### Contempt May Be Charged If Allred Name Certified

By United Press

AUSTIN, Sept. 27.—Attorney Joe Burkett of San Antonio today notified Secretary of State W. W. Heath that contempt proceedings will result if the secretary certifies James V. Allred as democratic candidate for governor.

Heath had telegraphed Burkett he was going to certify the name on Sept. 30 or Oct. 1.

Burkett notified Heath the district court injunction against certification is still in force. The fourth court held the injunction invalid, but Burkett pointed out the appeals court ruling does not become final for 15 days because a rehearing may be asked within that time.

### NRA BOARD PERSONAL IS BEING NAMED

By United Press

WASHINGTON, Sept. 27.—President Roosevelt will announce within 24 hours the personnel of a board of five to head the revised NRA, the White House announced today.

It was possible that the announcement would be ready before he left his desk late today.

Observers of the reorganization situation expected the board would be charged with other phases of the recovery picture.

No indication was given as to the men the president has in mind for the five jobs. The questions as to whether Bernard Baruch, New York financier, would be a member it was said that such an appointment appeared unlikely. The same applied also to Donald Richberg, chief NRA counsel.

NEW YORK, Sept. 27.—President Roosevelt's address before the conference on current problems tonight will be broadcast over a national radio hookup.

### Mass Meeting to Be Held Tonight On Labor Problem

By United Press

The mass meeting of both labor and business will be held in the Elks arena promptly at 8 o'clock, according to information given to the Times. It was further stated that the city commission had been given an urgent invitation to be present. The purpose of the meeting will be for the discussing of putting chat on some of the streets near the schools, hear reports from one or two committees that should have important information, and to take up anything else that might come before the meeting.

A similar meeting was held some three weeks ago and it was decided by those in charge to ask several other meetings to be held in order to discuss plans for the future.

These meetings are open for all business men of the city and it was said that arrangements had been made to take care of a number of them tonight who might have some suggestions.

### Community Service Will Be Held In the Columbia Theatre

By United Press

The community service announced for tonight will be conducted at the Columbia theatre rather than on the vacant lot across from the city hall.

This change comes due to the change in weather. The early evening hours are too cool for a service of its kind to be held in the open, according to those in charge.

Dr. L. B. Gray, pastor selected to deliver tonight's sermon, states the opening hour as 7:30 o'clock.

### OFFICERS SEEK PRISONERS OF OKLAHOMA PEN

By United Press

M'ALESTER, Okla., Sept. 27.—Scores of officers with bloodhounds today trailed seven convicts who escaped from the Oklahoma prison today by tunneling from the tubercular ward under the walls.

A negro convict who was forced to accompany them returned later after escaping the band and told officers they had fled with a Mexican accomplice.

Four of the seven convicts were said by Warden Sam Brown to be suffering from tuberculosis in advanced stages. Officers did not believe they could continue their flight.

VERNON, Texas, Sept. 27.—Earl Williams, one of the seven convicts who escaped from the Oklahoma prison today, is charged with robbery with firearms and kidnaping here.

Williams is accused of being one of a quartet who looted a cafe here on the night of Jan. 14 and kidnaped an employe and customer.

### Meeting Called To Discuss Plans For Armistice Day

By United Press

A meeting of representatives of four Ranger organizations has been called for this afternoon at 5:30 in the office of the Chamber of Commerce, for the purpose of outlining and discussing plans for a big Armistice Day celebration in Ranger.

Representatives from the Rotary club, Lions club, Elks club and American Legion are to attend the meeting and discuss the tentative plans, in which it is expected that several changes will be made.

Unofficial discussion has brought out that some of the members are inclined to want a parade for the morning hours, a barbecue for all veterans of foreign wars at noon, while the Cisco-Ranger football game will take up the afternoon with a program to be worked out for the night, which will be followed by a smoker for Legionnaires.

This program, however, has only been discussed tentatively and there is a desire for a special entertainment feature, to be free of charge, for the night, to which everyone in this part of the country can be invited.

### Settler of Carbon Buried Wednesday

By United Press

Funeral services for J. A. (Uncle Joe) Hearn, one of the earliest settlers of Carbon, father of A. M. Hearn, north of Eastland, former tax collector of the county, were held Wednesday afternoon at the Carbon Baptist church with burial in Bear Springs cemetery, east of Carbon.

Mr. Hearn had gone to his melon patch Tuesday for a watermelon when a heart attack occurred. As he stooped to pick up the melon he fell and when reached was dead.

Besides A. M. Hearn, he is survived by his wife and a daughter, Mrs. Elmer Gilbert of Roby. Another son, J. Porter Hearn, died several years ago. Former District Judge Elzo Been is a nephew.

As a coincidence, "Uncle Joe," 60 years ago, helped dig the first grave in the cemetery in which he was to be buried.

### Special Session Is Problematical Says Wilbourne B. Collie

By United Press

Likelihood of a special session of the legislature is problematical, Senator W. B. Collie of Eastland, representative from the 23rd district, said Thursday. The Senator returned to Eastland Wednesday night after the termination of the special session Wednesday morning.

Eastland county representative O. F. Chastain of Eastland also returned to his residence.

### Spurs Jingle Toward Congress

By United Press

Judge P. L. Gansway looks as if he were ready for a rodeo, but he's aiming at a higher prize—election to Congress from the Fourth Oklahoma district—and voters there count on him to spur on some excitement if he arrives. The judge is an expert roper and rider, as well as politician.

### State Democratic Chairman's Error Had Hickman's Name Off State Ticket

By United Press

Eastland county democratic chairman Earl Conner Jr., Thursday vanished the idea that Judge J. E. Hickman, chief justice 11th Court of Civil Appeals and unopposed for that position in the July primary was not certified in the county and stated that Hickman's name had been left omitted from the state ticket because of an inadvertent error.

Hickman polled a vote of 5,699 in Eastland county in the July primary.

### Cleburne Man Is Given 27 Years In Tolar Bank Theft

By United Press

STEPHENVILLE, Sept. 27.—Stine Weathered, 28, of Cleburne, today faced a 27 year prison term for robbery of the Continental State Bank of Tolar, Hood county.

A district court jury late yesterday found Weathered guilty of the \$4,400 holdup after eye witnesses identified him as one of two men who robbed the bank last July 16.

The defense moved for a new trial and announced it would appeal if the motion was not granted.

President Frank Curl of the bank, the assistant cashier, and three other witnesses pointed out Weathered as the man who entered the bank with a sawed-off shotgun. An alleged accomplice, not yet indicted, is in custody in Fort Worth.

### Former Mayor of Olney Files Appeal

By United Press

AUSTIN, Sept. 27.—Charles S. Richardson, former mayor of Olney, today appealed from a 99-year sentence for the slaying of his son, Elza, 20, last Jan. 1.

This is the second time the case has been carried to the court of criminal appeals here. A life sentence was assessed at his first trial.

The appellate court reversed the case. The second 99-year sentence was assessed by a Wilbarger county jury to which the case was taken on a change of venue.

### Two Are Killed In Bus Strike War

By United Press

CHICAGO, Sept. 27.—Two deaths were recorded today as a result of violence in Chicago's six weeks old bus strike.

Miss Mary Kinnard, 65, died two hours after being struck on the head by a steel ball bearing hurled through a bus window. James Kelly, 49, dispatcher for the motor coach company, died of bullet wounds and a beating inflicted by paid slugs.

### LINDBERGH IS SURE PRISONER WAS KIDNAPER

By United Press

NEW YORK, Sept. 27.—Col. Charles A. Lindbergh, disguised in gray cap and horn-rimmed glasses studied the face of Bruno R. Hauptmann for 10 minutes today, and a few hours later, District Attorney Samuel Foley was quoted as saying he was convinced Hauptmann was one of the actual kidnapers.

Lindbergh's action in confronting Hauptmann was at his own request and came as a dramatic prelude to the prisoner's arraignment in Bronx county court on charges of extortion. Hauptmann was held in bail of \$100,000 after a plea of not guilty.

After the arraignment, Foley resumed questioning of witnesses, including Miss Anita Lutzberg, a friend of Hauptmann's, and officials in the district attorney's office said Foley was convinced of Hauptmann's participation in the abduction as well as the ransom negotiations.

For the first time Foley declared his belief more than one was involved in the case.

"Hauptmann was not a lone wolf," he said. "It was known federal agents were seeking an alleged accomplice."

### Ranger Jr. College Enrollment Is Steadily Growing

By United Press

One hundred and twelve students are actually enrolled in Ranger Junior College and new ones are joining the ranks of R. J. C. almost daily. This represents the largest enrollment for any one session so soon after its opening in the history of the College. Five different states besides Texas are represented in this number, namely, Kansas, New Mexico, Colorado, Oklahoma and Missouri, and many students come from distant places in Texas, such as Seminole, Rochester, Lockhart, Dallas, Ballinger, Snyder, Sweetwater, Albany, Anson, Jacksboro, Graham, Throckmorton, Santa Anna, and others, while nearly all the neighboring towns and communities are represented in larger numbers than ever.

This splendid showing is further proof that Ranger Junior College is steadily growing in prestige and favor with the people of this section and of more distant parts.

Ranger Junior College is offering two years of standard college work toward the B. A. and B. S. degrees, the B. S. in Nursing and B. S. in Home Economics degrees, Bachelor of Business Administration degree, the Bachelor of Journalism degree, and the Bachelor of Science in pre-medical, pre-engineering, pre-law work and a splendid commercial course, and in addition, a number of free elective courses.

Ranger Junior College has the highest credit rating attainable in Texas, being ranked as a first class college by both the Association of Texas Colleges and Universities and by the State Department of Education, thus insuring full credit for work done in this institution when transferred to other colleges.

Daily car transportation is available for Eastland students at \$3.00 per month. Daily bus from Breckenridge brings 17 students to the college from there and Parks and Marston Valley. Those desiring to enroll for credit this semester are urged to enroll not later than Monday.

### Galveston to Have Seven Conventions

By United Press

GALVESTON.—Seven conventions are scheduled to be held here before the end of the year. They are the Intercoastal Canal association of Texas, Oct. 5 and 6; the Texas Association of Obstetricians and Gynecologists, Oct. 13; Texas Bus Owners association, Oct. 19; the Texas State Teachers association, Oct. 29 and 30 and Dec. 1; the Texas Woodwork association, date to be selected, and the Southern Ports Freight committee of southwestern railroads, Nov. 13.

### Discrimination Is Still Charged In Textile Mills

By United Press

ATLANTA, Ga., Sept. 27.—Increasing charges of discrimination against returning strikers gave warning of a fresh crisis today.

In the Carolinas and Georgia union leaders accused mill owners of effecting a "wholesale lockout" of organized textile workers.

WASHINGTON, Sept. 27.—President Roosevelt acted speedily today to meet a rising chorus of complaints of discrimination against returning strikers of the textile industry. The president named a new national textile labor relations board composed of the same personnel as the steel labor relations board.

### Dr. Jackson Is On Lions Program at Their Noon Meet

By United Press

The Lions club today heard Dr. Walter L. Jackson talk on the subject of Anesthesia, Its Discovery, Development and Use. In one of the most interesting discussions given in some time, Dr. Jackson told of how in the days before the discovery and use of anesthetic, about 1840, the surgeon operated upon his patient in what might literally be called a race against time. As a matter of fact surgery in those days consisted mainly of amputations and a time of four minutes for an amputation was considered a standard and a surgeon who could perform an operation in even fractional seconds less than that was widely known for his excellence. If it were necessary for a leg to be removed the patient was wheeled into the operating room where at a given signal he was grabbed and held by a group of husky men or possibly medical students. The surgeon at the same time would seize his instruments and amid frightful shrieks remove the offending member—the patient, if lucky, fainted and reached the state of coma now produced positively and painlessly by one of several widely-used anesthetics.

Developing step by step with the science of anesthesia came Antisepsis, which in the rush of an operation before the use of an anesthetic could not be properly practiced. The principles brought our by Pasteur and Lister, with more time possible for the surgeon, were put into practice and the number of infections grew less until today there is seldom a case of an infection attributable to the operation itself.

Dr. Jackson also discussed local anesthetics as well as the general anesthetics and told of experiments now being worked out that will improve even the high standard of excellence anesthetics have attained.

Lion R. F. Holloway reported as chairman of the committee from the Lions club to study the action to be taken in the founding of a "H-I-Y" club in the High School here. His report having been heard it was voted by the club that a part of the financial backing needed be furnished by the Lions in proportion to the other civic clubs in Ranger.

A letter from the International secretary stating that in all probability the Lions International President would make Ranger a stop in his official itinerary of Texas this winter was read to the club by Dr. Harry A. Lagdon, chairman of the committee, appointed some weeks ago to invite the International President to Ranger.

Going into the last week of the membership attendance contest it was found by a count that the side captained by Lion Charley Moore had nosed out the other group headed by Lion J. J. Kelly, and is in the lead for a count of three.

### Ministerial Alliance Will Meet On Friday

By United Press

A Ministerial Alliance meeting is to be held at the First Methodist church of Ranger, Friday morning at 10 o'clock. Rev. H. B. Johnson, chairman, urges a full attendance.

### ONLY A PART ARE OFFERED ON FIRST CALL

By United Press

AUSTIN, Sept. 27.—The state bond sale commission today called for bids to be opened Saturday, Oct. 6, on the first \$1,000,000 worth of relief bonds issued by the recent session of the legislature.

Relief bond bidders were asked to bid in the interest rate, provided the amount does not exceed 4 1/2 per cent, the rate limit set by the legislature.

The board of control was asked to advertise for bids on printing the bonds.

At the same time the board of control demanded efficiency and harmony in the state-wide relief setup.

"County board members and relief employes whose usefulness has ceased because of friction, inability or misunderstanding, should graciously patriotically retire, the board declared.

County welfare boards and relief organizations will be retained where effective service is being rendered. "Worth and efficient" employes will be retained, regardless of political, church or other affiliations, the board said.

### TESTIMONY IS COMPLETED IN BRITAIN TRIAL

By United Press

SEYMOUR, Texas, Sept. 27.—The case of Miss Ruby Britain, 39, charged with murder in the fatal shooting of Horace E. Nichols, Seymour banker, Aug. 15, is expected to go to the district court jury this afternoon.

Testimony was completed shortly before noon. There was practically no rebuttal testimony offered. The state failed to gain ground in cross-examining the defendant.

Miss Britain today told the jury of the great love she bore the man she is accused of slaying.

"He was everything in the world to me," Miss Britain said.

Miss Britain on the stand admitted an "affair" with Nichols and said it had run about a year when she learned he was "going with young girls."

The state will ask the death penalty for Miss Britain, whose attorneys are attempting to build their case on self-defense.

### Broadcast On the Lubbock Game to Start About 7:30

By United Press

Arrangements have been completed by the B. F. O. Elks to have a play-by-play report on the Ranger-Lubbock game, to be played in Lubbock Friday night, broadcast at the Elks arena, with the first reports, which will include the lineup of the two teams, starting at 7:30 or shortly after, with the report of the actual play, from kick-off to the final whistle, being broadcast. An admission charge of 25 cents is being made and all proceeds, over the actual cost of promoting the affair, will go to the Elks charity fund.

The broadcast will be almost like seeing the game, as all the action, both on the Lubbock team, and that of the Bulldogs, will be spotted by the observers at Tech field and will be immediately relayed, through the special hookup to Ranger.

### Hunter Accidentally Killed By Own Gun

By United Press

QUANAH, Texas, Sept. 27.—Land Wall, 37, manager of the Quanah Water company, was shot and killed today while hunting doves six miles from here. He was alone at the time, but investigators believed his gun was accidentally discharged. The charge struck him in the chest.

**SECY. ICKES HAS HIS SAY**

Secy. Harold Ickes had his say Tuesday on the proposition that the federal government should control the oil industry down to the last well and the last royalty-right. "The difficulty is Texas and has been Texas," the square-jawed federal officer told the Cole investigating committee. "In spite of the Texas state laws, producers there are bootlegging oil out of the state. The man willing to steal his neighbor's oil is willing to find a way to market it and will be able to find 'fences' to take that oil." Artfully he suggested that he had tried to cooperate with Texas enforcement agencies and leave the impression the Texas railroad commission has not cooperated with him. This essentially is a straddle, with a prayer that the committee not know too much about the Texas situation. But Rep. Cole's committee has been to Texas, and is coming back. It has seen the East Texas oil field, and in November will hear testimony at Dallas from many oil men. The committee already has learned that Texas railroad commission has made much progress in controlling oil in Texas.

Texas has fought its way through two or three years of trial and error oil regulation. The state commission is better prepared than ever before to deal with Texas problems. Mr. Ickes, starting from law, would face the two-or-three year unsatisfactory trial and error sifting period. Texas doesn't want that—if it wants to continue as a sovereign state in oil matters, and Rep. Cole's committee already knows it.

**BACK TO CONGRESS**

If the higher courts uphold the federal judge in Baltimore who ruled the Frazier-Lemke farm mortgage moratorium act unconstitutional, the coming Congress is apt to feel a sharp repercussion from the farm belt. Whatever may be said about the wisdom or the workability of this act, it was a measure passed in response to insistent demands from the farm belt—demands arising from the terrific pressure which deflationary processes had put upon farm debtors. The act itself may be knocked out by the court ruling—but the pressure of the debt load remains, and if it cannot be eased in this way, some other way will have to be found. And you may depend upon it that the farm belt will let Congress know about it in no uncertain terms.—Brownwood Bulletin.

Right now would be a good time for a lot of our politicians to take a long vacation—the longer the better.

**"OUT OUR WAY" — By Williams**

**Rain Making is Old Story Among People of Texas**

EDINBURG.—Efforts to blow rain from the Texas skies high explosives were made many years before James A. Boze conducted his recent and fatal attempt by airplane, according to T. S. Simmons, resident of South Texas for more than 40 years, who saw the rainmaker at work in 1890. While Corpus Christi was enjoying a boom period in that year, he relates, a severe drought began to cause much damage and relief was sorely needed. Farmers and citizens finally held a meeting to decide upon a course of action. One of the number heard of a Major Dryanforth whose rain-making experiments had been reported successful in other sections of the country. A purse was raised and the Major brought to Corpus Christi, along with a corps of assistants, special balloons and time bombs. The balloon ascended properly and the heavens were torn by numerous explosions, but no rain fell. Then a group of cattlemen in Duval county, also sorely afflicted by the drought, heard of the Major's failure at Corpus Christi and decided the cattle country might be a better setting for the experiment. Another purse was raised and Major Dryanforth moved to the South Texas ranges with his bulky equipment and numerous assistants. He bombed the heavens almost continually for hours but produced not a shower. After waiting in vain for moisture, the Major left the country, taking his entourage and several thousand dollars — and leaving the ranges as dry as when he came.

SEATTLE.—Boyhood dreams will materialize for two youths when they start on a two to four year "round-the-world cruise in a 32-foot ketch, the "Idle Hour." Sails unfurled, but with a straggly marine engine below deck for emergency, the ketch will slip from the harbor soon for San Francisco, first leg of the globe-girdling adventure. At the wheel will be Dwight Long and Jack Lowry, 20-year-old University of Washington students. Unmindful of the perils, the two bubbled with enthusiasm as they told of their contemplated conquest. "I've studied navigation in my spare time and I think we'll get by all right," said Lowry. "We'll sail first to San Francisco," explained Long, owner of the craft. "Then we may go south some distance before turning west, but our next definite destination will be Honolulu." The craft, "Idle Hour," has had plenty of being washed along her beam. Built in Tacoma 11 years ago, the ketch was in service in Arctic and Alaskan waters. It grosses twelve tons and has space for 60 gallons of gasoline for the auxiliary motor.

Sam Baugh, Former Sweetwater Star T. C. U. Sensation

By W. WINSTON COPELAND United Press Staff Correspondent FORT WORTH, Tex.—Nothing certain in football, but it appears the name of Sammy Baugh is to become a talisman on Southwestern Conference grids.

The Newfangles (Mom 'n' Pop)

easy to catch. They are amazingly accurate and actually seem to hang in the air waiting for the receiver to reach up and pluck them down.

Baugh may never make an all-America team, but he is certain to make a lot of misery for Southwestern conference coaches.

BEACH CLUB GIRL

BOOTS DENIS RANGED about the room, smoking cigaret after cigaret. "Look after her, won't you Danny?"

There was a little nurse with Irish eyes and a flyaway as who had been on night duty for a while.

February raged out and Edward was in a wheel chair. He could walk next week Dr La Farge said.

It seemed to the girl that every time she met Denis these days she quarreled. It was all right when they were in Edward's room together.

MARCH stalked in and the bonds of fate seemed to draw more tightly about her. Edward spoke confidently now of their marriage.

DENIS stayed on at the Hartees. Often and often during those first weeks he drove her down to New Martin to see the smiling young man in the big bed.

He laughed at the nurses; he laughed at everything. It was a riot, he said cheerfully. Boots was a sweet thing to worry about him.

Play Equipment For the Pre-School Child Important

By CARRIE CRAIN Play, to the child, is more than what we call a means of keeping him out of mischief.

In regard to proper place and equipment, the family should consider very intelligently. A carefully planned playground is the development of a child both mentally and physically.

The two, three, and sometimes the four-year-old likes to play with blocks. The younger will place the blocks together and try to walk them.

Children from two to five and even older need a back-yard playground. These are very simple, and if the person is smart, cost very little.

Children from two to five and even older need a back-yard playground. These are very simple, and if the person is smart, cost very little.

Kingsford Smith Seeks Air Record On a Long Flight

By United Press MELBOURNE, — Sir Charles Kingsford Smith, the Australian air ace, will try to make a double job of the England-Australia speed record between now and the end of October.

Not content with matching himself against some of the world's best pilots in the London-Melbourne race, he is setting out to have the record for a flight in the reverse direction just as a muscle loosener before the race begins.

The machine in which Mollison established the present Australia-England record three years ago was a small Gipsy Moth, with a cruising speed of less than 100 miles an hour and a range of approximately 2,000 miles.

It is believed, in fact, that Kingsford Smith will have the fastest machine entered in the London-Melbourne race. Its speed can be judged from the fact that recently he flew from Sydney to Melbourne in one hour, 43 minutes. The normal time taken for this 403 mile trip is four hours.

Unusual opportunities are offered teachers and students of this section to get either advanced or non-advanced courses in college this session and for the future.

It was assured that other work will be organized in English, Physical Education, Education and Social Science. Some of these courses will be offered at night sessions to suit the convenience of the group.

Anyone interested in Chemistry, Mathematics, Foreign Language, Government, Economics, or first or second year education to be given either on Saturday morning or some night in the week is also urged to be present at the meeting.

## Beautiful Luncheon-Affair

Mrs. R. J. Taylor entertained the Althean class of Central Baptist church with a beautifully appointed luncheon Wednesday.

Roses, periwinkle and other autumn flowers made the room gay for this occasion. The table was beautiful in its white linen, which was hand drawn and over one hundred years old; flowers, silver and crystal cut glass. The glassware was also antique, being brought from Maine by the mother of Mrs. Taylor fifty years ago. Mrs. Taylor honored the class by using it for the first time in twenty years.

The ladies found their places at this beautifully appointed table by unique and lovely place cards. These were made not holders in the image of the little red hen, though their varied colors put her souper gal in the background.

After this bountiful luncheon of fried chicken and all the extras that go with it, the ladies enjoyed several hours of visiting and needlework. Those enjoying this lovely day were: Mmes. P. C. Long, W. J. Stovall, W. B. Patterson, Della Moore, Herbert Boarden, Annie Bankston, Jap Rogers, Roy Baker, R. D. Gregory, J. M. Robertson, H. C. Wilkerson, F. D. Hicks and the hostess.

## Play at Colony School

## PEEPING THRU THE KNOTHOLE

With BILL MAYES (Continued from page 1)

ably since they entered school several years ago, but not quite in proportion to the descriptions you have had of them. Just wait until Thanksgiving and come over and see for yourself. Then, too, Wilson, the scales should be more reliable than some kid's guess, especially when he was trying to make an impression.

White pique shirt-waist dresses with purple ties will carry out the college colors.

### High School and Junior College News of the Day

By Reba Callaway

#### R. J. C. Pep Squad

At a call meeting of the R. J. C. pep squad Wednesday afternoon, uniforms for the coming year were decided upon.

The pep squad, considerably larger than last year, will back the college Rangers and hope to attend every game of the season.

#### College Advisories Meet

At a meeting of the college sophomore and freshman advisories, the council for the coming year was elected. Robert Jordan of Albany was elected representative for the boys, and Imogene Whiten of Breckenridge for the girls. Opal Brown of Albany was elected councilman-at-large.

#### High School Chapel

The chapel program today consisted of a pep rally and speeches by Mr. Von Rueder and Mr. Hollaway.

#### Band Practice

Band practice tonight at 7:30 in the band hall. Junior band practice Friday night at 7:30.

#### Hiking Club of High School Elects

The Hiking Club of the Ranger High School met Wednesday morning, Sept. 26. Miss Lucille Buchanan, sponsor of this club, acting chairman.

The following officers were elected: President, Louis Arnett; vice-president, Bubbie Reese; secretary-treasurer, Flo Harris; reporter, Doris Hamilton.

#### Try a WANT-AD!

Skidding—cause of 5½ times more accidents than blowouts—becomes more dangerous as winter approaches. For quickest stops buy "G-3" Goodyear—proved safest by 8,400 tests.

When you must suddenly jam on your brakes, averting an accident often is a matter of inches. Well, stop tests on slippery pavement show: on smooth tires you slide 77% farther, on other new tires you slide 14% to 19% farther than on new "G-3" Goodyear All-Weather. That's the Goodyear Margin of Safety—a big reason why more people buy Goodyears than any other tire. Since it costs you nothing extra, why not have this margin of safety on your car too?

GOODYEAR ALL-WEATHER 43% Longer Non-Skid Mileage... No Extra Cost. DOUBLY GUARANTEED 1. Against road hazards. 2. Against defects for life.

GOODYEAR SPEEDWAY Built with Super-tread Cord. A life-time guaranteed Goodyear—fuller size—with better traction, fast, quick stops and tough tread for long mileage. Value you get because Goodyear Dealers sell the most tires—by millions!

WE HAVE A GOOD STOCK OF USED TIRES. SEE THESE BEFORE YOU BUY

Prices subject to change without notice. State Sales Tax, if any, additional.

## WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks pink, don't swallow a lot of pills, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and bright and full of sunshine.

For they can't do it. They only move the stool and a more movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just stays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blotches. Your food action and your diet slips and ends. Your whole system is poisoned.

It takes three good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain non-toxic, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

Just don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills in the red and white, tamper-resistant, blue-inked drug store. © 1931 C. M. Co.

So, Wilson, the Bulldogs are not quite as large as the University of Texas Longhorns, even if your reports on the Buckaroos indicate they are. And, too, Wilson, Prexy Anderson, who is ultra conservative with his weight guesses, guesses the Abilene line at 175 pounds, with tackles that average 200, while ours average 170. Only at end do our weights come up to those of the Abilene line, and don't blame our ends if they grew up into nice, big boys.

P. S.—And you should be ashamed, Wilson, for calling them big bruisers. We understand most of them are real kind-to-their mothers.

## PEEPING THRU THE KNOTHOLE

With BILL MAYES (Continued from page 1)

Eastland, we understand, is mildly excited over the fact the Mavericks defeated San Angelo last week, and when the Mavericks get excited over football they can be as tough as tough. They have some fast-running backfield men, whom some of the Bulldogs remember from last year and a good line, as far as we can learn, and might go places at that. They are rated to be one of the candidates for dark horse honors, while Brownwood, about whom no one up here ever gives a thought is reported by one who has been watching them as being a team that will give every team in the Oil Belt a run for the championship. And the weights we have seen on the squad have quite a number of men listed at 180 and 185 pounds. We don't know where they came from, but like some of the Bulldogs, they probably grew up last summer.

Three grandstand quarterbacks went into a huddle in the stands Wednesday afternoon and voted unanimously that Lubbock had a two-touchdown better team than Ranger, but when guesses on the score were made they did not guess according to predictions.

The guesses on the score were as follows: The one who did not agree to the two-touchdown margin guesses the score at Lubbock

## Retail License to Sell Fish Is Cut By Bill In Senate

W. C. Hickey, secretary of the Ranger Chamber of Commerce, has received a letter from Senator Wilbourne B. Collier, stating that at the request of Ranger retail merchants and others who sell oysters and fish, that he had been able to get the senate to reduce the license fee from \$10 to \$3. Retail merchants felt that the little fish business done in a town the size of Ranger did not justify paying the higher fees.

The letter from Senator Collier reads: "Supplementing my letter of Sept. 7, which was in reply to yours of the fifth concerning the possibility of reducing the license fees for retail dealers of fish and oysters in cities and towns the size of Ranger, I am glad to ad-

vised you that this matter has been submitted by the governor and I have succeeded in getting it passed through the senate, an amendment reducing the license fees from \$10 to \$3 in all cities having a population under 7,000.

"Will you please communicate this information to the retail merchants association and to the respective dealers who had petitioned me to get this law changed. "Assuring you of my pleasure in being of any service that I may be able to render, I am, (Signed) "Wilbourne B. Collier."
