### RECOGNITION MAY PROMOTE WORLD PEACE

WASHINGTON, Nov. 18.—President Roosevelt's policy of the non-recognition of the Soviet government in the recognition of the Soviet government was expected to stimulate a vast flow of trade between America and the Soviet Union.

Recent studies made for the state department estimate the Soviet will place here within the year orders for goods worth \$250,000,000.

Exchange of ambassadors between Washington and Moscow as well as the establishment of consulates by each nation in the leading cities of the other is expected shortly.

Ever since the president entered the white house last March he has been preparing for the momentous step.

For months the Reconstruction Finance corporation, the Agricultural Adjustment administration and other government organizations have been studying means of financing American exports to the Soviet.

The state department, meanwhile, has conducted a thorough inquiry into the diplomatic, political and legal aspects of recognition. These studies, placed before the president recently, prompted him to end the long era of Soviet-American isolation.

Major diplomatic reverberations are expected from this new cohesion between the United States and the Soviet, particularly in the Far East. Observers here believe it will retard Japanese expansion on the Asiatic mainland and in the islands of the Pacific, inasmuch as the Soviet and America are now better prepared to co-operate in safeguarding their Far Eastern interests.

Administration officials believe, however, that the president's recognition policy was prompted primarily by a desire to build up Soviet-American trade, and the diplomatic consequences are incidental.

Recognition of the Soviet government became virtually certain June 4 when the Reconstruction Finance corporation authorized a loan of about \$4,000,000 to Russia for the purchase of American cotton.

The loan was approved by the Secretary of Treasury Woodin and President Roosevelt. Issuance of such a loan was regarded as tacit recognition of Soviet stability and ability to pay. Further loans may be made for the purchase by the Soviet Union of American copper and wheat.

The republican administration stoutly opposed recognition of the Soviet because she defaulted on the debts of the Kerensky and czarist governments.

Senator George Norris of Nebraska was the only prominent republican to advocate resumption of diplomatic relations.

"Since the Soviet government was organized, she has never defaulted upon the payment of a single obligation," he said. "She has met every debt contracted. Our allies owe us billions."

When the czar's government fell in 1917 a provisional government was established in Russia under Alexander Kerensky. The latter was recognized by the United States, holding sway until the fall of 1917.

On Nov. 7, 1917, the Bolsheviks established a "dictatorship of the proletariat." They seized banks and factories and nationalized the land. The American government maintained an attitude of "watchful waiting." Kerensky's ambassador remained in Washington until 1922 even though his government had been virtually non-existent for five years.

### Flays Probers In Vote Scandal

"The only reason you are here now is to close the record which Sen. Scherer Howell gave his life to build and which that rat from Louisiana helped kill!" Eyes blazing with anger, Chief Investigator John G. Holland is pictured as he unleashed a tirade against Senators Logan and Thomas, members of the senate committee investigating Louisiana election scandals, at New Orleans, Huey Long, at a nearby table, was the third target of Holland's denunciation.

### ARBITRATION ON RAIL STRIKE SEEMS DIM

HOUSTON, Nov. 18.—Prospects for arbitration of the issues over which 3,000 Southern Pacific employees of the "Big Four" transportation brotherhood are taking a strike vote appeared dim today.

Officials of the brotherhoods said further steps toward arbitration were "up to the Southern Pacific." The railroad issued a statement which failed to issue arbitration.

J. G. Torian, assistant general manager of the road, declined to elaborate on the statement passed out to newspapermen. Principally it consisted of a description of some of the issues involved.

The strike vote was being taken among employees belonging to the four organizations. The vote will be counted at a meeting next week, probably Wednesday, and the strike, if it is voted, will be called after formal notice has been served on the railroad.

### J. W. Bailey, Jr. To Be Candidate Against Connally

DALLAS, Nov. 18.—Joseph Weiden Bailey, Jr., tonight announced himself a candidate in 1934 for the United States Senate, where his father gained recognition as a lawmaker and political leader.

In a brief statement, the young Texas congressman said he would seek office against Senator Tom Connally.

"I disagree with the junior senator from Texas on many governmental questions," the statement said. "This being true I have decided to accept the responsibility placed on me by my friends and announce I will be a candidate in 1934."

"At the proper time I will file my name and state my position on all such public questions as effect the people of Texas and will, of course, conduct an active campaign next summer."

### Moratorium Law Will Be Tested

### Texas-Louisiana Employees Have a Safety Meeting

Employees of the Texas-Louisiana Power company held a safety meeting in the American Legion hall Friday night, at which about 50 managers of local offices and their employees were present.

E. H. Peacock of the Lone Star Gasoline company made a talk to the assembly on the subject of "Gas Hazards."

Buster Walsh, of the Strawn office of the company, gave an interesting talk on the subject, "Safe Use of Electrical Appliances."

Mrs. Thompson and Mrs. Brawley of Breckenridge gave interesting demonstrations in first aid, which were interesting and very educational.

L. H. Flewellen of Ranger addressed the gathering on the subject of "Co-Operation," which proved to be highly interesting.

Following the re-marrying ceremony O. P. McCary, district manager, presented them with a beautiful table lamp as a gift from the Texas-Louisiana Power employees of this district.

Local managers present were E. W. Beauchamp of Strawn, J. B. Sinclair of Olney, Lee Dockery of Graham, Olin Calvin of Ranger, and D. W. Robinson, manager of the gas and water department at Fort Worth.

### RANGERS LOSE TO N. T. A. C. IN AN UPSET GAME

The Ranger Junior College Texas Rangers lost their first conference game Friday afternoon at Arlington when they were defeated by the North Texas Aggies at Arlington by a score of 7 to 0.

The Rangers threatened early in the game when a pass to Vaughn placed the ball on the 35-yard line and three first downs in succession carried the ball to the one-yard line on plays by Townsend, R. Brown and Weaver, where it went over to the Aggies on downs.

The Aggies scored on a pass from Norton to Hunter, who raced the last 10 yards to score and Norton converted for the extra point, which ended the scoring for the day.

The Aggies made another bid for a score late in the fourth quarter when they penetrated to the Ranger 15-yard line, where their advance was stopped.

The most exciting play of the game was a 40-yard broken field run by O'Connor, who took Daniel's punt on his own 35-yard line, and reversed the field twice to advance the ball.

Sensational punting by Landers, Ranger end, and O'Connor, Aggie back, was a feature of the game, each kicker setting off several nice ones for 50 yards.

The locals registered six first downs against five for the visitors. Bray, Ranger center, was the outstanding lineman of the day. R. Brown, Landers, and Williams were other Ranger stars. For the locals O'Connor, Wolfe and Hunter, backs, and Caswell, Smith, Phythian, linemen, stood out.

The starting line-ups: Ranger—Vaughn and Black, ends; Murray and Fulcher, tackles; Wallace and Stood, guards; Bray, center; R. Brown, quarter; Williams (c) and Daniels, halves; Townsend, full.

Junior Aggies—McCarty and Miller, ends; Caswell and Hull, tackles; Blaine and Lyne, guards; Phythian, center; Boyer, quarter; O'Connor, (co-capt) and Dodson, halves; Wolfe, full.

ANT CUT HIS LIGHT BILL

### RECOGNITION A CHANGE IN FORMER POLICY

SAVANNAH, Ga., Nov. 18.—Desire for world peace was the most compelling motive in the negotiations that led to the recognition of the Soviet Union, President Roosevelt declared today.

Addressing an audience of 49,000 in commemoration of Georgia's 200th birthday, the nation's chief executive pointed to the Soviet isolation as an act of the spirit of Thomas Jefferson.

A mid the cheers of the vast crowd that filled every seat in the stadium, Roosevelt also digressed long enough to chide those people in disagreement with the nation's monetary policy, adding as he had done before "that we cannot cure in the short space of one year the chronic illness that besets for a dozen years, nor restore the social and economic order with equal and simultaneous success in every part of the nation and every walk of life."

"It is the pioneering spirit and understanding perspective of the peoples of the United States which already is making itself felt among other nations of the world," the president said.

"The simple translation of the peaceful and neighborly purposes of the United States had already given to our sister American republic a greater faith in the professions of friendship since a century ago when James Monroe encouraged them in their struggles."

Washington, Nov. 18.—A rapid growth of American trade and new alignments in world politics appeared today as the likely first fruits of renewed diplomatic relations between Washington and Moscow.

Happy following his greatest diplomatic victory, Commisar Maxim Litvinoff sought today to complete arrangements for trade. He was expected to confer with officials of the RFC and other government economic agencies.

### Connally Ired At Many 'Insults'

NEW ORLEANS, Nov. 18.—The senate committee investigating the 1932 primary election decided to remain here two more weeks and to oloit each side one week to testify.

The committee resumed its investigations today.

"I've stood all the insults from you I'm going to stand," United States Senator Tom Connally of Texas, committee chairman, heatedly remarked to chief senate investigator John Holland, who questioned Connally's sincerity at a conference last night.

### Police Seek Two Attackers of Girl

FORT WORTH, Nov. 18.—Police today sought two men, about 24, who are alleged to have criminally assaulted Miss Virginia Strong, 19, of Cross Plains, shortly after midnight on a side road near Lake Worth.

Miss Strong told police that she and her sister met the men downtown in a beer parlor and then accompanied them on an automobile ride. She told police she was attacked by one of the men while the other held her sister.

The second meeting of the new Texas Relief Commission will be held here Monday. Tuesday the relief program in Texas will be forwarded at a statewide meeting on substance homestead proposals.

### New Revolt Is Planned in Cuba

HAVANA, Nov. 18.—Reports that enemies of the San Martin government planned a new revolt and would use a squadron of bombing airplanes operating from a Florida or West Indian base, caused electric activity at the palace today.

It was reported everywhere that a revolt was planned before Dec. 1. Soldiers at the palace were sand-bagging windows, constructing barricades and adding to the arsenal of machine guns and cannons on the roof of the palace.

Telescopes were erected for spotting airplanes. Developments of importance in Cuban-American relations were foreshadowed today with American Ambassador Sumner Welles enroute to a conference with President Roosevelt at Warm Springs.

### All Firms Asked To Return Their Questionnaires Soon

The National Recovery administration has urged employers throughout the nation to return without further delay their replies to President Roosevelt's re-employment questionnaire.

Immediate action by employers is necessary if their returns are to be included in the final re-employment tabulation. Any employer who has lost or mislaid his questionnaire is urged to obtain a duplicate from his postmaster (or a supply may be obtained from this office) and to make his return at the earliest possible time.

There were delivered to all sections of the United States 3,500,000 questionnaires and it is hoped that every one of those cards will be returned to the census bureau for tabulation. By such co-operation alone can the real situation throughout the entire country be determined. Employers who have increased their forces only slightly or even not at all are requested to fill out their questionnaires just the same. Only through the co-operation of all who received the questionnaires can the census bureau complete a re-employment survey which will be comprehensive and up to the minute as to all of the facts.

### LOCALS MAKE LONG GAIN TO DOWN VISITORS

Good Blocking Takes Out  
Brownwood Defense  
In Good Game.

Ranger's Bulldogs, undefeated in conference play, played heads-up football Friday afternoon after getting off to a more or less ragged start and, with good blocking throughout the last three quarters, defeated the Brownwood Lions by a score of 27 to 7. The Lions were able to make but three first downs throughout the game, one on a pass to Lee, the other on three running plays, with Lee doing most of the ground gaining and the third on a 10-yard slant off left tackle by Lee, the longest Brownwood run of the game.

The two teams played throughout the first quarter without scoring, Ranger making five first downs during the quarter but drawing a number of five-yard penalties for being offside and too anxious to get off on the plays. By the end of the quarter they settled down and made a march of 30 yards for their first score after they had advanced to the Brownwood three-yard line and lost the ball on a fumble. From the 30-yard line, where Angel's punt was returned, Briley made three at right end and a pass to Cole gained five, but Brownwood was penalized five yards. Anderson picked up a couple of yards for a first down and Briley lost a yard as the quarter ended. Anderson gained three and then made 12 on an off-tackle play and on the next play went over to score. Anderson kicked goal.

Brownwood made two of her three first downs in the second quarter, the two coming in succession, placing the ball on the Ranger 30-yard line, where Cole knocked down a pass on fourth down and Ranger took the ball on the 30-yard line and marched down the field to the Brownwood 10-yard line, where the ball went over to Brownwood just before the half ended.

In the third quarter after Brownwood had lost two yards on two plays, Angel kicked out to the Ranger 30 yard line. Ranger drew a five-yard penalty and "Speedy" Gray slipped through right tackle to run 75 yards to a touchdown, Britt coming around from the other end to do some excellent blocking to take out three men who were attempting to head off the speeding ball carrier. Anderson kicked the goal, making the score 14 to 0 in favor of Ranger.

Shortly after scoring the touchdown Ranger marched back down the field and a pass from Anderson to Cole was completed on the Brownwood seven-yard line, but the play was called back and Ranger given a five-yard penalty, and Cole kicked over the goal line. Taking the ball on the 20-yard line Lee made 10 yards and the last Brownwood first down to place the ball on the Brownwood 30-yard line. After two plays Angel's kick bounded over Gray's head and in running it down he Smith it over the goal line where Smith, Lion guard, covered for a touchdown and Angel kicked goal.

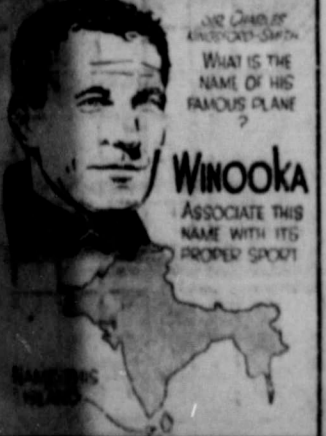

The Bulldogs lost no time in scoring again when Lee fumbled on his 30-yard line and Britt recovered for the Bulldogs. Anderson picked up five on an off-tackle and Britt made nine for a first down and Anderson galloped off-tackle again for 15 yards behind some pretty blocking by Cole to place the ball on the one-yard line. Anderson carried the ball over and then failed to kick goal, his fifth miss in 21 attempts this season.

The Bulldogs made a 70-yard drive for their last score in the fourth quarter when they took the ball on the Ranger 30-yard line. Fifteen plays carried the ball over for the score, Britt taking the ball on the Brownwood 20 to gain 11 yards and a first down on the Brownwood nine-yard line, where Gray picked up eight and Briley went over tackle for the score. Anderson kicked the goal.

Lee of Brownwood was clearly the outstanding man on the visiting team, making practically all the gains and standing out on the defense, while Eyles and Paris were also outstanding on defense. The Bulldog victory can largely

TEXAS AS A PRODUCER OF WOOL AND MOHAIR

A bulletin issued by the federal department of agriculture lets it be known that world production for 1933 will be considerably smaller than last year "despite its estimate of a slightly higher production in the United States attributed largely to Texas."

In Texas, the bulletin went on, a large number of sheep were shorn with a greater average weight per sheep. As to mohair, the department found production had declined because of heavy losses of both goats and kids in Texas this spring.

Texas leads all the commonwealths in the production of wool. Texas leads all in the production of mohair. In Wyoming and Montana and other states producers of wool and other states producers of wool its a hundred lays between frost and frost.

MARTIAL LAW COVERS THE GEM OF THE ANTILLES

President Grau San Martin has another revolution on his hands. To quell it he has declared martial law and the courtmartial of any newspaper director who publishes news of an alarming nature.

It must at least be admitted that some bankers whose life work has been the study of economic conditions know their business equally as well, if not better, than quite a number of our politicians.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

EDWIN S. FRIENDLY, chairman of the Bureau of Advertising A. N. P. A., and business manager of the New York Sun, says:

"Newspaper advertising is often called 'the medium of action.' That is because the merchant or the manufacturer who employs it in his business feels its response almost immediately.

"Some advertising arouses interest—perhaps desire—in the mind of the customer. Newspaper advertising goes farther by creating a demand; by bringing the person interested right to the counter to see the advertised merchandise.

"This is not strange. Newspapers deal with things in action, with what is happening today and will happen tomorrow. A headline sets the whole world talking. A name in the news column becomes a household word between days. Millions are stimulated to think, to talk, to act by the day's news; every page vibrates with things in motion.

"This impulse communicates itself inevitably to the advertising columns. Readers in such an atmosphere are susceptible to action. It is an axiom that 'Newspaper advertising never lets a prospect get cold.'

"The newest thing in the world is news—news of people, news of places, news of business, news of merchandise. All this the great reading public finds in the newspaper. All this helps to make newspaper advertising the life blood of trade."

hind a boxwood hedge. It was a neat cottage, rather old-fashioned. Shades were drawn at the window. Bannister knew the place. It belonged to old Judge Price, retired now and living in Florida.

THE door of the clothes closet was ajar. Bannister drew it back, then whistled softly to himself. Tracy King must certainly have had a weakness for clothes! Rows of suits hung there—two dozen at least. They were in shades ranging from pale beige to black.

HE MOVED to the other window. A two-story cottage, white with a green roof, stood below with a green roof, stood below with a green roof, stood below with a green roof.

"I can imagine" Bannister said dryly. "Mind showing me just how King was lying when you found him?"

WITH a wave of his hand he indicated the personal possessions of the dead orchestra leader. Somebody will have to attend to all this," he said.

He crossed to the windows and looked down. "No fire escapes around here, are there?" he asked.

"There's a stairway," Link explained. "It's just back of the elevator. She could have gone down the stairway and into the laundry. Then she could have crossed the hall to the tradesman's entrance."

Bannister explored the room for another 19 minutes. There was little to be gained here, he thought, but he wanted to fix certain details in his mind. Then he said, "Well, I guess I'm through here."

### By Blou... Bulldogs Defeat—

(Continued from page 1)

be attributed to the fact that the team began playing a wonderful blocking game in the second quarter, the entire backfield clicking beautifully together behind good interference that swept aside the Brownwood defenses.

The 75-yard dash of "Speedy" Gray for a touchdown was the outstanding play of the game from a spectacular standpoint. As Gray dashed down the field, closely pursued by three Lion players, Britt came over from the other end of the line, overtook the three tacklers, passed them and then took them all out of the play to leave no one pursuing Gray as he crossed over the goal line.

Cole, who plays a blocking game solely, took out his men well, paving the way for many of the gains made by his backfield mates to aid them in getting through for first gains.

White, who was playing his first game at tackle, looked good, as did Walsh, who has been playing all season. Both got a number of good tackles that stopped Brownwood plays. The entire Bulldog line was playing a good game, after several penalties early in the game for being offside.

Angel of Brownwood got off a number of good punts, while Cole was consistent in his punting throughout the game, getting off nice high punts, that gave the end of the game plenty of time to get to the safety before he made any advance after the catch.

The starting line-ups:

Ranger — Britt and Jacoby, ends; Walsh and White, tackles; Warden (c) and Love, guards; Buntan, center; Cole, quarter; Gray and Briley, halves, and Anderson, full.

An interesting camera-study of Claudette Colbert, in her role for "Torch Singer," the Paramount picture today at the Arcadia Theatre.

Funny how many fellows are still trying to break into banks, while others are trying to get out of them.

That movie producer who called his wife a rotten actress had no idea how well she'd act up in court.

Ferguson Has Plan For Hard Liquor

AUSTIN.—Former Gov. James E. Ferguson has whittled the appetite of those seeking something stronger than 32 beer.

The plan to evade the constitutional amendment has been frequently discussed. Wets believe it is valid, but have not tried the plan because they believe that not

enough votes can be mustered in the legislature to put it over.

This is the plan: The constitutional amendment provides that prohibition shall be self-operative only "until the legislature shall prescribe other or different penalties." Penalties may be reduced to a very light fine.

Like the federal constitutional amendment, the state prohibition law merely declared against intoxicants. It was the legislature that set the legal alcoholic content. This could be deftly raised by an act of the legislature.

There is a hitch in having these plans go through immediately, at least before the next regular session of the legislature. The present membership, gauged by the wet-and-dry vote of August 26, is dry.
