NEW RELIEF POLICY TO BE STARTED MOND

ROOSEVELTIS FOR CHANGING THE TARIFFS

By United Press

WASHINGTON, March 1 .-President Roosevelt in a special message to congress today asked for broad powers to adjust tariffs. The move is preliminary to a new effort to expand the United States foreign trade through reciprocal commercial agreements.

The president asked for specific authority to enter into executive commercial agreements with for nations "within carefully guarded limits to modify existing duties and export restrictions in such a way as will benefit agriculture and industry.'

The president held full recov ery depends in part on a revised and strengthened trade.

The president's next emphasis that other governments "to an ever increasing extent" are capturing export markets through trade agreements.

To meet this competition, he said, this government must be in a position to bargain with other governments by rapid and de-cisive negotiations instead of through the old system of treaties negotiated over long periods and then subject to delay of senate ratification.

If the American government is not in a position to make fair offers for fair opportunities, he told congress, its trade will be super-

A SURE GUIDE: Commit thy way unto the Lord; trust also in Him; and he shall bring it to pass.

SPEAKING OF PETROLEUM AND DECISIONS AND CODES

Oil Admr. Harold L. Ickes is said to have admitted that a federal court decision in Texas had "struck a paralyzing # blow at the oil stabilization program started by the New Deal administration." T. S. Hose, a noted petroleum engineer of New York, following the decision predicted that # bloodshed and "a revival of vigilante law will return to the oil fields if minority interests are allowed to break down the new oil price structure."

Coming nearer home, two bills to give the Texas railroad commission increased power in regulating oil and gas production have been passed by the Texas house of representatives: One would allow the commission to inquire into records of refineries and check their run and storage stanks to determine if proration orders were being obseved. Anothe would make penalties for violators who refuse to comply with those in the oil tax law. Neither of the bills received the required 100 votes to make them effective immediately. These bills are pending. Senate action is necessary to send them to Governor Ferguson.

E. L. Dohheney of California in by-gone days was one of the high aces in the petroleum world. He was one of the exploiters of the Mexican fields. He had a very explosive saying, "Wherever there is oil there is hell." In the wide, wide world of today hell appears to be rampant in and out of the oil diggings of the world. There is a way to solve the oil problem, codes and regulations. Rush the Bryant-Atwell decision to the supreme court of the United States. Let the high tribunal of last resort say "the last word."

JAMES ROOSEVELT OPPOSED TO THE CHILD LABOR AMENDMENT

James Roosevelt, the son of his father, is a very active young democrat in the councils of the Massachusetts demoncracy. He has taken strong ground against the ratification by the Massachusetts legislature of the child labor amendment. Legislative committees of the Massachusetts Houston Oil senate and house submitted unfavorable reports as to ratification. President Roosevelt has asked for its ratifica- Johns Manville tion by the states. Young Jimmie Roosevelt is doing his own thinking and he votes the straight democratic ticket.

SPEAKING OF MARRIED WOMEN AND BACHELORS

This for married omen and bachelors: "Harris county apparently frowns on the idea of employing married women and bachelors. Of the 427 men regularly employed by athe county only 68 are bachelors. Of the 144 women employes only 38 are married." Well, lawmakers are tapping new sources of revenue. Why not a head tax on widows, bachelor girls and the real thing-the bachelor -man? Why should they escape the tax collector?

> Training School Enjoys Successful Meeting

The Eastland Standard Trainin school which opened Sunday aft ernoon at the Eastland Methodist church has enjoyed to the fullest degree a very successful school despite the inclement weather cover ing the entire week. The board of managers, taken from Cisco, Eastland, Breckenridge, Carbon, together with chairmen of commit-tees, Mr. and Mrs. B. E. McGlamery, Dr. C. Q. Smith, Mrs. J. E Hickman, Mrs. J. M. Perkins, and Mrs. Milton Newman, have aided to an unlimited extent in making the school one of the most splen lid and instructive in every detail. Mrs. H. H. Durham, who has acted as instructor in "Growth of Re ligion," is also to be complimented upon the manner in which he work has created manifested inter

The second class period scheduled for the 9:45 o'clock hour the evening will bring to a close th week's school of instruction.
