Other trees in California, as well as in other parts of the world, are known to be older than the General Sherman.

### First New York Sky Train Thrills Millions

Sky Train soars above Manhattan's towers in a daring demonstration that the world changes.

THE "sky train" has arrived—and with it another forward step in the panorama of progress. While millions of New Yorkers thrilled at the sight, the "sky train"—an airplane as "locomotive" hauling two motorless gliders—"passenger coaches"—soared above Manhattan's towering skyscrapers in a daring demonstration of the fact that the world changes.

Piloting one of the gliders in the record-making feat was a famous glider enthusiast and holder of soaring records in motorless planes—the second glider was a brand-new New York City pilot, white as front at the controls of the train's "engine" sat Elwood Keim in his sturdy biplane.

How soon "sky trains" on regular schedule will speed along the "Frisco air trail" blazed by these daring "Night Express."

## New Aggie Coach Best Athlete In His School Days

By United Press  
SHREVEPORT, La.—When Homer Norton was graduated from Birmingham Southern he received the school's medal as being the best all-around athlete in the 1916 graduating class. He was 21 years old.

He had lettered in football, basketball, baseball and track. It was something of a record. His academic work was better than the average of his graduating class.

The fall following his graduation Norton again entered the portals of a college. He became an instructor in Centenary college here and was part-time coach of all sports.

Four years later the number of boys registered at Centenary was 50. Centenary aspired to have a football team and Norton, working under Bo McMillan, famous Centre college back, spent hours with untrained football candidates molding a team.

Eight years ago McMillan left Centenary for Kansas Aggies and Norton, the one-time star of gridiron, baseball diamond, an ace basketball player and track man, remained with one assistant to handle football affairs of the little Methodist school here. Success of the Norton trained teams made football history in the southwest.

Centenary whipped Southwest conference teams year after year, piled up a record of undefeated games which few of the universities or colleges in the southwest could match.

His material was green high school boys, the "leftovers" after major schools have drawn from high schools and junior schools the best of the football material.

Thus, without native football skill from which to mold a team and without reserves or beefy men, his record is outstanding.

Norton is a stockily built, soft-spoken fellow with a kindly manner that wins the confidence of his youthful charges. He believes it is necessary to develop a fervent "desire and determination" to win among his men as to inculcate football knowledge.

In his ability and capacity to arouse the winning spirit he is reminiscent of the late Knute Rockne, although he does not have the Notre Dame man's bubbling personality. He is of the patient sort who never despairs of teaching a green high school boy how to pass, kick, block or run.

This year's team had but 30 eligible men. Fifteen or 16 played in each game. Manning Smith, Quarterback, played every minute of every game in 1932. He was never hurt. Norton, of necessity, must emphasize physical condition and he had played some major teams with but 13 men.

His football tactics are probably more versatile than any in the southwest. Lack of reserve strength has led to the diversity of the offensive game. On the defense, he trains his men to adapt themselves to the particular opponents' method of attack. It differs as the ball is worked up and down the field.

The ability of his eleven to defend their own goal line when an opponent threatens to score was best demonstrated when the University of Texas played Centenary this year.

The Longhorns drove deep into Centenary territory, stood inside the 10-yard line with four tries to make a first down and score, but failed.

Southern Methodist university duplicated the performance of the Texans but likewise failed to score.

## Texas Second Racing Meet Will Start Thanksgiving

By United Press  
HOUSTON, Tex.—Texas' second racing meet since the legalization of pari-mutuel betting will begin here Thanksgiving day with the opening of the \$600,000 Epsom Downs racing plant for a 27-day season.

The plant, patterned after the famous Epsom Downs of England, will accommodate 40,000 spectators and could take care of 100,000 people if necessary, its operators estimate.

More than 1,000 horses are expected to be stabled by Thanksgiving day. Half the number were here 10 days before the meet and construction was ordered rushed on six more stables.

Gov. Miriam A. Ferguson and her husband, James E. Ferguson, will be guests of honor at the gala opening. Other state dignitaries and prominent sportsmen will be included among the expected 30,000 spectators.

In the parade of thoroughbreds will be some of the outstanding horses of the country, operators said. Among them will be Quatra Bras II, full brother to Sir Galahad, and Dr. Freeland, winner of the \$40,000 Preakness.

Representative stables of the nation will have entries in the races. The list of owners includes William Gallagher and J. L. Aste of New York; Ed McCuan and the Audley Farms of Kentucky, C. S. Bancroft of California, Jim Ellis of Evansville, Ind., and W. T. Waggoner, owner of Arlington Downs and the Three D Stables.

Jack Westrope and Wayne Wright, two of the nation's foremost jockeys, are expected to ride during the meet. Both carried away honors at Arlington Downs' recent 21-day meet.

Opening of Epsom Downs will be a triumph for Edward J. Hussion, president of the Texas Breeders and Racing Association, and Lou Smith, manager of the plant.

Hussion, prominent Houston business man and political leader, was instrumental in getting legislative approval of pari-mutuel betting in Texas. Through him the Texas Breeders and Racing Association was interested in building of Epsom Downs.

Smith, who is credited with getting betting legalized in New Hampshire, is Hussion's first lieutenant. He owns Kings Park in Montreal, Canada, famous horse racing track.

The main grand stand, said to be a replica of the one at Epsom Downs in England, will seat 9,000 people. It is painted green and white, the colors used throughout the plant with the exception of the red and white fence around the track.

A modern clubhouse adjacent the grand stand has an elaborate mezzanine in the rear racing the track. It has a capacity of 4,000. A terrace in front of the grand

HAPPY days are usually healthy days. Why not add to these sunshiny days!

Poor health and constipation go hand in hand. Get rid of common constipation by eating a delicious cereal.

Tests show that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to aid regularity. ALL-BRAN is also twice as rich in iron as an equal weight of beef liver.

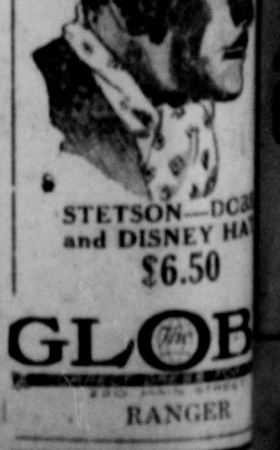

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much better than taking pills and drugs—so often harmful.

Two tablespoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

### Austin Becomes "Little Washington" As Relief and Politics Talked

Austin, Tex.—Austin has become a veritable little Washington as relief and politics were talked over against winter want ward.

The administrator from each county will hold here after a general conference. He was placed under bond and has his U. S. Treasury checks that he will scatter Saturday.

instruction on the forms that must be filled and the rules that must be followed was given the administrators by the aid of

amplifiers. Then came a day's quiz with questions asked by the pupils.

Relief Director Lawrence Westbrook and his staff answered as many as they could. Some have not been answered at Washington, yet.

"Can't someone give us a list of the initiated bodies and what each one does?" pleaded a confused county judge as AAA, CWA, NRA and others buzzed in his ears.

"If you find anyone that can get him to give it to me, too," said Earle P. Adams, member of the State Relief Commission. "I do not think anyone knows."

Relief Commissioner Bob Holliday of El Paso, says that Assistant Relief Director J. F. Reed comes as near knowing as anyone.

"It's really astounding what he knows about all this," said Holliday. Reed, reared in Galveston and a ranch owner in the hill country, is said to have been picked for his difficult job by Speaker

Coke Stevenson of the Texas House of Representatives.

When Holliday believes in anyone he believes in them. Here is what he says of Mack Saxon, football coach at the Texas School of Mines at El Paso:

"Take 22 of the best men on the University of Texas football squad. Let the university coaches pick eleven of them. Give Saxon the ones they leave. In a month, Saxon's team will beat the University's pick."

Saxon has the faculty of making a football team give all its pot—and a little more, is Holliday's explanation.

State investigations are running neck and neck with relief activities at the state capitol.

### D'ya Want a Pal? Try 'Chummy'

You wouldn't pick him for a pal, even if his name is "Chummy." But he hasn't an ounce of pep. Courtroom spectators stood aghast as Doc gave "Chummy" a neck-kiss—keeping a tight grip on his neck, incidentally.

between a board chairman and an employee. Both the committee on job selling and the committee on nepotism took testimony about fund collection in the state departments. A Ranger captain responding to a committee call sat patiently in the House committee room until a Senate committee messenger found him there and took him to that committee.

Contrasts of a Texas Ranger's life were revealed incidentally before the House committee. Ranger Sergeant Joe Osaba, trying to recollect the time he talked to another ranger, mused: "Let me see, I got the machine gun and my Winchester, took them out to the house. Then I took the children to Sunday school."

After the committee session Osaba denied he issued a statement at Dallas that political pull was being used at Austin to block an investigation. Osaba said he was before the grand jury on the matter at the time, and that he was impersonated from a Dallas hotel by telephone. He thinks he knows who did it, too.

### DERRICK SHADOWS

By V. MARIE STEPHENS

Looking back over some old magazines, we discover the startling news that during the eighteenth century the people of France were allowed to amuse themselves by strolling through the royal palace at Versailles.

We notice, too, that they were allowed to stand in a roped-off portion of the royal dining room and watch the king and queen eat.

Imagine the gaping interest of a commoner... watching the king crook his little finger...

The curious gaze of a peasant woman directed toward the sips of the mighty queen.

Imagine the horrified hush were the queen to make an etiquette bobble...

All of which reminds us, although we don't know why it should, of a hotel we were in not long ago.

Silver, silver everywhere and not a fork we could recognize.

And the thing we can't figure out is...

If a place is going to make its customers happy with superior food...

Why must it add the torture of an overly-stocked table of silverware?

All we know is, we ate everything through four courses with different implements, and when we finished up, there were still three forks, two knives and a funny-looking spoon left over.

—Maybe it is a bit exaggerated, but...

Really, Madame hostess, don't frighten your guests away.

It all looks very pretty to see the glitter of a lot of silver things

### Tells How Cardui Stopped Cramping

"Several years ago, when I was younger, I was advised to take Cardui for cramping and irregular trouble," writes Mrs. Esther L. Dodson, of Levery City, Mo. "It helped me and stopped the cramping. I feel that my good health is due to Cardui, and I can certainly recommend it to other women."

When womanly aches and pains and cramps are due to a weak, run-down condition, take Cardui. Sold at drug stores.

### Try a Want Ad it Pays

Advertisements are the lifeblood of a newspaper. They provide the funds that keep the paper in operation. If you have a business or service to promote, a want ad is the most effective way to reach your customers. It's simple, it's direct, and it's guaranteed to pay for itself.

**ICE TONGS PULLED TOOTH**  
SALT LAKE CITY, Utah.—Dentists had a big job on their hands when Princess Alice, pet elephant of the Salt Lake Zoo, suffered a toothache. Without benefit of anesthetic, the animal was relieved of the tooth when four men grasped it with ice tongs. In an effort to save the tooth, which measured four inches in diameter, dentists first drilled into the cavity with a steel drill, then plugged the hole with approximately eight pounds of porcelain.

### Spotlight Centers on Family From House of Death

Like the cast in a mystery play appeared members of the household as they faced questioning in the murder of Mrs. Rheta Wynkoop in the crumbling Chicago mansion to which she came four years ago as a bride. Faces picturing every somber emotion, there sat, left to right, Miss Enid Hennessey, teacher, boarder in the home; Dr. Catherine Wynkoop, 24, sister-in-law of the victim; Dr. Alice L. Wynkoop, mother-in-law of the slain girl. Behind is the Rev. John Hopkins, old friend of the family.

### Christmas Card Styles Go Back Quarter of Century

By United Press  
PHILADELPHIA.—Christmas cards of a quarter of a century ago are in style this year, replacing the gaudy colored and bulky cards that decorated the mantelpiece in recent years.

Authority for the statement is Sidney J. Burgoyne Jr., a partner in a Christmas card manufacturing firm.

Correct designs include poinsettias, candles, holly, and dogs, instead of the flashy pictures usually seen on greeting cards. The designs will be similar to those seen 25 years ago, Burgoyne said, when the few cards that were sent out were remarkable for their beauty and simplicity of design.

"I think the demand for a change in cards came last year," he said, "when persons hesitated to send offensively cheerful cards to friends and relatives who were unemployed and with small prospects of a happy Christmas. This year, the trend continues, as in everything else, toward simplicity."

"The correct Christmas card this year will be on light-weight paper or parchment. Cardboard is passe. The cards should be folded, not the single type, and the sender's name should be engraved."

However, 21 were treated for appendicitis and 118 discharged because of physical disabilities.

### Hidalgo County Nation's Greatest Vegetable Area

DALLAS.—Hidalgo, rich Rio Grande valley county, led the nation for production of mixed vegetables during 1932, a report by the U. S. department of commerce, bureau of the census, disclosed.

The report represents a survey taken from 50 of the leading counties based on acreage of mixed vegetables harvested in the United States, and giving the rank of these counties by value of the crop.

Of nearly 100,000 acres in mixed vegetables in the 50 counties, Hidalgo county had 3,730 acres. It ranked 10th in value of the crop harvested which was \$218,479.

Three other Texas counties qualified in production among the first 50. Dimmit ranked 12th in production and 49th in value of the mixed vegetable crop harvested. Cameron was 19th in production, 76th in value. Wichita was 36th in production and 65th in value.

Atascosa County headed the list for watermelon production. Eight other counties were listed among the leading 50 counties in the United States. They were Wilson, Parker, Frio, Wise, Willacy, Henderson, Brooks and Bexar counties. Parker county famous for its watermelons, ranked 6th in value of the crop which was in 1932 valued at \$182,704. The crop represented about five per cent of the value of all vegetables harvested for sale in 1932, excluding potatoes, sweet potatoes and vegetables grown under glass.

Production of dry onions, representing 5.8 per cent of the total value of all harvested vegetables, excluding potatoes, sweet potatoes and hot-house varieties, was notable in nine Texas counties. Webb County ranked second with 3,444 acres in cultivation and third in the value of the harvested crop of \$702,250. Other counties listed were Dimmit, Willacy, San Patricio, Zavala, Nueces, Collin, La Salle and Maverick.

Cantaloupes and muskmelons, of which nearly one-fourth of the acreage was harvested in Imperial County, Cal., were major crops in four Texas counties. Atascosa County headed the local counties with a rank of 28th, El Paso, Parker and Bexar counties followed.

The tomato crop had the greatest value of all vegetables, according to the report. It totaled \$53,247,599, or 18 per cent of \$295,962,572, crop valuation of all vegetables harvested for sale. Cronson County, Texas, ranked 8th in acreage and value, with Cherokee, Hidalgo and Smith counties listed as among the 50 leading producing counties in the United States.

Four Texas counties were allotted positions among the first 50 in the acreage of all vegetables harvested for sale. Hidalgo County was 7th in acreage and 31st in value. Other counties were Cameron, Atascosa and Zavala.

Camo and Harris counties were cited for sweet potatoes production. Camp County was listed 20th with an average yield of 88.4 bushels per acre. Harris County ranked 26th. Forty-six of the counties were in the south.

One Texas county was listed in cucumber production. It was Jim Wells County with an acreage rank of 39th and a value rank of 94th.

### Fort Worth May Have Team in Texas League

Many observers are frank to say they doubt the sum can be raised. The projects that the Boston Braves of the National League would operate the club was flouted for several weeks, with the appearance here this fall of Judge Emil Fuchs, owner of the Braves. But if anything other than seeing the horse races at Arlington Downs came of the visit it has not been divulged.

As the Braves talk simmered into casual reference, the rumor that the Chicago White Sox of the American League would operate Fort Worth as a farm popped up. Inklings of the report reached the national baseball meet at Galveston, but the meet passed by without any known developments.

Dr. Walker and others interested in the club are undetermined on what course to pursue. They are free to admit the problem is a nasty one and at present continuation of the Fort Worth club as a member of the league is far from assured.

Atascosa County headed the list for watermelon production. Eight other counties were listed among the leading 50 counties in the United States. They were Wilson, Parker, Frio, Wise, Willacy, Henderson, Brooks and Bexar counties. Parker county famous for its watermelons, ranked 6th in value of the crop which was in 1932 valued at \$182,704. The turkey is trussed after it is stuffed. To truss, first draw the thighs close to the body and hold them by inserting a long skewer under the middle point, running it through the body and out through the other side. Cross ends of dramsticks and fasten securely with a stout cord. Fasten to tail. Second, place wings close to body with tips pushed over first joint, making triangles on the sides of the turkey. Hold them with a second skewer forced through wings and body. Draw the neck skin under the back and sew with a soft cord.

Next, take the cord holding the dramsticks to the tail, cross it and draw it up around each end of the upper skewer. Tie string securely in a knot and cut off end.

Now cross string again and draw it up around each end of the upper skewer. Tie string securely in a knot and cut off end. Allow from three and one-half to four hours for roasting a ten pound turkey. Roast in a moderate oven—375 degrees F. Place breast down on the rack of the roaster. Even with a covered roaster, it's a good plan to baste every half hour with 1-2 cup butter melted in 1-2 cup boiling water. Sprinkle with salt and pepper when turkey has been in the oven 30 minutes.

### Giblets in Salt Water

The butcher will "dress" the for you. This means he will have it skinned and the viscera removed, the heart, liver and gizzard. These he usually drops into a sack inside the turkey. If the giblets are not opened make a hole with a sharp knife through the sack and part down to the sack. Check to see not to cut the sack. Turn the outside away from the in- and discard the sack. Put giblets, heart, liver and gizzard in a bowl of cold salted water and stand an hour or two.

You will have to "sing" the turkey. This means holding it over a fire, turning it from side to side so that the tiny hairs left on the skin after picking are all singed away.

Look for any pin-feathers that have escaped plucking. Sing the tail of the turkey in the same way. This must be carefully done.

**PARIS STYLES**  
By MARY KNIGHT  
United Press Staff Correspondent  
PARIS.—In case you happen to be a prospective Paris client who likes to let your "whimsie" out on a long leash now and then, the Big House couturiers may be said to have gone slightly haywire in their efforts to please everybody.  
The old business of things being definitely this or that has given place to the new business of catering to individual notions, forms, personalities and figures. If you like a hat with a brim on it and a Queen Mary feather standing up squarely in front you will be told that it is perfectly correct despite the sick-papered magazines singing about the beret and close fitting bonnet.

**EMPEROR GOOSE KILLED**  
By United Press  
KLAMATH FALLS, Ore.—An emperor goose ventured from its Asiatic haunts recently and was shot on Tule Lake, near here, by J. E. Carlson, Los Angeles. The bird is of a rare species, seldom seen far south of the Canadian border.
