Smiles and Tears Dominate Grist of Week's News

The week in review... Madame Valentine Fraya, eminent French astrologer, communes with the stars and announces that the United States will emerge from the depression in 1935, thereby placing second to Charlie Dawes on predictions, and the federal government adopts plans to pave the way for revival of the old neighborhood grist mill.

Premier Flandin of France promises that his country "will omit nothing to assure the organization of peace," and the Chamber of Deputies adds 800,000 francs to the army budget, just to make sure. Five Cleveland youths engage in 11 holdups and find that the pay only averages \$15 a week, and Jim Farley sends election congratulations to a Massachusetts politician who wasn't even nominated.

The Department of Agriculture continues its efforts to counteract the drought, and Arab tribesmen complain that heavy rains in the Sahara Desert have ruined all their crops. Meanwhile a cold wave hits Florida and paralyzes the fish in Philippi Creek.

The Soviet government prepares to execute four men who attacked and killed two girls near Samara, explaining that it isn't executing them for murder, but for counter-revolutionary activities, the girls having been members of the Communist Young Pioneers outfit.

Fritz, the dog who hung around the campus of Sewanee University for 17 years, had a charge account and understood three languages, drops dead, and Pittsburgh dedicates a \$6,000,000 postoffice only to find that it lacks a slit through which you can mail letters.

Two brothers condemned to death in Yugo-Slavia protest because the hangman is too busy to execute them, complaining that they have been fed the traditional hearty breakfast seven mornings in a row and that it is getting on their nerves. An Ohio landlady has her star boarder pinched after he sold her bed-slates and a chair to get money to buy booze, and then set fire to her skirt in a spirit of playfulness.

A Massachusetts woolen mill assessed at \$90,000 is sold at auction to a man who bid \$100 just to keep the bidding alive, and the purchaser finds he's stuck for \$3000 in taxes and wants to hold another auction. Federal horticultural

experts find a way to grow potatoes in gaudy Easter egg colors, and a Wisconsin expert finishes a survey showing that families on relief rolls have more babies than those which are self-supporting.

A dizzy record? Just a glance at the week's happenings, as reflected in the newspapers.

Dollars spent at home are the dollars that come back to you.

Eastland Personals

Albert Love of Austin was the guest of the W. A. Martin family from Wednesday to yesterday.

Mr. and Mrs. A. F. Taylor and daughters, Miss Lorraine and Anna Jane, returned home Thursday night from a Christmas visit with her mother in Goldthwaite.

Miss Beulah Plummer, head of the social department of C. I. A.,

Lovable - MARY RAYMOND - WITH HER SERVICE INC.

BEGIN HERE TODAY ANN HOLLESTER breaks her engagement to TOM MICKLE the same day that PETER KENDALL tells VALERIA BENNETT, his fiancee, that he is going to marry her. Ann thinks she still loves Tom and Peter likes her. He still loves her. He still loves her. He still loves her.

ANN had dressed early the morning she left the apartment. She had called a cab and managed to get waiting for the driver in the downstairs lobby when he arrived. "Where to, miss?" The taxi driver asked the question twice before the white-faced girl in the cab answered.

Valeria called, "Peter, Peter!" but he did not turn. In the silence that followed Dirk poured her a drink, held it to her lips, whispering, "You lost. Now drink your poison."

Outside, head clearing, Peter was getting into his car. He knew now what he wanted. He had not wanted that noisy, greedy, gazing crowd. He wanted a good look at Tony. And then he wanted to break him between his hands.

The windows of Tony's duplex apartment were lighted. Tony was in. Perhaps Ann was there too. Peter wanted to see Ann's face when he broke Tony between his hands.

He pressed the bell and then, not waiting, turned the knob and flung the door wide. Tony was coming toward him. Just beyond was a girl with bold eyes. Not Ann. Not Ann!

Peter put out a hand against the wall, steadying himself. He felt weak. "I haven't seen her since the night of her birthday," Tony said. "I called her and told her I wanted to see her. She came here. I noticed you had gone off some place, leaving her alone."

"When she got here she looked tired and sick. I went in the kitchen to fix some cocktails. When I came back she was gone. She called from the car that she had just remembered something—something important, she said."

perfect breakfast, with coffee in a low silver pot, fried fruit, toast, eggs, crisp bacon and a bit of marinated salmon. A slim vase holding two perfect roses.

"More coffee, madam?" The waiter, hovering near, spoke to his head-eyed young woman who had scarcely touched her meager breakfast. He added in a low tone, "There's no extra cost. It is just a little compliment to our customers."

"Thank you, no," Ann said. Half of the lukewarm mixture was still in her cup. She lifted it to her lips and finished it.

"Could you tell me how far it is to Englewood?" "Fifteen or twenty miles out." "Thank you."

An hour later Ann was lying on a bed in an inexpensive room of an inexpensive hotel. By conserving her funds she could manage to stay here three days, eating sparingly at cheap restaurants.

At noon she went out for another frugal meal and returned to the hotel. In the writing room she wrote an answer to the advertisement that had attracted her eye.

The morning of the third day she received an answer. Mrs. Lois Tracy had been pleased with Miss Ann Jones' letter and would be glad to consider her for the position. Since there was no car line or bus service in the Englewood section, Mrs. Tracy would drive in for her early that afternoon.

Mrs. Lois Tracy proved to be a pretty, dark-haired young woman, a little on the plump side, with a long, curly bob and intelligent dark eyes.

World War Leader

Answer to Previous Puzzle
1. Who was the French war leader in the picture?
2. To ascend.
3. Form of "the".

CHRISTIAN SCIENCE SERVICES
"Christian Science" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist, today.

The Golden Text is: "The Lord hath made bare his holy arm in the eyes of all the nations; and all the ends of the earth shall see the salvation of our God" (Isaiah 52:10). Among the citations which comprise the lesson-sermon is the following from the Bible: "And these signs shall follow them that cast out devils; they shall speak with new tongues; they shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover" (Mark 16:17, 18).

The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The necessity for uplifting the race is father to the fact that mind can do it; for mind can impart purity instead of impurity, strength instead of weakness, and health instead of disease. Truth is an alterative in the entire system, and can make it 'every whit whole'" (page 371).

OREGON'S LIQUOR PROFITS

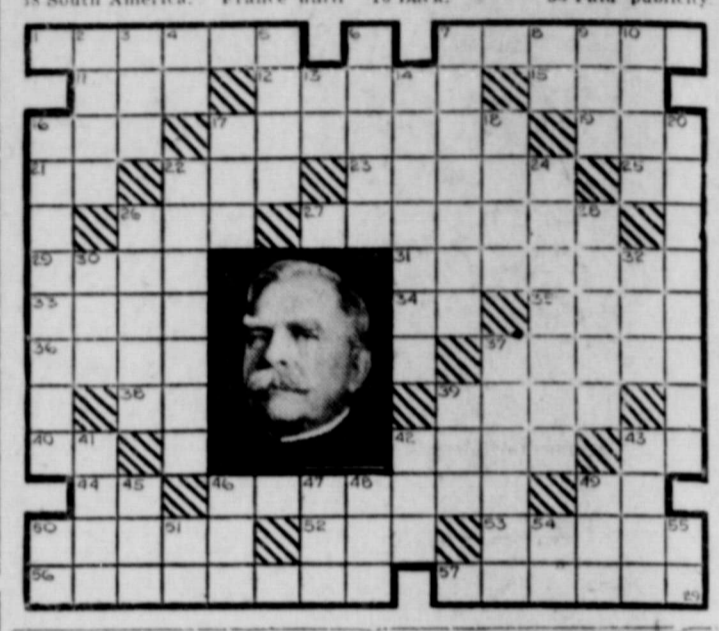

SALEM, Ore.—Liquor profits of \$3,000,000 for Oregon were forecast today by the liquor commission's accountant, J. T. Pasquill, for the 30 months' period beginning Jan. 1, 1935.

DIED ON BIRTHDAY

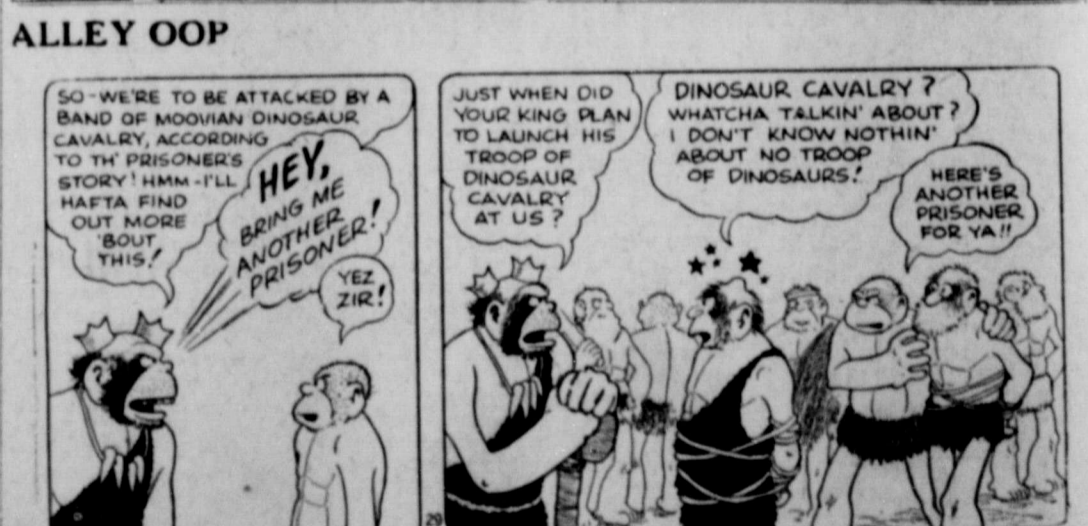

SYRACUSE, N. Y.—Edward J. Nungent's birthday brought his death. He was stricken with appendicitis while attending a party in his honor and died several hours later at a hospital.

CANNON BALL FAILED

by a cannon ball and left on the field for dead. He died recently at the age of 94. Pneumonia was the cause of death.

### Leveille Motor Co. Has 1935 Ford V-8 In Its Display Room

Hundreds of people visited the showrooms of the Leveille Motor company, Main street, Friday and Saturday to view the 1935 Ford V-8, which had been placed on display to give the public its first idea of what the new Ford would be.

The model on display, a de luxe sedan, has already been sold, Morris Leveille said Saturday, but delivery would not be made until after the first of the year. Plenty of cars to supply the demand, which is expected to be large because of the many new features distinctive to Ford, are expected early next week, since 5,000 of these new cars are being made daily.

Most striking feature of the new car is body lines which are distinctively modern and a definite departure from any previous Ford design.

The new car also embodies a combination of major engineering developments aimed at increased comfort—which has been called the "center-poise" ride.

Numerous improvements in chassis design to provide increased ease of control also are included.

Two important improvements have been made in the Ford V-8 engine, of which more than 1,300,000 are now on the road.

In addition Ford has developed a new type of body—the touring sedan, with unusually sleek lines and embodying a fitted rear trunk compartment integral with the body.

Safety glass is standard equipment not only in windshields, but also in all doors and windows in all body types.

In appearance, the new cars are characterized by a freshness of conception utilizing flowing curves to carry out the modern motif, plus a new treatment of interior and appointments which sound an entirely new note in Ford body styling.

The engineering advances in engine and chassis are comparable in importance. Principal among these is the new "ride" effect by the new spring suspension system, proper car weight balance and passenger weight distribution and the location of the passenger closer to the center of the car—so that they ride between the wheels.

Bodies are materially wider. Slanting vertical louvers with horizontal stainless steel beading are combined to form an attractive hood-side adornment. The radiator ornament is fixed in position, the radiator filler cap being under the hood.

Wheels are smaller, tires larger. The hub caps are adorned with a new and modern treatment of the V-8 insignia. The result is an impression of mass and stability most pleasing to the eye.

Interiors are roomier, with wider seats—front and rear. Span of the front seats has been increased up to 5 1/2 inches, providing room without crowding for three persons in bodies with full-width seats. Driver's seat in all closed cars is adjustable. Upholstery and appointments harmonize with the remainder of the design.

### Better Brakes Are Ford V-8 Feature

Entirely new brakes, of the time-tested Ford mechanical type, which provide more effective braking control—with less pedal pressure—are an important feature of the new Ford V-8 for 1935, now on display at showrooms of local Ford dealer.

Design of the new brakes is greatly simplified, with less operating parts. They are of the self-centering type, the brake shoes automatically assuming the most effective position within the brake drum to provide quickest and most effective deceleration when pressure is applied to the pedal.

A "floating wedge" is part of the new design. This aids in equalizing the pressure applied to the two brake shoes and by them to the hub. The fundamental design of the brake mechanism assures also equal distribution of braking force to each of the four wheels. Location of the levers now provides a straight pull on the brake rods, reducing the effort necessary for operation.

To provide more powerful braking effort, the linings of each shoe are shorter and the shoes wider, permitting full utilization of the available brake lining surface. Effectiveness is also increased by the larger area of contact with the road provided by the new 7 1/2 larger tires.

Tendency of the drums to expand from heating resulting from frequent use of the brakes is diminished by use of additional cooling ribs which expand the cooling area by 40 per cent.

### GOLDEN SLIPPER TO RE-OPEN

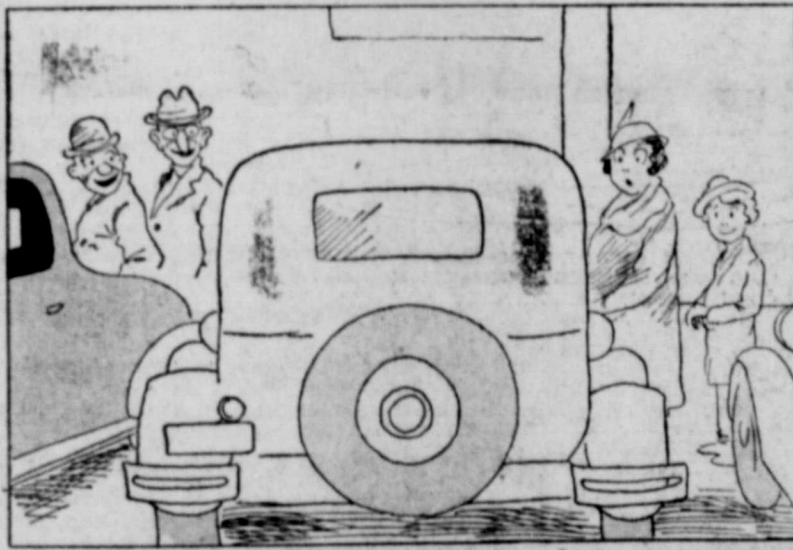

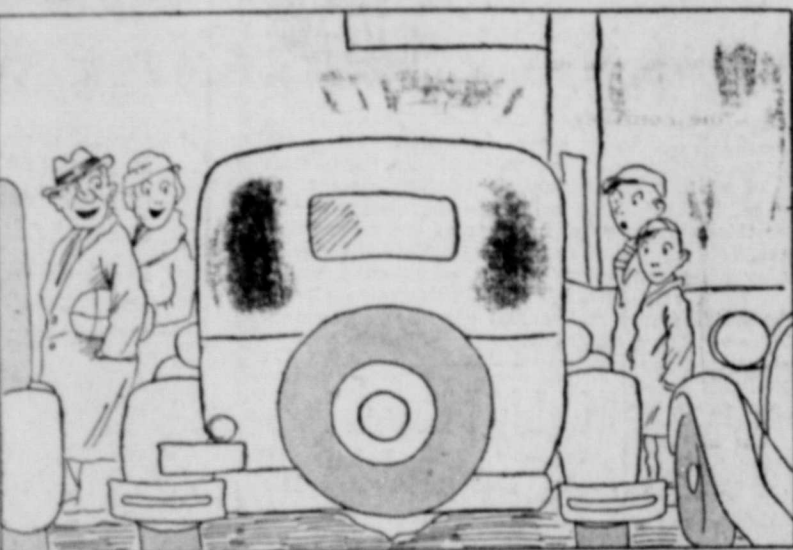

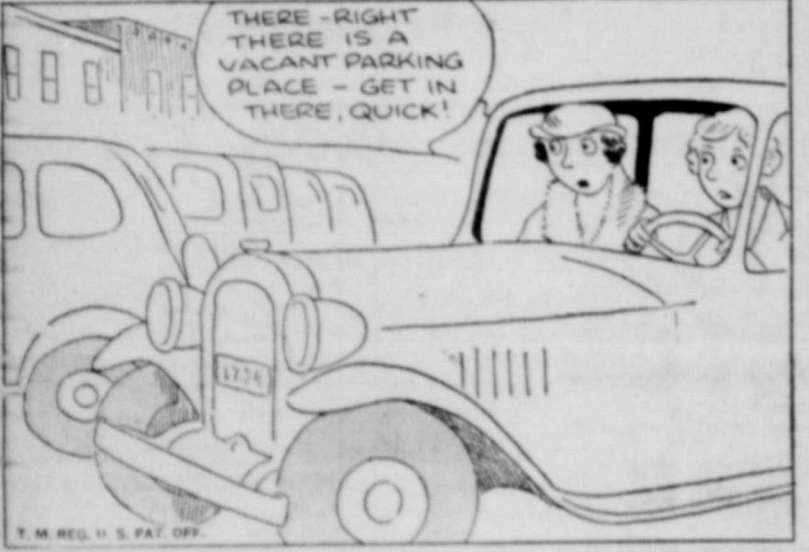

HILL CITY, S. D.—Resumption of activities at the Golden Slipper shaft is expected shortly, following announcement that the pit is unwatered. The mine has not been operated for 30 years. Ore bodies were assayed at various levels during unwatering, when water poured out at 1,000 gallons a minute. A crew of 50 will be added to the present staff.

### By Williams

### Petticoat Rule Is Adopted By A Georgia Town

**OAK PARK, Ga.**—Petticoat rule has come to this town of 500, for the mayor and all the council members are women.

The town doesn't seem so surprised at the result of the recent election as did the outside world. In fact, it was a group of men who suggested that the women be candidates after Mayor H. H. Strange, the retiring official, declined to be a candidate for re-election after he had met with little success in obtaining reforms which he had thought would improve the town.

Mrs. Solomon S. Youmans, wife of the town's only physician, is the new mayor. The women council members are: Mrs. J. D. Tyson, Mrs. G. C. Corbin, Mrs. J. J. Powell, Mrs. G. C. Williamson and Miss Ada Belle Thompson.

A majority of the women are in favor of the female regime, which they hope will be able to produce a better town. But there were some who apparently were dissenters, for the night before the election, the town jail was soaked with gasoline and burned.

The women were entered in the race by the men themselves. The day before the election arrived and no candidates had filed to take the place of Mayor Strange and his councilmen. So some of the men decided to pick out a group of women who were known for their executive ability and ask them to run.

As the women came to town to do their shopping, they were asked whether they would be candidates. They were amused, and consented. One woman, however, didn't get to town that day and she didn't know she was a candidate until the day of the election.

The new mayor is the mother of three daughters, ranging in age from three to 15 years. She is president of the Parent-Teachers association and is a prominent member of the Baptist church. On occasions she acts as office nurse for her husband, answers the telephone and keeps tab on his appointments.

Mrs. Williamson was postmistress here and her husband was her assistant for several years until about 18 months ago. Then she relinquished her position in his favor. Miss Thompson keeps house for her father, a widower, who has farming interests.

The husband of Mrs. Corbin owns a grocery store. Mrs. Tyson, youthful blonde, was a school teacher until her marriage a year ago. Her husband owns a grocery store and filling station. Mrs. Powell assists her husband in operating a cafe in connection with his filling station.

### Snared Thieves 'Holed Up' in Mine

Thieves were trapped in the Library, Pa. mine where this guard stood grimly on watch, gun ready to thwart their escape, with every other exit from the pit similarly watched by armed men. The piters fed back into the mine after they had been surprised while stealing copper wire and other materials and had been held prisoners for five days when this picture was taken.

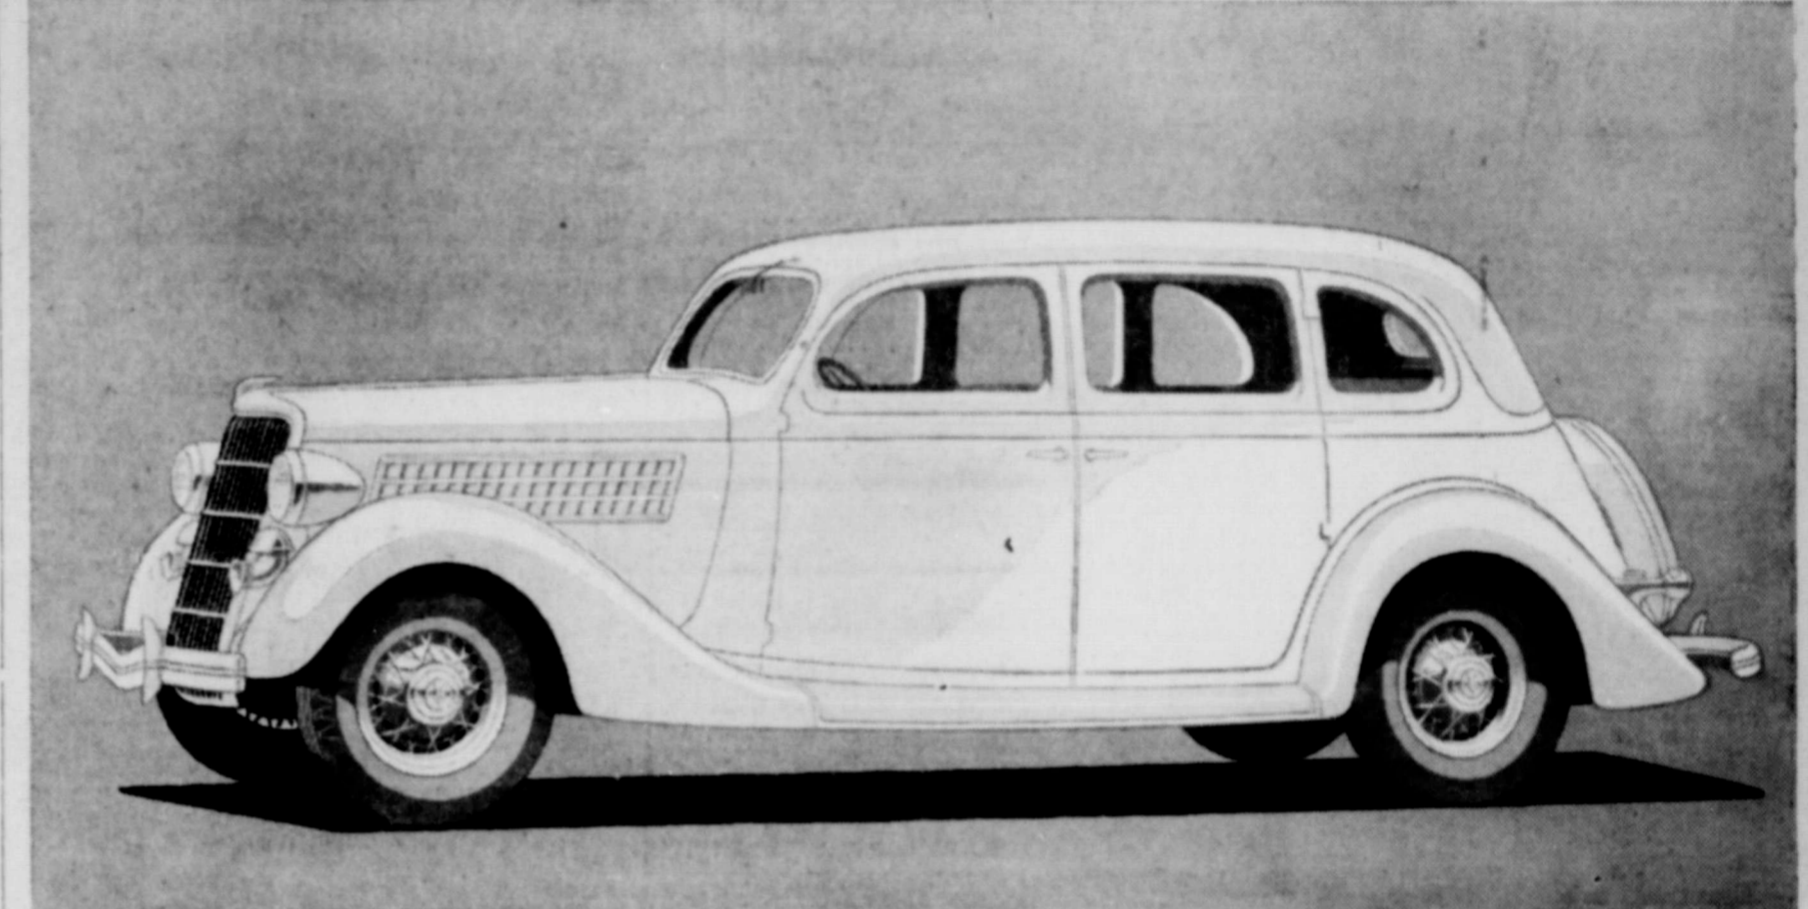

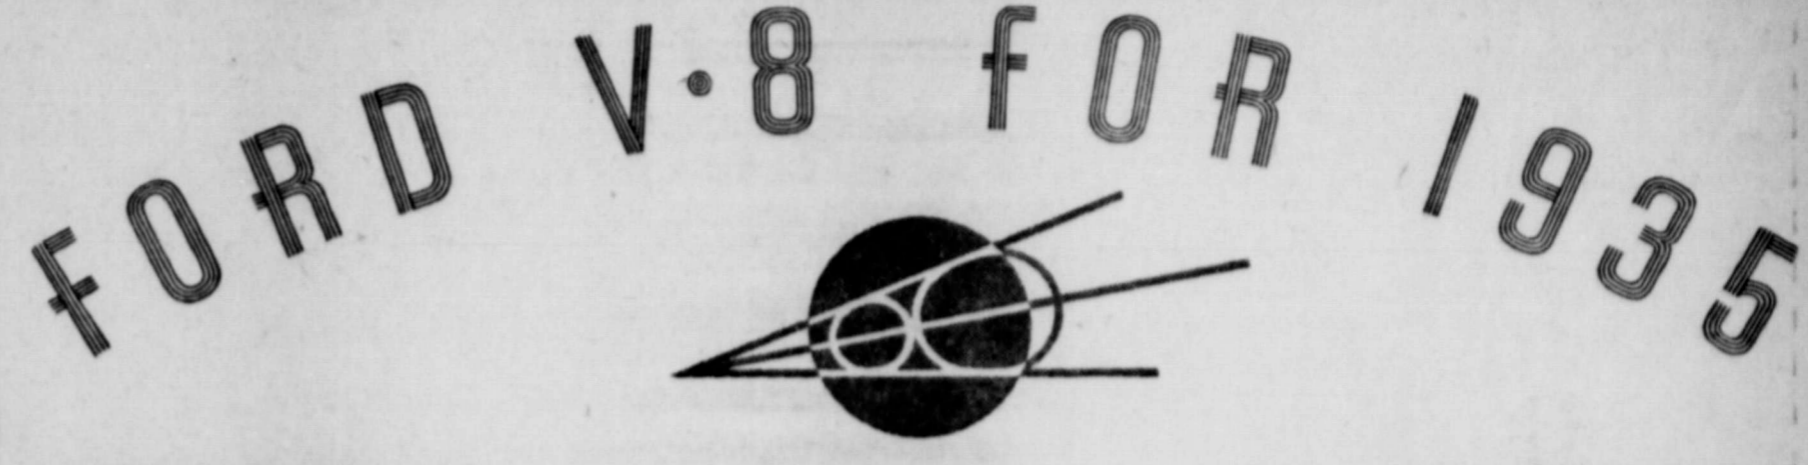

**A NEW WAY**  
By United Press  
**FOSSIL, Ore.**—Two councilmen insured continuance in office for two years more by failing to post notice of election. Citizens who went to the city hall to vote were informed the city election had been called off by the council because it had failed to instruct the record-

er to post 10 days' notice before election. This automatically allowed the incumbents to remain in office.

**BRAN SAVED MAN**  
By United Press  
**HOLT, Mo.**—A sack of bran carried on the shoulders of W. H. Harris saved him from serious injury when he was struck by a train recently. The engine hit the sack of bran. Harris received a few cuts and bruises when he hit the ground, but otherwise was uninjured.

**BRIDE A TRUANT**  
By United Press  
**SPRINGFIELD, Mo.**—Titan-haired 13-year-old Marguerite White Tate found that even a marriage certificate won't exempt her from going to school, at least for a while. After the young bride had "played hooky" to go honeymooning for a week, truant officers told the 21-year-old bridegroom, Deward Tate, that she must attend until she is 16 or passes the eighth grade.

**LYE POISONS CHILD**  
By United Press  
**SPRINGFIELD, Mo.**—It took three months for a solution of lye which she drank to prove fatal to three-year-old Ina Belle Harrell. The child was fed through a tube after the solution ate through her esophagus. Pneumonia hastened her death.

The New Ford V-8 for 1935 is a motor car designed for comfort as well as efficiency.

## DISTINCTIVE NEW LINES AND A NEW KIND OF RIDING COMFORT

Three years ago, the Ford Motor Company brought a new standard of motor performance within reach of the average purchaser by introducing the Ford V-8. The outstanding reliability and economy of its V-8 engine have been proved in the service of more than a million motorists.

For 1935, the Ford Motor Company takes another pioneering step and gives you ease of riding to match that modern engine performance.

This achievement is Center-Poise Riding—accomplished by a fundamental change in car design—with new, correct weight distribution, new seat position and new springing. The improvement is especially noticeable in the back seat. You ride forward, toward the center of the car—away from the rear axle and away from the bumps. Rear-seat passengers now have the comfort of a "front-seat ride."

and body are all so balanced that their weight is about equally distributed on all four wheels. This permits the use of longer, more flexible springs, both front and rear.

beautiful body lines of the New Ford V-8 for 1935. They are distinctively modern, yet not extreme. The whole appearance of the car is one of grace and substantial strength.

**CORRECT WEIGHT DISTRIBUTION**  
—SPRINGBASE OF 123 INCHES

Scientific distribution of weight has been effected by completely redesigning the chassis. Engine, frame

**NEW BODY ROOM—NEW BRAKES**  
—NEW CLUTCH—EASIER STEERING

The New Ford V-8 is longer and wider, with more leg room, more seat room and more luggage room. The front seats are 4 to 5 1/2 inches wider and seat three comfortably. The car is lower—easier to step in and out. Rear doors in sedans are wider. The new pillowed seats are unusually comfortable, with softer back springs and seat springs. The new interior finish, upholstery and appointments

are richer and more luxurious than anything you have ever seen in a low-price car.

Other important 1935 features are the newly designed brakes and clutch, with softer action, requiring less foot pressure on the pedals, easier steering and new lower X-type frame. The front doors now open forward. There are two new body types—Touring Sedans, with built-in trunk. All 1935 Ford cars are equipped with Safety Glass throughout, at no additional cost.

**Ford V-8 Prices Are Low**

12 BODY TYPES—Coupe (5 windows), \$495; Tudor Sedan \$510; Fordor Sedan, \$575. DE LUXE—Roadster (with rumble seat) \$550; Coupe (3 windows), \$570; Coupe (5 windows) \$560; Phaeton, \$580; DeLuxe Tudor Sedan \$575; Cabriolet (with rumble seat), \$625; DeLuxe Fordor Sedan, \$635. TOURING SEDANS, with built-in trunk—Tudor Touring Sedan, \$595; Fordor Touring Sedan, \$655.

(F. O. B. Detroit. Standard accessory group including bumpers and spare tire extra. All body types have Safety Glass throughout, at no additional cost. Small down payment. Convenient, economical terms through the Universal Credit Co.)

NOW ON DISPLAY AT THE SHOWROOMS OF FORD DEALERS

### Lawyer Indicted In Kidnap Case

Federal indictment has been returned against James C. Mathers, prominent Oklahoma criminal lawyer, above, on charges of "illegal participation in the division of the ransom money" paid for the release of the kidnaped Charles Urschel, Oklahoma oil millionaire. Mathers defended Harvey Bailey, who was given a life term for the abduction.

using State at the time of the crime with which he is charged.

Anna Hauptmann testified that "if March 1, 1932, were a Tuesday then I am certain he called for me at Christianson's bakery that evening. He always called for me on Tuesday evenings." Her statement was borne out in part by Mr. and Mrs. Frederick Christianson, her employers, although neither of those witnesses was willing to say, definitely and positively, that Hauptmann actually did call for his wife on the fateful night.

**Handwriting Expert**  
Perhaps the most important testimony at the extradition hearing was that of Albert S. Osborn, world-famous handwriting expert.

Osborn swore that the ransom notes, including the original message left in the crib at Hopewell and the subsequent letters received by Dr. John F. Condon, were all written by the same hand.

The State of New Jersey asked, through Attorney General David T. Wilentz, whether it could not logically be held that the man who wrote the Jafsic letters had actually been at the scene of the kidnaping.

### Lindbergh Case

Continued from page 1

over. Lehman signed the warrant at once; and in accordance with regular procedure, the extradition case went to the courts, under habeas corpus proceedings brought by Attorney Fawcett.

Extradition proceedings differ from an ordinary trial. The burden of proof, in such cases, rests upon the defendant to show that he could not have been in the ac-

**Heavy Guard for Transfer**  
Hauptmann's extradition was ordered and on Oct. 19, he was taken under heavy guard to the model jail behind the century-old courthouse in Flemington, the Hunterdon County seat.

Five days later, the German ex-machine gunner was arraigned formally and pleaded not guilty to them under indictment. He appeared, at that time, to be a strange combination of stoicism and apathy. Reports from the office of Sheriff John H. Curtis—whose doubts at the end of his name differentiated him from John H. Curtis of Norfolk—were that Hauptmann showed a healthy appetite, a fondness for heavy cigars, and a passion for reading.

Anna Hauptmann and her baby, Manfred, moved to Hopewell and took up a residence in a cottage, to be near the man to whom throughout the case, she remained utterly loyal.

**Quick Trial Fought**  
James M. Fawcett fought successfully against the State's proposal to rush Hauptmann to trial. Wilentz had asked for an immediate hearing, with the actual trial to begin on Nov. 7. The defense objected that it would have insufficient time to prepare a defense, and won a delay until Jan. 2.

Alienists, both for the State and the defense, peered into Hauptmann's eyes, examined his reflexes, threw questions at him, and emerged to declare, in their opinion, that he was sane.

"He is one of the coolest prisoners we ever had here," said the sheriff. "He sleeps well, every night."

As he slept, however—and all through his waking hours—Hauptmann was guarded by a small squad of State Police. The authorities took no chances with one who had twice escaped from the clutches of the German police.

### Plays Gang Girl To Trap Outlaw

She played the role of a gang girl for two months in the haunts of the Dillinger mob in Chicago and aided her superior, J. Edward Barco, Indiana assistant attorney general, to trap Outlaw Joseph Burns, so Genevieve Roth is entitled to this smile of triumph. She is a stenographer in Barco's office and her home is in Boonville, Ind.

As he slept, however—and all through his waking hours—Hauptmann was guarded by a small squad of State Police. The authorities took no chances with one who had twice escaped from the clutches of the German police.

**NEXT—A Bill of Particulars.**  
Ever since new method of scientific crime detection were adopted, shyster lawyers and politicians have been worried.

### Boys High School Club Studies Manners

**CLINTON, Mass.**—A club for the study of good manners has been formed by the senior boys of Clinton high school.

Lewis Gordon, submaster, will instruct them in good manners and social customs in a Emily Post, but will emphasize the male angle.

The students, most of whom are athletes, are making plans for formal affairs where they can put into practice what they learn. They wish to learn what is the proper thing to do without having to bother with any frills and have agreed to make the instruction part of their everyday lives.

### BOISE RESUMES CURFEW

**BOISE, Idaho.**—After a lapse of two years, the curfew bell rings again here. The city council ordered enforcement of a 50-year-old ordinance requiring ringing of the bell at 9 p. m. in summer and 8 p. m. in winter.

### AUTO TO CHASE RABBIT

**GAYLORDSVILLE, Conn.**—Birt Anderson chased a 17 1/2 pound jack rabbit a half mile in his automobile and then ran over the animal. The jar caused him to lose control of his car which climbed an embankment, damaging the radiator and fenders.
