With Rev. Temple serving as ors, red, white and blue. principal, the school has been organized in five departments with the following supervisors:

Beginners-Mrs. Donald Duree. Primary-Mrs. Ernest Harman. Junior-Mrs. Elmer Youts. Intermediates-Mrs. T. A. Sing-

A cordial invitation is extended by the church to all children of the community to attend the remaining classes of the school, which will close with the commencement exercises to be held Friday night, June 25, at 9:00 o'clock in the church auditorium.

Castro County Is More Eggs In'43

Castro County Poultrymen are asked by the government to produce approximately 517,000 dozen eggs this year, 12 percent more than in 1942, as their share in the Food for Victory program, the National Poultry Defense Committee estimated today.

This County Goal, which is based on the percentage increase and was the same number of suggested for Texas by the U. S. Department of Agriculture, can be reached if adequate supplies of | board of education at Childress. labor and feed are available, declared Committee Chairman Ho- Plainview from Childress two bart Creighton.

"Poultry farmers are now working harder than ever before in allout war production," Creighton said, "continuing the fine job they did in this county last year by producing approximately 462,000 dozen eggs to help supply civilian, military and lend-lease needs. Also two developements during last year have resulted in larger laying flocks on most farms today:

"First, egg prices as shown by purchases of the A & P Tea Company, one of the largest buyers which paid \$800,900 in Texas last year for 2,522,040 dozen, were so favorable that farmers saved an unusually large proportion of potential layers. Second, conditions laceration between the little fing in 1942 were so good for raising pullets, as Fall weather was generally mild and the average hatch-

ing date was early. "Those factors point to increased egg production," Creighton explained, "If an improvement can be made in the farm skilled labor situation and if farmers can get enough protein feeds. There are critical shortages of protein ingredients because imports have been cut so drastically. Even soybean oil meal is not being processed fast enough to meet demands. These are major problems facingthe industry."

Texas poultrymen who produced a total of 233,916,000 dozen eggs in 1942, are asked for 262,-671,000 dozen this year as their the daughter of Mrs. M. L. Simpshare of the national egg goal of 4,780,000,000 dozen.

METHODIST CHURCH

We had a good Children's Day and stockman. Service last Sunday, and a good audience. The children gave a love in Dimmitt. offering of \$17.03 to the Methodist Home at Waco. Also items from their handcraft work were grandmother returned to Dimmi+ sent to the Home:

L. A. Rickett's Hand Is Injured In Accident Monday

Mr. L. A. Ricketts, shop foreman at the Castro Motor Co., had the misfortune of sustaining severe injuries to his right hand Monday when the member was caught in a V-type belt that drives the power washer where he is employed. The accident resulted in the amputation of the first joint of the index finger severe er and hand, and painful injuries to other parts of the hand. Mr. Ricketts stated today that the injury was responding satisfactorly to treatment.

Simpkins-Newton

Mr. Elbert Newton and Miss Joyce Simpkins were united in marriage Saturday in Clovis, N. M. The single ring ceremony was performed in the home of the officiating minister, a Methodist pastor. The couple was accompanied to Clovis by Mr. George Behrends, Miss Mary Rapier, sister of the bride, and Mrs. Ruby Dimpsey. The charming bride is kins of the Sunnyside community, and was reared in Castro county. The bridegroom is the son of Mr. and Mrs. J. C. Newton and is a porminent Castro County farmer

The couple will make their home

Skeeter Borden Gets Promotion

Word was received here this week that Skeeter Borden, son of Mr. and Mrs. Ben Borden, had been promoted to the rank of Aviation Ordnanceman, 3rd Class. Skeeter recently completed his training at the Chicago Naval Ordnance School with third highest grade in his class of 76 members. He is now stationed at Quonset Point, R. I., and according to recent information Skeeter has been confined to a Naval hospital for treatment of an infected ear. His duties at his new location are said to be the repairing of naval aircraft damaged in combat.

Farm Labor Is Discussed By Congressmen

Editor's Note-The following article was submitted to the News for publication by Congressman this amount boosted next year to Eugene Worley, and is being published for whatever benefit it may prove to be to the farmers of this section in their effort in coping with the problem created by the present farm labor shortage:

From time to time it has been requested that word from Washington on various matters of current interest might be of aid to the people whom it is my honor to represent. It will not be possible to maintain a regular column is unable to fly. The size, weight due to the press of work, but I and shape of his body in relation trust the things I do write will be of helpful assistance.

If this column appears in your local paper thanks are due your editor.

Farm labor is scarce and in an effort to secure more help for the farmers in making crops I asked the War Department if it was not possible to release men for this work without injuring the war effort. I was officially informed as

"Military personnel are not granted furloughs for the purpose of farm work. However, commanding officers of all posts, camps, stations, divisions, and lower separate units have authority to permit soldiers to engage in farm work in nearby communities during normal off-duty periods or to grant passes for this purpose if, in the opinion of the commander concerned, an emergency exists in a nearby farm community due to the shortage of available farm labor; the soldier concerned desires Ellen Adams, engrossed with permission or a pass; such action will not interfere with the customary employment and regular enwondering about love. Jim had ad- civilians, will not interfere serored her since they were childen jously with training, and no exed. They want the State to help them get equipment that they are not personally able to furnish. New York spends neary \$8,000,000 a year for its defense guard. Texas-with its long coast and boundary and its immense area-last year appropriated, through the State government, about \$65,000. The T. D. G. would like to see at least \$450,000-which would be less than 10 percent of the appropriation in the inland State of Illinois, with less than half as many guardsmen.

> Sign in a General Motors plant: It Can't Be Done.

According to the theory of aerodynamics and as may be readily demontsrated through wind and tunnel experiments, the bumblebee to the total wingspread make flying impossible.

But the bumblebee being ignorant of these scientific truths, goes ahead and flies anyway.

In a speech on the floor of the Texas Senate the other day, a Senator denounced a member of the faculty of the University of Texas for some comment on public affairs-and then the Senator went far beyond that: he asserted that no man on the public payroll has a right to express himself on pub-

lic officials or public matters. All citizens are entited to free speech. Does the Senator contend that a member of the faculty of the State University is not a citizen? Would the Senator want to turn the training of the next generation of citizens over to instructors who would be willing to give up the blood bought, Constitutionguaranteed right of free speech? If we allow the Senator to padlock the lips of State University faculty members and of public school teachers, then you and I as private citizens will be next, if we say something that displeases the

SOLD BY-

RUBBER DAY

William O'Neil

Heading a delegation of prominent industrialists, William O'Neil, president of The General Tire & Rubber company, will come to Texas June 28, to take part in the ceremonies planned in connection with the Genat Baytown.

"Texas from here on in will be a vital factor in the solution of the rubber problem. Texas will be particularly important in the making of tires because Texas produces-under the American Made rubber program -not only rubber but cotton and sulphur, the three most important components in tire manufacture."

O'Neil will be accompanied by L. A. McQueen and T. Spencer Shore, vice presidents of his company and will meet H. Stuart Hotchkiss, chairman of the board, and Warren Mac-Pherson, director, of the General Latex and Chemical Corporation, which company is associated with General in the Baytown plant.

Marine Corps Has Opening For No. of Men-Women

Recruiting Officers at Lubbock, Texas, inform us that the U.S. Marine Corps is now open to 17 year old young men. Those making applications should do so either by writing or calling at the Lubbock Recruiting Station in person. This opportunity to join the greatest fighting force of any service in the world is open for a limited time only.

The Corps is also open to women between the ages of 20 and 50. Women join the Marine Corps Women's Reserve, Free A Marine To Fight. For futher information write or call in peson at the Maine Corps Recruiting Office, Lubbock, Texas.

Defender of the Home

Remember the pride you took in your Dad when you were little? The security you felt when his hand held yours. The certainty with which you relied on him for help when things went wrong. Just because you're grown-up now is no reason to be less demonstrative! So be glad that this Father's Day gives you a fresh chance to give Dad some small token of your love and admiration.

Probably never before in the history of our Nation has the responsibilities of Fathers been as manyfold as today, when the task of maintaining the home is augmented by his added responsibilities growing out of the war effort, and acting as comforter and counsellor to the remanents of dismembered families as sons and daughters take their places among the ranks of our fighting forces.
