PEEPING THRU THE KNOTHOLE

with BILL MAYES

We have long since stopped going to wrestling and boxing exhibitions, though we have thought for several weeks that we would go back some night and see the class of shows being put on now. Some weeks the people seem to think they are pretty good and at other times they think they are not so hot.

Today we asked the first half dozen who attended the fights last night what they thought of them and the opinion seemed to be, according to those six or so we asked, that it was probably a pretty good show, but nothing like the ballyhoo that had been sent out about it. One said he supposed that some of the wrestlers were better actors than others and their part of the program looked better, but all agreed that this old gag, if it is a gag, about kicking the referee and getting up squabbles would kill the game as far as Ranger is concerned, if it isn't stopped, or something.

Of course we don't know because we don't care for wrestling in the first place and because we didn't go in the second place, so we are in the position of the person in the song, "It wasn't told to me; I only heard."

The last time we wrote that we attended a show and thought it wasn't quite up to standard, or at least to expectations, we were threatened with a couple of fights by the participants, so we want it understood now, before we have to turn down any challenge, that we didn't go, didn't see the matches and don't even remember, off-hand, who were the contestants. Any fool, the fewer we talked to might have said things differently than the remainder of the crowd. That is usually the case. Recently a boxer was booted in the east as he was carried from the ring because it was thought he was stalling. Two or three days later when he died as the result of the blow that knocked him out, the crowd realized he wasn't stalling, because no one would carry a stall as far as dying.

We have been urged to start a department, which will be started either today or tomorrow, called "The Poets' Corner." We don't know any more about poetry than we do about the wrestling matches last night, because we never read poetry, if we can get out of it. Anyway, the only way we will have of knowing whether or not the department is meeting with the approval of the readers is for them to let us know.

When we start anything and never get any comments we cannot tell whether to continue it or not. If a few complain or if a few comment in any way we know that we are getting somewhere. We are at least getting readers. But if no comment is made from day to day we do not know whether the subscribers are getting the kind of paper they want or not.

Of course it is impossible to please everyone, and we have quit trying long ago. And what one might think is a highly important part of the paper might not appeal to anyone else. As far as we know we are the only columnist or editor who thinks his contributions are not the most important part of the paper. We were of that opinion all along, but the other day we had to look up some back issues of about a year ago and got to reading some of the junk we wrote then, and after it had had a year in which to cool off we discovered how terrible the junk we write really is.

We have just about quit reading columns, and wouldn't blame others after this effort. We get several every day and our net aversion has begun to be reading them over before they go into the paper. No doubt there are others who think so too, because we have seen several who are indifferent to what we write as we are.

Several days ago we meant to comment on a couple of hoboes who drifted into one of the local drug stores and tried to bum flints for their cigarette lighters. A customer who was standing in the drug store was approached, being mistaken for the proprietor. He told them that the people around here were content with using matches and that since matches could be picked up on any cigar counter he was sure they could stow on using matches, too. They left without getting their cigarette lighters in working condition.

Fifteen Killed in Airplane Crash

DIXMUEDE, Belgium, March 28.—A British Imperial Airways passenger plane with 15 persons aboard, crashed in flames today at Essen. All were killed.

An eye-witness to the disaster saw bodies falling from the flaming plane before it crashed, indicating they had jumped. Some bodies were found 300 feet from the wreckage.

This Banker's Plight Is 'Too Much Money'

"Too much money" is the plight of A. J. Wendell, above, president of the First National Bank at Lovell, O. When federal authorities examined banks during the national holiday they found Wendell's had \$700,000 deposits and a capitalization of \$25,000. Wendell was ordered to raise its capital to \$75,000 before the bank could reopen.

BODY OF SIX YEAR OLD GIRL FOUND IN SACK

NEW YORK, March 28.—A bruised and lacerated 6-year-old girl was found in a burlap bag today, in the basement of a Brooklyn tenement house.

Physicians worked over the dying child but were unable to revive her and she was pronounced dead early this afternoon.

Meanwhile detectives searched the district where five major crimes against children have occurred in the past two years.

The child's assailant had knotted a rope tightly around the neck of his victim, Barbara Wiles. She had been carelessly stuffed into the sack.

Physicians said she had been criminally assaulted.

Large Crowd Sees Ranger Elks Show

A large crowd witnessed the wrestling matches at the Ranger Elks club arena last night. The crowd was packed to the roof and were everywhere except in the ring.

"Tiger Billy" McEun made a statement that he could throw any three men in 45 minutes. He was accepted by Johnny McCain, Bert Edwards and Benny Wilson. The Tiger finished McCain and Edwards in 10 and 11 minutes respectively and then proceeded to show Benny Wilson how easy it was. Benny surprised the terrible "Tiger" and stayed with him the remaining 25 minutes even though Wilson was outwrestled more than 28 rounds. All three falls were very fast and kept the Tiger very busy.

In the special event Bert Edwards displayed that he was a member of the Edwards clan. He came into the ring with a mouthful of cigars which he distributed in McCain's eyes and pinned McCain in 10 seconds as McCain was trying to clear his eyes.

In the other main event "Big" Moore, Denton footballer, took the first and third falls from "Chick" Evans with his favorite hold, the rocking-chair snit. Evans won the second fall with an Australian leg stretch. The bout was very fast, although the two men battled over an hour and three minutes before Moore took the third and deciding fall.

"Big" Moore, after beating Evans, challenged "Tiger Billy" McEun for a match. The club arranged this match.

The club has added more seats in the arena and all seats have been elevated. They will continue this work this week so that everyone will be comfortable.

Oklahoma Field Increases Oil Output

TULSA, March 28.—Unrestricted flow from the Oklahoma oil field sent crude product on in the nation skyward last week. The Oil and Gas Journal reported today.

The daily average increase, the Journal estimated was 83,157 barrels.

Increase in West Texas and the Packerland sent the total Texas production on to 949,164 barrels daily an average increase of 14,721 barrels.

Dallas Housewife Dies From Injury

DALLAS, March 28.—Mrs. Anna Christi, 48, Dallas housewife, died in the arms of her husband, William, 60, when he entered the house today and found her suffering from a head injury.

Physicians said the woman apparently had died from injuries inflicted by a heavy, blunt instrument. It was possible she had fallen on and fatally injured herself.

NEW UTILITY COMMISSION IS ARGUED

AUSTIN, March 28.—Efforts to strip the Texas railroad commission of its oil and gas supervisory powers and to put them under another body brought about long and heated debate in the house of representatives today.

The proposal was made in a series of amendments by Representative Bob Long to the utilities commission bill. Under them all powers of the railroad commission relative to oil prorations and gas production would be transferred to a new department to be known as the "utilities and natural resources commission of Texas."

Long, who led the recent legislative investigation of the railroad commission, made it plain his amendments are to make a "railroad" commission out of the railroad commission, leaving it only regulatory powers over trucks and railroads.

Representatives O. F. Chastain and Olan Van Zandt vigorously defended the railroad commission and opposed the amendments.

'Excuse All Kinds' Eastland Revival Sermon Subject

The Monday night audience of the Eastland Baptist revival now in progress was unusually flattering.

The series of sermons have gained a hold on the public which is showing increased interest in the earnest work of the evangelist, Rev. William H. Joyner, as the days go by.

Hearty congregational singing opened the services last night, followed by spontaneous quotations from the Bible by members of the gathering, in rapid volunteer succession.

A novel feature brought the reports of the chairmen of circles of W. M. S. of their prayer-progress programs.

Preceding the sermon, a voice solo, "Bearing His Cross For Me," was sweetly given by Mrs. Cecil Nelson.

The evangelist preached on the subject, "Excuses, All Kinds," based on Luke 14:16-24, the story of the Feast, to which every guest invited had an excuse for not attending; and the highways and the byways were searched for guests for the feast.

Text of discourse, "And they will with one accord, began to make excuses," brought the symbolical story of a gospel message, of those who make excuses for not accepting the gospel. Popular exclaims of today, the evangelist said, are made by church members who fall in their duty in their church and toward their God.

Next, excuses by non-Christians as to why they do not accept the gospel, are based on weak footing. Analyze the flimsiness of these excuses and see what they mean, and learn that none of these excuses would stand reasonable analysis.

The public is cordially invited to all these services.

Oil Men Fail to Agree At Meeting

WASHINGTON, March 28.—A program to lift the \$14,000,000,000 oil industry out of the depression, failed to secure the agreement today of state officials, major and independent oil producers in conference here.

Representatives of the oil delegates asked more time to study the program when the hour arrived for their report. They will report again at 4 p. m.

It was understood a committee had virtually agreed on a proposal to make into state transportation of oil produced illegally, a federal offense.

Ranger Fire Does Only Slight Damage

The Ranger Fire department was called out Monday night to the Graziola Beauty Shop, where a fire was threatening the building.

A small blaze in the living quarters was confined to a bed and a window curtain, which were damaged. The loss was reported to be small.

Baby Is Found on Doorstep of Eastland Home Early Tuesday

Early this morning Bill Hassen, Eastland carpenter, found a young baby on his door step after his wife had been awakened by a noise.

According to the story told by Hassen he awoke at 2 o'clock this morning and went out on the porch to look at the clouds to see if it looked like rain. Shortly after he returned to bed his wife woke him and said that she heard a noise. He returned to the front porch and found a Mother's Oats box with the baby inside on a feather pillow.

The baby had on good clothing and the pillow seemed to be new, though doctors said that the baby had not been properly fed in the past 24 hours, though he was in good health.

On the side of the box was written in pencil the words "Salie Counts" and below looked like the words "Paio Pinto" had been written, though part of the word was cut away.

VOTE ON TEXAS BEER BILL IS EXPECTED BY MONDAY

MERCHANTS TO GIVE PROGRAM AT COLONY

The merchants of Ranger will sponsor a program at the Colony school Wednesday evening at 7:45 o'clock when a program by the American Legion, Tackville Band will be presented under the direction of Dr. Harry A. Logsdon.

This program will be one of a series that has been planned by the people of Ranger in an effort to create a more neighborly feeling between the people of the town and the rural sections. The program two weeks ago at Merriman was postponed on account of the banking holiday and because of the track meet at Olden.

The people of Ranger, and especially the merchants, are urged to go to the program at the Colony school tomorrow night, when a good time is planned for all who can attend.

The auditorium at the Colony school is larger than the one at Morton Valley and it is expected that there will be plenty of seats for all who attend.

Fund May Keep Boy From Losing One of His Arms

The sympathy of Ranger and their willingness to aid may keep a boy from losing his arm.

Joe Higgins, son of Mr. and Mrs. J. D. Higgins of Ranger was kicked by a donkey and his arm was so badly shattered that there was no equipment in Ranger with which it could be properly treated and set. The family could not afford the services of a bone specialist, and the expense of keeping the boy in a hospital for several days while he was undergoing treatment.

Walter Harwell and G. A. Murphy solicited funds Monday afternoon with which to pay his hospital bill and the money was soon raised.

Dr. Carroll of Dallas was called and the circumstances and agreed to do the work for nothing if the money could be raised to keep the boy in the St. Joseph hospital for eight to ten days. The hospital authorities agreed to make a special low rate for the case.

Within a couple of hours the money had been secured and Dr. P. M. Kuykendall is to take the lad to Dallas for the special treatment Wednesday.

It is expected that within 10 days Joe will be ready to return to Ranger, where the medical care he can receive here will keep him on the road to rapid recovery. Had it not been for the sympathy of the Ranger people it is more than likely that the boy would have lost his arm.

Judge Orders No More Beer Cases

WICHITA FALLS, March 28.—Federal Judge William H. Atwell today informed the district attorney's office not to bring any more cases for beer violations into the court.

He explained that the legalization of beer had, in effect, repealed parts of the liquor laws.

Baby Is Found on Doorstep of Eastland Home Early Tuesday

The officers were notified and Sheriff Foster took the child, which was said to be less than a week old, to Dr. Ibel, county health officer. It is now being cared for at the Payne hospital in Eastland.

Sheriff Foster got in touch with the sheriff at Palo Pinto in an effort to trace the baby's parents and the box in which it had been found.

Immediately after finding the baby Hassen looked over the ground in front of his house and found car tracks that looked as though they had been made by some small car and also found a cigarette butt that was still burning, indicating that the baby had been on his porch only a short time.

Although the clothing on the baby was well made it was not fine clothing and the baby had apparently been well cared for up until about 24 hours before it was found, according to doctors.

No trace had been found today of the parents of the baby.

In Stock Deal

The transaction by which Charles E. Mitchell, New York banker, purported to suffer a loss of \$2,700,000 in the sale of stock to his wife, Mrs. Elizabeth Reed Mitchell (above), was a fraudulent scheme to evade income taxes, the government charged.

SENATE BEGINS OFFENSIVE ON JOB FINDING

WASHINGTON, March 28.—The senate today began a major offensive against unemployment.

The banking and currency committee voted to report favorably the Wagner \$500,000,000 unemployment relief bill with a restriction that not more than 15 per cent of the new funds may be allocated to any one state.

Senate leaders were confident of passing this week that bill and also the administration measure creating jobs for 250,000 men.

The last measure in its present form leaves to President Roosevelt the power to fix the wage at which volunteers in the reforestation army will work.

Senator Black, democrat, Alabama, said he would press for action this week, also, on another relief bill, his five-day, 30-hour week measure.

No Clues Found In Assault Case

HOUSTON, March 28.—Authorities announced today they had found no tangible clues to the identity of two negroes, one of whom assaulted a white woman yesterday after killing her escort.

Miss Adelle Torian, 24, the assaulted victim, whose companion, William W. Poreh Jr., was slain when he asked the negroes to spare her, will view six suspects in the hope of identifying the terrorists.

The investigation into the crime extended all over South Texas today. Officers engaged in the hunt remained under orders to "shoot on sight."

Prosecutor

George Z. Medalle (above), United States attorney of New York, will direct the prosecution of Charles E. Mitchell and Joseph W. Harriman, New York bankers under fire in the government's drive against major violators of banking and income tax laws.

Youth to Go on Trial For Life In Murder Case

BROWNSVILLE, Texas, March 28.—Earl Dodson, 17, of San Benito, nearby farming community, was scheduled to go on trial in criminal district court here tomorrow on an indictment charging murder in connection with the slaying of a flying instructor a thousand feet above the earth.

The charge naming Dodson in connection with the slaying of Lehman Nelson, flying instructor of Harlingen, Texas, last Feb. 23, is one of three drawn against the high school boy.

A second count of the indictment accuses Dodson of complicity in the slaying of the pilot and a third with attempted theft of the plane which Nelson piloted. Trial on the latter two charges has not been set.

Dodson's reputed companion in the aerial murder plot was Erin McCall, his room-mate who was four years his senior and who like himself shared prominence in the social and school activities of San Benito and nearby small towns.

McCall was Nelson's student and was in the rear cockpit of the training ship when a shot was heard by witnesses who observed the plane setting a dizzy course overhead. The witnesses said the man in the front cockpit slumped down as the shot rang out. McCall landed the plane and then shot himself to death.

Judge George Westervelt, who will preside at the trial, has drawn a panel of 100 veniremen.

State and defense counsel have guarded the names of witnesses.

D. S. Purl of Corpus Christi, district attorney, has indicated he would introduce the testimony of two school girl companions of young Dodson and McCall. At a preliminary hearing a statement from a girl was read saying the two boys planned to rob the pilot.

McCall was Nelson's student and was in the rear cockpit of the training ship when a shot was heard by witnesses who observed the plane setting a dizzy course overhead. The witnesses said the man in the front cockpit slumped down as the shot rang out. McCall landed the plane and then shot himself to death.

Arrested

Charged with dodging a \$657,152 income tax levy by the sham sale of stock to his wife, Charles E. Mitchell (above), former chairman of the National City Bank of New York, was arrested and indicted by grand jury.

TWO MEASURES ARE REPORTED BY COMMITTEE

Measure Will Conform With Beer Bill Passed By Congress.

AUSTIN, March 28.—A vote on Texas 3.2 per cent beer bills in the house of representatives will be sought next Monday, it was learned today.

The bills were favorably reported by the house committee on state affairs last night after a public hearing marked by criticism of President Roosevelt by Atticus Webb of Dallas, leader of the Texas Anti-Saloon league.

Webb had criticized the constitutionality of congress declaring 3.2 per cent beer non-intoxicating. He was asked what he thought about President Roosevelt signing the beer measure.

"I don't think he knew what it was all about," Webb said.

The Anti-Saloon leader was loosed when he said, "I think the man who voted for repeal because he expects to save taxes is on the same plane as the officer who puts his hand behind his back to get money the bootlegger puts into it."

Two-Hour Run of East Texas Field Is Again Delayed

AUSTIN, March 28.—Renewal of the order for a two-hour run of East Texas oil wells to develop their potentials today was apparently out of the way until after next Friday, under a ruling of Attorney General James V. Allred.

He advised Chairman Lon A. Smith of the Texas Railroad Commission that the order cannot legally be issued until there is a meeting of a majority of the state railroad commission in Texas. The other two members of the commission, now in Washington, will not return to Austin until Friday.

34 Crop Loans Made in Ranger

A total of 34 applications for farm loans have been received by the Ranger Chamber of Commerce, totaling \$2,375, or an average of about \$70 per loan.

The time limit for applying for government loans expires on April 30 and all who wish to make application for one of these loans should do so as soon as possible in order that the money can be received from Dallas in time to make the 1933 crop.

Checks are already being received on the 34 loan applications made. The interest on these loans is 5 1/2 per cent and the loans are payable on Oct. 31, 1933.

Everyone who wants information about getting one of these crop loans can apply at the office of the Ranger Chamber of Commerce, where they will be discussed and the information wanted given.

Presiding Elder Making Plans For Ranger Revival

Dr. C. Q. Smith, who is to hold the revival at the Ranger Methodist church for the pastor, Rev. Gid J. Bryan, and the congregation, was in Ranger yesterday. He spoke briefly to the pastors' association, which met at the Methodist church. Rev. Gid J. Bryan invited the pastors of Ranger and their congregations to attend the revival and take part, making the meeting their own meeting.

Dr. Smith expressed the desire that the meeting will be one which will bring many into all the churches of the community. He urged the pastors and their congregations to feel entirely at home and to pray and work for a revival throughout the whole city and community.

Dr. Smith is confident that God will bless the meeting with the salvation of many people; he has a strong trust that God will save many as He has in other places. He believes that it is an insult to God to expect only a little meeting, but that faith requires us to trust God for great things.

Dr. Smith spoke also to the Women's Missionary society for a moment. The women of the church are always a great part of every revival. While more men have always been converted in the revivals held by Dr. Smith, yet he depends upon the prayers and faith and work of the women strongly, also.

The pastor, Rev. Gid J. Bryan, and some of the laymen held conferences about the preparations for the meeting which is to begin next Sunday morning, when Dr. Smith will preach the first sermon of the revival.

Five other places asked Dr. Smith to hold revivals at the same time he is coming here, but he felt that he wanted to come to Ranger at this time, and the pastor and congregation feel that God has led in the decision. Large congregations are expected to fill the great auditorium of the church.

Be sure to hear the first message.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

This month, as in many months past, the Economy Bugs are swarming around the country in great numbers. They seem to be working over-time. I doubt if many of them know what it is all about anyway.

Many of them seem to be getting severe cases of brain fatigue in trying to find out who has, or is getting, any money, and getting laws passed to take it away from them.

I am not making any brief for corporations, but just why they should be soaked with increased taxes when in many cases, like the railroads, they are not even making expenses, is more than I can understand.

In the new deal it is time for Mr. and Mrs. Consumer to object to the raising of taxes on railroads, oil, power, gas or telephone companies, for they themselves will have to pay them.

BEHIND THE SCENES IN WASHINGTON

WITH RODNEY DUTCHER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—The veterans' lobby has been stopped and thrown for a loss.

Since the war, right up until this year of the "New Deal," the American Legion and the smaller organizations of ex-service men had been getting nearly everything they went after.

The legislation which the Legion lobbyists wrote for Congress to pass finally came to cost the country very nearly \$1,000,000,000 a year.

On the other hand, thousands of telegrams were sent demanding that Congress stand by the president.

I really wasn't interested in baseball at all, but he was my host... and a very enthusiastic host.

Just as I was beginning to wilt over his own achievements, he burst into enthusiastic tales of his brother who played with the big league until he threw his arm out of place and had to stop.

Somehow, the entire evening reminded me of a book of fairy tales I read once. Each story carried a moral, to be exact, in heavy capitals.

I shall probably never see the man again, but I can never buy a ticket with the rest of the fans or read a baseball report without remembering that big, awkward man...

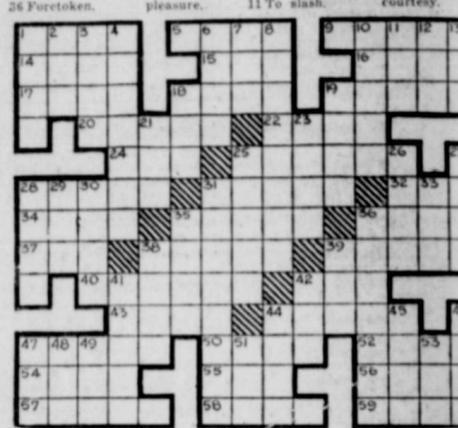

We hear, read, and talk nothing but bills these days. Farm bills, beer bills, economy bills, everything but dollar bills.

And while we fool around down here, doing and undoing all the damage we politically can, we find ourselves in the direct path of heavenly bodies.

There's something we can't control, even by state vote. Were it midnight, April 6, we shouldn't be surprised at the bright lights and unearthly sounds.

Debaters Used Half a Million Words

NEWTON, Kan.—Whatever the quality, the quantity of wordage in debates at the Kansas State Debating League tournament here was considerable.

A statistician figured it out that 48 debaters, representing six colleges, spoke a total of 540,000 words—enough to fill five 400-page books—in five rounds of debate.

PARIS STYLES

By MARY KNIGHT

United Press Staff Correspondent PARIS.—If you never envied Gloria Swanson before you will when you hear about some of the Paris clothes of the new order. Her first fitting chez Schiaparelli was for a suit of dark blue wool, the material boasting a white line that is set in a very attractive heron-like pattern at the back.

The jacket, on which were lavished all the new ideas, has the shoulder trays and pleated set in sleeves. It makes up for shortness by a row of pleats at the back of the waistline, and in front a single aluminum slide is used as a fastener.

The blouse, which is all white, has a pocketbook in which lie held together the cow-shaped neckline, close under the jacket, and Miss Swanson has selected one of those adorable clown hats of dark blue knitted wool. She is a perfect jape of smartness with it, cocked at just the right angle. Schiaparelli meant it to be worn at.

Legal Beer Will Find Barmaids Serving Brew

By STUART E. JONES

United Press Staff Correspondent HOUSTON.—When legal beer finds its way back to Houston, if ever, the rouged cheek and marcel wave will replace handle-bar mustaches and blue jowls as the bartenders' badge.

This is on the word of Miss Binnie Thomas, secretary of Local No. 808 of the Hotel and Restaurant Employees and Beverage Dispensers International alliance—or the bartenders' union.

The union, which had only a few feminine members in the days before prohibition, now is composed almost entirely of women.

Miss Thomas was a little surprised that anybody should wonder whether women would enter the new endeavor when it opens here.

"Why, sure we're going in for bartending," she said. "Boy, good times are just turning the corner for us. I'll bet you six months from now there won't be an idle member of this union."

Miss Thomas is expecting more calls for girl bartenders than the local will be able to fill. She wants new members.

Their action is based on the guess that when beer is returned to good standing in Texas, its sale will be permitted only in restaurants and other places where food is handled. Most of these, she pointed out, are using nothing but women as waitresses.

Even should the old-time saloon return, Miss Thomas said, there is no reason why girls shouldn't stand behind the bars.

"Look at England," she said. "All of its bartenders are girls. If we had women serving beer in this country, we'd be just turning the corner for us. I'll bet you six months from now there won't be an idle member of this union."

"Believe me, the first bar that opens in this town with a lot of pretty girls back of the counter will clear up. I'm speaking of nice, ladylike girls—girls who don't drink."

Miss Thomas suggested the girls should be dressed to match the fixtures of the bar itself. Bars with dark fixtures should hire blondes, she said, and bars with light fixtures should feature brunettes. Red-heads should be made to dress in green only.

Miss Thomas' contentions were borne out by Ed Mahoney, former secretary of the local bartenders' union. Mahoney said he didn't know of a single bartender in the city, now holding a card. Back in the old days, he said, there were about 250 here.
