A BIBLE THOUGHT FOR TODAY

THE RIGHT ATTITUDE: O come, let us worship and bow down: let us kneel before the Lord our maker. For he is our God; and we are the people of his pasture.—Psalm 95: 6, 7.

The New Oil Commission

Reports from Austin indicate that quite a battle is in progress between those favoring and those opposing House Bill No. 213 which provides for a new commission to take over the control of the oil and gas business of the State which now rests in the hands of the present Railroad commission.

Proponents of the bill to create a new commission point out that the oil industry of this State pays over 50 per cent of the taxes of the state, and that an industry so vital to the well being of the State and productive of so much revenue for the State's expenses, should be entitled to a separate commission designed to devote its entire time and thought to that industry alone.

Considerable criticism of the Railroad Commission has developed for some time due to the commission's handling of proration matters and after a House investigation a majority report condemning and criticizing the Railroad Commission was signed by the investigating committee. A minority report was signed by only two of the committee, one of whom was O. F. Chastain who is the Eastland county representative. The other representative who signed the minority report has since swung his support to the creation of a new commission to handle the oil and gas business.

In a speech before the House of Representatives during the debates on House Bill No. 213, O. F. Chastain denounced those seeking to establish a new commission, and stated that he had been besieged with letters, telegrams, and petitions by the people of his district, requesting him to support the bill seeking to create the new commission, but that he would not vote for the new commission even if every man in his district requested him to do so. He further stated that those signing the various requests didn't know the difference between a barrel of oil and a barrel of syrup; which was rather a severe condemnation of the people of his district and a reflection upon their intelligence when it is considered that the Eastland district is generally regarded as an oil district.

It is rather significant that the operators favoring the creation of the new commission are those who have adhered strictly to the rules promulgated by the present Railroad Commission; and equally significant that those defending the present Railroad Commission have consistently violated the rules of the commission and have violated proration regulations repeatedly under the protection of injunctions granted them against the rules which other operators were observing.

Mr. O. F. Chastain, in defending his position, stated that a brother-in-law was operating a number of wells in East Texas and that his brother-in-law had advised him that he (Chastain) was just as right now as he had always been, and advised him to stay in and fight. In a recent issue of an Austin paper, this same brother-in-law was listed as one among a number of operators against whom the Attorney General had requested the dismissal of injunction proceedings because of a late decision of the Federal courts. O. F. Chastain also admitted on the floor of the House that he had a relative in the employ of the Railroad Commission, after being questioned on that point by a fellow member.

The first votes on the bill were very close, and if final passage of the measure is to be secured, it will require the support of every Representative from every oil territory. The loss of O. F. Chastain from the ranks of those supporting the bill therefore is a very serious matter; and because of the closeness of the vote this one vote could be the deciding factor in the success or failure of the bill, and in the opinion of many if the measure should fail of passage it could work a serious hardship upon the oil industry of this territory and upon business generally which depends on oil for a large measure of its support.

In contrast to the attitude taken by Chastain is the position of Cecil A. Lotief of this same district. Mr. Lotief stated that he was in the legislature to serve the people of his territory and merely wished to know what their wishes were. He invited suggestions and comment from his constituents and appears to be sincerely endeavoring to represent his people fairly, without being influenced by outside consideration.

FEDERAL JUDGE CHANGES HIS MIND

Federal Judge Randolph Bryan modified a previous order so as to permit the Texas railroad commission "if it deems it advisable" to shut down the East Texas oil field for five days. This appears to have been a mild resurrection of the dogma of states rights. Well, the slogan is, "Keep Cool on Oil," get behind the railroad commission; make the needed appropriations for the employment of additional workers in the field; enact legislation that will place the bootleggers of gasoline behind the bars. All this in order that the millions intended for general revenue should be collected and used for the public service instead of the ancient method of fattening the packets of tax evaders.

JOHN BULL SINKS DEEPER IN THE RED

John Bull is having his own troubles. Why and how? The fiscal year of the British government ended March 21 with a deficit of 32,000,000 pounds sterling. In the not remote past John slipped off the gold standard. He hopes that the slipping act will save his financial face in coming years.

Muirhead Again In Active Charge Of Motor Company

Jack Muirhead, owner and manager of the Muirhead Motor Company of Eastland announces that he is again able to put all his time and efforts in at his garage and Buick, Oldsmobile, Pontiac agency at the corner of Olive and Seaman streets. For the last several months Mr. Muirhead has found it necessary to spend the greater part of his time outside and some of it out of Eastland. This was due to his work in perfecting his organization for the better handling of the great amount of work that is brought to him and his staff of factory-trained mechanics. Realizing that the automobile owner wants the best work that can be done at the least price that can be made Mr. Muirhead employs only the most proficient men obtainable, as a glance at this list will prove. W. H. Weaver and J. M. Gray, mechanics, Bob Sanderford, painter, Elmo Webster, wash and grease man. These factory-trained Buick, Pontiac and Oldsmobile men are of course headed by Mr. Muirhead himself and it is with a great deal of pleasure that the car owner of Eastland and vicinity learn that he will again be at hand any time during business hours.

With the Nazis and Communism in direct conflict, things are looking bad in Germany. Unemployment, government, and education, make nice battle fields, but when religion enters into the war . . . people wake up.

From all reports, the rider disappears before details of the conflict are enumerated. Of course, we don't believe it, either the ghost or the impending disaster, but it makes a good story.

We'd like for someone to write a sweet, domestic tale of a screen star. It really is upsetting to drag all our idols through the courts. Janet Gaynor has her divorce because her husband called her "stupid" and swore when she was late for dinner.

For Comfort—your car has to be big enough so you can be comfortable in it. Pontiac—the Economy Straight Eight—has a wheelbase of 115 inches.

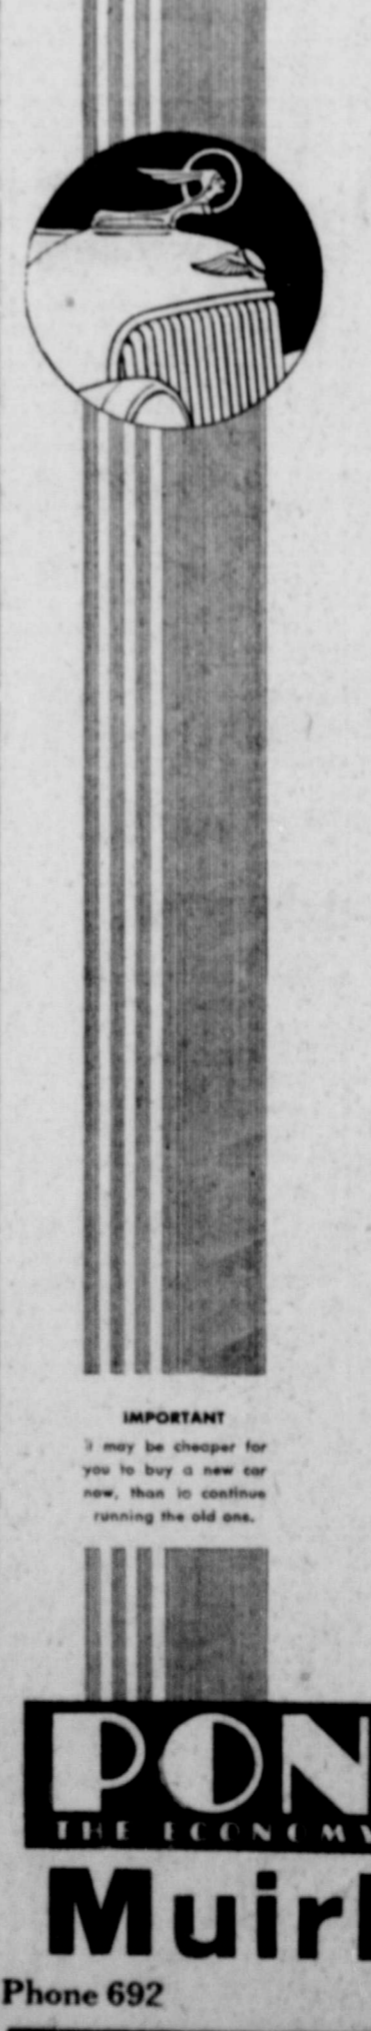

For Performance—you have to have a big, powerful engine. Pontiac's engine is a big 77-horsepower Straight Eight that gives you 78 real miles per hour—with all the inherent smoothness that only a Straight Eight can have or give.

For Economy—you have to have engine efficiency. Letters from people who have taken Pontiac's Economy Demonstration say that it gives 15 miles or more to the gallon of gasoline. That, plus the natural durability of a Straight Eight engine, gives you real operating economy. Come in for an Economy Demonstration.

For Appearance—well, just look at it and you'll see what Pontiac is. Pontiac shows the effects of a new finesse in styling that is making it one of the most talked about cars of the year.

For Safety—you have to have scientifically designed and ruggedly built bodies and chassis. Pontiac's 4-door Sedan weighs 3265 pounds at the curb, and all closed cars have bodies by Fisher—and you know that means extra strength and safety. Fisher Draft Ventilation is a special feature in all closed models.

Only if you have Pontiac's size and weight and engine in your car, can you expect to really get their benefits out of the car. Pontiac is a typical General Motors Value—an outstanding car in the low priced field—and a good car to buy.

Betty Ann Harkrider Celebrates Birthday Mrs. James E. Harkrider and Mrs. Frank A. Jones gave a party for their little daughter and granddaughter, Betty Ann Harkrider, on the occasion of her second birthday Thursday, at the home of Mrs. Jones on West Plummer street.

An Easter egg hunt on the lawn, followed by the playing of numerous games, was a feature of the entertainment for the little tots.

The birthday cake, which was baked by Mrs. Earl Harvey and Betty's grandmother, Mrs. Betty Harkrider, rested on a small table in the dining room for the little ones to view.

Betty Ann received many beautiful and useful gifts, the little guests presenting them to her in person as they entered the room and in return were thanked personally by the little hostess.

Pink and white ice cream and angel food cake and Easter eggs were served the little folks. Those assisting in serving and entertaining the children were: Mmes. E. Hinrichs, Morie Griffin, Norman Sargent, Ceile Hunt, Dee Williams.

HERE-- AND THERE

By ELVIE H. JACKSON

The Eastland Music Study club has adapted a new line of work for this season, in giving an occasional civic or public concert for the benefit of the citizens, and the third of these presented Friday night, and taking the place of their usual Friday afternoon club meeting, was one of such outstanding value, in its representation of Eastland talent, that the recital has made a mark all its own, in annals of the Music Club work.

That Eastland appreciates these offerings was evidenced by the big audience that filled the Methodist church, and expressed its enjoyment of the beautiful program, for the club, arranged by Wilda Drago, artist, violinist and pianist.

The program opened with a gorgeous choral number, "Sweet Is Thy Work," with solo and overtones, soprano, given by Mrs. Joseph E. Leonard, whose smooth, rich voice is a delight to hear.

"God Shall Wipe Away All Tears," solo work by Mrs. Grady Pipkin, with choral work by the Methodist church choir was one of the outstanding numbers of the evening.

The talented Mary Frances Hunter presented a timely reading, "The Love of the Violin," beautifully interpreted.

Handel's, "Come Beloved," for soprano, was an exquisite offering by Mrs. Leonard with Mrs. D. L. Kinnaird at the piano.

A contrast was offered, in the dug into solid rock 35 feet underground here are more than a million bottles of champagne, valued at approximately \$1,000,000, is awaiting modification of the 18th amendment.

The champagne, Cook's Imperial, of 1916-17 vintage, is guarded constantly. Iron bars and steel doors, behind which are armed guards, prevent theft of the wine.

The stock consist of 600,000 pints and 400,000 quarts. The temperature in the vault never varies more than five degrees.

Did you ever notice that some people kick just from force of habit? They kick about the weather. It never suits them; they kick about business, usually because they fail to advertise and for that reason are doing a poor business; they kick about the home city just because they like to kick; they knock their neighbors, often because they have nothing else to do and feel that they have to keep kicking.

Miss Loraine Taylor, in the difficult "Fantasia, in C Minor," (Mozart) showed magnificent technique and delicate feeling.

One of the most popular features of the evening's program, Dvorak's "Goin' Home," "Largo," from the New World symphony was gorgeously sung by Mmes. J. B. Leonard, Grady Pipkin and Miss Drago, with Mrs. Gibson as pianist.

Homier White, representing the Baptist choir, gave a smooth and colorful interpretation, baritone of "The Sunrise Reminds Me of You," Mrs. Kinnaird was the accomplished accompanist.

"The Flower Fair at Peking," by W. J. Marsh, Texas composer.

Arcadia Today Only

The scintillating zenith of first half of program, was sung by Mmes. Leonard, Pipkin, Haley, Art Johnson, H. O. Satterwhite and Wilda Drago, with Mrs. Gibson at piano.

The second half presented the Drago Violin ensemble, of 30 members in a group of numbers by Severn, with the talented little Miss Jane Ferguson at the piano.

The effect of the players was striking, in their new uniforms of red satin blouses, and black satin skirts, or trousers.

Olivette Killough was outstanding in technique and expression in Godard's "Valse Chromatic." A double number, violin, of contrasting color given by the prodigy little Ellen Ayres Rice, Miss Drago at piano, and a magnificent piano solo by Clara June Kimble, in Moskowski's "Caprice Espagnole" closed the second part of this wonderful program.

The recital terminated in a smooth and beautiful rendition by the Methodist church choir of the choral by Adams, "No Night There," with E. M. Collie as soloist, Mrs. Gibson pianist, and Miss Drago directing.

The audience had representative visitors from Cisco, Ranger, Comanche and Gorman.

In these civic concerts the

Biggest Ward Week Opened In Ranger On Last Thursday

Thursday was the start of Ward Week—and the Ranger Montgomery Ward & Co. store is receiving one of the greatest throngs of shoppers that ever went hunting for bargains. A nation wide buying staff has sent in goods from all the great marketing centers, the sales force has been increased, and special window displays have been installed. In hundreds of other Ward stores from Maine to California similar preparations are completed to inaugurate "The Sale that Millions Wait For."

20 Million Transactions This is the 9th National Ward Week. It marks the coming again of Ward's twice a year demonstration of ability to undersell. It is an event of astounding proportions. The figures stagger the imagination. Attending this sale during the eight days will be more people than the entire populations of New York and Chicago combined. There will take place over 20,000,000 transactions in which mountains of merchandise change hands.

But that is only half the story. To secure the special offerings now here for Ward Week, Montgomery Ward & Co. must plan a year ahead. They will take place over 20,000,000 transactions in which mountains of merchandise change hands.

Savings Over \$1,000,000 It is estimated that from Saturday to Saturday more than 1 million dollars will be saved to consumers in 47 states where Ward stores are located. Every department will have its share of the bargains.

Well known manufacturers with whom Montgomery Ward & Co. do business have contributed many of these special items practically without profit to show their good will to the firm.

From all indications, Ward Week is expected to meet with great customer response.

A revival reveals to every member of the church just how he stands toward God; whether he is truly following Jesus Christ, whether he puts God first, or whether he loves other things more than he loves God, whether he is true to his Savior or is false to his profession as a Christian.
But God will save the backslider who really comes back to Him in repentance and puts God first.

healed all thy diseases." Included with other passages to be read from Deuteronomy 4: "Know therefore this day, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath: there is none else."
The lesson-sermon will also include the following from the citations to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy (p. 127): "If God, the All-in-all, be the creator of the spiritual universe, including man, then everything entitled to a classification as truth, or science, must be comprised in a knowledge or understanding of God, for there can be nothing beyond ultimate divinity."
Christian Science reveals God, not as the author of sin, sickness, and death, but as divine principle, supreme being, mind, exempt from all evil."

A pretty springtime color motif of orchid and green was in evidence throughout the table appointments and room decorations. Important details entered into during the business discussion included the formulation of general plans for the ensuing year, together with the appointment of chairmen for standing committees.

KANSAS CITY, Mo.—The dogs in the city pound have an unwelcome guest.
