W. S. FERGUSON LEADING OVER STATE RETURNS Come In Slowly In County Races

BULLETIN.
For the first time in more than 30 years, Dr. H. B. Tanner voted as a democrat in yesterday's election.

The doctor explained that the primaries in Texas are in effect an election, especially where county officers are concerned. In that respect he is as much a democrat as anybody. As an unsuccessful candidate for precinct chairman, I welcome Dr. Tanner into the fold of the democratic party and hope all the rest of you boys will extend him the right hand of fellowship.

Election day proved more or less embarrassing to me. I'd look along the names of the county office candidates and I couldn't tell who I wanted to vote for. Nearly every one of the candidates was my friend and I didn't have any special grudge against any of them. In several of the races, I'd like to have voted for all of them. And so I just counted out emmie, meenie, minie, mo, and voted. If I didn't pick a winner in any of the races, I'm perfectly willing to get in behind whoever did win and the fact that I didn't vote for any certain party is no sign that I'm specially against him.

Judge Roland was in the office while ago and contributed a piece of poetry which will probably express the sentiment of a good many of the candidates. Here it is. Read it, and sweep—

Well I'm a son of a gun!
On July 23rd, the first race is run,
There will be many a disappointed son of a gun.
He will go home tonight believing he has the race on a gun.
But will wake in the morning,
Well, I'm a son of a gun!
He will tell you today his friends got him to run,
But see how they left him—I'm a son of a gun.
I would have bet that I had this race won,
But look how he led me that son of a gun.
Today he feels fine, and extends a glad hand,
He feels the biggest fellow in all of this land,
But tomorrow when he finds his opponent has won,
He will stand, look silly, well I'm a son of a gun.

While others fought hard in ruin and sun,
Will smile and look happy, well I'm a son of a gun.
I led the Old Rasca! from the day we began,
But it is hard to lick that old son of a gun.

Now come on boys let's be a good fellow,
Don't let a leak out that you are all full of yellow,
Just step up to him and have some more fun,
Shake hands and say, you old son of a gun.

RUNNING GOOD RACE

Many Must Enter August Runoff In Order To Pick Winner.

WASHINGTON, July 23.—Federal officials moved against the bonus army veterans today with notices that two make-shift camps must be vacated by Friday.

A representative of the treasury department was dispatched shortly after noon to post notices at Third street and Pennsylvania avenue and in an area of non-descript huts behind the agriculture building. The areas are under treasury supervision.

The block behind the agriculture department is occupied by California veterans, lead by Roy W. Robertson. Veterans from Minnesota and Michigan and by the so-called Communist contingent of John Pace.

Robertson's men defied his leadership today. They refused to leave with him on a nation-wide political barnstorming tour. Robertson planned leaving today for Los Angeles. The "death marchers" who followed Robertson in ceaseless parade at the capitol last week said they would remain here until Thursday.

REPORTS SHOW VOTE'S TREND OVER COUNTRY

Geneva, Switzerland, July 23.—The resolution adjourning the world disarmament conference until autumn and embodying the work of the conference to date, was adopted today.

The vote by the general commission was 41 to 2, with eight abstentions.

The provision provided that the work of the conference be carried on in negotiations during the summer recess. It left many important points to be settled before the conference reconvenes.

The conference adjourned at 12:40 p. m., after setting the dates of the next meeting of the committee for Sept. 21.

The committee was instructed to re-assemble the conference within four months after that time.

GARNER CASTS VOTE; TELLS OF HIS TRIP

UVALDE, Texas, July 23.—Uvalde's first citizen, Speaker John Garner, like all good fishermen, today enlightened his friends, members of the fony tribe and his tales were corroborated by his crony and companion, Ross Brumfield.

The two fishermen returned from their two-day trip into a secret fishing retreat last night. The house speaker and vice presidential candidate on the democratic ticket arose early today to vote, and after that returned to his home. The two plan a second fishing trip soon.

ZIEGFELD DIES AFTER ILLNESS AT LOS ANGELES

LOS ANGELES, July 23.—Florenz Ziegfeld, known the world over as the man who "glorified the American girl," was dead today, victim of an attack of pleurisy that followed pneumonia.

The silver-haired New York producer whose annual "Follies" was an institution of the American stage, died at 10:30 p. m., last night.

His wife, Billie Burke, and his daughter, Patricia, were near the bedside when death came in Lebanon hospital.

Ziegfeld's death was unexpected, although his condition had been critical for several weeks. He had been under treatment in New Mexico and was brought here this week when he suddenly became worse. His physicians, however, had thought him improving in the last few days.

Death came to Ziegfeld just a few minutes before the hour when the curtain ordinarily fell on one of his lavish productions.

BEER!!

RHEIMS, France.—1932 promises to be a great champagne year.

While it is rather early to be certain, experts say that barring accidents there will be a bumper crop.

There has been plenty of rain to supply quantity and lately the sun has been shining hot and strong to pump quality into the grapes.

Popular as it is in America and Great Britain, champagne appears to be a poor second as a beverage for the workingmen who may drink liters of the unfinished product for the asking.

Recently a correspondent visited one of the most renowned establishments near here. Three workmen guided him. The visit lasted three hours. Wine was flowing from vats and barrels remained untouched by the workmen.

"You've been very nice," the correspondent said. "Let's go across the street and have a drink. What will you have?"

Standing against the bar, the three workmen as one man shouted: "Beer!"

The eminent judges, Hon. Anton J. Cermak, mayor of the city of Chicago; Robert Isham Randolph, director of operations, Century of Progress World's fair, Chicago, 1933, and Al Johnson, internationally known entertainer, judged the 116 winners in the contest.

Young Key, who looks fine, brown, and rugged, was enthusiastic over the tour, which started on June 2 from Austin. They played matches in many cities in the east.

Allen will enter the Eastland tennis tournament, which opens next Thursday for a four-day session.

If I didn't pick a winner in any of the races, I'm perfectly willing to get in behind whoever did win and the fact that I didn't vote for any certain party is no sign that I'm specially against him.

Judge Roland was in the office while ago and contributed a piece of poetry which will probably express the sentiment of a good many of the candidates. Here it is. Read it, and sweep—

Well I'm a son of a gun!
On July 23rd, the first race is run,
There will be many a disappointed son of a gun.
He will go home tonight believing he has the race on a gun.
But will wake in the morning,
Well, I'm a son of a gun!
He will tell you today his friends got him to run,
But see how they left him—I'm a son of a gun.
I would have bet that I had this race won,
But look how he led me that son of a gun.
Today he feels fine, and extends a glad hand,
He feels the biggest fellow in all of this land,
But tomorrow when he finds his opponent has won,
He will stand, look silly, well I'm a son of a gun.

While others fought hard in ruin and sun,
Will smile and look happy, well I'm a son of a gun.
I led the Old Rasca! from the day we began,
But it is hard to lick that old son of a gun.

Now come on boys let's be a good fellow,
Don't let a leak out that you are all full of yellow,
Just step up to him and have some more fun,
Shake hands and say, you old son of a gun.

BULLETIN.
For the first time in more than 30 years, Dr. H. B. Tanner voted as a democrat in yesterday's election.

The doctor explained that the primaries in Texas are in effect an election, especially where county officers are concerned. In that respect he is as much a democrat as anybody. As an unsuccessful candidate for precinct chairman, I welcome Dr. Tanner into the fold of the democratic party and hope all the rest of you boys will extend him the right hand of fellowship.

Election day proved more or less embarrassing to me. I'd look along the names of the county office candidates and I couldn't tell who I wanted to vote for. Nearly every one of the candidates was my friend and I didn't have any special grudge against any of them. In several of the races, I'd like to have voted for all of them. And so I just counted out emmie, meenie, minie, mo, and voted. If I didn't pick a winner in any of the races, I'm perfectly willing to get in behind whoever did win and the fact that I didn't vote for any certain party is no sign that I'm specially against him.

FACES IN THE NATIONAL PICTURE GALLERY

Speaker John Nance Garner with the aid of 35 insurgent republicans and one farmer-laborite put over the conference report of the \$2,122,000,000 unemployment relief bill designed to stimulate industry and aid the jobless. Only two democrats voted no. Do you get it? It was a slap on the nose for the president. He demanded complete revision of the relief program.

Next the conference report was sent to the senate. Sen. Robert Wagner, democrat of New York, is the co-author of the bill. He predicted stormy debate but forecast approval by the senate in the near future.

Major Gen. Smedley Butler, of Marine fame, a republican and an ultra-dry, has declared that he will vote for Franklin D. Roosevelt for president based on Roosevelt's stand on economic questions.

There is a woman's organization with a million members "of both political parties." Mrs. Charles H. Sabin, in other years a republican leader and the voice of the republican women of New York, has declared for Roosevelt and Garner as against Hoover and Curtis in the coming election.

William D. Upshaw of Georgia, an ultra-dry who served four terms in congress as a democrat, and has been one of the star campaigners and orators of the national Anti-Saloon league, has been named as the nominee of the national prohibition party for president. He is pledged to step aside should Sen. William E. Borah decide to permit the use of his name as a third party standard-bearer.

No, the Lone Eagle of Idaho has not declared for Roosevelt and Garner. He never voted for a democrat, for major or minor office, in his history. He is the loudest of all the political talkies in an independent sense, but he is ever a regular on general election day.

William Gibbs McAdoo predicts that California will cast its electoral vote for the democratic standard-bearer. He has invited Speaker Garner to make a trip to the Pacific coast during his vice presidential campaign. Garner has promised to make at least one speech in the Golden Coast state.

McAdoo gave the lie to the republican correspondents who invented the story that he switched to Roosevelt "to get even" with Alfred E. Smith. He said in his convention speech: "The condition of the country is so grave the democratic party should not destroy it by needless fights on the floor." It was sound advice. Speaking of the decision of the Happy Warrior to support the Roosevelt-Game ticket, McAdoo said: "Smith is a good democrat. I think it was an insult to the governor to suggest he might not have backed the party ticket." It was like him or hate him, the Happy Warrior is a democrat, a regular, a never-scratch-the-ticket democrat and those who know him best say that he never will bolt a democratic ticket.

Newton D. Baker will take the stump for the standard-bearers and platform named in the city of Chicago. Why shouldn't he? As a member of the Wickersham committee he reported to President Hoover that the "noble experiment" of the great engineer was a complete failure and the sorriest farce in the history of American legislation.

FEDERAL FUNDS FOR TEXAS RIVERS AND HARBORS

Secretary Pat Hurley of the war department has announced the initial allotment of \$2,245,000 to be expended during 1933 on Texas rivers and harbors, from the sum of \$42,315,400 appropriated by congress and allotted to all rivers and harbors of the 48 states. Let us forget, the congress appropriated \$60,000,000 providing for rivers and harbors and the relief bill which has been enacted contains an additional \$30,000,000 for this purpose inserted by Speaker John Nance Garner. The Hurley allotment leaves an unallotted balance of \$17,684,600 to be distributed later when bids for contemplated work are received and the amounts required definitely determined. It is well to place Texans on guard and to keep them on guard. Speaker Garner is for the entire nation, but he sees it that Texas gets its share in the division of money for harbors and waterway improvements. Business is business.

TEXAS PATMAN ON THE FIRING LINE AGAIN

Texas Wright Patman, congressman from the first district, has introduced a bill for immediate payment of the bonus to needy veterans. Texas Patman estimated it would require about a billion dollars. Provisions by which the need of the veterans would be ascertained would be laid down by the Veteran's bureau.

This placed the president in a hole but his advisers extended the helping hand. Now he favors an appropriation sufficient to transport the bonus marchers from the capital city of the nation to their respective homes in all the states. This is presidential election year. Even the great engineer is aware that there is an election coming in November.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

That progressive cities build for future greatness. Cities where the people as a whole show interest in civic affairs, especially those improvements which affect the general appearance of their city for all time to come, move ahead fast.

It is one thing for a city to TALK progressiveness and another to BE progressive. Experience has proved that cities who really do worth while things are the cities whose citizens preach cooperation and practice what they preach. Cities that have an attractive appearance have much public pride, which instills in its citizens a strong desire to make it progress faster.

Constructive cooperation is an index of a city's prosperity. It shows confidence in the future. Cities that keep ahead in the march of progress are the cities that reach out and keep doing bigger and better things.

Inspector Charles Maher saw a pair of such socks going down a street, detained the wearer—and confirmed his suspicion that the man was Sanderson.

HERE--- AND THERE

Aviation: Have you met Mrs. Agnes Harwood Doyle? Full of enthusiasm about the wonders of aviation, its benefit to a city, and the very probable possibilities of having the project of building an airport in Eastland, an accomplished fact?

Mrs. Doyle has just returned from a two weeks visit in San Antonio, attending to her personal affairs, and also working in behalf of Eastland's airport, and aviation school, which Mrs. Doyle is very anxious to see develop.

Enthusiasm was expressed as well as delight over publicity carried in the newspaper concerning Dr. Tanner and his effort on behalf of the proposed airport. And the fact that committees appointed through Chamber of Commerce were re-creating out for construction work, was considered most encouraging.

The Eastland committee is composed of Earl Woody, Frank Castleberry, and president of the Chamber of Commerce, C. J. Rhoades.

Mrs. Doyle thought there was no doubt Eastland would be greatly benefited by a real port, and in this way secure real airplane licensed pilots and mechanics.

This is the project upon which Mrs. Doyle has been working industriously, with the result that C. W. Blackwell and J. P. Blazer of Harlingen, both licensed by the government, are going ahead with this kind of flying services, such as actual flying course, cross-country flying, charter trips, and passenger flying.

All of this will provide the flying public a place for rebuilding, repairing and having government licensed service and inspection.

This official work would be possible with the men mentioned. This protection is one of the main features in aviation being the government's backing. Both these men are very efficient, having to stand the government examination in aeronautics both in physical and theory.

Mr. Blackwell and Mrs. Blazer have had experience in Nashville, Tenn., Pine Bluff, Ark., and Jonesboro, Ark., airports.

They are now at Harlingen, where they have built up a fine business, both in the training line and in the dusting of cotton fields, which is extensively done in the valley.

Mrs. Doyle stated these men had never had a passenger or student hurt in all their flying experience.

It is evident that Eastland should get into activity, arouse enthusiasm, secure co-operation, and engage in actual demonstration of interest on the part of citizens, and secure this airport.

The city should also secure a hangar for the airport, for care of ships in inclement weather.

The proposed site, located near the old rock house, will be an addition to the present government field, and will not need to be lighted at night, as the U. S. A. lights will be sufficient, it was stated.

It is easy to visualize how such an airport would stimulate Eastland business and activity. Ships could stop here that now have to go to Ranger or Cisco, and much of the business now diverted from this city could be concentrated here.

Undoubtedly aviation is the coming big business and sport proposition. Why not get into it while the game is young? and efficient men can be secure, to put in charge of the school and actual business of aviation?

Filipino Expected To Break Record

By United Press. LOS ANGELES.—The Olympic swimming record in the 200-meter breaststroke will be in danger of being shattered in August by Jikim Adrialadin, one of five Filipino athletes who will represent the Philippines.

In recent trials Jikim twice broke the Olympic record, and hopes to repeat this feat. He established a mark of 2 minutes, 47 seconds flat, over a 25-meter course, which was 1.4 seconds faster than the Olympic mark set by Tsuruta of Japan in the 1928 Olympics in Amsterdam. However, his time was 3-5 of a second slower than the official world's record established by Tsuruta at Kyoto in 1929, over a 25-meter course. Jikim is only 18 years old. He is from the U. S. Army in the Philippines.

The meeting is to be brief in that that the people need not become physically worn out but that they may be able to give themselves to it unreservedly to the closing day.

PARIS STYLES

By MARY KNIGHT, United Press Staff Correspondent. PARIS.—The greatest incentive to modern fashions seems to be wrapped up in some casual remark. "Oh, you can't wear those two things to gether—who ever heard of such a thing?"

Well, that's just it. If nobody ever heard of such a thing then it would certainly be something absolutely new, and as one of the designers put it, "Isn't that what we are all striving for?"

The main difference between American and French styles in combining a color with black, say, or white, is that Americans are content to introduce their contrasting color note in a single item—a hat, purse, belt, glove or shoes, while the French, and especially the Parisiennes, would have none of these accessories without also a touch of the same color note somewhere about the ensemble itself.

To Study Value Of Lignite Field

TORONTO, Ont.—After two years of painstaking effort, which embraces research work in several European countries, the Ontario Research foundation soon will be in a position to say just what the commercial possibilities are of the lignite field in Northern Ontario.

At present it is thought that lignite may be used as a fuel for locomotives; for steam raising; for certain kinds of domestic heating and for any special purpose where high and quick heats are necessary.

Marion Talley, Pianist Husband

Here is a new picture of Marion Talley, once the Metropolitan opera's youngest prima donna, and her new husband, Michael Raucheisen, noted German pianist, taken at the Talley home in Kansas City, Mo., as they made formal announcement of their marriage June 30 in White Plains, N. Y. Miss Talley, who is 25, retired three years ago at the height of her fame to return to her Kansas farm. Raucheisen, who is 43, was divorced from his first wife in Germany in June.

taken from St. Luke 9:14. Here we are told the story of the Pharisee and publican who went into the temple to pray. The Pharisee was proud and despised others. He carried his sins out with him when he left. The publican was humble and left the temple with his sins forgiven. Tennyson wrote: "Humility—the highest virtue, mother of them all." Let us be humble like Christ.

ST. FRANCIS CHURCH

Masses will be at 9 a. m., by Rev. P. Ruzio. This is the tenth Sunday after Pentecost and the Gospel reading today is taken from St. Luke 18:9-14. Here we are told the story of the Pharisee and the publican who went into the temple to pray.

The Pharisee was proud and despised others and considered himself a very superior being; and spoke in that manner to God. He left the temple with his sins on his soul. The publican was humble and was afraid to lift his eyes heavenward. He admitted he was a sinner and asked God to forgive him. He left the temple with his sins forgiven him. Humility is a great virtue and possessed by few. What we are, what we have, depends on God. Intelligence, health, strength, wealth—all come from God. If it comes from God, why should we be proud as if we possessed those things of our own merit and independent of God?

Americans Lead Artists Picked For Concerts

CHICAGO.—Native American artists will perform in the majority of concerts next season as singers, violinists, pianists and ensembles, Miss Denna E. Harshbarger, originator of the Civic Music plan and president of the National Civic Music association has announced.

Artists already have been selected by 200 leading United States cities with 57 yet to make their choices. In each of those where selections have been made, the civic music membership committee has completed 1932 campaigns and the others soon will have done so. Funds derived from these memberships is budgeted for each city's season thereby assuring a season without a deficit.

The Artists. Coe Glaser and John Charles Thomas, of the Chicago Civic Opera and Attilio Baggio, famous American tenor with the Royal Opera of Rome, head the list. Each has a schedule of 50 or more concerts. Other Americans committed have completed 1932 campaigns and the others soon will have done so. Funds derived from these memberships is budgeted for each city's season thereby assuring a season without a deficit.

Foreign stars who will appear frequently include Maria Jeritza, Claudia Muzio, Beniamino Gigli, Florence Austral, and Nina Kozlovets, among the singers; Fritz Kreisler and Paul Kochanski, violinists; Rachmaninoff and Levitzki, pianists; Mary Wigman and Escudero, dancers, also will find full bookings.

Representatives of Civic Music associations meet annually here to discuss the artists and their abilities, ignoring the publicity frequently used to build up a star. Each loyal association chooses its own talent but by mutual conferences, the best artists are made known. Desiring good music and not caring much for high-sounding foreign names as such, at the National Civic Music association convention each local organization reports on the success of artists before their audiences. By thus relating their experiences with all artists, American artists of ability have been placed on an equal footing with imported prima donnas and virtuosos.

OLDEN NEWS

OLDEN, Texas, July 23.—Mr. Mrs. C. I. Hyatt entertained yesterday night with a lawn bridge party which was enjoyed by about 100 guests. The lawn was prettily landscaped and 12 tables artistically arranged, where progressive bridge was enjoyed until a late hour. Delicious refreshments were served. Miss Jean Adams has been visiting in Stephenville this week at the home of Mr. and Mrs. Dave Stephens, where she is visiting Mrs. and Mrs. E. R. Buckley will return from their vacation trip to California about the first of August.

V. O. Wyatt is feeling much better now. He underwent a tonsillectomy at the Blackwell sanitarium in Gorman a few days ago. It is reported that Guy Henke is on the road to recovery following an operation for appendicitis at the Blackwell sanitarium in Gorman.

Miss Jewel Russell is visiting friends in East Texas this week. Miss Mary Evelyn Edwards entertained a party of young people at her home Friday night, and a pleasant evening was enjoyed by all present. The Baptist revival meeting continues Sunday, July 24, at the tabernacle. Everyone is invited to attend.

From all accounts, everyone in a round Olden has been busy picking the surplus of fruits and vegetables. Because of the good season, a heavy yield of garden and orchard crops has been gathered. Many are coming in the cans with steamers, cookers and sealers, and those who have no cookers have had that by borrowing a neighbor's, they can seal their own. Those who are using this method say it has proven extremely successful. But whether by steam pressure or in the old way of cooking and sealing in glass jars, we are all busy.

VICTORIA—R. B. Butler awarded \$5,437 contract for paving four blocks on South Moody street, from Convent street to new river bridge on highway No. 12.

FRECKLES and HIS FRIENDS—By Blosser

for LOVE or MONEY by H.W. CORLEY

BEGIN HERE TODAY MONA MORAN who supports her mother, invalid father, little sister, KITTY, and several-will-to-creep for wealth and position, she is receptive for a Wall Street law firm and to the office men of the world to which she aspires. Her brother announces that her childhood sweetheart, STEVE SAITABILLI, grandson of the late and great dealer, has returned home. Steve disappeared three years earlier and it was rumored he was in prison though Mona never believed this. She meets him on her way to work one morning. Steve is handsome, well dressed and well mannered. Mona is not anxious to renew the friendship but agrees to dine with Steve. Enter in the door she meets BARRY TOWNSEND, a young man of wealth and social prominence. She refuses Barry's ever makes engagements with either of employers.

NOW GO ON WITH THE STORY CHAPTER IV

AFTER leaving Mona at the office Steve headed his car northward with no plan except to go home until time to call for her at Eve. His hand lay on the wheel mechanically, the car responding to his slightest touch with a sensitive rare horse. He had not been to bed. Three years of loneliness coupled with that sense of security provided by sufficient money honestly come by had added a piquant flavor to New York's night life.

Before Steve had gone away he had seen only the outskirts of that life. Today he could take part and fling football gold with the others. And Steve wanted to show Mona this New York to which he had ascended. He had acquired an ease of manner, a sense of dress, an air. It stirred his vanity to be able to show Mona the new Steve, to walk on Broadway the Park Avenue way. It was true, as he had told Mona, that before he had disappeared he had been involved with gangsters, innocently enough at first, had driven what the tabloids refer to as the "hold-up car," though as far as Steve knew he had been involved in no gun-play.

It seemed to be easy money. All Steve had to do was pick up his fare as prearranged, drive to a certain hide-out and collect his split. That the gang held out on him frequently made little difference. What he received was velvet and his risk was slight. When he came to realize that the gang which hired him was not bound on pleasure parties, that the cash they handed him in furtive though generous amounts was offered usually after newspapers had printed accounts of this robbery or that along the jewel centers of the town Steve tried to pull out. He was approached carefully and warned. Leave town and they'd get him. Or let the cops get him for a stretch at Sing Sing. "You haven't anything on me, buddies," Steve insisted. "Yeah. Tell that to the judge and see what it gets you!" They spoke glibly of accessory before and after the fact, of receiving

"Say!" Steve said wildly, "slip a note in that box, will you?"

stolen goods (this consisted of carrying the swag, unapprised, to the fences) of "tips" taken by innocent members of their organization. Oh yes, they had plenty on him. So Steve perceived. "Yellow," the gang called him. "Green," replied Steve. But privately he told himself, "Getting less green!"

It happened that Steve, back in the days before his association with "the gang" had often had as passenger in his cab a young man about town whose wavering footsteps could not always make the distance to his club at one o'clock in the morning. Cruising about the supper club zone in that dull period just after the theater crowds had been cared for, Steve formed the habit of picking up this passenger and dropping him safely at his club entrance. This service was the beginning of a friendship. The night after the next jewel robbery had blazoned itself in morning and evening papers, Steve, driving idly past the club, had seen his old friend in an honest and upright condition waggling a finger into the traffic for a taxi. Steve drew to the curb and the young man got into the cab. He was going to South America that evening, the passenger said. To make conversation Steve announced he would like to go too. "Come on!" The invitation was

she didn't have the things to wear. Not that he would mind—but she would. He had been away from civilization for three years but he knew women. It was no cinch these days for a girl to support herself, let alone her family. That good for nothing brother of Mona's—

Steve himself had bushels of money. Why not send her a gown just to wear that evening?

It did not occur to him that Mona's code might fail to include the acceptance of gowns sent to her by men friends, however well intended such a gift might be.

Steve closed his eyes and thought—as he had often thought—of Mona in a costume really befitting her beauty. That graceful figure, that hair, that creamy skin, the gray-green eyes, the wistfulness of Mona's smile, strangely at variance with its setting—

Steve laughed aloud as an idea occurred to him. Go to Pilgrim's and make old Pilgrim dress Mona up!

"They don't have anything too good for her, at that," Steve told himself. Two hours consultation with Henri at Pilgrim's did much to deplete Steve's ideas as well as his bank roll.

He slipped five dollars to the model displaying the gown because her coloring approached Mona's and because she had shown untiring patience. The messenger boy got another five to insure prompt delivery.

Then Steve dropped into a florist's, left an order and took his way to his mother's for a nap. On the way up he recalled the proposed visit to the hospital. That necessitated other purchases and when a dressing gown, a steamer basket of fruit and some tobacco had been added he nosed the car at last toward the little Third Avenue flat.

Maybe Mona wouldn't like his buying all these things. That idea suddenly occurred to Steve. He dashed for a telephone and only by a series of threats did he get the magnificent Henri on the wire. "Say," Steve said wildly, "slip a note in that box, will you? Something to the effect that I'm only lending the stuff. She might not take it otherwise, see? Fla it up, you know how. And sign it 'Steve.'" "Ze box for Mees Moran? She has gone already." Henri waved an apologetic hand unseen over the phone.

"You are a liar," Steve told him cheerfully. "If it has, then get it back. I want that note enclosed." "Yes Sir."

Marvelling at the innocence of the gentleman—an innocence already perceived and exploited when the bill was presented—Henri did as he was bid.

Henri's acquaintance with young ladies had not included those who required an apology for sending around ermine wraps and Patou gowns.

Well, well, perhaps the innocent young gentleman knew best. (To Be Continued)

The fire-blackened framework of Coney Island's famous boardwalk and the charred ruins of adjacent buildings are shown in this graphic photo taken after wind-driven flames had lapped up water-front property valued at \$5,000,000. The blaze had hardly been quenched when thousands of New Yorkers returned to the beach (as seen at the left) to escape the city's mid-summer heat. Hundreds were left homeless by the spectacular fire that ravaged four square blocks.

Tourists Kick On Beer With Kick

By United Press. HAMILTON, Ont.—Tourists from the United States complained to the chamber of commerce that when they had asked for 4.4 beer at refreshment stands, they were served real beer and charged 50 cents for it. Under the Canadian laws any-one may purchase 4.4 beer, but to purchase the real beer a permit is necessary. One tourist said he stopped at a wayside restaurant for a meal and was asked if he wanted a bottle of beer. He drank the beer thinking it was 4.4 beer. He charged that when the time came to pay the bill he was charged 50 cents for the beer.

Steel House Sold On Installments

And just like that same automobile, it is likely to have a trade-in value. That's what they're talking here in Birmingham. It seems that someone has proposed making one-story houses of pressed steel that come equipped with electric lights, refrigeration and what-not in three, four, five, and six-room sizes. Steel producers fabricators, architects, builders and sociologists all say that houses built in this method of steel would be good things to have.

Captain Carson said the Tigress was found alongside her sister ship, the Scorpion. The two vessels were sunk during an attack on the British naval base at Penetanguishene after an American victory at Put-in-Bay during which the British warship Chippewa was captured. Captain Carson reported that although the Tigress was split both fore and aft, it was capable of being raised and preserved as an historical relic.

SPEAKING of SPORTS

By STUART CAMERON, United Press Sports Editor.

Walker Probable Opponent in Sharkey Title Defense.

Mickey Walker who was credited with a draw against Jack Sharkey last summer is the likeliest challenger in Champion Sharkey's first heavyweight title defense.

Johnny Buckley, Sharkey's manager, is not expected to give Max Schmeling a return bout until Jack has had at least one, and maybe a couple of title bouts with the other heavyweights. The first one is all but certain to be with Walker.

For all the great things Walker's friends believe of him, signing for a bout with Mickey would be a cautious move on Buckley's part. Jersey fight fans and plenty of impartial observers of the Sharkey-Walker bout last summer still insist that Mick was robbed when he got no more than a draw decision. It's probable, however, that they are not considering properly the great difference in size of Sharkey and Walker. Mickey put up a grand scrap against Jack, but his showing seemed better because there was the picture of a much smaller man holding nearly even with a larger one.

Actually, then, it would seem that if anybody was robbed in the Walker-Sharkey bout, it was the man who now holds the heavyweight title. On the other hand, Sharkey deserved severely more than he got considering the indifferent attitude he displayed. If Jack had gone after Walker as he went after Primo Carners, little Mickey would have had an unhappy evening.

Walker is an amazing man. Amazing because of his ability to remain in trim, despite late hours and plenty of justification.

The writer attempted to telephone Jack Kearns, Mickey's manager, not so long ago. The phone rang several times, finally someone yelled: "What do you want?"

"Well, Jack Kearns isn't here and this is nobody but Mickey Walker and what a pal you are to wake a guy up an hour after he gets into bed."

It was then 9 a. m., E. D. T.

Spain Eyes Orange Purchase of Britain

By United Press.

Spain continues to maintain the supremacy of the British market, but the other nations are increasing their sales.

In 1926 Spain sold Great Britain 6,000,000 metric quintals of oranges, and in 1930 the total sales amounted to 7,200,000. But in the same period the sales from 1,900,000 metric quintals of oranges to 3,200,000.

Among those nations which increased their sales to Great Britain was Brazil, which jumped from only 178 quintals in 1926 to 350,000 in 1930.

NEW TAXES HIT JOHN CITIZEN 25 TIMES FROM MORNING SHOWER TO NIGHT CLUB

No wonder folks get dizzy trying to keep track of Uncle Sam's new taxes! This sketch illustrates just a few of the new 1932 taxes which are designed to balance the federal budget by raising additional revenue of \$1,118,500,000 this year—which is about \$10 for every man, woman and child in the land, or approximately \$50 per family.

Sleep Is Cheapest Pleasure and It's Free

BY ROBERT TALLEY, NEA Service Writer.

Every day and in almost every way, whether you realize it or not, you are paying taxes to Uncle Sam to help him raise the \$1,118,500,000 in additional revenue which the recently enacted revenue act of 1932 is designed to produce for balancing the federal budget.

This total represents, on the average, about \$10 a year in increased taxes for every man, woman and child in the United States—or \$50 a family.

These taxes have been in effect for several weeks, but if it is probable even now that many persons do not realize the multitude of ways in which they claim tell from American pocketbooks every day. The reason for this is that many of the new levies are "manufacturers' sales taxes," in which the tax must be paid originally by the manufacturer and is therefore concealed in an increased sale price for the article.

A clear way to show the multiplicity of these new federal taxes (but by no means all of them) is to take an average day in the life of an average man. You will see that he may be called on to pay taxes to Uncle Sam 25 times a day:

- 1—He arises and takes his morning bath—with toilet soap, on which there is a tax of 5 per cent.
- 2—He brushes his teeth with a dentifrice—on which there is a tax of 5 per cent.
- 3—He shaves and powders his face—5 per cent tax on the shaving cream, 10 per cent tax on the talcum powder.
- 4—He has coffee and toast with his breakfast—3 per cent tax on the electricity consumed by the electric toaster and electric percolator.
- 5—He glances at his watch to see if he is late for work—10 per cent tax on the watch, if it cost more than \$3.
- 6—He drives to work in his auto—3 per cent sales tax on his auto if it is a new one. 1-cent per gallon tax on his gasoline, 1 cent a quart tax on his lubricating oil, approximately 11 per cent tax on his new tires and 15 per cent tax on his new fuel.
- 7—A spark plug falls on his way down and he stops at a garage for a new one—2 per cent tax on auto accessories and parts.
- 8—Arriving at his office, he sends a telegram—5 per cent tax on telegrams.
- 9—He makes a long distance telephone call—10 cent tax on messages costing between 50 cents and \$1; 15 cents on tolls between \$1 and \$2; 20 cents on tolls of \$2 or more.
- 10—He lights a cigar—tax of 2 cents per 1000 on matches of wood, 1/2 cent per 1000 on the paper kind.
- 11—He writes a check—2 cent tax on each bank check.
- 12—He mails the check—3 cent letter postage now, an increase or

each 10 cents or fraction thereof (where said "admission" charge said figures more than 50 cents).

After all these taxes, Mr. Taxpayer can go home and go to bed. The bed, at least, is tax free—but he will still pay 3 per cent on the electric light he uses while undressing.

In all history, there probably is no more far-reaching piece of legislation—touching the lives of so many people in so many ways every day—than the gigantic 1932 peace-time tax bill.

Nor have there been many pieces of legislation so complicated or abstruse—cramped with so many fine interpretations and hair-line distinctions.

Originally, there was a tax of 10 per cent on gold used in teeth, such gold being included in the classification of "precious metals used for ornamental purposes."

But protests by the nation's dentists resulted in this tax being rescinded several weeks after the law was passed. The law specifically exempted gold used in eyeglasses.

Soap sold for use in the kitchen or laundry is tax free, but if the same soap is sold for toilet purposes it is taxable at 5 per cent.

Likewise, there is a 10 per cent tax on boxing gloves, but no tax on punching bags. (Boxing gloves are "sporting goods" and "punching bags" are classed as "gymnasium equipment," which is tax free.)

Milady's furs also are taxed. A night club party cannot prostrate the check so as to dodge the tax by increasing the exemption, for Uncle Sam's law prohibits this. But if a man goes to a night club, eats his meal and leaves before the show begins—or is escorted where he can neither see nor hear the entertainers—he does not have to pay the tax on amusements.

What is the tax on a can? The tin plate used in making cans is a thin sheet of steel coated with pure tin.

What causes the discoloration of the inside of some cans? Is it harmful? Some foods contain a sulphur which discolors the inner surface of a can for the same reason that it discolors a silver spoon left in contact with a cooked egg. In either case the stain is harmless. It has no unwholesome effect whatever on the food inside the can.

Does the metal of the can affect the wholesomeness of the food? No. The can is simply steel covered with pure tin and for some products it is coated with carefully selected enamel baked on at high temperatures. It is sterilized and clean. It can have no unwholesome action whatever on the food inside.

Is there a taste of tin? No, the so-called "tinny" taste is usually the astringent or metallic taste imparted by dissolved iron, which is entirely harmless.

Why are enamel-lined cans used for some foods and not for others? Enamel cans are not necessary to can a wholesome product, but they are necessary with some kinds of food to retain an attractive appearance; for example, to preserve the color of red fruits.

What is the best way to store canned foods? They should be kept at a moderately cool, not refrigerated, temperature—a cool, dry cellar or closet is suitable. Avoid storage near steam pipes, radiators, furnaces, or kitchen ranges.

Do canned foods cause ptomaine poisoning? No. The illness generally called ptomaine poisoning is due to bacteria which are found occasionally in unsterilized foods, but which have such low resistance to heat that they are killed by the canning process. Dr. M. J. Rosebury of

Winning over what was said to be the best looking "field" in years, Alberta Costley, 18-year-old blond beauty, was crowned "Miss New Orleans" for 1932 and will represent her city in the famous Galveston revue. She has gray eyes, is five feet five inches tall and weighs 121 pounds. The last blond to represent New Orleans was Dorothy Dell Goff, who became "Miss Universe" and now is featured in the Ziegfeld Follies.

Information Is Given On Canning

In answer to the questions about home canned foods and some of the results of the canning in tins, the following statements from Miss Lola Blair, nutrition specialist, College Station, Texas; the U. S. department of agriculture, and the National Canners association, will be of interest to all:

Copy from Bulletin 111A, National Canners association: "Food cans are made of sheet iron, coated with a thin layer of tin. Some acid foods, such as grapefruit, peaches, pineapple and tomatoes, if left in a can exposed to the air, tend to act on the metal of the can. Dissolved iron may give the contents of the can a slightly astringent or 'metallic' taste. Any tin dissolved in the food would have no taste, and even if all the tin on the inside of the can were dissolved, the amount of tin which the food would contain would be small, and there is no evidence that such tin compounds as may be present in canned foods are harmful."

"The U. S. Department of Agriculture has recently made a study of the effects of feeding canned foods containing known amounts of tin. The results of this work have been summarized as follows by the bureau of chemistry and soils:

"Our own experimental work, involving the ingestion of far larger amounts of tin than any previously reported, and supported by the experimental evidence of other investigators, leads us to the conclusion that tin, in the amounts ordinarily found in canned foods and in the quantity which would be ingested in the ordinary individual diet is far from practical purposes eliminated and is not productive of harmful effects to the consumer of canned food."

Does rust on a can indicate spoilage? Not unless the rust has penetrated the can and caused a leak.

What does a hissing sound mean when the can is opened? A hissing sound when the can is opened usually means that there is a good vacuum in the can and the sound is made by the air rushing in to fill the vacuum. If the can is bulged, the hissing sound is made by outrush of gas from the can.

Some foods contain a sulphur which discolors the inner surface of a can for the same reason that it discolors a silver spoon left in contact with a cooked egg. In either case the stain is harmless. Felix And Oswald Start Big Battle

BINGHAMTON, N. Y.—Three members of one family and two of another were in city court on charges of third degree assault following a free-for-all fight that started when the pet rabbit of one family was done to death by the pet feline of the other.

It seems that Felix, the cat, while in a pugacious mood, attacked and killed Oswald, the rabbit.

"Your Felix killed our Oswald," accused the owners of the dead rabbit.

"He did not!" exclaimed the indignant owners of Felix.

Accusers and defenders continued to argue. Blows were struck. It was a real free-for-all.
