Suing Richard J. Reynolds, tobacco heir, for \$123,590 for breach of contract is Johanna Rischke, (above), dancer, who claims that she gave up a \$400-a-week job in Prague on strength of promises by Reynolds and Ned Wayburn, a dancing teacher, of a better job in America. The job, she says, did not materialize.

MUSIC CLUB TEA IN HONOR OF VISITORS

By ELVIE H. JACKSON
The Music Study Club of Eastland, organized in February, 1929, has the honor of entertaining the Sixth District Texas Federation Music Clubs, convening in this city today and Wednesday.
The club has furnished material on both district and state boards and is welcoming its own in entertaining the Sixth district, which was organized by Mrs. J. M. Perkins, assisted by the late Mrs. Charles G. Norton, in Eastland, a few years ago.
Presidents have been Mrs. Perkins of Eastland; Mrs. J. D. Turck, then of Abilene, now of Amarillo; Mrs. S. D. Hittson of Cisco, and the present incumbent, Mrs. Robert Wylie of Abilene.
In the tea given at 4 o'clock this afternoon at community clubhouses, there was gathered for the first time in federation history, of music, and women's club federations of the state, officers from both districts. (Continued on page 3)

Urges Leniency In Kidnap Plot

Target of a thwarted kidnaping plot, Mrs. R. J. Reynolds, above, wife of the tobacco heir, asks a light penalty for the man who threatened her. John Lanier, jobless, was captured when he picked up a dummy package in a Winston-Salem, N. C., street, after demanding \$10,000 from Reynolds to prevent abduction of his wife. Lanier confessed.

BRITAIN WILL MAKE 'TOKEN' DEBT PAYMENT

LONDON, Nov. 7.—Great Britain will make a "token payment" of \$7,500,000 on Dec. 15 on her installment of the war debts to the United States. A announcement of the payment was made today in the house of commons.
WASHINGTON, Nov. 7.—Impossibility of reaching a war debt settlement with England in view of world conditions resulted in the decision to accept a "token payment" of \$7,500,000 on its debt, the white house announced today.

VOTE HEAVY ON REPEAL IN SIX ELECTIONS

Unfavorable weather conditions today failed to check a heavy outpouring of voters in six states where ballots were cast on the repeal amendment, designed to end America's 13-year experiment in prohibition.
From Pennsylvania, in the east, through the southern states of North and South Carolina, westward through Ohio and out to Utah, reports showed an early rush to the polls and, in most instances, expectations by "wet organizations" that the heavy vote indicated victory for repeal.
Ohio reported indications of a 2,000,000 vote, a record in a non-presidential year.
Kentucky, where the vote will not be counted under the state law until tomorrow, also reported an exceptionally heavy, early vote.

STILL AT IT

One flower of France that refuses to fade out of the tennis picture is Mlle. Suzanne Lenglen who, a decade ago, was heating all the world's women players. The French ace, now professional racketeer, is shown togged out in the latest fashions as she opened the British professional tennis championships at Ealing, London.

SECOND BRIDGE IS BURNED IN THE MID-WEST

Trucks Are Halted And Contents Dumped By Farmer-Pickets.
DES MOINES, Iowa, Nov. 7.—Embattled farmers drew picket lines tighter about market centers today in an effort to enforce immediate acquiescence for the demands for increased prices for farm products.
In many sections farmers ruled the highways with violence. Two men have been killed and more than 30 injured since the strike was initiated two weeks ago. Thousands of dollars worth of property have been destroyed.
The second railroad bridge burned in the past 24 hours was reported on the main line of the Illinois Central near Meriden, Iowa, today. Origin of the fire which destroyed the 60-foot bridge was not known.
All along the front farm forces figuratively dug in for a long winter fight. Fiery leaders marshaled a force estimated from 50,000 to 250,000 pickets in four states.
Refusal of President Roosevelt to demands of five mid-western governors for the pegging of farm prices, inflation and a moratorium on farm foreclosures, added fuel to smoldering discontent.
The governor of Iowa defied to order troops into the strike area about Sioux City.
In Iowa, Minnesota and Nebraska trucks were halted and the contents dumped.
In this maelstrom rode Gen. Hugh Johnson, chief of the president's recovery program today. At Minneapolis he sought to win over farmers to a fair trial of the government recovery program.

Former County Assessor Makes Money on Flowers

EASTLAND, Texas, Nov. 7.—P. L. Parker, former Eastland county tax assessor, has a flower shop at the corner of North Green and West Patterson streets. A good portion of the flowers sold in this shop are grown by Mr. Parker in the back yard of his Eastland home.
When Mr. Parker first opened his flower shop he, like all other florists of this section, ordered his flowers from the larger cities. Mr. Parker didn't like the idea and immediately set to work converting his spacious back yard into a flower garden; he had truck load after truck load of fertilizer hauled in until the soil was made as rich as he desired it; then he arranged to irrigate the plot. This is done by turning the city water on and allowing it to run until the ground is thoroughly soaked.
Planting of the various varieties of flowers, shrubs and trees, including pecan trees, was then begun and has been kept up until today this small plot of ground is producing enough to largely supply the flower shop in addition to growing many times the amount of vegetables the family needs for their own use.
One thing Mr. Parker has accomplished of which he is justly proud is the producing on his plot of ground of some very beautiful large chrysanthemums that compare favorably with those shipped in from Colorado and California. Putting aside a small plot of ground which he had prepared for growing chrysanthemums by fertilizing it and building a canvas house over and around it, Mr. Parker sent to Colorado and obtained seed or cuttings for his chrysanthemums and put them out. This was in May and now he has a house full of as pretty flowers as one will see anywhere, which proves that one can grow most anything in this section that can be grown anywhere if they will only give it the time, thought and attention.
Mr. Parker says his experience with flowers and vegetables in his small plot of ground in the heart of the city, has convinced him that any medium sized family can make a living and more on as little as three acres of ground if they handle it properly and if water can be obtained at a reasonable price.
"The fact that the land you are on is poor doesn't spell failure if you want to succeed," Mr. Parker says. "You just have to work a little harder and perhaps spend a little more money, but the land can be made as fertile as you desire it," he said.

Blind Man Stabs Man In Shoulder In Fight Monday

John Brumbelow is in bed today suffering from stab wounds in the shoulder and W. M. Caudle is out on \$100 bond as the result of a fight which occurred in the Lackland addition in East Ranger Monday night.
According to reports received by Justice of the Peace J. N. McFatter from Constable John Branes, the fight was the result of a quarrel over some chickens alleged to have been killed by a dog belonging to Brumbelow.
Caudle, who is blind, went to the Brumbelow home, according to the reports and an argument ensued over the killing of some chickens. In the fight that resulted Caudle drew a knife and cut Brumbelow about the left shoulder. He was reported today to be suffering from his wounds but was not thought to be in any danger.
Caudle appeared this morning before the Justice of the peace and was charged with aggravated assault and was bound over to appear before the next term of the county court, which convenes on Monday, Nov. 13. No charges have been filed, as yet, against Brumbelow, pending his recovery.

She testified the attacks occurred Oct. 22, following a dance which had been given after the Centenary-University of Texas football game here. Murrel was referee at the game.
Mrs. Ralls denied she was drunk at the time of the alleged attack. Murrel, held in jail since Oct. 27, pleaded not guilty to the assault charge.

State Rests In Oscar Previt Murder Trial

Having completed the jury panel at a night session of the 91st district court last night, the state this morning began putting on testimony in the Oscar Previt murder case which was called for trial Monday morning. Before noon the state had heard two or three witnesses when Judge Geo. L. Davenport adjourned court at 11:50 until 1:00 p. m.

MOB VIOLENCE BREAKS OUT IN N. Y. ELECTION

NEW YORK, Nov. 7.—Mob violence, sluggings, wholesale arrests and general disorder in New York's east side election district today brought the threat of invoking Governor Lehman's intervention in the ballot disturbance and the possibility of mobilizing the national guard.
The bitterest election in 20 years was climaxed at noon by the arrest of William Chadbourne, fusion campaign manager, on a charge of inciting to riot; an attempt by P. L. Laguardia, fusion candidate for mayor to whip 20 Tammany stalwarts single-handed, and the charge that "repeaters" were operating in droves.

A BIBLE THOUGHT FOR TODAY

SALVATION: If thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved.—Romans 10: 9.

SECY. ICKES AND THE BIG STICK

Harold L. Ickes, secretary of the interior and administrator of the NRA oil code, appeared before the American Petroleum institute convention in Chicago and promised the petroleum men in America that "cheating and chiseling would be stopped." He faced an audience of a thousand leaders of the industry. He declared most emphatically "the administration means business." He let it be known that the big stick in the codes bag is government licensing. He gave the warning that unless production is restricted to the figures permitted by his last order intended to exercise the drastic powers given him by the code. In an additional warning he placed these remarks in the record: "If necessary I would invoke these extraordinary powers on Nov. 1 next. Fair notice has been given that when it puts the limit on the crude oil to be produced the administration means business."
 Wirt Franklin of Oklahoma and Texas, chairman of the code planning and coordinating committee addressed the A. P. I. convention. Speaking of the code, he said that under the plan "there was just one law for the great and small." He predicted that code government would end sharp practices and bring about renewed prosperity. In the grain belt it is said there are wheat bootleggers setting at defiance the processing tax on wheat. Secretary Ickes has convinced himself that there are cheaters and chiselers who are continuing the hot oil game in the producing states of America. Like the Lord's poor they appear to be in evidence all the time and not some of the time.

SUBSTANTIAL JUSTICE FOR AN OHIO NEGRO

Ohio is a very progressive state. Joseph Weaver is a negro. Cleveland is his home. He spent 22 months in the Ohio penitentiary "death row." Five times he faced electrocution. Five gubernatorial reprieves were granted. He had been convicted of the murder of a night watchman. Finally, the state supreme court of Ohio granted Weaver a new trial. He was given his liberty which was the complete vindication by a direct verdict of "not guilty." Now he has been awarded compensation of \$12,000 by the county commissioners of Cuyahoga. This award was made possible through legislation enacted by the Ohio legislature at its spring session. Weaver had the compensation coming. Four governors believed him to be an innocent man. The highest court of Ohio gave him a new trial, and the judge of the trial court ordered a jury verdict of acquittal.
 It must be hell to be locked in a death cell 22 months. It must be hell for an innocent man, regardless of color, to face five electrocutions in the electric chair, and in the very last analysis of a remarkable case to be given his life and liberty.

HIGHWAY DIVISION ENGINEERS ARE REMINDED

Gov. Miriam A. Ferguson has approved a bill authorizing division engineers of the highway department to receive bids on construction of lateral roads where the amount involved is less than \$25,000 and requiring bonds for "protection of federal highway relief funds." All bids must be received and tabulated by the state highway commission under the present laws. 'Tis well. Bonds should be required for protection of federal highway relief funds. In other words the taxpayers of America who pay the freight should be given ample protection. They are expected to do the worrying as well as the paying.

The home city should be known as a good city in which to live—and not a good city to leave.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

America's greatest asset is her citizens. Any actions which will get them productively busy and a market for their products will place the nation on the road to a bright future, but this cannot be done without assuring them a reasonable return for their labors. Neither coercion nor hot air no untried schemes is the solution which can lie only in a profitable exchange of commodities.

The gangrene which at present has made its appearance is due to the arrest of this necessary circulation, and a big part of the cause is due to the heavy taxation which is placing prices beyond the capacity of the majority of purchasers to pay.

To realize this item on the program, Congress will have to gauge its taxes in accordance with the requirements of its people. If this is done the fear of an economic breakdown will not only be averted, but it will bring industry to a more advanced stage and better business will be achieved of its own volition.

OUT OUR WAY

The Newfangles (Mom 'n' Pop)

Jorgotten Sweetheart

Mother, I don't want pupils who are just curious to see what I look like! In a month no one will even remember that I've been away. This attitude was beyond Mrs. Waring's comprehension. Things were hard enough in this world without deliberately setting out to make them harder.
 But if Joan persisted in this course, Mrs. Waring found vicious thrills in reading Pat's first letter. It was filled with extravagant phrases. Pat sent a glowing account of the sea voyage, beginning with the first night on the ship when the captain had invited Pat and Barney to sit at his table.
 There were interesting people on the boat—a fabulously rich Indian prince; a gray-haired, distinguished foreign consul; a charming woman whose husband had developed the resources of some of the more remote islands; and a movie star who thought she was traveling incognito.
 Always and inevitably Pat's lavish adjectives led up to Barney, who was simply perfect. Pat wrote that she loved the ship, the deck sports at which they spent their mornings, the lazy afternoons on the cool, wind-swept decks, and the glamorous nights when she wore prett, frocks and aboard envied her as they saw her dancing with Barney. The enthusiasm that was so characteristic of Pat colored every word of the incoherent but vivid account.
 ONE morning Joan and Benny finished a game of tennis at Beauregard court and started home. "Let's stop for something cool to drink," said Benny, the victor. He was highly gratified over the outcome of the game because Joan had put up a good fight.
 She agreed, always eager to fall in with his plans. Benny was himself these days. It the long months in New York had brought nothing but pain to Joan they had at least brought happiness to Pat and health to Benny.
 Waiting for their drinks to be served, they watched automobiles arriving and pulling away from the curb. Joan recognize several of the young people.
 A green roadster pulled into position and suddenly Joan found herself staring into the eyes of Carol Sheridan. Carol's gaze met Joan's coldly. Then suddenly she smiled. "How are you, Joan?" she asked.
 "Very well, thank you."
 "Have you heard the news about Barbara? Isn't it marvelous?"
 Joan waited. She could not have spoken just then if her life depended on it. The other girl, missing nothing of Joan's agitation, went on easily. "Perhaps you didn't know, but Bob Weston is giving a sabbath party. They're in Havana now. Barbara's in the crowd, naturally, and she wrote the most thrilling time! Isn't Barbara the luckiest girl you ever heard of?"
 "Yes," said Joan slowly. "She is."
 Carol turned to her companion then. Joan drank the limeade quickly, scarce, conscious of what she was doing.
 No Barbara and Bob were

Austin, Nov. 7.—Letters were
sent to state banks and trust
companies today by the recently
organized \$25,000,000 bank deposit
insurance company here, notifying
them meetings will be held over
the state to explain the working of
the deposit guaranty act.

Fort Worth, Nov. 7.—Rex
Clark, hard-hitting line-plunger of
the T. C. U. football team showed
the Baylor Bears a pair of elusive
hips although the Frogs did come
home with the little end of the
score.

Clarks watchful eye picked
several holes in the Baylor line at
times when the Frogs were showing
bursts of brilliancy and many
times the Eastland lad brought the
5000 fans gasping to their feet,
as he heaved in aid out of the
Baylor secondary defense.

Death Cuts Short

the city pension board had granted

LONDON, Nov. 7.—Great Brit-
ain served notice today that she
will abandon the present tariff
truce at once.

Brothers Good Hunters

BEND, Ore.—Four brothers, ages
ranging from 62 to 82, almost
broke their record of bagging a
deer a year ago. Three of the "In-
man boys of Eugene"—Frank,
Wesley, Ben and Charles—shot
their buck a few days after the
season opened, as they had done
in 1932. The fourth, however,
failed to bring down his game, so
stayed in the Ochocho Forest until
he did. The men, whose ages total
289 years, expect to duplicate
their feat in 1934.

Find Sunken Ship's Anchor

HANNIBAL, Mo.—An anchor,
found by fishermen in the Mis-
sissippi river here recently, is be-
lieved to belong to the sunken river
steamer Flying Eagle, which went
down near here in 1903 with three
men aboard.

Seventy Market Houses

HARRISBURG, Pa.—Pensyl-
vania has 70 market houses, scat-
tered through all sections of the
state, where farmers bring their
products at regular intervals to be
offered for sale.

Twins Claim Record

ST. LOUIS.—Twins born to Mr.
and Mrs. Barry Webb in the City
hospital here are believed to be the
heaviest ever born in the insti-
tution. One of the babies weighed
nine pounds and three ounces and
the other nine pounds and eight
ounces.

Blanton Says Taxpayers Tired of Paying For High Government Over-Head and Demanding Reductions

Congressman Thomas L. Blanton of the 17th Texas district known throughout the nation for his fight in congress in behalf of the common people and his efforts to save extravagant waste, is opposing the restoration of government salaries to the figures existing before the present "economy cuts" were put into effect.

Following is a letter which Mr. Blanton sent to Hon. E. Claude Babcock, national president, American Federation of Government Employees, at Washington, on the subject:

I have your letter, and will gladly answer your questions. You stated in the Washington Star that 25 congressmen have pledged their vote to restore cuts in salaries of government employees, I being the only one to oppose your plan.

Why Children Need a Liquid Laxative

The temporary relief children get from some synthetic, habit-forming cathartic may ease bowel strain, and even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

days off, all of the many holidays off including half of Saturdays, 30 days vacation on full pay, 30 days sick leave on full pay, comfortable working environments, many drawing large travel allowances, and retired on pay after 30 years.

Government employees constitute the favored few. They are entitled to the same consideration shown other citizens, no more, no less. They have no political campaigns, pay out nothing to hold their jobs, and are not beset continuously with demands for contributions to this and that which congressmen must endure.

It costs the government \$13,000 to put each cadet through either West Point or Annapolis. In the Record of April 8, 1932, I showed that able-bodied generals and admirals are retiring as young as 45, and commercializing their government training by drawing huge salaries from corporations, while also drawing retired pay for life from the government. I mentioned General James G. Harbord, on retired pay, and for years drawing a salary of \$50,000 per year from the Radio Corporation of America.

These items have been purchased lower than the present market prices and those who are in need of anything in this line can probably make savings by buying now.

A few years ago Paramount produced an outstanding musical picture titled "Too Much Harmony." Since that time the screen has witnessed many more musicals, but none has excelled "Too Much Harmony," a sort of sequel to that first film, which yesterday was screened at the Arcadia theatre.

Humor in profusion is provided by Jack Oakie, Skeets Gallagher, Harry Green, Neil Sparks, Sammy Cohen, Lilyan Tashman, Kitty Kelly and Grace Bradley. Given clever lines and situations, these veterans of Broadway are hilarious in their respective roles.

You had better let well enough alone. The people are waking up. They want pledges made to them and not to selfish groups. They want their new deal continued. They are backing the president 100 per cent in reducing expenditures.

Very sincerely,
THOMAS L. BLANTON.

Hassen Company's Ready-to-Wear Is Offered at Bargain

Hassen Company is today calling attention to a large stock of ladies ready to wear, which they are offering to the buying public at real prices that probably cannot be duplicated once the present supply is exhausted.

These items have been purchased lower than the present market prices and those who are in need of anything in this line can probably make savings by buying now.

Too Much Harmony Musical Sensation Wins Critical Okay

A few years ago Paramount produced an outstanding musical picture titled "Too Much Harmony." Since that time the screen has witnessed many more musicals, but none has excelled "Too Much Harmony," a sort of sequel to that first film, which yesterday was screened at the Arcadia theatre.

Like most of Hollywood's musical comedies it is a stage picture, but the action largely takes place between the closing curtain of one season, and the opening performance of the next. This does not, however, stop Crosby from singing his best, or the chorus from dancing.

Judith Allen has the leading feminine role opposite Crosby. Miss Allen had played but one previous role before being assigned the part in "Too Much Harmony" but proved that faith in her had not been misplaced by her thoroughly effective performance.

Junior New Era Club Studies Negro Personality

Under the leadership of Misses Rose McEver, Ruth Shirley, and Emily Dreinhof, the Junior New Era club, local literary organization, went into a study of the negro personality last evening at the Gholson hotel, Colonial room.

The subject for the evening was "Exit Prejudice, Enter Negro Personality."

Miss Dorothy Henry, in negro costume, danced in keeping with the program, preceding the discussion of negro recognition in literature and dramatics by Miss McEver.

The latter reviewed the works of Whittier, Longfellow, Lowell, and Holmes, comparing them with present day achievements under Eugene O'Neill, Lawrence Tibbet, Julia Peterkin and Hall Johnson. She emphasized the breaking away from prejudice.

Miss Shirley gave a brief review and criticism of "The Green Pastures," Pulitzer prize winner for 1930, and which has been widely produced on the stage since recognition. According to the speaker, the play was accepted in the south with reverence, more as a humorous bit of work in the north. It is a revelation of racial relationships through Biblical stories.

Miss Dreinhof spoke briefly on the life and works of Roland Hayes, foremost negro singer of present day, who sang before King George and was soloist with the Cologne orchestra in Paris. He came to America in 1924, and has since been ranked with Caruso.

Climaxing the program, Miss Maxine Henderson sang, playing her own accompaniment, "Going Home."

William Cooper was born on Nov. 26, and he was remembered with his poem "On the Loss of the Royal George," read by Fern Allen Meroney. A sketch acted by three girls, naming Priscilla Miller, Yvonne Kribbs and Nawana Stafford, was given from Louisa Mae Alcott's "Little Women."

Beginning Wednesday morning, at 9:00 o'clock, our doors will be thrown open to the public with invitation to come in and join the happy thousands who know Penney's values and Penney's merchandise.
