VOL. XIII RANGER, TEXAS, MONDAY EVENING, AUGUST 24, 1931 PRICE FIVE CENTS No. 75

FIRST SHOTS ARE FIRED IN OIL "WAR"

ABOUT THIS AND THAT.....

In a little town in Alabama, the story goes, there is a monument on the courthouse square that has been erected to the boll weevil because it ruined the cotton crop and caused the farmers to raise other crops, which made new prosperity in the county.

Next year, if the cotton prohibition laws are passed in the 10 leading cotton states, farmers may be wanting to erect statues to Governor Huey Long of Louisiana because of his cotton conference in which state laws prohibiting the planting of cotton were enthusiastically endorsed by those attending the cotton conference.

Confidence that the Louisiana legislature will pass a restriction measure such as was advocated at the conference has been expressed by the leading newspapermen of New Orleans, who point out that the cotton raisers themselves seemed more in favor of the restriction than did the politicians. As Texas raises approximately one-third of the cotton produced in the United States a special session of the legislature that would pass prohibition laws would aid the movement materially. Whether total restriction or a material reduction would be the best plan would probably be the bone of contention among the sojourners.

J. E. McDonald, commissioner of agriculture, favored such a measure in the special session and threatened to be a candidate for governor if some consideration was not given the cotton raisers. New support of the cotton acreage law has been voiced by W. R. (Monty) Montgomery of Edinburg, former influential member of the state legislature, in a letter to Commissioner McDonald. Mr. Montgomery wrote that he was convinced that "the salvation of cotton depends upon a cotton acreage reduction." A year's moratorium on cotton production sections of the state, has endorsed the movement.

Although Eastland county is not one of the leading cotton producing counties of the state, cotton is one of the leading farm products. A year's moratorium on cotton would not work any hardship on the farmers of this section, it is believed, and an increase in the price next year would probably pay more than the two years' worth of the present low prices.

A possible new breakfast table delicacy—Texas watermelon syrup. This use for surplus melons was suggested in a letter to the department of agriculture from Arthur L. Traylor, farmer of near Omaha, Texas. Traylor wrote he had made watermelon syrup and found it good. He sought information regarding whether or not this use for melons ever had been tried before.

The syrup can be made, he said, by cooking the juice in the same manner other syrups are made.

Out of 16 games played Sunday in the American National and Texas leagues, 10 were won by a margin of only one run. This is unusual in these days of large scores and home runs and seems to indicate that the teams are not swinging along at their best paces in all leagues.

Philadelphia in the American and Houston in the Texas are still the same consistent winners they were earlier in the season and interest has been lagging since their unbeatable brand of ball has become such a habit.

Cotton Spinning Still Active in United States

WASHINGTON, Aug. 24.—The department of commerce announced today that according to preliminary census figures 82,676,176 cotton spinning spindles were in place in the United States on July 31, 1931, of which 25,836,262 were operated at some time during the month, compared with 25,738,910 for June, 26,397,906 for May, 26,645,404 for April, 26,489,832 for March, 25,763,408 for February, and 26,457,786 for July, 1930.

The aggregate number of active spindles hours reported for the month was 6,531,745,273. During the month the normal time of operation was 26 days, allowance being made for the observance of Independence Day compared with 26 for June, 25 for May 25 2-3 for April, 26 for March, 23 2-3 for February. Based on an activity of 8.91 hours per day the average number of spindles operated during July was 28,195,395 or at 86.3 per cent capacity on a single shift basis. This percentage compares with 87.0 for June, 89.9 for May, 94.3 for April, 91.2 for March, 87.2 for February, and 67.2 for July, 1930. The average number of active spindles hours per spindle in place for the month was 200.

Eastland Lions Club Activities Shown in Report

Eastland—Sponsored Business Conference week. Promoted two trades days. Purchased wearing apparel for 15 needy school children. Furnished amusement features for a girls' party. Distributed Christmas gifts to poor children. Aided United Charities and Red Cross in their drives for funds. Assisted in organizing a co-operative employment fund for relief of needy. Aided talented Mexican boy singer through public school. Participated in Better Homes week program. Paid one-half expense of sending delegate to Lubbock to represent Eastland in Home Town Contest featured by West Texas Chamber of Commerce. Assisted with Eastland County free fair. Held two joint Lions club meetings. Met with another service club. Ten membership reports received; 10 on time.

Delegates Leave For Convention

The last of a series of three groups of delegates to the state convention of the American Legion left Ranger Sunday afternoon for El Paso on the Sunshine Special. Other delegates left Saturday morning and Saturday afternoon. The entire personnel of the Tickleville band along with several other Legionnaires is taking in the three-day convention.

Tire And Rim Are Stolen In Ranger

A spare tire and rim was reported stolen from the Chevrolet coupe belonging to L. V. McDonald of Gordon Saturday night or Sunday morning while the car was parked in front of the West Texas Clinic and Hospital in Ranger.

The Ranger police department was notified of the theft early Sunday morning after the theft had been discovered. No clue to the robbery was discovered.

Guest Tickets to Ranger Show

The Ranger Times has guest tickets for Mr. and Mrs. Earl Payne to see "Night Nurse" now playing at the Columbia Theater, or any other show.

METERS ARE ROBBED OF MERCURY

The Lone Star Gasoline company has reported to the Ranger police department that 28 gas meters have been robbed in the last few days and mercury taken from the meters. Each meter is reported to have several pounds of mercury, valued at about \$2 a pound.

A reward of \$50 has been offered by the company for the arrest and conviction of the guilty parties.

Chief of Police Jim Ingram said today that similar robberies had been reported throughout the West Texas oil fields, meters in Breckenridge, Midland, Big Spring, Wink and other oil centers in the western portion of the state reporting meter robberies.

It is thought that the thefts are carried on by a band of ex-oil field workers who understand the meters and who are traveling over the country breaking into the meters and obtaining the mercury.

Rewards have been offered in several towns for the arrest and conviction of those guilty of these robberies.

Ranger and Thurber Still Lead Oil Belt

The Ranger Country club had one of the toughest matches of its schedule in the Oil Belt Golf association Sunday afternoon when they defeated the Breckenridge club by a score of 12 matches to 11.

This was the next to last match in the regular schedule and by virtue of Thurber's 15 to 9 win over the Eastland Golf and Country club the teams for Ranger and Thurber are still in a tie for first position in the percentage column. Individual results of Sunday's match between Ranger and Breckenridge follow:

Cap Lyman lost to D. A. Harkrider, 3-5.
Alva Harrie lost to James Smith, 5-3.
Oliver Wraage lost to Sam Brimberry, 1-up, 19 holes.
Joe Murphy lost to Ray Trammell, 3-4.
Dr. R. W. Gray lost to H. H. Vaughn, 8-7.
C. C. Curry defeated R. H. Snyder, 1-up.
Bill Russell lost to Gid Faircloth, 8-7.

Man Kills His Wife and Self

PORT ARTHUR, Aug. 24.—W. R. Cash shot and killed his wife, shot at his sister-in-law, Mrs. R. D. Arminator, and then killed himself in his apartment here today.

A note dated Sunday and found in Cash's clothing told of his intention to die and gave poor health as the reason. It was signed "Mr. and Mrs. W. P. Cash," but police believe the man wrote the note himself.

Lone Outpost Gets Electric Lives

LAREDO.—Zapata, lonely village in remote regions that border the Rio Grande, will take another step toward twentieth century civilization next week. Only a few years ago ox-carts instead of trucks rumbled over its main street. Now kerosene lighting is to be replaced by a modern electrical system.

Light will be turned on in Zapata for the first time early in September. Construction of a proposed highway linking this outpost of Texas with the highway to Laredo on the north and Brownsville on the south will bring considerable development to Zapata county.

Bandits Rob Coca-Cola Office

HOUSTON, Aug. 24.—Two bandits entered the Coca-Cola company general offices this morning, held up Ed Isaac, manager, and escaped with a sum believed to be around \$1,700.

Isaac was counting the week-end receipts when the robbers entered the building.

After New York's Bandit War Ended With Six Dead

Here is the bullet-ridden auto from which two bandits spread a hail of bullets in a 90-minute running gun battle with police, firemen and pedestrians along a 12-mile front through upper Manhattan, killing six and wounding 12. The battle started when the gunmen deliberately shot down a navy guard and ended when the bandits and their driver were killed. Detectives, who for hours after the daylight fight were unable to piece together the story of what happened, are shown beside the auto trying to identify the body of one of the gunmen. One of the victims was a four-year-old child.

New York Angered by Slaughter

NEW YORK, Aug. 24.—Gangsters re-enacted Chicago's Valentine Day massacre in miniature in a blazing deft to New York's crime-sickened citizens mobbing tonight for a war on crime.

Their ghastly sense of humor led them to back three young men against a wall opposite a slaughterhouse in a deserted section of Brooklyn where the victims faced a firing squad of four.

One was killed. The other two may die.

The three Brooklyn victims stepped from a gangster sedan in the pitch black stretch from the slaughterhouse district. Their faces reflected their fear of the death they faced, their hands held high in the air.

The attempted duplication of Chicago's St. Valentine Day massacre broke on a city organizing a fight on crime. A mass meeting expected to pack facilities of Central Park was organized for tonight.

Troops Patrol Kilgore Streets Following Fires

KILGORE, Aug. 24.—Kilgore, Missouri oil town, alarmed yesterday by a series of incendiary fires believed to be the work of "Reds" awoke today from a night of broken sleep to find Texas troopers patrolling the streets.

Two churches were destroyed and four buildings damaged yesterday by the flames. Citizens besieged police and fire stations with requests for a special vigil. In scores of homes, private sentinels kept watch through the night, alert for the shriek of a siren.

Firebug Sets Another Fire Near Kilgore

KILGORE, Aug. 24.—As militiamen guarded against a firebug which has been operating in the East Texas oil field under martial law, another fire broke out this afternoon.

Gasoline soaked sacks were found under the floor of an old house which caught fire, making the eighth blaze since 11 a. m. Sunday.

Gov. Murray Has Employment Plan

MEMPHIS, Tenn., Aug. 14.—Two plans to relieve unemployment were offered by Gov. W. M. Murray today as his Mississippi Valley unemployment conference opened.

He proposed that:

1. State and national governments completely be taxed 10 per cent of their salaries so funds for relief may be increased.
2. The federal government match dollar for dollar with states in construction of "all-weather" roads to be built as far as possible with man power rather than mechanical equipment.

Cotton Session Being Favored

AUSTIN, Aug. 24.—Gov. Ross Sterling said today he had received at least 150 communications from cotton farmers and members of the legislature favoring a special session of the Texas legislature to pass a cotton acreage control bill.

He asked for expressions Saturday night.

Boom-Time Lots Will Revert To Cow Pastures

MIDLAND.—A thousand city lots in Warfield, a "whistle stop" west of here, may soon revert to the pasture lands of the past. John Schabauer has filed suit to clear title to lots sold years ago to boom land buyers of the middle west who thought the county seat was to be moved from Midland to Warfield.

Warfield, lost on the western plains, has abandoned city ambitions. It boasts of a single store, a schoolhouse and a tourist camp.

San Angelo Seeks Hospital Finances

SAN ANGELO.—Effort to take \$100,000 from the pockets of San Angelo citizens to finance a hospital here will be made this fall according to campaign plans completed this week.

The San Angelo hospital occupies a modern four-story stone building valued at \$325,000 and is operating at capacity.

RETURN HOME
Mr. and Mrs. Fred Williams, 802 Pershing street, Ranger, have returned to their home from Houston county where they attended the funeral of Mr. Williams' mother, who died at Graham on Aug. 19.

Santy Gets Early Texas Mail Order

AMARILLO.—Somewhere in his ice-bound factory on the Northlands, Santa Claus was looking forward to a busy season today as he held in his hand his first "order" from Texas.

Peggy, a believing little soul who wished to avoid the Yuletide rush, has already written her letter to Santa Claus. It was received at the News-Globe office where reporters are believed to have forwarded it to Santaland via Iceland telegraph.

In laboriously printed capitals, Peggy, who didn't tell her last name nor age, informed St. Nicholas she wanted a house, a piano, a doll and a sewing machine. To make sure she made no mistake, she sketched a picture of the piano.

After sealing the letter, Peggy decided she would also like to have "truck, train, tools and a telephone," a request she added on the envelope.

MEETINGS TO PROTEST SHUT DOWN

AUSTIN, Aug. 24.—Julian Capers, Jr., advance man for a series of mass meetings to protest martial law in the East Texas oil field, left here today to arrange for a meeting in Palestine Wednesday or Thursday night. The series will open here tonight.

Capers said before he left that the independent oil men sponsoring the meeting have announced no change in their original plans calling for a meeting at Tyler in the martial law zone. Brig. Gen. Jacob F. Weller, commander of troops enforcing martial law, forbade the meeting or any other like it in the military zone.

New Lake To Help Farming In Brown County

BROWNWOOD.—A woode hole between Jim Ned Creek and Pecon Bayou will become a \$2,500,000 artificial lake by the last of June, 1932, furnishing water to the city of Brownwood and irrigating over 20,000 acres of fertile land in the valley near by.

The reservoir and irrigation project is located eight miles northwest of here. The artificial lake will have a capacity of 125,000 acre-feet of water a spillway levee. Surface area will be 7,400 acres and the shore will be 82 miles.

This newest bit of blue on the map of Texas will be fed by watershed of 1550 square miles embracing Brown, Coleman, Eastland, Taylor, Callahan and Eastland counties.

The dam will be of earth filled with puddle core of shale. Crest of the dam will be 125 feet above the bed of the lake. Great flood that occasionally rolls down the valley of Pecon bayou will be cared for by a spillway cut to the excavated through a "saddle" on the hills 1200 feet by the dam. Bottom of the cut will be 25 feet below elevation of Normal sea plus water will find exit through two 12-foot conduits with Brown control gates, capable of discharging 13,000 second-feet of water a spillway levee pressure.

Plans have been made to make the new lake a scenic spot. A large island will be parked and drive ways constructed through the heavily wooded hills that surround the lake site.

In the irrigated valley cotton, grain, alfalfa, fruit, vegetable and pecans will be grown.

State Hunters Kill 435 Vicious Animals

AUSTIN.—Over 300 coyotes and 70 red wolves were slain in Texas last month by 70 men employed by the state for predatory animal control. Forty-eight bobcats and four mountain lions were taken, according to the monthly survey of the U. S. department of agriculture co-sponsors of the control work.

The most interest catch was made by J. E. Hearn on the Callaghan ranch in Webb county. Hearn accounted for four mountain lions, all full grown, eight coyotes, and two bobcats. Guy Weir of Culbertson county led the fore in point of numbers. He caught 35 coyotes and five bobcats. P. Foster, working in the same county, took 26 coyotes and two bobcats. In South Texas, E. L. Horn on the King ranch in Kinney county, led with 34 coyotes to his credit.

Legionnaires In Convention Today

EL PASO, Aug. 24.—Gaily decked with flags and bunting, El Paso welcomed thousands of Texas Legionnaires today as the World War veterans opened their three-day convention of entertainment and business on the border.

Many Legionnaires participate this afternoon in a beer drinking contest in Hugo's Place in Juarez, Amarillo, Wichita Falls and Corpus Christi were early contestants for the 1932 convention.

ONE BELIEVED WOUNDED BY SOLDIERS FIRE

Men in Stolen Car Drive Gunfire of Troops in Kilgore.

KILGORE, Aug. 24.—The first shots in the East Texas oil "war" were fired today as an outbreak of incendiary fires here Sunday caused vigilance to be doubled in the four counties where martial law has closed down the oil field.

The shots were fired as three men in a stolen automobile being chased by officers ran into a guard camp, established here by militiamen closing down the oil field in an effort to raise the price of crude oil.

The first sentry of the camp under orders not to shoot, broke his rifle in hitting the car. The second sentry opened fire. The sound of a bugle and the shot brought soldiers from their tents in the brush, where they congregated with the men in the car returning the fire of troops.

After a bullet had pierced the seat of the car the three men abandoned the machine and took to the brush, where they could not be found. It was believed one of the men was wounded.

The Newfangles (Mom 'n' Pop)

By Cowan Jacksboro Is Winner Over Lone Star Club

The Lone Star baseball team lost to Jacksboro Sunday afternoon by the score of 12 to 8. Fox pitched the first four and two-third innings and might have finished the game if he had received a little better support in the pinches.

The Lone Star team got off to a three-run lead in the first inning on Pace's single. When Denmore bunted one both were safe, and Coleman tripled and Pace and Denmore scored. Coleman scored when an error and two walks filled the bases.

They made one more run in the second and three in the fifth and one in the ninth, but the Jacksboro team did some hard hitting and a little help from the home team ran up their score to 12 and won the game.

Pace, Lone Star center fielder, made a good catch in center field on a line drive. After getting back as far as he could he reached back over his head and caught the ball in one hand.

The box score:

Jacksboro:	A.	R.	H.	P.	O.	A.	E.
Simon, cf	5	1	2	2	0	0	0
Turner, lf	5	2	2	0	2	0	0

 KANSAS CITY, Mo.—Within 12 hours after they had held up a filling station here and obtained \$6, George Guthrie was sentenced to life imprisonment and Charles Dickey to 50 years in prison for the brief plurge in crime.

Plantation owners have been asked to kill a third of their cotton. Corn would liquidate easier.

Roll Your Own

GENUINE "BULL" DURHAM TOBACCO

NOW 5¢ formerly 8¢

"ROLL Your OWN!"

Genuine "BULL" DURHAM Tobacco at 5¢ marked the entrance of my father, Percival S. Hill, into the Tobacco business. For 14 years he was President of The American Tobacco Company. The fine quality and popularity of "BULL" DURHAM were always subjects of great pride to him. Therefore, it is particularly gratifying to us to offer this important saving and service to the American public at this time.

Detective Chief Has Costly Badge

PITTSBURGH, Pa.—Police chiefs attending their annual state convention here recently agreed that it would be worthwhile getting arrested by Frank R. Boyd, head of the Pittsburgh detective bureau, in order to get Boyd to "flash his badge."

When Boyd became a detective, one of his friends, William L. Trimble, said he would get the handsome badge in the world for Boyd if he ever became chief detective. Trimble made his promise good with a badge which has been valued at \$2,400.

KANSAS FARMERS STUDY PICKLES

BUTLER, Kan.—Farmers of this community envision the development of a new industry to add to their bank accounts and economy. J. Benschel, big pickle man from Hutchinson, is urging them to raise more cucumbers. He has had to import some half a dozen carloads from Colorado annually, he said, and sees no reason why the potential pickles should not be raised in Kansas. The idea is pending, and most farmers have their pickle patch this year.

State Tested and Certified Seed Laws Explained

AUSTIN.—Instances of misunderstanding on the part of seedmen and farmers regarding the two state seed laws today led E. Y. Miller, seed certification chief in the department of agriculture, to explain the respective fields of the two laws.

"With the seed harvest approaching, after which seed will be put on the market for planting next year's crop, it is expedient that we review the laws which cover field seed," he said.

"There seems to be misunderstanding as to what the two Texas seed laws cover. A number of instances have been reported in which local dealers offered seed under the impression that it was certified, and farmers purchased it with that understanding. This led to some disappointments. One farmer purchased what he understood to be certified ribbon can, and found, after planting, it was a mixture of ordinary sweet sorghums. This complaint was brought to the certification division. Since there has been no ribbon can certified, the seed he purchased obviously was not certified. Investigation showed both the seedman and farmer mistook the 'tested seed' label for a certification label, attesting verietal purity.

"Each of the seed laws is of extreme importance. The 'tested seed' law furnishes information which can be obtained from analysis of a representative sample of seed, without reference to strains or varieties; germination, that is, percentage of seed which will sprout under actual growing conditions; amount of inert matter—dust, chaff, etc.; weed seed, noxious weed seed, and other field seed present.

"This test does not give evidence as to varietal purity since it is impossible to determine varietal purity from an examination of a given sample. The information obtained by this test, however, should be sought by purchasers. Seed which germinates 80 per cent is twice as good as seed which germinates 40 per cent; and Johnson grass and other weeds are too plentiful to be purchased. If a farmer wants weed seed, he can collect them along the road side. The white tag, containing this information, evidences tested seed. Certification, on the other hand, is attested by a red tag.

"The certification law is widely different from the 'tested seed' law. It is based on the fact that varietal purity cannot be determined by sample analysis, hence field inspection of the growing crop is the backbone of the law. Under this law, the production of all firms voluntarily applying is measured by the yardstick of recognized breeding principles. In purchasing sorghums, begarri, milo, kafirs, sudans, sumacs, fetterita, cotton, oats and wheat, the red tag assures the purchaser he is obtaining seed practically 100 per cent pure in strain.

"In case of doubt the farmer should communicate with the department of agriculture for a list of qualified certified seed producers."

MAILS SELF BY AIR.

LONDON.—The first human "air mail parcel," tagged, stamped and canceled, has arrived at Croydon airfield. He is M. G. Lantcheere, a young Belgian, who discovered that while the passenger fare from Brussels to London was \$19.70, parcel postage for his weight amounted to only \$10.19. Duly stamped and addressed in consignee at Croydon, Lantcheere was bundled into the wireless compartment of a night air-mail plane at Brussels, and a couple of hours later found himself being unloaded at Croydon along with the other mail.

OUT OUR WAY

WHY MOTHERS GET GRAY

PAINTINGS DISPLAYED.

LANDSBERG-ON-THE-LECH, Bavaria.—This city is exhibiting a collection of the paintings of Hubert von Herkomer, who was born here in 1849. Much of his work was done in England. His widow, who still lives there, is loaning a

number of his works, which will be supplemented by some of the artist's best paintings possessed by the city.

Those wheat growers will probably be willing to give the country back to the Indians on Thanksgiving day.

Square this

with what you hear
... what you read
... what you believe

NOWADAYS you read and hear every kind of thing about cigarettes. But when you try to square some of it with your own common-sense and experience, a lot of it just doesn't "square".

What smokers want to know about a cigarette is "How good is it?"

And when it comes to that, cigarettes are just as good and just as pure as the materials from which they're made.

In making Chesterfield, we use only riper, milder, sweeter-tasting tobaccos—the best that money can buy—and pure cigarette paper—the purest that can be made. Our chemists rigidly test for cleanliness and purity all materials used in the manufacture of Chesterfield. In our factories even the air is washed, and changed every 4½ minutes.

Everything that goes into Chesterfield is the best that money can buy or that science knows about.

"Good... they've got to be good," we say about CHESTERFIELD—and we mean it! And that's something you can square with everything you've ever read, or heard—or know—about this good cigarette!
