UNITED PRESS FULL LEASED WIRE SERVICE BRINGS THE WORLD'S NEWS TO THE RANGER TIMES  
RANGER, TEXAS, WEDNESDAY EVENING, SEPTEMBER 9, 1931

There ought to be some kind of a law providing a man with a nice long rest after his vacation.

PRICE FIVE CENTS No. 87

## SCHOOL EXERCISES ARE HELD Powder Blast Rocks City of Dallas Today

### FIVE INJURED; WINDOWS ARE BROKEN IN CITY

**Du Pont Magazine 10 Miles  
Away Is Ignited By  
Grass Fire.**

DALLAS, Sept. 9.—Five members of the Henry Schaefer family were injured and windows were shattered over a wide area here when a Du Pont powder magazine exploded today 10 miles south of Dallas.

Force of the explosion which destroyed the powder magazine also harnessed a cow.

The blast set a set of harness hanging in the barn and neatly placed it on the cow. It was several hours before the family noticed it. Neither cow or calf were injured.

A grass fire was blamed. The most seriously injured was an infant granddaughter lifted from the floor by the blast. The farm home is 300 yards from the magazine.

A crater 20 feet deep was all that remained of the powder house. Windows were blown out of a passenger train nearby and leaves were torn from trees half a mile away.

Plate glass windows valued at \$15,000 were shattered here. Late sleepers were hurled from their beds and several buildings were reported cracked.

BENTON, Ill., Sept. 8.—Three men were killed and six injured, two critically when an explosion and fire razed the powder house of the Safety Mining company here today.

The dead were Carl Monnyhan, 20; Herbert Smith, 19, and Joseph Haskins. Neither Randall Scarborough nor Marion Otterson was expected to live.

### El Paso Death Rate is Hit By the Depression

EL PASO, Sept. 9.—The depression has hit the undertaking business here and apparently has had something to do with the birth rate.

Undertaker G. E. Maxon believes that during periods of depression there are fewer deaths than when business conditions are good.

"Every depression period that I know anything about has shown a decrease in the death rate," Maxon said. "Why that should be is hard to explain."

Concerning the local birth rate, Alex K. Powell, city registrar, has discovered that in times of depression more girl babies are born and in times of prosperity more boy babies.

In 1928 there were 97 more boys than girls born in El Paso; in 1929, another prosperous year, boys outnumbered girls by 134; but in 1930, when the depression began, there were 46 more girls than boys born.

To date, this year, 2 only two more girls than boys have been born, so Powell thinks possibly the depression is lessening.

### Farmer Injured In a Runaway

Dewey Haynes, a farmer who lives at his farm home on the Strawn road, sustained serious and painful injuries yesterday afternoon when a team which he was working ran away.

During the course of the accident Mr. Haynes suffered from bad bruises and cuts together with a fractured shoulder. Following medical treatment by one of the local surgeons, Mr. Haynes was able to be removed to the home of his parents, who reside five miles out on the Caddo highway. His condition is not critical.

### INTERNATIONAL COTTON CONFERENCE PLANNED

NEW YORK, Sept. 9.—An international cotton conference to cut acreage planted by at least 50 per cent is being planned prior to the 1932 season, according to dispatches from Cairo, Egypt.

### Paws in the Day's Run

Here's the grizzly sight that greeted the fireman of a Canadian National Railway locomotive when he returned to the engine cab in Jasper National Park. No wonder he made overtures to the strange "engineer" by offering him part of his lunch.

### TWO FLIERS MISSING IN OCEAN HOP

SEATTLE, Wash., Sept. 9.—Winds that ruffled the north Pacific sang either peans or requiems today for Don Moyle and C. A. Allen, Tokyo-to-Seattle fliers.

Although their course traversed well traveled sea lanes, their plane had not been reported sighted since it moved out over the open sea 100 miles off Sabishiro Beach.

### Change is Made in In Grid Schedule

A minor change has been made in the Ranger Bulldog football schedule, it was announced today by Coach Erik Curtis.

As originally planned, the Bulldogs were to play Big Spring on Sept. 18, at Big Spring. The schedule has been amended to have the game with the Sweetwater Mustangs at Sweetwater instead of with the Big Spring team.

The Stephenville game has not been affected by the change in the schedule and they will meet the Ranger team on Lillard field Friday afternoon at 3:30 o'clock.

### Ranger Rifle Club to Meet Tonight

Members of the American Legion Rifle club are to meet tonight at the offices of the Ranger Chamber of Commerce to perfect plans for an all-day shoot to be held by the club early in October.

All members of the club and all officers are urged to be present in order that the details of the shoot may be planned and committees appointed to carry out the work.

### Dublin Man Recalls Old Ranger Days

O. L. Robinson, who resides in Dublin, was in Ranger today to see about securing a farm in Eastland county from C. E. May, Ranger real estate man. He mentioned that he once lived in Ranger and that his father was a rural mail carrier here at one time.

Mr. May looked through his files and found a card mailed in 1908—23 years ago—showing Mr. Robinson's father and the mail he carried here. The picture was taken on Locust street, now Main street.

### Second Monday Plans Being Made

Next Monday will be Second Monday in Ranger and plans for the best entertainment of the year are being worked out.

As was done on last Second Monday, merchants of the city will have some special bargains to offer for that day only and in addition auctions and other features are being planned.

J. B. Ames is in charge of the bank vault for his letters. After further checking, he said he believed his collection is worth \$100,000.

### AGRICULTURAL COMMITTEES NOT TO MEET

Farmers Plan Huge Mass Meeting at Austin Park For Tonight.

AUSTIN, Sept. 8.—The refusal of the senate today to have its agricultural committee sit in joint hearing with the house committee was the first rift in the farmer's session of the Texas legislature convened to raise cotton prices.

Hundreds of farmers, some in overalls and some in their Sunday suits, filled the legislative galleries, while other farmers presided over by A. A. Allison of Corsicana met at the State Department of Agriculture and attempted to draft a bill.

A large advance guard arrived today for the farmers' mass meeting to be held at a local park tonight. Gov. Huey P. Long of Louisiana telephoned he will not be present in person but will speak over the radio. He also sent a representative, O. O. Allen, by plane. Long was afraid to leave Louisiana because, he charged, a U. S. senator and influential political planner to wrest the state government from him as soon as he crossed the state line.

He said he had discovered a plot to take over the state government through Lieutenant Governor Cyr.

### DISPOSAL OF COTTON IS PLANNED

WASHINGTON, Sept. 9.—Plans for disposal of part of the cotton surplus which bears on the economic structure of the south, were considered by President Hoover today. The program which was presented to President Hoover yesterday by Governor Eugene Meyer of the federal reserve board, calls for an extension of credit to planters and to foreign purchasers.

Federal reserve agencies would co-operate with local agencies to local agencies in extending credits in the form of bankers' acceptances.

### Eastland's New Gas Franchise Is Revoked

At a meeting of the Eastland city commission held Tuesday Mayor McCullough offered a motion to revoke the gas franchise previously granted by the commission to John W. Moore. Mayor McCullough gave as his reason for offering the motion the fact that he was convinced Moore had abandoned his proposal to the city. The motion was unanimously adopted. All members of the commission were present and voting except Commissioner Tom Harrell, who was not present.

Walter Harwell, who is in charge of the program and who is chairman of the vocational service committee, gave a short talk on the business outlook. His talk was well received by the members.

Miss Frances Coughlin delighted the members with a musical reading, which she rendered in a most entertaining way. Her number was followed by a piano solo by Miss Belva Dixon. Both Miss Coughlin and Miss Dixon are talented in their respective lines and their part of the program added color to the entertainment.

### Gibbs Forecasts Business Recovery

NEW YORK, Sept. 9.—A "slow but sure upward trend" in business was predicted today by General George S. Gibbs, vice president of the International Telephone and Telegraph company, following a personal survey of conditions in 32 American cities.

### Winer Finds Old Letters Valuable

LIBRARY, Pa.—Reading in the papers about a Pittsburgh boy who unwittingly destroyed a letter written about 1835 which had a stamp on it later appraised as being worth \$15,000, James Wright, 34, coal miner here, decided to investigate his attic. He discovered he is wealthy.

Wright said he "has a habit" of storing away all letters he receives. The trait seems to be inherited, he said, for his father and grandfather before him saved their letters, too.

"I have letters dating back to 1800," the miner said. "Not envelopes, just letters folded and stamped with a stencil marked 'three cents paid.' I also have a large number of stamps which date back to the beginning of the postage stamp era." That is about 1840.

Wright said he has a New York stamp dealer evaluate his collection and as a result received an offer for \$45,000 for use batch.

He immediately rented space in a bank vault for his letters. After further checking, he said he believed his collection is worth \$100,000.

### NEWSPAPER WHEAT Brings Ad for Cat

M'PHERSON, Kan.—The Canton Pilot, newspaper published at that village, 14 miles east of here, is in quest of a cat, the need for such being comparable to that of a well known horse for a king.

The Pilot advertised that it would allow a credit of 75 cents a bushel for all wheat brought to the office to apply on subscriptions. Business was good and every available foot of space in the Pilot building was turned into a granary.

Now the Pilot advertises for a cat that has a reputation of being a super-mouser, as the wheat has drawn mice as a magnet does steel.

### TWO KILLED IN DUEL

HARTFORD, Ala., Sept. 8.—J. C. Roney, 35, chief of police and J. H. Rufford, 35, former mayor, were shot each other to death today with pistols.

### In Wake of Forest Fires

Here are typical scenes in the northwest where forest fires recently left a wake of charred ruin. Above is a destroyed home near Boise, Idaho. Lower left are two of Ed Dulle's children whom he saved by burying them in a potato patch, placing wet sacks over their faces all one night. Lower right are Mrs. Alfred Jackson and her daughter, Lavonia, shown at the right, who ran a mile before the racing flames, taking turns carrying the baby, Marvin Jackson, 10, seen at the right, guided a car through the fire to safety, saving the lives of Mrs. Pardee and a one-day-old baby.

### Ranger Rotary Club Has Good Program Today

Harry Wheelon, new manager of the Lone Star Gas company, became a member of the Ranger Rotary club today at the regular weekly meeting.

H. C. (Andy) Anderson gave Mr. Wheelon an instructive talk on the obligations of a Rotarian in his usual competent manner. He explained the duties of a Rotarian and what Rotary means to the members.

Walter Harwell, who is in charge of the program and who is chairman of the vocational service committee, gave a short talk on the business outlook. His talk was well received by the members.

Miss Frances Coughlin delighted the members with a musical reading, which she rendered in a most entertaining way. Her number was followed by a piano solo by Miss Belva Dixon. Both Miss Coughlin and Miss Dixon are talented in their respective lines and their part of the program added color to the entertainment.

### Pastor Reads Bible Awaiting Convening of Grand Jury

DE LHO, Texas.—Charged with passing three "rubber" checks here, Rev. R. W. Anderson read his Bible here today as he waited for the grand jury this fall to act on his case. Anderson, who is also wanted in San Antonio, was on his way to Bracketville to deliver a sermon when he was arrested. He had just addressed the Lions club here.

"Anderson claimed he was a Lutheran minister, but the sheriff's department says that since his arrest he has admitted passing checks and also jumping bond at San Antonio. According to letters to him found in his pocket, his father is a Lutheran minister at Minneapolis. The letters urged the son to change his ways and not to continue to impose on his father as in the past.

### PASTOR IS ILL

J. C. McDonald of Caddo, Baptist preacher, in Stephens county association for the past 25 years, was moved to the home of his daughter, Mrs. Sandy Brooks at Mineral Mills. Rev. McDonald has been in bad health for the past two months and it is hoped the change will be for the best. He is 82 years old.

### RAILROAD MAN KILLED

SAN ANTONIO, Sept. 9.—Edwin F. Barnes, 55, railway employee, was instantly killed here today when struck by a freight train at a crossing of the M. K. & T. lines.

### REV. STEPHENS DELIVERS TALK TO STUDENTS

New Faculty Members Are Introduced to Students Today.

Opening exercises for the Ranger High school and the Junior College of Ranger were held Wednesday morning at the high school auditorium at 10 o'clock. The auditorium was filled to capacity with pupils of the schools and with citizens of the city.

The exercises were opened by Supt. R. F. Holloway, who lead the assembly in singing "America," accompanied on the piano by Mrs. Newham and on the violin by Miss Buchanan.

Mr. Holloway introduced Miss Wofford, new teacher of expression, who gave a reading that was roundly applauded. Her portrayal of the two negro characters in the sketch she presented was very realistic and her reading was enjoyed by her audience.

Miss Buchanan, accompanied on the piano by Mrs. Nawnham, presented a violin number that was well received.

Rev. H. H. Stephens, pastor of the Central Baptist Church, was introduced by Mr. Holloway as the principal speaker for the exercises. Rev. Stephens in his able and capable manner gave an inspirational address that will long be remembered by his listeners. He graphically stressed the point that the pupils of Ranger's great school system had before them great opportunities along educational lines and that they must go forward instead of marking time or going backward.

His talk was interspersed with humorous stories to illustrate the various high-lights of his address. He drew a parallel between the church and the schools, pointing out that both were institutions established for the benefit of mankind and pointing out some of the advantages to be obtained through both the church and the school. His illustrations were apt and his talk was an inspiration to both the pupils and the older members of the audience.

Following Rev. Stephens' address, Mr. Holloway introduced H. S. Von Roeder, principal of the high school, who in turn introduced the new members of the faculty.

Announcements were made that closing of 15 minutes would be held this afternoon when assignments for the first work of the year would be given. It was also announced that the students of the 10:30 Thursday morning at the junior college would meet at school building.

The assembly was dismissed and left the auditorium to the strains of music by Miss Buchanan and Mrs. Newham.

### Routine Business Before Commission

All members of the city commission of Ranger met at the city hall Tuesday night with Mayor John Thurman presiding and City Clerk Ray Jamison as secretary.

After the minutes of the preceding meeting were read and adopted a round-table discussion of gas rates in Ranger consumed the major portion of the commission's time. A tentative plan for securing a reduction in rates was discussed and will be brought up at a later meeting.

A few tax difficulties were discussed in brief and settled.

### Man Charged With Slaying Roommate

CORPUS CHRISTI, Sept. 9.—Still wearing the shoes of the dead man, V. Don Caris, 30, was in jail here today charged with the murder of A. Steinbach of Cincinnati, whose skeleton was found on a bluff near here.

Caris, Steinbach's roommate, in a statement to police admitted he was present when Steinbach was shot to death and clubbed but denied taking part in the shooting. He named two other men whom police are seeking.

### NEWSPAPER SUED

CLEBURNE, Texas.—Mayor E. E. Hunter has filed a \$25,000 damage suit against Dave Ross, city alderman, and the Cleburne Times-Review over the publication of an account of a city council meeting at which Ross said he believed the city tax equalization board had been unduly influenced in its deliberations. The case has been set for October.

### RAILROAD MAN KILLED

SAN ANTONIO, Sept. 9.—Edwin F. Barnes, 55, railway employee, was instantly killed here today when struck by a freight train at a crossing of the M. K. & T. lines.

**DID YOU EVER STOP TO THINK**

By EDSON R. WAITE  
 Shawnee, Okla.

Edgar O. Harris, publisher of the West Point (Miss.) Daily Times-Leader, and president of the Tupelo (Miss.) Daily News, and one of the best known and most successful small city publishers in the country, says:

"You can measure the trade territory of any small city by the circulation of its local newspaper. The trade of a town or city follows the circulation of the home newspaper just as certainly as civilization follows the flag."

"To gain and maintain circulation, the local newspaper must actively and energetically promote every movement for the advancement of its community. It must champion the cause of the local merchant, who pays taxes and who contributes generously to the support of the local chamber of commerce, the civic clubs, the churches, and charities. The local newspaper which desires to succeed must do more than this. It must reach out into the rural districts to boost the pig and poultry clubs, to report the activities of the schools and churches, and to demonstrate its interest in and its usefulness for the community which it seeks to serve."

"Mind you, I am not suggesting that the local newspaper give away a line of its space to promote the specific interests of any commercial enterprise. The line of demarcation between news and advertising must be drawn sharply and enforced firmly. The good newspaper can and does command the respect of its community, and good business men and good citizens will respect its reasonable rules and regulations."

"No town or city can afford to stand still. It must either advance or go backward. The same rule applies to the conduct of a newspaper—and to every other business as well."

**THE FEDERAL POWER COMMISSION**

BY RODNEY DUTCHER  
 NEA Service Writer

WASHINGTON.—Even if Walter S. Gifford and the new unemployment relief committee do a very good job they can hardly be guaranteed against criticism and attack. These Hoover commissions nearly always encounter trouble, great or small, sooner or later.

"They are damned in proportion to their importance. Among the really hefty commissions engaged in trying to solve momentous problems you can't find one which, if it hasn't been attacked from without, hasn't gone and picked fights of its own."

"Of course, no one ever bothers such Hoover commissions as those on the Battle of Monongahela, the Yellowstone Park boundary and the Alaska Highway and they don't bother anyone else, either."

But when you think of the Federal Farm Board and the National Commission on Law Observance and Enforcement and of all the brickbats hurled at them since they first tackled the large questions of agricultural distress and prohibition respectively, you get to worrying about the unpleasant experience that may be in store for Gifford and his associates this fall and winter as they go up against the pressing matter of relief.

The Farm Board holds the record, of course. Perhaps because it has had the nerve to do so many astonishing things. Any federal body which was willing to enter the wheat and cotton markets in such a big way, fight the grain trade, subsidize wine concentrates and tell the cotton planters to destroy a third of their crop might well expect to create immense furors.

**EVERYBODY** took a kick at the Wickersham commission after its prohibition report, but since then, in report after report, the commission has been taking kicks at everybody else. And of course nearly everyone criticized by this

commission tosses some mean comment right back at it.

There is a White House Conference on Child Health and Protection and, like the other important commissions, has done a great deal of constructive work. But even this was good for one warm row and that came about at its meeting here when the U. S. Public Health Service appeared to be trying to gobble up the U. S. Children's Bureau. Many members of the conference were just as sore as could be by the time the sessions were over.

The Emergency Committee on Employment struggled along for months despite an almost complete lack of authority to do anything at all and then its chairman Colonel Arthur Woods, walked out along with several other members. The general understanding is that President Hoover and Colonel Woods couldn't agree concerning measures that might be taken for relief.

**THE FEDERAL POWER COMMISSION** is usually referred to as a "Hoover" commission because it has been reorganized and Hoover has appointed its members. That one got off to a flying start by firing its solicitor and chief accountant, who had many admirers in the Senate. The Senate undertook to reconsider its confirmation of the chairman and two other members, got itself roundly howled out by Mr. Hoover and then threw the question of the legality of the commissioners' tenure right into the courts.

The Hoover Tariff Commission has been getting along by keeping quiet and not upsetting any apple carts, but Henry P. Fletcher is quitting the chairmanship because, one hears, he is rather bored.

Other commissions have been razed for reasons: lions, reports or acts—or just for alleged sins of omission. It's a puny one that hasn't found opposition in some quarter.

increased strain of modern industry and the contrast between excessive wealth and poverty tend to foster a spirit of unrest which reflects on the international situation.

This committee also endorsed a resolution of the Lambeth conference of 1920, which said:

**Fundamental Change.**  
 "The outstanding and pressing duty of the church is to convince its members of the necessity of nothing less than a fundamental change in the spirit and work of our economic life. This change can only be made by accepting as the basis of industrial relations, the principles of co-operation in service for the common good in place of unrestricted competition for private or sectional advantage."

Plans have been completed for a mass meeting on The Church and Industry, which will be held here Sept. 23, midway in the convention's sessions, and will be addressed by both employers and worker representatives.

**PETTUS**—Construction of two-story structure at extreme north end of town nearing completion.

**PORT LAVACA**—New site for Saluria life guard station will be just south of Saluria Bayou.

**Cooking on the Airship Akron**

Here is the galley of the U. S. S. Akron, monster navy dirigible, where food for its crew of 45 enlisted men and 15 officers is prepared. W. F. Bucher, ship's cook, is seen here beside the 100-pound range which will be fed from a tank containing compressed natural gas.

**CRACKS IN THE DOME**

AUSTIN.—While additional cases in state courts here had not been ordered against the former Sheriff Que R. Miller of Foard county, his case may result in sweeping investigations by the new grand jury impaneled here next Monday into the practice of county officers holding back money due the state treasury.

This was indicated by officials connected with the fee investigation which resulted in the convening of a special grand jury on the first day of the first term of the new 126th district court, to be opened by Judge W. F. Robertson Monday.

Miller has been charged at Council with misappropriation of county funds. Controller George H. Sheppard has ordered investigation of the status of state funds in connection with his office, but there has not yet been made an audit of this, state officials said.

Investigators believed that sums of state money have been left in numerous cases by local collecting authorities in the hands of "favorite banks," beyond the legal limit of time.

Comptroller Sheppard recently cleaned up the situation of illegal delays of county tax collectors' remittances, and has the payments from the collectors moving in on time.

Several years ago, a grand jury here charged widespread evasion of the law and injury to the state, in county officers' leaving state money in favored county-seat banks long beyond the legal period, even when the state would be on deficiency and its employees all paying discount on their warrants.

Assistant Attorney General Grady Sturgeon confirmed the probability that the new grand jury will make an extensive study of the remittances of state funds by all local officers accountable for them.

The first subject the new state court's grand jury will take up is the group of charges filed by Assistant Auditor T. M. Markham and the attorney general's department in justice court here against Sheriff Clint Lewis, Caldwell, Texas; Sheriff John J. Burtchell, Giddings, and Sheriff Woody Townsend, Bastrop, on fee and mileage claims whose approval resulted in the impeachment charges against District Judge J. B. Price, Bastrop. Judge Price will go to trial before the senate here Thursday on the impeachment charges.

Officials believed the new grand jury may be able to speed up payment to the state treasury, by its first-term investigations to an extent of meeting the entire cost of the new court for many months. It was pointed out that all the local officers are under bond, and subject to civil recovery, as well as other action.

**"Hello" Is Used Most On 'Phone**

By United Press.

CHICAGO.—"Hello," "Operator," "Number, please," and "Yes" may not represent an entire telephone conversation, but they are words uttered most frequently into the transmitter of Chicago telephones.

The estimate made in New York recently that 737 words represents the average telephone vocabulary is a trifle high for Chicago according to Everett Brignza, an official of the Illinois Bell Telephone company.

"The most used word probably is 'yes,' or one of its variations, Brignza said. 'It signifies 'I hear you' or 'I understand,' and very often is the only thing a man is able to say to his wife."

"Good morning," "good bye," "number, please," "thank you" and "hello" follow in close order, but "hello" is not so popular as it used to be because most companies ask their employes to answer with the name of the firm.

A. G. Fashby, Bell company traffic engineer, opined that "number, please" and "operator" were the most widely used words. An operator in a Loop hotel, on the other hand, said that "Guess who this is," "Oh, yes," and "Well, can you beat that?" seemed to be the favorites, at least in hotel conversations.

**Park Sleepers Ired By Alarm Clock**

By United Press.

KANSAS CITY, Mo.—Penn Valley park was a fine place for sweltering citizens to spend the summer nights until someone disturbs our slumber every morning about 4:30 and he and his clock awaken the rest of the sleepers. Kindly have Sergeant Bigus (a police patrolman) look into this and see that our new roomer puts a silencer on his clock. We need sleep.

**Cave Men Do Appeal to Boy College Students**

By United Press.

BELTON, Texas.—Cave men tactics do not appeal to the college girls, according to a study made by a student reporter who interviewed more than 100 college students here. They said they disliked the method of wooing.

But 141 wanted the boys to show signs of jealousy, the study shows. Only 54, however, had the desire for a little on tanks, prof now and then to keep them interested.

Most wanted the boys to play golf, to play tennis, to play bridge, to play backgammon, to play checkers, to play pool, to play cards, to play billiards, to play dominoes, to play chess, to play draughts, to play backgammon, to play checkers, to play pool, to play cards, to play billiards, to play dominoes, to play chess, to play draughts.

**SISTER MARY'S KITCHEN**

BY SISTER MARY  
NEA Service Writer

Few family dietaries contain enough fruit. It usually is served only at breakfast. Consequently the practice of serving fruit salads and fruit desserts is decidedly commendable from a health standpoint.

Fruit salads seem to be an especially happy choice for fall menus. They fit in equally well for luncheon or dinner and are generally popular.

Children ordinarily are fond of fruit salads and they are a wholesome and thoroughly satisfactory concoction for the juniors. Care should be taken that any inedible portions, such as the seeds of grapes and raisins, are removed.

Very often a salad can be made up of odds and ends of fruit that otherwise might go begging. One orange, one banana and two pears or an equal quantity of some other fruit will make enough salad for four persons, but used alone the fruit would be inadequate for a meal.

Fresh and canned fruits also can be combined with good results. The dried fruits—dates, prunes and raisins—are available and are an acceptable addition to many fresh or canned fruit combinations.

**SOCIETY and CLUB NEWS**

**Plans Are Made For Week of Prayer.**

The W. M. S. of the First Baptist church met at the church Tuesday afternoon for its regular monthly business meeting. Mrs. Reimund gave the Scripture reading and Mrs. Mitchell led in prayer. The secretary read the minutes and committees gave their reports.

Definite plans were made for the week of prayer for state missions, which is to be held soon.

The following officers were re-elected for the coming year: Mrs. Reimund, president; Mrs. Rogers, secretary; Mrs. White, treasurer. Mrs. W. A. Lewis, Mrs. Hugh Russell and Mrs. Nannie Walker were elected as chairmen of the three circles.

The society will meet in circles next Monday afternoon at the regular time as follows: No. 1 with Mrs. Barker, No. 2 with Mrs. Reimund, No. 3 with Mrs. Pruet.

**Inter-City State Meet Of Odd Fellows and Rebekahs Is Held At Dublin.**

The inter-city state meet of the Odd Fellows and Rebekah assemblies convened at Dublin last night with a large group of members representing chapters from Stephenville, Comanche, DeLeon and Ranger.

The interesting hour with instructive features carried out to a degree of perfection was presided over by the grand warden, Mr. Carroll of Comanche. Initiation was one of the outstanding attractions listed on the evening's program.

The following Ranger members were included in the group: Mrs. H. G. Burch, Mr. and Mrs. John Usery, Mrs. Della Moore, Mrs. R. J. Taylor, and Miss Lorene Bell.

During the visit in Dublin the Ranger guests visited the popular and well known Baxter and Dublin broadcasting station. While there they were house guests of Mrs. Burch's daughter and husband, Mr. and Mrs. B. T. Howard.

**AT RANGER HOSPITALS**

**West Texas Clinic.**

Joe Briley is a patient this week suffering from a severe eye injury.

Mrs. Deaton and young son are doing nicely.

Miss Kathryn Galloway has been removed home following an operation for removal of tonsils.

**City-County Hospital.**

Miss Etta B. Adkinson was operated this morning for removal of tonsils.

Master Hal Byers was operated this morning for removal of tonsils. Both new patients are reported by the superintendent, Miss Kinney, as resting quite nicely.

**RANGER Personal**

Saunders Gregg and Nicol Crawford left this morning for Sherman where they will be students at Austin college.

T. J. Hester, auditor with the Texas Pipe Line company, of Dallas, is a business visitor in Ranger this week.

Mrs. M. H. E. Avelgard left this week for southern California. They will visit interesting points before reaching their destination.

Dr. Truett Wier, who is associated with Baylor hospital at Dallas, is visiting his parents, Dr. and Mrs. A. K. Wier.

Mr. and Mrs. Roy Aggers have returned after several months' visit spent in Hot Springs, Ark. Mr. Aggers, who has been convalescing, is enjoying splendid health again.

Mrs. E. D. Humphreys of Brownwood is the guest of her parents, Mr. and Mrs. J. A. Numley.

Mrs. A. R. Matthews and Mrs. Wade Swift are visiting in Milligan and Mineral Wells today, where they attended the funeral services of Mrs. Marion F. Peters, who was killed in an automobile accident at Midland, Monday night.

Misses Lucille and Jessie Mae Grant, who have been in Fort Worth with their mother, Mrs. Ora Grant, for the past few months, have returned to Ranger. The Misses Grant will attend school here.

The small son of Mr. and Mrs. J. A. Rogers, who sustained a severe knee laceration while visiting in Weatherford last week, is reported by local attendants as doing very nicely.

Miss Emma Young and Mrs. Eula White of Rochelle are visiting in the home of Mr. and Mrs. S. P. Boon and family, en route to Dallas, where Miss Young will teach in a Dallas public school this year.

Miss Rollins, who has spent the summer with relatives of Stephenville has returned to Ranger to assume her duties as a teacher in the primary department at Cooper ward school.

Mrs. Roy Speed and young son are now at home after an extended visit spent in Port Lavaca.

Mr. and Mrs. Clyde H. Davis and Mr. and Mrs. O. R. Walker have had as their house guest this week Durham K. Durham of Sterling City, brother of Mr. Durham and Mrs. Davis.

Miss Myrtle Walker returned to her home in Dallas this morning after a short visit with her parents, Mr. and Mrs. O. R. Walker, and sister, Mrs. Bascom Johnson.

Miss Lota Wolford of Abilene arrived this week to make her home throughout the school term. Miss Wolford is a teacher of expression and will conduct classes at the high school and three ward schools.

Vicks VapoRub

Your Same Vicks... Only Color Removed... Same Formula Same Price

**H**ERE'S real news! Science has found a way to remove the color from the world's most famous treatment for colds—without altering the time-tested formula an iota! It's your same Vicks—just all chance of stain gone!

**Why 26 Million Jars Are Used Yearly**—For twenty-five years Vicks VapoRub has been the mothers' reliance—the family standby for cold troubles. Like nothing else Vicks acts **externally**—without the risks of "dosing"—direct to the affected area—by stimulation and inhalation—2 ways at once.

**In Golden Amber or Stainless White**—Now your druggist has Vicks in the original amber or the new stainless white form—as you prefer it. It's the same dependable Vicks... same time-tested ingredients, compounded in the same exclusive Vicks way—at the same price.

**VICKS NOW IN TWO FORMS.** as you prefer it

For a generation an especially selected amber petrolatum has been used as the base of Vicks, because we found no white or "stainless" base of satisfactory melting point and viscosity that would permit the gradual, long-continued vaporizing action that is distinctive of Vicks.

Through the perfection of a process which removes the natural color, without otherwise affecting its properties, Vicks Chemists have at last made Vicks VapoRub possible in white, stainless form, for those who prefer it.
