UNITED PRESS SERVICE BRINGS LATE NEWS OF THE WORLD TO TIMES READERS

RANGER, TEXAS, SUNDAY MORNING, JUNE 18, 1933

PRICE FIVE CENTS

No. 15

THE WEATHER
West Texas—Generally fair to night and Sunday.

Seeking to preserve their testimony, a German Nazi court is having four accused slayers talk into a phonograph. That should make the evidence a matter of record.

OFFICERS SEEKING SLAYERS OF TEXAS GIRL

PEEPING THRU THE KNOTHOLE with BILL MAYES

J. C. Smith called attention Saturday to the fact that he had seen Eck Curtis, Blaise Cherry and "Chap" Chapman standing in front of a drug store talking. The usual part, he said, was that all three were outstanding high school coaches, all three had coached, or were still catching in the Oil Belt and the name of each began with the letter "C."

Needless to say he found the conversation was about football, even in this hot weather, and were wondering if it would be possible to get up a game.

And with our brand new soft ball league just ready to get underway, too.

J. A. Thrower has agreed to act as umpire-in-chief of the soft ball league, or rather the Ranger Twilight League, which is to play at Willow Field, and has requested that F. D. Hicks and J. C. Smith act as his assistants when they are not playing.

Mr. Thrower said that he might as like to umpire when the Lions play the Legion. We don't know why the schedule committee had to pick a team like that for us to play the first day of the season, but we imagine that "Buzz" Johnson, who is manager of the Legion team, engineered the thing because he figured the Times would be easy to beat.

We worked for two hours with Buzz trying to get the schedule straightened, only to have to give it as a bad job. Then we hit on an idea and Buzz carried it out. The result was the Times and the Legion play first.

Well, well, they will probably all look tough to us the day our team plays them, so it doesn't make much difference.

The following day the Elks play the Lions, Wednesday the Rotary play the Guards and Friday the Rangers and Lone Star play.

As far as we know the Lone Star has not played a practice game, though they are reported to have been practicing from time to time and are said to have a good team. And that they may have played several games about which we have heard nothing so far.

FOUR OFFICERS AND PRISONERS ARE MURDERED

KANSAS CITY, Mo., June 17.—Trapped in a deadly cross-fire of machine gun bullets, four peace officers were killed today without a chance to fire a shot.

With them died Frank Nash, escaped convict and member of the Owl Spencer gang of bank bandits and train robbers that spread terror in Oklahoma years ago.

The killings occurred on the Union Station plaza where gangsters made a murderous attempt to liberate Nash as he was being returned to the federal prison at Leavenworth, Kan., from which he escaped in 1930.

As the officers were entering an automobile for a trip to Leavenworth, they were caught in a barrage of bullets from two directions.

One group of machine gunners leaped from behind a parked car and opened fire at close range. At the same time a second group in an automobile passing through the plaza made the officers their target.

The slain officers were Raymond Caffrey, agent of the department of justice; Ott Reed, chief of police of McAlester, Okla.; and William Grooms and Frank Hermanson, Kansas City detectives. Two other officers were wounded.

After the massacre the machine gunners, who had emerged from behind the parked car, ran to their automobile and joined their comrades in the second automobile in flight.

Nash was captured yesterday in Hot Springs, Ark., and officers brought him to Kansas City by train. He arrived at the station today in the custody of Reed, Caffrey and another agent.

RAISES APE WITH HIS OWN SON

A remarkable psychological experiment, in which an infant ape was brought up as the baby sister to a professor's son of approximately the same age, has proven that environment and training made the ape virtually a "human" in mental development. In many cases the development exceeded the child's.

The experiment was conducted by the Dr. W. N. Kellogg of Indiana University. He raised his son, Donald, and the ape, Gua, together through their infant developmental stages as brother and sister. They wore the same clothes, ate the same food, played together, reacted to the same discipline and routine. The upper picture shows Donald and Gua having a lively romp in their rabbit car. Below, an interesting comparison of their physical development.

Under terms of the bill, virtually every type of public works is eligible.

On acceptable projects the federal government will make an outright grant or gift of 30 per cent of the construction cost, and will loan the balance of 70 per cent at a low rate of interest. Among suggested eligible projects are the following:

1. Building Construction—Administration, city hall, county courthouses; hospital, city and county; schools; auditoriums; stadiums; prisons; markets; libraries; factories; docks; warehouses.

(Continued on page 2)

REHABILITATION IS DISCUSSED AT MEETING

Representatives from every town in Eastland county as well as every member of the commissioners' court and County Judge C. L. Garrett attended the meeting at the courthouse Friday afternoon and heard Representative Hughes of the Texas Rehabilitation and relief commission explain the details of the proposition and what it means to every county and community in the state.

The main object of this meeting was to get this county, as all other counties will be doing, to make a project survey to determine how much money the different towns and communities of the county will want. When this is done each town and community will work out its projects in detail and make application for the funds.

Other projects that will be submitted, possibly, will be road improvements, the objective of which will be to take up the county's quota of the \$25,000,000 to be allotted to Texas. Hard-surfaced roads from Eastland to DeSmet and from Carbon to Rising Star will be among the plans submitted for road work.

Below is a brief outline of the discussion by Mr. Hughes of President Roosevelt's vast program for the rehabilitation and relief of the county:

Title 11 of this measure known as the national industrial recovery act is to be the president's unguilted, knockout blow at the depression. The fact puts \$3,500,000,000 in the president's fist for this specific purpose.

Mr. Hughes said a swift decisive campaign to bring home to the people throughout the state the advantage of quickly seizing the opportunities presented to them under terms of the bill is being carried on by the new employment-relief agency at Austin.

The motto under which the campaign is to be conducted will be "Take families off the relief rolls and put them on payrolls."

It is estimated that a least \$250,000,000 for public works can be obtained for Texas from this enormous federal fund if prompt action is taken by those in position to negotiate loans covering eligible projects.

SHERIFF SAYS 'PRETTY BOY' WAS CAPTOR

BOLIVAR, Mo., June 17.—Sheriff Jack Killingsworth and an elderly couple were released today after spending several hours as hostages in the hands of Charles (Pretty Boy) Floyd and a companion.

Bolivar Sheriff Killingsworth declined to give an account of the kidnaping.

"My safety and my family's safety depend on following instructions," he said. Killingsworth confirmed the identity of his captors as Floyd and Adam Richitti, known as an associate of the notorious Oklahoma outlaw.

He said on two occasions during the search officers came within shooting distance of the bandit car near Warsaw.

Killingsworth declined to divulge the name of the man and woman who were released with him, indicating silence was part of his bargain with Floyd.

JEFFERSON CITY, Mo., June 17.—Belief that Charles (Pretty Boy) Floyd may have been the assassin who killed two Columbia police officers were expressed today by Warden Sanders of the state penitentiary.

At the court of honor held in Ranger Friday night, a number of scouts in Troop 10 advanced to second class, one was made first class, two received their star-scout badges and a large number of merit badges were applied for.

Those making second class scout were T. P. Hanson, Joe Wilbur, Glenn Adams and Lynde Summers. Cloma Huffman was the only scout in the troop who was made a first class scout.

She May Become King Zog's Queen

Baroness Franziska de Janko (above), prominent leader of Albanian society and well-known in German and Austrian social circles, is betrothed to King Zog of Albania, according to Continental rumors. Reports from Vienna say a definite announcement will be made in the fall.

The couple's automobile was stopped at an underpass north of here by a motor truck which was blocking the highway. A woman, appearing in distress, was in the highway a short distance from the truck. When Conway stopped his automobile two men appeared from the truck, demanded that the couple get out and then opened fire on them.

Miss Hammond was struck by the first volley of bullets. She died instantly. Conway, struck in the shoulder by a bullet, fell to the pavement. The highwayman rifled his pockets and then beat him with his pistols. The youth feigned unconsciousness and after the trio had fled from the district in the truck, he dragged the girl into the machine and drove to a hospital.

The boy furnished incomplete descriptions of the trio. County officers posted themselves at road intersections and when a report of a robbery on the highway 12 miles south of here was received they dashed to the neighborhood. Descriptions furnished by the robbery victims tallied with that given by the injured boy.

The two students left Waco late yesterday to drive here. Miss Hammond is the daughter of Mr. and Mrs. W. L. Hammond Jr., of Kosse.

Witness Faces A Perjury Charge

A complaint charging Dick Grice of Gorman with perjury was filed with Justice of Peace Milton Newman of Eastland, Thursday afternoon. The charge grew out of the testimony Grice gave in the Bill Knight case, in which Knight was alleged to have stolen a trailer belonging to Eastland county and in charge of Commissioner T. G. Gray of Gorman, on trial in the 88th district court Thursday.

WOMAN IS ALSO SOUGHT AS ACCOMPLICE

TRIO STOPPED CAR CONTAINING TWO BAYLOR STUDENTS NEAR BRYAN.

BRYAN, Texas, June 17.—A murder on the highway north of here followed a robbery 12 miles south of here furnished officers scant clues today as to the whereabouts of two men and a woman, one of whom shot and killed Miss Leodell Hammond, 18-year-old student of Baylor university.

Miss Hammond was slain last night when she dismounted from the automobile in which she and Ervin Conway, Baylor graduate, were driving here to visit Conway's parents.

The couple's automobile was stopped at an underpass north of here by a motor truck which was blocking the highway. A woman, appearing in distress, was in the highway a short distance from the truck. When Conway stopped his automobile two men appeared from the truck, demanded that the couple get out and then opened fire on them.

Miss Hammond was struck by the first volley of bullets. She died instantly. Conway, struck in the shoulder by a bullet, fell to the pavement. The highwayman rifled his pockets and then beat him with his pistols. The youth feigned unconsciousness and after the trio had fled from the district in the truck, he dragged the girl into the machine and drove to a hospital.

The boy furnished incomplete descriptions of the trio. County officers posted themselves at road intersections and when a report of a robbery on the highway 12 miles south of here was received they dashed to the neighborhood. Descriptions furnished by the robbery victims tallied with that given by the injured boy.

The two students left Waco late yesterday to drive here. Miss Hammond is the daughter of Mr. and Mrs. W. L. Hammond Jr., of Kosse.

Funeral Services Are Held For Mrs. W. F. Dennis Sat.

Japanese Explorers Sent to Gold Field

HARBIN, China.—Japan has set out to develop the vast gold fields which are reported to exist along tributaries of the Sungari and Amar rivers, north of this city.

A first expedition, consisting of about 400 men, departed from here this month and will explore the gold regions until snows set in in the fall. The expedition, financed by the South Manchuria Railway company, was assembled at a cost of more than half a million yen and is composed largely of ex-soldiers, who are armed with artillery and machine guns and accompanied by armored airplanes.

The expedition will be divided into three groups when it reaches the gold fields and will establish base headquarters at the village of Chamussi. It is understood the first explorations will be made along the River Wutung, a tributary of the Sungari.

Hope Still Held For Safety Of Jimmy Mattern

NOME, Alaska, June 17.—Hope for the safety of James Mattern, round-the-world flier believed down somewhere in the Bering Sea, was not abandoned by airmen today.

Philippine Cigar Demand Increases Are Now Predicted

MANILA.—Increased demand for Philippine cigars in the United States, due to the legalization of 3.2 per cent beer, will be noted during the next three months, according to the prediction of Antonio G. Escamilla, secretary of the Manila Tobacco Association.

Escamilla is urging an increase from Pesos 3,000,000 to Pesos 5,000,000 in the government fund for advertising cigars in the United States, believing that "money so spent by the government will be more than repaid, not only in the form of specific duties and taxes, but also in the form of duties to the United States, which by agreement are turned back to the Philippine government."

Austin, June 17.—Close study is being made of the national industrial recovery act in connection with Texas anti-trust laws.

While no statement is forthcoming from the attorney general's department, investigations have gone far enough to indicate that the national act has no provision incompatible with the state's contentions in its \$17,500,000 penalty suits against major oil concerns, charged with violation of the Texas anti-trust laws.

No course will be announced by the attorney general until his department has fully considered the federal act.

Recovery Act and Anti-Trust Laws Are Being Studied

While no statement is forthcoming from the attorney general's department, investigations have gone far enough to indicate that the national act has no provision incompatible with the state's contentions in its \$17,500,000 penalty suits against major oil concerns, charged with violation of the Texas anti-trust laws.

No course will be announced by the attorney general until his department has fully considered the federal act.

Tariff and Trade Barrier Attack Asked at London

LONDON, June 17.—United States delegates to the world conference proposed a sweeping attack on tariffs and trade barriers today.

In a written list of suggestions submitted to the economic commissioner of the conference, the United States negotiators asked all nations to enter into a general horizontal cut of 10 per cent in tariffs.

World's Fastest Traveler Is Pilot Who Delivers Planes

NEW YORK.—The fastest traveling man in the United States is Johnny Hodgson, United Air Lines' pilot, whose job is to deliver three-mile-a-minute passenger transports from the Boeing Airplane factory at Seattle to various points on United Air Lines.

Some of his recent trips were: Breakfast at Seattle, lunch in San Francisco and dinner in Seattle the same day. The next day he flew from Seattle to Los Angeles in seven hours. Other trips were Cheyenne to Chicago in five hours.

Funeral Services Held Saturday For Mrs. Lila Graham

Funeral services for Mrs. Lila Graham, who died Thursday at Kerrville, were conducted from the Tobe Merton home at Morton Valley Saturday afternoon at 2:30 o'clock by Rev. Sam G. Thompson, pastor of the First Methodist church of Eastland. Burial was in the Eastland cemetery. The Hamner Undertaking company had charge of funeral arrangements.

Mrs. Graham, who was the oldest daughter of Mr. and Mrs. Tobe Merton, in addition to her parents, is survived by her husband and two children. Also a number of brothers and sisters.

Lumber Industry Shows An Increase

MISSOULA, Mont.—Definite improvement has manifested itself in the lumber industry throughout the northwest, Prof. J. H. Ramo of the University of Montana forestry department reported after a 4,000-mile trip through Oregon, Idaho, Washington, California and Montana.

By United Press
NEW ORLEANS, La.—The impoverished congregation of the St. James I. Boudra, Presbyterian preacher, was unable to make annual contribution for general Sunday school work so Boudra raised the funds himself by being black-tie to wealthy citizens of New Orleans.

A BIBLE THOUGHT FOR TODAY

NONE LIKE GOD: Thy righteousness also, O God, is very high, who hast done great things: O God, who is like unto thee!—Psalm 71: 19.

SMALL INVESTORS ARE INVITED TO BUY

Secretary of the Treasury William H. Woodin has announced a security issue expected to reach a billion dollar total to be used to meet maturing debts, pay interest on the public debt, and furnish funds to inaugurate President Roosevelt's industrial control program. Furthermore, the secretary has sought to make the issue popular with the small investors and to secure their cooperation by reserving the right to allot in full all subscriptions of \$10.00 or less, "even if it should become necessary to increase the amount of the offering to do this."

All of which is a reminder that during the last several years large financial institutions generally have taken the government security issues as fast as they were offered.

Another proposal bobbed up on the banks of the Potomac—that the government permit American gold producers to export gold mined in this country, "to take advantage of higher prices abroad." Indeed, it is said the proposal has been presented to the administration and is being given careful consideration but "the plan would have no connection with any efforts to establish a free market for gold in the United States." Frank A. Vanderlip had a fascinating review of gold from the beginning in a late number of the Saturday Evening Post. According to the Vanderlip survey, the goldsmiths were the first buyers of gold, they made it the yardstick of values and when business became brisk they evolved into the first bankers of the bygone ages.

HIGH POINTS IN THE CAREER OF TWO GREAT MEN

This is the greatest copy making age time has known. Senator Carter Glass of Virginia has received letters threatening his life and telephone messages "both harassing humiliating." Sen. Huey P. Long of Louisiana, erstwhile the "kingfish" of the Pelican world, has been sued by a very prominent daughter of Louisiana for defamation of character and causing great mental anguish. The lady orly asks for gold balm having a value of \$250,000. Really, the immortal Scottish poet was right, "Man's inhumanity to man makes countless thousands mourn," but think of all the publicity the important personages receive in this age known to historians as the "early 30's of depression." Next!

The merchants who advertise continuously in home newspapers are the ones who can fill every need of the most particular people.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

JOHN H. KEEN, advertising manager of the Austin American, says: THAT the world today offers greater opportunity for brains than ever before in the history of this country. The four years of unprecedented deflation through which we have passed and from which we are emerging has awakened us to the realization that for the past ten years merchandising has carried the merchant along without brains or effort.

From now on the merchant must merchandise if he is to conduct a successful business. Advertising is one of the largest contributing factors in successful merchandising. The newspaper is acknowledged to be the best medium for the message of the retailer. It is bought and read by his prospective customers. It reaches them more quickly and offers them other mediums, and thus provides a means of quick changes in prices, plans and policies.

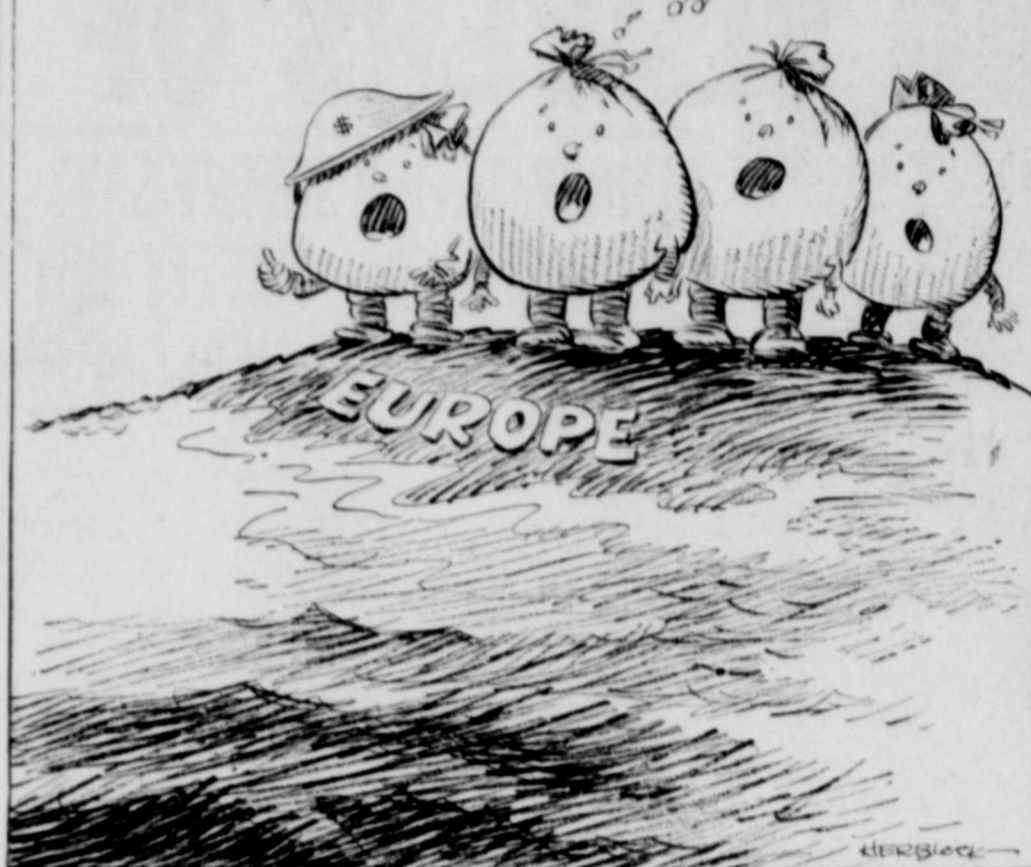

But what is the function of the newspaper as an advertising medium? It is to carry your message to the customer. Don't blame the paper if you fail to get results, provided the paper reached the people and was read by them. Do you blame the post office if you write a letter to New York ordering 200 suits of clothes when you fail to get the clothes? Not if the letter reached the house to which it was addressed. Your failure to get the clothes may be due to your poor credit, the house may be out of those clothes or other causes may be to blame for the failure to get results. No more is the newspaper to blame for the failure of your advertising in getting results, if the message reached the people for whom it was intended. It may be the line, your quality may be poor or you may not have punch enough in your copy. There may be a dozen reasons why that ad did not pull. But the newspaper advertising is not futile just because our ads don't get results.

Wake up! The only man who can make a success of your store is yourself. Get on your toes! Find the trouble; fight the wrongs, use your head and the future will be the best you have ever known.

These are times that try men's souls. The strong man win. Brains will succeed. Lets go!

JUST AN OLD WAR DEBT SONG

AND WE WON'T COME BACK

REHABILITATION

(Continued from page 1)
 1. Terminals for air, road, rail, water; police stations and fire stations.
 2. Health and Sanitation—Water storage; water filtration; water softening; water lines; sewage disposal; sewage systems, civic centers, waterfront beautification, pollution of streams, slum eradication, parking spaces, abattoirs.
 3. Marginal Lands—Drain swamps and much lands, irrigate arid areas, clear scrub timber lands, reforestation, game preserves, artificial lakes, fish hatcheries, resorts, camp sites, golf courses, amusement park, athletic parks.
 4. Natural Resources—Flood control, drought control, hydroelectric development.
 5. Rivers and Harbors—Breakwaters, harbors, channels.
 6. Roads and Pavements.
 7. Highway Structure.
 Title II of the national industrial recovery act takes the place of the self-liquidating loan provisions of the old R. F. C. act, which specifically prohibits loan, the retirement of which involves the securing of revenue from taxation. This tax feature of the R. F. C. act served to eliminate practically every type of public works from consideration.
 While no definite policy concerning administration of the new public works program has been made, it is known of good authority that it will be an unusually liberal one.

— THIS CURIOUS WORLD —

SISTER MARY'S KITCHEN

BY SISTER MARY
 NEA Service Writer
 "BILLY BOY" made cherry pie famous long ago and a fresh cherry pie made of perfect, but fruit is deservedly popular. But there are innumerable puddings and concoctions of modern invention that are equally delectable.
 The big sweet cherries are inviting served fresh and whole. There are several cherry salads that are delicious and colorful. One salad uses the juice of red cherries with granulated gelatin for the foundation and sprinkles large white cherries, which have been stoned of course, through the mold. Add chopped nuts to the salad dressing used with the salad.
 Cherry puddings are innumerable. Baked cherry pudding was a favorite dish for farm hands when cherry pie failed. Eaten with sugar and cream it was almost a full meal in itself.
 Cherry shortcake is made just like strawberry shortcake, using a baking powder biscuit dough. Cherry ice and sherbet are alluring hot weather desserts. Cherry ice has a distinctive flavor and if made with bright red fruit has a beautiful color.
Cherry Ice
 Two teaspoons granulated gelatin, 2 tablespoons cold water, 1 cup boiling water, 4 tablespoons lemon juice, 1 cup cherry juice, 1 cup sugar.
 Heat one quart of fresh cherries and strain off juice. Soften gelatin in cold water for five minutes and dissolve in boiling water. Add lemon juice, cherry juice and sugar.
 Goldfish, says a scientist at Chicago's Shedd Aquarium, "are just as happy when being fed by a stranger as when being fed by their own." Any fisherman can testify, however, that a lot of other fish seem to object to being fed by his hook.
OMAHA, Neb.—Two negro Pro-Testant clergymen, Rev. J. H. Jackson, 32, and Rev. S. D. Rhone, 36, received M.A. degrees at Creighton university, a Jesuit Catholic institution. Both continued in active charge of their parishes while preparing for their degrees.

Chick With Three Legs Is Hatched

By United Press
OROVILLE, Calif.—A baby chick hatched at the farm of Mrs. E. M. Baker, near here, began life in the midst of a series of complications.
 In the first place, the chick's father was a Barred Plymouth Rock rooster and its mother, a bantam hen. The chick, shortly after being hatched, developed three legs. The "extra" grew from its backbone and is as large as the two normal legs.

Plans To Teach Jobless Studied

By United Press
MONTREAL.—Plans for the establishment of a school to provide special training in electricity and industrial physics for Montreal's unemployed men, are being studied here.
 The scheme is being sponsored by the Ecole Polytechnique of the University of Montreal and has received the approval of Mgr. Georges Gauthier, archbishop and adjutor of Montreal, and Premier Taschereau of Quebec.

Terrapin Returns To City Regularly

By United Press
FULTON, Mo.—A terrapin which first appeared here in 1895 and has returned periodically since, is back again after a six years' absence.
 D. B. Shaley first noticed the terrapin on his farm in 1895 and carried the year on its shell. In 1899 the "old timer" returned for another carving. Then nearly 25 years passed before the turtle reappeared. In 1921 and again in 1927 he returned to the same farm. Now he is back again with all four dates carved plainly on his back.

Cook Hated To Eat His Own Meals

By United Press
BOISE, Idaho.—"Batching" is sometimes a necessity for prospectors, but it's no fun, according to a grizzled old powder man who applied here for a courtship job.
 "I'm a powder man," he explained. Powder men were not needed just then, so Commissioner Ed Smith, wishing to place the man, asked if he could cook, and receiving an answer in the affirmative, asked if he could eat his own cooking.
 "Well," the old fellow replied, "I do, but I sure hate it like hell."

1906 Prize Would Be Easy to Win

By United Press
NEW YORK.—Back in 1906 a \$50,000 prize was posted in Britain for the first flight from London to Manchester, a distance of 183 miles, to be completed within 24 hours.
 Today, America's latest commercial air transports, the three-mile-a-minute monoplane, cover approximately that same distance in one hour, carrying 10 passengers, two pilots, stewardess, baggage and cargo.

State School Farm Made \$12,000 Profit

By United Press
MILES CITY, Mont.—A \$12,000 profit for the fiscal year 1932-33 has been reported by the state industrial school board, an audit by State Accountant William Hosking reveals.
 The report was in sharp contrast with that for practically all other farms at state institutions in the same period.
 Production values and crops sold were placed at \$20,929.29, while production costs amounted to \$7,938.52. Nearly all vegetables used at the school were produced on the farm, and no beef has been purchased at the institution in nearly three years.

COUNTY IS "MULE SKINNER"

By United Press
FORT WORTH.—Commissioner Earl Mitchell believes Tarrant county is a "mule skinner," and is proud of it. Ten years ago the county bought a mule for \$100. The animal was sold recently for \$45. Figured on an estimate of the mule's worth to the county at 25 cents a day, Mitchell believed the county came out with a \$650 advantage.

128 BOSTONS OF ALE DRUNK

By United Press
ROSTON.—Members of the audience at a recent Poppy concert at Symphony hall consumed 128 gallons of ale. They were required to bring their own steins. Numbers appearing on the program included Saint-Saens' Bacchanale and compositions by Meyerbeer and Rubinstein.

He Admits Killing Mother

Heir to her fortune, estimated at more than \$1,000,000, Baile Macdonald, 17, has confessed that he killed his widowed mother in his Flint, Mich., home and robbed her purse of \$45. Young Macdonald is shown here, nearest the camera, as he was booked for murder at Flint. With him is his chum with whom he fled, William Terwilliger, held as a material witness.

Howe Denies Kit Deal Onus

Louis McHenry Howe, President Roosevelt's first secretary, is shown here, left, as he denied to Senator Morris Sheppard any responsibility for purchase of 200,000 higher-priced toilet kits for the forest army. Howe said he had no idea of influencing the purchase through his reference to the seller in a letter to forest army officials.

FERNS OVER 24 YEARS OLD BOISE, Idaho.—A record in aged ferns is believed to be held by Boise. One plant here, re-potted many times, is 30 years old. Two others are 25. The largest one, which attracts many visitors, has hundreds of beautiful fronds, many of which are six feet long.

10-HOUR DAY ANNOUNCED SAL LAKE CITY, Utah.—While other parts of the country talked about six-hour days, grocery store and meat market workers here rejoiced when the local retail food distributors board of trade ruled there should be a 10-hour day maximum.

HOOKS and SLIDES BY BILL BRAUCHER

Poor Joe! THERE is a Little Old Man of the links... who perches on the shoulders of some fine golfer during every tournament and rides him into oblivion. Joe Turnesa started the recent Metropolitan championship tournament with unbeatable golf... hitting up and down the fairways at Mamaroneck with a 70 for the first round... and a 71 in the second... five strokes ahead of the field... an ordinary game in the last two rounds would have won it for him.

One Awful Stroke WITH all his bad golf during that last round under the weight of the Little Old Man, Joe could have tied it up had he sunk a 10-footer on the home green... The putt lipped the cup... just as five others had done on that final heartrending round... and Jones kept coming up, throwing birdies and eagles at poor Joe like an angry housewife pitching Dresden at her errand mate... One dirty little stroke! Fame and a fortune went with that officious marshal's booming "Fore!" on Hole No. 12. The Little Old Man stayed close to Joe all that year... and, except for brief holidays, has picked out the Italian boy's shoulders on which to ride during the intervening years... until the pros began calling Turnesa "Place-or-Show-Joe."

Joe Knows Him Well THEN the Little Old Man of the links got busy... and under the burden of the jeering, chirping din, Joe Turnesa on the third round shot an incredible 83!... the highest score made among the first 17 golfers... He followed it with a desperate 78... and finished eighth... 11 strokes worse than the winner, Wizard Willie MacFarlane. Poor Joe has carried the Little Man around with him before this... back in 1926... Scioto... With nine holes to play he led the field by six shots...

THIS SNAKE'S RATTLE WAS HARMLESS MARBLEHEAD, Mass.—This North Shore Massachusetts village is not commonly regarded as the habitat of rattlesnakes, but Herbert Hamilton became a bit panicky when he heard the rattle of a five-foot snake onto which he stumbled. After Hamilton had killed the reptile he found, clutching in the snake's tail, a baby's rattle.

HUNTING KEPT THIS IDAHO FAMILY ALIVE BOISE, Idaho.—A family of four survived last winter because they were good rabbit hunters, T. B. Murray, director of the biological survey here, has reported. The family lived in a shack far in the backwoods of Rocky Mts. of the Boise forest. The diet of rabbit meat was unvaried through the winter.

Two Champs in Training

Jack Sharkey, heavyweight boxing champion, and Joe Savoldi, heavyweight mat title holder, selected the same site for their training quarters—Orangeburg, N. Y.—and staged a little get-together for an exchange of ideas. Above Savoldi, at left, who was in training for a bout with Jim Browning, is showing Sharkey how to stop those Carnera right-hand punches when the big fight comes off, June 29.

NEGRO OFFERS CASH IN AUTO PURCHASE East Texas negro farmer entered his office and asked to buy an automobile. "What terms do you want, Sam?" asked the dealer. "I see payin' cash, sah," Blyriary, automobile dealer. An "wa stbe reply."

SPEAKING of SPORTS

By DAN OBWERMAN

Heavy Football Team Promised at St. Mary's MORAGA, Cal.—Edward Patrick Madigan waved his hands mightily and slipped into the parlance of an automobile salesman today to describe the 1933 model football machine of St. Mary's College. "We," said Mr. Madigan, "will have four forward speeds and no reverse. "Our model will be the heaviest in history, without sacrificing speed. "Heaviest in what history?" a skeptic asked. "The regulars will average 215 and the backs will average 211 pounds," Coach Madigan said. "Those are the speed boys. Our heavy duty line will average 245 pounds. So I guess it'll be the heaviest in football history. Madigan teaches the Notre Dame brand of football, dedicated to the theory that a good little man can always beat a good big man if the heavyweight is slow and muscle-bound above the ears. His 1933 behemoths, he declared, are fast and smart. "How about the color job?" Madigan was asked. "Better than ever," he answered. So it should be something to behold. Madigan last year dressed his lads in red, white and blue silk pants, blue sweaters and white shoulder-pads. In spring practice he developed a quadruple change of pace. One, play will be run as a quick drive from the shift, as a slower-breaking play with the interference doing some decoy work, as an even slower-breaking drive generating more power, and, in the fourth speed, geared down to a walk, but with the power of a tank in low gear.

WOULD YOU BUY IT AGAIN?

When your answer is NO it is never a bargain

Unless it gives you your money's worth in value, and the satisfaction in use which you expect, no product is ever a bargain. Any time you are persuaded to buy them you may be wasting your money. In unfamiliar packages now urged upon you, there is often cheap merchandise—the offering of manufacturers who have gone too far in their efforts to make your money buy more quantity. Products in which quality has been sacrificed to make a low price still lower. When you shop today, look at the label as well as the price—for a well-known label is a guarantee of quality. The genuine bargains are among the brands you recognize! Many of them now cost less than they have in years.

HOW TO BE COOL THOUGH COOKING

Six Simple Satisfying Summer Desserts

When the thermometer heads right straight upward like an autogiro in flight, and appetites descend downwards like a summer shower, what every homemaker wants—needs—are dessert recipes that call for cool cooking. The seasonal fruits are of help, of course, for berries and fresh fruits combined with simple cookies and sweet crackers make a welcome and festive dessert. But the family, if it runs true to form, will demand its "made dishes" just the same. Ice box dishes help this situation greatly, but there will be times when you cannot wait for the trusty household servant to get in its chilly work, and must make your dessert quickly.

When those times arrive—and even at other times, because they are real palate-ticklers—you will appreciate having at hand these six summer dessert recipes that keep you cool and comfortable through cooking. You'll be surprised at what wonders you can work with a little fruit, a few crackers and some whipped cream!

Cookless Banana Cream Pie
What, banana pie that needs no heat? Yes, indeed—the filling is uncooked and the crust is made with those chocolate wafers, famous for the purpose.

1 can condensed milk
1/2 cup lemon juice
2 bananas, sliced
Chocolate wafers.

Line a 9-inch pie plate with chocolate wafers, cutting in halves to stand up around inside of plate. Cover bottom with wafers crumbled to fit. Blend milk and lemon juice; fold in sliced bananas, and pour into wafer-lined pie plate. Garnish with whipped cream or meringue. Chill. Serves 6.

Peanut Butter Dainties
Only five minutes cooking is required for these little peanut drops, which will glorify your summer lemonade.

1-3 cup milk
1 1/2 cups sugar
1 tsp. vanilla
4 tbsps. peanut butter
8 wafers, rolled fine.

Boil milk and sugar 5 minutes, or to soft ball stage (238 degrees F.). Remove from fire, add peanut butter and vanilla. Beat hard for 3 minutes; add wafers and drop by spoonfuls on waxed paper. Makes 30 small dainties.

Golden West Gelatine
Orange and lemon and your accompaniment is inside! Just prepare orange gelatine according to the directions on the package; when it begins to set, beat with a rotary beater until foamy, then fold in a box of coarsely crumbled lemon snaps. Unmold and serve with whipped cream.

OUR OWN PATTERNS, 15c
Every Pattern Guaranteed

HASSEN COMPANY
Ranger, Texas

Joseph Dry Goods Co.
Ranger's Foremost Department Store

10 Main St. Ranger

Serve this for children's parties if you want to hear loud cheers. Add fruit to it if you like.

1 1/2 cups cream
1 tbs. sugar
1 tsp. vanilla
1/4 cup coarsely grated bitter chocolate
30 chocolate sticks

Put 5 chocolate sticks upright in each of six sherbet glasses. Whip cream, add sugar, flavor, and fold in the grated chocolate. Fill sherbet glasses with mixture. Garnish with cherry, nutmeat, or a date.

Walnut Torte

If its torte your family craves make it this easy way. Your oven won't really heat up your kitchen because it's in use for only 10 minutes. Combine 4 beaten egg yolks with 1/2 cup sugar and beat; then add 1/2 pk. of rolled wheat flour and mix with a teaspoon baking powder. 4 stiffly beaten egg whites and 1 cup chopped walnut meats. Divide into 2 buttered layer cake tins and bake 10 minutes in moderate (375 degrees F.) oven. Put together with marshmallow whip.

Neapolitan Coupe

Golden pineapple and red cherries combine beautifully, both in color and taste, if they are fresh or canned, as you will discover in this recipe.

1 cup cup pineapple
1 cup cream
16 butter cookies, crumbled
1/2 cup chopped cherries

Divide the pineapple in 6 sherbet glasses. Whip cream and fold in cherries and cookies, using the packaged cookies for speed and ease, then divide this mixture over pineapple, chill and serve 6.

Convalescing at Home

Of Sister After Serious Illness
Mrs. Lila Byars, daughter of Colonel and Mrs. Brasher, Oddie street, is convalescing at the home of her sister, 4095 Stamford street in Dallas, after a serious illness of several weeks during which time she was confined in a Dallas hospital.

Ranger friends will be pleased to learn of her successful recovery.

Fellowship Luncheon At Methodist Church Monday

Monday will be observed as Fellowship luncheon day by members of the First Methodist church with every member invited to be present at 12:15 o'clock. A covered dish menu will be furnished by members who are privileged to invite one guest each.

Scholarship Student Wins Free Summer Piano Course

Young June Ann Grigollet, the talented daughter of Mr. and Mrs. E. A. Grigollet, has been announced by her piano instructor, Miss Wilda Drago of Eastland, as an honor student for the year of study recently brought to a delightful climax through the presentation of a violin and piano recital held at the Methodist church in Eastland. For this honorable accomplishment Miss Drago is offering as a well paid compliment a free course of study to extend throughout the remainder of the summer.

A number of Ranger people attended the Drago recital which was Eastland's highlight of social attractions on Thursday and Friday evening of last week. The Ranger artist won a high degree of admiration by those present for the beautiful program.

Dr. D. T. Wier Leaves For Galveston

Dr. D. T. Wier, son of Dr. and Mrs. A. K. Wier, Strawn highway, left Saturday afternoon for Galveston where he will take his state board examination in the evening. Dr. Wier expects to return to Ranger next Saturday and remain here until June 27 at which time he will go to St. Louis, where he will be associated with the City-County hospital.

Wide-Awake Circle Meeting Monday 3:30

The Wide-Awake circle of the Women's Missionary society of the First Baptist church will meet with Mrs. Hutchings at her home, Teal apartments, Monday afternoon at 3:30. Every member of the circle is asked to be present.

German minister of propaganda suggests extending 1936 Olympic game at Berlin to include "a competition of minds" expressing typical feelings of such country. "Toward the human problem of freedom, love, beauty and God."

We await with interest the contributions of Mussolini, Hitler, Kemal Pasha and Stalin on those subjects.

Gets B. S. Degree From C. I. A.

Miss Kenneth Wier, the charming young daughter of Dr. and Mrs. A. K. Wier, Strawn highway, who is enjoying a delightful visit at the home of her parents after receiving her Bachelor of Science degree from C. I. A., Denton, this spring. Miss Wier was graduated from Ranger High school with the class of 1929, and is well considered one of the city's most accomplished young ladies.

Personal

Mr. and Mrs. (High) Collins and baby of Luling are visiting Ranger friends and relatives during their June vacation. The Collins formerly lived here during which time Mr. Collins was associated with the Continental Supply company.

Mr. and Mrs. George Brown and children have returned to their home at Olney after a visit at the home of Mrs. A. C. Rice and mother, Mrs. Brown.

Miss Bedford Barkdale returned to her home today following a week's visit as the house guest of Miss Buria Jane Kohn.

Roland W. Gove, representative with Firestone Tire & Rubber company, Akron, O., visited in Ranger Friday evening.

Miss Meryl Stewart is home from a three weeks visit spent with friends in the Rio Grande Valley and Old Mexico.

C. G. McCary of Breckenridge is the week-end guest of Herbert Suits.

Miss Catherine Stewart has returned home after visiting three weeks in Santa Anna, as the guest of her sister, Mrs. C. V. Daniels.

Mrs. B. A. Tunnell and small daughter, Gwendolyn, returned home Friday afternoon from Cisco, where they visited several days at the home of Mrs. Tunnell's father, Mr. Daniels.

Ralph Gray returned to Dallas Saturday morning after a short business visit here. Mr. Gray is an associate of the Lone Star Gas company.

Miss Kate Kramer, secretary of the Texas-Louisiana Power company, is a visitor in Albany on the week-end, where she is the guest of her sister, Mrs. E. A. Engel and husband.

Glenn Browning has returned to his home at Baird, after a week's visit with friends and relatives in Ranger.

Mr. and Mrs. F. A. Overholser and children Evelyn, Harold and Jane are back in Ranger after a month's absence during which time they traveled in New Mexico, Oklahoma and Kansas. The Overholser will be at Mr. Overholser will again engage in his plumbing profession.

Miss Hallie Simmons is home after a pleasant 10 day's visit spent with relatives and friends in Paris, Texas.

E. A. Grigollet, has been announced by her piano instructor, Miss Wilda Drago of Eastland, as an honor student for the year of study recently brought to a delightful climax through the presentation of a violin and piano recital held at the Methodist church in Eastland. For this honorable accomplishment Miss Drago is offering as a well paid compliment a free course of study to extend throughout the remainder of the summer.

A number of Ranger people attended the Drago recital which was Eastland's highlight of social attractions on Thursday and Friday evening of last week. The Ranger artist won a high degree of admiration by those present for the beautiful program.

Dr. D. T. Wier Leaves For Galveston

Dr. D. T. Wier, son of Dr. and Mrs. A. K. Wier, Strawn highway, left Saturday afternoon for Galveston where he will take his state board examination in the evening. Dr. Wier expects to return to Ranger next Saturday and remain here until June 27 at which time he will go to St. Louis, where he will be associated with the City-County hospital.

Wide-Awake Circle Meeting Monday 3:30

The Wide-Awake circle of the Women's Missionary society of the First Baptist church will meet with Mrs. Hutchings at her home, Teal apartments, Monday afternoon at 3:30. Every member of the circle is asked to be present.

German minister of propaganda suggests extending 1936 Olympic game at Berlin to include "a competition of minds" expressing typical feelings of such country. "Toward the human problem of freedom, love, beauty and God."

We await with interest the contributions of Mussolini, Hitler, Kemal Pasha and Stalin on those subjects.

CHURCHES

FIRST CHRISTIAN CHURCH
H. B. Johnson, Pastor

Sunday school, 10 a. m., with Mr. Von Roeder superintendent. Golden Rule Bible class, taught by Mr. Holloway. This class is full of interest and it is a good place to have a chance to express yourself on the teachings of the Bible. Come and join it.

Preaching, by the pastor, 11 a. m. Subject, "Father's Day." Let all the fathers whose boys are in Sunday school or who will attend church, this morning, come and be in this service. Special music.

Communion just before morning sermon.

Both Endeavors will meet at 7:30 p. m. Mr. Keel will have charge of the seniors and Miss Naoma Matthews will be in charge of the juniors. The young folks will have charge of the evening hour of worship, 8:30 p. m. Mr. Keel will make the talk at this service. Be sure and hear Mr. Keel speak, as he is a very interesting speaker. You will enjoy these services.

Come and worship with us. Bring your children, as they are never in the way in this church.

CENTRAL BAPTIST CHURCH
Sunday school, 9:45 a. m.; T. J. Anderson, superintendent. Teachers and officers on time at 9:30.

Preaching by pastor, 11 a. m. Subject, "Our Dads."

B. T. S., 7:30 p. m., under direction of Frank Hicklin.

There will be no service tonight, the congregation being dismissed to attend the prohibition address by Judge Miller at the Methodist church on the revival at the First Baptist church.

Let everyone be in his or her place at the morning service and the B. T. S. meeting.

Monday, 4 p. m., W. M. S. meets in Royal Service program.

Tuesday, 7:30 p. m., W. A. meets with the sponsor, Miss V. Marie Stephens. This will be an industrial meeting.

Wednesday, 7:30 p. m., prayer meeting.

ST. RITA'S CHURCH
Masses today will be at 7 and 9 a. m., by Rev. M. Collins.

This is the second Sunday after Pentecost and also the Sunday within the Octave of Corpus Christi. The Gospel read is taken from Luke 14:16-24. This Gospel relates the parable of the man who made a great supper and invited many but few came. The great supper for Christians is the Lord's Supper or as it is often called Corpus Christi.

FIRST BAPTIST CHURCH
Walnut and Marston

Sunday school, 9:45 a. m., 11 a. m., revival services begin under the direction of the Kramer-Sinclair Evangelistic Crusade. Evangelist Kramer turned down several invitations to meetings in larger churches to come to Eastland. He is coming to present the claims of Christ upon the lives of every person here. We cannot afford to do less than our best. God is our refuge. There's a place for you.

FIRST METHODIST CHURCH
Gid J. Bryan, Pastor

We are to have two unusual services Sunday. In the morning at 11 a splendid pageant will be presented. This pageant, The Great Commission, has brought a great Christian message wherever presented.

At the evening hour, Judge Otis Miller, county judge of Jones county, who is a very interesting and attractive speaker will speak from the pulpit. He is an earnest and forceful speaker and is well informed upon his subject. It will be a treat to hear him. Be sure to bring friends to hear him.

Sunday school, 9:45 a. m., Walter Harwell, superintendent. The Great Commission, 11 a. m. Epworth League, 7:15 p. m. Judwig Otis Miller, 8:15 p. m. You will be blessed greatly if you come to church at both hours. Your blessing will be greater if you bring somebody with you.

During the week you can possibly do so, please attend the revival at our sister church, the First Baptist Church.

Seek the Lord while he may be found; call upon him while he is near.

FIRST PRESBYTERIAN CHURCH
L. B. Gray, Minister

Sunday school, 9:45 a. m.; S. B. Baker, superintendent. Morning worship, 11 a. m. Sermon theme, "Easing Our Burdens." Evening worship, 8:15 p. m. Sermon theme, "Peter the Impetuous." Christian Endeavor, 7:30 p. m.

Arcadia Monday

MARION DAVIES and ONSLOW STEVENS in "PEG O' MY HEAR"

Playing at the Arcadia Today Only

James Dunn and Sally Eilers are seen together again in the new Fox romance, "Hold Me Tight," in which they portray the type of roles for which they have become famous as a team.

Brooks Gilmore, president. A cool house and a warm welcome awaits you at the "Little White Church on the Hill." Even life "on the level" has its ups and downs. If you have burdens and do not know what to do with them, hear the sermon this morning. Perhaps you will be helped. Worship with us. We wish for our Baptist brethren a most gracious revival in their efforts this week and next, and we commend the evangelist and his helper to all our people.

High score favor in game, a cake tray, was awarded Mrs. Stansell, and high club favor, a hand-painted lemon dish to Mrs. Jarrell.

The cut-for-all, a lovely hand-painted picture, went to Mrs. Howard.

Mrs. Jarrell will be hostess to the club in two weeks.

Enjoyable Picnic Party
The Young People's class of the Church of Christ enjoyed a delightful outing, swim and picnic supper the last of the week, at Bass Lake, meeting at the church and going in a body, chaperoned by their teacher, Mrs. D. L. Childress, assisted by Mrs. S. E. Branner.

The supper of pork and beans, sandwiches, cakes, pickles, olives, and ice cream provided by the chaperones, was heartily enjoyed by Misses Joe Earl Utz, Joy Coplen, Ellen Francis, Eloise Liron, Loring Chambers, Carolyn Cox, Margaret Frye, Lurline Branner.

McGlavery and Wife Celebrate Anniversary
Mr. and Mrs. B. E. McGlavery celebrated their 19th wedding anniversary Friday by going to Gorman, accompanied by their three children, Robert, Dorothy and Mildred, where Mrs. McGlavery's father and mother, Dr. and Mrs. E. W. Kimble, had prepared a dinner for them. The only other guests present were Mrs. McGlavery's brother, John Kimble, and his wife. The dinner was also a celebration of Mrs. McGlavery's birthday.

Babe Bonnet Club
Mrs. Bernice Blowers the recent hostess of the Bluebonnet club entertained with a delightful bridge breakfast, in lieu of the usual afternoon session.

Small tables attractively laid in linen, and centered with flowers were occupied by guests not members, Mmes. E. R. O'Rourke, Weldon Stansell, Francis Jones, Ed T. Cox Jr., Robert Ferrell, W. E. Brasher, Joe Coffman, and club members, Mmes. Veon Howard, Sam Gamble, J. O. Earnest, J. N. Jarrell, and Roy L. Allen.

The menu of tomato cocktail.

Pretty Card Party
Mrs. O. A. Rhoads, 1415 South Soaman street, entertained with a charming bridge, this week end, when the color motif in pink and green, was brought out in the three table bridge appointments, and high score favor, gift wrappings.

Mrs. J. D. Blankenship was awarded a handsome box of bath powder in the game, and Mrs. Valson Jones, second high favor, a walnut whatnot.

The cut-for-all a deck of cards went to Mrs. D. S. Eubanks.

At the tea hour the hostess surfaced the tables with lovely linens and centered them with green bowls filled with rose verbenas, for the refreshments of peach parfait, rich wafers, and fruited punch.

Guests were Mmes. L. G. Rogers, S. D. Phillips, W. J. Peters, H. M. London, R. L. Perkins, Claud Maynard, C. T. Lucas, J. H. Stover, Morgan Myers, D. S. Eubanks, Valson Jones, and J. D. Blankenship.

LAUGHS! THROBS! SONGS! MARIAN DAVIES and ONSLOW STEVENS in "PEG O' MY HEAR"

EXPECT MORE from the new AIR-COOLED ELECTROLUX

You'll Get Lowest Operating Costs... Utter Silence... and MORE!

If you've looked at automatic refrigerators and declined to buy because you expected more, the refrigerator you want is here! The new Air-Cooled Electrolux gives you MORE! More continuing economy... more complete silence... more lasting satisfaction. By its important, scientific advance, the New Air-Cooled Electrolux is even simpler than before. It uses no water. It has no moving parts. It consumes less gas than before. Air... ordinary air... cools the refrigerator which is hermetically sealed in rigid steel and needs no renewal.

No wonder you can expect lower operating costs... greater efficiency! But Electrolux offers you even more. Extra food space, non-stop defrosting, porcelain interiors, plenty of ice cubes, patented split shelves—these are just a few of the improvements that make the New Air-Cooled Electrolux the finest refrigerator on the market today. Stop in today and see the new models!

The New Electrolux uses no water. A tiny gas flame does all the work. No moving parts, no noise, no vibration.
