Rangers Defeat Simmons Freshmen by 7 to 0

J. BRAY MAKES TOUCHDOWN ON 50-YARD RUN

Locals Helpless on Offense But Show Up Well on Defense.

Among the officers and directors of the Chase National Bank who served as directors of Albert H. Wiggins' family-owned corporation was Gates W. McGarrath (above), then chairman of the New York Federal Reserve and at the same time of the Bank for International Settlements. This was revealed at the Senate Banking and Currency Inquiry when Wiggins, retired head of the Chase National, admitted he sold the bank's stock "short" a month before the market crash.

The Ranger Junior College Texans Rappers defeated the Simmons university freshmen at Lillard field Saturday afternoon by a score of 7 to 0 without making a first down. The only score of the game came when John Bray intercepted a Simmons pass and raced 50 yards to cross the line for the only score of the game. Charley Black kicked the goal for the point after touchdown.

The Rangers started a second string line, which held well, but which was unable to stop the Abilene college's rush. Dick Murray and John Bray put on a two-man defense, aided by Cecil Townsend and "Squirt" Williams, when they went into the game, Murray and Bray getting most of the lackluster and putting up a defensive show that was the only highlight in the play of the Rangers, with the exception of Bray's long run for the touchdown.

The game was slow throughout, particularly in the first three quarters when both teams resorted to kicking and defensive play. Lack of punch in the Rangers backfield materialized and but few gains were made all afternoon.

The Simmons team made three first downs in the first quarter, two of them in succession in the first of the game, and Coach Ward began to throw his main defensive strength into the game.

Most of the ball carrying was done by Roy Brown, Delmer Brown and Daniel, none of whom could get away for more than short gains and being held for no gain on most of their attempts.

In the last quarter the Freshmen resorted to the air, completing several nice passes, while three were intercepted, one for the only score of the game and two by Delmer Brown, who made nice gains after snagging the ball.

The Rangers were in Simmons territory most of the last period, with the exception of once when a quick kick caught them napping, the ball going over Roy Brown to roll to the 10-yard line.

The major portion of the time the game was played between the two 30-yard lines, with neither team developing enough of an offense to seriously threaten to score.

With Weaver out of the backfield only a few passes were attempted by the Rangers, the game being played on straight football plays that failed to click. Landers got off some nice punts during the game, one of his kicks being downed on the Simmons one-yard line and several short kicks going out of bounds in the Simmons territory.

Daniel, who did part of the punting, was off form, his kicks getting only fair distance and not much height.

The Ranger starting lineup was: Black and Landers, ends; Wallace and Fulcher, tackles; Steed and Kendrick, guards; Droinhofer, center; R. Brown, D. Brown, Hodkins, and Faircloth, backs. Substitutes, Townsend, Murray, Mabry, Daniels, Taylor, Vaughn, Bray, Williams.

The navy department announced last night both the scouting fleet, normally stationed in the Atlantic, and the battle fleet, whose home is the Pacific would be moved to the east coast next spring.

Both fleets have been on the west coast since the outbreak of trouble in the far east two years ago.

ROOSEVELT REJECTS THE PRICE PLAN

WASHINGTON, Nov. 4.—President Roosevelt flatly rejected today the proposal of middle-western farm state governors for immediate inauguration of a price-fixing program.

The announcement of the white house stand was made in a prepared statement.

"The president and the department of agriculture recognize the very great difficulties which the farmers of the northwest face during the next several months. And will exert every effort to bring about an increase in prices without exerting the compulsion of the individual farmers which the government's plan apparently contemplated.

"The agriculture department," the statement added, "is in complete sympathy with the government's objectives. The government was invited to sit with the department or send representatives here any time they wish in order to explore every method to improve the situation in respect to each commodity."

The result of the conference has been a "100 per cent failure," Governor Langer of North Dakota said as the fate of the government's plan was sealed.

Belief State Jobs Could Be Bought Was Prevailing

AUSTIN, Nov. 4.—Widespread existence of a belief that state jobs can be bought had been thoroughly evident here today when the house of representatives committee recessed after listening to 18 witnesses.

On reassembling sometime next week, the committee is expected to bend its efforts to finding out how far that belief was justified.

Testimony so far has purported to show that pressure, salesmen traded on the gullible by reason of their political alignment with those who could deliver jobs.

Officers Thanked For Cooperation Halloween Night

Several of the merchants of Ranger Saturday, asked the Times to thank the Chief of Police and his officers and also all the other officers of the city for their splendid cooperation in seeing that no property was damaged during the Halloween festivities. The merchants also want to thank the boys and girls who sometimes in their pranks destroy valuable property, for their gentlemanly and lady-like behavior during the recent holidays.

Several of the merchants did complain however, that the scales placed in front of several of the stores were sometimes treated rather roughly by small boys and girls who jumped on and off and this way caused the scales to have to be repaired. The repairing of scales of this type is rather expensive, the merchants declare.

Body of Minor Gangster Found

CHICAGO, Nov. 4.—The body of Angelo Lonell, 35, believed to be another victim of a gang struggle for control of minor rackets in Cicero, was found today in the rumble seat of his car on the edge of a suburb. He had been shot twice in the head. His body was wrapped in a blanket.

Senate May Be Policeman Over The Stock Market

WASHINGTON, Nov. 4.—Senate Stock Market investigators who have been blasting some boom time reputations with revelations of go as you please banking practices suggested the senate be given authority to act as a permanent policeman over American financiers.

The objective would be protection for investors and bank depositors. The current investigation is scheduled to end next month.

THEFT RING CASE TO GO TO GRAND JURY

FORT WORTH, Nov. 4.—Investigation of an alleged North Texas theft ring will be carried before a Tarrant county grand jury Tuesday, Ranger Sergeant Osoba said today.

Osoba said he was working under orders to ignore rumors about political pressure to stop the inquiry and would proceed, "letting the chips fall where they may."

Rangers have collected evidence against a score of persons, he said. Charges of receiving and concealing stolen property have been brought against a former sporting goods store employee and a druggist. Evidence will be presented to the grand jury.

Osoba, at the same time, said his men had learned the triple slaying of three men last July resulted from the theft of \$150,000 in narcotics and not from robbery of loot of the \$72,000 mail robbery here in February, as believed by local officers.

88th Grand Jury Has Final Report

The 88th district court grand jury, empaneled for the September term of that court, in its final report to Judge B. W. Patterson states that it had been in session 8 days during which time it examined 116 witnesses and returned 49 indictments, 48 of which were felonies.

The report stated that by far the greater portion of the indictments returned were against transients, many of whom were more or less habitual criminals.

The jail was visited and the report shows that the prisoners were satisfied with the treatment they are receiving at the hands of County Jailor E. P. (Pack) Kilborn.

The grand jurors also expressed their appreciation for the co-operation extended them by the sheriff's department and the criminal district attorney's department.

Has Eastland Lost Out In Securing a Federal Building?

(From The Cisco Citizen)

Has Eastland's federal building been lost in the National Recovery program? This is indicated in a notice appearing in the Eastland Telegram in which the postoffice inspector is calling for proposals to lease to the government a building suitable for a postoffice location, the least to run two years from July, 1934, and option for three years' additional. From this application to lease a building is indicated that Eastland's federal building may be five years off, if at all. We were under the impression that the contract was ready to be let and that work would likely commence about the time the Cisco federal building was complete.

But it seems there has been some hitch. Instead of advertising for the site of the Eastland postoffice, the government is now calling for propositions to lease a building and continue as a tenant, where the government mail will be received and disbursed. We know it is a disappointment to the people of the county seat to learn that their dream of a federal building is still only a dream, but what caused this change, and when did it happen? Eastland, Ranger, Breckenridge and Cisco were all scheduled for a federal building, and the Citizen was under the impression that the government had definitely decided that there would be a building in each of these towns. True, Cisco had been designated some time previous to the batch of cities in which Eastland was included, but from what was sent out from Washington, and all the talk of giving employment to idle labor, every indication was that all would get federal buildings.

It seems that something has gone wrong. Eastland was so sure of her postoffice that competitive locations had been offered, and there was some trouble in getting Eastlanders to agree just where it would be built. Perhaps this had something to do with the determination not to build at this time.

But Cisco was fortunate. Her building is now complete, and Postmaster Craddock and his force will be moving in just as soon as the government accepts the building from the contractors, which is said will be about the first of November or soon thereafter. Perhaps had Cisco squabbled over the postoffice site we might have been in Eastland's position today—facing doing business in a leased building for the next five years or longer.

Hearing For Five In Bank Robbery Again Postponed

WACO, Nov. 4.—Arraignment of five men charged with robbery in connection with the \$1,600 burglary of the First National Bank at West, has been postponed until Thursday, when it is anticipated that Q. R. Miller, one of the defendants, will make another attempt to have his bond of \$5,000 reduced.

Loan Corporation Plans Progressing

The loan corporation now in the formation for Ranger is progressing nicely, according to John Hassen, chairman, who said Saturday that all the information had not been received, but the committee was going on with the work.

He explained that this corporation was organized for the business man who might need some assistance in a financial way and that the money borrowed would be at a small interest rate and could be arranged for a short time or long time.

Mr. Hassen also said a committee would canvass the town to see what business men would like to go into the corporations functions and that in all probability this would be done in the very near future. He also said that several of the business men were contemplating a trip to Dallas Monday to see what first hand information they might gather there.

Another Big Yam Grown Near Ranger

This appears to be a banner year for oversee sweet potatoes. Saturday afternoon J. W. Harmon brought a sweet potato to the Times office that measured 22 inches in diameter and weighed 7 pounds. It is almost the same size and shape of another potato brought in several days ago that had the same measurements and weight.

The potato was grown by W. J. Langford on a farm 10 miles north west of Ranger. The note left with the potato stated that it was raised in sandy soil, but no mention was made of irrigation or fertilization of the plot on which it was grown.

Judge to Face Congress Quiz

A bitter utility fight will bring Federal Judge Halstead L. Ritter, above, under congressional investigation, starting Nov. 20. Judge Ritter, Coolidge appointee, serves the Florida southern district. He aroused a storm when he named a consulting engineer for large utility interests as special master to value utility properties in the Miami rate war. Impachment proceedings may result from the probe.

FORD TO LAY OFF EMPLOYEES TO CUT HOURS

DETROIT, Mich., Nov. 4.—Employees of the Ford Motor company will be laid off one week each in rotation in order to bring their average working week over a three-month period to 35 hours, the Ford company announced today.

While Ford officials would not comment on the point, it was understood wages were to be paid only for the 35-hour week average. Previously the men had been working on a 40-hour week average.

Ford officials insisted their action was based on a desire to comply with the NRA code and some observers saw no new conflicts in it between Ford and the recovery administration.

Others interpreted the remark of a Ford official in connection with the announcement of the plan that the NRA embodies "prohibition against work" as at least emphasizing the disagreement between Ford and the recovery administration.

Two Questioned In Woman's Death

SAN ANTONIO, Nov. 4.—Two men were questioned by police today in connection with the slaying of Helen McGinnis, 30, whose battered body was found at the edge of the city last night in an area frequented by itinerants.

JERUSALEM, Nov. 4.—An exhaustive police investigation was made today for clues and the motives of slayers of Joan Winters, beautiful American dancer, believed to be from New York City and Mohamed Karamini, her Indian companion, whose bodies were found in a secluded olive grove at the foot of the Mount of Olives, near Gethsemane garden, where Judas betrayed Christ.

Apparently the girl and her companion were shot from ambush. An aged monk of the convent in the garden found the bodies at a spot usually unfrequented except at Easter time when devout pilgrims go to the holy grounds.

The druggists of Ranger met in office of the Retail Merchants' association Friday afternoon at 2 o'clock and voted to operate under section D of the master retail code, duly signed by the president.

Druggists of the city were requested 100 per cent at the 4 o'clock meeting.

Section D of the master retail code, which applies to drug stores, reads that:

"In place of any of schedules of hours and hours of labor set forth in Article V, Section 1, retailing establishments may elect to operate for business seven hours per week, but no more than 4 and 5, shall work more than 40 hours per week nor more than 10 hours per day nor more than 10 days in any two consecutive weeks."

Drug stores of the city are now operating under this code beginning this morning and each store must close the hours of the store in place of its place of business.

STRONG AND SUMMERS STAGE WRESTLING MATCH

Hatton W. Summers of Dallas has been a congressional representative 20 years. Sterling P. Strong of Dallas won an election as congressman-at-large in 1932.

Bailey withdrew in order to give Summers a free field. Strong is not going to withdraw from public life. He has announced his honorable intention, speaking of the future. He is going after Sumner's scalp and congressional seat.

Sterling P. Strong was born in a northwest Texas county. He is a lifelong pro. He was a pro when the anti-ruled the Texas roost. He filled a number of local offices. He battled for the white ribbon of the pros. Away back before the falling of the stars he was a candidate for state treasurer. He was defeated. Away back in the days of Thomas M. Campbell's reign he was the state superintendent of the Anti-Saloon league. In those days he was for precinct prohibition, county prohibition, state prohibition, nationwide prohibition and worldwide prohibition. All the time Strong was a courageous fighter.

He moved from the northwest habitat, where he was born, to the city of Dallas. He went into business life for many years.

In the battles of 1932 he threw his hat into the ring as a candidate at large. Cyclone Davis, for 50 years a top-notch in the pro and farm labor and later in the Klan fight on the side of the Klan, went down in defeat. Farmer George Terrell won the seat. Joseph Weldon Bailey led all the rest. He won a seat. Strong made a remarkable race. Pitted against him were two repealers.

Now Dallas is a congressional district. Bailey is out of the running. Summers, like Barkis, is ever willing to serve. For 50 years Dallas has been a bloody cockpit of political rows and political battles. Strong is a pro. Summers has ever been a pro. Dallas has a tremendous voting population. It is said there are more than 75,000 qualified voters in the city and county. Behind the scenes it is whispered that it will be a three-cornered fight for the congressional seat.

There is to be a bitter contest for the congressional seat which goes to the Alamo City. Another will be staged in the county of Harris, in the city named for Sam Houston on the banks of Buffalo bayou where the deep water ships of the seven seas dock at the piers and unload and load cargoes of precious freight for the markets of the world. There may be many new faces in the Texas congressional delegation of 21 after the primary contests have been settled in the midsummer months of the coming year.

Just now the real battle is onlooking to national recovery, the restoration of the purchasing power of the tillers of the soil and the wage workers in city and country. It is not a war fought by the sword, it is a war waged by the men and women in the households of the commonwealth who are making the sacrifices necessary and ever engaged in a heroic struggle to restore peace and happiness and a fair share of the earth to the human atoms who dot the surface of the earth in this erstwhile Southwestern garden of the Lord.

If you intend living your life out in the present generation, replan your affairs on the new deal and get busy.

THERE'S ONE! SEE HIM HOPPIN' ALONG THAT FENCE?

NOW, SEE! I'M NOT WASTING ANY TIME HUNTING FOR TREES

BLAM!

NOW, IF I'D NEVER FELT A SHOTGUN, AND SEEN YOU, I WOULDN'T HAVE TO FEEL ONE TO SEE WHAT IT FEELS LIKE. BUT, NOW YOU'VE HAD TH' FEEL! YOU CAN SEE!

YOU SHUT RIGHT UP, NOW! NOT ANOTHER WORD!

1 teaspoon salt.
1 tablespoon shortening.
Ice cold milk or water.

Sift flour and salt together, work in the shortening thoroughly and mix to a stiff dough with the water or milk. Then beat until it blisters, folding the dough over and over on itself and beating with a rolling pin or wooden mallet.

Roll half an inch thick, cut into rounds, prick the surface with a fork or cutter and bake 25 or 30 minutes in a moderate oven.

Black Walnut Bread
2 cups graham flour.
2 cups white flour.
1 cup sugar.
4 tablespoons baking powder.
1 teaspoon salt.
2 eggs.
2 cups milk.
1 cup nuts.
1 cup chopped dates.

Mix ingredients, pour into two loaf pans lined with wax paper. Let stand 15 minutes and bake in slow oven.

Sweets, whether warm or cool weather, are demanded in some shape, form or fashion each day by every family. Let us suggest "Rich Rice Pudding." Rice, in any form is healthy and because so few housewives take time to prepare it in appetizing dishes is rarely eaten.

You can prove the pudding by

putting these recipes to
