and do about 97 per cent of the business, has compiled from the reports for the fiscal year ending June 30 last, figures that show an abnormal growth of the damage-suit industry in Texas.

The sworn records of these 32 roads show that during the last fiscal year the enormous sum of \$2,505,084.52 was paid out by them in settlement of personal injury cases.

This is \$184.68 average for every mile of road operated and included in this compilation.

This huge total also represents an average outlay of 5.309 cents for every mile of train—both revenue and non-revenue—operated by the 32 roads.

The enormous sum paid out in settlement of personal injury cases by the 32 roads was 2.63 per cent of the total operating revenue of the 3 roads, and was 3.40 per cent of the total operating expense of the road embraced in the report.

It is the largest sum ever paid out in one year for personal injuries by these 32 roads. It is also the largest percentage of gross earnings ever paid out by Texas railroads.

That at least one half of this enormous sum comes under the economic head of "waste" has never been seriously contended. By this term "waste" it is meant that the system of settling industrial accidents in Texas is archaic, in that the public is called upon to bear expenses more enlightened method would obviate.

Under modern methods at least fifty per cent of this huge total could be saved to society, and those injured would receive exactly the same sum they have heretofore and are now receiving in compensation. The money that now goes to lawyers (for both sides), in payments of witnesses' court costs and the like, can under a more modern system of handling such matters be entirely eliminated without denying to persons injured at that custom and the courts have decreed they are entitled to receive. And the sum thus wasted approximates half of the total of \$2,505,084.52, or \$1,252,542.26 for these 32 roads alone.

If saved, as it can be saved, what would this sum of \$1,252,542.26 represent?

It would be sufficient to run the entire state government and all the institutions dependant on the state for support for over three months.

It would build not less than 50 miles of new railroad in Texas, taking the last valuation for taxable purposes compiled by the Texas Railroad Commission as a basis.

It would pay the maximum freight charge of \$2.25 a bale on 491,193 bales of cotton, each bale averaging 50 pounds, from points of origin to ship side at some Texas port.

At 3 cents per mile it would be sufficient to pay for tickets to give \$1,751,409 persons a railroad trip of one mile.

It is enough to give every man woman and child counted by the census takers in Texas last year a rail road trip of over ten miles, each person paying 3 cents a mile.

Added to the pension now given by the State to Confederate veterans, it would enable these old soldiers to draw \$147 a year each, instead of the pittance of \$42 a year they now draw.

These comparisons are made not on the basis of the total amount paid out in settlement of personal injury cases by the 32 roads, but solely of that portion of the total that is now wasted, or in other words that portion of the total that does not go to the persons injured.

During the year ending June 30 1911 the 32 roads paid out \$190,072.54 more in settlement of personal injury cases than they paid out during the year ending June 30, 1910. On a per mile basis this is an increase during the last fiscal year over the preceding fiscal year of \$10.37 per mile, striking an average.

Under the system of rates making

(Continued on page 4)

## GERMAN EMPEROR URGES SOBRIETY

AMERICAN MODEL OF STUDENT LIFE IS RECOMMENDED TO GERMAN STUDENTS.

## DRINKING OUT OF DATE

Students Advised to Substitute Athletics Instead of New Records for Beer Swallowing.

Berlin, August 8.—Emperor William now seldom misses an opportunity of warning German students to moderate their drinking habits, and to adopt rather the American model of student life. Several days ago, upon the occasion of presenting a flag to the Gymnasium at Cassel where he was prepared for the university, in order to commemorate his connection with that school, he made a brief address to the students of the senior class, advising them, when in the university, to use less alcohol. The traditional drinking customs, he said, were no longer adapted to a time in which Germany must struggle for its position in the world's markets. Then he praised the abstemious life of American students and he had often been impressed, he said, with their ability. German students, His Majesty repeated in a line with what he has often said to other student assemblies, must give more attention to sports of all sorts, including fencing and rowing, instead of trying to create new records for the amount of beer that they can swallow.

Emil Zimmermann, a German writer who has recently been travelling in German East Africa, announces an important fact bearing upon the spread of the sleeping sickness in that colony. Hitherto it had been supposed that the tsetse fly, the cause of the disease, bred almost exclusively in grassy or lightly wooded strips of land bordering on lakes or rivers keeping about the paths where animals come to drink. Hence the chief method of combating the pest has hitherto been to cut down the trees along the lakes and rivers and to prevent the shoreland from becoming overgrown with high grass and weeds. Zimmermann found, however, that he finds one of its favorite haunts in groves of the oil palm. He mentions the case of two huge palm groves aggregating 800,000 trees situated near Sambura at the northern end of Lake Tanganyika, in which the natives are apidly dying off. There was formerly a dense population in the groves, but now there are only about 200 persons left, and the physicians say that fully half of these are affected, and it is only a question of time, and not very long time, till the groves will be completely depopulated and revert to wilderness. All this is of no little economic significance for the colony where the Germans have been vigorously exerting themselves to promote the cultivation of coffee, sisal grass, cotton, rubber, and palm trees.

The generosity of the late King Chulalongkorn of Siam has brought the little town of Homburg, the Emperor's favorite watering-place, into some trouble. Upon the occasion of his last visit to Homburg several years ago, the King announced a gift to the city of a temple-like pavilion to cover a spring which had been named in his honor. He also promised the sum of about \$5,500 for erecting it after its arrival from Siam. It was built and shipped according to promise, but the King died before sending the money for erecting it and now the city is wondering who will bear the expense of putting it up.

It is announced that the Bayreuth summer opera season will be repeated next year, the Wagner family having departed in this instance from its usual practice of having the opera given only on alternate years. The reason for this change appears to be connected with the expiration of the artist's copyrights at the end of 1913, after which that famous opera will naturally be placed upon the repertoire of all the leading opera houses of Germany.

The State railroad administration is determined in future to keep its personnel in the highest condition of physical and mental fitness, and thus to avoid as much as possible the occurrence of accidents on its system arising from breakdowns of the men's health. Orders have just been issued or the holding of a series of stringent tests, to which all locomotive engineers, firemen, signalmen, switchmen and other track employees are to be immediately subjected. Up to the age of 45 these tests are to be repeated every five years, sight, hearing and nervous condition being submitted to thorough investigation. After the age of 45 the examination is to take place every three years, and after 60 every two years, while in case of doubt as

Better Value  
Than Ever in

# Concord Coffee

Before the advance in coffee prices some months ago many of the South American Coffee growers were forced to sell their entire crop for less than the cost of production.

They got the benefit of most of the advance which the public is now paying. Now that they are getting a fair price for their labor many of them are turning their attention to improving the quality of their products, and as a result the blends that I am selling under the brand name of Concord has shown remarkable improvement.

The flavor is better, there is more of it and it is richer so that you are getting more for your money than ever in this remarkable blend which I have been selling for so many years.

There is no coffee sold anywhere at 30c that will compare with it in value. A pound of it will prove this to you.

## PRETTY TAILORED

### SUITS ON DISPLAY

THREE-PIECE AND TWO-PIECE TAILORED MODELS IN FINE STRIPES.

### PLAID EFFECTS POPULAR

Colored Braid Giving Note of Contrast Extremely Fascinating.

New York, Sept. 9.—The display of autumn and winter fashions in the big shops is extremely attractive this year owing to the wonderful variety and beauty of materials, colors, trimmings and accessories shown. It is too early in the season to make any positive prediction concerning the changes in styles which the coming season may bring. The time for the fall openings in Paris has not yet arrived and the models sent out in advance are little more than tentative attempts to foreshadow the coming modes. For this reason conservative buyers will do well to use great caution in making their selections at this time.

Stripes are almost everywhere to be found among the tailored costumes included in this advance showing, but the fad for striped materials has lasted all through the summer and there is every reason to believe that its general popularity will cause it to be abandoned to a great extent by the most fastidious dressers. However, there are attractive striped effects in all the modish woollens, broadcloths, serges, silbelines, etc., and there are lovely striped velvets and silks and chiffons, but many of these seem likely to be used as trimmings rather than as frock material.

The displays include some extremely pretty three-piece and two-piece tailored models in fine stripes, black or dark blue with fine lines of white or color being especially emphasized. A black broadcloth striped in hair lines of royal blue and made up with touches of royal blue bengaline in the trimming scheme was one of the best looking three-piece suits seen among the advance models, and one of the Fifth Avenue houses is showing an extremely chic two-piece imported model in rich yet not too vivid dark blue striped narrowly with black and trimmed in black panne velvet and black braid.

There are good grays too among the striped suits, two tone stripes or gray striped in black. Black striped with hair lines of white also seems to be popular.

The coat frock or one-piece frock, whose lines suggest a coat and skirt, was worn last spring and is seen in some practical and pretty models for autumn service. Many women object to the one-piece trotting frock for street wear, insisting that they do not feel themselves correctly dressed for street appearance without a coat, but this coat frock is at its best an attractive compromise. The fine cloths with almost invisible stripes are successfully used for these costumes and one of the smartest early autumn street models seen was built up in black cloth with fine blue stripe, with black satin for waistcoat, undersleeve, girdle and underskirt. A cravat-like fold of blue silk fell from neck to girdle just at the left of the waistcoat opening and headed a side frill of plaited net and lace.

Plaid effects are very popular and handsome satins showing one-half or two-thirds of the width in black and the rest in bold plaid of skillfully blended coloring afford opportunity for borderlike use of the plaid, while the border is also wide enough to be handled as bodice, sleeve or underskirt material.

The blouses of the summer have been remarkably pretty and some of them now marked down to much less than their original prices are well worth buying. To be sure their lines and detail may be out of fashion next summer, but they may be used during the autumn and even the coming winter. All white is perhaps most practical, but the colored embroideries have caught Parisian fancy in respect to both blouses and to lingerie frocks, and the designers have evolved some charming models touched with color, dull blue or dark blue, rose, leather brown, etc.

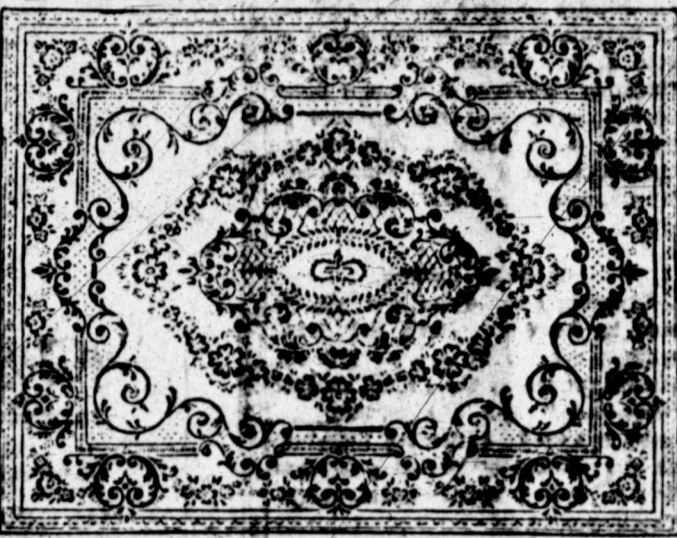

Of course there are innumerable blouses loaded with coarse machine embroidery in color, but the most casual glance can distinguish between these and the dainty hand-embroidered blouses, the design of whose embroidery is often of the simplest character, though the daintiness of the work makes it wonderfully effective.

It was said last spring that Parisian designers were making an effort to get away from the veiled costume blouse which has had so long a period of popularity, and an unusual number of silk blouses appeared to substantiate the statement, but the fact remains that the blouse of chiffon or net matching the suit in color and made over a contrasting foundation is the best so-

## Wichita Falls Foundry & Machine Company

...GENERAL FOUNDERS AND MACHINISTS...

We carry in stock a full line of

Pipe, Pipe Fittings, Valves, Packing, Shafting, Shaft Boxes, Rabbit Metal Etc.

Having just installed two new lathes we are now prepared to turn pulleys up to sixty inches in diameter. Carry in stock Grate Bars in Single and Double Ribs as well as Herringbone Pattern in lengths from twenty-four inches to sixty inches.

WICHITA FALLS, TEXAS

trimming. This braid in black and empire green would make a smart trimming on a black or navy serge suit.

Velvet in both plain and fancy weaves is employed in many of the new three-piece suits consisting of coat and skirt with waist to match. Many two-piece suits too are made of velvet.

Black or dark blue taffeta tailor-made trimmed with fringe are one of the inventions of the year. Taffeta is coming more and more into favor and a great vogue for it is to be expected.

Many fancy sleeves are being exploited this season. Where the sleeve is cut in kimono effect, the seven-eighths, or three-quarters length are seen in street dresses, and shorter lengths for the more dressy gowns.

FLORENCE FAIRBANKS

The next crop in order is wheat. Not only is it the next chance for a money crop, but on it we must depend to a large extent for winter feed.

Many cotton crops in our county will hardly pay for the gathering. The owners have no feed nor money to buy with. If such men could manage to get a winter wheat pasture it would be an untold advantage. Winter wheat pasture depends on how early you get in the wheat and how much rain falls on it. The latter is an uncertain quantity and we must use every bit that falls. The man who has his land broken now will do well to harrow it and break the crust. Where the land is not already plowed it might do well to plow. The best wheat the writer ever saw in Baylor county was planted on corn land double discd. The corn didn't make; so in the late summer, while the stalk was still green, the ground was made mellow with the disc and the grain sowed along towards the first of October.—Baylor County Banner.

Wichita Falls, Texas, Sept. 9th, 1911.

## "THIS DATE IN HISTORY,"

- September 9.
- 1513—James IV. of Scotland and 10,000 of his followers slain by the English in battle of Flodden Field.
- 1609—Henry Hudson in the "Half Moon" arrived in New York Harbor.
- 1737—Luigi Galvani, discover of Galvanism, born. Died Dec. 4, 1798.
- 1848—Fire in Brooklyn destroyed nearly 200 houses.
- 1850—California admitted to the Union.
- 1863—Gen. Crittenden's division of Rosecrans' army entered Chattanooga.
- 1898—President McKinley appointed the Peace Commissioner to treat with Spain.
- 1910—William C. Oates, former governor of Alabama, died. Born Dec. 1, 1835.

It is now said that Judge W. F. Ramsey, associate justice of the Supreme Court, will soon announce as a candidate for governor in opposition to Gov. Colquitt for a second term, and that Cone Johnson and Judge Poindexter will be the candidates for Congressman at large.

The derricks near Electra are now twenty miles apart, and coming closer to us all the time. Soon we hope to realize that the biggest oil field in the United States is right at our door. And by the time we are enjoying the comforts of two cent gas, we shall wonder how we ever managed to do so long without it.—Quannah Tribune-Chief.

The difference between the rich, mail order houses and the local merchant is this: The mail order houses know that advertising is an investment, whereas the local merchant too often imagines that it is an item of expense. That is why the mail order houses are so hard to compete with. Their advertisement goes on forever and draws like mustard plasters. Every newspaper man often hears a merchant say: "I haven't any money to advertise just now." The mail order guy grandpa's motto is different; his idea is this: "I must advertise liberally so as to get more business." And the mail order man doesn't care a whoop whether it is June or December. He knows that advertising is his salvation.—Devine Reporter.

### Another Reliable Firm For Wichita Falls

We desire to announce to the public that we have purchased the stock of the Texas Lumber Co. and are now prepared to make prompt deliveries. Our years of experience in buying and selling lumber has enabled us to purchase this stock and the daily shipments of lumber which are now arriving to replenish it, with the view of giving our customers honest values. When you're ready to talk lumber we'll be waiting for you, because we have just the lumber you will need.

H. S. TRITCH  
Proprietor

Now that the prohibition question has been settled at Amarillo the citizens of that place are getting together for the building of a bigger and better town. They have gathered together on common ground and a platform of progressiveness, designed for the general advancement of Amarillo. Self-aggrandizement, declares one of Amarillo's papers, will be eliminated where it conflicts with or endangers the general good of the community. Worthy measures and not individuals will dominate the public mind and greater things will be accomplished. The people will stand for Amarillo first, and individual and personal differences, if any there be, will give way to the grander scheme of city building and general advancement.

San Antonio is certainly blessed with a bunch of live, wide-awake men who are engaged in the mercantile business. As an evidence of this, the special industrial edition of the Express, issued on the 7th and containing 128 pages, giving a comprehensive and detailed account of the limitless resources and wonderful possibilities of the Southwest Texas, one of the goods establishments filled one entire section of 12 pages in telling the readers of that splendid paper of what it had to sell. This firm has been doing business in San Antonio for years, and it is nothing uncommon to see their page ads and even double page ads in the San Antonio papers, but when an entire section of a paper is taken by one firm, that is something out of the ordinary, and in fact the only instance on record that the Times has knowledge of. But this edition of the Express was something out of the ordinary also. The matter that went into it bore every evidence of having been prepared by writers of ability. In the humble judgment of this writer, it was by far the best effort ever put forth by a Texas newspaper.

On Monday night there will be a meeting of the tax-paying citizens of precinct No. 1 held at the court house in this city for the purpose of selecting three citizens whose duty it will be to serve on a board with the county judge and the county commissioner of precinct No. 1 and superintend the building of good roads for this precinct. In the event that two-thirds of the tax-paying citizens conclude to act favorably upon the proposition to vote \$100,000 worth of bonds for that purpose. The election has been called for October 13th, and at the same time the bond issue is to be voted on, three men are to be elected for the purpose as above stated. For this reason, the mass meeting on Monday night should be well attended. The positions are such that no one of the men who are capable of performing the work that will fall to their lot can afford to take

them merely for the \$3 per day the law allows for their services. The candidates to be selected for these three positions should be representative business men who have some practical knowledge of road building. There are such men in Wichita Falls, and in commissioners precinct No. 1, and inasmuch as two-thirds of the money with which the bonded debt of \$150,000 will be discharged will come from taxes levied on property within the corporate limits of Wichita Falls, two of the three commissioners to be elected should be residents of this city and one from the country. If the meeting is well attended and is representative of the tax-payers, the candidates selected by it should be elected without opposition.

## GROWING WINTER COVER CROPS.

An economic system of soil management requires that cover crops be planted and that the land be protected both winter and summer with a growing crop. It has been shown by practical farmers and experimenters that it is advisable under most conditions to plant catch crops when the regular crops are not occupying the land for the maintenance of fertility. Cover crops bind the particles of soil together, prevent washing, utilize the soluble nitrates that would be leached from the soil during the winter, afford grazing for animals and when turned under furnish organic matter which is subsequently converted into humus. Not only is most of the plant food which covers crops returned to the soil when these crops are turned under, but the mechanical condition of the soil is greatly improved by the roots of these crops and the decomposition of plants themselves.

As soon as land is turned in the fall, if possible, a cover crop should be planted to protect the freshly plowed land from erosion and the loss of plant food by the action of winter rains and snows. To let the land lie fallow without breaking always results in the loss of fertility. Rains beat upon the hard land and run off, carrying plant food and water which should be stored up for the use of plants. It is highly desirable that the soil be plowed deeply early in the fall so that it will catch and retain moisture. Its water-holding capacity will also be increased by maintaining a cover crop. In regions where drouth is prevalent special efforts must be made to store up moisture during the winter. This may be done by deep plowing early in the fall and the growth of a cover crop to be turned under at the proper time for organic matter.—Farm and Ranch.

## GOTCH—HOW HE HAS SOWN.

Frank Gotch earned \$21,000 in cash in Chicago in 19 minutes and 50 seconds Monday afternoon. His work consisted in picking up a much scared, pale and nervous Russian "lion" and hurling him to the floor. More than 25,000 persons who have never seen that much money in their lives paid to watch Gotch go through his physical culture exercise.

Technically speaking, Gotch earned \$21,000 in less than twenty minutes, for the twenty minutes of work was necessary or he would not have had the money. But Gotch did not earn this sum in twenty minutes. Gotch is 33 years old. He earned that \$21,000 and what else he has accumulated in his lifetime in thirty-three years.

Gotch has been working just one-third of a century—probably half his life—to fit himself for this, very likely the supreme task of his period of existence on this earth. Frank Gotch made it possible for himself to earn this \$21,000 and his share of the picture money by clean living, clean thinking, abstinence from liquor, tobacco, and drugs, and the pitfalls that break men, for thirty-three years.

Frank Gotch is only 5 feet 9 inches tall—the height of the average man you meet on the street. You see scores every day who would tower above him. But Frank Gotch has been living each year of his thirty-three years in cleanliness and healthfulness. He goes to bed early at night, rises early in the morning, works regularly and healthfully.

He is not an abnormality. His muscles do not stand out in great bunches. He walks alertly and with vigor, and thinks with his head. He is a young man such as makes his country proud. There are hundreds in the United States who might have been physically as perfect as Gotch had they lived the same life he has led. But they did not and they are weakened. Some drag their heels; others hang their heads. There are many who labor in the streets—because they have fitted themselves for nothing higher. Thirty-three years is a long time to be good, decent and careful. Thirty-three years is a long preparation for a job that is done in twenty minutes. But it paid Frank Gotch to the extent of \$21,000 and the picture money, besides the little nest egg of something like \$200,000 that he has laid aside.—Houston Chronicle.

## AT THE CHURCHES

\*\*\*\*\*  
First Methodist Church  
Corner Seventh and Lamar.  
Sunday school at 9:45 a. m. Morning service at 11:00 a. m., sermon theme "Love and Fear." Epworth League at 7:15 p. m. Evening service at 8:15 p. m., sermon theme "Character and Discipleship." A cordial welcome to everybody. Henry J. Wharton, Minister.

Central Presbyterian Church.  
Corner Eleventh and Bluff.  
Preaching at 11:00 a. m., and 8:00 p. m. C. E. Society at 7:00 p. m. Sunday school at 10:00 a. m. Everyone is cordially invited to all of the services. E. E. Lowrance, Pastor.

First M. E. Church, South  
Services at 11:00 a. m., and 8:15 p. m. Rev. H. A. Bourland, D. D., of Dallas, will preach at the morning hour. Choir anthem, "The Lord Jehovah Reigns." The pastor will occupy the pulpit at the evening hour. Special music. Sunday school at 9:30 a. m., J. M. Bland, Superintendent. Epworth League at 7:25 p. m., B. Montgomery, President. Mid-week service at 8:15 p. m. Angle plan of study. Service intended to be "bright and brief and brotherly." The conference of the W. M. Society of North Texas convenes in this church Oct. 5-11. Mrs. S. P. Smith of Haurietta, is president and Mrs. P. C. Archer, of Winnaboro, is secretary. Bishops Key and Mouzon and Dr. Carrie, of Vanderbilt University have conspicuous places on the program. This is the twenty-fifth anniversary of the society and the leaders are putting forth special effort to observe the occasion with a strong program, and to have present a large delegation. Always a welcome for all. O. T. Cooper, Pastor.

North Wichita M. E. Church, South.  
Sunday school at 10:00 a. m., Ambrose Yeager, Superintendent. A growing Sunday school. All invited.

Church of Christ.  
Bluff, between 11th and 12th.  
Bible study at the morning hour. Everybody welcome. The protracted meeting is to begin Sept. 15th, and will be conducted by Revs. Buchanan and Young.

First Church Evangelical Association.  
Corner Broad and 15th.  
Sunday school at 9:30 a. m. German sermon at 10:45 a. m. English services at 7:45 p. m. Practice for children's Day at 3:00 p. m. Our new church is completed and all services will be held in it. Pews are delayed about four weeks, but other seats have been provided for. Come and worship with us. All welcome. Christian F. Mayer, Pastor.

## HER FRIEND'S GOOD ADVICE

The Results Made This Newburg Lady Glad She Followed Suggestion.

Newburg, Ala.—"For more than a year," writes Myrtle Cothrum, of this place, "I suffered with terrible pains in my back and head. I had a swollen complexion, and my face was covered with pimples. Our family doctor only gave me temporary relief.

A friend of mine advised me to try Cardui, so I began taking it, at once, and with the best results for I was cured after taking two bottles. My mother and my aunt have also used Cardui and were greatly benefited. I shall always praise Cardui to sick and suffering women."

Cardui is a purely vegetable, perfectly harmless, tonic remedy for women, and will benefit young and old. Its ingredients are mild herbs, having a gentle, tonic effect, on the womanly constitution. Cardui has helped a million women back to health and strength. Have you tried it? If not, please do. It may be just what you need.

Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

## SPUR FARM LANDS

A wonderful new farming country of rich valleys and uplands is being opened to actual home-seekers in the upper Brazos country, at prices from \$12 to \$18 per acre, one-fifth down, balance distributed over six years, payable on or before maturity. These lands produce as heavily and as reliably as high priced lands of Central and East Texas. No-belt-weevil, no hog cholera. Great cotton and feed crops are maturing this year—a hale to the acre will not be unusual. Several last year's purchasers will pay out their lands in full from this year's cotton crop. This is YOUR chance for a home in a reliable, productive country. Buy direct from us as owners. Considering price and production in a wide range of farm crops, there is no equal chance in agricultural Texas. Railroads through lands, thriving towns, fine healthful climate, altitude 2300 feet, good schools, good churches, good neighbors. We earnestly invite inspection of the wonderful yield while crops are yet in the field. A large percentage of those who investigate are buying. Secure your home before prices advance. For full particulars, with pamphlet, address

**G. A. JONES, Manager for S. M. SWINSON & SON, SPUR, TEXAS**

Notice to Stockholders.  
The stockholders of the Wichita Falls Planning Mill Company will meet at the office of Anderson and Patterson, September 11, at four p. m. 101-2e

Governor Bass of New Hampshire is said to be laying plans to succeed United States Senator Burnham, whose term will expire on March 3, 1913.

United States Senator Bristow of Kansas has declared himself against the renomination of President Taft and in favor of Senator La Follette for the presidency.

Edward F. Dunne, former mayor of Chicago, is expected soon to announce his candidacy for the Democratic nomination for governor of Illinois.

FOR TRADE.
FINANCIAL.
WANTED - To buy vendor lien note of small denomination and not too long time. H. Nutt, room 200 Kemp & Kell building. 89-tfc
HAVE money in large amounts to loan on farms at 8 per cent, requires life insurance to cover amount of loan, in specifications made in September. See Otto Stehlik over postoffice.
PLENTY - Of money to loan on first class business or residence property. I want only first-class loans and can make them so the borrowers will pay monthly; easier than paying rent. W. H. Tibbett. 285-tf
MISCELLANEOUS.
Dr. DuVal, Eye, Ear Nose, Throat.
When in town with a good mule for sale, let us see it. We keep feed for Wichita Horses and Mule Co., corner 5th street and Indiana avenue. 37-tfc
THE KINDERGARTEN, to be opened Sept. 11, by Miss Katherine Brothers, will be in a room built for that purpose near her home on Eleventh St., opposite the high school building. Money from a vicinity with the kidney secretions and weakness across the small of the back caused me no end of misery. Hearing that Doan's Kidney Pills were good for such troubles, I got a box from the Wichita Drug House and began using them. They brought relief quickly and proved to be a most effective kidney medicine. I used no other remedy at that time and I can therefore give Doan's Kidney Pills the entire credit for the change in my condition." (Statement given June 16, 1909.)
Village is in better Results.
Walking.
Residents of the village of Milan O., the birthplace of Thomas A. Edison, inventor, fear an epidemic of somnambulism.
Already the sleep disease has claimed two victims - Miss Grace Ellis, clerk in the postoffice, who fell down a flight of stairs and was rendered unconscious, and L. B. Samson, editor of the Milan Ledger, who awoke to find himself chasing dream burglars.

THE WEEK AT
(Burkburnett Star)
L. W. Proctor returned Friday from Alvord, where he was called on account of the serious illness of his sister last week. Mr. Proctor stated that his sister was quite low with slight chance for recovery.
Sam Williamson was up from Petrolia Friday and Saturday helping start the big engine at the plant of the Simmons Gin Co. Same said he had been busy during the past three weeks at Petrolia loading out machinery for the Electra oil field.
An election will be held throughout Wichita county on October 13 to determine whether or not stock will be permitted to run at large. There is little objection to such a law and it is safe to say the measure will go through with flying colors.
Miss Oma Hollibaugh arrived from Alvord Tuesday of last week to take charge of the music department of the Burkburnett public school. Miss Hollibaugh is a Baylor University graduate and will no doubt acquire herself in the position mentioned in a highly creditable manner.
A slow, steady rain fell throughout the Burkburnett section most all of Sunday night. Light showers also fell at intervals Monday. These rains were of great benefit to growing crops of all kinds and especially cotton and feed stuff.
Sam Williamson has accepted the position of engineer for the Simmons Gin Co., at this place. Sam held the same position last season and has a host of friends here who are glad to see him back at his old post of duty. Mr. Williamson is an expert mechanic and knows just how much steam to turn on to make the saws "cut" the "kotton" from the seed without injuring the lint.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita County, Greeting:
You are hereby commanded to summon A. C. McClure by making publication of this citation, once in each week for four consecutive weeks previous to the return hereof in some newspaper, published in Wichita County, Texas, to appear at the next regular term of the Justice Court of Precinct No. 1 in Wichita County, Texas, to be held at the court house thereof in Wichita Falls, Texas, on the last Monday in Aug. 1911, the same being the 28th day of Aug. 1911, then and there to answer a suit filed in said court on the 15th day of Aug. A. D. 1911 in a suit numbered on the docket of said court No. 4122, wherein G. C. Patterson is plaintiff, and A. C. McClure is defendant, said petition alleges, that on or about Jan. 16th, 1911, A. C. McClure, defendant herein executed, and delivered to G. C. Patterson, plaintiff herein, a certain promissory note in the sum of \$160, due on or before Aug. 1st, 1911, with interest from date at the rate of 10% per annum, and providing for 10% additional on the amount of principle and interest then due as attorney's fees if default was made in the payment thereof; that to secure the payment of said note, defendant A. C. McClure executed and delivered to plaintiff G. C. Patterson a chattle mortgage lien on personal property as follows: One blue horse mule about 8 years old, about 15 1/2 hands high; one black mare mule about 8 years old, about 15 1/2 hands high; one blue mare mule about 8 years old, about 15 1/2 hands high. The said note is now long since past due, and, although demand have often been made of defendant for its payment, defendant has failed and refused to pay same, or any part thereof, to plaintiff's damage in the sum of \$160.00. Plaintiff sues for his debt, interest, attorney's fees, cost of suit, foreclosure of his chattle mortgage, on the above described property, etc. Herein fall not, but have before the said court on the said first day of the next term thereof this writ with your return thereon, showing how you have executed the same. Witness my hand officially, on this the 10th day of Aug. A. D. 1911, at Wichita Falls, Texas.

AUSTIN WON CLOSING CONTEST AT CLEBURNE

Another Game to Be Played Sunday After Trip to Corsicana - Players Given Smoker.
Special to the Times.
Cleburne, Texas, Sept. 9 - Austin played rings around Cleburne yesterday, winning by a score of 5 to 0. Dad Ritter being sick, was not in the game, and this caused a new alignment and his pinch hit was badly missed. Herbert yielded five safeties, but the long drives were all cared for by the outfield. The contest yesterday was not near as snappy as that of Thursday, though the fans were well pleased. The visitors left today for Corsicana and will be back here on Sunday, at which time a game will be played, the gate receipts of which will go to the Cleburne players. A smoker was given the visitors last night by the local Elks. The fans concede the Austin bunch to be one of the best that has ever played here and all are highly impressed with the work of Shortstop Cook, who had nice chances with no errors. The attendance was about 800 yesterday.
The score:
Cleburne - A B R H P O A E
Reed, 2b. .... 4 0 1 0 7 0

News From the Oil Fields

The Corsicana Petroleum Company has something like twelve mile of eight inch pipe here and will immediately begin laying an oil pipe line from here to Petrolia where it will connect with lines running east. The remainder of the pipe will be unloaded at Burkburnett and Petrolia. - Electra News.
The Producers Oil Company are this week building a loading rack immediately west of the Corsicana loading rack in order to be able to take care of their oil production until they have their pipe line to Petrolia completed. The company has its 27,500 barrel tank about full and it has become necessary to begin making shipments. - Electra News.
The National Supply Company have their house almost completed and will soon be ready to put in its extensive stock of oil well supplies. The company has its entire three hundred feet of right of way and is rapidly unloading pipe and other heavy material. - Electra News.
The Brown & Cross well No. 1 was drilled into the 1000 foot sand last Wednesday morning but at last account had not been finished. This is a well that has been closely watched as it will serve to show up some comparatively new territory. It was shut down for several weeks and was only recently started again and record breaking time has been made since work was resumed. - Electra News.
The Frick-Reid and Atlas Supply Companies have their houses about completed and it will not be but a few days until they will be ready to receive their stocks of supplies. Both of these establishments are well established and well known and it speaks well for the Electra oil field that they have decided to place branch houses at this place.
The Oil Well Supply Company will soon begin their store house and it is rumored that there is still another that will locate here. - Electra News.
Work is progressing nicely on the Showers well, a depth of 1280 feet having been reached up to Friday morning, according to driller, McIntire's statement. We understand that up to the present time good indications for oil have been had. - Harold Times.

News Forecast for the Coming Week

Washington, D. C., Sept. 9.—Next Friday, on his 54th birthday anniversary, President Taft will start from Beverly on the most important trip that he has planned since he has been in the White House. The trip will take him through nearly the whole of the Southwest and West, as far as the Pacific coast. His first stopping place will be Syracuse, N.Y., where he will attend the opening of the New York State Fair.

Following one of the most interesting and strenuous campaigns that New England has ever known, the voters of Maine will ballot on Monday to determine whether the policy of constitutional prohibition of the liquor traffic, which has prevailed for more than a quarter of a century, shall be retained.

A general investigation into freight rates on live stock, packing house products and fresh meats in effect throughout that portion of the country west and southwest of Chicago, will be opened at Oklahoma City Monday with a hearing before representatives of the Interstate Commerce Commission.

Saturday will be the anniversary of Mexican independence, ordinarily a day of great celebration throughout the republic. Fear of an uprising against the government will result, it is said, in almost all the celebrations being postponed this year.

The eyes of Christian Endeavorers throughout the world will be on Aylmer, Quebec, Tuesday, and when an address and banquet will be tendered to the Rev. Francis E. Clarke, the founder and president of the organization. Dr. Clarke was born in Aylmer, and Tuesday will be the sixtieth anniversary of his birth.

With the near approach of the date of election, public interest in the

political campaign in Canada is expected to reach the high stage. Sir Wilfrid Laurier will devote the week to a speechmaking tour of Quebec, while Mr. Borden, the leader of the opposition, will carry his campaign into Nova Scotia.

The most important gathering of the week will be the annual conference of the Governors of the States of the Union, which will assemble on Tuesday at Spring Lake, N. J., for a session of five days. The chief executives of at least thirty States are expected to attend. Employers' liability, inheritance tax, fixing of interstate rates, public utilities and prison labor will be the principal topics discussed.

The first convention of national park superintendents and officials of the Interior Department will meet Monday at Yellowstone Park. The convention will thoroughly discuss the proposed bureau of national parks which Secretary Fisher hopes to have established shortly.

Other conventions of the week include those of the Trades and Labor Congress of Canada, at Calgary; the National Association of Postmasters, at Omaha; the National Association of Stationary Engineers, at Cincinnati; the National Society of the Army of the Potomac, at Providence, and the Atlantic Deep Waterways Association at Richmond, Va.

Events abroad that will be of more or less interest to American readers will be the annual maneuvers of the German army, the annual meeting of the British Trades Union Congress at Newcastle, the Thirteenth International Congress Against Alcoholism at The Hague, the International Congress for the Protection of Infants, at Berlin, and the celebration of the 500th anniversary of St. Andrew's University, Scotland.

CONJECTURE ABOUT RAILROAD PLANS

CHEYENNE HAS A NEW GUESS COMING EACH WEEK—THE BETTING IS EVEN.

THREE NEW RAILROADS

The W. F. & N. W. C. & O. W., Oklahoma Pacific Talk Cheyenne.

Cheyenne Star. "The W. F. & N. W. Railroad run a second survey into Cheyenne during the past three weeks and reported on good authority that other corps of surveyors are in the field settling grade stakes. This is very much like these people mean to rush the work of construction through at the very earliest date possible.

"Everything goes to show that this is one of the biggest railroad being waged that this state ever knew. The Oklahoma Pacific and the W. F. & N. W. are both secretly preparing to extend their lines through the territory, both headed for Cheyenne, question is, which will get here first. The W. F. & N. W. have a much shorter route and are railroad builders, are doing some of the smoothest work ever known in railroad circles.

"The Oklahoma Pacific people quietly laying their plans to build line to Cheyenne by May 1st, 1912. The W. F. & N. W. has not any proposition to us yet, although it is thought that they will make one in the next few days.

"Tom Nance is herein the interest of the C. & O. W. He gives out the information that his road has a corps of surveyors in the field running a line to Cheyenne and that the survey will be completed within the next fifteen days, the surveyors are now working between Butler and Hammon.

"He says that he has secured the financial backing to extend this line and that Cheyenne is on this line and that he will rush the work fast as possible.

Yet, somehow or other it looks like, or has the appearance to somebody, though we may not understand why or how, but still we cannot resist the presumption no matter what grounds it may be based, that there is something about this thing that is not generally understood by everybody. But still if both these roads build to the county seat we will not be found on the contrary side.

The surveying party were between Butler and Poes last Wednesday. They started out from the Butler road about four miles from Butler, where the road leaves the valley, and are coming up the river.

We understand that these engineers are the same ones that run the line from Hammon to Cheyenne for the Wichita Falls road. Now it is not unreasonable that two roads might aspire to reach Cheyenne, and it is possible for the same civil engineers to

be employed by two or more at different times and make no inference.

There is, however, a small of about \$50,000 in the coffers of Cheyenne payable to the first railroad that opens up traffic that town. Now, if the Butler line not been sold to the Wichita people and the Wichita Falls continue to "lay low and say nothing," they may find before long they have squandered a few hundred on a fruitless expedition up the ita Valley.

ed into the total of the probable 50. Governmental rate making be forced to take cognizance of personal injury payments and to them due and proper consideration in the fixing of freight rates. It is in this manner that the roads are required to collect from "Joneses who pay the freight" sums needed to meet these personal injury payments. And under the terms of handling personal injury cases in Texas freight rates are high enough so as not only to provide adequate and proper compensation for those injured in the conduct of transportation affairs, but also to provide for the staggeringly large waste incidental to such a system.

No state in the union can show a record that compares even remotely in size to the record of the Texas roads in the matter of personal injury payments. Whether this is because of the unusually large verdicts in a few counties, or because of the unwarranted waste in handling such cases students of economic affairs have not yet agreed. A fair compromise would be that both elements contribute their full quota to the end.

Progressive Republicans of Minnesota are arranging for a State banquet in Minneapolis, September 7, at which time a boom for Senator La Follette of Wisconsin for president is to be launched.

New Fall Suits

We Make a Most Attractive Display of Many Advance Models in New Fall Tailored Suits, Costumes, Skirts and Velvet Dresses, and Invite your Inspections

The suits are shown in serges, cheviots, Scotch mixtures and manish suitings, with coats 28 to 30 inches, skirts just a little fuller than last season, but still retaining their straight lines, with trimmings of buttons, velvets and braids. The costumes are show in beautiful plain diagonal and stripped serges, in wide color range, trimmed with beads, black satin, and some with sheppered check.

Velvet dresses bid strongly for popular favor this season, and we are now showing a very fine selection in brown, navy,

Wool and Iron Clad Hosiery

### DENMARK TO HAVE HIGHER TAXES

HIGHER IMPORT ON SPIRITS, AN INCREASE IN INCOME AND PROPERTY TAX.

### A COPENHAGEN LETTER

Rumored That United States is Negotiating Purchase of Danish West Indies.

Copenhagen, Sept. 9.—The absorbing topic here is the coming session of parliament, which is expected to make radical changes in the prevailing systems of taxation and suffrage. Some of the proposed tax legislation will be supplementary to the acts passed at the last session when taxes on theatre and other amusement tickets, revenue dues and additional railroad rates were added to the budget.

The new taxation acts will include a higher import on spirits, an increase of the income and property tax and probably a real estate value raising tax.

The necessity for these measures to increase the income of the state is due chiefly to the operation of the new social laws providing for old age support and workmen's compensation. The budget for this purpose has already grown far beyond the original estimate. The burden has been increased further by the higher pay given civil and military officers. On the other hand the usual revenues have been decreased by the reduction in custom duties.

It is expected that the new taxation laws passed by the last session of parliament and the ones proposed for the coming sitting will give the state an additional income of 20 million Danish Kroner.

The position of the present government, already shaky on account of its taxation policy, may be made very uncomfortable, especially by the taxation of spirits which up to the present it has feared to touch.

Among the suffrage proposals will be an act making the franchise for the lower house of parliament universal. Both men and women over twenty-five years of age will be permitted to vote for the members of the lower house. It is also planned to do away with the restricted suffrage of the upper house whereby only highly taxed voters are allowed to vote for its members.

Among other acts to be proposed will be a law to compel beneficiaries of old age support to share in the expense of the plan. An act contemplating the reform of the present management of the elementary public schools will also be proposed by the government.

The official announcement that the Panama canal will be opened in 1915 has again given rise to the rumor that negotiations for the session of the Danish West Indian islands to the United States have been opened. Dr. Maurice Egan, the American minister, refuses to discuss the matter, but his frequent interviews with business men interested in the islands has given some color to the rumor. It is known that Dr. Egan believes that the commercial growth of the islands

would be facilitated by the proposed change in ownership, but evidently he is convinced that all overtures on the subject should emanate from the Danish government. The story that there has been a proposition broached to cede one of the Philippine islands to Denmark with the view of its later cession to Germany in exchange for Schleswig has been pronounced ridiculous by the American legation here.

Besides the opening of the canal and its possible effects on the Danish West Indies, the growing interest of the South American republics in Danish commerce is exciting interest here. This is due largely to the growth of exports from the United States to Denmark. A remarkable feature of the trade relations between the two countries is the fact that in spite of the lowering of the duties on hides by the United States the export of them from this country to America has almost ceased.

Although a year has passed since the death of the popular Princess Mary, her coffin still stands in the Holmens church. Every arrangement has been made to remove the body to the Royal tombs in Roskilde cathedral, but the husband of the late princess, Prince Waldemar, will not consent to the removal, preferring to have the coffin near his home where he can visit it frequently. Every day he goes several times to the church.

### CERTAIN RESULTS.

Many a Wichita Falls Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Wichita Falls. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

Mrs. G. H. Swope, 712 Burnett Ave., Wichita Falls, Texas, says: "My kidney trouble was of long standing and the attacks were severe at times. During the past two years I suffered terribly from a difficulty with the kidney secretions and weakness across the small of the back caused me no end of misery. Hearing that Doan's Kidney Pills were good for such troubles, I got a box from the Wichita Drug House and began using them. They brought relief quickly and proved to be a most effective kidney medicine. I used no other remedy at that time and I can therefore give Doan's Kidney Pills the entire credit for the change in my condition." (Statement given June 16, 1909.)

### Lasting Results.

On December 8, 1910, Mrs. Swope said: "I have been quite free from backache since I used Doan's Kidney Pills and consequently, I am willing to verify my former endorsement of them. This remedy is the most effective one I ever used for troubles caused by the kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

For the first time since the Republican party began its long lease of power in Massachusetts, now more than half a century ago, its control of the legislature promises to be seriously challenged in the elections this fall.

The states that will elect governors this fall are Maryland, Kentucky, Mississippi, Rhode Island and Massachusetts.

## The Week at Burkburnett

(Burkburnett Star)

L. W. Proctor returned Friday from Alford, where he was called on account of the serious illness of his sister last week. Mr. Proctor stated that his sister was quite low with slight chance for recovery.

Sam Williamson was up from Petrolia Friday and Saturday helping start the big engine at the plant of the Simmons Gin Co. Same said he had been busy during the past three weeks at Petrolia loading out machinery for the Electric oil field.

An election will be held throughout Wichita county on October 13 to determine whether or not stock will be permitted to run at large. There is little objection to such a law and it is safe to say the measure will go through with flying colors.

Miss Oma Hollabaugh arrived from Alford Tuesday of last week to take charge of the music department of the Burkburnett public school. Miss Hollabaugh is a Baylor University graduate and will no doubt acquit herself in the position mentioned in a highly creditable manner.

A slow, steady rain fell throughout the Burkburnett section most all of Sunday night. Light showers also fell at intervals Monday. These rains were of great benefit to growing crops of all kinds and especially cotton and feed stuff.

Sam Williamson has accepted the position of engineer for the Simmons Gin Co. at this place. Sam held the same position last season and has a host of friends here who are glad to see him back at his old post of duty. Mr. Williamson is an expert mechanic and knows just how much steam to turn on to make the saws "kut" the "kotton" from the seed without injuring the lint.

A. J. Van Cleave and son, John, left Sunday for Clarendon, Texas, at which place Mr. Van Cleave will rest awhile for the benefit of his health and John will enter the Clarendon Baptist College.

Rev. J. Leonard Rea and wife are in Fort Worth this week; where Rev. Rea recently underwent a serious operation to correct a defect in his eye sight. A letter from Mrs. Rea states that Bro. Rea is getting along nicely and that they will be home for the Sunday school institute at the Methodist church Saturday an Sunday.

The protracted meeting at the Christian church conducted by Elder L. F. Mason of Fort Worth, closed Monday night. The meeting was well attended and much good accomplished. Baptismal services were conducted at the

Hardin tank northwest of town Sunday and Monday afternoon and Sunday night.

Chas. G. Bradley, recently of San Benito, Texas, has accepted the position of ginner at the Simmons Gin Co. at this place. Mr. Bradley is an experienced ginner, having spent a number of years in that work. His father is one of the oldest gin men in North Texas, and in young Bradley the Simmons people have secured a valuable employee.

A. J. McDaniel returned to his home in Wise county Tuesday, after a few days' visit with his son, Jesse, and family at this place. Mr. McDaniel is a frequent visitor to Burkburnett and likes this country well. He conducts a large farm in Wise county and is one of the most successful farmers in this section. He stated that a day or two before coming up here he sold a couple of wash tubs of tomatoes off his farm for over \$15. "Uncle Jim" has many friends, who are always glad to see and talk with him.

Night station agent, T. L. McGee left Sunday night for Fort Worth, where he will finish his training in telegraphy. Mr. McGee is succeeded by Irven Blum as night agent at this place. Young Blum is amply qualified for his new position and will no doubt make good in every way.

Zemo Cures Eczema, Pimples, Dandruff, Prickly Heat, Sunburn.

and affords you skin comfort during the hot weather. We give you three reasons why we recommend ZEMO for skin trouble.

1st. ZEMO is a clean, scientific liquid preparation—pleasant and agreeable to use.

2nd. ZEMO stops itching at once and always the irritation and promptly soothes and heals the skin.

3rd. ZEMO gives universal satisfaction and is recognized by skin specialists as the standard remedy for all skin and scalp troubles.

If you wish to try a bottle of ZEMO for yourself or one of your children and it does not do exactly what we say, we will return your money without quibble or question.

MILLER'S DRUG STORE.

Many of the politicians are now agreed in the opinion that the national Democratic convention next year will meet in Baltimore and the Republican convention in Chicago.

Joseph E. Davies, who has been chosen member of the Democratic National Committee from Wisconsin, is a resident of Waukesha and a graduate of the law school of the University of Wisconsin.

Dr. John W. Abercrombie, president of the University of Alabama, is mentioned as a probable candidate for Congress.

## Wichita Southern Life Insurance Company

Offers to its patrons the most attractive policy contracts on the market. It is just as strong if not stronger than many of the older companies for the reason that it has more assets in proportion to its liabilities which is the real test of strength.

We are compelled by the law to put up the same relative reserve for the protection of our policy holders as the largest company doing business in this state.

If you are in the market for a policy, buy it from your home company, and keep Wichita Falls' money at home.

## Wichita Southern Life Insurance Company

### CATARH SUFFERERS.

If You Don't Know About Hyomei Try it at O. F. Marchman's Risk.

Nearly every reader of the Times has read about HYOMEI, but many of them continue to suffer from catarrh just because they do not exactly understand just what HYOMEI is.

To those sufferers O. F. Marchman says you don't have to know anything about HYOMEI—except that you breathe it and that it does not contain opium or any harmful drug.

You can find out all about HYOMEI without taking any chances whatever. Just get an outfit today, read the simple instructions, give it a fair trial and then if you are not willing to say that it is the best remedy for catarrh you have ever used O. F. Marchman will gladly return your money.

William J. Browning, for many years chief clerk of the house of representatives, is a candidate for the Republican nomination for Congress in the First New Jersey district, to succeed the late Congressman Loundenlager.

LEAVES UNWHIPPED SAYS BLACK JACK

Paris, Sept. 9.—Jack Johnson expects to retire from the ring unwhipped. Discussing his plans today, he declared that after he had disposed of the contenders for the title he would return to Paris to live. He said: "There is absolutely no present prospect of anybody ever licking me. I am going to England next month to polish off Bombadier Wells. Then I am going with McIntosh to Australia, where I will lick both Sam McVey and Sam Langford. That will clean up all of the men who think they have a chance with me. After that I will keep all of my theatrical engagements, which cover another year. "At the end of that time I will come back to Paris, announce my retirement from the ring and open a big gymnasium. I will pick half a dozen of the next best men in the world, then and let them fight for the title in France, England, America and Australia. To make it interesting, I will buy a big championship belt, and will act as referee myself."

FORTY HURT IN FIERCE FOOD RIOT

SPIRELLA CORSETS Command Attention from Critical Dressers MRS. NANNIE JENNE 1404 TENTH STREET PHONE 464

Pick up any cook book and a great majority of the recipes call for cream (not-milk) How often do you have the cream? We have just received a shipment of

Dahl's Double Thick Cream

in tins. This is just what its name implies—Just Cream—Double Thick Cream. Not a thing added and can be used for any recipe that calls for cream. Keep a few tins in the house and you can make any recipe calling for CREAM and can always have CREAM in your coffee and to serve with your fruits and breakfast foods. Now don't confound this with any condensed or evaporated milk or so called evaporated cream—this is PURE CREAM from which all milk is extracted by centrifugal force and reduced to a thick paste. Made in Norway and now being introduced for the first time in America. It will pay you to investigate.

O. W. BEAN & SON 608-610 Ohio Avenue GROCERS AND COFFEE ROASTERS Phone 35 and 604

Our Phone

is yours when you want it. Just tip the hello girl that you want to get fastened to 3-4 and whimper what you want into the phone and it is coming right up.

We can find your doctor if you can't, phone us, we find them after the police have given up.

Don't forget the phone, we are there 18 hours a day.
