ROOSEVELT INVADERS THE MOUNTAIN COW COUNTRY

Wyoming is one of the Rocky Mountain states. It is a great cow country. It is a great sheep country. It is a famous producer of petroleum. The New York governor was given a magnificent reception everywhere on his way to the Pacific coast. The truth is, he knows his America. He knows his Americans. He knows their needs, and he isn't a fence rider. Citizens of Wyoming, thousands of men and women voters greeted him everywhere and applauded his utterances. It was at Cheyenne that he repeated the nature of his mission. Really his tour was for the primary purpose of learning first hand the conditions throughout the nation. Roosevelt is a nationalist and not a shriveled localism of a state. This excerpt from his Cheyenne speech is worthy of reproduction.

"If prices for cattle are too low, the hardships upon the cattle raisers is reflected not only in this locality but upon industry and agriculture in general. That is one reason why I am here. When recovery begins under the proper leadership, I want it to be nation-wide in its scope."

U. S. Sen. John B. Kendrick is the democratic leader of Wyoming. He was among the first to greet the national standard bearer. Kendrick is a native Texan. He began life early as a range rider in the then great cattle domain of Texas. He moved to Wyoming in early manhood. In time, he became one of the largest cattle and sheep raisers in the Rocky Mountain country. Ever a staunch democrat, he became the leader of the minority party in Wyoming. As a democrat, he was elected governor of this republican commonwealth. He served two terms. Then the voters of Wyoming sent him to the United States senate. He is serving his third or fourth term. He is more than interested in the campaign that is on. He has a warm affection for John Nance Garner, and he was one of the first of American senators to declare for Franklin D. Roosevelt as the democratic nominee for president.

SPEAKING OF SOCKING IT TO THE RICH

Samuel Insull is in Paris on a pension of \$18,000 a year. Martin Insull is in Canada, broken and down and out. Before the crash of 1929, Samuel Insull was the possessor of a princely fortune. Martin Insull was reputed to be 20 times millionaire. Now the receivers of the Middle West Utilities company, once a \$3,000,000,000 holding company embracing the vast insull utility system reported in federal court that earnings report had been enhanced by profits from sale of securities, although in many cases they were merely exchanges of stock subsidiaries. These receivers approximated the Middle West liabilities at \$310,000,000 and assets at \$299,000,000. Samuel Insull was a very remarkable man. His investments in Texas were very large. He was behind the Hamilton dam project and financed many other projects in the Lone Star State. He was looked upon as one of the kings of finance, and one of the greatest builders in his field. Now he is under foreign skies. He has a life pension. Martin, his brother, is in Canada a down and out.

A reminder that socking it to the rich may be a very pleasant pastime of demagogues of the political brand, but it played the devil with the pockets of thousands of wage workers who are kept busy in prosperous times and able to provide high standards of living for their families and to get some of the luxuries of life as well as the necessities. In their sane moments the wage workers of America realize these important facts.

FEEDER CATTLE PAPER HANDLED BY TEXAS BANKS

Frank Kell is one of the outstanding citizens of Texas. He is one of the builders of Wichita Falls and the West. He is chairman of the banking and industrial committee of the 11th federal reserve district. He knows his Texas, and all that concerns Texas. He wired the executive secretary of the banking and industrial committee of Washington that the federal reserve bank and other banks in the Texas district are prepared to handle all sound feeder cattle paper that may be offered them from his district, and that all sound feeder cattle paper is being adequately taken care of throughout the Southwest.

Most encouraging to the livestock producers of the Southwest, as well as a bit discouraging to the professional acalmity howlers to be found in the Southwest. There is a bright side of the picture as well as a gloomy side and the men who are doing things in America may be found on its bright side.

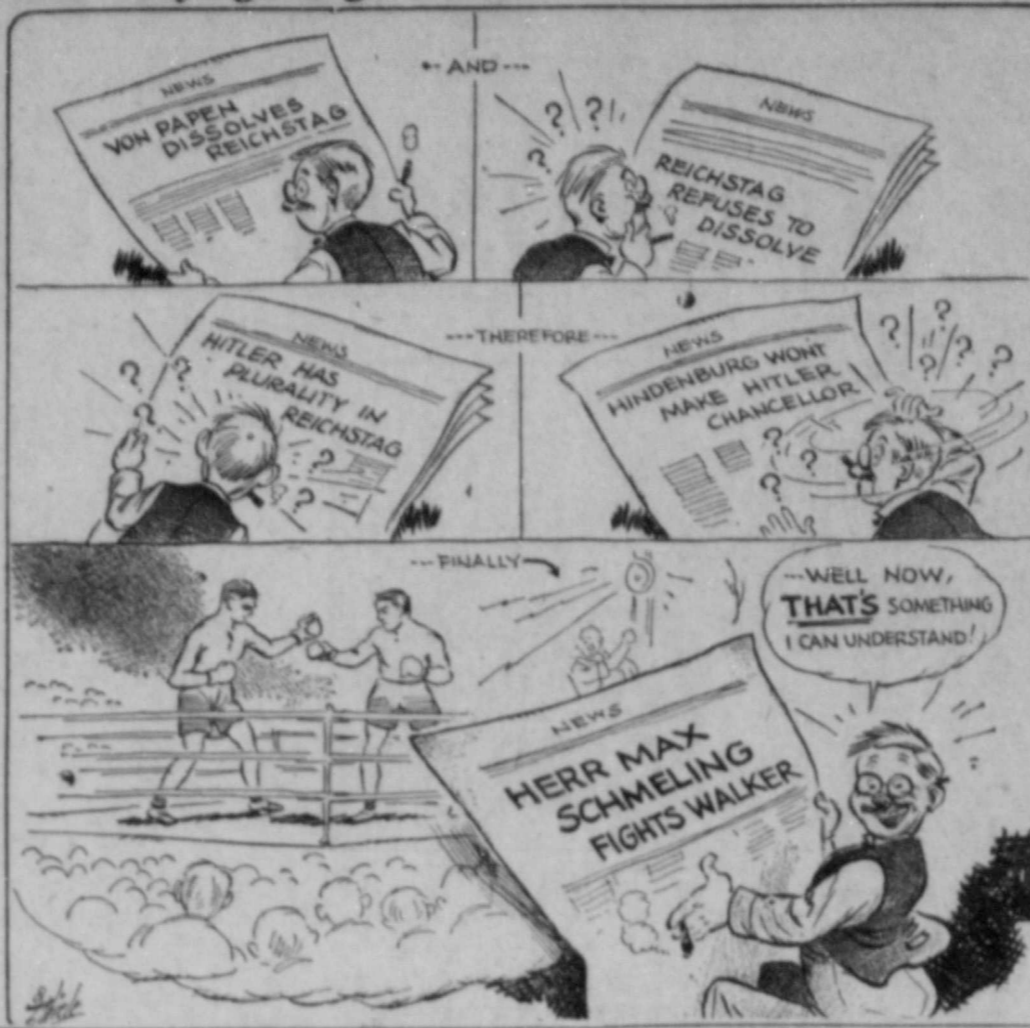

PRESIDENT GREEN PROMISES A VIGOROUS BATTLE

President of Labor in ETAOINSHRDLUETAOINNUU President William Green of the American Federation of Labor in his message to the American world, pledged organized labor "to a fight for the return to higher wages now that the economic skies are clear." He hailed the six-hour day and five-day week as a means for providing work for all seeking employment and declared that slowly but surely the shorter working hours are being accepted. He asserted that prosperity can only be restored through an increase in buying power and in commodity prices, "which can only be obtained through high wages and development of an employment policy which will provide and create work opportunities for all." Yes, "the economic skies are clearing." Adjustment is making rapid strides. Firebrands are not responsible for the change. Utopian theorists are not responsible for the change. There are eternal laws; statutes or laws of nature are largely responsible for the upward movement. It is impossible to get something for nothing. Man has worked his way out of the ditch to the highland. He is doing it this time.

FILIPINO CIVILIZATION ON THE WAY

Filipino women are in the big picture. A law giving women of the island the right to dispose of their own property without the consent of their husbands has been enacted by both houses of the Philippine legislature. Gov. Theodore Roosevelt will sign it. Now the Filipino women are demanding passage of the woman suffrage measure which was approved by the house a year ago but defeated in the senate. Civilization comes high but, the brown ladies of the island are going to have it at any cost. They have grown weary of the ancient slogan, "Let the squaws do the work and the bucks do the philandering."

Trying to Figure Out the German Situation

THIS CURIOUS WORLD

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

CHIC YARBRIUGH, sports editor of the Frankfort (Ind.) Morning Times, says:

"Regardless of fall sales, semi-annual clearances, special holiday offerings and similar inducements to reluctant buyers, suppose your store is overstocked with a merchandise which is moving slowly. What would you do next?"

"Granting you had attempted to convey your message of economy to your buying public by the showcard, window display method; that you had circulated handbills and flung banners from the doors of your store, glaringly transmitting the details of your 'bargains' to the public. Have you tried every medium?"

"You have overlooked the surest, most inexpensive means of communicating with your prospective buyers."

"Your home town's newspaper columns, read by thousands of persons with whom you have been attempting to convey your thrifty offerings, insure you of prompt action if your merchandise is actually needed by the public—a public which fails to recognize and respond to a higher price set by your competitor."

"A series of small advertisements; an impressive full page layout, composed by your newspaper's experienced advertising men to appeal to the eye and purse of the thousands who scan the sheets for bargains will solve your 'slowly moving merchandise problem.'"

WILLIAM D. McJUNKIN, president of the McJunkin Advertising Company, of Chicago, says:

THAT if it were not for the newspapers a lot of people would stop thinking for lack of things to think about.

How do you feel—and act—when you happen to miss your newspaper, or its delivery is delayed a few minutes? Lost!

Then how would you feel if you didn't have any newspaper at all?

While you are getting your NEWS from your newspaper—the information on which you base every action of eating and drinking and wearing clothes and doing business and having pleasure—stop to think what you would—could—do without it.

That's why business men—who have the goods to satisfy your wants and needs and desires and hopes—tell their story in the newspapers.

PEEPING THRU THE KNOTHOLE with BILL MAYES

Gus wrote a whole column full today and it is all truth. He comments on the fact that some in Ranger think he should write whole columns about the Bulldogs. We have had the same trouble. Every time we get to Eastland we are lawled out because we don't write whole columns about the Mavericks. Once last year we wrote what we thought was rather complimentary to the Mavericks. Bulldog fans hopped us because we were showing favoritism to the Mavericks and at Eastland we were hopped because we didn't say enough. Ho, hum! Such is life.

Yesterday we went up to the high school looking for the RJC squad and to watch them work out. We didn't find them there so we went out by Lillard field. Coach Tricky Ward said that his junior college bunch might practice there. But they were not on hand. We imagine that they were out on Caddo road, but we got interested in watching the scrimmage between a bunch of Bulldogs and didn't get away until 6 o'clock when Coach Curtis told them they could go in.

Maybe we will be able to get out to the junior college crowd today.

Sports writers in this and other districts have started writing about Judge Davenport's decision on the Cisco case. Probably yards and yards and yards will be written without really explaining anything.

The consensus of opinion right now seems to be that any team need have no fears as to the eligibility of its players. Just play anyone and dare the other team or the district committee to take it to court. But that may not work.

As far as we have been able to learn no appeal has been filed, but one is likely.

Out in District 3 which includes Sweetwater, San Angelo, Big Spring and a few other towns, eligibility of several players is attracting considerable attention. Sweetwater backfield is question-

ed because most of the members played on the Roosters, an independent team, in 1928. Information on the doings of District 3 come somewhat second hand, as in the case where Millard Cope of Sweetwater quoted Curtis Bishop of Big Spring as saying that the principal of the Big Spring High school had said that Roy Henderson had announced that the Rooster rule was sound and could be enforced.

The interest of the Oil Belt in this ruling is that Glenn Wyatt, quarterback of the Abilene Elks, and captain of that Rooster team and would be as ineligible as Sheridan and Wood of the Sweetwater backfield.

Incidentally the Sweetwater Reporter warns a warning as follows: "Newspapers all over the district are warned to drag out ETAONN."

If you ever had any ETAONN on file around this work shop we have never noticed it and wouldn't know from which corner to drag it. So, we are hoping that the controversy in District 3 doesn't reach the Oil Belt because you could imagine our embarrassment if someone asked to see our ETAONN and we could produce nary a one.

Benny Butler, sports scribe of the Cisco Daily News is quoted as follows on the Cisco case: "L. E. Dudley, chairman of the district committee, said he talked with Roy B. Henderson, state secretary, over long distance telephone and obtained from Henderson assurance that the state committee would appeal the case on the grounds that the district court had no jurisdiction."

Has 20 Days "Henderson told Dudley that a motion for a new trial has already been filed, but that the league secretary expects this motion to be overruled. Henderson is also reported to have said that the league has 20 days in which to execute its appeal."

"Dudley said he asked Henderson whether or not Abilene would be penalized for playing Cisco while the appeal is pending."

"To this, he said, Henderson replied that the state committee considers Cisco a non-participating school and that he did not think a penalty would be applied to Abilene for playing the Lobos during the appeal period."

"The league basis of appeal," Henderson is quoted, "is that the district court had no jurisdiction in the case."

"As for myself," said Dudley,

Blonde Caused Swan Tragedy

By United Press

LONDON.—The black who preferred a blonde, escaped with his life and his blonde wife.

It happened, not long ago, Hyde Park, here in the city of London. The pair of black obviously married, were first start high-hatted by the numerous white swans.

But romance came in springtime. The male black became much attached to a female white swan. For a few days they were constantly together regardless of the nature of their relationship.

Then, quite suddenly, the white swan developed a meaner resentment. They dived on the black couple on April 7 killed the female swan.

For a few days the male swan flew about restlessly, blonde, minus brunette. He disappeared and was found to have flown to the Park.

There he found neither brunette nor blonde there being only one female park and she quite taken up by three white swans.

Christmas greeting cards being ordered these days, but Hoover and Roosevelt have decided on theirs.

Advertisement for a nasal spray: "A 'stuffy' clogged-up nose robs you of sleep—spoils your day... To clear your head quickly—use the new convenient Prevents Many Colds"

"Look at that Baby roll 'em"

YOU would be astonished too, if you could see this machine that turns out 750 Chesterfields a minute... and every one as near perfect as cigarettes can be made. But please bear this in mind. It is what happens before the tobacco goes into this machine that matters most. Rolling and packaging are important, but not nearly as important as the selection, blending and treatment of the tobacco. That's why we keep telling you about the tobaccos used in Chesterfields. They're fine, mild, and pure tobacco. We tell you about ageing and curing the tobaccos... about blending an cross-blending them... because these are things that count. Chesterfields are milder. They taste better. Prove it for yourself... Just try a package. Chesterfield Radio Programs—Every night except Sunday, Columbia coast-to-coast Network.

Rules and Regulations

- Premiums as listed herein will be paid provided there is sufficient income to meet the obligations. In case of lack of funds to pay off in full the amount available will be prorated. Beyond this the management assumes no obligation, except as follows: An award of \$2.50 is guaranteed to each entrant meeting requirements in the following departments: Community Agricultural Booth, Community Chorus, Community Play, and the top ten Women's Home Demonstration club exhibits.
- Judging will begin at 9:00 a. m., Thursday, September 22, so it is necessary that exhibits be in place by that time. However, committees will be prepared to accept exhibits beginning at 2:00 p. m., Wednesday.
- Entries limited to Eastland county products.
- Materials to be entered in the name of the bona fide owner.
- Exhibits are to remain in place until 5 p. m., Saturday.
- Premiums will not be awarded unworthy articles.
- PROTESTS must be made in writing accompanied by a \$5.00 deposit which will be forfeited to the organization if the protest is not sustained.

Community Agricultural Booth

Earl Woody, Chairman
 Premiums: \$10.00, \$7.50, \$5.00, \$2.50. And in addition \$2.50 will be paid each community exhibiting which does not win one of the above premiums, provided a score of 750 points is made.

RULES

- Exhibit material must be obtained from within the bounds of the community exhibiting. It is only required that canned fruit and vegetables be canned within the community.
- Community exhibit is to be ready for judging at 9:00 a. m., September 22. Department chairman is to be notified when exhibit is ready, after which no changes will be permitted except that perishable products may be replaced with similar materials at any time after judging is done. Entrants not ready at the specified time will be penalized.
- A list is to be placed on the booth platform showing the articles exhibited in each class, also giving name and address for mailing of premium money.
- Signs giving name of the community will be provided by the management. Other signs or designs may be used if desired. Elaborate backgrounds are to be discouraged. Materials to be judged must be on the platform.
- Judging will be done according to Community Booth Score Card.
- Forage crops
 Two exhibit bales or 5-inch bundles 2 varieties. 100
- Fruits
 Four plates or quart jars different varieties. 80
- Vegetables
 Five exhibits fresh or quart jars different varieties, amounts as in Class G. 100
- Other crops
 Five exhibits of different crops not shown above, in standard amounts. 100
- Attractiveness of arrangements. 100

PERFECT SCORE

1000

COMMUNITY BOOTH SCORE CARD

| 3. Peanuts | 120 |
| One gallon and one double vine | |
| 4. Alfalfa, sweet clover or sweet potatoes | 80 |
| One three-inch bundle, exhibit bale or peck | |
| 5. Peas and beans | 80 |
| One gallon and one vine or bale any variety | |

Community Chorus Contest

Thursday, September 22, 8:30 P. M.
 Grady Pipkin, Chairman

2.—Premiums Community Chorus: First, \$7.50; second, \$5.00

RULES

- Community choirs of Eastland County are invited to enter this event.
- Only those who regularly sing with a chorus are eligible to sing with it. Good sportsmanship on the part of the communities competing should prevent any complications in this instance. No individual may sing in more than one choir.
- Each entrant will be prepared to sing two sacred numbers of their own selection.
- Singing teachers are not eligible to sing.
- Choirs may provide their own pianist or may use one which the committee will have available.
- This contest will be conducted in the open air if the weather permits.
- A choir shall consist of not less than eight persons. Choir should be ready to go on the platform in a group; rearranging will be penalized in points.
- A drawing will be held to determine the order in which contestants appear on the program.
- Notice of intention to enter should be given chairman by Monday, September 19.

by Monday, September 19.
 Judges will see that no tie decision is rendered; if necessary—additional numbers will be sung until a decision can be reached. All eligible contestants are to be placed.

11. Decision of the judges will be based on the following 100 points score: Expression, 10 points; time, value of notes, 20; tempo-speed of music, 20; class of music rendered, 20; sectional balance of choir, 20 points.

Community Play Contest

Friday, September 23, 8:00 P. M.

Frank Crowell, chairman
 3.—Premiums Community Plays: First, \$7.50. Second, \$5.00

RULES

- Competition will be confined to communities in or overlapping Eastland County.
- Plays should consist of short, one-act plays. Time for play shall not exceed 15 minutes.
- Fair management will furnish the stage and lights; the contestants will furnish costumes used and any extra stage equipment needed. The audience is to use imagination when it comes to the stage.
- This contest will be conducted in the open air if the weather permits.
- Plays may be either comedy, drama or stunt, but must be clean and elevating.
- Any number of players may be used, either sex and any age; school children or adults.
- A drawing will be held to determine the order in which contestants appear on the program.
- Notice of intention to enter should be given chairman by Monday, September 19. Notify chairman of properties needed.
- Judges will see that no tie decision is rendered.

COMMUNITY PLAY SCORE CARD

- | | |
|---|-----|
| 1. Casting | 10 |
| To the actors fit the parts? | |
| 2. Stage setting and properties | 10 |
| Stage setting, costume make-up (elaborateness of setting not considered). | |

Burns Machine Shop Installs a New Gas Engine

The Burns Machine shop on East Main street, Ranger, is installing a new Reliance gas engine of 16-horsepower to take the place of the old engine that has been in use in the plant for several years. Mr. Burns says that the new engine will pull all the shafting in the plant on much less gas than was formerly used and is capable of unlimited power. The Burns have recently moved to Ranger, where they bought the Bishop Machine shop. According to Mr. Burns the plant has been completely renovated to take care of any sort of machine work that originates in any oil field.

Natural Kettles Give Town Name

HOG SCALD, Ark.—The way Hog Scald got its name is as follows: A number of large bowl shaped holes are in the rock surrounding the town. In the old days residents used to fill them with water—some would hold as much as 40-gallons. Then they would drop hot rocks in them until the water was "scalding." Hogs then would be dropped in the water to scald—hence the name "Hog Scald."

The democratic war cry has become "Remember the Maine vote."

Negri Picture To Reach Columbia Screen Today

Theatregoers of Ranger will at last have an opportunity to again see and for the first time hear the favorite of another day when Pola Negri's first talking picture comes to the Columbia screen today. According to B. E. Garner, Columbia manager, the film has not proven a money getter and for this reason no particular effort was made to book the picture sooner, but since the song "Paradise" has moved into the big money class so is the picture showing some life at

the box office. According to Garner this song "Paradise" was written especially for Miss Negri and was introduced by her for the first time in her first talking picture, "The Woman Commands." Miss Negri is ably assisted in the picture by Roland Young, Basil Rathbone, H. B. Warner, Anthony Bushell, and others. The Columbia gets the film for a two-day run beginning Wednesday. A comedy starring Roscoe Ates, of stuttering fame, and a Walter Fatter travelogue entitled "In Turkey" complete the Columbia bill Wednesday and Thursday.

Beaumont Takes First Series Game

Beaumont took the first game of the Dixie Series at Beaumont Tuesday afternoon when Henry Greenberg, star first baseman of the Exporters, rapped out a home run in the seventh inning for the only run of the game. In the eighth Greenberg again saved the day when he made a marvelous, one-handed catch of a wild throw to retire the side as the run that would have tied the score was crossing the plate. The throw was wide and Greenberg, stretched full length on the ground made the putout as Kingdon of the Chattanooga club crossed the plate.

Good pitching by Art Herring of the Exporters held Chattanooga to five hits, with the only threat to score being made in the eighth after Greenberg had scored.

TOTALS— R. H. E.
Chattanooga 0 5 0
Beaumont 1 4 0
Batteries—Chattanooga, Bar-foot and Bolton; Beaumont, Herring and Pasek.

Bulge In Pocket Arouses Suspicion

CLEBURNE, Texas.—When M. E. Edwards, new athletic coach at Godley high school arrived here to inquire about banking facilities in this city, officers surrounded him. They wanted to know what made his hip pockets bulge and why he was interested in banks. Edwards produced two athletic rule books from his pockets, and explained he's like to make a deposit.

Hold That Line

When rabid University of California fans yell "hold that line," little Briggs Hunt, smallest man on the Los Angeles branch's team, can just about do it all himself. The above photo shows Hunt holding aloft the largest chunk of beef on the team, William H. Hoegoe. Hunt weighs 145 and Hoegoe 285.

HARLEM COMES TO PARIS.

PARIS.—Harlem has become established here with the opening of a new night club by Frisco, well-known character in the American colony. Frisco's Paris Harlem is designed to make all habits of the New York Cotton club feel perfectly at home. An all-black orchestra furnishes snappy music.

"Bow! With the Boys Tonight—It Will Do You Good"

What Is the Texas CENTENNIAL?

On March 6, 1836, at 5 A. M., Santa Anna with 4,000 Mexican regulars stormed the Alamo. They were twice repulsed with heavy losses. Of 800 Americans, only 130 remained. They finally scaled the walls and the heroic last stand which the defenders made is well known in every Texas.

Q. What does the word Centennial mean?
A. Webster's Dictionary defines the word Centennial as: "A 100th anniversary or its celebration."

Q. Why the movement to celebrate it in 1936?
A. 1936 marks the 100th anniversary of the actual gaining of Texas Independence and the formation of an independent Republic. In other words, 1936 will be the 100th birthday of Texas.

Q. What State in the Union has a more brilliant history than Texas?
A. Though a few states closely rival the colorful history of Texas, there is certainly no state which has a more brilliant or inspiring history than our own dear State.

Q. Why celebrate the 100th birthday of Texas?
A. 1936 offers an opportunity which occurs only every 100 years. Surely the least which present-day Texans can do is to make public and fitting recognition of the heroic deeds and sacrifices of our forefathers.

Q. Who are sponsoring the movement?
A. An official Centennial Committee of 100 was appointed by the State Legislature in officially sponsor the movement. This committee is made up of patriotic Texans from all over the State. In addition, many other patriotic groups, such as the Texas Press Association, the Advertising Clubs of Texas, Progressive Texans, Inc., the Texas Daily Press League and others, are sponsoring the movement.

Q. How can the Texas Centennial in 1936 become a reality?
A. An exposition of this magnitude and character must have the official sanction of the entire State, hence the matter of whether or not Texas shall celebrate its 100th birthday is to be submitted directly to the people. On November 8th a Texas Centennial Constitutional Amendment will be voted upon.

Q. What will it mean to Texas?
A. The celebration of the Texas Centennial offers the greatest opportunity that Texas has ever known. It is certainly patriotically mandatory upon us to make this public recognition. From an economic standpoint, twenty-five years' growth can be brought to the State within five years.

Q. What should every loyal Texan do as his part?
A. The first and most important duty of every Texan is to go in the polls November 8th and be sure that he votes for the Centennial Amendment. After this Constitutional Amendment has passed, there are many things which Texans can do to make the Exposition a brilliant success. These instructions will be given the people of Texas at a later date.

Q. How much actual wealth will be brought to the State by the Centennial in 1936?
A. It is conservatively estimated that the visitors who come to the Centennial Exposition in automobiles alone will return to the State Treasury in gasoline tax alone an amount of approximately \$25,000,000.00. This State gasoline tax goes directly into the Highway and School funds and thus will show permanent development to the State. Wealth in untold millions and from many different angles will pour into the State as the immediate result of this celebration. And thus while celebrating the patriotic Centennial revering the memory of Texas' forefathers, present-day Texans will benefit in an economic way by a dissemination of information concerning present-day opportunities in Texas.

VOTE for the Texas Centennial Constitutional Amendment November 8th Authorizing

THE TEXAS CENTENNIAL

1936

This is the first of eight patriotic messages prepared and sponsored by:

"TO BE CONTINUED TOMORROW"

We don't know whether you are ever thought of it in this way or not, but a thrilling "serial" is running in this paper...

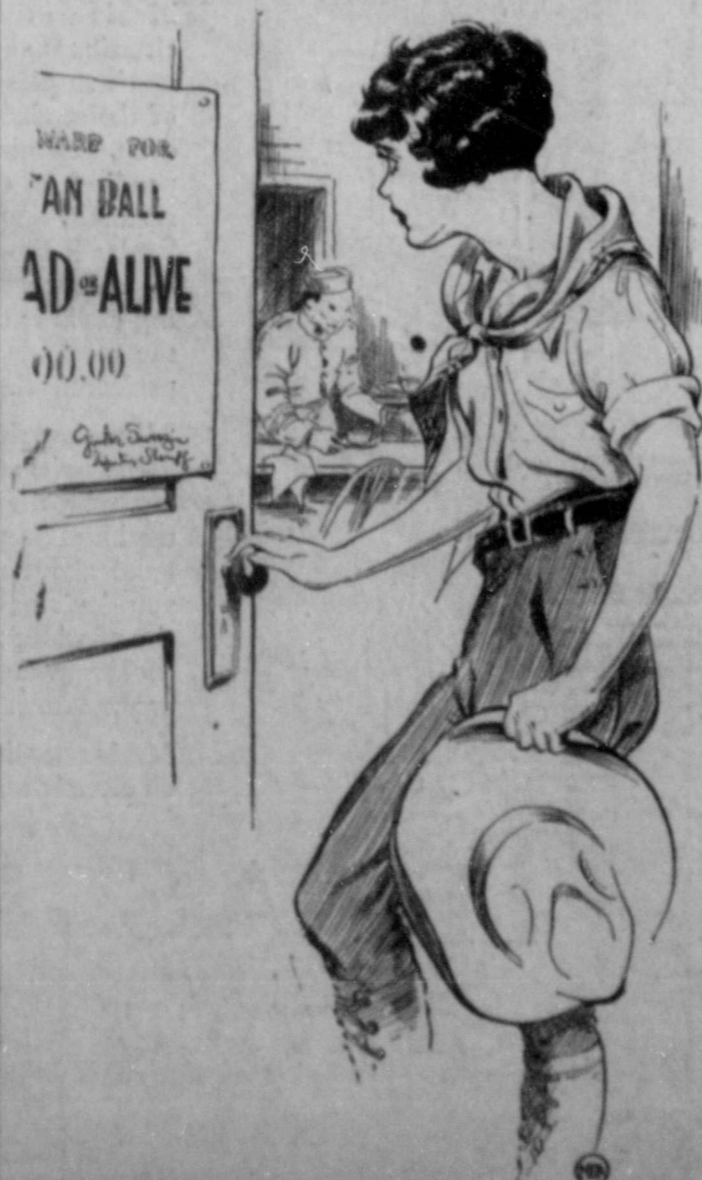

Although you read it every day, you may not realize that an army of specialists is employed in telling the never-ending continued story of American progress.

Here are a few of the subjects treated in the story: Ways to save labor and to make life better. How to promote health and enjoyment.

But, just turn to the story itself as revealed in the advertisements. Today's "chapter" we find particularly interesting.

IMPORTANT

When you ask for a product by name, as a result of advertising, do not accept a substitute—substitutes are offered not as a service to you, but for other reasons.

Dona lingered for several minutes reading the notice. Some strange fascination held her.

Let the Iron Do the Work
 You do the guiding—the electric iron will do the work. Sustain proper heat does the pressing. Steam-ironing surface alone glides over clothes without pushing at all. This is sound advice—let the iron do the work.

\$2.95 and Up

TEXAS ELECTRIC COMPANY

Service

"Meals cook faster on my electric range"
 Meals do cook faster on an electric range—you'll be very much surprised at the speed of the modern electric range oven. Ten minutes or less, depending on the temperature required, is all that is needed before baking begins. Every bit of heat from the two heating coils is concentrated on the food, due to practically perfect insulation. Likewise, the surface units. These units are in direct contact with the utensils being used and no waste heat is let loose about the room. And, you don't have large quantities of water to boil—electric cookery uses very little water, as you know. Meals actually cook faster on an electric range.

Let the Iron Do the Work
 You do the guiding—the electric iron will do the work. Sustain proper heat does the pressing. Steam-ironing surface alone glides over clothes without pushing at all. This is sound advice—let the iron do the work.

Service

HERE--AND THERE
 BY ELVIE H. JACKSON

Community interest is fine thing to stimulate.
 There is a fine thing to stimulate in the community interest. It is the interest of the community in the welfare of its members.

High School Chorus
 The high school chorus will be held at 8 o'clock Tuesday. The chorus will be directed by Mrs. J. L. Coffman.

Rotary Ball Tuesday Night
 The Rotary ball sponsored by the Rotary club was a most successful one. It was held at the home of Mrs. J. L. Coffman.

Outstanding Program
 The outstanding program of the evening was the presentation of the award to the winner of the contest. The award was presented by Mrs. J. L. Coffman.

Food Hints for Out-of-Door As Summer Waxes
 Hang on to summer as long as you can and enjoy every minute of it. Motoring enthusiasts who are taking their families on the highway should take care to have their cars in good condition.

Choir Rehearsals to begin Thursday night.
 The choir rehearsals will begin on Thursday night. The rehearsals will be held at the home of Mrs. J. L. Coffman.
