TAMMANY BEATEN BUT GAYNOR WINS

FUSION CANDIDATES SUCCESSFUL IN NEW YORK FOR EVERYTHING BUT MAYOR.

BANNARD CAME SECOND

Hearst Brought Up the Rear—Democrats Victorious in Many Other Places.

By Associated Press. New York, Nov. 3.—With the exception of Judge Gaynor, who was elected by a majority of apparently about seventy-two thousand, the sweep of the Fusion anti-Tammany ticket was complete, in yesterday's election.

Judge Gaynor was the only democratic candidate on the city or county tickets to be successful. The victory of the Fusionists gave them thirteen out of sixteen votes on the important board of estimates. This board will control the expenditures of practically a billion dollars during its term of office.

With a few scattering boxes yet to be reported, the vote stands:—Gaynor, 246,715. Bannard, 175,062. Hearst, 150,560.

Judge Gaynor's election was conceded at an early hour last night, but it was seen as soon as the returns began to come in that the rest of the Tammany candidates were defeated and the celebration by the Tammany cohorts was dimmed by the fact. Hearst ran stronger than those in touch with the situation had predicted.

Complete returns give Gaynor a plurality of seventy thousand and sixteen. The board of aldermen will be composed of forty-two democrats and thirty-six fusionists. Indications are that the state assembly will have a republican majority of forty-five.

Louisville, Nov. 3.—Returns early today indicate that the democrats are in possession of nearly all their ancient heritage. The next legislature will be democratic by over two thirds majority, and will therefore be able to pass over the veto of the republican governor any measure desired. With the exceptions of Lexington and Henderson, where Fusion tickets were elected, all other important municipalities elected democratic officers.

Indianapolis, Nov. 3.—With the exception of Indianapolis, Ft. Wayne and Evansville the democrats are victorious in the municipal contests of the larger cities of the state.

Baltimore, Nov. 3.—Returns today indicate that the amendment to the state constitution, designed to disfranchise the negro voter was defeated by from sixteen to eighteen thousand. The democrats claim the legislature.

Philadelphia, Nov. 3.—The republicans elected a state treasurer, auditor-general and judge of the supreme court in yesterday's election. The reform opposition to the republicans was defeated by more than forty-three thousand.

Cincinnati, Nov. 3.—The republicans elected the entire city ticket headed by Shaw for mayor. The republicans were also successful in Sandusky and Columbus.

Jackson, Miss., Nov. 3.—Last night passed without any loss of life, although a dynamite bomb exploded and thousands of shots were fired, but only the walls and plaster were damaged. The democrat is apparently elected by a small vote over Adams, the present incumbent. Other democratic candidates appear to be in the lead. It is feared that tonight will be still wilder than last night.

Honey and Johnson Defeated.

Cleveland, O., Nov. 3.—With one precinct missing, early today the returns gave Tom Johnson thirty-seven thousand, five hundred and two, and Baehr forty-one thousand, two hundred and eighty-five. The entire city ticket with the exception of the city solicitor, Baker, was defeated.

San Francisco, Cal., Nov. 3.—Estimates based on a count of fifty per cent of the total vote, Fickert's majority over Honey in yesterday's election will reach thirteen thousand and McCarthy, the union labor candidate for mayor, was elected by eight thousand.

Columbus, Miss., Nov. 2.—President Taft arrived here at 11:40 and was at once taken to the residence of Hon. Blewett Lee, where a reception was held. After the parade he was driven to the industrial school where he delivered an address. He left here at 2:30 this afternoon for Birmingham.

President at Birmingham.

Birmingham, Ala., Nov. 3.—President Taft and his party arrived here at 8 o'clock last evening and after being welcomed by the reception committee, retired early.

He took breakfast this morning at the country club, and at 11 o'clock headed the parade. As the presidential party passed the Paul Haynes school, several hundred school children sang "Dixie" and the "Star Spangled Banner."

The president reviewed the parade from a stand in front of the southern club. This afternoon at 2 o'clock he delivered an address in Capitol Park, before a concourse that ran well into the thousands. He paid a beautiful tribute to Alabama and her people and was enthusiastically received.

By Associated Press. TOO MANY FARMS ARE POSTED FOR HUNTERS

Hunting in this section is fraught with difficulties this year on account of the large number of farms that are posted and those who go in search of doves and quail are finding hunting ground rather scarce. Most of the farms where good game abounds are posted and the owners threaten prosecutions to those who invade them.

A party of Wichtians who went to Byers recently in search of game entered a farm that was not posted and spent several hours in the field. Upon their arrival at the railroad station they were met by the strong arm of the law in the person of the constable, with warrants for their arrest. Two of the party were ladies and all were compelled to give bond for their appearance there. Those who are fortunate enough to have friends on the farms are proving the best hunters.

ITS HOUSE IN ORDER.

Tammany Gloomily Prepares To Give Up Its Berths in New York.

New York, Nov. 4.—Battle-scarred Tammany which Tuesday elected a mayor, but lost a city, took up today the gloomy work of setting its house in order for four years of avowed anti-Tammany government in Greater New York.

Analysis shows that the election which resulted in the defeat of the fusion forces of every important Tammany-democratic candidate below the mayor, was more of a victory of the anti-Tammany democrats, who had lined up with the republicans under the fusion banner than for the straight out republicans.

Anti-Tammany democrats elected on the republican-fusion ticket for four years will be in absolute control of the city's purse-strings. They will have a clear majority in the board of estimates and apportionment, one of the most powerful municipal bodies in any city of the world and therefore the right of spending more than a billion dollars of the city's money.

In this board, according to the anti-Tammany democrats is to be found a nucleus of what they believe will make for a complete reorganization of the democratic party in Greater New York.

Persistent rumor had it today that the attempt to create a new order of things for the New York city democracy was already under way. Charles F. Murphy, who succeeded Richard Croker as Tammany leader, came out with a formal disavowal of these rumors, at the same time denying a report that he was to be deposed from the leadership.

The presence of Richard Croker in the city was a matter of considerable speculation to those who were studying the situation and the announcement that he had extended his visit here five days longer than previously announced, was regarded as significant.

"I am out of politics for good and all," Croker declared, "not for a million dollars would I reconsider my determination to keep in the back ground. Yes, they asked me to come back, they always do that. But I'm too old and could not stand the racket."

Complete returns on the balloting in the aldermanic districts show that Tammany lost ground also in that body.

Mrs. Lockhold will recover.

New York, Oct. 30.—The long-predicted fifteen-cent mark for cotton was reached here in the market this morning, when that price was paid for spot cotton. The closing price was five points above the fifteen-cent mark.

May delivery cotton here today sold at 15.01 at the opening and December at fifteen to sixteen points higher. Big gains in Liverpool and bullish visible supply figures caused the advance. The market presented a wild scene up to closing time at noon.

Spot cotton was quiet and closed with middling at fifteen-five.

Routine Business by Council.

The regular meeting of the city council was held last night, with all members of the official family arriving to roll call except Aldermen Walsh and Bland.

The report of Recorder Rye showed fines in the city court for the month of October to the amount of \$1,825.85, of this amount, \$805.65 was paid in cash and \$1,022.20 was worked out on the streets. The number of arrests during the month were 163, and with the exception of perhaps as many as a half dozen cases, convictions resulted.

The usual number of accounts for current expenses were audited and allowed.

Another policeman, a Mr. Hawkins, was added to the regular police force on yesterday.

C. C. Huff, general attorney for the Wichita Falls and Northwestern and the Wichita Falls and Southern railroads, appeared before the council and asked for a franchise to lay a track in the city between Ohio and Michigan avenues, and 9th and 5th streets, but the council did not act on the matter.

Tax Collector Robertson's report for October shows that \$415.80 was collected during the month, \$212.40 of which was 1909 taxes. The balance was for occupation and back taxes.

The collector's office also shows that 770 poll taxes were assessed for the year 1909. It is believed, however, that there are at least 1000 poll tax payers within the city limits, and that fully that many will be collected.

POSTOFFICE MAKES NEW HIGH SHOWING

OCTOBER RECEIPTS BROKE ALL RECORDS WITH TOTAL OF THIRTY-THREE HUNDRED.

INCREASE 26 PER CENT

Gain for First Ten Months of This Year Now Totals Over Six Thousand Dollars.

From Tuesday's Daily.

The Wichita Falls postoffice receipts broke all records during October and that month's showing made a new high water mark for the office. The receipts totaled \$3355.35 during October. October of last year was the banner month until last month's showing was reached.

The receipts during October of 1908 totalled \$2679.63 less than the total for the same month this year. This is an increase of about twenty-six per cent.

The total increase for the first ten months of this year over the first ten months of 1908 amounts to \$6209.58, which is about thirty-five per cent increase for the year. If the postoffice receipts are to be adjudged an accurate business barometer, the gain of Wichita Falls in a commercial way has been very substantial.

October gained about twelve hundred dollars over September of this year, the receipts for that month being twenty-one hundred dollars.

GAMBLING DEN WRECKED BY BOMB EXPLOSION.

Chicago, Nov. 1.—Two bombs were thrown here last night in the downtown district in buildings occupied by gambling clubs. The bombs were the thirty-second and thirty-third that have been hurled in gambling establishments within the last two years. No one was injured, but many windows were broken in buildings adjacent to the explosions and store stocks were damaged.

The first bomb exploded soon after 6 o'clock in a building at 26 State street and the other followed fifteen minutes later in a building near the corner of LaSalle and Madison streets. In the State street building the Empire club is located and the buildings at Madison and La Salle streets housed the Worth Jockey club.

Both clubs are said to be operated by a faction of local gamblers.

Fourteen-Sixty Paid Here.

Local cotton prices reached another high water mark this morning, when 14.60 was paid for middling cotton by local buyers. Several bales changed hands at this figure.

This high price coupled with the telegraphic announcement from New York that the fifteen cent mark has been reached, indicates that the highest prices since the civil war will prevail before very long. Fifteen cent cotton locally is only about forty points above the highest price paid today.

WHAT IS HYOMEL?

You Have Heard About the Catarrh Cure Mater-Walker Drug Co. Guarantees.
Hyomel is a wonderful antiseptic, so powerful that it promptly destroys germ life, yet its action on the mucous membrane is extremely soothing and healing. It relieves catarrh in five minutes; it cures in a few weeks or money back.

It is made chiefly of eucalyptus and eucalyptol taken from the eucalyptus forests of inland Australia. The medical profession knows that eucalyptus is an absolutely certain germ destroyer and with the active principles of eucalyptus as a base Hyomel is more efficient, pleasant and quick acting by the addition of Thymol, an antiseptic and disinfectant largely employed in the Listerian System. Guaiacol and other important medicinal agents are also included in the Hyomel formula, which, without doubt, is the greatest destroyer of catarrh germs the world has ever known.

Hyomel is a powerful, penetrating antiseptic that is pleasant to use. It does not contain a particle of cocaine, opium or any habit-forming or injurious drug.
No dosing the stomach when you use Hyomel. Just breathe it in through the small inhaler that comes with each outfit. Sold by leading druggists everywhere and in Wichita Falls by Mater-Walker Drug Co. \$1.00 for complete outfit.

IS WOMAN A SERVANT?

"In the main, the position of woman is curiously like that of the servant in the house," says Inez Haynes Gilmore in Success Magazine. "A servant with good wages and a generous allowance of afternoons and evenings 'out,' a servant carefully nursed when she is ill and attended by the master's own physician, a servant who is sure always of generous tips, when there is extra work, and of a carefully secured old age. Like a servant, however, it is her interest to spy on the master, to discover his weaknesses and to play upon them. In some respects it is a pleasant position, although it is always an uncertain one, for, from her birth to her death, her welfare depends not on herself, but on a man; her father or brother or guardian first, her husband second, her son last. Luck always controls her destiny. Though the wheel of chance may set her in a pleasant place today, there is always the dread on her of a week's notice, the possibility of the crowded vista of the employment agency tomorrow.

Her duties ranging over a limited area of human endeavor, made for a cheap versatility rather than, as in the case of the men, for the development of special gifts. Her working hours and her wages are arbitrarily fixed by men. Her habits are settled by men. Her intellectual convictions are doled out to her by men. She has never, until this generation, been permitted to cultivate her mind. As her chief control of man is through her sense, she thinks almost entirely with her emotions."—Austin Statesman.

THE SAME YESTERDAY AND TODAY.

Few persons doubt Mr. Hearst is the same today that he was yesterday, yet it is interesting to note the changed attitude of certain eastern men relative to the millionaire editor at this time with a remembrance of how they reviled him only a short time ago.

President Roosevelt denounced him in the roughest terms in a published statement as practically an anarchist, and held his publications as responsible for the death of President McKinley at the hands of an assassin.

That was when Mr. Hearst was working in the harness for the success of the democratic party. Later the New York editor was summoned to a conference with President Roosevelt at Washington. And when Hearst organized his Independence League to engage in a guerilla warfare against Mr. Bryan in the last presidential campaign, he became politically sanctified in the sight of the party of protection of the rich and robbery of the poor.

One New York newspaper, the staid and grandmotherly Evening Post while somewhat softened in its attitude toward Mr. Hearst, is yet a bit dubious and remarks: "The more a man like

Hearst changes the more he remains the same thing."

The west became interested in Mr. Hearst a few years ago and thought much of him, but it was not long in discovering that he was as unstable as a weather vane. Politically he would not remain hitched. In the hour of need he could not be found. The west has since learned that William Randolph Hearst is for Hearst alone in all places and at all times.

In the present campaign in the city of New York the editor of the American is a majority candidate, ostensibly in behalf of the people and good government, but in reality to split up the good government vote so that it will be impossible for a genuine reform candidate to be elected.—Oklahoma.

PROSPERITY IN WICHITA COUNTY.

It is now almost certain that the gins in Wichita county will turn out more cotton this year than they did last. The two gins in this city will fall short of 1908's output by about 1000 bales, but the shortage here will be more than made up by the increase at the gins at Iowa Park, Burnett and Electra, and, according to the estimates of a well-posted gin man, who has an interest in and is operating two gins in the county, the increase over last year will be in the neighborhood of 100 bales. If he is correct, it will show that Wichita county has, or will produce, for the year 1909 at least 7000 bales of cotton, which, counting the seed, will be sold at an average price of \$80 per bale, or a total of \$560,000 for the entire 1909 cotton crop.

When it is remembered that it is only for the past four or five years that Wichita county farmers have been producing cotton to any great extent, a 7000 bale crop in an unfavorable crop year is considered a most excellent showing.

In addition to the cotton crop a very good corn crop has been produced and it is estimated that at least 250,000 bushels of corn have been shipped out of the county at an average price of 55 cents per bushel.

An abundance of other crops have been raised, and it is the opinion of nearly everybody that there is more money among the farmers, and the county is more prosperous this year than at the same time last year.

Down at Henrietta the saloon keepers have filed a protest against the enforcement of the prohibition law, which was recently voted by a good majority. The contest was not filed until after prohibition went into effect, hence the law will remain operative during the pendency of the contest. Of course, many pretenses of irregularities are mentioned in the protest, but in nearly all instances the contestants state that they do not know the names of the persons concerned in the alleged irregularities, hence their contention can amount to very little. There seems to be no doubt in the minds of unbiased persons that there was a clear legal majority of prohibition votes cast in the election and we have no doubt of its ultimate success. The pros have employed competent counsel and will stoutly defend their rights in the matter. The Post is proud of the fact that Childress people have a way of submitting to election results, whether they suit the individual fancy or not. Be it said to the credit of both pros and antis, Childress has never yet had a contested prohibition election. No higher compliment could be paid any people than that they always submit to the expressed will of the majority in all public affairs.—Childress Post.

That is certainly very complimentary of the good people of Childress, both pros and antis. The man who will not submit to the will of the majority and gives aid and encouragement to the overriding of the expressed will of the people, is a bad citizen. Yes, he is worse, in that he is nothing less than an outlaw and should be dealt with accordingly.

We give it up. We have done our best to point the Denton Record and Chronicle right. We have plead with it with the love that suffereth long and is kind. It is a stubborn soul and endureth long. Our only recourse is to have the Houston Post read it out of the democratic party.

We have refrained from commenting on this Northwest Texas autumn weather for fear it would break the charm, but we can't resist it any longer. The weather is particularly enjoyable between the hours of 5 a. m. and 8 a. m.

The Taft smile is now being imitated throughout Texas, especially in the northwestern part. It begins half an inch from the left ear and extends in an easterly direction across the face to a point near the right ear and when correctly displayed is accompanied by twenty-four juicy wrinkles.

A Pennsylvania butcher who decapitated his wife and daughter is said to have quite a peculiar disposition. He was probably merely indulging his eccentricities when he used the ax.

The papers over the state, particularly the Houston Post, are having a great deal to say about the action of Governor Campbell in stationing the rangers at Amarillo to preserve order and enforce the laws, and, doubtless, most of them knowingly overlook the fact that certain laws at Amarillo are wilfully violated and the local officers seemed powerless or unwilling to make any great effort to enforce the laws. In fact, this condition has existed in Amarillo for a long time, and the people who were desirous of bringing about a better condition of affairs at one time even resorted to impeachment proceedings against the sheriff, which failed of its purpose, and at the next election he was re-elected, although a majority of the people of Amarillo had voted for the same law which those who brought impeachment charges against the sheriff claimed he would not or was powerless to enforce. Under such conditions, Governor Campbell is not to be blamed for interference in matters at Amarillo. If anybody is to be censured it is a majority of the citizens of Amarillo and Potter county who voted upon themselves a law and at the same time, or at least within a few months afterwards, elected to fill the offices men whom they had every reason to doubt their willingness and ability to enforce that law. Many towns and counties make this same mistake, and when they do, there is nothing left for the governor of the state but to take matters into his own hands and send such officers to those towns and counties who have the nerve and ability to enforce a local law which the people of these towns and counties have wilfully voted upon themselves. Amarillo has made her bed and should willingly occupy it.

Large commodious churches, with able men to fill the pulpits are about as good an advertisement as any thriving growing town can boast. Wichita Falls has the able men to fill the pulpits and also has one fine church building completed and in use, and two under construction that will cost considerable more than the one already completed. In another year the prospects are very flattering that at least two more handsome churches will take the places of the present frame structures. No better investment can be made than money put into church buildings, and in this connection it might be well to state that it is not right for any congregation to compromise its religious belief and practice to secure money by which to make these church improvements. Of all the thousands of money that has been subscribed towards church building funds in Wichita Falls, there is but one case on record where a subscription to a new church has been withdrawn solely because the pastor was not pursuing the course the subscriber thought he should along certain lines of a moral nature. But that pastor and that church can better afford to do without the money that man proposed to donate rather than accept it and pursue a different course than the pastor has taken on the matter. Doubtless the fellow thought, when he withdrew his subscription, that work on the building would cease but nothing like that has yet occurred, and if the Times is not mistaken in the man (the pastor) and his ability to overcome difficulties of this nature, on one need have fears but that the beautiful church building will be dedicated on the time set for that very pleasing occurrence.

Wichita Falls Times: In spite of everything that is being said to the contrary, Wichita Falls is growing as fast today as ever in her history. There are more carpenters, more painters, paper hangers, plumbers, brick masons and tin workers finding employment here today than ever before, and if things were at a standstill, as claimed by some, such conditions would not exist. There has been no decline in the price of city and county property. On the contrary every piece of property which has changed hands during the last few weeks has netted the owner a handsome profit on his investment.

Dallas News: Who said or hinted, intimated or implied a standstill at Wichita Falls? Nobody. The Times is only setting up a man of straw to fell for advertising purposes. It is laying a text upon which to found a boast. It is arguing with itself, creating a diversion on one side in order to make a noise on the other. Oh, we are on to you, old Sly.

It seems to be as easy as falling off a log to convict the oil trust in Texas. Properly encouraged the officials may yet attack some other trusts that are equally as hurtful as the oil trust.—Bonham News.

Spencer Cannon's speech at New Orleans was delivered between a prize fight and some vaudeville dancing and his remarks were just about as inspiring as the other features.

Tom Johnson will have a reserved seat on the defeated candidates boat for the trip up Salt River. Poor old Tom.

MANY NEW CONCERNS.

Texas Seems to be Advancing Along Commercial Lines

Austin Texas, Nov. 3.—Texas is making rapid strides commercially as well as in other fields of industrial endeavor is evidenced by the remarkable large number of corporations that have been chartered during the past two years or so, and the most important of all is that these new corporations are required under the new law to be genuine and bona fide concerns. Under the new incorporation law it is next to impossible to float or promote a wildcat concern in Texas. A glance at the records in the state department discloses that during the past two years, or since the new corporation act which requires that 50 per cent of the capital stock is to be paid in and the entire amount subscribed, has been in effect, there has been 2720 new charters filed or domestic corporations. A conservative average of the capital stock of these concerns is \$25,000, which brings the total capital stock of the above number of concerns to be \$58,000,000. Another provision of this new corporation law is that the filing fee has been doubled and this has served to more than treble the receipts of the state department. Soon after the passage of this new law and before it became effective, there was a rush of concerns to get charters and the records of the department show that for the period six months before the new law went into effect there were 1113 charters filed. During the administration of Governor Campbell there has been total of 3833 new corporations that have been chartered. This does not include for the same period 246 permits taken out by foreign concerns. These figures do not include over 100 amendments to charters of corporations increasing their capital stock and otherwise extending their field of operation.

The purpose of these new corporations has been varied. While possibly the greater mercantile pursuit there have been a large number whose mission is to buy and sell real estate, conduct oil companies, land and cattle companies. There have also been a large number of compresses chartered. During the past year, however there has been a regular deluge of automobile sales companies. Practically every town of any pretensions whatever, has at least one or two automobile companies. Many concerns have been organized to promote townsites, while the number of new state banks that have been organized is also remarkable. Like the automobile companies, any town that is a town of any size, can boast of having at least one state bank.

Gary's First City Election.

Gary, Ind., Nov. 1.—Gary, having grown inside two years from a village of 200 population to a town of more than 25,000 inhabitants, is to have its first city election tomorrow. The primaries and other steps leading up to the election were marked by riots and bloodshed, in which the thousands of foreigners employed in the steel mills, took a prominent part. The campaign has been extremely bitter, and as a consequence the liveliest apprehension exists over the outcome of the struggle at the polls tomorrow.

Texas News Service Special. Terrell, Tex., Nov. 4.—John White, aged fifty-six, is in a critical condition today as a result of being held up and beaten by a negro near Jibs late last night and robbed of a small sum of money. Twenty-five stitches were required to close the wound as a result of the clubbing.

Allendale News Notes.

Allendale, Texas, Nov. 2.—Quite a number attended the fifth Sunday meeting of the Little Wichita Baptist Association which met here last Thursday night and continued until Sunday night. The services were well attended and were appreciated by all. The preachers in attendance were Rev. A. J. H. Longan, W. P. Harmason, O. J. Harmonson, J. F. Butler, and W. H. Conwell.

Revival services are to be continued during the rest of the week, to be held by the pastor, Rev. Conwell assisted by Rev. O. J. Harmonson.

Two of Allendale's popular young people, Mr. Wilhelm and Miss Hattie Slaten were married at Wichita Falls Sunday evening. Congratulations and best wishes are extended the happy couple.

School opened here yesterday with Mr. Geo. Alexander of Dundee as teacher. There was a very good attendance and more pupils will enter later.

Mrs. Barker and little son Hubert Carpenter of Wichita Falls visited Mrs. Barker's father, Mr. Whitten Saturday and Sunday.

Mr. and Mrs. Roy Jackson and baby of Oklahoma are visiting their parents here.

Ralph Sisk came home last Friday from a six months' visit to relatives in Comanche, Oklahoma.

Mr. Houston Edds left Saturday to visit with his father, the wholesale and retail business men of Oklahoma City a virgin territory from which to draw trade.

The line will be sixty miles in length, and is to be known as the Lawton, Wichita Falls and Northwestern railroad, of which L. T. Poole of this city is the vice-president, and C. G. Jones, also of Oklahoma City, is the promoter.

These men returned to the city yesterday morning from Wichita Falls. They made the trip from Lawton to Wichita Falls in an automobile, and in discussing the territory which is contiguous to the survey of the proposed line that was made several months ago, both agree that it is the most fertile land that a crow ever flew over. The proposed line goes through that section that was formerly known as the 'Big Pasture,' which was a year or two ago cut up into farms and sold to actual settlers.

This territory will be drawn 100 miles closer to Oklahoma City by the building of the newly proposed line, and the merchandise that is supplied to the merchants in the territory which is to be invaded will be delivered within forty-eight hours after it is loaded on the cars in Oklahoma City, which will be practically three days ahead of any schedule now in force. It will place Oklahoma City wholesalers in a position where they can command the trade of the entire section, covering an area of something like seventy-five square miles, because of the improved facilities for deliveries that will result from the building of the road.

C. G. Jones is the man who built the Oklahoma City Belt line, the Frisco from Tulsa to Oklahoma City, and he has never been connected with a railroad project that failed. Mr. Jones says he is confident the new road will be built at an early date, but was not willing to designate any particular time for its completion. He thinks it the best policy to get to work on the line and let results speak for themselves. It is figured that the road can be constructed for \$17,000 per mile, not including the equipment.

Johnson declares the report is absurd and added: 'The move is an invention of the whiskey ring to confuse the people and postpone the day of its destruction.'

MILLER IS GIVEN DEATH SENTENCE

IS CONVICTED AT CLARENDON OF FREIGHT CAR MURDER OF LAST MARCH.

HAS KILLED THREE MEN

Murdered Floyd Autrey and Another Man, Unknown, on Tracks Near Estelline.

Clarendon, Tex., Nov. 3.—The last chapter, but one, of the C. R. Miller murder case was enacted this morning in the district court, when the defendant was found guilty of the murder of Floyd Autrey and sentenced to death.

The jury was out fifteen hours, returning the above verdict and sentence was immediately passed upon the murderer.

Miller was charged with the murder of Floyd Autrey and an unknown man last March in a freight car on the Fort Worth and Denver, near Estelline.

Miller was recently convicted at Memphis of the murder of an unidentified man, and received a life sentence in that case. He plead guilty in open court at both trials, the question of what punishment to assess keeping the jury out so long as it was.

The Miller case is still familiar to Wichitans, the finding of the two bodies being well remembered here. Miller resided in this city for a short while early in the year, but did not get into any trouble while in this city.

SOME LIGHT THROWN ON THE PACKERY OUTLOOK

The clipping below, from the San Angelo Standard, may serve to throw some light on the packing plant situation, in which Wichita Falls has long been much interested. It seems that the choice lies between Wichita Falls, San Antonio and San Angelo. While the clipped interview is an anonymous one, the gentleman in question is known here. The clipping follows: "Somewhere in Texas there will be established within the next year a large beef packery," said a representative of a large northern packing concern to a Standard man late Saturday evening. "You may think this is a 'windy,' but mark my word, I am in a position to know, and what I say is 'straight goods.' One of three towns will get the packery. It will be Wichita Falls, San Angelo or San Antonio. Wichita Falls will be considered on account of its railroad facilities; San Angelo on account of its being situated in the center of a great cattle country and an undeveloped territory with magnificent prospects, and San Antonio, because it has such a large population and has control of the cattle of the southwestern part of the state, as well as railroads

the governor of the state but to take matters into his own hands and send such officers to those towns and counties who have the nerve and ability to enforce a local law which the people of these towns and counties have wilfully voted upon themselves. Aarillo has made her bed and should willingly occupy it.

Large commodious churches, with able men to fill the pulpits are about as good an advertisement as any thriving growing town can boast. Wichita Falls has the able men to fill the pulpits and also has one fine church building completed and in use, and two under construction that will cost considerably more than the one already completed. In another year the prospects are very flattering that at least two more handsome churches will take the places of the present frame structures. No better investment can be made than money put into church buildings, and in this connection might be well to state that it is not right for any congregation to compromise its religious belief and practice to secure money by which to make these church improvements. Of the thousands of money that has been subscribed towards church building funds in Wichita Falls, there is but one case on record where a subscription to a new church has been withdrawn solely because the pastor was not pursuing the course the subscriber thought he should along certain lines of a moral nature. But that pastor and that church can better afford to do without the money that man proposes to donate rather than accept pittance and pursue a different course than that of the pastor has taken on the matter. Doubtless, and will handle your sale right less the fellow thought, when he withdrew from start to finish. It always pays drew his subscription, that work on thyon to employ the auctioneer who is building would cease but nothing like successful in his business and a good that has yet occurred, and if the Time of stock.

Wichita Falls Times: In spite of everything that is being said to the contrary, Wichita Falls is not mistaken in the man (the pastor) and his ability to overcome difficulties of this nature, on one need have fears but that the beautiful church building will be dedicated on the time set for that very pleasing occurrence.

GOOD PROSPECTS FOR LAWTON ROAD

ANNOUNCEMENT COMES FROM OKLAHOMA CITY THAT IT POSITIVELY WILL BE BUILT.

POOLE AND JONES HERE

Spent Earlier Part of Week Here Giving Out Statements of Their Plans.

The visit to this city last Wednesday of L. T. Poole and C. G. Jones, railroad promoters of Oklahoma City, has resulted in the revival of the proposition to build from Lawton to this city and it is announced from Oklahoma City that the road positively will be built. This road has been long in contemplation and Mr. Jones has had it in mind for several years. Following is the announcement given out yesterday at Oklahoma City:

"A short line of railway is to be constructed from a point near Lawton to Wichita Falls, Texas, which, when completed, will open up to the wholesale and retail business men of Oklahoma City a virgin territory from which to draw trade.

"The line will be sixty miles in length, and is to be known as the Lawton, Wichita Falls and Northwestern railroad, of which L. T. Poole of this city is the vice-president, and C. G. Jones, also of Oklahoma City, is the promoter.

"These men returned to the city yesterday morning from Wichita Falls. They made the trip from Lawton to Wichita Falls in an automobile, and in discussing the territory which is contiguous to the survey of the proposed line that was made several months ago, both agree that it is the most fertile land that a crow ever flew over. The proposed line goes through that section that was formerly known as the 'Big Pasture,' which was a year or two ago cut up into farms and sold to actual settlers.

"This territory will be drawn 100 miles closer to Oklahoma City by the building of the newly proposed line, and the merchandise that is supplied to the merchants in the territory which is to be invaded will be delivered within forty-eight hours after it is loaded on the cars in Oklahoma City, which will be practically three days ahead of any schedule now in force. It will place Oklahoma City wholesalers in a position where they can command the trade of the entire section, covering an area of something like seventy-five square miles, because of the improved facilities for deliveries that will result from the building of the road.

"C. G. Jones is the man who built the Oklahoma City Belt line, the Frisco from Tulsa to Oklahoma City, and he has never been connected with a railroad project that failed. Mr. Jones says he is confident the new road will be built at an early date, but was not willing to designate any particular time for its completion. He thinks it the best policy to get to work on the line and let results speak for themselves. It is figured that the road can be constructed for \$17,000 per mile, not including the equipment.

Does Not Want Bryan.

Washington, Oct. 29.—In an interview with Norman Mack, chairman of the Democratic National Committee, he today expressed the opinion that Bryan will not be the next Democratic candidate for the presidency. Mack stated that while Bryan was still popular with the ranks of the party, there was a great deal of sentiment against his leading the Democracy in another campaign.

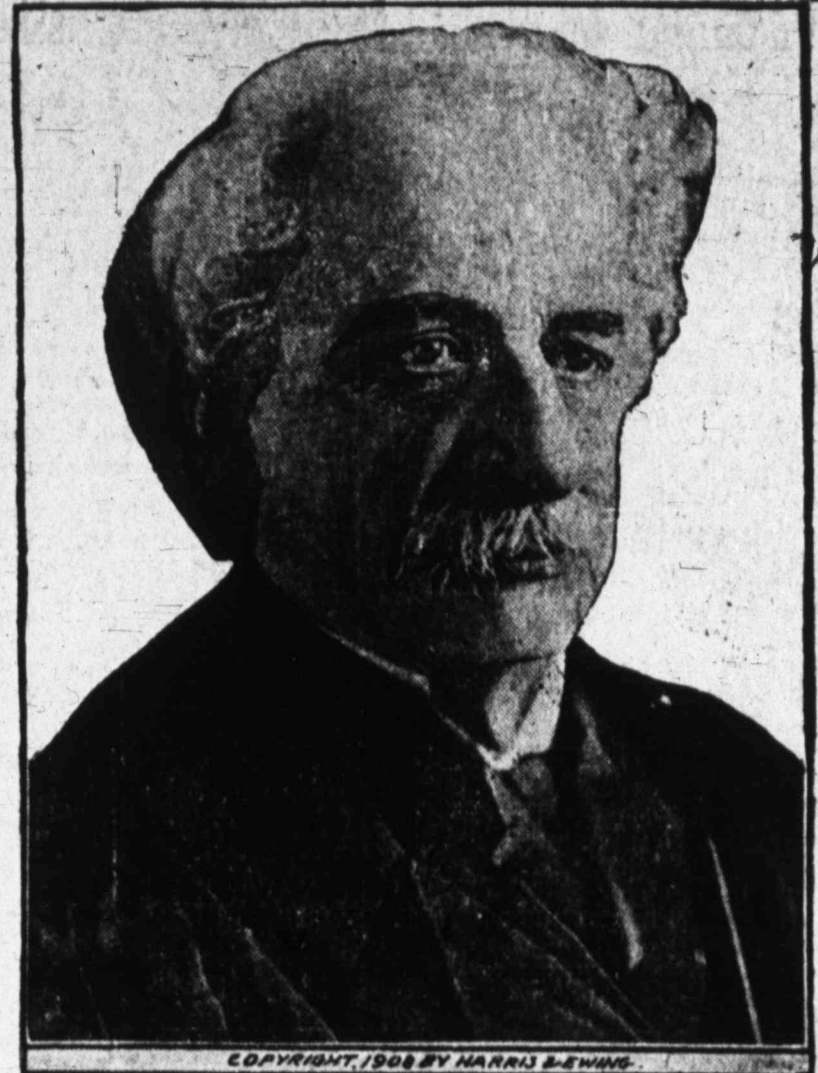

At the same time, Chairman Mack denied that he was responsible for the publication of the fact that Judson Harmon of Ohio would be his choice for the next president. The last issue of the National Monthly, Mack's magazine contained an article indicating that the Ohioan would receive the support of the party organization.

RUFUS W. PECKHAM, LATE ASSOCIATE JUSTICE UNITED STATES SUPREME COURT.

The late Rufus William Peckham of the United States Supreme Court was born at Albany, N. Y., on Nov. 8, 1838. He was educated at Albany and Philadelphia and admitted to the bar in 1859. He became district attorney of Albany county in 1868 and was later corporation counsel of the city of Albany. Justice Peckham served in the supreme court of New York from 1883 to 1886 and was associate justice of the New York court of appeals until 1895, when he was appointed to the nation's highest tribunal.

Prof. Fairchild Heads Schools.

At the last term of the commissioners' court it was decided that the great increase of the scholastic population of Wichita county justified, and, in fact, under the law required, the appointment of a county school superintendent, and, acting under that law, Prof. H. A. Fairchild, who, for three years was principal of the high school of this city, and who resigned that position in July in order to attend the state university at Austin, was appointed, but, not knowing whether or not Prof. Fairchild would accept, the appointment was kept secret.

Prof. Fairchild has notified Judge Yeager that he will accept the position and will qualify on November 8th, at which time the resignation of Judge Yeager, who is ex-officio superintendent of the public schools, which was tendered sometime ago, will be accepted.

The salary of this office is based upon the number of pupils within the scholastic age in the county, and at presents amounts to \$1300 a year.

E. L. Persons, an attorney of Chickasha, Oklahoma, was in Wichita Falls yesterday and closed a deal for the sale of two tracts of land near Charlie, consisting of 570 acres belonging to Charles Dowlen and 560 acres belonging to Ed Foster. The purchase price was thirty-two thousand dollars for the two tracts; over \$28.00 per acre. Mr. Persons made the purchase for himself and brother and sister and either he or his brother will make his home of the newly acquired farm. Mr. Persons was a resident of Wichita Falls during 1908.

Above are the awards in the 'Home Industry' contest of the Merchants' Association, the prizes being offered for the best article by housekeepers on the subject of 'Home Industry.' A large number of excellent articles were received and the judges were hard put to decide which was the most satisfactory. Mrs. J. M. Young was finally decided upon, her article being an excellent one in every respect.

The Times will publish one of these articles daily.

It is believed that this will serve to remind those citizens who inadvertently send their money away from home of the benefits that will accrue if the same money is spent in Wichita Falls. Mrs. Young's article will appear in Monday's Times.

RECORDS SMASHED IN LOCAL MARKET

ONE HUNDRED AND TWENTY-EIGHT BALES YESTERDAY BRING ABOUT \$10,000.

HIGHEST PRICE IS PAID

Entire Lot Went at 14.27 1/2 Cents Per Pound—Bought By Hale and Simmons.

From Friday's Daily. One hundred and twenty-eight bales of cotton, at an average of over seventy-five dollars per bale, is the new record which was established in the local cotton market yesterday. The Times' article on yesterday afternoon covered only a part of the day's sales, there being nearly fifty more bales.

The cotton was purchased by the local cotton firm of Hale and Simpson and the total price paid was nearly ten thousand dollars. When the price received for the cotton seed from these one hundred and twenty-eight bales

is added to this sum, the total is quite a tidy one. The cotton was bought at the rate of 14.27 1/2 cents per pound, and established the high record for price, as well as for quantity. Ten thousand dollars turned loose in one day for cotton in one-day is a sum not to be considered lightly.
