CRIPINGS

A column is published as a daily feature and may not be construed as representing the editorial views of this paper. It follows a merely what you say column at the time it was written, and the writer reserves the right to change his mind concerning any subject, without notice, explanation or apology.

Now comes one Mr. Samms, formerly cotton exchange operator, formerly Associated Press operator, presently operator at the United Producers Pipe Line company and gives us a contribution titled the Twenty-Third Slam, beginning: "Hoover is my shepherd, I shall not want... and so on."

THE LATEST scheme to heat the depression goes as follows: The government should print enough money of a new issue to enable the woman and child of the United States would receive one dollar bills.

COURSE, there is a catch in it. If you had one already, you wouldn't mind using it to buy a one-dollar shirt at a cost of 3 cents to you. But the guy that got wouldn't be able to bank it. He'd have to spend it at a cost of 3 cents. That old 3-cent tax in here would come in for much consideration. The bank wouldn't feel like paying 3 cents to get rid of it. The first thing you can do is to have it circulated around among enough people to get 30 cents worth of stamps on it. Then the money shark would arrange to get his hands on it, put 78 cents in stamps on it and take it to the U. S. Treasury and get \$1.00 return. Just a little better than 20 per cent on the investment.

HOEVER thought of that scheme was no doubt very smart. And it looks like a fine one until you examine it a little and see what the shark and the chieftain are going to do with it. They would go among the common pore people until they got about 8 or 9 stamps on each bill. Then they would go to the bank and get the money and it would be "come time to papa." The scheme probably originated in the mind of some money juggler, who thought it would be a fine idea to use the money to figure out his angle, but would go ahead and insist on a stamp authorizing the issue.

THAT, my friend, is the answer to your inquiry for an analysis of your happy solution to the country's troubles and your plan to give every guy in the country 50 cents. It would only cost the government 48 million dollars and give the smart financiers a chance to pick up a paltry 170 million dollars off the pore guys who paid the 3 cents each for the first 15 stamps.

ED FERGUSON writes in to know what the charge is for a 10-word ad in the center of the 10th column on front page. There's a charge for the ad, just a charge of three bucks for printing his request. The ad is free here it is:
**FOUND—Child's coin purse near post office after Wednesday's rain. Finder probably needs the money and can have same by describing purse and contents to...
THEODORE FERGUSON**
Notes to Bookkeepers—Make a note of that and charge Ted's account with the three bucks.
TWO YEARS ago today, B. E. Garner opened the Columbia Theatre in Ranger. By reason of his having a mighty fine wife to handle the money and keep him at work he is still doing business at the same stand. "Honest" Garner, the Superintendant, has fought and died at every lunch counter and over every soda fountain in Ranger in that two years. He was a considerable more bled and dying than he has fought... but I digress.
Mr. and Mrs. Garner have made my friends during their two years in Ranger and are receiving congratulations on this, the second anniversary of their show.

HICKMAN RALLY DRAWS CROWD AT EASTLAND

A crowd of citizens that filled the 91st district court room Friday night, heartily endorsed the candidacy of Judge J. E. Hickman of Eastland for Associate Justice of the Supreme Court and effected an organization to work as a unit to use the influence of the individuals in every place possible to get votes for Hickman.

L. R. Pearson of Ranger called the meeting to order and explained its purposes. Nominations from the floor followed by voting by acclamation placed L. H. Flewellen as chairman and L. R. Pearson as secretary of the organization.

Flewellen discussed briefly some plans for pushing the campaign and called for expressions from the floor. Virgil Seabury, Joe Jones and Judge Connor responded.

Judge O. C. Funderburk was called upon and explained the limitations placed upon the campaign expenses of a candidate for that office. It appears that only \$500 may be spent by the candidate during the second campaign, which is a pitifully small sum to be spent in reaching nearly a million voters. Judge Funderburk explained that a candidate's friends may spend as much as \$10 each in his behalf including postage, printing and legitimate campaign expenses.

After discussions from the floor and after being participated in by various persons, it was decided to attempt to raise a fund with which to buy printed mailing pieces and get them distributed shortly before the second primary.

Headquarters will be opened in Eastland at Judge Cyrus Frost office. R. E. Sikes was elected chairman of the Eastland division of the organization and Mrs. Joe Stephens and B. E. Metcalmer volunteered to assist in soliciting funds.

Forest Wright was elected chairman of Cisco. L. H. Flewellen for Ranger, Jake Alford for Rising Star, Frank Dean for Gorman, J. H. Rushing for DeLeon, J. H. Smith for Olden and Wirt Speer for Carbon.

Couch and Wilson McCarty. At the extreme right is Jesse H. Jones.

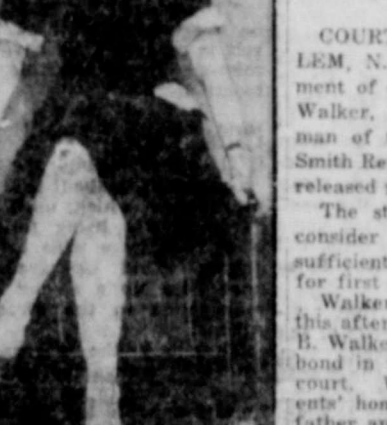

GARNER WILL CONFER WITH F. D. ROOSEVELT

WASHINGTON, Aug. 6.—Speaker Garner will arrive in Washington the latter part of next week en route to Albany, N. Y., it was learned today. He is expected, while here, to make public his message accepting the democratic nomination for vice president.

Officials of the democratic national committee said they understood Senator Barkley, democrat, Kentucky, had quietly written Garner notifying him of the nomination and that the speaker would reply in Washington.

Garner is at present in his home in Uvalde, Texas.

Peggy's Sister Is Golfer's Bride

Brooklyn was afraid Peggy Joyce's kid sister, Lucille Bushal Upton, perching here so prettily, wasn't learning her lessons from the mistress of the art of matrimony. But now comes the word that Lucille and T. Philip Perkins, the crack English golfer, were married in a quiet ceremony at her mother's home in Farmville, Va., and are honeymooning in Canada.

WALKER IS GRANTED BOND AT HEARING

COURTROOM, WINSTON-SALEM, N. C., Aug. 6.—On agreement of counsel and court, Albert Walker, accused with Libby Holman of the alleged murder of Smith Reynolds, was ordered released from jail on bail.

The state indicated it did not consider the evidence in the case sufficient to hold him without bail for first degree murder.

Walker was released from jail this afternoon. His father, Bailey W. Walker, had posted satisfactory bond in the sum required by the court. Walker left for his parents' home in company with his father and his attorney.

CHICAGO.—Canned soup sent to the relief of Major A. A. Greeley, United States soldier and explorer of half a century ago, has been given to the Museum of Science and Industry by Chicago packers.

Relief expeditions sent to them in 1882 and 1883 failed to reach Greeley's party, but in June, 1884, Commander Winfield S. Schley, U. S. N., found and brought the party back to Portsmouth. It was on this expedition that the soup was carried. Special care was taken in preparing the soup, each can being soldered from the inside, painted with two coats of red lead, and stenciled.

STOCKS SOAR WHEN BUYING IS RESUMED

NEW YORK, Aug. 6.—A burst of buying orders caused sensation of price advances on the New York Stock Exchange today. Tickers fell eight minutes behind the pace of trading as big blocks of shares were bought on an orders flashing in from all parts of the country.

The biggest week of the year in the stock market was ending on a high note of enthusiasm and prices were from 1 to 12 points above the previous close.

It was the largest Saturday of the year. Sentiment was helped by the weekly coverage behind the pace of trading as big blocks of shares were bought on an orders flashing in from all parts of the country.

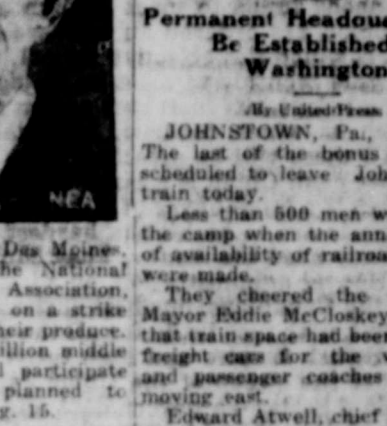

Incentive to buying stocks was provided in part, by another sharp rise in what which made new highs on the movement and by a firm bond market whose railroad issues were in demand.

Railroad shares subsequently swung into action. They rose one to 10 points and helped the remainder of the list. Traders had been waiting for the rails to confirm the upward trend and when they did buying became hectic.

Traders took stocks at any price, just as they sold for anything available when the decline was in progress after the break in the bull market of 1929.

Union Pacific soared nearly 10 points; Atchafalpa, 7 and Southern Pacific, 5, while gains of two to 10 points were recorded in New York Central, New Haven and Chesapeake & Ohio.

Edward Iwells, chief of staff of the E. F. announced that negotiations were in progress for establishing bonus army headquarters in all 48 states.

National headquarters, he said, would be 1941 North Capitol street, Washington, D. C.

KANSAS CITY, Aug. 6.—Detachments of weary members of the bonus expeditionary forces rode homeward today on transportation provided by municipal authorities of Kansas City.

A special train arrived over the Missouri Pacific from St. Louis last night carrying 655 veterans; 65 of the group living here marched through the union station in military formation and disbanded.

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER, NKA Staff Writer. WASHINGTON—Powerful groups in the Democratic party are bringing conflicting pressure to bear on Governor Franklin D. Roosevelt, the presidential nominee, as he considers the possible removal of Mayor Jimmy Walker of New York City.

Farley Case Recalled
THE other leaders are more or less excited about that type of propaganda, which, until recently at least, was being followed in New York by a wide belief that Jimmy would be saved. They have kept up a strong counter-propaganda in the direction of Albany.

East Against Ouster
THE chances of Jimmy's removal seem very bright, but the politicians on both sides of the issue will argue up to the last moment.

They say the governor will have a hard time avoiding dismissal of Walker in view of the rule he laid down in the Tin Box Farley case—that public officials must explain large bank accounts. Reverting to the evidence, they recall the \$10,000 letter of credit and the added \$100,000 which financed Walker's European trip and was traced back to a franchise applicant who later got the franchise—and to the various other incidents on which Seabury cast light.

They feel that New York soon will forget Walker and that with renewed upstate strength and the city hall in the hands of his friends, Roosevelt will have little trouble carrying his own state.

How much it may cost you Not to have a telephone

In case of sickness a single call may be priceless. Without a telephone "John, wake up, Betty has a high fever. You've got to go for a doctor." With a telephone "... and she seems worse, doctor. Please come at once."

If you do not have a telephone, this may be the REAL cost you are paying:

Lack of protection for you and your family... for your home and property. When there is an accident... a fire... burglars... prowlers... the value of a telephone cannot be measured in money. A single call may be priceless.

Loss of opportunities to get a job... or extra work. When there's a job to be filled, employers and agencies want to get in touch with you quickly. Not having a telephone means fewer opportunities for work.

Loss of time and money you can save by telephone. The telephone runs errands for you, to the grocer's, the butcher, the drug store, the laundry, the cleaners. Makes appointments. Gets information. Orders bargains. It saves your time and strength for the jobs that need to be done in person.

The cost of having a telephone is reasonable. The cost of NOT having one may prove expensive. Call the Business Office. Say "I want a telephone."

BRUSHING UP SPORTS . . By Laufer

Illustration featuring a horse and a man, with text boxes: 'COUNT FELIX VON LUCKNER', 'MAN OF WAR', 'WILLIAM D. GRAY', 'Boss of Cubs', and 'HOCKEY AND SLIDES'.

Boss of Cubs

Laughing, joshing Charley Grimm, above, master of the harmonica, trombone, mandolin, guitar, banjo, piano, drums and over all a peach of a first baseman, is the new manager of the Chicago Cubs. He succeeded Rogers Hornsby. Grimm contemplates no radical changes in the management of the team.

HOCKEY AND SLIDES Henry L. Farrell

Connie Grimm is 30.3. With a name like that, it may strike you as odd that Charley Grimm, new manager of the Cubs, is a comedian. But that's not an almost exactly opposite type to Hornsby, the four pugger who was relieved of the Cub job.

One of Grimm's sure-fire acts is an imitation of an old-fashioned German saloon keeper trying to hoosh the merry villagers out of the joint at a late hour. Grimm speaks German fluently, having spent the early years of his life in the midst of a St. Louis German colony. He knows the German folk songs, too, and sings them as he plays what is reputed to be a first class banjo.

Laughed Way to Chicago Grimm doesn't take life serious, it's too mysterious to borrow some words of a song. If he had seen life that way, he might still be playing for the Pirates. But Dreyfus' club was in the thick of a pennant fight in 1924, and Grimm made the mistake of laughing. Barney liked his ball players to have jaws set when they were going after important money. Charley was warned to the Cubs along with Maravilla and Cooper.

He got along wonderfully with Joe McCarthy. Joe didn't care whether a ball player cringed or frowned, so long as the net result of his playing was serious. Grimm, in fact, gets along with everybody. In that way, his stewardship with the Cubs could be strikingly different from Hornsby's.

AN Those Things! Grimm is playing the banjo, "Dixie," as some of his mental call him, can sing pleasant words from harmonica, trom-

bone, mandolin, guitar, piano, drums and xylophone. And probably a dulcimer, if he had one. He was brought up to become a butcher. But once he heard him use the word "spasmodically" correctly, Meat butchering didn't appeal to him, so he took up refreshment butchering in the St. Louis ball park. He used to go out early with the players and practice. One day Connie Mack saw him and offered him a job. "That was 18 years ago," Grimm told me the other day, "and I'll never forget my first big league batting experience. In about a dozen games I couldn't even hit 100."

The A's sent him to Durham, but the Carolina Association blew. The Cardinals sent him to Milwaukee. Then he drifted to Little Rock, and so to Pittsburgh.

Garden Party Honors Misses Cole, McLaughlin, Bickell and Dickens. Summer House Guests. Garner, Mrs. Herbert J. Stafford, and Mrs. Stanley McAnelly.

Great Garbo Has Another Good Role

Never before has Greta Garbo achieved so emotional and convincing a performance as in 'As You Desire Me,' her new Metro-Goldwyn-Mayer film which is at the Arcadia theatre Sunday and Monday.

In the beginning of the story, Miss Garbo appears in a silver wig, an exotic creature, much besought by the amorous night-lifers in gay Budapest. From this she undergoes a self-achieved metamorphosis as the wife of Count Bruno.

The scene in which she confronts her accusers, relatives suspicious of her duplicity, and confounds them with intimate facts that point to the genuineness of her claims, is the high mark of the film. To this reviewer, it is the finest single scene Miss Garbo has played.

Melvyn Douglas plays opposite Miss Garbo as the brooding nobleman who accepts her as his wife, even after he knows of her impersonation. Douglas' performance is thorough and convincing. Erich Von Stroheim heads the supporting cast as the principal menace and others featured include Owen Moore, Hedda Hopper, Rafaela Ottiano, Warburton Goble, Albert Conti, William Ricciardi and Roland Varno.

Attention was called to the district meeting which is to convene at Breckenridge in September, and a period of the session was devoted to the discussion of the event and plans outlined for a large number of Ranger representatives to attend.

Talks were made by various members stressing the many outstanding good points of the order. The meeting was attended by a large group of members who have proven active throughout the summer.

THE COMMERCIAL USE OF TEXAS HIGHWAYS IS A PRIVILEGE, NOT A RIGHT

The highways of Texas are the property of its citizens. They constitute a system of nearly 200,000 miles of road of which 20,000 miles are designated as State highways and the remainder are county roads.

The total cost of these highways is unknown but it amounts to many hundred million dollars. From 1917 to 1930, inclusive, counties and road districts of the State issued \$243,592,834 in bonds for the construction and improvement of roads and bridges.

In view of these tremendous costs the preservation of our highways from rapid wear and destruction is a matter of very vital interest to their owners, viz., the public.

The use of the public highways for commercial purposes is not a right but a privilege which may be withheld or granted subject to such restrictions, regulations and charges as the Legislature may see fit to impose.

Texas Railroads, which pay the entire cost of construction and maintenance of their own roadbeds and, in addition, make substantial contributions to the cost of Texas highways, are thoroughly regulated with respect to their services, rates, methods and practices.

The statutes governing highway transportation as enacted by the Forty-second Legislature represent the wishes of the citizens of this State and express their desire to give equal rights to all and special privileges to none.

THE TEXAS RAILROADS
