RANGER, TEXAS, SUNDAY MORNING, JANUARY 7, 1934

PRICE FIVE CENTS

No. 194

**THE WEATHER**  
WEST TEXAS—Fair, colder Sunday.

The government is going to find work for unemployed circus performers, although we've already elected a great many circus clowns to Congress.

## Five Million Expected to be Put Back to Work

### BANQUET FOR BULLDOGS TO BE ON MONDAY

A football banquet for the Ranger Bulldog squad of 1933 is to be held in the Colonial ballroom of the Gholson hotel at 9:30 Monday night, it was announced Saturday by Eck Curtis and A. N. Iron.

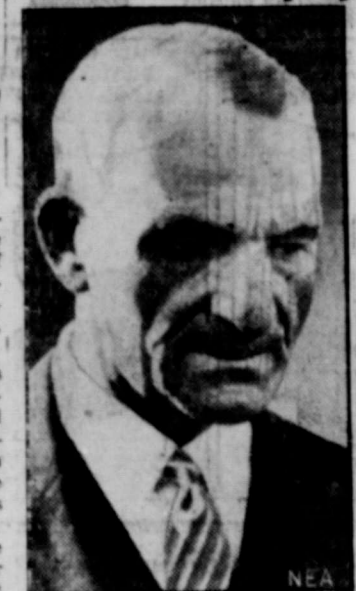

The committee of arrangements headed by J. C. Smith, chairman, and A. N. Larson, who will be in charge of the details in connection with the banquet, at which number of local speakers will be lined up to give short talks, as members of the squad.

The 1934 suede jackets for the regulars and the sweaters for reserves will be presented at a banquet and a captain for the 1934 team will be elected by the team.

As the time for selling tickets to the banquet is so short, all who would like to attend are urged to either J. C. Smith or A. N. Larson before noon Monday and the reservations for their place on the banquet table.

Dr. Harry A. Logsdon will be the toastmaster.

### Ford's Brother In Bankruptcy

Henry Ford's brother is in bankruptcy. Appointment of a trustee in Detroit revealed that a voluntary suit had been filed by William Ford, above, listing liabilities of \$412,000 and no assets. The suit was filed without knowledge of Henry Ford, attorneys indicated. William Ford heads a tractor and implement firm.

### LIQUOR TAX BILL WILL GO TO SENATE

WASHINGTON, Jan. 6.—The administrator liquor or tax bill passed yesterday by the house, will come before the senate next week with democratic leaders pressing for early action.

Majority leader Robinson said today the bill would be brought up Monday or Tuesday. The measure, imposing a tax of \$2 a gallon on whiskey, \$5 a barrel on beer and lower taxes on wine is expected to raise \$550,000,000 a year in new taxes.

While the administration is driving the liquor tax bill through, other matters will occupy the senate as it settles into stride next week. The administration farm credit administration to make its bonds more attractive, is being put into form by the banking and currency committee.

White House messages on reciprocal agreements and war debts soon will start activity in another quarter.

Senator Borah, Rep., Idaho, intends to take an active part in debt discussions. He favors withholding favors to nations in default.

### Camera Studies of Girl Held as Slayer

Indication of unusual maturity was seen by alienists in these camera studies of Mary Kavala, 13-year-old Hastings-on-Hudson, N. Y., girl who was charged only with juvenile delinquency in the killing of her playmate, Dorothy Waropay, 8. Despite the fact Mary got a rating 14 points above normal in an intelligence tests two years ago, she was committed to Grasslands hospital for mental observation.

### NEW CLASSES ARE ADDED TO ADULT SCHOOL

Added courses in the Federal Adult School, which is being conducted in Ranger under the CWA, were announced Saturday.

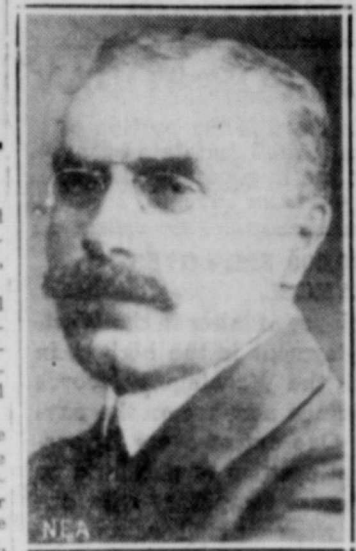

Sewing and cooking classes will be arranged Monday evening between 6:30 and 9:30 and schedules for these classes will be posted in Room 14 at the high school building.

There is still time for anyone who desires to do so to enter the public speaking, commercial, history, English, Spanish and other classes now being taught at the high school building each night, and those who have not already done so can register and arrange a schedule by going to the high school building any night at 6:30 and applying at Room 14.

The school is growing each night and much interest is being taken in the work by those who have already registered.

An adult negro school was organized at the negro school building Thursday night, with a good attendance and classes are to be conducted each night for the negroes.

### Heads Rumania's New Government

Man of the hour in Rumania's turbulent political situation is Dr. Constantine Angelescu (above), Minister of Education. He has been appointed provisional head of the government to succeed Premier Ion G. Duca, assassinated by a member of the Fascist Iron Guard.

### WOULD BRING EMPLOYMENT TO EVERYONE

98 Per Cent Employed Under Plan Would Compare to Low of 60.

WASHINGTON, Jan. 6.—The administration was understood today to be contemplating the return of more than 5,000,000 men to work before the next presidential election in addition to the millions given jobs by the CWA.

Government officials have estimated industrial production in the year beginning July next at 81 per cent of the 1923-25 average and in the following year at 98 per cent, compared with 77 per cent in October and the depression low of 60 in March.

On the basis of these figures it is estimated, that many millions of workers will find jobs before the end of the 1936 fiscal year on June 30, 1936. This would leave only the "normal" unemployment of 3,000,000 to 5,000,000 which existed through the boom days.

Authorities estimate industrial production in the next fiscal year, beginning July 1, next, will approximate the levels of 1931. In that year the American Federation of Labor estimated an average of 7,431,000 unemployed. Activity in the fiscal year beginning July 1, 1935, is estimated in excess of 1930. In that year the American Federation estimated an average of 3,947,000 unemployed.

### NIRA Ball to Be Discussed At A Meeting Tuesday

The Elks Club of Ranger, in regular meeting Friday night, discussed the possibility of holding, for the sponsorship of the civic, social and welfare organizations of town, one of the NIRA dances in which are proving so popular over the country.

This is in line with the movement over the entire nation, to raise an endowment for Warm Springs Foundation for Infantsile analysis, the entire proceeds from the sale will be turned over to President Roosevelt as the town's contribution to the cause.

A meeting of the presidents of various clubs and organizations has been called for 2:30 Tuesday afternoon in the offices of the chamber of commerce, at which no plans for the dance will be discussed. It is proposed to go over fully into the details for the ball at the meeting and making the movement a community project.

### Beautification Of Highways Not New Topic

AUSTIN, Jan. 6.—Highway beautification is not a new topic for the state highway department. What now is being hailed as a novel step has been going forward quietly for more than a year. Records show that approximately 60,000 native trees have been preserved along road right-of-ways and that 200,000 native tree seedlings have been saved in road clearing for transplanting.

Beside this tree work, wild flower seed has been scattered along the roadways wherever it has been available. The seed scattering has not been entirely an esthetic matter. State Highway Engineer Gibb Gilchrist explained that it has been done to provide a natural plant growth that will retard erosion, as well as to provide scenery.

Native trees and plants only are being used by the department in its program. It would be incurring useless expense, department officials think, to set out a lot of shrubbery that later would have to be watered through drought periods in order to keep it alive. In order that the native trees have a good chance to survive any drought, holes for them are dug long before the trees are planted. They are allowed to fill in a wet season before trees are set out.

In all cases care is being exercised to see that the trees and other plants do not obstruct road vision. Benches and lunch tables have been placed at shady spots along many of the main highways.

### Youth Is Third To Admit Part In Old Slaying

FORT WORTH, Jan. 6.—The third of three youths held in the three year old slaying of U. E. Horton, filling station operator here, today signed a written statement, police said, admitting his part in the affair.

Breaking his silence of three days and climaxing 19 hours of continuous questioning, Justice Conde, 23, admitted participation in the attempted holdup in which Horton was slain March 8, 1931.

Previous to Conde's statement, Dewey Fowler, 21, and Jack Carter, 20, admitted their part in the slaying, police said.

### Prison Fence Is Charged With 2,000 Volts of Electricity

CROCKETT, Tex., Jan. 6.—Next prisoners to escape from the Houston county jail will have a 12-foot barbed wire fence charged with 2,000 volts of electricity to negotiate.

Irrked by the recent escape of Earl Joyner, bank robber and prison breaker par excellence, Sheriff J. L. Hazlett ordered the charged wire net work erected.

Hazlett paid Hot Springs, Ark., officers \$500 reward in order to bring Joyner here where he was convicted in a Grapeland bank robbery and sentenced to 40 years imprisonment. He was being held for questioning in other robberies at the time of his escape.

### 22 Teams Enter Debate Tourney

Cy Records and Truitt Kennedy, representing North Side High school of Fort Worth won over the Eastland debating team in the debate tournament at Eastland Saturday night, having the affirmative side of the question which was being debated. In the girls' division, the Abilene high school team won over the Sweetwater high school girls in the finals. The Abilene team won with the negative side of the question.

Twenty-two teams from Rising Star, Abilene, Sweetwater, Breckenridge, Fort Worth, Baird, Graham and Eastland entered the debate tournament, which opened Saturday morning at 10:30 o'clock in the Eastland High school auditorium. Winners in the contest were to be determined by the process of elimination. Both boys and girls teams are included in among those registered.

Only a small portion of the program had been completed at noon Saturday. The attendance was good and interest splendid.

The question of debate, "Resolved That the United States Should Adopt the British System of Radio Control and Operation."

In the first round of debates between boy teams Brownwood debated Breckenridge, resulting in a victory for the Brownwood class. Breckenridge class A team won over Sweetwater's class A team; Abilene class A vs. Eastland class A, resulted in a victory for the Eastland team.

In the first round of debates between girl teams Brownwood won over Abilene; Sweetwater won over Eastland; Breckenridge won over Abilene; Breckenridge won over Baird.

### CROP LOAN BILL VOTED BY COMMITTEE

WASHINGTON, Jan. 6.—The senate agriculture committee voted today to report favorably the Smith-crop production loan bill designed to make advances to farmers who cannot meet collateral requirements under the farm credit administration.

The measure, drawn up by chairman Smith of the committee, would permit \$100,000,000 in loans to farmers unable to otherwise finance the planting of crops for 1934.

The loans would go to those who had no other security than a potential crop and who were unable to furnish collateral required under farm credit legislation.

The bill will be reported on, probably Monday.

### Milk Shortage Is Feared at Chicago

CHICAGO, Jan. 6.—Chicago faced the possibility of a serious milk shortage today as dairy farmers picketed highways and dumped milk to enforce a strike called by 18,000 members of the pure milk association.

While hundreds of deputy sheriffs patrolled highways to clear the way for incoming shipments, pickets halted a truck load of cream and two trucks of milk and dumped the consignment in Wisconsin.

Distributors said the seriousness of the shortage would depend on the ability of the dairy farmers to block shipments from outside the area controlled by the pure milk association. The association controls 90 per cent of the normal supply of milk to Chicago.

### Two Are Killed In Car Collision

BRYAN, Jan. 6.—Two men were killed, another in a critical condition and a woman suffering from non-injuries today as the result of an accident on the highway five miles north of here last night.

Frank Glover, 39, of Louisiana, and R. V. Martin, 40, of Gause, Texas, were killed when the car in which they were riding burst into flames after it collided head-on with a couple driven by Dr. B. U. U. ns, 57, prominent Bryan physician, who was returning from a hunting trip. Sims condition was grave.

### Ex-Ranger Shoots Man Entering Home

DALLAS, Jan. 6.—James Mitchell, 72, former Texas Ranger, was at liberty on \$750 bond after charges of assault to murder were filed against him today in connection with the shooting last night of Roy Archer, 30, under indictment for the slaying two years ago of a deputy sheriff.

Mitchell told officers he shot Archer when the latter attempted to force entrance into the ex-ranger's home. A shotgun charge struck Archer. He was not expected to live.

### Arguments Heard In Pastor's Trial

PIGGOTT, Ark., Jan. 6.—Arguments opened today in the murder trial of Rev. Dale Crowley, pastor of Jonesboro Baptist Tabernacle.

The pastor went to the stand last night to defend himself on a murder charge in the shooting of J. W. McMurdo, 68, tabernacle night watchman and supporter of Rev. Joe Jeffers, campaign to become pastor of the church.

Crowley pleaded self defense. He gave for the first time his version of the slaying, contending McMurdo fired the first shot.

### Outlook Bright For State's Banks

AUSTIN, Jan. 6.—A cheery outlook for state banks and building and loan association was seen by Banking Commissioner E. C. Brand who issued a summary of the year's work of his department.

"The dawn of a great recovery, which is now evident, is expected to bring continued improvement," Brand said.

The report showed 506 bank and trust companies in operation. Thirteen failed in 1933. There are 140 active domestic building and loan associations with assets of about \$100,000,000, the report said.

### Change of Venue May Be Asked In Lawyer's Trial

HOUSTON, Jan. 6.—Indications that a change of venue would be asked in the case of C. E. Heidingsfelder, attorney, charged with the theft of \$34,500 belonging to a New York client, was seen by prosecutors today when subpoenas for 145 witnesses were filed by defense counsel.

### RELIEF FUNDS TO BE READY BY NEXT WEEK

AUSTIN, Jan. 6.—Proceeds of state relief bond sales will go immediately to Texas counties, proportionately, on a schedule made by the Texas relief commission as fast as money is received. State relief headquarters announced today.

So far the question of distribution is academic. No money has been received. Some is expected Monday.

So far as the money received will permit, counties will receive January and February allotments based on their needs. This distribution was approved with adjustments for counties due to major changes in the economic situation.

These changes make larger allotments to counties which had low ones during the late cotton picking season. The total proposed distribution, according to his schedule, is slightly over \$400,000 a week.

### Extra Time Allowed In 1933 On Car Licenses Felt

AUSTIN, Jan. 6.—Extra time extended to motor car owners to take out 1933 license plates without penalty is having its reaction now. County tax collectors report unusual slowness in payment for 1934 licenses.

Reports reaching Austin also tell of a license plate racket. According to this report owners of motor fleets are being solicited to register their vehicles in small counties. This enables the county to retain a large amount for local road work. Registration in large counties with a limit on the amount retained, results in more money going to the state highway department. It has been ruled that payment legally must be in the county where the owner of the vehicle resides.

### Underhill Moved To Okla. Prison

SHAWNEE, Okla., Jan. 6.—Wilbur Underhill, wounded tri-state killer, was moved to Oklahoma State prison at McAlester today from the Shawnee city hospital, where he had been expected to die. An improvement in his condition made the transfer possible. It also was understood federal authorities feared comrades of Underhill might attempt to rescue him if he remained here.

Four machine gun guards have watched him and all his mail has been studied closely since he was placed in the hospital.

### Red Dog Lives on Own Cash Basis

HOUSTON, Jan. 6.—Scott, a dog owned by county tax collector J. W. Hall, lived on a cash basis.

The dog would sniff at pockets of friends or well-dressed strangers. Hall recalled in reminiscing, they would give him some money. Then with the money in his mouth Scott would go to the other shop or candy shop, as his proprietor desired dictated, on his paws on the counter and until a package was laid before him.

Satisfied with appearance of the package he would drop his money on the counter, take the parcel and leave.

### Cotton Market Surges Upward

NEW YORK, Jan. 6.—The cotton market surged up a dollar a bale today when buying was encouraged by the legislative trend to balance the production of the staple with demand.

Good trade buying augmented the speculative demand, inspired by a spurt in sales of cotton goods.

### Man Shoots Woman But Misses Self

HOUSTON, Jan. 6.—His attention spurred and his attempt at reconciliation ignored, James Pappas, 40, of Galveston, was charged with assault to murder Mrs. Bess Burt, 33-year-old waitress.

Mrs. Burt, shot twice, was in critical condition at a city hospital and attendants held little hope for her recovery. Pappas fired one shot at his own head and missed, then tried again and the gun snapped, he told officers.

**UNCLE SAM HAS 6,000,000 EMPLOYEES ON THE PAYROLL**

Uncle Sam is the largest employer of labor in the Western world. Indeed, federal employment is the highest in peace-time history. According to the Washington records more than 6,000,000 men and women now are on the payroll of the federal government. One out of every 20 persons in the country has a federal position of one kind or another. Most of the federal jobs are temporary with approximately 4,000,000 people at work on civil works projects. More than 1,300,000 are employed by the Tennessee Valley Authority, Civilian Conservation corps, and the Public Works administration. Then think of the Texas state payroll, the payroll in the 254 units of county government, the municipal payroll in the major and minor cities as well as the towns and villages and school and road districts of the commonwealth.

There is a federal deficit. It passed the billion dollar mark Dec. 26 for the fiscal year which began July 1 last. But back to the Hoover record: The deficit this year stood at \$1,024,121,607, as against \$1,593,694,753 on the corresponding date of last year when Herbert Hoover held the reins of government and "the poorhouse had been abolished poverty had been eliminated from the social order."

**'IN TIMES OF DEPRESSION IT PAYS TO ADVERTISE'**

M. H. Cahill is chairman of the board of directors of the Missouri-Kansas-Texas line. All through the lean years President Cahill has been an optimist. He never deserts his slogan, "In times of depression it pays to advertise." In an interview given out of Dallas the Katy chieftain expressed confidence that 1934 will see prosperity return to the nation. He is not afraid of the "big bad wolf." He keeps on the firing line all the time. He believes in a mighty future for the Southwest. He will not be disappointed. He believes in the future of the American world and has absolute confidence in the patriotism and sanity of a vast majority of the American people. He knows the history of the republic as well as the history of the commonwealth of Texas. He knows the records of bygone depressions. He knows that fat years have followed lean years and that the American diggers for 150 years have ever plugged along until they were out of the ditch and on the high ground of safety and prosperity and confidence in the flag of their country, its constitution and the never-say-die spirit of the red-blooded men and women of all periods since the colonial wars and the wars for freedom for the colonists on the shores of the Western world.

**PROFESSORS GET PAID**  
 MONTREAL.—Usually saddened professors at the University of Montreal are beaming with joy today. They have just received their first salary checks in three months. Early in September the university encountered financial difficulties and, unable to pay the professors, announced that it would be forced to close its doors unless the provincial government "came across" with a grant. After lengthy negotiations, the government granted the university \$1,500,000. The professors received two months' salary.

**13 BANNED AS BUS NUMBER**  
 FAIRMONT, W. Va.—There'll be no school bus in Marion county bearing No. 13 on its side. Although the county board of education operates 16 busses, No. 13 was omitted because several parents objected to their children riding in it.

**Married Flirts**

She hated leaving the apartment thus, beds unmade, the kitchen in confusion, but there was no choice.

was her irrelevant thought. At least, from Blue Hills, she had ridden in more comfortable fashion, on train and ferry. Oh, well, you couldn't have everything. You had to pay for the privilege of living in New York City.

"My dear, that's the best-looking outfit!" Her colleagues greeted her with smiles and hand-claps. "We've missed you," said Miss Marr, an eye-glassed girl from Randolph-Macon. "We've certainly missed you, honey. It's mighty nice to see you."

This part of it wasn't so bad. She forgot the subway. Her pupils had eager dark faces and grubby hands, but the work was so interesting, you overlooked the dirt and saw only the eagerness. She plugged into her classes... modeling in clay... chalkdrawing... she was surprised to "look up at the clock and discover it was half past eleven."

With the approach of lunch-hour came the thought of Tom's rendezvous. Her heart sank. Why did she feel so miserable about it? It was nonsense—utter nonsense. Tom had chosen her out of all the world. What did it matter if he lunched today with another woman? Thus reason argued, but the sense of injury persisted.

"You going to have something sent in, honey?" Miss Marr stuck her head over the door and asked the door jamb.

Gypsy, surprised in her reverie, said vaguely that she didn't know—she hadn't thought about eating. She wasn't, she said, a bit hungry.

"Well, you'd better have a bite with us," Miss Marr told her. "We're having chicken sandwiches with Russian dressing and tea from that place across the road."

"I don't know," Gypsy was beginning, doubtfully. She couldn't, she thought, eat a single bite there "as a lump in her throat. Food would certainly choke her."

But just then Blanche Jordan called down the hall: "Telephone for you, Gypsy. Think it's the best news."

She ran, forgetting her neediness. "Yes, it's me." She couldn't help making her voice small and injured, like a child's.

"Darling," Tom said. "I've been worrying about you. I feel rotten about this. You know I don't want to hurt you. I just didn't know how to get out of the date..."

"It's all right." It really was now. Bring on your vampires. Bring on your Vera Grays. She was equal to all of them. He loved her.

She went back to the others, her face shining.

"I hope you've saved me a big husky sandwich," she cried, running into the teacher's room. "I'm famished."

Miss Marr and Miss Jordan exchanged shy, amused, sardonic glances over her head. So they've staved and made up, the glances said.

USUALLY Gypsy's duties at the settlement house were ended at four o'clock, but today she was detained for almost an hour catching up with letters, seeing parents who happened to stop in. She had planned to shop for dinner on the way home. None of this night-after-night tearoom dining for the young Weavers, she had announced, very firmly. It was half-past five when she got off the subway, feeling dragged, hot and tired. Valiantly she turned in at the little corner mar-

**Rail Accidents Show A Decline**

WASHINGTON, Jan. 6.—Deaths and injuries from railroad accidents during 1932 declined substantially over 1931, the annual report of the bureau of safety, U. S. Interstate Commerce Commission revealed today.

Total deaths for 1932 were 524 compared with 4,583 for 1931. Injuries during 1932 totaled 17,157 against 25,057 for 1931.

Trespassers led the fatality list with 2,435 killed and 3,354 injured. Only 23 passengers were killed, the bureau said. The rate for passenger deaths was one per 739,018,537 miles travelled by trains.

The bureau, asserting that maximum safety precaution steps are being undertaken by railroads, pointed out that 35.6 per cent of the deaths in 1932 were preventable.

The mayor of Long Beach, L. A., gave his interest in the local passenger to a former employe, who does not know whether to thank the mayor or sue him.

Girl's Anatomy Puzzles Doctors

AUSTIN.—Medical men here are marveling at the rare anatomy of Mary Hernandez, five and a half months old Mexican girl, whose heart was on the right side of her body. Little Mary died of bronchial pneumonia. An autopsy confirmed the complete transposition of the baby's viscera. She had been under the care of Dr. Thomas J. McElhenny for treatment to congenital heart disease. Not only was the child's heart located on the right side, but the appendix was located on the left side, the two-lobe left lung was on the right side, the liver was on the left side, and the intestinal tract and other organs were transposed.

OAK GROVE

We are all set for another year's run with our hopes and aspirations at about 75 per cent higher than they were a year ago. The fine rains that fell here Thursday and Friday have "pepped up" things mightily in these "digging." The annual moving of tenants is taking place this week and this fine weather is making it easy for the boys to make their new locations. Mrs. Julia E. Parker was confined to her room the past two weeks with sciatic rheumatism and was carried to the home of Mr. and Mrs. H. V. Fowler for a few days last week and later to the home of Mrs. B. F. Wilson at Carbon. She is home again now and able to be at work. J. E. Tucker has retired from the farm on account of his health and has bought a home in Carbon and has moved into it. The Christmas holiday season passed by very quiet this time in spite of the fact that legal sale of beer was permitted in three cities of the county. Our boys were too intelligent to spoil a fine Christmas by drinking the stuff. So note it be. A happy and prosperous new year is the wish of this "quill pusher" for everybody.

Highways Give Many Employment John Wood Finds

AUSTIN.—State Highway Commission Chairman John Wood spent his holidays touring roads in East Texas and taking a look at construction under way. "At least 20,000 people have been put to work through road construction under the recovery program," Chairman Wood said. "By the time we have all the projects under way the number will be increased to 35,000. Of course they are not employed by the state highway department but they are employed by contractors holding state road contracts." Wood asserted that the return to employment of many people has caused a much brighter outlook all over the portions of the state he visited. On one county of 10,000 population, he said, a thousand have been put to work on emergency projects. He estimated this meant that employment had been brought to half the families in the county. "Merchants report business better than for a long time," said Wood. "I believe that by March we will be well on the way to a return to normal conditions. I feel sure we have experienced the worst of the depression." Estimated disbursements for road building during the year total \$24,000,000. Maintenance cost another \$10,000,000.

Father Canned Much Food for Children

PELLY, Texas.—A. F. Carroll canned 700 containers of food for his motherless children during the past year besides working his regular shift in a Baytown refinery. It was learned in a report to Miss Opal Harrison, Harris county home demonstration agent. It was the first report ever received from a man in this county. Carroll intends to plant four acres of garden stuff in the spring to supply his family through another year.

Couple Celebrates 64th Anniversary

MANVEL, Texas.—Their 64th wedding anniversary was celebrated here during the recent holidays by Mr. and Mrs. J. H. Hicks, residents of Manvel for 23 years. Five generations gathered at their farm home for the celebration. Mrs. Hicks is 83 years old and her husband 93. They moved here in 1895 from Nebraska. The war in the Gran Chaco between Bolivia and Paraguay would end soon, if they started revolutions back home.

WOMEN TO KNIT IN JAIL

PLYMOUTH, Mass.—Women employed here under the CWA to do knitting for the poor will do it in jail. They have committed no crime, but the town selectmen decided the jail was most available place for working quarters.

Goose Creek Asks \$5,000 For Airport

GOOSE CREEK, Jan. 6.—Application for a \$5,000 loan to develop an airport on a 90-acre tract just leased by the city has been made to the local Civil Works administration committee by the chamber of commerce. Plans are to spend \$4,000 on Thursday than on Monday.

Makes Mirth for Conoco

Tony Sarg, internationally known artist, toy designer, and marionette showman, is the creator of a series of funny Conoco Bronze Gasoline cartoons which will appear in this newspaper during the first three months of 1934. Sarg, shown above with several characters from his marionette show "Treasure Island", was born in Guatemala and educated in Germany. News of his employment was accompanied by the announcement that Continental Oil Company will spend more for newspaper advertising in 1934 than during any previous year.

QUALITY  
The Ford is the only car in the low-price field that gives you the superior performance of a V-8 engine.

NEW FORD V-8 for 1934

THAT rare, illusive thing called Style has been built into the New Ford V-8 for 1934. In its distinctive new radiator and graceful sweep of line. In its rich, lustrous colors. In the unmistakable quality of its appointments. In the very manner in which it speeds along the highway or steps out ahead as the light turns green. We invite every motorist to see and drive this New Ford V-8. You will find it exceptionally roomy and comfortable and the easiest car to drive you have ever known. Safer, too, because of the all-steel body, effective brakes, and the added protection of safety glass. Unusually smooth and

efficient at 50, 55 and 65 miles an hour because it has the reserve power to do well over 80. New, clear-vision ventilation prevents drafts and gives ample supply of air at all temperatures. Windshield opens. New riding comfort because of increased spring flexibility, improved shock absorbers, new softer seat springs and deeper seat cushions. New dual carburetor and new dual intake manifolds insure quicker starting in cold weather and give more miles per gallon of gasoline. Thus, increased economy, comfort and performance combine with smart style to make the New Ford V-8 for 1934 the most satisfactory car you can own.

Why not have 100 Presbyterians turning over new leaves at this time, and each one to more devoted service to Christ and the Church? The little White Church on the Hill has wide open doors for all who love our Lord in sincerity, and who seek to establish His kingdom in our own city and throughout the world; and for all others in need of spiritual help in this time of the upward look.

Session meeting, 2:30 p. m. Ladies' Auxiliary, Monday, 3 p. m., at the residence of Mrs. E. L. Fontaine.

United States Is World's Greatest Producer of Crude Oil

**REAL WARFARE RESULTED FROM THE CONSTRUCTION OF THE FIRST PIPE LINE ...**

(1) Warfare between tank wagon drivers and pipe line engineers broke out with the construction of the first pipe lines in Pennsylvania and Texas. (2) U. S. oil tins have replaced goat and pig skins as containers for water in Burma. (3) The United States produces at present over 65 per cent of the world's crude oil supply although it is not certain that the potential supply is as great as other parts of the world.
