No. 256

## KEEL QUESTIONED IN ARMORY ROBBERY

Now it is reported that Samuel Insull is planning to find refuge in Abyssinia, if Greece won't have him. That man is punishing himself more than the United States would.

### AUTO STRIKE THREATENS TO HALT UPTREND

(Copyright 1934 by United Press.)  
The automobile industry today apparently is moving toward a strike that may tie up the entire industry, spread to other fields and constitute a serious threat to the entire recovery program.  
President Roosevelt, alarmed at the increasing threat of a disastrous strike, was understood to be ready to intervene if necessary. NRA Administrator Johnson was in New York where he had an airplane ready to carry to Detroit any compromise agreed to by the code authority of the automobile industry in secret session there.

The hope for compromise went glimmering in the face of a new set of compliments exchanged by the National Automobile Chamber of Commerce and William Green, president of the American Federation of Labor.

By United Press  
DETROIT, Mich., March 20.—The automobile strike called by the American Federation of Labor will start at 9 a. m. tomorrow at the Hudson plant at Detroit unless the national administration of manufacturers make acceptable offers.

The Hudson plant, employing nearly 14,000 workers, is the focal point of the federation efforts. From that plant, the strike is expected to spread immediately, under the federation direction, into Ford, Lansing and Pontiac plants immediately affected by the strike order are the Fisher Body plant of Flint, Pontiac and Lansing; the Buick plant in Flint, and the Hudson plant in Detroit. The Hudson, Buick and Flint Fisher plants employ about 30,000 men.

### Funeral For Dr. E. D. Townsend to Be 2:30 P. M. Wed.

Dr. Edwin D. Townsend, 73, pioneer Eastland county physician, died at his Eastland home this morning following a lingering illness of some weeks' duration.  
Funeral services have been announced for 2:30 p. m., Wednesday, March 21, at the First Methodist church with the pastor, Rev. E. R. Stanford, in charge. Burial will be in the Eastland cemetery.  
Survivors, besides the widow, are Dr. E. R. Townsend, Eastland, and Mrs. John Kinberg, Ranger.  
Dr. Townsend was born in Keaysburg, Ky., on Sept. 6, 1861. He came to Eastland county with his parents, Mr. and Mrs. John Thomas Townsend, who settled a few miles west of Eastland in 1872.

Dr. Townsend practiced his profession for some years at Llano. He returned to Eastland and had made his home here for a number of years.  
On Dec. 10, last, Dr. and Mrs. Townsend celebrated their fiftieth wedding anniversary at their home in Eastland.

### Abyssinia Closed To Samuel Insull

By United Press  
ADDIS ABABA, Abyssinia, March 20.—One of Samuel Insull's hopes as a place of refuge seemed allusive when local authorities told the United Press he had not obtained a passport visa and would be refused one if he asked for it.  
It was said Insull would not be permitted to enter the country without a visa and it had been decided not to give him one because of legal complications.  
The American legation bar said if Insull arrived here he could be arrested and sued in the consular court as an American citizen.

### Mother Speeding to Bedside of Jockey

By United Press  
HOUSTON, March 20.—Somewhere between New York and Houston is an airplane bringing a little Canadian mother to her 17-year-old jockey son, Tommie Blanchard, who is gravely wounded at a hospital here.

### Wrestler's Wife Held in Killing

Charged with murder, Mrs. Jack Reynolds, wife of the welterweight wrestling champion, is shown here after her arrest in Cincinnati. She was seen with a gun in her hand after the slaying of Philip Citron, alleged handbook operator, and James Meyers, politician, in a Cincinnati cafe, witnesses said.

### Slavisky May Have Been Slain After Banking Collapse

By United Press  
PARIS, France, March 20.—The first evidence that Alexandre Slavisky, banker, whose \$30,000,000 schemes collapsed and led to one of the gravest scandals France has ever known, did not commit suicide, but was slain by secret police to close his lips, was offered today.

Members of the parliamentary commission, investigating the scandal, demanded a new autopsy of his body after viewing films taken immediately after his death in a villa where he was trapped by police.

The films, shown for the first time because they had been barred by the censor, revealed blood streaming from his nostrils and mouth and also apparently from his chest.  
Deputies in the audience failed to see powder burns which would be caused by a close range shot.

### Playground-Volley Ball Finals Were Played Saturday

The Eastland County Interscholastic League playground ball and volleyball contests were held last week.

In the playground ball contest of the girls high school division the following school entrants won distinction: Rising Star, 1st; Eastland 2nd; Gorman, 3rd. Rural girls division: New Hope, 1st; Pleasant Hill, 2nd; Bullock, 3rd. Boys high school division: Eastland, 1st; Ranger, 2nd; Cisco 3rd. Rising Star, 4th. In the rural boys division, New Hope won 1st; Mangum, 2nd; Flatwoods, 3rd.

Volley ball (all contestants girls) Class A high school, Eastland 1st; Rising Star, 2nd; Ranger, 3rd. Class B high school: Carbon, 1st; Colony, 2nd; Morton Valley, 3rd. Rural school: Flatwoods, 1st; New Hope, 2nd. Ward school, Morton Valley, 1st; Eastland Junior High, 2nd, and Carbon, 3rd.

### Amelia Earhart Is Before Air Hearing

By United Press  
WASHINGTON, March 20.—Amelia Earhart Putnam, first woman to fly the Atlantic alone, appeared to a senate committee today not to kill aviation with strict regulations before it has a chance to grow.  
Mrs. Putnam, fifth in a string of famous fliers who have testified on a proposed bill to return air mail contracts to commercial operators, asked the post office committee to "consider plans for the future."  
"Aviation is a very young industry," she said. "Any bill you have in mind should be very simple. I think it is urgent, however, to do something for aviation immediately."

### LARGE CROWD ATTENDS FIRST COOKING CLASS

A large crowd attended the first session of the Happy Kitchen Cooking School, sponsored by the Ranger Times, aided by a large number of Ranger firms. Not only was Ranger well represented, but other towns in this section of the country had a number present.  
The school opened at 2:30 with Mrs. Martha McDonald, culinary expert, in charge of the classes.  
When asked what her primary aim in the Happy Kitchen is, Mrs. McDonald replied, "That's easy. It's the little things about the kitchen that count most."  
"Most women are already good cooks. I don't even try to go through a full course in cooking from the beginning to the end. That would be almost impossible. But I can help answer some of the problems that confront the housewife in her kitchen; how to get variety in her menu, what makes meringues fall; how to use that little dash of spice or flavor that adds so much to a dish; how to successfully bake cakes and pies and many other little problems that arise in the kitchen."

Out of town visitors at the first session of the school were: Mrs. V. M. Hamilton, Olden; Mrs. Nix, Olden; Mrs. Henry Collins, Olden; Mrs. C. N. Norton, Olden; Mrs. Dave Vermillion, Olden; Mrs. May Miller, Frankell; Mrs. M. S. Battles, Fort Stockton; Mrs. W. W. Pledger, Olden.

Ranger firms who are participating and are helping to make the school a success and the products they are demonstrating, are: Harcrow Bakery, pies, cakes and bread; A. J. Ratliff, Gold Chain Flour; Montgomery Ward and Company, gas ranges and kitchen cabinet; Texas Louisiana Power Company, natural gas; Texas Electric Service Company, electric ranges; Ranger Furniture Exchange, Crosley (Tri) Shelvador; Oakwood Jersey Dairy, pure sweet milk and cream; Adams and Company, groceries; O. K. Grocery and Market, meats; Paramount Pharmacy, hand lotions and cosmetics; Anderson-Pruett, Inc., Chevrolet automobiles; Joseph Dry Goods Company, Nelly Don and Marcy Lee house frocks; Bills Dry Cleaning Plant, cleaning and pressing; Hasson Company, Vitally shoes; J. C. Penney Company, millinery, spring coats and linens; Killingsworth-Cox and Company, cookers, aluminum ware and washing machines; Ghoshon Hotel; Ghoshon Hotel Coffee Shop; Ranger Floral Company, flowers; Clyde H. Davis, jewelry, music, silverware; Home Beauty Shoppe, beauty work; Zim's Botling Works, Dr. Pepper; Childs' Ready-to-Wear, hosiery; Ranger Shoe Hospital, shoe repairing; Piggly Wiggly, coffee.

The remarks of all were directed to the group of workers, urging their support in the movement that will provide Ranger with a much-needed center for activities of various kinds.  
L. H. Flewelling, president of the school board, was chairman of the meeting. He opened the session with a short talk on the work that has been done and outlined the plans that have been met and overcome.  
He called on J. E. Meroney, who represented the Chamber of Commerce in the absence of Dr. P. M. Kuykendall, the president. Mr. Meroney said that the city auditorium plans were backed wholeheartedly by the Chamber of Commerce and pointed out that the first work of tearing down the old Tiffin school and securing materials for the project was started under the RFC.

### Crutchfield Jury Is Being Picked

By United Press  
AMARILLO, March 20.—Selection of a jury was under way here today for the trial of Frank Crutchfield, 27, White Deer, Texas, charged with murder in the slaying of P. G. Burnam, veteran peace officer and one-time employe of Will Rogers, famed cowboy humorist.

### New Local Manager Of Gas Company Is On Job In Ranger

R. B. Canfield, formerly merchandise man for the Texas-Louisiana Power company in the Central Texas division, has arrived in Ranger to take over the management of the Ranger office, to replace Olin Calvin, who resigned to take over the active management of the Cub Dry company at Olney, which he and J. B. St. Clair, now manager for the company at Olney, purchased last Thursday.

Mr. Calvin said he hated to leave Ranger, as he liked it here, but Olney was his home town where he owned some property and where he now owned a business and he was going back there to take over his new duties as a business man of the town.

Mr. Canfield is not unknown in the West Central Texas division as he was for a number of years merchandising man at Breckenridge, where he and Calvin became friends. He has been with the company since 1928 when he was in the accounting department at Fort Worth, later going to Pecos and then to Kermit, where he gained

### Mass Meeting Is Held to Discuss City Auditorium

At a mass meeting, held in the interest of the city auditorium and gymnasium, at the Elks arena Monday night, several speakers lauded the plan for a municipal gathering place and recreation center before a good crowd, composed mostly of CWA workers, and a scattering of business men and school teachers present.

The remarks of all were directed to the group of workers, urging their support in the movement that will provide Ranger with a much-needed center for activities of various kinds.  
L. H. Flewelling, president of the school board, was chairman of the meeting. He opened the session with a short talk on the work that has been done and outlined the plans that have been met and overcome.  
He called on J. E. Meroney, who represented the Chamber of Commerce in the absence of Dr. P. M. Kuykendall, the president. Mr. Meroney said that the city auditorium plans were backed wholeheartedly by the Chamber of Commerce and pointed out that the first work of tearing down the old Tiffin school and securing materials for the project was started under the RFC.

### Senator Woodull Is A Candidate For Lieut. Governor

HOUSTON, March 21.—Senator Walter Woodull of Houston has formally announced his candidacy for the office of lieutenant governor, saying:  
"I aspire to the honor of being lieutenant governor of this state. I was born in Texas and educated in her schools, including the university. I volunteered to serve in her national guard on the border in 1916 and served in the World War. I have been privileged to represent the people of Texas in both houses of the legislature and I believe I know the problems of the state."  
"As the campaign progresses, I will discuss and give to the electorate my position on pertinent issues."

Senator Woodull has represented Harris county in the senate for the past six years and was unanimously elected president pro tempore at the last regular session. He was born in Laredo, Texas, and worked his way through the University of Texas. He led in the organization of Houston community chest, is active in the civic life of this city, and is one of the leading lawyers in this section of the state. Senator Woodull was elected state manager for the Garner-for-president forces in Texas and served in that capacity at the national democratic convention in Chicago.

### Heidingsfelder Is Again Before Court

By United Press  
GEORGETOWN, Texas, March 20.—Selection of jurors began today for the second trial here of C. E. Heidingsfelder, Houston attorney, charged with embezzling \$34,500 from Mrs. Adele Pipkin of New York.  
A defense attempt to delay the hearing was overruled yesterday by the district judge.

### Bill's Prices Are Those Approved By Code; Ad Had Error

In an advertisement for Bill's Dry Cleaning Plant, which appeared in Friday's Times, the price on cleaning and pressing men's suits, ladies' dresses and coats was given at \$1.  
This was an error and should have been 75 cents. The Times is glad to make this correction because Bill Clardy is living up to the cleaning and pressing code and is doing the work and charging the prices agreed upon. Without the correction it might appear that he was trying to cheat when, in fact, the error was made in the Times office.

### County Meet Be Held Mar. 23-24

Final preparations are being made for the interscholastic league meet to be held in Eastland March 23 and 24.  
It is estimated that over 1,500 will attend the meet.  
It has been six years since a similar meet was held in Eastland.  
ST. LOUIS.—The number of cases of colds reported by students attending the St. Louis university has decreased considerably since the health office adopted a policy of refusing to give out excuse slips for cold sufferers.

### RAILWAY MEN ARE WARNED BY PRESIDENT

By United Press  
WASHINGTON, March 20.—President Roosevelt today warned railway management and labor that unless they reached agreement in their wage controversy, it may be necessary for him to act to protect the public interests.  
Mr. Roosevelt's position was set forth in letters to the chairman of the conference committee of managers and the chairman of the railway labor executive association.

Railroad labor has rejected the President's proposal for temporary continuation of the present 10 per cent wage cut. The railroad had agreed to this plan and withdrawn their plan for a further cut.  
But labor today countered with a demand for a 20 per cent increase and shortly thereafter the President dispatched these letters. The President expressed regret to learn no progress toward an agreement had been made at the conference and expressed the fear that the good of the country was being overlooked.  
He also warned that in stepping into the picture he might have to appoint a commission to examine thoroughly into the labor controversy "in order that the country may be advised of the merits."

### State Shoot to Be Held at Austin In June of This Year

By United Press  
AUSTIN, Tex.—Experts with firearms soon will be blasting away with practice shots for the annual pistol matches of the Texas State Rifle Association here June 9 and 10.  
Charles Askins Jr., of the U. S. Border Patrol, will defend his 1933 title at the police pistol range in Zilker Park here. Askins won the championship last year by scoring 274 targets out of a possible 300.

The border patrolman's marksmanship was even more remarkable for the fact he is left-handed. Runner-up last year was R. Wilzewski, a private at Fort Bliss, El Paso, who scored 273. Don Nissen, San Antonio, was third with 272.  
The big bore rifle tournament, usually held at Camp Mabry here, will be staged at Camp Bullis in San Antonio Sept. 13-16. Sergeant Umberger, 23rd Infantry, Fort Sam Houston, won the 1933 championship with 325 hits out of a possible 350.  
Runners-up and possible 1934 champions were Gene Farren, Houston, 325, and Sergeant Huntington, 9th Infantry, Fort Sam Houston, 324.

Small bore riflemen will open fire in Fort Worth May 26 and 27 in an effort to wrest from Thurman Randle, Dallas, the title won last year with 1092 hits out of a possible 1100.  
Randle is one of the most widely known marksmen in the middle west. Close behind in last year's tournament were Gene Farren, Houston, 1089, and R. C. Pope, Dallas, 1086.

### County Meet Be Held Mar. 23-24

Final preparations are being made for the interscholastic league meet to be held in Eastland March 23 and 24.  
It is estimated that over 1,500 will attend the meet.  
It has been six years since a similar meet was held in Eastland.  
ST. LOUIS.—The number of cases of colds reported by students attending the St. Louis university has decreased considerably since the health office adopted a policy of refusing to give out excuse slips for cold sufferers.

### Wax May Solve Death Mystery

Science seeks the key to the mystery of the death of Paul W. Kittleman, Milwaukee policeman, and serious injury of Mrs. Lillian Ehrbracht, police matron, shown here, found in wreckage of an auto near Waukegan, Ill. Kittleman died of a bullet wound. Hands of both were coated with paraffin to ascertain if they contain nitrate specks, always present after a pistol is fired, scientists say, to determine who fired the fatal shot.

### Four Bandits Rob Texas Bank And Escape With \$900

By United Press  
ROTAN, March 20.—Four bandits, equipped with machine guns, today robbed the First National Bank of Rotan and escaped with approximately \$900 in silver.

The robbery was staged after the bandits entered the American Legion hall, captured night watchman Nathan Kelly and five young boys, bound all six with chains, then took them to the bank.  
One of the youths, Jerry Sheppard, put up a fight. He was subdued by a blow from the butt of a pistol. Physicians said he suffered a severe scalp wound.  
Weapons were pointed at the prisoners while the bandits burned holes through the vault. All telephone cables were cut before the robbery.

After spending about an hour in the bank, the bandits fled toward Sweetwater, 30 miles south of here, in an automobile.

### Body of Athlete Is Found After Search

By United Press  
FORT WORTH, March 20.—W. F. (Ted) Potter, 43, hailed during his college days as one of the fleetest hurdlers at Yale, was found dead here today.  
His body, a broken rope around the neck was found under a tree near the White Settlement road north of the Rivercrest Country club. Death, officers believed, had occurred a week ago. An inquest was held but the verdict was not made public. A piece of the rope also dangled from the tree.

### Committee Favors New Air Mail Bill

By United Press  
WASHINGTON, March 20.—A new airmail bill which would place the service on the same basis as railway mail was before the senate post office committee today with informal sentiment indicating it would be approved.

An informal United Press poll of committee members showed 11 of 19 ready to support the measure, presented by Senator O'Mahoney, democrat, Wyoming, rather than the controversial Black-McKellar bill.

### THEFT OF FOUR MACHINE GUNS BEING PROBED

Labor Agitator Is Picked Up For Questioning By Texas Rangers.

Texas Rangers were in Eastland this morning investigating clues in connection with the robbery of the National Guard armory in Ranger a few days ago at which time four machine guns, 13 army type pistols and a large quantity of ammunition were taken by burglars who pried the lock off the front door of the building to gain entrance.

It was the general belief among officers at the time of the robbery that it was committed by agents of some outlaw band.

Clues the officers are now working on, however, have more or less local connections. L. C. Keel of Ranger, who was taken into custody by Eastland officers in Eastland some weeks ago and held a short time in connection with some alleged disturbances about the Eastland CWA headquarters, was under investigation by the Rangers in connection with the Ranger National Guard armory burglary. Keel had before his former arrest been engaged in an attempt to organize CWA workers in this and adjoining counties.

Officers are said to have information that organizers, or would-be organizers of workers in this section, have been holding secret meetings which have been attended by agitators. It is not known whether or not Keel has been present at any of these meetings.

Keel, who has been under the surveillance of department of justice agents, Texas Rangers, and local officers for some time, even before his arrest at Eastland a few weeks ago, told officers when he was released at Eastland that he would cease his activities as an organizer.

### Eastland To Be Represented In Speaking Contest

W. P. Palm, principal of Eastland high school, is in receipt of a letter from C. M. Caldwell, chairman of the "My Home Town Speaking Contest," an annual contest sponsored by the West Texas Chamber of Commerce which occurs this year at the meeting of the body in San Angelo May 14, 15 and 16.

The letter stated that Eastland was invited to enter a contestant, making mention of the prizes which will be offered to those who win.

### New Yorker Held As a French Spy

By United Press  
PARIS, France, March 20.—Robert G. Switz, young New Yorker, was revealed by his own confession today as the Paris chief of the international spy gang which they said operated on behalf of Soviet Russia and Germany to learn secrets of France, Great Britain and the United States.

With Switz is held his wife, the former Marjorie Tilly, a Vassar girl. After a mercurial cross-examination lasting far into the night, Switz made admissions which led to five arrests in addition to 20 already made. American and British secret agents were said to have co-operated in uncovering the ring.  
The young Switz succeeded to leadership of the conspiracy a year ago, police said, after the original chief had been nearly trapped and fled from France.

ORGANIZED LABOR AND THE DEMANDS OF ITS SPOKESMEN

Rep. William Connery of Massachusetts is a democrat. He is chairman of the house committee on labor. He is responsible for a compulsory universal 30-hour work week measure reported favorably by his committee. Indeed, it had the unanimous support of the committee. It would prohibit any decrease in wages. It establishes a 30-hour week in all industries "but provides for exemptions in emergency cases." It prohibits a worker from being employed on side jobs which would increase his income.

The Connery bill has aroused strenuous opposition. Indeed, the program presented by the President met vigorous opposition and reaction at the conference of 2000 code authority delegates. A Chicago manufacturer made vigorous criticism of the President's program. This is what he asked: "What are we going to use for money if we pay the same wage for less work?"

Henry Ford is the employer of an army of workers. He reviewed in a statement to the press the recovery program and commented on the President's advice to industry. This was the point he stressed: "The only way to hire more men is to create more markets. The men with new jobs will furnish new markets. The difficulty as far as industry is concerned is finding a place to employ the men before the market exists to make their employment profitable." In conclusion his words were significant: "More men will manufacture more goods and industry must find a market for their products or the jobs will eat up the industry."

There is another bill pending in the house of representatives. It is known as the Black bill for a six-hour day for railroad workers. There is bitter opposition to the measure on the part of the Association of Railroad Executives. Their spokesman declared that the enactment of the measure into law would increase rail operating expenses by \$600,000,000. This is the text of his argument: "If the six-hour day with eight hours pay had been in effect in 1932 the result would have been that the railroads amounts to earn their actual expenses without any regard for interest charges or other return on investments. It would have curtailed railroad purchasing and the railroads are ordinarily the largest purchasers from the heavy industries in which the unemployment situation is most acute." Indeed, the voice of the Association of Railway Executives predicted that a six-hour day without any reduction in wages would threaten many of the larger lines with bankruptcy.

On the heels of this came the announcement from New York that the creators of the Van Sweringen rail system, one of the largest in America, had defaulted interest payments on a \$40,000,000 loan advanced by the J. P. Morgan banking company and that the bankers were in practical control of the vast rail property. All the economic

Delinquent Taxes One-Third of All Tax Values of 1885

AUSTIN, March 23.—A startling sidelight of the present state-wide delinquent tax education campaign sponsored by the Texas Junior Chamber of Commerce was revealed today through a cursory examination of the tax records of 50 years ago now filed in the archives at the state capitol here. The amount of delinquent taxes now on the tax rolls over Texas amounts to approximately \$120,000,000 and is one-third of the entire assessed value of all Texas

regime when it was handled by that organization.
Dr. Harry A. Logsdon, mayor of the city, was called on next. He stated that the city commission was 100 per cent behind the movement and had stood ready to do everything in the power of the city commission to keep the workers in jobs, either on the streets or on any other worth-while project, such as the city auditorium, and would continue to do so. He urged the support of the laboring group in completing the building.

By Art Krenz First 1934 Cotton Checks Sent Out To the Producers

WASHINGTON, March 20.—The first rental payments under 1934-35 cotton reduction contracts were made today, when checks totaling \$1,609,116 were mailed to 38 cotton producers of Tallapoosa county, Georgia. This represents the first installment of a total of \$11,137,830 which will be paid to these producers for this year's acreage reduction.

represents half of the total, is expected to be completed by April 30. The second installment will be distributed between Aug. 1 and Sept. 30.

The estimated acreage rented under all 1934-35 contracts that had been signed on March 14 totaled 15,152,653 acres, Cully A. Cobb, chief of the cotton section, announced today. This is 38.19 per cent of the base acreage of contracting producers, whose acreage remaining in production will total 24,276,725 acres.

The total number of contracts that had been signed on March 14 was 945,030. Of this number 769,780 had been approved by the community and county committees by that date, and 184,250 were awaiting approval.

with the belief that something definite was now being accomplished toward the completion of the project.

ACTOR GIVES SWEDEN HOME

STOCKHOLM.—The Stockholm home of Anders de Wahl, Sweden's most celebrated actor, was donated by the artist to the city as a future haven for some deserving thespian. The donation was made on de Wahl's 65th birthday.

Additional Seats Being Added For Elk Dempsey Card

Additional seats are being added in anticipation of the large crowd Friday night when Jack Dempsey makes a personal appearance at the Elks Arena.

Dempsey will arrive about the time the show starts and will leave as soon as the card is over for Hollywood. This will be his only appearance in West Texas and fans are advised to get their tickets early to see this greatest of all fighters.

Brown has begun to replace black for full dress in Munich. If the fashion leaders eliminated the wing collar and bow tie, they'd really be doing the thing up brown.

Is This Too Good for Your Cough?

Creosolium may be a better help than you need. It combines seven major helps in one—the best helps known to science. It is made for quick relief, for safety. Mild coughs often yield to less er helps. No one can tell. No one knows which factor will do most for any certain cough. So careful people, more and more, are using Creosolium for any cough that starts. The cost is a little more than a single help. But your druggist guarantees it, so it costs nothing if it fails to bring you quick relief. Coughs are danger signals. For safety's sake, deal with them in the best known way. (adv.)

Local Manager—

Continued from page 1
first hand information on oil gas and water in the Winkler field. He later went to Breckenridge in the commercial department and then to Clifton, where he remained until accepting a position as manager of the Ranger office.

Mr. Cobb stated today that the machinery for disbursing the checks to contracting producers was complete and the rapidity with which checks were distributed would depend, in a large degree, upon the promptness with which the approved contracts were received in Washington.

Continued from page 1

Mr. Canfield said today that he would go to Clifton this week-end

and his wife would come back to Ranger with him to make their home as citizens of the town. While in Clifton he will oversee the shipment of his furniture to Ranger.

E. B. Cain, district manager from Breckenridge, was in Ranger this morning helping Mr. Canfield to become acquainted with his new duties. Mr. Calvin will remain in Ranger until the first of next week, helping the new manager to become accustomed to his new duties, after which he will move to Olney to make his home.

FOUCA CITY, Ok.—Based on a claim they were never adequately compensated for 700,000 acres they vacated in 1870 to come to Oklahoma, the 800 Otoe Indians living here have asked the federal government for \$11,000,000.

It tastes SO GOOD!

### Germans Cheer An American Singer

By United Press  
PARIS.—Suzanne Fischer, of Sutton, W. Va., has been enthusiastically received by the Berlin Staatsoper, the Paris Opera and the Opera-Comique. The word used by musical critics as descriptive of her European debut is "unique."

For the past three years, Miss Fischer has been singing at the Berlin Staatsoper, following a year's study in Germany on a Juillard School scholarship which she received in New York. As Cho-Cho-San, Madame Butterfly, she brought forth exceptional applause from Chancellor Hitler, who attended the opening performance in Berlin.

Although the young American singer is under contract to give 40 performances in Berlin, during a week in Paris she has arranged for guest appearances at the Paris Opera, the Opera-Comique and to give at least one concert in England. In discussing the technical side of music, Miss Fischer took a firm stand in asserting that "real musical experience is to be found only in Europe, but the United States offers the best musical training in the world."

### In Musical Film at Arcadia Now

Here's TODAY'S Coffee Shop Harmony

### Southwestern Oil Men Will Meet at Ft. Worth April 20

By United Press  
FORT WORTH.—Five hundred oil men from all sections of the Southwest are expected here April 20 and 21 for the spring meeting of the Southwestern District of the Production division of the American Petroleum Institute.

Stanley Thompson, chairman of the Chamber of Commerce oil and gas committee, and five general committees have started work on details of the two-day convention which has been set to fall on Texas Derby Day at Arlington Downs race track.

The visiting oil men will be the guests of the Fort Worth Chamber of Commerce at noon luncheon, April 21. A speaker of national prominence will discuss matters of primary interest to the industry, Thompson said.

Discussions of the petroleum NRA code and its application in the Southwest are scheduled as are papers and talks on various technical and practical subjects. W. T. Doherty, Houston, is program chairman.

### Arcadia Saturday Night

One of the beauties appearing on the stage at the Arcadia theatre Saturday night in connection with the showing of "Scarlet Love."

### Frat Pledge Pin Clue to Robbery

OXFORD, Ohio.—A fraternity pledge pin, left on the coat of a fleeing student, has solved the mysterious disappearance of old and valuable books from the Miami university library here.

The student's confession came after all pledges of the fraternity were asked to produce their pledge pins. All did so except the one man, according to authorities.

Some 100 books on various subjects have been stolen. Practically all were recovered from the student's room, along with letters he had written to second-hand book dealers in various cities.

### New Yorker Defends Idaho Jackrabbits

By United Press  
BOISE, Idaho.—Idaho's jackrabbits have found a true friend in humanity at last. He is Willard G. Van Name, New York city, who wrote the Idaho state CWA administration protesting use of funds for an anti-rabbit-war.

"I wish to enter a protest against the use of CWA funds for a campaign of extermination of jackrabbits in Idaho," Van Name, a member of the American Museum of Natural History, wrote. "It does not appear that rabbits are troublesome enough there to induce people to take any measures to get rid of them at their own expense and the taxpayers of New York and other states in the east should not be called upon to do it for them."

"The Idaho scheme seems, from newspaper items, to consist of two parts: First, a big rabbit drive, largely for the amusement of local people, at public expense, and second, a poisoning campaign, which will certainly result in the wholesale destruction of valuable and beneficial wild creatures as well, probably of some that are claimed to be troublesome."

"The broadcast scattering of poison is detestable and inexcusable business which the federal government would do far better to prohibit than engage in."

Girls, beware of falling in love with men who have flat heads, says a British woman surgeon. Better fat heads than flat heads, eh?

### Federal Credit Bank Rediscount Rate Is Now Lowest Ever

HOUSTON.—The Federal Intermediate Credit Bank of Houston has fixed its discount rate effective March 16, 1934, at 2 1/2 per cent per annum. It was announced here Friday by Dwight P. Reordan, president of the Federal Intermediate Credit bank. The new discount rate of 2 1/2 per cent is the lowest rate charged by the bank since its organization June 19, 1923. Since Dec. 19, 1932, the rate had been 3 per cent per annum.

Mr. Reordan explained that these rates of discount are governed by the interest rate paid by the bank on its debentures and the favorable market for these securities is due to the recognition by investors of the fact that the Intermediate Credit Bank system has during its more than ten years existence been conducted along sound business lines.

"The Federal Intermediate Credit bank does not make loans directly to individual farmers and stockmen but extends credit to financing institutions, which make loans for agricultural and livestock production purposes, such as production credit associations, State and national banks, livestock loan companies, and agricultural credit corporations. This bank also makes direct loans to farmers' cooperative marketing and purchasing associations on the security of warehouse receipts or shipping documents covering staple agricultural commodities. The rate of interest which a credit institution may charge the farmer or stockman on a note discounted with the Federal Intermediate Credit bank may not exceed the bank's current discount rate by more than 3 per cent per annum. While the new discount rate of the bank is in effect the maximum interest rate to the farmer and stockmen will be 5 1/2 per cent per annum," Mr. Reordan said.

At the close of business Thursday, the Federal Intermediate Credit Bank of Houston had outstanding loans and discounts totaling approximately \$22,000,000.00.

FAMED BAZAAR MAY GO  
ISTANBUL.—It is proposed to destroy the vast Grand Bazaar at Istanbul, which is one of the chief points of interest for American and other foreign visitors.

For centuries this maze of vaulted alleys, with crazy stone pavements and tiny shops, covering a square mile of Stamboul's heights, has been the scene of innumerable bargainings. But now many parts of the vaultings threaten to collapse, and the municipality of Istanbul is not prepared to spend \$250,000 in repairs.

# SISTER MARY'S KITCHEN

BY SISTER MARY  
SEA Service Staff Writer

**FISH** lends itself to many appetizing salad combinations for Lenten meals. A luncheon of a vegetable cream soup, a fish salad, hot rolls or rye bread, and a simple dessert of fruit is a nourishing and inviting meal.

Smoked and salted fish can be used to excellent advantage in salads as well as canned and fresh fish. There is a smoked herring salad that seems to be a particular favorite with men and is especially suitable for a supper salad to serve with one of the popular beverages which have been made locally available again.

In choosing fish for salad it's well to select a firm-fleshed variety. Cod, halibut, haddock and salmon separate into firm, coarse flakes that do not crush when combined with other materials. Scallops, shrimp, crabmeat and lobster are generally used in party salads. Scallops might well be used in the every-day luncheon salad, because they are full of minerals and not as highly flavored as the other varieties of fish.

The most important step in making a successful fish salad lies in thoroughly marinating the fish in lemon juice before combining with other materials. Allow at least an hour for the fish to stand in its marinade on ice.

#### To Heighten Flavor

While the choice of additional material requires careful consideration, it is less essential than the seasoning. In gassy instances the added material also contributes seasoning, as in the case of celery. Usually extra ingredients are added to give body to the mixture and subdue the strong fish taste. The addition of capers to many fish salads is a vast improvement. Finely shredded cabbage is inexpensive and makes an excellent substitute for celery with such fish as cod, haddock, halibut and scallops. Shredded leaf lettuce combines well with such fish as salmon and tuna. Green peas, canned or freshly cooked, are good.

#### Tomorrow's Menu

**BREAKFAST:** Pineapple juice, cereal, cream, bread, crumbunct, reheated rolls, milk, coffee.

**LUNCHEON:** Onion soup with cheese, apple and celery salad, graham bread, children's sponge cake, grape juice.

**DINNER:** Vegetable loaf with tomato sauce, red cabbage salad, apple-gingerbread with whipped cream, milk, coffee.

with shrimp, salmon and tuna fish. Hard cooked eggs often are added to fish salad, but they are used in the capacity of an extender rather than for seasoning or contrast. Richly flavored fish, such as tuna, combines with eggs to make a delicately flavored salad. Since eggs furnish much the same food values found in fish, no nourishment is sacrificed by the combination.

Pickled beets cut in fancy shapes, pickles in infinite variety and form, sliced stuffed olives and shredded green and red sweet peppers make attractive garnishes for salads as well as supplying a piquant touch.

#### Herring Salad

One and one-half cups flaked herring, 1-2 cup diced celery, 1 cup diced cold boiled potatoes, 1 sweet pickle, 2 hard cooked eggs, French dressing, 1-4 cup whipping cream, 2 canned pineapples, 1-2 cup mayonnaise.

Let herring soak in cold water for one hour. Drain and simmer in hot water for fifteen minutes. Drain and cool. Separate into flakes. Mince pickle, chop egg coarsely. Mix with celery, potatoes, eggs and pickle. Add French dressing, cover and let stand on ice for one hour. When ready to serve, whip cream and add pineapple cubed through a sieve. Mix with mayonnaise and use to garnish salad arranged on a bed of lettuce.

# MANY IDEAS OF FIRST LADY NOW IN ACTION

By RUBY A. BLACK  
United Press Staff Correspondent

WASHINGTON.—A year ago Mrs. Franklin D. Roosevelt entered the White House, expressed the hope that she would find some time to read, and indicated that she would relinquish her public activities, although she might find some "not strictly political" things to do and say.

During that year she has seen many of her dreams come true—but not the one about time for reading.

She has traveled from coast to coast in airplanes and now she is going even farther, to Puerto Rico and the Virgin Islands, across a part of the Caribbean Sea, to learn about other spots where the Stars and Stripes fly. She made a 4,000-

mile motor trip through New England and Canada, and visited the South, the Middle West, the Far West, and "Down East" Maine.

From all these trips she has returned and told government officials, from the President down, pertinent facts about the country and the people. Many of these facts have guided government action.

She can, she carefully says, merely co-operate with government officials. Since, however, they seek her information and suggestions, many of her ideas have been translated into action.

#### Disclaims Credit

Here are some of the dreams she has seen come true in the last year:

Child labor has been almost abolished. (She won't admit she had anything to do with it.)

Women are guaranteed equal pay for equal work in NRA codes, because she discussed the question with Recovery Administrator Hugh S. Johnson.

Undernourished children in the District of Columbia are being fed milk and fresh vegetables at lunch because she suspected that a special "show" was put on when she visited the lunch rooms, and later made an unannounced visit which revealed the truth.

All over the country, subsistence homesteads are being developed with government loans because she and Mr. Roosevelt had long dreamed of decentralizing industry, aiding people in living in sunshine and fresh air where they can grow their vegetables and obtain their cash income from factory work. Mrs. Roosevelt has a large part in all these projects, particularly in the first, at Reedsville, W. Va., which she has visited five times and which was started first because she took time to go and inspect the groundwork, already laid by other agencies, and insist that as soon as possible these stranded unemployed miners be given an opportunity to make their livings again.

The homes being built on these farm-factory projects are to have plumbing and electricity. Jobless women were given equitable consideration in CWA projects because Mrs. Roosevelt was interested.

Unemployed artists—painters, sculptors, actors, musicians—got CWA jobs because she called attention to the fact that something had been done to nearly every other group of workers except them.

#### Takes Active Part

She has humanized the White House. More people—ordinary people—have seen the second floor than ever saw it before. She has made it the Roosevelt family home, and yet has admitted the people to it. She has made even the formal functions seem as if they were parties she was interested in giving. She invites many people to lunch and dinner with her. She gives informal parties.

#### Decides Liquor Problem

An issue Mrs. Roosevelt had to confront which has bothered "First Ladies" for many administrations was that of serving legal alcoholic beverages in the White House. When beer was legalized, Mrs. Roosevelt issued a formal statement that beer would not be served from the White House, although she herself did not drink alcoholic beverages. When other liquor was legalized, she issued a statement that no distilled liquors

### SILLY SYMPHONY SUSPECTED

By United Press  
TULARE, Cal.—A 20-page book every word of which begins with the letter "S" is the property of City Clerk C. A. Paulsen. It is

entitled "Shadrach Stevens' Speculations," and was written in San Francisco in 1877. Writing it, Stevens told the story of his mining stock gambling, and tried to recoup his losses. The book is now a rarity.

would be served in the White House, and that wine, when served, would be simple, with American wines preferred.

Mrs. Roosevelt's activities have constantly increased in scope during her year in the White House. It took about a year to make her act as freely as she did before March 4, 1933.

On Feb. 19, Mrs. Roosevelt's name entered into debate in the Senate, in connection with the successful fight in the Senate to strike out the appropriation bill rider which the House of Representatives adopted to prevent the purchase of postoffice equipment from the Reedsville factory. Senator M. M. Neely, (Dem., W. Va.), answering critics of the project, who wanted to know if the government intended to build factories for other unemployed people said:

"If their suffering were as great as that of the West Virginia coal

miners has been, the Senator from West Virginia would favor any plan to relieve them that Mrs. Roosevelt or anyone else of unobstructed vision and unerring judgment might propose."

**SERVE CAKE 75 YEARS OLD**  
BROCKTON, Mass.—Mr. and Mrs. Fred F. Field Sr., who celebrated their fiftieth wedding anniversary, had three wedding cakes on the table. One was 75 years old, one 50 years and another one day old. The oldest cake, still in good condition, was Mrs. Field's mother's wedding cake, and the 50-year-old one was her own wedding cake.

**39 GREAT-GRANDCHILDREN**  
GREENE, Mo.—Mrs. Anna J. Rose, who recently observed her 96th birthday anniversary, has more descendants than anyone in this section of New England. Her great-grandchildren alone number 39.

### Plans to Remove Surplus Cattle to Be Talked at Meet

By United Press  
SAN ANTONIO, Tex.—Plans to remove surplus cattle from a harassed market will be discussed at the 58th annual convention of Texas and Southwestern Cattle Raisers' Association here beginning March 20.

Marketing methods, import duties on beef and by-products, and the effect of taxes upon the cattle empires of the Southwest are other topics due consideration, according to E. B. Spiller, secretary of the association.

Speyng heifer calves in order to control production on the range is one of the most prominently mentioned plans due the attention of cattlemen. Owners of limited herds and of purebred animals have

subjected to the "plan" as a hardship on them.

Cattlemen from Oklahoma, Mexico and Texas are expected to assemble here for the meeting.

Delight Briscoe, Uvalde, will side over the convention.

Panhandle cattlemen are expected to support W. T. Cobb, Amarillo, now first vice-president for election as Briscoe's successor.

### ENCOURAGE SILVER USE

By United Press  
NEWPORT BEACH, Calif.—To encourage the circulation of silver coins, merchants of this town give an extra 10 per cent trade when silver dollars are used in making purchases. The municipal government payroll will also be entirely in silver which residents feel is an aid to mining and also keeps the money within the city.

### A Message to the Women:

The school is the 11th annual one to be held by The Times and they have always been enthusiastically attended by the ladies of this community each year. There is no charge and everything is free. The usual prizes for attendance will be given away daily.

Mrs. McDonald stated: "Please tell the women of this city in your paper today that I am not here to teach them how to cook, for to attempt such a thing would be a direct insult, but merely to show them fashion in foods—how to market for food just the same as for a dress or other merchandise, and to bring to them unique dishes that will prove interesting for party menus, as well as for everyday family use."

Tuesday afternoon, the first day, she will probably take for demonstration salads, frozen desserts, make an orange pie, bake a Devil's food cake, and present other interesting recipes along these lines. A short talk on marketing will be given.

### Sea Captain Does Not Believe Tales Of Sea Monsters

HOUSTON.—Strange tales of sea monsters are given little credence by Capt. B. Ryberg of the Swedish freighter, Ragnhildsholm, the recent at Cherbourg, France, notwithstanding.

If those good burghers of Cherbourg saw correctly and there was a sea monster washed ashore they will have to keep the animal preserved until Captain Ryberg sees fit for himself to believe it.

He is strong in his belief that if there are sea serpents that must remain at great depths and could not survive if they came to the surface. Many are the stories that have found their way to his cabin but he smiles at them all.

Men of veracity have recounted strange stories to him but he remains dubious.

A skipper of a fishing boat once told of a monster rising out of the sea and breaking the mast of the ship while soaring over it. Another friend told of an eel-like thing, its head 14 feet in the air and its great tail churning the waters 50 or 60 feet behind it.

Once they tell their stories they stick to them, Capt. Ryberg said.

### Savants Say Death Only Comparative

By JAMES F. WICKIZER  
United Press Staff Correspondent  
BERKELEY, Cal.—Life often arrives after "death," experiments revealed today, and the question arises: "Dead—but how dead?"

Organisms considered dead live under favorable conditions, Dr. F. M. Uber, research associate in botany, found. A living death, he revealed, is shown by X-radiated mold cells which have three different kinds of "post mortem" growth.

Suicide by gas or potassium cyanide is always doubtful because methylene blue can often restore the victim. Disease bacteria, pronounced dead after application of a disinfectant, have been found to infect guinea pigs with the disease.

Prolonged growth of "dead" organisms in the university laboratory have led Uber and others to believe that "death" is an ambiguous term. Under conditions favorable to life, he has found that death is an indefinite state.

"Dead" cells are not brought back to life," Dr. Uber explained. "They are only dead to a certain degree and will still grow."

Uber and Dr. D. R. Goddard have conducted experiments with X-radiation on bakery mold cells. People, plants, reptiles and bacteria, considered dead, when properly treated have continued to grow. Plants with the roots removed can be made to grow by the application of certain chemicals.

More than a popular superstition, Dr. Uber said, is the fact a "dead" snake will wiggle for several hours. Even beheaded and skinned, the reptile's circulatory system will continue to pulsate for several hours, showing that cells are continuing to divide—that the snake is still growing.

By X-radiating the spores of common bakery mold, Uber and Goddard destroyed certain functions. In one instance they destroyed the sexual reproduction function. After being apparently incapable of growth the spores reproduced themselves vegetatively. The scientists destroyed one of the two nuclei contained in each

### Linked in French Swindle Probe

Suspected also as a Hitler agent, Marianne Kupfer, Hungarian opera singer, above, comes into the probe of the weird mystery of the Stavisky gawshop scandal in France, just given a serious setback by the murder in Dijon of Magistrate Albert Prince, who almost alone knew the secret of the scandal. Police are investigating Mlle. Kupfer's relations with Stavisky.

### Man's Quakes Reveal Oil Source

TULSA, Okla.—How man-made earthquakes have replaced wild-cattling in the location of petroleum deposits will be demonstrated here at the "World's Fair of the Petroleum Industry," or International Petroleum Exposition and Congress, May 12 to 19, according to W. A. Schlueter, scientific and technical committee chairman.

"The first oil well producer was a wildcatter," said Schlueter. "It was just dug with the hopes of striking oil. Today wildcattling is as much out of date as is the old spingole which was used to support the drilling tools of the first well.

"With the seismograph, or instrument used by geologists in the locating of oil pools, drilling has become a science. The pool hunting party includes the surveyors, who determine all elevation and mark out locations for shot holes and geophone stations.

"Shot holes are drilled from 10 to 100 feet deep by the core drill crew and the trucking crew lower dynamite into the holes. The recording crew station themselves at the geophone stations with all the instruments and the observer gives the signal for the 'earthquake.'

"The seismograph, sensitive to

the resultant shock, records the underlying strata and formations and their depth by the resisting power of the various strata. Oil is known to be in certain kinds of strata, and if the seismograph says that such stratum is below the tested ground, then the chances are that oil will be found. Thus drilling is begun."

### Report Shows Air Travel Is Safe

KANSAS CITY, Mo.—An index to the increasing safety of air travel was contained in the annual report of Roy C. Farrell, manager of the Kansas City municipal airport.

The report showed that 42,859 passengers embarked or disembarked from planes at the airport in 1933 without any accidents.

With a total of 19,198 landings and 18,240 takeoffs, only two serious accidents and one fatality occurred, according to the report. Total poundage of mail carried at the airport showed a decrease. The poundage totaled 379,785, a decrease of 78,939 pounds under 1932.

Total passenger business, including commercial transport and army operations, showed a gain of 5,520 for the year, bringing the 1933 total to 51,056. Despite restricted military flying, a total of 1,553 army flyers used the airport in 1933.

### Nutria Now Raised Successfully in U. S.

By United Press  
OLATHE, Kan.—James G. Manning, who imported the first nutria, or South American beaver, to this country, believes the demand for the animals' fur will result in numerous domestic breeding farms in the United States.

The nutria, unlike its North American cousin, does not indulge in tree cutting and dam building, but seems content to eat heartily of carrots, other vegetables and weeds, and swim about a tank.

The animals are easily raised, according to Manning, who now has 18. The original pair died recently. The adult male weighs about 25 pounds. They reproduce at the rate of about five litters every two years with from four to 11 young in a litter.

### Much Pleased With Cardui

"My first experience with Cardui began when I was just a girl," writes Mrs. Millard Wallis, of Apple Grove, W. Va. "I took it for painful relief. It gave me great relief. I have taken it at intervals since I was married twelve years ago. Before the birth of my first baby, I was weak and run-down. I was very nervous and did not get the rest I needed at night. I took six bottles of Cardui. I regained my strength and felt fine. I have taken it since as a tonic and to keep from having pains at menstruating time."

Those congressmen voted for the bonus to war veterans as if the money were to be distributed among themselves.

### Belgian Socialists For Leopold Rule

By United Press  
BRUSSELS.—Belgium is showing herself to be distinctly antifascist.

Political circumstances attending the death of King Albert and the accession of Leopold III to the throne revealed the Belgian socialists rallying to the crown as an insurance against fascism and dictatorship.

It is noteworthy that at the time of King Albert's assumption of the scepter the socialists were violently opposed to him. But the recent ascent of the throne by King Leopold disclosed a united socialist party favoring continuance of the constitutional monarchy.

Besides the tribute which the socialist leader, Emile Vandervelde, accorded to the late Albert, the central committee of the socialist party, representing more than a third of the electorate, voted to participate in the parliamentary declaration which is the traditional message from the legislative bodies to the new king. The message, read in the form of an address to Leopold after he was sworn to his high office, implied that in their hopes and aims the Belgian people are all solidly behind the king and constitution.

By participating in the declaration the socialists hoped to strengthen constitutional government and avoid, possibly even suppress, fascism, which has not yet assumed the importance of a definite party.

Vandervelde and other socialists explained their anti-royalist attitude at the beginning of Albert's reign was due to social injustice, but they emphasized that Albert, as the most democratic of kings, gave equal privileges to the people by social legislation and that the socialists are accordingly ready to support the equally constitutional successor to the throne, Leopold.

### "NOT CONSTIPATED FOR SEVEN WEEKS"

Writes Mrs. Johnson After Using Kellogg's ALL-BRAN

"I suffer from constipation and am interested in this unsolicited letter."

"Your ALL-BRAN surely relieves constipation. I am so glad over the fact it has done me that I feel I must write and tell you of it."

"For lunch I take a banana, a large one. Six tablespoons of ALL-BRAN in a sauce dish, and dip almonds at each bite until all is consumed. I haven't been constipated now for seven weeks."—Mrs. Louise Johnson, 1433 Forest Street, Denver, Colorado.

Constipation often causes headaches, loss of appetite and energy, sleeplessness. This condition is usually due to lack of "bulk" to exercise the intestines, and vitamin B further promotes regular habits. Kellogg's ALL-BRAN has both, as well as iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Within the body, it forms a soft mass. It clears out the wastes.

Try ALL-BRAN in place of patent medicines—often harmful. Two spoonfuls daily will overcome most types of constipation. Chronic cases, with each meal. If not relieved this way, see your doctor.

Use as a cereal, or in cooking. Comes on the red-and-green packages. Sold by all grocers. Made by Kellogg in Battle Creek.

### WALTHAM TO AID NEEDY

By United Press  
WALTHAM, Mass.—"Share-a-meal" is this city's slogan for helping the needy. The plan is to install baskets in all provision stores in Waltham. Customers are urged to deposit portions of their purchases as they leave. Storekeepers also are asked to contribute.

## SISTER MARY'S KITCHEN

BY SISTER MARY  
NEA Service Staff Writer

**FISH** lends itself to many appetizing salad combinations for Lenten meals. A luncheon of a vegetable cream soup, a fish salad, hot rolls or rye bread, and a simple dessert of fruit is a nourishing and inviting meal.

Smoked and salted fish can be used to excellent advantage in salads as well as canned and fresh fish. There is a smoked herring salad that seems to be a particular favorite with men and is especially suitable for a supper salad to serve with one of the popular beverages which have been made legally available again.

In choosing fish for salad it's well to select a firm-fleshed variety. Cod, halibut, haddock and salmon separate into firm, coarse flakes that do not crush when combined with other materials. Scallops, shrimp, crabmeat and lobster are generally used in party salads.

Scallops might well be used in the every-day luncheon salad, because they are full of minerals and not as highly flavored as the other varieties of fish.

The most important step in making a successful fish salad lies in thoroughly marinating the fish in lemon juice before combining with other materials. Allow at least an hour for the fish to stand in its marinade on ice.

**To Heighten Flavor**

While the choice of additional material requires careful consideration, it is less essential than the seasoning. In many instances the added material also contributes seasoning, as in the case of celery. Usually extra ingredients are added to give body to the mixture and subdue the strong fish taste. The addition of capers to many fish salads is a vast improvement.

Finely shredded cabbage is inexpensive and makes an excellent substitute for celery with such fish as cod, haddock, halibut and scallops. Shredded leaf lettuce combines well with such fish as salmon and tuna. Green peas, canned or freshly cooked, are good

**Tomorrow's Menu**  
**BREAKFAST**—Pineapple juice, cereal, cream, bread crumbs, omelet, reheated rolls, milk, coffee.  
**LUNCHEON**—Onion soup with cheese, apple and celery salad, graham bread, children's sponge cake, grape juice.  
**DINNER**—Vegetable loaf with tomato sauce, red cabbage salad, apple-gingerbread with whipped cream, milk, coffee.

with shrimp, salmon and tuna fish. Hard cooked eggs often are added to fish salad, but they are used in the capacity of an extender rather than for seasoning or contrast. Richly flavored fish, such as tuna, combined with eggs to make a delicately flavored salad. Since eggs furnish much the same food values found in fish, no nourishment is sacrificed by the combination.

Pickled beets cut in fancy shapes, pickles in infinite variety and form, sliced stuffed olives and shredded green and red sweet peppers make attractive garnishes for salads as well as supplying a piquant touch.

**Herring Salad**

One and one-half cups flaked herring, 1-2 cup diced celery, 1 cup diced cold boiled potatoes, 1 sweet pickle, 2 hard cooked eggs, French dressing, 1-4 cup whipping cream, 3 canned pimientos, 1-2 cup mayonnaise.

Let herring soak in cold water for one hour. Drain and simmer in hot water for fifteen minutes (drain and cool). Separate into flakes. Mince pickle. Chop egg coarsely. Mix with celery, potatoes, eggs and pickle. Add French dressing, cover and let stand on ice for one hour. When ready to serve, whip cream and add pimientos rubbed through a sieve. Mix with mayonnaise and use to garnish salad arranged on a hot plate.

## MANY IDEAS OF FIRST LADY NOW IN ACTION

By RUBY A. BLACK  
United Press Staff Correspondent  
WASHINGTON.—A year ago Mrs. Franklin D. Roosevelt entered the White House, expressed the hope that she would find some time to read, and indicated that she would relinquish her public activities, although she might find some "not strictly political" things to do and say.

During that year she has seen many of her dreams come true—but not the one about time for reading.

She has traveled from coast to coast in airplanes and now she is going even farther, to Puerto Rico and the Virgin Islands, across a part of the Caribbean Sea, to learn about other spots where the Stars and Stripes fly. She made a 4,000-

mile motor trip through New England and Canada, and visited the South, the Middle West, the Far West, and "Down East" Maine.

From all these trips she has returned and told government officials, from the President down, pertinent facts about the country and the people. Many of these facts have guided government actions.

She can, she carefully says, merely co-operate with government officials. Since, however, they seek her information and suggestions, many of her ideas have been translated into action.

**Disclaims Credit**  
Here are some of the dreams she has seen come true in the last year:

Child labor has been almost abolished. (She won't admit she had anything to do with it.)

Women are guaranteed equal pay for equal work in NRA codes, because she discussed the question with Recovery Administrator Hugh S. Johnson.

Undernourished children in the District of Columbia are being fed milk and fresh vegetables at lunch because she suggested that a special "show" was put on when she visited the lunch rooms, and later made an unannounced visit which revealed the truth.

All over the country, subsistence homesteads are being developed with government loans because she and Mr. Roosevelt had long dreamed of decentralizing industry, aiding people in living in sunshine and fresh air where they can grow their vegetables and obtain their cash income from factory work.

Mrs. Roosevelt has a large part in all these projects, particularly in the first, at Reidsville, W. Va., which she has visited five times and which was started first because she took time to go and inspect the groundwork, already laid by other agencies, and insist that as soon as possible these stranded unemployed miners be given an opportunity to make their livings again.

The homes being built on these farm-factory projects are to have plumbing and electricity.

Jobless women were given equitable consideration in CWA projects because Mrs. Roosevelt was interested.

Unemployed artists—painters, sculptors, actors, musicians—got CWA jobs because she called attention to the fact that something had been done to nearly every other group of workers except them.

**Takes Active Part**  
She has humanized the White House. More people—ordinary people—have seen the second floor than ever saw it before. She has made it the Roosevelt family home, and yet has admitted the people to it. She has made even the formal functions seem as if they were parties she was interested in giving. She invites many people to lunch and dinner with her. She gives informal parties.

**Decides Liquor Problem**  
An issue Mrs. Roosevelt had to confront which has not bothered "First Ladies" for many administrations was that of serving legal alcoholic beverages in the White House. When beer was legalized, Mrs. Roosevelt issued a formal statement that beer would not be served from the White House, although she herself did not drink alcoholic beverages. When other liquor was legalized, she issued a statement that no distilled liquors

would be served in the White House, and that wine, when served, would be simple, with American wines preferred.

Mrs. Roosevelt's activities have constantly increased in scope during her year in the White House. It took about a year to make her act as freely as she did before March 4, 1933.

On Feb. 19, Mrs. Roosevelt's name entered into debate in the Senate, in connection with the successful fight in the Senate to strike out the appropriation bill rider which the House of Representatives adopted to prevent the purchase of postoffice equipment from the Reidsville factory. Senator M. M. Neely (Dem., W. Va.), answering critics of the project, who wanted to know if the government intended to build factories for other unemployed people said:

"If their suffering were as great as that of the West Virginia coal

miners has been, the Senator from West Virginia would favor any plan to relieve them that Mrs. Roosevelt or anyone else of unobstructed vision and unerring judgment might propose."

**SERVE CAKE 75 YEARS OLD**  
BROCKTON, Mass.—Mr. and Mrs. Fred F. Field Sr., who celebrated their fiftieth wedding anniversary, had three wedding cakes on the table. One was 75 years old, one 50 years and another one day old. The oldest cake, still in good condition, was Mrs. Field's mother's wedding cake, and the 50-year-old one was her own wedding cake.

**39 GREAT GRANDCHILDREN**  
GREENE, Me.—Mrs. Anna J. Rose, who recently observed her 90th birthday anniversary, has more descendants than anyone in this section of New England. Her great-grandchildren alone number 39.

### Plans to Remove Surplus Cattle to Be Talked at Meet

By United Press  
SAN ANTONIO, Tex.—Plans to remove surplus cattle from a harassed market will be discussed at the 55th annual convention of Texas and Southwestern Cattle Raisers' Association here beginning March 20.

Marketing methods, import duties on beef and by-products, and the effect of taxes upon the cattle empires of the Southwest are other topics due consideration, according to E. B. Spiller, secretary of the association.

Speying heifer calves in order to control production on the range is one of the most prominently mentioned plans due the attention of cattlemen. Owners of limited herds and of purebred animals have

objected to the plan as making hardships on them.

Cattlemen from Oklahoma, New Mexico and Texas are expected to assemble here for the meeting. Delph Briscoe, Uvalde, will preside over the convention.

Fanhandle cattlemen are expected to support W. T. Childs, Amarillo, now first vice-president, for election as Briscoe's successor.

**ENCOURAGE SILVER USE**  
By United Press  
NEWPORT BEACH, Calif.—To encourage the circulation of silver coins, merchants of this beach town give an extra 10 per cent in trade when silver dollars are used in making purchases. The municipal government payroll will also be entirely in silver which residents feel is an aid to mining and also keeps the money within the city.

### Sea Captain Does Not Believe Tales Of Sea Monsters

HOUSTON.—Strange tales of sea monsters are given little credence by Capt. B. Ryberg of the Swedish freighter, Ragnhildholm, the recent at Cherbourg, France, notwithstanding.

If those good burghers of Cherbourg saw correctly and there was a sea monster washed ashore they will have to keep the animal preserved until Captain Ryberg sees it for himself to believe it.

He is strong in his belief that if there are sea serpents they must remain at great depths and could not survive if they came to the surface. Many are the stories that have found the way to his cabin but he smiles at them all.

Men of veracity have recounted strange stories to him but he remains dubious.

A skipper of a fishing boat once told of a monster rising out of the sea and breaking the mast of the ship while soaring over it. Another friend told of an eel-like thing, its head 14 feet in the air and its great tail churning the waters 50 or 60 feet behind it.

Once they tell their stories they stick to them, Capt. Ryberg said.

### Savants Say Death Only Comparative

By JAMES F. WICKIZER  
United Press Staff Correspondent  
BERKELEY, Cal.—Life often survives after "death" experiments revealed today, and the question arises:

"Dead—but how dead?"  
Organisms considered dead live under favorable conditions. Dr. F. M. Uber, research associate in botany, found. A living death, he revealed, is shown by X-radiated mold cells which have three different kinds of "post mortem" growth.

Suicide by gas or potassium cyanide is always doubtful because methylene blue can often restore the victim. Disease bacteria, pronounced dead after application of a disinfectant, have been found to infect guinea pigs with the disease.

Prolonged growth of "dead" organisms in the university laboratory have led Uber and others to believe that "death" is an ambiguous term. Under conditions favorable to life, he has found that death is an indefinite state.

"Dead" cells are not brought back to life," Dr. Uber explained. "They are only dead to a certain degree and will still grow."  
Uber and Dr. D. R. Goddard have conducted experiments with X-radiation on bakery mold cells.

People, plants, reptiles and bacteria, considered dead, when properly treated have continued to grow. Plants with the roots removed can be made to grow by the application of certain chemicals.

More than a popular superstition, Dr. Uber said, is the fact a "dead" snake will wiggle for several hours. Even beheaded and skinned, the reptile's circulatory system will continue to pulsate for several hours, showing that cells are continuing to divide—that the snake is still growing.

By X-radiating the spores of common bakery mold, Uber and Goddard destroyed certain functions. In one instance they destroyed the sexual reproduction function. After being apparently incapable of growth the spores reproduced themselves vegetatively.

The scientists destroyed one of the two nuclei contained in each

### NOT CONSTIPATED FOR SEVEN WEEKS

Writes Mrs. Johnson After Using Kellogg's ALL-BRAN

Sufferers from constipation will be interested in this unsolicited letter:

"Your ALL-BRAN surely relieves constipation. I am so glad over the good it has done me that I feel I must write and tell you of it."

"For lunch I take a banana, a slice one. Six tablespoons of ALL-BRAN in a sauce dish, and dip banana at each bite until all is consumed. I haven't been constipated now for seven weeks."—Mrs. Louise Johnson, 1433 Forest Street, Denver, Colorado.

Constipation often causes headache, loss of appetite and energy, nervousness. This condition is usually due to lack of "bulk" to excite the intestines, and vitamin B further promotes regular habits. Kellogg's ALL-BRAN has both, as well as iron for the blood.

"The 'bulk' in ALL-BRAN is much like that in leafy vegetables. Within the body, it forms a soft mass, gently, it clears out the wastes.

### Linked in French Swindle Probe

Suspected also as a Hitler agent, Marianne Kupfer, Hungarian opera singer, above, comes into the probe of the weird mystery of the Stavisky pawnshop scandal in France, just given a serious setback by the murder in Dijon of Magistrate Albert Prince, who almost alone knew the secret of the scandal. Police are investigating Mlle. Kupfer's relations with Stavisky.

spore, both of which had been believed to be necessary to growth, but the organism grew despite this. When a complimentary nucleus was destroyed the spore grew, but produced a mold of a different color and shape.

### Belgian Socialists For Leopold Rule

By United Press  
BRUSSELS.—Belgium is showing herself to be distinctly antifascist.

Political circumstances attending the death of King Albert and the accession of Leopold III to the throne revealed the Belgian socialists rallying to the crown as an insurance against fascism and dictatorship.

It is noteworthy that at the time of King Albert's assumption of the scepter the socialists were violently opposed to him. But the recent ascent of the throne by King Leopold disclosed a united socialist party favoring continuation of the constitutional monarchy.

Besides the tribute which the socialist leader, Emile Vandervelde, accorded to the late Albert, the central committee of the socialist party, representing more than a third of the electorate, voted to participate in the parliamentary declaration which is the traditional message from the legislative bodies to the new king.

The message, read in the form of an address to Leopold after he was sworn to his high office, implied that in their hopes and aims the Belgian people are all solidly behind the king and constitution.

By participating in the declaration the socialists hoped to strengthen constitutional government and avoid, possibly even suppress, fascism, which has not yet assumed the importance of a definite party.

Vandervelde and other socialists explained their anti-royalist attitude at the beginning of Albert's reign was due to social injustice, but they emphasized that Albert, as the most democratic of kings, gave equal privileges to the people by social legislation and that the socialists are accordingly ready to support the equally constitutional successor to the throne, Leopold.

### WALTHAM TO AID NEEDY

By United Press  
WALTHAM, Mass.—"Share-a-meal" is this city's slogan for helping the needy. The plan is to install baskets in all provision stores in Waltham. Customers are urged to deposit portions of their purchases as they leave. Storekeepers also are asked to contribute.

### Try a WANT-AD!

Political Announcements  
This paper is authorized to announce the following candidates for office, subject to the Democratic Primary Election in July, 1934:

For County Judge: W. D. R. OWEN  
CLYDE L. GARRETT  
For Sheriff: VIRGE FOSTER  
For County Superintendent: CLAIBORNE ELDRIDGE  
For County Treasurer: JOHN WHITE  
For Commissioner, Precinct No. 11: HENRY DAVENPORT

### Man's Quakes Reveal Oil Source

TULSA, Okla.—How man-made earthquakes have replaced wildcatting in the location of petroleum deposits will be demonstrated here at the "World's Fair of the Petroleum Industry," or International Petroleum Exposition and Congress, May 12 to 19, according to W. A. Schlueter, scientific and technical committee chairman.

"The first oil well producer was a wildcatter," said Schlueter. "It was just dug with the hopes of striking oil. Today wildcatter is as much out of date as is the old springhole which was used to support the drilling tools of the first well."

"With the seismograph, or instrument used by geologists in the locating of oil pools, drilling has become a science. The pool hunting party includes the surveyors, who determine all elevation and mark out locations for shot holes and geophone stations."

"Shot holes are drilled from 10 to 100 feet deep by the core drill crew and the trucking crew lower dynamite into the holes. The recording crew station themselves at the geophone stations with all the instruments and the observer gives the signal for the 'earthquake.'"

"The seismograph, sensitive to

### Report Shows Air Travel Is Safe

KANSAS CITY, Mo.—An index to the increasing safety of air travel was contained in the annual report of Roy C. Farrell, manager of the Kansas City municipal airport.

The report showed that 42,859 passengers embarked or disembarked from planes at the airport in 1933 without any accidents.

With a total of 19,198 landings and 18,240 takeoffs, only two serious accidents and one fatality occurred, according to the report.

Total passenger business, including commercial transport and army operations, showed a gain of 5,520 for the year, bringing the 1933 total to 51,056. Despite restricted military flying, a total of 1,553 army flyers used the airport in 1933.

### Nutria Now Raised Successfully in U. S.

By United Press  
OLATHE, Kan.—James G. Manning, who imported the first nutria, or South American beaver, to this country, believes the demand for the animals' fur will result in numerous domestic breeding farms in the United States.

The nutria, unlike its North American cousin, does not indulge in tree cutting and dam building, but seems content to eat heartily of carrots, other vegetables and weeds, and swim about a tank.

The animals are easily raised, according to Manning, who now has 18. The original pair died recently. The adult male weighs about 25 pounds. They reproduce at the rate of about five litters every two years with from four to 11 young in a litter.

### Much Pleased With Cardui

"My first experience with Cardui began when I was just a girl," writes Mrs. Millard Wallis, of Apple Grove, W. Va. "I took it for painful trouble. It gave me great relief. I have taken it at intervals since I was married twelve years ago. Before the birth of my first baby, I was weak and run-down. I was very nervous and did not get the rest I needed at night. I took six bottles of Cardui. I regained my strength and felt fine. I have taken it since as a tonic and to keep from having pains at menstruating time."

ARRITTA DAVENPORT, Editor

**Party Honors**  
**McAuly's of Cisco**  
 Mr. and Mrs. G. C. McAuly entertained with a party at their home, Commerce street, Saturday evening in celebration of the thirty-seventh wedding anniversary of Mr. and Mrs. C. L. McAuly, of Cisco, parents of the host. As the pleasant hour drew to a close slices of cake in colors of green and white with coffee was served. Mr. and Mrs. Homer V. Hodges, Mr. and Mrs. Leonard Pounds, Mr. and Mrs. Bob Cole, Mrs. Allison, Mrs. Doyle Hubbard and baby daughter, Sue, Mrs. R. E. Brown, Miss Winnifred Dunkel, Mr. and Mrs. G. C. McAuly and children Colcen, Nellie Grace, Clifford Lee and Jackie and Vera Rae Gordon and honored guests.

**Attend Services**  
**At Meridian**  
 Mrs. Saunders Gregg, accompanied by James Smith, motored to Meridian yesterday to attend the funeral services this afternoon at 2:30 for Miss Jennie Morgan's father who died at Lubbock Sunday. Miss Morgan, well known teacher in Ranger High school, is extended sympathy by her large number of friends.

**Auxiliary Hour**  
**With Mrs. Thompson**  
 The ladies auxiliary of the Presbyterian church were entertained with an interesting study Monday afternoon given by Mrs. E. L. Fontaine at the home of Mrs. S. W. Thompson, Travis street. A business and social hour was included on the regular program of study. Refreshments were passed by the hostess to five members and one visitor, Mrs. M. L. Battles, of Fort Stockton, daughter of Mr. Fontaine.

 HASSEN COMPANY  
 Ranger, Texas

Worth arrived yesterday for a two week's visit to be spent in Ranger at the home of her parents, Mr. and Mrs. W. S. Murray, Pine street.

Mrs. Ben F. Rigby spent this afternoon in Cisco, where she paid an official visit to the Eastern Star Cisco chapter.

Mr. and Mrs. Olin Calvin, accompanied by Miss Kate Kramer and Frank Hicklin, visited in Breckenridge last evening attending a district meeting of the Texas Louisiana Power Company.

R. L. Maddox, director of the High School Junior and Senior Bands, is confined to his home. Due to Mr. Maddox' illness, all band practices are cancelled for the entire week, to be resumed next Monday evening. All members of the bands are asked to note this announcement.

**Cottage Prayer Meetings**  
 "Again I say unto you, that if two of you shall agree on earth as touching anything that they shall ask it shall be done for them of my Father which is Heaven" (Matt. 18:2).

The Methodist women's meeting Thursday afternoon at 3 o'clock at the different homes the assigned to engage in prayer: Mrs. A. N. Larson circle, meets with Mrs. C. W. Alworth, Strawn highway; Mrs. A. L. Wilson circle,

Mrs. Ed Dixon's residence; Mrs. J. L. Turner circle, at Mrs. Mills Davenport's; Mrs. C. W. Ames' circle, at Mrs. Ray Campbell's, and Mrs. C. A. Smith circle members are asked to get in touch with Mrs. Smith for place of service.

**Misses Sanderson and Trotter Hostesses to Club Wednesday**

Mrs. Ed Sanderson and co-hostess, Mrs. J. F. Trotter, will entertain members of the Lone Star Social club at the clubrooms Wednesday afternoon at 2:30. Matters of interest will be discussed during the business session to be called to order by the president. Members are urged to attend.

**Increasing Interest Noted in W. M. S. Programs**  
 An ever-increasing interest in the Methodist Missionary society is made manifest in the large number that attend regularly, each Monday. The hour so worth while and the fellowship that exists so truly desirable. After the presentation of the playlet, "Mrs. Porter Tries Publicity," in which Mrs. J. W. A. Cox, Mrs. C. W. Ames, Mrs. J. D. McClister, Mrs. S. P. Boon, and Mrs. M. H. Hagaman took part. The society became a beehive of action with the announcements made from each department. Projects personally assigned name the following: Mrs. L. N. Griffin, "The Hill-Billies"; Mrs. McClister, an auction sale; Mrs. L. H. Flewellen, a bake sale; Mrs. G. O. Strong, quilting party; Mrs. Ray Campbell, cottage prayer meetings, and children's department, a silver tea.

Mrs. L. H. Flewellen, included

on the program, gave a beautiful talk carrying as her fitting subject, "Judge Not." (By Mrs. Herbert Stafford, Publicity Chairman)

**Dancing Class to Appear at Arcadia Thursday, Friday**

According to an announcement made this morning by R. E. Garner, manager of the Arcadia theatre, arrangements have been made with Miss Bess Maxwell to present her students of the dance on the Arcadia stage Thursday and Friday.

Miss Maxwell's students have been presented on the Arcadia stage several times during the past two years and have always offered enjoyable entertainment. Due to the large group of students in this act, it was decided to present them two nights with different programs each night. Mr. Garner also stated that there will be two different programs featured on the screen on these nights. The performances will be on the stage at 9 o'clock each night. The following students are in Miss Maxwell's set:

Ranger—Carolyn Ducker, Vera Vivian Cooper, Cecelia McDowell, Jackie Littlefield, Monette Fontaine, Mary Frances Orr, Rose Mary Kirly, Marianna and Madeline Rogers, Clint Davis, Elsie Hummel, Christian Ames, Jimmie Nottingham, and Camilla Hunt.

Cisco—Kathleen Collum, Evelyn Maldane, Marian Jacobs, Mervyn Sandler, Linda Fee, Lillian Spears, Betty Shepherd and Marilyn Shertzer.

Strawn—Thelma Joyce McIntosh.  
 Cross Plains—Patry Ruth Mitchell.

**Citizenship Joins Wartime Buddies**

PITTSBURGH, Pa. — Foreign-born World war veterans applying for free citizenship under a special act of congress witnessed one of those happy renewals of friendship when two former war buddies—one applying for citizenship, the other accepting applications—paused for a moment to shake hands and recall those days of 1918.

John Meno, steel worker of Follansbee, W. Va., and W. W. Wiggins, director of immigration and naturalization here, were members of the Third Regular Infantry at Camp Eagle Pass, Texas, and had not seen each other since breaking ranks.

Meno, although in the U. S. army, was a citizen of Austria.

and therefore could not be sent to foreign shores due to the conflict between this country and Austria. In applying for his citizenship, Meno was flanked on each side by two towering former machine gunners, who vouched for his good behavior during the last five years, a requirement for those desiring to become citizens.

Albert Milligan, Follansbee, W. Va., one of his witnesses, was wounded three times while in France serving with the 11th Infantry machine gun company. On his other side was John Dear, also of Follansbee, and also a machine gunner in the war.
