TALK CLARENCE OUSLEY FOR BAILEY'S PLACE

(Star-Telegram) Friends of Clarence Ousley, editor of the Fort Worth Record, are urging him to become a candidate for United States senator to succeed Senator Bailey, and are seeking to ascertain the sentiment among leading Democrats over the state in regard to the matter.

A dispatch from Austin to the effect that Comptroller Lane had received a circular letter from Dr. R. O. Braswell of Fort Worth, asking for his expression on the subject, was confirmed by Dr. Braswell Wednes-

The letter says: "The friends of Clarence Ousley are urging him to make the race for the senate to succeed Mr. Bailey. He will not consent to be a candidate unless he may be assured that he may make the race as a Democrat, and the issues will not be drawn strictly on partisan prohibi tion lines. Every one of course, knows his position on the prohibition question, but we, his friends, realize in him a safe, sane, honest and able Democrat, who if elevated to the senatorship would reflect high credit upon Texas and are therefore extremely anxious to have him offer for the

The letter concludes with a reques that each recipient give expression to his views on Mr. Ousley's candi-

Dr. Braswell said Wednesday that he knew Mr. Ousley's views so well that he knew he could not be induc ed to offer for senator unless he could be assured that the campaign would be conducted on a basis of legtimate issues, and therefore had acted upon his own initiative in the hope of get ting facts that would induce Mr. Ousey to become a candidate.

The Times has gone through fat years and lean years, and through it all has learned that there is certain and bountiful recompense for any temporary hardships But what makes it most worth while to live here and inspires the belief in the certain destiny of the city is the spirit of its citizenship who have smiled through bitter struggles, always facing the future with confidence and bravery

Bailey is quoted as having said: "that f the present primary law was maintained in Texas it would result in the final passage of laws prohibiting the

use of money in campajigns, and having the candidates run on principles solely." He also declares that the practice of hauling voters to the polls to vote (unless they were cripples) should be be stopped. For the second or third time, let it be recorded that the Times thoroughly endorses the stand taken by Senator Balley on the two subjects above mentioned.

In the event Mr. Ousley should con clude to become a candidate for United States Senator to succeed Senator Bailey, he will be in a better position to appreciate some of those blistering editorials that the Record has from time to time aimed at Mr. Bryan for bolting the regular Democratic nom inee for governor of Nebraska. Democrats in the congressional district of Galveston will probably be in a position to furnish some facts that will bother Mr. Ousley considerably, especially as it is said that in the event he makes the race it will be only as a Democrat, and in the opinion of many, the best proof of a Democrat is "a voting of the ticket."

There is not much danger of the Wilson boom bursting itself. It is now as it has been from the start,-

There is a novement of that kind on foot in nearly every state wheer it is conceded that Wilson has the advantage, and Texas is no exception to the rule. Something along the "favorite son" ine is likely to be sprung in this state at any time now.

There is plenty of work in Wichita Falls for common labor at \$2 per day. As an evidence of this the contracting company that has a contract for puting in the new bridge across the Wichta river is unable to keep the work going regularly, on account of the carcity of labor.
