RANGER, TEXAS, THURSDAY EVENING, DECEMBER 6, 1934

PRICE FIVE CENTS

No. 160

The Soviet government deprived a town's tax officials of their governing power, and no one knew the difference. Hum, we'd know the difference, in many of our cities.

MAN ACCIDENTALLY SHOT BY SHERIFF FOSTER

TKETS FOR SPECIAL TRAIN NOW ON SALE

Such interest was being shown in the special train to Amarillo, it was stated by members of the athletic committee, though but few tickets have been sold, however, indications are that many tickets will be sold.

Members of the athletic committee expected that as many will go by automobile as will ride the special train.

Bankhead Referendum on December 14 WAS FLEEING FROM A STILL WHEN KILLED

Garner Says He Is Just Country Boy In The City

WASHINGTON, Dec. 6.—Vieg President John Garner returned to Washington today with the observation that he was "just a country boy trying to get along with the city slickers."

"You know I've been down there in Uvalde all summer and sort of wanted to see what the city lights look like," he drawled.

"A fellow coming in from the country has to be careful these days. He's like a jackrabbit when the dogs get after him. He has to crawl under a prickly pear and say nothing."

Garner, appearing in excellent health, refused to discuss the speakership or any question of national interest.

Scouts Will Hold A Court of Honor

Boy Scouts of Troops 9 and 10 are to hold a court of honor at the First Methodist church Friday night at 7 o'clock, it was announced today.

J. E. Meroney is to preside and all committeemen and parents of the scouts have been urged to attend.

GAME PRESERVE PLANNED

MAUSTON, Wis.—Forty-five hundred acres of tax delinquent land in the heart of Wisconsin are to be leased to the state soon for the establishment of Wisconsin's largest game preserve.

POLL PLACES WILL BE ALL OVER COUNTY

Referendum Officials Will Be Announced Next Week.

Friday, Dec. 14, 1934, has been set as the date for the Bankhead referendum throughout the cotton producing states by the agricultural adjustment administration, according to information received by H. H. Williamson, vice director for the extension service.

O. W. Ewing, assistant in cotton adjustment for Eastland county, announces that polling places will be arranged in each of the towns where community committees received applications for tax exemption certificates.

At this time eligible voters will be asked: "Are you in favor of continuing the Bankhead act for next year?"

An eligible voter is defined in the act as a "person who has the legal or equitable right as owner, tenant, share-cropper, or otherwise to produce cotton on any cotton farm, or part thereof, in the United States for the crop year 1935-36."

According to that, any person is eligible who signed a 1934 and 1935 cotton acreage reduction contract as well as any person who is or was eligible for tax exemption certificates in 1934.

Henry A. Wallace, secretary of agriculture, defines the impartial attitude of the adjustment administration in a statement that will be given each voter with his ballot.

"Cotton farmers," a portion of the statement reads, "must decide whether, in their opinion, the adjustment of cotton production under the voluntary contracts is sufficient to meet the requirements of the present emergency."

International President of Lions To Visit Ranger Club on Tuesday

Vincent V. Hascall of Omaha, Neb., president of the Lions International, will pay an official visit to the Ranger Lions club on Tuesday night, Dec. 11, it has been announced by Colonel Brashier, president of the Ranger club.

President Hascall was invited to Ranger some time ago and has accepted the invitation. The Ranger club has sent out invitations to Lions over this entire district to meet with them in Ranger on that night to hear the message the international president will bring them.

When the Omaha Lions club was formed Vincent C. Hascall was a charter member. He served as president of the club, and in all major official capacities.

Of course Vincent Hascall took time out from his legal and judicial labors to serve in the World War, taking his training at the field artillery officers' training camp at Camp Zachary Taylor, Louisville, Ky.

His tastes run to athletics. He played university football and basketball. He and his family attend the First Methodist church of Omaha.

He has been active in the local and state councils of the Boy Scouts, the Camp Fire Girls, and the Nebraska Tuberculosis association.

On Nov. 27, 1914, he married Miss Dawine Dale Pugh, of Topeka, Kan., and they have one daughter, Alice Ann.

He has been active in the local and state councils of the Boy Scouts, the Camp Fire Girls, and the Nebraska Tuberculosis association.

CADDO MASONS' BARBECUE TO AID THE POOR

Wayland Masonic Lodge No. 542 of Caddo, is to give a barbecue and entertainment at Caddo Saturday night at 7:30 for the purpose of supplying clothing for needy men and boys of that section of the county.

Admission to the barbecue and entertainment is to be some old clothing that might be used to help some poor men and boys to keep warm this winter.

The Caddo lodge is one of the most active in this section of the state and has done a lot of work in aiding the unfortunate.

With the coffers about empty from this constant strain, it was decided that a barbecue and entertainment be staged to furnish clothing. No charge will be made for the plates, the only requirement being that those who attend bring some garment, a pair of shoes, a coat, trousers, anything that might be used by the needy.

The Caddo lodge has become famous over this entire section for its hospitality and the class of entertainment it provides when it acts as host, so those who attend will, no doubt, be well repaid for their time and their contributions to this worthy cause.

Spanish-American War Veterans Will Hold An Election

An important meeting of the Sam McKennon Camp No. 59, Spanish-American War Veterans, is to be held in Ranger Friday night, Dec. 7, for the purpose of electing officers for the coming year.

The meeting is to be held in the American Legion hall in Ranger and Spanish-American war veterans from over this section of the country are urged to be present.

Dr. Dafoe to See New York Sights

Dr. A. R. Dafoe, whose famed patients, the Dionne quintuplets, are far beyond advanced that he may sail leave them for the first time in six months, will make a trip to New York soon.

There he will tell his story to medical authorities and the public. It will be his first trip away from the Canadian northwoods section around Callander in 25 years.

SEARCH FOR OCEAN FLIERS IS CONTINUED

HONOLULU, T. H., Dec. 6.—Determined to find some trace of the missing trans-Pacific plane, Star of Australia, the United States navy today organized a new gigantic comb-like maneuver in the waters off the Hawaiian Islands.

Some naval men described the move as the last desperate attempt to save Capt. Charles Ulm and his companions.

When Ulm's plane, bearing Honolulu, after a flight from Oakland, Calif., became lost and took to the water Tuesday morning, the aviator said he thought the plane would float 48 hours.

The last report stated "all samples o. k."

To further check on the water, the city sends samples to the Texas department of health laboratories at Austin. Their last report read, "good, no contamination."

KIROV IS GIVEN HERO'S FUNERAL

MOSCOW, Dec. 6.—The Soviet Union gave a hero's funeral today to its assassinated leader, Lergel Kirov, and at the same time declared war on all terrorists, 66 of whom were shot summarily yesterday.

Under a leaden sky with the thermometer around 15 below zero Josef Stalin and other leaders carried the cremated ashes of Kirov reverently across snow-encrusted Red Square and placed them in the Kremlin walls, resting place of the Soviet great.

NAVAL PARITY TREATY MAY BE SCRAPPED

WASHINGTON, Dec. 5.—Strong indications were given today that the United States will consider the London naval conversations ended if and when Japan renounces the Washington naval treaty.

The United States, it was said, will consider the Japanese delegates will have withdrawn from the London conversations effective from the moment that notice of termination of the navy treaties is received, unless Japan at the same time offers a definite naval limitations plan to replace the principles of limitations in the Washington and London pacts.

This explanation of the United States' position came shortly after Ambassador Norman Davis, in London, had made clear in a speech the United States will not accept Japan's demands for naval parity.

Any new substitute proposal, it was said, must contain a new and fundamentally constructive approach to the principles of limitation which would so alter the situation as to make the United States feel that Japan had not intended terminating the conversation.

In such event this government would consent to further conversations in an effort to chart a practical course in the effort to continue naval limitations.

Taxes—Then More Taxes

The purchaser of a loaf of bread, according to the National Investment Transcript, pays 17 kind of taxes when he lays his dime on the counter.

If he walks home on leaving the store, he is wearing out shoes which are taxed 23 times.

If he rides in an automobile, he is paying 42 different kinds of taxes.

If he takes a subway or an electric car, the total number of visible taxes which are part of the cost of his fare runs to about 58.

All of these taxes, obviously, are indirect—and very few of us know that we pay them. As the Transcript says, "Tax ignorance is the crowning element in mass ignorance today." Most of us pay few or no taxes directly—and we think because of that we are contributing nothing to the cost of government.

There is not a thing in the world that isn't taxed. The house we live in represents a legion of taxes—running all the way from taxes on standing timber to taxes paid by the store which sold the finishing paint and the manufacturers which produced it. Food, clothing, transportation, entertainment, periodicals, books—the tax bill is a substantial item in their cost to the consumer.

It is obvious that these indirect taxes—which provide the bulk of government revenue—fall more heavily on persons of moderate means than on those with higher incomes. A loaf of bread will last a millionaire as long as it will a laborer—and the tax is the same on the loaf each buys. Tax reduction would be the greatest boon the average American could have—a boon that would at once be reflected in more jobs, more purchasing power, more spending for the necessities and luxuries which keep the industrial machine turning.

We will have tax reduction when we spend less tax money—and not until then. Only massed public opinion, backed up by knowledge of the facts, can bring it about. The cost of government can and must be reduced—all the way from Washington down to the smallest hamlet in the land.

Up-to-date business men realize that newspaper advertising is a service they owe the public. The fact that they back the goods they sell with their name shows that their goods are honest goods. It is always safer to buy from concerns that advertise.

HEROES ARE MADE—NOT BORN

SPEED RECORD FOR JUSTICE

HARRISONBURG, Va.—Some sort of a record for speedy justice has been established in Virginia. Recently, Edward A. Small, Pulaski, was charged with writing a letter to M. P. Landis, superintendent of the General Chemical company plant, where he worked, demanding \$1,000 under penalty of death. The letter was filed Friday. Small was arrested Saturday, indicted Monday, and sentenced the next day. He left that night for Atlanta to begin a seven-year prison term.

MAY CLOSE FAMED MINE

VANCOUVER, B. C.—The famous Granby mine at Aynon, once the greatest producer of copper in the British Empire, may be abandoned shortly. The cavernous workings, from which millions of tons of gold, copper and silver ore have been taken since March, 1914, have been declared no longer profitable and will likely be closed down after a shareholders' meeting in New York on Dec. 12.

Later she meets PETER KENDALL, wealthy and prominent who is engaged to VALERIA BENNETT, society girl. Valeria spends much of her time with a gay crowd without Peter knowing about it.

NOW GO ON WITH THE STORY

CHAPTER XIII VALERIA'S nervousness had worn off. She had refused to see friends who had called through the door and now, with evening coming on, she was waiting expectantly for Peter's call. He had had hours to think things over and to realize he had been hard and unjust. Surely he would not punish her the whole Christmas day. What a day it had been! What an awful day after a horrible night before!

Roosevelt and Hoover Are Fond Of Their Pets

By United Press
SAN FRANCISCO.—To the great American public, President Franklin D. Roosevelt is perhaps the most dynamic political figure since the World War and Herbert Hoover is a quiet, stiff-necked former president, retreating slowly into the obscurity of private life.

Captain Arthur Booth Loraine, former head veterinarian at the White House, sees a more living, more human portrait, however, in the criticism of both presidents mean nothing. Herbert Hoover whispering "back up, old boy," as he stroked the head of an ailing hunting dog, and Franklin Delano Roosevelt grinning broadly and talking about his canaries, are the pictures Captain Loraine is prone to recall.

Understand Animals
"They're men, I'd trust them, implicitly," is Captain Loraine's emphatic comment. "Why? Because they love and understand animals."

Captain Loraine came to California several months ago for his health and now is a resident of San Francisco.

Since he was 11 he has gained increasing knowledge of animals from bears and lions to canaries. In London, at 11, he joined a circus. The show staged a nightly "battle" between a bear and a lion, its sole claim to a menagerie.

Took Trainer's Place
"One night my trainer became ill," the captain related, "I practically became the owner of the troupe. I sought someone to substitute for him. Everyone refused. I volunteered."

"I prodded the animals on, they probably resented my presence and headed for me. But they caught on the cage was taken, and I couldn't get out."

It was in that cage, with the roaring, maney beasts advancing upon him, that Captain Loraine learned his greatest lesson about animals, he declares. He with an oil rig and glared back at them, and they did not harm him. Indirectly, the captain lost the toes of his left foot because of his knowledge of animals. He was in charge of 13,000 carrier pigeons for the United States Army during the World War. Splinters from a ricocheting sniper's bullet hit into his left foot, necessitating amputation of the toes, as he was releasing some of the birds for the Argonne.

Modern Fibers Hit Hemp Hard

WASHINGTON.—Hard hit by the modern fibers, hemp gradually is losing favor with rope-makers, the National Geographic society reported. Once, rope and hemp were synonymous, the society said, but today very little rope is made of hemp. Abaca, a Philippine fiber, has all but replaced hemp in the rope industry. Abaca, however, mistakenly is taken in the cordage trade as Manila hemp.

Hemp From China
Hemp first was grown in China 6000 years B. C. Shen Nung, Emperor of China, taught his subjects to grow "ma" (hemp, used for making hempen cloth).

In the 8th Century India recognized the hemp plant principally as a source of drugs. Neither Arabs nor Egyptians were familiar with it. During medieval times, however, it was found in northern Africa.

Migrant civilizations introduced hemp into Europe about 1500 B. C. but, the society pointed out, commercial importance was attached to the European plants until the French imported Chinese hemp centuries later.

Italian Hemp
Today, the highest-priced hemp is either American or European. Hemp is grown in Italy, New England and Virginia cultivated hemp in early Colonial times. In 1802, the blue grass region of Kentucky supported two hemp mills (factories for spinning rope). During the 19th century, Kentucky led the United States in the production of hemp. Since 1920, however, very little hemp has been grown anywhere in the United States.

KINSTON, N. C.—Holly gatherers, who ship thousands of dollars worth of the bright, red berries and prickly leaves out of North Carolina each December, have begun taking stock of their supply. In general, the 1934 crop has been found inferior to that of last year. Holly pickers complain of a lack of berries this season.

Last winter, small truckloads brought from \$125 to \$175 each at Philadelphia and New York. Mistletoe is also reported less attractive this year.

OLD BRIDGE CONDEMNED
LANCASTER, Wis.—The old covered bridge over the Wisconsin river at Bosobel, one of the last and believed to be the oldest of its kind in the state, has been condemned by the Grant county board. The 55-year-old span will be replaced by a modern one next summer.

OLDEST ALUMNUS
CHAPEL HILL, N. C.—A prized title—that of "oldest living alumnus"—of the University of North Carolina, changed hands recently. John Duncan, 86, of Columbus, Texas, succeeded William G. Candler, 100, who died in November. Candler graduated in 1855; Duncan in 1859.
