DILLINGER IS EARLY CAUGHT BY OFFICERS

By United Press
WARSAW, Ind., April 13.—John Dillinger, America's ace-outlaw, returned to his old stamping ground today for a new trail on a police arsenal and barely escaped capture.

The notorious criminal, with a companion identified as Homer a Meter, Indiana parole violator and known associate of Dillinger, fled southwest with a posse of 50 vigilantes close upon his heels.

They fled in a sedan after a mid-race in which they forced an officer to accompany them into a police headquarters, where they absconded three bullet-proof vests and two pistols from police hands.

The officers succeeded in tripping Dillinger as they went down a driveway, causing him to fall down the stairs, but he jumped up and ran.

High School Play Will Be Presented Next Friday Night

The senior class of the Ranger high school will present a three-act play at the high school auditorium next Friday night, April 20, for the purpose of helping to repair the mutilated auditorium curtain.

The play will be "Moon River Rancho," which is being coached by Mrs. R. L. Maddox and Mrs. A. Neill, teachers in the high school.

An admission charge of 10 cents for children under 12 years of age and 25 cents for all over 12 will be made and the entire proceeds will go toward the curtain fund.

The cast of characters is as follows and rehearsals have already begun:

Doc Kennedy, veterinary of the Samantha Jane Carson, the cook, ranch, Boris Belovsky, Vonnell Strong.

Calamity Carson, her son, W. O. Shafer.

Hayne Trevors, foreman of the ranch, Max Reed.

Inez Holcomb, a friend of Jerry's, Mary Helen Childs.

Phyllis Taylor, a neighborhood girl, Dorothy O'Donnell.

A parade with the characters in costume will be held before the opening next Friday night in order to help stimulate interest in the play.

Oil Field Workers Threaten to Strike

By United Press
WASHINGTON, April 13.—Strike of 100,000 oil workers will be called if and when regional wage rates proposed are adopted, Harvey Freming, president of the International Oil Workers union, said today.

"We are prepared to call a general strike—a national strike within 48 hours," he said.

Such a strike he said, would affect all members of the International oil field, gas well and refinery workers of America and would result in the closing down of many refineries.

He declared that this action would be taken to "force an equitable schedule of wages for oil workers as contemplated under the NRA."

National Guards to Have Annual Federal Armory Inspection

Captain Robert J. Kirk Jr., of the United States army, will arrive in Ranger this afternoon to hold the annual federal inspection of Co. I, 142nd Infantry, at the national guard armory tonight.

This is the annual inspection of the company and armory, at which the rating of the company is given for the coming year. The members of the guard unit have prepared for the inspection and the armory is in excellent condition for the inspection.

Soft Ballers In Practice Games

Initial practice of the service station men's team, a unit of the recently organized Soft Ball league, was held Thursday at South Ward school.

HIRE AN IDLE MAN...to Clean Up Paint Up-Fix Up and Help your City and Country

"An Hour of Work Beats a Dollar of Dole"

The week beginning Monday, April 16, which is National Clean-Up Week, has been designated as clean-up week in Ranger by Dr. Harry A. Logsdon, mayor of the City of Ranger, who will issue a proclamation proclaiming clean-up week today or tomorrow.

All the men's and women's clubs in the city of Ranger have been urged to cooperate in seeing that this is the most thorough campaign of its kind ever held in the city and the entire citizenship is being urged to clean up and paint up during the week.

Heads of the various organizations, who were seen today, were glad to cooperate in every way possible and endorsed the movement as a means of better health, sanitation, beautification and employment for those who are not regularly employed.

The following are some of the expressions of endorsement that were received from heads of various organizations today. In some instances it was impossible to contact organizations this morning, but members were heartily in accord with the movement:

In view of the fact that our Governor has designated the week of April 15-21 as "Texas Conservation and Beautification Week," I, as president of the Ranger Lions Club, wish to take this opportunity to state that the club is very much in sympathy with this very worthy move and recommend that the citizens of Ranger enter into the campaign to the fullest extent of their ability.

If each property owner in the city would spend just a little time, money or both if possible in cleaning up the yards, fixing the yard fences, painting the house or the barn; the putting out of a few trees and shrubs, such time and money would be well spent and the effect from a beautifying standpoint would be very gratifying.

J. E. Meroney.

According to Mrs. Mills Davenport, active member of the 1920 Club, much interest is being manifested in the Clean-Up Campaign which has been named for April 15-21. Members are highly in favor of the movement and are anxious to cooperate in every respect.

Mrs. Mills Davenport.

All members of the New Era club are highly in favor of the campaign of Clean-Up Week set aside for April 15-21. Individual attention is centered about the movement and their entire cooperation in every respect is assured.

Mrs. Clyde H. Davis, Secretary New Era Club.

Mrs. Pete Jensen, president of Ranger Child Welfare Club, wholly endorses the campaign of "Texas Conservation and Beautification Week" coming April 15-21. She wishes to take this opportunity to state the members of the Child Welfare will cooperate to the fullest extent, in every manner possible. A thorough discussion of Ranger Clean-Up Week, will be held at the Child Welfare meeting to be held Saturday afternoon at 1:30.

Mrs. Pete Jensen.

The R. M. A. is heartily in favor of the Clean-Up Campaign, not only will it give visitors and others a more favorable impression of our city, but our dispositions will be more cheerful and we will look at the world through rose-colored glasses.

STATE RELIEF NOT TO START NEXT MONDAY

By United Press
FORT WORTH, April 13.—C. A. Braun, Austin, assistant state relief director, told Dr. A. H. Flicker, county relief administrator, today that the government's new work relief program would start Monday, April 16.

He said the program still is scheduled to start April 24, which was ordered yesterday by the new state director. It originally had been slated to start Monday.

By United Press
WASHINGTON, April 13.—The federal emergency relief administration today announced grants of relief funds to seven states including \$193,000 to Texas for transient relief, April 30.

Farley Is Under Fire In Airmail Contract Inquiry

By United Press
WASHINGTON, April 13.—James A. Farley and his democratic subordinates, replaced the republican administration of Former Postmaster General Walter Brown in the air mail investigation picture today.

Sen. Warren Austin, Rep., Vermont, claimed today that the post office department allowed a change in specifications for its temporary air mail contracts to permit certain operators to bid.

Austin said specifications were changed to allow use of single-motored planes instead of multi-motored planes and the change was made at the request of independent operators. Austin said he was prepared to introduce evidence to this effect in the air mail inquiry.

NORRIS READY TO TELL JURORS OF STATEMENT

By United Press
DALLAS, April 13.—Dr. J. Frank Norris, Fort Worth minister, was ready to go before the Dallas county grand jury here today and tell "some things" concerning what he knows of information on Clyde Barrow and Raymond Hamilton received from the local police and the district attorney's office to prevent the fugitives' capture. Norris was summoned several days ago following a speech.

"The boys are hot over what I said about them, but they are going to be hotter when I get through," Norris promised as he sat in the waiting room at the grand jury.

"I didn't tell everything in my talk that I'm going to tell the grand jury. I'm going to charge Dallas county officials have knowledge of and are in collusion of bookers, gamblers and bootleggers. The sheriff's office, the police and the district attorney's office are all in on this."

Barney Ross Is Threatened With A Damage Suit

By United Press
FORT WORTH, April 13.—Damage suits against Barney Ross, lightweight and junior welterweight champions, and New York promoters, were threatened today if the title fight here is finally canceled.

Promoter Dick Griffin announced he had given up hope of holding the fight. Griffin assured ticket holders that he would start a refund of their money as soon as the fight is definitely called off.

Griffin made no attempt to conceal his chagrin at the 11th hour turn of events. He conferred with lawyers on possibility of forcing the fight and on recourse if unable to do so.

Hunter to Open His Campaign at Clifton, April 21

By United Press
WICHITA FALLS, April 13.—Tom Hunter will open his campaign for governor at Clifton, Bosque county, on Saturday, April 21, announced at his headquarters here today. Hunter's decision to open his campaign in Bosque county came as a result of numerous invitations by citizens of Clifton and other communities in that section of the state. Arrangements for a real old-fashioned political gathering are being pushed to completion by a committee of Bosque county citizens, assisted by Hunter leaders in a number of Central Texas counties. Hunter supporters in every section of the state have already notified the state campaign headquarters here that they will bring delegations to the Clifton opening.

In his address at Clifton, Hunter will outline the basic principles of his "Texas Recovery Program" and will enlarge upon the planks of the platform which he recently made public as the basis of his campaign.

Among the subjects Hunter will discuss will be consolidation of state agencies in the interest of reducing governmental costs, revision of the tax system to protect small property owners, assessment of a tax upon excessive incomes, strict regulation of public utilities, rigid supervision of the removal of natural resources from the state to insure an adequate return to the state from this removed wealth, drastic punishment for bribe takers and for office holders who take fees from private interests, elimination of stock manipulations by holding company operations, as well as other items that compose steps in his Texas recovery program.

Already conceded a certainty for one of the places in the runoff primary, Hunter plans an active campaign to follow upon the heels of his opening address at Clifton.

Grocery Is Robbed On Thursday Night

The Ranger police department was today notified that the O. K. Grocery, main street, had been broken into sometime Thursday night or early Friday morning and a small quantity of cigars stolen.

A checkup early Friday morning indicated that only a few packages of cigars from the show case had been taken after the burglars broke in a window to gain entrance. It was thought that a more complete check might reveal other losses, however, though it was indicated that they would be small.

Charging that she was kidnaped at pistol point in an effort to force her to wed, Marjorie Crawford, flying film actress, above, caused arrest of R. C. Dowling, former dance partner of Joan Crawford, in Yuma, Ariz. She declared Dowling held her prisoner in a Yuma hotel till she escaped by a ruse.

RELATIONS ON STATE PAYROLL ARE REVEALED

By United Press
AUSTIN, April 13.—Relationship honeycombing the state payrolls were laid bare here today in an astounding report completed by a joint house and senate investigating committee.

It shows 26.1 per cent of state employees have relatives also employed by the state.

Great discrepancy is revealed in the answers to questionnaires sent out by the committee. Legislators who reported no relatives employed were named by employees in their questionnaires as relatives.

The report called attention to the great number of relatives of department heads employed in other departments, despite denials of "job swapping."

Among the figures the report furnishes are:

Of the 31 state senators, 83.8 per cent have relatives working for the state; 45.6 per cent of the house members have relatives on state payroll.

Employee questionnaires show 4,870 of them have relatives working for the state, while 13,784 reported none. The state highway department, with 7,934 employees reporting, showed 2,009 of them with relatives receiving state pay.

One member of the legislature has nine relatives on state payroll, it was noted. Five employees reported they were related to both senate and house members.

Relationships exist among many employees of state institutions outside of Austin as well as at the state capital, the report said.

Governor Requests For Federal Funds

By United Press
AUSTIN, April 13.—Governor Ferguson's request for an additional \$600,000 federal funds for state relief was enroute to Washington today.

Notice was received here from Federal Administrator Harry Hopkins that the sum would be granted if requested.

The half million is to supply relief needs until cash is received from the recent sale of Texas relief bonds. Cash receipts from the bonds will be available April 20 or 25.

Tool Workers In Detroit On Strike

By United Press
DETROIT, April 13.—Threed thousand and five hundred tool and die workers went on strike today in nearly 100 plants in the Detroit area, which while serious in its potentialities, was far from trying up production as had been threatened.

The strike action does not affect 17 members of the automotive tool and die associations and scores of non-member jobbers. The strikers decided shortly before 11 o'clock last night to leave their machines and the order became effective at midnight. The vote was unanimous.

New Tax Bill Is Near Completion

By United Press
WASHINGTON, April 13.—With only a few amendments left to consider, the senate expected to complete action on the new tax bill today and send it to conference for adjustment of the numerous changes written into the measure in the past several days.

The senate had hoped to pass the bill yesterday, but Senator Huey P. Long interrupted proceedings with a speech and ended hope that work on the legislation might be completed.

\$350 IN CASH AND BAGGAGE IS IN LOOT

Desperadoes Stage Old Time Stage Coach Robbery Early Today.

By United Press
FORT WORTH, April 13.—Three bandits obtained \$350 in cash and an unestimated amount of baggage and personal belongings in a holdup of a Greyhound line transcontinental bus eight miles east of Weatherford today.

The bus was halted in Mineral Wells where a check of the passengers was made before continuing its journey.

Tom Colley, Athens, Texas, was one of the heaviest losers. He was robbed of \$150. Mr. and Mrs. Jack Kendall of Wynnewood Okla. saved \$200 in cash, which they dropped under a seat. They lost only \$20.

The bus carried 23 passengers, including eight women. It left here at 2 a. m. and stopped at Boas Station on the outskirts of Fort Worth, picking up two men. One of them took a seat near the driver, the other going to the rear of the bus. When the bus was about eight miles east of Weatherford the bandit in the front of the car drew a pistol and pointed it at the driver. Simultaneously the man in the rear covered the passengers with a pistol.

They forced the driver to turn the bus up a side road. Meantime, the third bandit, following the bus in a light car, drew up behind the bus, carrying a machine gun. The trio forced the passengers to unload and rifled them of their belongings. Then they fled.

Pacific War Clouds Clear As Fleet Is Leaving West Coast

By CARROLL KENWORTHY
United Press Staff Correspondent
WASHINGTON.—War clouds in the Pacific faded as the combined United States fleet, lying off California, gathered steam to return to the Atlantic after an absence of more than two years.

For the first time since the outbreak of hostilities in Manchuria in 1931, the vista of tranquility in the Pacific basin extended almost as wide as the ocean itself. This left Central Europe the only immediate potential source of new war danger visible in the world

prospect, according to high circles here.

Minor causes of irritation remaining between Japan and the Soviet Union do not alter the general view almost universally expressed in high quarters that no serious trouble may be expected in the Orient in the measurable future.

Even as regards Central Europe, where the racial and political elements are more complicated, officials and diplomats here have an increasing confidence that statements of the influential capitals will maintain a delicate balance until conditions improve basically.

One fundamental element of improvement considered in the new outlook is the promise of better economic conditions, signs of which have been noted intermittently in various countries and were more prevalent in the United

States in recent weeks than for nearly a year.

The departure of the United States grand fleet from the Pacific is the latest in a series of six or more developments helping to tranquilize that area. The grand fleet, composed of the battle fleet, ordinarily stationed in the Pacific, and the scouting fleet, ordinarily stationed in the Atlantic, has been joined in the California-Hawaii vicinity since early in 1932, when joint maneuvers were held there. Originally scheduled to separate, the fleet has been kept together in this area all during the delicate Far Eastern situation since the Manchuria and Shanghai affairs.

Other developments with similar effects recently have been:

1. General quieting of the war talk in Moscow and Tokio, accompanied by signs that the statesmen of both nations wish to avoid conflict now.
2. The exchange of special good will messages between Japanese Foreign Minister Hirota and United States Secretary of State Hull, in which each expressed belief that "there are no questions between our two countries, which if they be viewed in proper perspective in both countries, can with any warrant be regarded as not readily susceptible to adjustment by pacific processes";
3. Passage of the month of March, in which military experts believed it most likely an aggressive nation would start military action;
4. Japan's apparent preoccupation with consolidating the economic and political potentialities of Manchuria and strengthening its ties with China proper, possibly with the idea of deriving further strength from both;
5. President Roosevelt's declaration that the passage of a navy construction bill by congress did not mean the ships would be built, as the money had yet to be appropriated, and his added comment of hope that further naval limitations would occur during the 1935 conference;
6. Tokio's efforts to control and restrict publication of war inflammatory articles in the press and the general subsidence of war preparations propaganda in the United States following passage of the fleet construction bill.

Accident or Crime?

A SICKENING thud on the tan-bark. A split second of agonized silence—then pandemonium. Down a rope slides a white-faced performer, to throw herself hysterically at the side of the crumpled figure of her partner.

A deplorable accident, the manager explained hurriedly. Accident—or revenge? Had somebody tampered with the braces that held the trapeze in position, to send an innocent victim hurtling to tragedy? Who was the criminal?

Farmers Are Warned To Watch Weights Or Cotton Bagging

By United Press
AUSTIN.—State Agricultural Commissioner J. E. McDonald warns Texas farmers that they are being imposed upon in the weight of cotton bagging (bagging) furnished in some parts of the state.

Bagging which weighs two pounds per yard or 12 pounds per six yard pattern long has been standard. Now some gins are putting out 10 pound bagging. The buyer assumes that there is the usual 12 pounds of bagging with the bale so the farmer with a bale in 10 pound wrapping contributes two pounds of lint cotton to make up the difference.

Horses and Mules Much In Demand In the Southwest

By BEN B. SCHIFMAN
KANSAS CITY, Mo.—The horse and mule market of the Southwest is experiencing its best trade in several years and the future promises to be profitable, optimistic dealers said today.

Demand for the hoofed animals has rapidly increased, and recently the supply has been insufficient to meet trade requirements. The strength was attributed to decreased stocks in the district and increased demands from the east and foreign countries.

Shipments from the local market, the second largest in the world and exceeded only by St. Louis in the same state, have been 25 per cent greater than a year ago, which was the best since 1928. This year should surpass the good shipments of 1933 by at least 10,000 head.

Conservative observers say the trade will continue at its present good pace for two more years.

"With prices \$10 to \$25 a head higher than a year ago, and prospects for higher quotations, the dealer and the producer are in line to make good profits," Fred Owen, president of the Kansas City Horse and Mule Commission Company said.

"Never before in the history of the market is there a more propitious time for farmers to raise horses and mules as now," he added. "The breeder is going into this line more in earnest than heretofore as he risks little in this revived trade. What he does not sell he can use for farm work. The trade should be able to absorb at least 1,000,000 head for future use. That figure should be an incentive for breeders to begin large scale operations."

A survey through the southern parts of the district showed farmers going back to breeding and buying jacks and stallions.

The demand for animals from Italy, Spain and Argentina has shown a good improvement. Shipments average around 200 head a month to each country.

A big asset to the trade has been the increased revenue of the south which came from higher prices for cotton and government aid. This area bought more cotton mules of the 800 to 1200 pound type than ever before. The prices ranged from \$75 to \$150.

The eastern trade now is at its height. Buyers from New York, Pittsburgh, Cleveland, Boston and Baltimore are here to make purchases. They were in the market for the heavier draft horse weighing from 1300 to 1700 pounds. This class brought from \$65 to \$125 a head.

There has been some demand for the stock from the farmer who has replaced the tractor and other gasoline-run equipment for the four-legged work animal. Eighty per cent of machinery now owned by farmers is mortgaged and it is doubtful when this becomes obsolete that implement companies again will want to carry them on their books. Consequently, many farmers who do not

want to go deeper into debt are going back to the economical work animal.

Associated lines of business, such as the harness and wagon trade, are enjoying a pickup in business. Sales are above a year ago and the prospects for continued increases are bright.

Highway Engineers To Meet April 14

COLLEGE STATION.—Scores of highway engineers from Texas and from the nation are expected to gather at Texas A. & M. college for the tenth annual highway short course sponsored by the department of civil engineering at the college in cooperation with the State Highway department. The short course will begin Thursday morning, April 12 and will extend through Saturday morning, April 14.

Subject matter for this year's course, according to announcements, will deal primarily with reports of committees, appointed the past year, on such subjects as sub-grade and soil foundations, flexible bases, bituminous surfaces, concrete roads and the like. More than 15 state highway engineers and a number of federal highway experts will appear on the program in addition to contractors, concrete experts and a number of engineering professors from A. & M. and the University of Texas.

Other features of the three-day program will include a discussion Friday morning of federal public works in Texas, by R. A. Thompson, Fort Worth, PWA engineer, and a talk Saturday morning on the subject: "Some Defects in County Government and Their Remedies," by Hon. Otis Miller, county judge of Jones county. Chairmen for the different sessions will include the following: J. J. Richey, head of the civil engineering department at the college; J. T. L. McNew, professor of highway engineering at the college and short course director; H. B. Zachary, Laredo, president of the highway branch, Associated General Contractors; Gibb Gilchrist, Austin, state highway engineer.

Texas Citizens Are Warned of Snakes By Health Officer

AUSTIN, Tex.—Dr. John W. Brown, State Health Officer, has warned everyone to be careful when in the country to prevent snake bites. In Texas the chief offender is the rattlesnake; and, contrary to common belief, it does not always rattle before it strikes.

About seventy-five per cent of all bites occur on the lower extremities and could be prevented, to a large extent, by wearing high top boots or leggings. About twenty per cent occur on the hands or arms. Care should be exercised in not putting the hands in invisible places when climbing rocks, and to look before picking up anything that may be obscured by vegetation, brush or rocks.

If one is bitten, prompt action is necessary and a physician should be obtained as soon as possible. No time should be lost in removing the poison by suction; this can be done by mouth or a suction cup. First a tourniquet should be applied above the wound, so as to increase congestion and assist in washing out the poison. A cross cut incision with a sharp, clean knife or razor blade should be made over each fang mark, or preferably to connect the two fang punctures. These cuts should be at least a quarter of an inch deep and at least that long. Suction should be applied for at least a half hour. The tourniquet should be released every ten or fifteen minutes for a minute at a time.

If bitten by a snake—do not run or get overheated; do not take alcoholic stimulants; do not use potassium permanganate (which is now known to be of no value as an antidote) to cauterize the wound; and do not depend on home remedies.

PAYS WATER BILLS BY CATCHING DOGS

By United Press
GOOSE CREEK, Texas.—Residents unable to pay their water bills may work as dog catchers at 40 cents an hour and apply their time against their accounts. City commissioners approved the plan when delinquencies in water accounts were called to their attention and they were reminded the city was without a dog catcher.

Nerves Do they torture you by day? Keep you awake at night? What is it that keeps hospitals open and doctors busy? NERVES. What is it that makes your face wrinkled and makes you feel old? NERVES. Nine times out of ten it's NERVES that make you restless, worried, haggard.

Nerves Do they make you Cranky, Blue—give you Nervous Indigestion, Nervous Headache? When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache. Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interfere with your work; ruin your pleasure; drive away your friends? You're cheating yourself and the man who pays you if you work when your NERVES are not normal. You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.

HOSPITALIZATION OF CRIPPLED CHILDREN IN TEXAS

Sen. Margie E. Neal is the director of the White Cross seal campaign for the Texas Society for Crippled Children. This incorporated organization has launched a campaign to raise funds to augment state appropriations of \$10,000 per year for the hospitalization of crippled children of the commonwealth. This campaign is in the nature of a White Cross field sale which begins Easter Sunday and closes May 1. A goal has been set by the society of not less than \$25,000 and Sen. Neal hopes that the amount may reach \$60,000. With the 20,000 crippled children in Texas the only woman senator reminds the public the state appropriation of \$10,000 would mean only 50 cents per child. The people can readily see that those administering this new law, which went into effect Sept. 1, 1933, "would be rendered impotent to effectuate any results and for this and many other reasons the Texas Society for Crippled Children has agreed to come to the rescue and to help raise sufficient funds to enable the state to make a satisfactory showing during the first year of the operation of the law.

"Texans are reminded that they responded happily and generously to the call for aid to children crippled from infantile paralysis on the occasion of the President's birthday, but Texans should realize only a small per cent of the crippled children will go to Warm Springs, Ga. This is the Neal appeal: "We must hospitalize them in Texas and as near their homes as possible—this is a matter of economy to the state and of heart interest to the parents."

Sen. Neal, as author of the law which the society is endeavoring to make as effective as possible and as director of the campaign, earnestly urges the press of Texas to give this cause as great publicity as possible and to give the directors what personal assistance it can in furthering "this humanitarian movement." Twenty per cent of the seal sales go toward research to be conducted by the international society for stamping out infantile paralysis and the remainder will be used for hospitalizing the crippled children of the Lone Star commonwealth. This is the call: "Every man, woman and children owe a responsibility to the handicapped of Texas. Easter week, beginning with Easter Sunday, will be known as "Crippled Children's Birthday Week." Every child is asked, if he can, to buy as many seals as he is years of age and not less than one seal at the price of a penny; every adult, likewise, "and a dollar's worth if possible."

It's time some citizens quit WISHING they could do something to help the home city. Actions speak louder than wishes!

More cities die from lack of public spirit than for any other reason.

Blair were guests of Mr. and Mrs. Crofford Thurman Sunday. Several from this community attended the cemetery working at Gorman Tuesday. There was lots of work done and many flowers planted.

Mr. Crofford Thurman invited several to her home Saturday night to play "42" and rummy. Refreshments of ice cream and cake were served to the following: Mackie Roswell, Alvis Denton, Mr. and Mrs. Bill Simpson, Marvin Jones and Miss Fanny Muri Boucher.

Don't forget that Sunday is singing day and everyone come. Mr. and Mrs. Odie Brightwell and family of Deadend and Mr. and Mrs. J. P. Westmorland and children visited Mrs. Minnie Brightwell Sunday.

Mr. and Mrs. Earl Wood delightfully entertained many of their friends Friday evening. Bridge, rummy and "42" were played and refreshments were served to Alvis Denton, Marvin Jones, Miss Fanny Muri Boucher, Miss Mackie Roswell, Mr. and Mrs. George Snyder, Mr. and Mrs. Crafford Thurman, and Mr. and Mrs. J. P. Westmorland.

Several from here attended the play at Alameda Friday night and reported a good play.

— what it means — to store
70 million dollars worth of tobacco
— 4 1/2 miles of warehouses —
Everything that Science knows about is used in making Chesterfields.
One thing we do is to buy mild, ripe tobaccos and then lock up these tobaccos in modern storage warehouses to age and mellow like rare wines.
It takes about 3 years to age the tobaccos for your Chesterfield, for Time does something to tobacco that neither man nor machine can do.
It means something to keep 70 million dollars worth of tobacco in storage. It means just this:
We do everything possible to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
the cigarette that's MILDER the cigarette that TASTES BETTER

WARNING to EXPECTANT MOTHERS

If you have ever been a patient in a hospital, you are probably familiar with the advantages of a laxative.

Doctors know the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit your individual case.

The public, too, is fast returning to the use of liquid laxatives. People are now learning that a properly prepared liquid laxative brings a prompt movement without discomfort at the time, or after, Dr. Caldwell's long experience with others and babies, and his remarkable record of nearly three thousand births without the loss of a mother or child, should give anybody complete confidence in any prescription which he wrote!

But most important of all, a gentle liquid laxative does not cause bowel strain to the most delicate system, and this is of the utmost importance to expectant mothers and to every child.

Expectant mothers are urged to try gentle regulation of bowels with Dr. Caldwell's Syrup Pepsin. It is a delightful tasting laxative of delicate action, made of fresh herbs, pure pepsin and active senna. Not a single mineral drug; nothing to cause strain, or irritate the kidneys.

Dr. Caldwell's Syrup Pepsin is an approved preparation and kept ready for use by all druggists.

Sunday School Lesson

JESUS TEACHES FORGIVENESS
Text: Matt. 18:15-35
The International Uniform Sunday School Lesson for April 15.

By WM. E. GILROY, D. D.
Editor of Advance

There is no lesson that mankind has more to learn than the lesson of forgiveness.

Forgiveness is the center and the heart of the gospel, for the gospel is the message of God's love and of his willingness to give. If we believed that God is all his purity and simplicity, we would look into our lives with distress and anxiety, forgiveness would be the most outstanding need in human life.

Yet, when we contrast this ideal with the actual picture of life, we find a great discrepancy. In those who make the greatest profession of religion are often the hardest and most unyielding in their attitude when someone has done them some real wrong.

The professing Christian often nurtures for years resentful and vindictive feelings, utterly unchristian and utterly unchristian. He looks into our lives with distress and anxiety, forgiveness would be the most outstanding need in human life.

The life of the true Christian is never in the red. There is always a surplus, a margin of profit, for forgiveness is the pouring out of magnanimity of soul, the assets of the divine in human life in the presence of meanness and sinfulness.

It is like the grace of God concerning which the hymn writer sang:

Its streams the whole creation reach
So plentiful is the store
Enough for all, enough for each
Enough for ever more.

Man is most like God in the character and act of forgiveness.

Jesus illustrated this again and again in effective stories, one of which is this story of the unjust servant, the man who wanted mercy when he had done wrong, but who was unwilling to give it toward one who had wronged him.

To him, and to all who are like him, Jesus gives the warning that there can be no forgiveness of God for those who have not forgiveness in their heart.

It is only the man who is capable of forgiveness, who can appropriate the richness and fullness of God's grace.

RUPTURE
SHIELD EXPERT HERE
SHEVNAZ, widely known expert of Chicago, will personally attend the Connell Hotel, East Chicago, Thursday and Friday only, 10 and 20, from 9 a. m. to 5 p. m.

Mr. Shevnan says: The Zaelic method is a tremendous improvement over all former methods, effecting immediate results. It will hold the rupture perfectly, increase the circulation, and close the opening in ten to fifteen days. It is a method of heavy lifting, straining or position the body may assume matter the size or location. A small known scientific method under straps or cumbersome arrangements and absolutely painless or medical treatment.

Mr. Shevnan will be glad to consult without charge or fit your desired.

Anti-War Events

And events so far have proved he does not want a new Russo-Japanese war. These events include:

(1) A complete transformation of the personnel of the higher command of the Japanese army in Manchuria. It was this army which was immediately responsible for the "Manchurian Incident" of Sept. 18, 1931. That incident led to the creation of the independent state of Manchukuo of which the former Emperor of China, Henry Pu Yi, was made Emperor, and the branding of Japan as an outlaw nation by the League of Nations; to Japan's withdrawal from the League; to a drastic revision of the whole process of international thought about "machinery for the preservation of peace." The Emperor of Japan fully appreciated the gravity of the events which his troops had set in motion. He could not prevent the events, but he could take steps to see they were not repeated. And he did. They have been replaced by men who are acting in accord with the Imperial desire.

MERRIMAN

Special Correspondent

We are enjoying this beautiful weather after several days of rain. J. B. Robinson has fully recovered from a spell of pneumonia.

Bill Hood is confined to his home.

"Grandma" Bennett, mother of Mrs. J. L. Bennett, is about the same.

Mrs. Ernest Hood was unable to attend the First District conference of Parent and Teachers which met in Fort Worth April 5 and 6. Mrs. Hood was the delegate.

Mrs. R. F. Blanton, alternate delegate to the First District conference of Parents and Teachers at Fort Worth April 5 and 6 attended and was accompanied by Mrs. J. A. Robinson, Mrs. H. G. Ramsey, Mrs. Dewitt Young, Mrs. Frank Weekes and Mrs. H. D. Smith. Merriman won third place in report of the year's work and also won first place on music poster.

Miss Marjorie Buchanan of Strawn was a week-end visitor of Mrs. H. D. Smith.

Mr. Bryant is still on the sick list.

Little Laura Ruth McDavia who broke her arm some weeks ago is able to attend school again.

Miss Mildred Wheat, who has been a patient at the West Texas Clinic, is at home and improving fast.

Mrs. T. J. Line, who was called to the bedside of her sister, Miss Annie Hand at Weatherford, returned home Friday and reports her sister is greatly improved.

Edna Marie Blanton, who is in Bowie under treatment of her grandfather, Dr. Blanton, is improving.

Mrs. Joe Hunt visited Merriman P. T. A. Tuesday.

T. J. Line is able to be out after being confined to his home for several weeks.

Girl Wins Honors As Rifle Champion

By United Press

PITTSBURGH.—Two years ago Mary Wettach, 19, never had held a rifle in her hands, and today she is Women's National Interscholastic Rifle Champion.

Miss Wettach is champion by virtue of her remarkable score of 598 out of 600 possible points in the recent Women's National Interscholastic Rifle Matches, contests which are held by mail. The used targets are mailed to Washington, where they are compared and scores computed.

Miss Wettach entered Carnegie Tech in 1932. She was told that she would have to take up some extra-curricular activity. She chose the rifle team because shooting was "easy."

Before she had been on the squad long, she was finding the bull's eye more frequently than her teammates and instructors. Last February, just 17 months after she entered college, she made the remarkable score that won the national crown.

Miss Wettach is a native Pittsburgher.

CONFUSION ENDED ON BRAN
New Ruling Makes Labels Accurate

To protect the buying public, the United States Food and Drug Administration has advised that every package of cereal labeled "Bran" state on the label exactly what it contains.

Before this ruling, even bran products were sometimes mistakenly referred to as "Bran." It was not easy for the purchaser to distinguish between a cereal that was entirely bran, or all bran with flavoring, and another that was mostly wheat.

Kellogg's ALL-BRAN is labeled "ALL-BRAN Deliciously Flavored with Salt, Sugar and Salt," a statement which describes the product fairly and honestly.

Kellogg's ALL-BRAN has won millions of friends because it corrects most types of common constipation safely and pleasantly. It furnishes generous "bulk"—needed to promote normal elimination.

However, ALL-BRAN is not a "cure-all." Certain types of intestinal disorders should be treated only on a physician's advice.

When you buy a bran cereal, for the relief of constipation, read the wording on the package. The facts are there! Make sure by asking for Kellogg's ALL-BRAN. It furnishes "bulk" in a form for satisfactory results.

At all grocers. In the red-and-green package. Made by Kellogg in Battle Creek.

Russo-Japanese war might have been the result, for the extreme militarists admittedly believed in Japanese territorial expansion and looked toward Russia's provinces to the north as a direction in which to expand.

Rarely Speaks to People

(4.) The public statements of the Emperor, Japan's ruler rarely speaks directly to his people. When he does speak his words are called a "Rescript." They carry vast weight. They are literally precepts to govern the conduct of every Japanese. They are the "rules of the nation." And the Emperor gave a rescript for peace in March, 1932, when Japan withdrew from the League of Nations. He said:

"Advancement of peace is what, evermore, we desire and our attitude towards enterprises of peace shall sustain no change."

French Say Rivals Secretly Armed

United Press Staff Correspondent

PARIS.—Behind the apparent "armistice" of the political parties represented in the Doumergue National Government, a bitter war of propaganda is lashing political passions throughout France to such an extent that a recurrence of violence in the streets is predicted freely, with the outcome either a dictatorship, or a cabinet of more marked Left tendencies.

Both the Right and Left parties are accusing each other of rapidly and systematically arming in secret. Both agree that arms are being brought in from abroad

to be hidden ready for assembly and use in street fighting.

The traffic in arms has grown, according to responsible newspapers like "Le Matin," since the rioting of Feb. 6. Shipments of war material have been seized by special commissioners of the French police at the Swiss, Belgian and Spanish frontiers, these sources state, echoing the fears that the Stavisky affair has proved an excuse for a final settlement of the issue between Left and Right parties.

Rumors of plots and alleged coup d'etats to occupy the attention of the French that foreign policy, especially disarmament, is relegated into a position of secondary importance. Under the National Government a strong stand on disarmament was anticipated and receives the general support of most French people who believe that the French thesis of security before disarmament is the only tenable one. If France is not to lay herself open to danger of invasion.

The wave of public passion, mingled with political hatreds fanned by propaganda, has deepened France's reaction to the series of significant developments abroad, first with Poland's surprising pact with Germany indicating a cooling off between that country and the French; secondly the equally important tripartite pact engineered by Mussolini in Central Europe; thirdly the anti-French speech by Mussolini which taken in conjunction with France's armament plan, making it seem that the French with the Little

Entente, are in a position of increasing isolation.

Throughout the provinces of France the Socialists are fostering an intensive campaign which they hope will bear fruit if, as expected, Parliament is dissolved and general elections held. This will go down in electoral history as the "clean hands" election.

OHIO BIRDS IN BRAZIL
By United Press

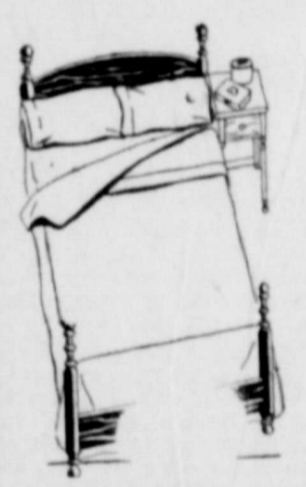

LOGAN, O.—Two birds caught and banded by S. W. Zeigler at Stewart, near here, have been reported re-trapped and observed at Bahia, Brazil, 3,000 miles away. The birds, both killdeers, were captured in the Brazilian town by a girl, Delores Bianca, who wrote Zeigler. Zeigler banded the birds in the spring and they were caught in Brazil in the fall.

ALLEY OOP

BIGGER AND ROOMIER FOR 1934

An interesting contrast which shows the greatly increased value in the 1934 cars as compared with their predecessors is afforded by the comparison given in this illustration between a standard Terraplane of 1933 and its successor, the standard Terraplane of 1934. The drawing of the 1933 Terraplane has been made to the exact scale of the 1934 car and super-imposed upon it with the center of the front wheel hub coinciding. It will be noted that the 1934 Terraplane, which, incidentally, is the largest car in the lowest price field, exceeds in every dimension.

It has a longer hood and due to the different shape of the body, particularly in the rear, considerably more passenger room per inch of wheelbase has been gained. It will be noted that in the 1934 car, the most of the engine, the most of the spare tire is housed within the contour of the body.

The bigger, more powerful engine requires a higher, longer, hood. The radiator is larger and in every way the dimensions exceed those of a year ago and yet, because of the improvements in the engine, the larger size has been off-set by the increased power and performance has actually been improved. A marked contrast is provided at the rear of the car due to the fact that in the 1934 model, the spare tire is housed within the contour of the body.

NEGROES ATTEND FROM CINCINNATI — Negro students, for the first time in the history of the University of Cincinnati, attended the school's junior Prom. Miss Josephine Simrall, dean of women and faculty advisor to the Negro student group, adjusted the viewpoints of both sides. A portion of other students were at first reluctant about mixing of the races at the affair, while several Negro students, who bought tickets and insisted on attending, were permitted their wish.

FAMILY ASKED FOR 6 LOTS — If there were many families like one called LINCOLN, Neb.—If there were all the plains of Nebraska would be insufficient to provide space for sustenance gardens. James Lewis, director of allocation of plots for gardens under the federal sustenance plan here, announced that one family of 14 persons had applied for six vacant lots.

OLDEN

Special Correspondent
"The College Hobo," four-act comedy which was presented at the Olden Methodist church Tuesday night, by members of the junior high school class, played to a full house and a highly appreciative audience which included many Eastland and Ranger citizens.

There was scarcely any standing room left when the play started. It was a hilarious play and each member of the cast seemed especially suited to their part. They all demonstrated histrionic ability much above the average amateur. The cast included Sydney Sapulver as the college hobo; Elizabeth Everett as Sally Sims; Eloise Morton as Patricia Rochester; Francis Edwards as Aunt Susy; Elmer Stanford as the college matron; D. M. Collins as "Red"; Earl Connel as Johnnie Johnson; A. C. Gibson as a young minister; James Ward Robinson as an old farmer.

Between the first and second act, Mildred Wynn, Eloise Morton, Ruby Curry and Jean Adams as the "Oldenettes," sang some popular songs. Between the second and third acts, Arlean Belcher and Katherine Stanton sang a duet. Between the third and fourth acts, D. M. Collins and Earl Connel sang and D. M. played the guitar. Mary Ford at the piano accompanied the other numbers. The Olden children's orchestra played several numbers. Thompson Pickens, popular high school teacher, directed the play and was in charge of all rehearsals.

Mrs. Carl Timmons was ill the latter part of last week but was able to be back in school Monday.

Mr. Canafax, who formerly was agent for the T. & P. Railway company here but who has been away several months, is back at this time, taking the place of Mr. Tate, who has gone to Roscoe on business and expects to be gone about three months. Mr. and Mrs. Canafax have an apartment at the Olden hotel. They will be joined later by their two children, who are in school at Millsap.

The county singing convention which met Saturday night and Sunday at the Olden Baptist church was well attended and a splendid meeting was held and enjoyed by all. Mr. Stamps and his protege, a young boy who played the piano and the accordion, were here for the Saturday night singing. Mr. Fisher of Eastland, the Rippeet brothers and many other well known singers attended and helped make this singing exceptionally enjoyable.

The school trustee election, held Saturday at the schoolhouse, polled a very light vote, only 25 voters appearing at the polls. H. C. Nix and Carl Butler were re-elected. Those holding the election were L. S. Hamilton, judge, and T. H. Stanton and Olive Stephens, clerks.

Clyde Anderson won third place in the mile run in district track meet at Breckenridge last Saturday.

Ranger ball team played Olden Sunday afternoon at the Magnolia ball diamond. It was a close game and witnessed by a large crowd of fans. Howell pitched for Olden and when in the last half of the ninth inning, the score was 4 to 1 in favor of Ranger, Ranger's pitcher walked Lois Groves, giving Olden's man on third a score and making the score 4 to 2 with the bases full. Howell stepped up to bat and knocked a hard ball through center field, scoring three men and winning the game for Olden by a score of 5 to 4 in what was one of the most exciting games witnessed on this diamond for several years.

C. L. Ford and family visited relatives, the L. V. Ford family, here Saturday, returning to their home at Graham Sunday morning.

Olden Boy Scout troop attended a court of honor in Ranger last week at which time Johnny Jarrett received his Eagle Scout badge and other scouts received various degrees and badges including tenderfoot, first and second class badges. CHAPTER XXXVIII

TWO years later the engagement of Estelle Field and Alec Davids was announced. "I suppose we might as well try it, Alec," Estelle had finally conceded.

Alec said ironically and with a glint in his eyes that would have told her much had she been wise enough to read it. "I am very eager to try it."

"This last fare of father's has ended the possibility of my staying with him," Estelle confided in an undertone. Alec drawled, "I don't blame you. Dancers are such an old story. It's really unforgivable of him to show such taste!"

She was hurt by that but she was accustomed now to being hurt. Probably, Estelle had decided, no one would ever quite understand her well enough to say the right thing at the right time. And no doubt, as her father said, she was very demanding. "Demand a little more of yourself," Jim Field had advised her again and again, "and less of other people. You'll find the results more satisfactory."

Without doubt, she decided, she was a square peg in a round hole and destined to remain one. She had found no pleasure in her new friends or in sharing their activities. She had only found a little of the forgetfulness she was constantly seeking in a rather feverish and youthful way.

"Everyone in the regiment is out of step but you, Estelle," her father often said and the chest had told. She was "odd," she decided. A misfit. In such a case the only thing to do was to pretend to be like the others.

So Estelle played a little too hard, spoke the new language that she had learned, and scolded her self soundly for the moments of hopelessness that swept her when she was alone or for an instant quiet.

"I'm going to try to make you happy, Alec," she promised the day she agreed to marry him. He kissed her then with a fervor so ardent for her comfort. Alec was determined now to "show her who was master."

"You'd better!" he assured her. She did not like that either.

"What's the matter now?" he asked a little roughly, attempting to find the reason for the sudden change in her eyes.

"Something's always the matter with me," she answered honestly. "You should know that by now. I think I was born on a cloudy night when my star could be seen only dimly and through a haze. I'm always groping, never sure and never quite warm or happy."

"Oh, rot!" he broke out, wearied. "I believe you enjoy these Russian moods. Sometimes — to speak frankly, Estelle — I've felt a good deal of sympathy for your father. You haven't made his life very easy."

Tears brimmed in her eyes at that, although she was now far beyond the stage where tears come easily and can wash away a hurt. She had tried to forget all her father's cruelties, had resolved that as long as she stayed with him it was better to maintain some sort of peace. Her efforts, however, had not accomplished much except to provide an open gate through which her father could pour his disapproval. Trying never seemed to get one much except more hurt. Estelle reflected. Life was far from the simple thing she had supposed it to be in the old days when she wandered about the garden of the convent school in Paris. There she had dreamed mistily of growing up and falling in love with some fine man of marrying him and living happily — as in the fairy tales — forever after.

Now she was sure about very little. Especially was she uncertain about marrying Alec, yet she knew that she must get away from her father who of late months seemed to be clutching with desperate, blunt fingers at such joys as he could comprehend.

"DON'T take everything so seriously," Marcia advised Estelle when they met one morning at a musicale. Estelle was looking white, strained and rather tense. "It's really not worth it, you know. Men are men and we can't change them. We can only pretend to be sweetly unaware. But then you've always been an incorrigible idealist just as your mother was. You know what it did to her!"

Estelle agreed to that.

"Play hard, expect nothing and take everything! I've told you that before but you wouldn't listen to me," Marcia went on. "You'll have to do it some day. We all have to — unless we die young!"

"I'm beginning to believe you," Estelle responded. "If that is any satisfaction to you."

"Rather bitter mood you're in today, isn't it?" Marcia drawled. "But never mind! Some day you'll grow up and when you do you'll realize nothing is really important but your own comfort and your bank balance. Then you won't be bitter any longer. You'll find it all rather amusing."

She left Estelle soon afterward, smiling faintly and nodding goodby. Marcia thought, "Poor

Jim! In spite of the fact that he's a rotter he has his troubles. I imagine having someone around who expects you to be a Sir Galahad — even at breakfast!"

Marcia returned to her home for the privilege of eating her lunch in solitude. It was a little more than three years since her departure from Cuba on the Fields yacht cruise. Marcia always stirred her more than she cared to admit and today she wanted a chance to recover her usual aloof composure before meeting any of her acquaintances.

Music made her dream of so much that could never be for her. Sometimes for weeks she kept away from any spot where she would hear good music. Then her hunger for it would assert itself and she would succumb — to be regarded with enchanting, misty glances that never failed to bring with them an ache of melancholy and unrest.

THAT morning throughout the program she had thought constantly of Pablito, the boy who had disappeared. She had almost persuaded herself recently that the whole thing was past, that finding Pablito was an impossibility and that she might as well give up the search. This morning, through the music, the memory of Pablito had gripped her once more, renewing her feeling of responsibility for him.

"Oh, damn!" Marcia said sharply, as she rode homeward.

In the small sitting room that adjoined her bedroom she settled and spoke impatiently to her maid the orders for luncheon in a petulant sharp voice and then glanced through the letters on her desk. None of them were of consequence. Marcia picked up a newspaper next. A headline on the first page made her eyes narrow.

"Rather dramatic!" she murmured. Then she smiled, reflecting that here was another dreamy idealist who would be a match for Estelle Field — this man who for years had shouldered his wife's guilt.

The headline read: "Death Bed Confession of Norris Noyes' Wife Resurrects Old Case."

Marcia read the words in smaller type and then the long column that followed. Afterward she read it all over again more carefully. When she had finished the second reading she sprang up and hurried to the telephone.

She jerked open the carved door of the cabinet so viciously that a hinge loosened.

"Damn it!" Marcia exclaimed. Then she said, "Rhinelander!"

She was breathless from impatience and haste by this time. She had to repeat the number and then there was a wait that seemed like hours instead of seconds. Marcia fumed about the "inconvenient service" as she waited.

At last she heard a cool, artificially modulated voice saying, "The Home Detective Agency."

"This is Miss Treadway speaking — Miss Marcia Treadway," she began, still a little breathlessly.

100-Year-Old Quilt Has 71,280 Pieces

By United Press
LANCASTER, Pa.—A hundred-year-old quilt made from 71,280 pieces of material is in the possession of Mrs. Richard Van Riper.

Very little is known about the history of the quilt, except that it was made about 1834 by Elizabeth Zell, who lived in Little Britain Township, near here.

By inheritance, the quilt went into the hands of Mrs. Arthur Bickham, who provided that her sister-in-law, the present owner, should have it upon her death.

It has been estimated that the work on the quilt required at least 10 years. There is some dispute as to whether most of the material used is old chintz, or oil

chance. The pattern is made up of 7,920 diamonds, each with nine tiny rosettes. Each rosette is made of a tiny circle of cloth, apparently cut around a dime. Half the diamonds have eight rosettes, with a red one in the center. This color scheme is reversed in the remaining half of the diamonds. Seen from different angles, the quilt shows hundreds of geometric designs of larger diamonds, pyramids and cubes. Held to the light, the quilt looks like old lace.

The quilt is 7 feet 11 inches long by 7 feet 2 inches wide. So fine is the needlework that the stitches scarcely can be seen with the naked eye.

Personally Speaking

John Hassen was a business visitor in Hamlin yesterday. Miss Mary Edwards of Tyler, accompanied by Miss Mary Delmont of this place, attended an announcement party this week, honoring Miss Ona Pritchard of Walnut Springs, who is to be married at an early date. Mrs. J. B. Ferris is at home after a three week's visit spent in Big Spring, where she was at the home of her father, who passed away April 9th, following an extended illness. Walter Harwell is in Abilene this week where he is serving on the Federal grand jury. Mrs. E. K. Green returned home Thursday afternoon from a visit to Fort Worth, where she was called to the bedside of her brother-in-law, C. L. Daniel, who underwent an operation at a Fort Worth hospital Tuesday. Mrs. Green reports his condition quite favorable for a successful recovery.

movement for a cleaner Ranger through means of a clean-up week. Not only will it improve the sanitation of the city, but will aid materially in beautifying our streets, yards and gardens in a way that will make us proud of our city. The accumulation of trash and rubbish, which has become evident since the winter months, furnishes a breeding place for flies, mosquitoes and disease germs that can easily be removed from the city, and their removal is not only essential from a health standpoint, but from a standpoint of beauty. DR. P. M. KUYKENDALL, President Ranger Chamber of Commerce.

Having noticed that next week is national clean-up week, the Ranger Order of Elks wishes to be one of the first to offer assistance and co-operation in making clean-up week in Ranger a success. In view of the coming summer season with the possibility of fevers and disease, we believe that it is essential to have this work done and are glad to be numbered among those sponsoring the movement. DR. HARRY A. LOGSDON, Exalted Ruler W. A. LEITH, Secretary

The Ranger Rotary club is heartily in accord with the clean-up movement in Ranger and is glad to join the other organizations of the town in urging the people to clean up their premises and the alleys in order to preserve the general health of the community and to aid in making the town more attractive. The Rotary club is always ready to join hands with other organizations in any movement for the good of the town and the citizenship and an especial appeal is made to all to cooperate in every way possible. WALTER HARWELL, President Ranger Rotary Club.

Dwelling Shortage Felt In Cities of State of Texas

DALLAS.—Scarcity of dwellings and apartment houses has caused a general upward trend in Texas rental prices, a United Press survey has revealed. Although rentals for residential buildings have dropped an average of 20 to 25 per cent from the peak years of 1929 and 1930, the general rental average increase to date is approximately 10 to 15 per cent. Chambers of Commerce in major cities reported the scarcity of dwellings and apartment houses due to additional businesses, industries and manufacturing plants moving from other states to Texas. Real estate boards of the same cities reported the shortage was brought about by families which doubled up under a single roof during the depression years now separating and absorbing the surplus houses. The real estate boards said the reduction of rentals to a figure within the wage earner's present income largely was responsible for the absorption. Construction of business buildings and residential houses is inactive throughout the state, the real estate boards reported. Most of the carpenter work is being done under remodeling plans. The survey showed Dallas has few buildings under construction, with a small percentage of remodeling being done. Vacancies in business buildings have increased, and business space and office rentals have declined. A shortage of houses and apartments was reported in the better neighborhoods. What building of homes going on was reported in suburban districts. Rents here were reported increased as much as 10 to 15 per cent within the last six months. Tenant movement here was reported excessive in the rent houses and apartment buildings.

The Fort Worth Chamber of Commerce reported construction there almost too small to give a comparative figure, with few if any new homes being built. Authorities said the situation was partly due to the lack of financing facilities. However, there is no shortage of houses and apartments, although families living under one roof have separated. This separating has caused an increased demand for rental houses and apartments which have been vacant for months. Rentals in Fort Worth have not increased and were unchanged during the last two years, the survey revealed. Rents were reported 10 to 20 per cent lower than in Dallas. Tenant movement in Fort Worth was considerably smaller than anywhere else in the state. Small business and residential construction was reported under way in Houston, due to difficulty in obtaining loans to finance the projects. Several large homes above the \$50,000 margin have been built and one home costing \$75,000 was reported. Rents there have increased 10 per cent on all classes of houses and apartments within the last year, the survey showed. Vacant houses were reported filling rapidly in El Paso, also due to the separating of families under a single roof. Rentals which have dropped as much as 35 per cent, have steadied, but no increase was revealed in the survey. The El Paso Chamber of Com-

merce reported construction of new buildings and houses has been at a standstill the last few months. Only permits granted within the last three months were for remodeling purposes, the reports stated. Austin was reported doing some building in both business and residential sections. The percentage of construction, however, was small. Rents there were reported increased 10 to 15 per cent. In several of the cities rents for apartments were being increased by agreement between owners and operators, the real estate boards and chambers of commerce reported. The effect of the agreements was largely felt in Dallas.
