

## Construction of 800,000 Homes Is Objective

### MANY WOULD GET AID UNDER NEW PROJECTS

Plans Would Increase Employment By 4,250,000 on Four New Projects.

WASHINGTON, Dec. 8.—Construction of some 800,000 residences is required annually for the next several years in the United States according to an NRA survey of the possibilities of re-employment in the construction field.

A report of the survey outlines construction possibilities totaling nearly \$14,000,000,000 over two-year period. It was estimated that 4,250,000 could be given work in this manner.

Two million, it was said, could be given work on residential unit, 1,000,000 on grade crossings, 500,000 on educational facilities, 500,000 on recreation and sanitation construction, and 250,000 on sub-sistence homesteads.

Estimates of the amount which may reasonably be spent for housing were made in two ways:

1. The ratio of new residential dwellings units to the number of families during the highest consecutive five years of building in the 20's was found, and it was assumed that this ratio of residential construction to families could reasonably be initiated and maintained at the present time as a result of the current shortage.

2. The need for new residential dwellings was calculated on the basis of the increase in urban families, the estimated return of families to the city upon recovery, replacement of abandoned homes, homes burned and not replaced, obsolescence, and estimated of the number of sub-standard homes in 1929 to be replaced by new construction.

"It is interesting to note," the report continues, "that on the basis of these two entirely different estimates results were relatively close."

The figures for the second method of estimate were given as follows, being computed as of Jan. 1, 1934:

1. Increase in urban families since 1930, 595,000.
  2. Return of families to cities, 250,000.
  3. Replacement of abandoned homes, 520,000.
  4. Homes burned and not replaced, 100,000.
  5. Obsolescence, 340,000.
  6. Five per cent vacancy allowance for new buildings, 90,000.
  7. Sub-standard homes in 1929, 1,250,000.
- Total, 3,145,000.
- Deductions:
1. Over-supply of homes in 1930, 525,000.
  2. Homes built since 1930, 560,000.
- Total deductions, 1,085,000.
- Total net need, including replacement of 1929 sub-standard homes, 2,060,000.
- Less 1929 sub-standard homes, 1,250,000.
- New facilities needed, 810,000.
- The report estimated the average cost of each family unit at \$22,000, making a contemplated housing program of \$5,532,000,000 (B), or two years of residential building at a rate of \$200,000,000 per month.

### "Truthful" History of Confederacy Is Urged by U. D. C.

FORT WORTH.—What the nation needs is a "truthful" history of the Confederacy, believes Mrs. Oscar Barthold, of Weatherford, past president of the Texas division of the United Daughters of the Confederacy.

In making a talk here, Mrs. Barthold took her cue from the recent controversy at Rice Institute over the production of "Uncle Tom's Cabin" by the university dramatic club. The production was cancelled on objections of the U. D. C.

"Uncle Tom's Cabin was written to inflame the north against the south," she said. "The sons and daughters of the Confederacy will cease protesting against Uncle Tom's Cabin when the G. A. R. ceases to exist."

### NEGRO'S BODY IS BURNED BY KOUNTZE MOB

KOUNTZE, Texas, Dec. 8.—The body of David Gregory, negro ex-convict accused of attacking and murdering a white woman near here, was burned in the negro section here early today by a blood-thirsty mob that had torn out the heart and had wrangled for hours before tossing the body on the huge pyre.

Gregory, hunted for the brutal slaying of Mrs. Mellie Williams Brockman near Kountze last Saturday, was shot from a church steeple at Voth by officers late yesterday. He died en route to Kountze and a mob blocking the highway demanded the body.

For hours the snarling, shouting mob of 400 toyed with the body, slashing and kicking it as it was dragged through the streets. Then eager fingers tore the heart from the chest and handled it with ghoulish glee.

The hideous form was rolled before the door of Gregory's mother and she was forced to view it. "You've done right, white folks," she said as she looked unflinchingly.

Hours of argument ensued over disposition of the body. Some wanted to hang it in the negro section and leave it as a grim warning.

Another group shouted for a burning. Boxes and debris were piled high and the body tossed on the pyre.

After Gregory's body had been disposed of the mob turned toward the jail and threatened to take two other negroes accused of aiding the hunted man in evading officers. The idea was dropped and the mob gradually diminished.

### Tax of \$2.60 Per Gallon on Liquor Being Proposed

WASHINGTON, Dec. 8.—President Roosevelt's interdepartmental committee on alcohol control recommended congress levy a tax of \$2.60 a gallon on distilled spirits.

The recommendation was made in a report to the house ways and means committee in which the administration group estimated that liquor revenue under their proposed tax plan would bring in more than \$500,000,000 annually.

### Houston Is Second to Reno in Divorces

HOUSTON.—Reno is but slightly ahead of Harris county's divorces mill.

Records for the first 11 months of 1933 show 1,650 of 2,804 petitions for divorce granted in Harris county as compared with 2,200 granted for the same period in the Nevada city.

### RESIDENTS WANT WINTER LIVINGSTON, Mont.

Residents around Livingston hope winter makes up his mind pretty soon. After snows had covered the ground for a while, they melted. Then spring apparently decided to pay a November call. Ground squirrels were seen scampering about, crocus, dandelions, daisies, pansies and other flowers bloomed again amid the greener grass of the year. A tomato vine came to life and in two weeks developed seven full tomatoes, all more than two inches in diameter.

### Judge Questions Mexican Divorces

EL PASO.—The legality of Chihuahua divorces for American couples is questioned by Judge P. R. Price, 41st District Court. He granted Mrs. Anna Belle Hall an injunction restraining her husband, C. C. Hall, from obtaining a Juarez decree.

Attorney W. H. Fryer, representing Mrs. Hall, said Judge Price's ruling does not affect the legality of divorces granted to couples who agree to the decree.

Hall's attorney appealed Judge Price's ruling.

### Jake the Barber Wants Revenge

Defying gangsters to carry out their death threats, John (Jake) the Barber, thirsting for vengeance against his kidnapers, will testify at the approaching trial of Roger Touhy and his aides, accused of the abduction, in Chicago. Factor is shown here as he declares emphatically that he will tell the story of his kidnaping and torture on the witness stand.

### SANTA CLAUS WILL MAKE HIS FIRST VISIT TO RANGER AT 7:30 O'CLOCK MONDAY NIGHT

Santa Claus is coming to Ranger.

Word has been received that he will be here promptly at 7:30 Monday night for a short visit before he goes back to the North Pole to complete his plans for a big Christmas day for all the kiddies in the world, especially those good girls and boys who live around this section.

One of the objects of his visit is to check up on the boys and girls and see if they have really been as good as most of them think they have been, or if they have been bad boys and girls.

And, when he arrives Monday night at 7:30 he will have a large quantity of candy to distribute to all the children who "an arrange to be on Main street at the time. He has only a short time to stay, because he has a number of other towns to visit, so all the children are invited to be present promptly at 7:30 so they can see the jolly old fellow and get some of his free candy.

The Christmas lights have been installed along Main street, several strands of colored lights crossing the street on each block and crossed strands being stretched across each street intersection. These lights will be turned on shortly before 7:30 Monday night and will burn each night from then until the first of the year.

The merchants of Ranger will not have their stores open Monday night because that time has been designated for a visit between Santa and the children. However, on Monday night, Dec. 18, they will begin keeping their stores open until 9 o'clock each night until Christmas.

It is planned to have the Ranger high school band on hand for the visit of Santa and a short band concert will be held just before the arrival of Santa if the services of the band can be secured, it was announced today by Mrs. Alice D. True, secretary of the Ranger Retail Merchants association, who has charge of the celebration planned in honor of Santa.

### LEGION POST URGES ROUTE ALONG RR AVE.

The Carl Barnes Post No. 69 of the American Legion, in regular session at the Legion hall Thursday night, voted unanimously on a resolution urging the city commission of Ranger to "accept the compromise offered by the state highway commission and route the proposed highway over Railroad avenue."

The compromise mentioned in the resolution was the proposition of the highway commission to have Highway No. 1 routed down Railroad avenue, thereby bringing it along the edge of the business district, instead of taking the route recommended by the highway commission, which leaves the present highway about three miles east of Ranger and going in a direct line to the underpass on the Eastland road. This routing, which is recommended by the state highway engineer, Gib Gilchrist, and the division engineer, Leo Ehlinger, is the one on which a survey has been urged by the engineers by Dec. 15 if no definite action is taken on the Railroad avenue route.

The letter to the mayor and the city commission containing the resolution passed by the Carl Barnes post, follows: "To the Honorable Mayor and City Commissioners of the City of Ranger, Ranger, Texas: "In regular meeting, Dec. 7, 1933, Carl Barnes Post No. 69, American Legion, has passed the following resolution: "Whereas: Much controversy has existed relative to the location of the new proposed cut-off, and "Whereas: Every effort has apparently been exhausted to locate the new road through the business district proper, and "Whereas: Much time has been lost to labor with its resultant restitution, "Therefore, be it resolved, that this post urge the city commission to accept the compromise offered by the state highway commission and route the proposed new highway on Railroad avenue. "THE RESOLUTIONS COM. MITTEE, AMERICAN LEGION. (Signed): "D. W. JOHNSON, "G. E. ROBINSON, "L. R. HERRING."

### Young Co. Man Killed In Fall

BRECKENRIDGE, Dec. 8.—J. W. Otts, 56, pioneer Young county farmer, was killed late yesterday when a horse he was riding ran away with him 20 miles north of here. Otts was swept from the horse's back by the limb of a tree. His neck was broken and he died immediately.

### Father Confesses Killing Young Son

LITTLETON, Colo., Dec. 8.—Donald Smith, 30, Littleton farmer, today confessed to the slaying of his 3-year-old son in a fit of jealous rage, police announced.

The confession was obtained only after he had been confronted by his wife, who screamed at him, "You killed my baby; you stomped him to death," officers said.

Threats of mob violence against the father were reported. Although officials watched the situation closely, no special precautions had been taken.

### Fear Wealthy Couple Slain

Finding of a blood-stained auto near Bristow, Okla., has started a far-flung search for Jack Wisdom, top, and Mr. and Mrs. Harry S. Pritchard, below. Pritchard, wealthy business man of Wichita, Kan., and his wife left their home Nov. 23 with a man believed to be Wisdom, a ranch hand, and police fear they were slain. Wisdom also is wanted for questioning in the death of a fellow worker, whose body was found in a well.

### Ranger and Temple Playing Close Game

The score of the Ranger-Temple game being played at Temple this afternoon was 0 to 0 at the end of the first quarter. Many telephone calls were being received by the Times, which was getting the score at the end of each quarter, indicating that there was much interest in the outcome of the contest.

Later.—The score at the end of the first half was Temple 14, Ranger 7.

### Woolley Trial For Murder Is Still in Progress

DALLAS, Dec. 8.—The trial of Toy Woolley, charged with murder in the fatal shooting of his wife, Dorothy, proceeded today with the defense still adding to testimony intended to save the young auditor from a death penalty.

Currie McCutcheon, Woolley's attorney, had the bedroom of the Woolley home reconstructed in the district court.

The bed on which the young wife lay when the shotgun charge struck her was placed in the courtroom as were all the articles of furniture.

### Ten Are Expected In Governor's Race

AUSTIN.—Ferguson recently estimated that the governor's race would have 10 entries. His estimate seems to be panning out. Attorney General James V. Alford is practically in. Senator Clint C. Small believes that he has enough strength in other parts of Texas to add to his West Texas and Panhandle following to justify his entry. Small polled 139,000 for governor in the first primary of 1930, running behind Ross S. Sterling and Mrs. Ferguson. Tom Hunter, Wichita Falls, was third in the 1932 race between Mrs. Ferguson and Sterling. He polled 221,000 approximately.

Lieut. Gov. Edgar E. Witt with a vote record of approximately three-quarters of a million is sure to seek advancement. Popular House Speaker Coke Stevenson seems about to vault into the saddle, which his fellow house members gave him to ride into the governor's office in.

C. C. McDonald and John Wood, chairman of the state highway commission, both are unknown quantities as vote getters for themselves. Both have been remarkably successful in getting votes for their friends.

If all these enter, it will need few more volunteers to make Ferguson estimate a fact.

### PERKINS ASKED TO SETTLE A TEXAS STRIKE

TEXAS CITY, Texas, Dec. 8.—Intervention of Secretary of Labor Perkins was asked today in a strike of 1,200 workers at the Pan-American company refinery under construction here.

The appeal was made by the International Boilermakers union in a telegram to Washington, following a meeting here last night in which Victor Ridgeway, deputy state labor commissioner, explained the rights of the men for collective bargaining under the NRA.

He urged only peaceful steps in settling the dispute.

Work on the huge plant was suspended by company officials today pending settlement of the strike. More than 2,000 are employed at the refinery but only 1,200 are sympathetic with the strike.

### Houston Night Clubs Prosper With 'Deal Deal'

HOUSTON.—Whoopie makers are making the most of their new deal in Houston, a survey of night clubs revealed.

From early evening until dawn the merry makers are shuffling out their revelry in evening gowns and street dresses, in patent leather pumps and brogans.

Club operators are happy. Money is poured out freely, they said, for music, a place to dance and drinks.

Waiters know that the new deal is on, too, for their patrons are tipping again.

The reflection goes on down the line and estimates are that 75 entertainers have found employment in recent weeks and that 20 new clubs have been opened since the advent of beer.

A stenographer explained the night life revival to a reporter: "There's a new deal on, big boy. Haven't you heard that better times are on the way and that my boy friend and I can afford to make a little whoopie once more?"

### Another Convicted In Kidnaping Case

KANSAS CITY, Mo., Dec. 8.—Clarence Clik was convicted by a jury today of implication in the \$30,000 ransom kidnaping of Mary McElroy, daughter of the city manager.

Punishment was fixed at eight years in prison.

The team made up of star players of former years and some of this year's team played an all-star team from Stephenville and the score was 6 to 6. Several good players of former years who were expected to play were prevented for various reasons and it was necessary for Coach Weldon Rushing to fill in with boys of this year's team, some of whom weighed just a little over 100 pounds, but were splendid players in spite of light weight.

# Weekly Sunday School Lesson

Text: Acts 24:10-23  
The International Uniform Sunday School Lesson for Dec. 10.

PAUL IN CAESAREA  
BY WM. E. GILROY, D. D.  
Editor of The Congregationalist

Paul was in Caesarea, a city on the Mediterranean coast not far from Jerusalem, founded in honor of the Caesars. He had been brought there to appear before the governor, Felix, following his arrest in Jerusalem to which he had returned for the last time from his third missionary journey.

It might be remembered that Paul had returned from his third missionary journey and the affecting farewell, at Miletus, to the elders of the church in Asia, assuring them that he was going to Jerusalem with the conviction that bonds and afflictions were awaiting him there, but with the determination that nothing should deter him from the fulfillment of his ministry as a faithful soldier of Jesus Christ.

The premonitions that Paul had had were quickly fulfilled. Some Asiatic Jews, who had also come to Jerusalem from the region where Paul had been carrying on his missionary activities, had found Paul in the temple and had raised a great outcry against him, charging that he had assailed their religion rejecting the teaching of Moses and defiling the temple.

In the uproar Paul probably would have been killed by the mob, but he was rescued by a Roman captain, who, on Paul's declaration of his Roman citizenship, gave him permission to speak to the people.

It was on this occasion that Paul gave his defense and the fine account of his life contained in Acts 22. But when Paul spoke of his ministry to the Gentiles the uproar broke out with renewed violence, and to save Paul the captain had him brought into the castle.

Paul later was freed from his bonds and the chief priests and council were commanded to appear, while Paul was brought before them. Here he made a further defense of himself, but discussion arose again, this time between the Sadducees and the Pharisees.

The Roman captain, fearing that Paul would be pulled to pieces between them, commanded the soldiers to take him by force and bring him back into the castle.

Meanwhile a band of Paul's foes conspired under oath declaring that they would neither eat nor drink until they had killed him, but the Roman captain, hearing of this conspiracy, provided a company of soldiers and horsemen to escort Paul safely to Caesarea for appearance before Felix, the Roman governor.

In our lesson Paul has come before the governor and has been permitted to speak for himself. It is a dignified statement of Paul's religious convictions and purposes, and Felix was so well impressed that he decided to postpone further consideration of the case until he could have more exact knowledge.

Possibly Felix was anticipating some disposition of the case that would turn to his own advantage; but when Paul was again called before Felix, who sat on the bench with his wife Drusilla, the Roman governor discovered the quality of the prisoner with whom he had to deal.

We have the dramatic story of the governor's treatment of this humble minister of Christ stood before him and reasoned "of temperance, righteousness and judgment to come." It was on this occasion that Felix gave the excuse that innumerable others have given under the challenge of conscience. Go thy way for this time; when I have a convenient season, I will call for thee."

What a contrast between the despondency and conviction of the why-Christian tentmaker, and the cunning and indecision of the good man of affairs! Truly, as Paul said elsewhere, "God hath chosen the weak things of this world to confound the mighty."

## LEGION HEAD IN NAVY

By United Press

INDIANAPOLIS, Ind.—Edward A. Hayes, newly elected national commander of the American Legion, has been commissioned a Lieutenant Commander of the United States Naval Reserve.

Hayes served in the navy during the World War, rising to the rank of ensign. It's correct to say, "None of them are here," according to an English professor at the University of Michigan. If he means prosperity bringers, "none of them never was here."

### New Ford V-8 Model Shows Smarter Lines Colored Fenders and New Ventilating System

Refinements in the design of the radiator and hood and more luxurious interior appointments feature the appearance of the new Ford V-8 for 1934. Colored fenders are standard on all de luxe cars. Dual down-draft carburetion and dual intake manifold give greater power and speed to the engine, increasing flexibility and smoothness. Gasoline and oil economy is also increased. A clear vision ventilating system prevents drafts and provides the desired amount of fresh air in any weather. Ventilation may be controlled by passengers individually. The easy riding qualities of the Ford V-8 have been increased by the use of more flexible springs, improved shock absorbers and softer seat cushions. Illustrated are: (top) the de luxe Tudor sedan; below (right), rear compartment of the de luxe Fordor sedan showing the ventilating slot and (left), the attractive front end.

new buildings, recently made this disclosure. Until recently, the bureau said, no applications had been received for theatre alterations. However, bureau heads said, recently there has been a rush of applications for theatre altera-

(Copyright 1933 by United Press)  
PARIS, Dec. 8.—Signs that the new year might bring a complete new deal in world politics multiplied in European capitals today. Activities in Rome, Paris, London, and Berlin indicated that such a new deal might involve the death of the Versailles treaty, the re-birth of the League of Nations and a disarmament treaty on new, business-like terms.

Premier Benito Mussolini of Italy was at the center of the work.

The United Press was informed on high authority today that Mussolini believed he has the pledged support of Great Britain and France for his long-dreamed plan for reorganizing the League of Nations.

It would be a reorganization that would end the domination of Britain and France in the league council and would end the power of small nations to paralyze league acts by veto.

As a supplement to his plans for league reorganization Mussolini pictures the possibility of a seven-power entente to maintain peace among the great nations and enforce it on the small ones by moral pressure.

In such an entente might be embraced— he hoped—the United States, Japan, Russia, Britain, France, Germany and Italy.

**A BIBLE THOUGHT FOR TODAY**

**THE MEASURE OF MERCY:** Have mercy upon me, O God, according to thy loving kindness: according to the multitude of thy tender mercies blot out by transgressions.—Psalm 51: 11.

**TWO YEARS MORE OF THIS IN TEXAS**

At least two years more must elapse before the way is opened in Texas to eliminate the bootlegger and liquor-financed crime.

Prohibition comes to an end, nationally, on Tuesday. But the Texas state constitution prohibits sale of intoxicating liquor, and to Texas conditions will be unchanged.

The coming of repeal, in other states, adds a number of old problems and creates a number of new ones; but on no one does it place a greater responsibility than on the average, every-day citizen who likes his highball, cocktail or glass of wine.

There is no question whatever that it was public resentment over the activities of the bootlegger and his allies that was chiefly responsible for the vote for repeal. There were other factors, of course. But the citizenry as a whole made up its mind that a law which subsidized such an insolent and lawless criminal class was a law that did not belong on the books any longer; and for that reason, more than any other, prohibition was voted out.

If legal liquor puts bootleggers out of business in one state, the easily may move to another where state laws prohibit legal sale of liquors. They are not wanted in Texas, nor needed to supply the demand for liquors. Whisky can be had in Austin, cheaply and easily, and the enforcement officers of the state know the fact. They also know a conviction in district court, under the very vigorous Dean law, is nearly impossible. It follows the only possible enforcement is in destruction of liquor stores and small fines imposed in minor courts, which, after all, are but a sort of license to do business.

Texas would have repealed the amendment to its constitution prohibiting sale of liquor last summer, had the legislature submitted the measure. Now a bitter, and possibly a prolonged battle impends, with the professional prohibitionists stirring up every possible source of revenue and strength. Sooner or later, the Dean law will be erased from the statute books—already it has been nullified. Ultimately there will be a direct vote on repeal of the state amendment, and it is likely the measure will follow the famous 18th of the national constitution into discard. The course of Texas will depend, immeasurably, on success of liquor control experiments undertaken in other states where there will be no ban against sale of liquors after Dec. 5.

As the other states approach a new era, in which it will be possible to put the bootlegger out of business. But if this desirable end is to be gained, most of the work will have to be done by Mr. Average Citizen. He can do it very simply. All he has to do is make no purchases of liquor which are not legal. In some states, the tax levy will give the bootlegger an opportunity to undersell the market. In others, restriction on place and time of sale will provide a demand for his wares. It is no secret the bootlegger is going to try to hang on. He won't quit cold.

If we need a new slogan to carry into the repeal era, we might try this: It Pays to Be Legal.

**GOLD DESERTING THE LAND OF THE LILIES**

France has another governmental crisis. France has an unbalanced budget. All this caused a flight of \$93,000,000 gold during the past week. Indeed, the huge gold reserve of France is melting away. They are having economic troubles of their own. America first!

**DID YOU EVER STOP TO THINK**

By EDSON R. WAITE, Shawnee, Oklahoma

The world is more populated than it ever has been. Humanity needs as much as it ever did. In fact, today we consider as necessities what were formerly regarded as luxuries. What is the cause of there now being a decreased demand when the natural tendency would seem to be exactly the opposite? More people require more supplies and the education of the people to a higher standard of living introduces a demand for more expensive goods. The cause is the reduced buying power of the people, and there seems to be a thousand schemes floating around to remedy that.

The two things which will do the most is to restore confidence and to give capital a square deal so it will come out of hiding and go to work. In spite of what we may think of capital, it takes money to make the wheels of business go round. The fellows who have money are scared and won't put it to work until they are satisfied that it won't be taken away from them by taxes and they will have a chance to make a reasonable profit.

### \$8,000 Stump May Be Court Gavel

By United Press

WACO.—A bois d'arc stump that has been in court six years, and which cost the city here \$8,000, may be turned into a gavel for District Judge Giles P. Lester.

The stump was Exhibit A in a suit for damages by Mrs. Hazel Darnell Killen. It figured in an

automobile accident on a city street, in which Mrs. Killen claimed she lost the use of her left arm. Judge Lester desires a gavel from the wood as a memento of the litigation.

Tests by a Chicago professor shows that not intoxicating. The tried it on continued classes.
