From where I sit ... by Joe Marsh

On Playing the Fiddle Badly

is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there-harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

A favorite recreation in our town -with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its commu nity music, home entertainment, friendly glass of beer - than to hold out for professional perfection. (Besides, I like to play the fiddle-even badlr!)

Place Your Twine Order Now

VOUR order for binder twine, if placed now, will I greatly help us to give you better service. Come in and tell us how much twine you will need. Figure your order on the number of acres you expect to harvest, estimating that it will take about 21 pounds of twine

This will enable us to get your order in to the Harvester Company early, and will protect you in case we should order short of the local demand.

Also, if we have the binder twine business settled early, we will be able to give you better and faster emergency machine repair service at the busy season if you need it in a hurry. Help yourself to better service by ordering your twine now!
