THE RECORD Facts That Concern You

No. 15 of a Series

WE WANT YOU TO FEEL AT HOME wherever good beer is sold

The Brewing Industry realizes that decent, respectable people prefer to patronize decent, inviting places.

And we agree with them.

That is why we are taking actionin cooperation with law enforcement authorities-to "clean-up or close-up" beer retail establishments that disobey the law or permit anti-social conditions.

To do this we have instituted a new

self-regulation plan now in operation in a few states and being extended as rapidly as possible.

We think you will be interested in knowing something about this program. May we tell you about it in an interesting free booklet?
