#### VON HINDENBURG DEAD AND HITLER MASTER OF GERMANY

Paul Von Hindenburg of Germany passed on to his reward. Adolf Hitler, Austrian born, stepped into the vacant shoes of the old lion who was nearest and dearest to the heart of Germany than any emperor of the dead house of Hohenzollern or any of the warriors who have figured in German history for many decades. Von Hindenburg was a great soldier. He was a greater statesman. His courage was lion hearted, his loyalty to his people never questioned and his devotion to duty-linked with his patriotism made hi mthe idol of the millions beyond the Rhine. He was a born monarchist. He was loyal to his emperor and loyal to his people. He won many victories in the early days of the World War. When defeat came he never faltered. He carried his ragged troops back to the homeland. In peace he was greater than he was in war. He had s the confidence of all-the high and the humble. At an advanced age became president of the republic and he was as loyal to the republic as he had been to the empire and its emperor. He had the army behind him. He was its idol. He had a vast majority of the people with him. They had absolute confidence in this od lion of the Teutonic tribe. He was the iron handed chief magistrate. He held in check the radicals as well as the reactionaries. He was the safety valve of his country and its people.

Now Hitler is master of the situation. He has taken over the reins of government. He has the army behind him, that army ever loyal to Von Hindenburg. Will power make this dictator of Germany stark mad? Will be lead his people to the land of promise or into the dark valley of destruction? All the world is hoping for peace, all the religious minded are praying for peace and yet most of the practical thinkers of the world are fearful that Mars. the god of the sword, will let loose his furies in the near future and another carnival of blood will crimson the pages of coming history.

As for the lion hearted warrior and statesman who has Gen Mot passed out of the picture, he will occupy a large place in Gillette S R history for the rich material he had created in the activi- Gt Nor Ore ties of a wonderful career will be given proper recognition by the historians of the future as well as the chroniclers of passing events of the hour.

.. but even that's not al there is to it

AFTER you receive the tobacco A from the farmers you have to dry it just right and then store it away for ageing for over two years.

Then you take the different types of home-grown and Turkish tobaccos and weld them together in such a way as to make a balanced blend.

The Chesterfield process of blend ing and cross-blending tobaccos different from others, and we be lieve it helps to make a milder and better tasting cigarette.

Down where they grow tobacco - in most places - Chesterfield is the largest selling cigarette.

## SHIPSHAPE

LUMBLE men take a particular pride in keeping Humble Stations as clean and neat as the freshly scrubbed decks of a battleship; and these shipshape stations are fully equipped for service and emergencies. Clean rest rooms; ice water; first-aid kits; brightly polished brass fittings; and prompt, courteous, helpful attention have all been favorably noted by many Humble customers.

We are also interested in knowing what you think. To give you the right products at the right price with the right kind of service is the policy which governs our business. So we want you to give us your own personal opinion of Humble products and Humble service. We invite your criticisms; we invite your suggestions . . . the door is open to both.
