## Great Anniversary Sale

The greatest bargain giving event in our history in Wichita Falls. We opened our store in this city three years ago and enjoyed a good trade from the first day. Our trade has increased each year and the year just closed is the largest we have ever had. We wish to thank each of our loyal customers for their valued patronage in the past and to pledge you our most earnest efforts to continue to give you dependable merchandise at the lowest possible price. By paying cash for our goods we are in a position to get the lowest price, by selling for cash we can afford to turn them over at a smaller margin of profit, and our customers get the benefit of two cash deals which any intelligent person knows is bound to be a great saving. We are going to open this sale with a great clearing of all summer goods, absolutely nothing reserved. Men's Clothing, Furnishings, and Shoes. Ladies Suits, Wash Goods, Muslin Underwear, Shoes and Notions, all go in this tremendous cut-price sale.

We want to make Saturday, July 17, the biggest day in the history of our business. Look what we offer.

The first 10 ladies who buy and pay for \$2.50 worth of goods will be presented with a nice dress. The next 10 ladies who buy and pay for \$5.00 worth of goods will get a nice dress. The next 20 ladies who buy and pay for \$10.00 worth of goods will get a nice dress.

Now for the MEN. The first 5 men buying clothing in our store can have choice of any suit in our house, Blue Serge excepted, at exactly one half price.

### MR. BULLOCK REFRESHES HIS MEMORY.

Editor Times—Of course I was present at the meeting held to discuss the advisability of calling the bond elections. No promises were made at that meeting (as I remember it) that taxable values would be exactly the same this year as last and that all property would be assessed at the very same value as in 1908.

I still contend that I never attended any meeting where the chairman said positive promises had been given by the city or school authorities that taxable values would absolutely not be raised one single cent. Evidently, therefore, you must refer to some other meeting when I was not present. If this occurred it would be ridiculous to assess all property at the same old values from year to year in a growing city like Wichita Falls, it matters not how much it may have increased in value. Why is the Times so sensitive on the question of taxation? The law says all property shall be assessed at full value. Can you give a single valid reason why any property should not be taxed for city and school purposes at two-thirds its cash value? Is not such a value just, fair and reasonable? I do not now call to mind any promise made by the school board on taxation that has yet been broken. However you may be right in your contentions and I may be wrong, as no one is infallible, but I feel sure in some things, at least, you are mistaken. Very truly,

W. J. BULLOCK.

In reply to Mr. Bullock's question, the Times will frankly admit that it is just a little bit sensitive on the assessment business when it remembers that he is our efficient county assessor, and as such assessed the Times Printing Company for 1909 taxes at just one-half the value our city board of equalization placed it at for the same year. In this connection, it might also be well to remember that Wichita county tax values are as high, if not higher than any county in the State.

As to the other part of his letter, the following from the president of the Chamber of Commerce, substantiating what the Times has contended for, will be sufficient:

### How Mr. Huff Views the Matter.

Editor Times—In response to your request will state that at various times during the spring the Chamber of Commerce had under discussion the paving question, and also the question of providing additional school facilities, and a public meeting of citizens was called to discuss these propositions.

Mr. Noble, as mayor, and Mr. Bullock, as president of the school board, joined with me in making the call.

I got the impression from what these

gentlemen told me that both of them would be satisfied to have property assessed on the basis of last year's assessments, where there had been no improvements, and I think that I so stated in public meetings held at the city hall on two occasions, and on one of them I think both Mr. Noble and Mr. Bullock were present and I presume heard me.

When there seemed to be considerable opposition to the paving bonds, I wrote the article published in your issue of May 15th and through the Chamber of Commerce had several gentlemen sign with me and also had a separate statement made by Messrs. Bullock and Noble endorsing it.

At the time, I thought what we said meant the same values as last year. However, in a discussion of the matter before the directors of the Chamber of Commerce last Tuesday, all of them disagreed with me as to the meaning of the terms we used, and endorsed the construction contended for by Mr. Noble, which was practically that we had promised the same BASIS for valuation as in 1908, which was two-thirds of the actual values.

While this was not my meaning and understanding, yet as none of them understood the matter as I did, and as they are honorable gentlemen, I conclude that I could not have made my own meaning clear to them and that if the language means what I thought it did that they acted under a misapprehension in signing it.

Therefore, while I understood the matter just as the Times did, I feel sure my associates did not.

As the Board of Equalization states that they are trying to see that no property is assessed above two-thirds of its actual value, which was last year's basis, I think we should concede that they are trying to carry out the matter as the others seem to have understood it. Respectfully,

ROBERT E. HUFF.

American Labor Leader in English Capital Tomorrow.

London, July 16.—Samuel Gompers, president of the American Federation of Labor, is to be one of the principal speakers tomorrow at a great demonstration to be held at Parliament in behalf of the organized working women of London and vicinity. Will Crooks, a labor member of Parliament who visited American some time ago, will be another leading speaker.

The demonstration promises to be the biggest affair of its kind that has ever taken place in England. The arrangements have been carried out by the Women's Trade Union League and the Women's Labor League, with the official support of the labor party in Parliament.

The purpose of the affair is to impress upon the public the extent and importance of woman labor in the industrial world and the necessity for immediate legislation for the better protection of women workers and the promotion of their welfare. One of the features of the program will be an exhibition of crested industries showing the condition under which thousands of women and children earn their daily bread in London and other large industrial centers of the United States.

### TO SAVE CHINAMAN.

#### Fund is Raised to Prevent Execution of Murderer.

Boston, Mass., July 16.—It was learned today that a fund of nearly \$10,000 has been raised to carry the case of Harry Charles, a well known Chinaman, to the United States Supreme Court. Should the appeal to the highest tribunal fail to bring about a new trial Charles, together with four of his countrymen, will be put to death in the electric chair in Charlestown prison in October.

The murders for which the Chinamen have been sentenced were committed August 7, 1907. On the evening of that date ten Chinamen, armed with large-calibre revolvers, entered Oxford place, one of the thoroughfares of Boston's Chinatown, and proceeded to shoot up the street, stores and houses in the vicinity. Chin Kon Quin, Wong Shu Chung, Chin Leet and Loe Kai Nom were killed or died later from wounds received at that time, and Goon Gong, Joe Guey, Wong Duck, Wong How, Dong Bock Ding, Yee Wat and others were wounded.

Ten Chinamen were arrested and charged with the murders. The first trial began on Jan. 30, 1908, but was discontinued after three days because of the illness of one of the jurymen. In the meantime one of the accused Chinamen had died and the case of another was not pressed. The second trial began on Feb. 3, 1908, and lasted for twenty-nine days, the jury returning a verdict of guilty in all cases.

Public interest centers almost wholly in the case of Warry Charles, who is one of the most widely known Chinamen in America. For a number of years he has conducted a large laundry business in Boston, with branches scattered throughout the city. Charles came from the Hoy Ping district in China with his uncle at the age of 11 years, being in the family of a merchant in China. He lived for a time in New Orleans and there became thoroughly acquainted with the English language. From New Orleans he went to Omaha, where he took his scanty earnings and started a lad of 16, in business for himself. Ambition to get ahead, intelligent, active and sturdy, he sought an education. While he was attending a business college in Omaha he met Mary Whiting, a young woman who afterward became his wife and the mother of his children.

#### EMBRACE THE OPPORTUNITY!

Wouldn't you if you got a chance? Well, here's a chance to buy choice lots, houses and farms such as was never offered to you before. Come in and see my list. The opportunity of your life is lost if you don't.

OTIS L. DUNCAN

Real Estate Agent  
606 Seventh street.

In New York Charles was successively an agent for the Santa Fe Railroad, a dealer in stoves, laundry machinery, hardware, and interpreter in the court of general sessions, a floor-walker in a department store, and a Chinese inspector under Secretary Carlisle in the second Cleveland administration.

In New York he was arrested charged with conspiracy to betray Government secrets, but was discharged. He was then Chinese inspector, but was suspended. He later worked for the Lexow investigating commission and came to Boston after having been attacked in New York. After coming to this city he served for a number of years as a court interpreter and became well known.

The effort to save Warry Charles from the death chair has been taken up all over the country by members of the Army and Navy Union of which Warry Charles, a New York policeman and son of the condemned man, is a member. Several prominent army officers also have taken a lively interest in the cause of the condemned man and they are also doing some work. Gen. Felix Agnus of Baltimore has taken an interest in the case and he has written several letters in behalf of the condemned Chinaman. Warry Charles was a member of a New York regiment in the Spanish-American war and many of his comrades are assisting him in his efforts to save his father. Among those who have taken official action in the matter are Major Charles F. Roe, garrison of Brooklyn, and the Gen. Lawton garrison of Newburg, N. Y.

The local authorities, notwithstanding the widespread movement started in behalf of Charles, declare that he is deserving of little sympathy. According to their belief he is one of the most dangerous men in America and was the brains of the conspiracy which caused the murders in Oxford place two years ago.

D. B. KING.

#### Mrs. Eddy is 88 Years Old.

Boston, Mass., July 16.—Notwithstanding the recent reports alleging her to be dead or very near to death, Mrs. Mary Baker G. Eddy, the founder of Christian Science, today added another milestone to her life's journey, and according to those in closest touch with her she passed the day in accordance with the routine she has followed for several years. At her beautiful home in Chestnut Hill she spent the morning in reading and writing and after luncheon she took her customary drive. This daily drive Mrs. Eddy has seldom missed since she removed to Brookline from Concord, N. H., two years ago.

Naturally enough, Mrs. Eddy does not think much of birthdays or of their cumulative effects and in accordance with her wish there was no observance of the anniversary at Chestnut Hill. Her views in regard to the matter are well known to her followers and friends, and as a consequence she received few complimentary messages or floral tributes.

Mrs. Eddy was born in Bow, N. H., eighty-eight years ago, and those who have had the privilege of meeting her recently declare that for a woman of her age she is remarkably vigorous and active.

### SCALED HIGH WALL.

#### Auburn Haired Female Prisoner Makes Daring Getaway.

Frankfort, Ky., July 16.—Dicey Gilpin, an auburn-haired mountain girl, who was a penitentiary prisoner under conviction for burglary, scaled the prison wall, which is 25 feet high, last night and escaped to a farmhouse. There she had to give herself up, as in her leap from the top of the wall she had sprained her ankle and could go no further. She was returned to the penitentiary this afternoon, after a search had been started for miles around.

Dicey and her sister, Queen, were convicted in Pulaski county several months ago for complicity with Arthur Copeland in breaking into a store 12 miles from Somerset.

Last night when the guards went along the corridors calling the roll of prisoners, Dicey remained hidden, while Queen answered for her sister.

Queen was sorely disappointed this afternoon when her sister was brought limping back to her cell. She would not tell how she escaped from her cell and scaled so high a wall.

### Magness to Be Freed.

Portsmouth, N. H., July 16.—The gates of the Naval prison here will be opened tomorrow morning for the release of Charles Magness, who was arrested for desertion from the navy a few days after he married Miss Ada Gorman, daughter of the late Senator Arthur P. Gorman of Maryland. Mrs. Magness has arrived here from Baltimore and will be the first to greet her husband when he is given his freedom.

Magness enlisted in the Marine Corps under the name of Charles J. Hartlove and was assigned to the U. S. S. Dolphin at the Washington Navy Yard. According to the official records he deserted in July last and was arrested at Louisville in October. Much influence was brought to bear upon the President and the Secretary of the Navy to get the young man out of trouble. He was tried and convicted, however, and sentenced to be dishonorably discharged and to be confined at hard labor for one year. The term of imprisonment has been reduced to eight months by good behavior.

### RAIN IS PREDICTED.

#### Weather Forecast is For Showers Tonight or Tomorrow.

A glance at the Times weather forecast will show the pleasing prediction of showers for tonight or Saturday and this prediction is strengthened by reports of rain at Sherman, Denison and other parts of North Texas. If the rain does not come within a very few days, it must be admitted that the corn outlook will be very bad. The signs are all pointing to wet weather and there is considerable hope for it.

### Auditorium Tonight.

Are presenting the Kingsley's. This team have been sent to Houston, Waco and other points to open the large air domes. until you have used one. It is as great an improvement on a coal stove as the latter is on the old fashioned fire place. At the touch of a match it gives an intense heat just when you want it. Instantly controllable. No smoke, no smell, no coal to bring up, no ashes to carry out, no uneven temperature, no fallen cakes or pies, no delayed meal. Not necessary to change your nice dress; everything clean and tidy. We sometimes take in your old stove as part payment.

## That it Costs the Manufacturer of Roasted Coffees from 3 to 10c lb. to Market their Products

Do  
You  
Know  
?

This includes advertising, salaries and expenses of salesmen, office and collection expenses, bad accounts, etc. Green coffees have a fixed market value, as cotton, corn, wheat, etc., and can be bought by everyone at the same price. That's one reason why we roast our coffees. Another one is that green coffees enhance in value with age, while the roasted product deteriorates. We are roasting a line of Rio, Santos, Pea-berries, Maracaibos, Bogotas, Kroe and Interior Old Government Javas and Arabian Mochas. These are all fine old coffees, the very best of the World's production and are roasted fresh all the while. We are roasting straight, and blend to suit all coffee tastes, we can suit yours. We care not what coffee you are using, we know we can give you a better value than you are getting. "The proof of the pudding is in the eating." Give us at least a trial. Tell us what price you are paying, and the kind of coffee you like, and leave the rest to us—
