Special Session Clamor Expected After Election

By United Press
AUSTIN—Clamor for a special session of the 44th Texas legislature will begin immediately after Aug. 24, when the people vote on proposed amendments to the state constitution.

from them.
Defeat of prohibition repeal will prevent the demand for a special session. And amendment permitting old age pensions seems fairly sure to win. There will be agitation for laws to put that into effect without delay. Relief for the unemployed, turned back to the state by federal agencies likely will call for a fall session. Representative C. M. McFarland, Wichita Falls, has a plan to let the state collect some delinquent taxes to overcome the state deficit. Many more measures are likely to be pressed upon the governor for immediate action.
If the session is called, Governor Allred is not likely to overlook

SUN-TAN

BEGIN HERE TODAY
JO DARLEN, finishing her first year in college, looks her father's job out of work. Jo bursts in a matter of minutes. There are some pretty handsome DOLLARS MARSH who offers her the job of hostess at his tea room. Jo accepts. This comes a quarter with BETT PAUL, whom she is engaged and Jo breaks the engagement.
She goes to Crest Lake. Her duties are pleasant; but Marsh's eccentric mother takes a dislike to the girl. BABS MONTGOMERY, a school acquaintance who is jealous of Jo's popularity, comes to the tea. PETER FRAGONET, the actor and his wife are also guests.
Fragonet takes Jo out in a suitboat. There is an accident and she narrowly escapes drowning. Next day Fragonet comes to see her. He tells Jo he loves her, takes her in his arms. MISS FRAGONET and MISS MARSH witness this scene and accuse Jo of encouraging Fragonet's attentions.
Fragonet goes to Hollywood promising to return soon. Jo discovers that Bett Paul is the new girl guard at Crest Lake. She and Bett have a talk, but the rift between them remains.
Marsh, on her way to the tea, encounters Marsh.
Marsh is silent a moment, and when he spoke again his voice was freighted with relief. "You don't know how glad I am to hear you say that. For Fragonet is a friend of mine. I've liked him very much—but he's like a great spoiled child, and a spoiled child can hurt."
"You mean you wouldn't quite trust him?"
"Not with a woman's happiness," Marsh said quietly. "And yet I shouldn't say that about a friend. Perhaps, this time, Pete is on the level. Why shouldn't you be the one woman he'd fall in love with and want to keep forever? You're young and beautiful, and you—"
Jo interrupted, embarrassed by Marsh's words. "Talking of Fragonet brings up the whole question of whether I should stay on here, Mr. Marsh."
"Of course you should stay. Why not?"
"I've caused trouble—and talk—let me talk," Marsh said. "And if I hear any of it myself I'll put them right side up in a devil of a hurry."
"But I don't think we've heard the end of it," Jo said. "Mrs. Fragonet is likely to make trouble, and with Fragonet so well known there are sure to be stories in the newspapers."
"We'll hope for the best, Jo."
"But... it would be awfully bad for the name of Crest Lake."
Marsh laughed. "If I were running a strictly commercial enterprise I might worry about that. But I'm doing this for fun mainly, and most of the people who come here are my friends. If they're real friends it won't matter how much scandal Fragonet stirs up."
"But—" Jo faltered, "there's always the chance that—that your name might get mixed up some way."
He turned to her with a wide grin. "I remember one thing my father told me when I was just a little kid. He said that if I had any brains and was able to keep what he left me people would be sure to talk about me whenever they got the chance. He said not to worry about it, because if I didn't get into a scandal then peo-

History Omits Battle of Ice

By United Press
LAKESIDE, O.—One of the most unusual incidents in the history of this section, and one overlooked by historians, was recounted by Chandlee D. Knapp, 85, of Lakeside, Mich., a native of Marquette, near here, on a recent visit to this city.

It was the "Battle of the Ice," they say, which British cavalymen fought with Canadian "Patriots" on the frozen ice fields of Lake Erie during the winter of 1837. From the "Patriots" at that time were fighting to liberate Canada from British rule.

According to Knapp, the Marquette peninsula and the nearby Erie Islands offered a rendezvous for many of the "Patriots" during the uprising.

Organized by a Colonel Bradley, the people marched out on the ice early to raid Pelee Island and the Canadian mainland, where they pillaged homes, seized supplies and stole horses which later were sold to mainland residents at high prices.

Pete on March 4, 1837, as a party of about 200 "Patriots" neared the headland boundary on one of the ice fields, they were met by a force of British cavalry. Hastily forming up a barricade of ice, the "Patriots" began firing on the British. After a few exchanges of shots, they began to retreat across the ice toward Kelleys Island.

They were pursued by the British and only escaped serious injury when thin ice forced the British back to the Canadian shore. Five men were killed on the ice.

Skyscrapers Will Melt Down Sky-Ride At Chicago Fair

By United Press
CHICAGO.—"Andy," the skyscraper sky-ride tower of World's Fair fame, will be razed with dynamite.

The other sky-ride tower, the Soldiers' and Sailors' Memorial, was shattered by the force of the explosion and the company officials sought a way of bringing down the tower.

"Andy" is to be melted down, first by undercutting, then by dissolving chemicals will be used to melt the legs down to the base.

The rate of ten feet of lean on top for every foot of steel at the base, an inclination of sixty feet will result. Then they will do the rest.

The tower is one of the few on the grounds of the fair.

Trails Firemen On a Vacation

By United Press
ASA, Ariz.—Even when they are on a vacation trip to a fire convention, Fire Chief Byron, Assistant Chief Karl North and Fire Supervisor Jack Strom couldn't get away from work.

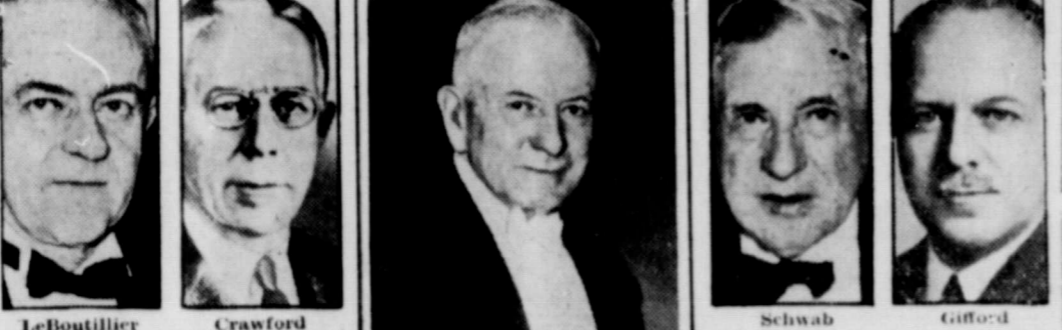

Chief Harmon smelled a fire. "You're just driving too fast," said Supervisor Kimbrom. "The motor will cool off in a minute."

It didn't. Instead, the car burst into flames. The firemen fought with extinguishers and finally quenched the fire.

ELEVEN \$100,000-A-YEAR MEN ARE AMERICA'S BIGGEST EXECUTIVES; PAID TOTAL OF \$1,800,000 IN YEAR

Woodruff Fairburn Seubert Levis Avery Davis

LeBoutillier Crawford Schwab Gifford

NEW YORK.—How would you like to hire some high-powered executive ability to put your business on its feet next year?

Well, you might get 11 of the greatest executives in the country, by offering a salary substantially above \$2,000,000 for the year.

At least, that's what you'd have to offer if these 11 men are doing as well as they did in 1934, as indicated by figures compiled by the Securities and Exchange Commission in Washington. That's one of the by-products of SEC—it compiles figures showing the compensation paid to highly valued officers of great corporations.

For 1934, at least 11 men each received compensation of \$100,000 a year or more—total compensation of the 11 was above \$1,800,000, according to the SEC figures.

First of these is T. J. Watson, whose income in salary and from several other sources mounted to the neat total of \$365,358. He's president of the International Business Machines Corporation, the vast agglomeration which manufactures computing, book-keeping, and similar machinery in a half dozen countries.

Just under the wire with \$100,000 apiece came three more executives: W. A. Fairburn, S. L. Avery, and W. E. Levis. What? Didn't you know them, either?

Fairburn is president of the Diamond Match Co., which also makes toothpicks, clothespins, and golf tees. Avery is chairman and president of Montgomery Ward, the big mail order house. And Levis is president and general manager of the Owens-Illinois Glass Co., which has done especially well with bottles since repeal.

Figures are not available on compensation of these men for the year 1935. But most of these companies are doing at least as well and several better than last year, and the chances are that it will cost you at least the same above to hire the highest-priced executive talent in America.

Schwab Well Paid

Then comes Charles M. Schwab and G. G. Crawford, with a clean quarter million apiece. Schwab is well known as chairman of the Bethlehem Steel Corporation, whose plants dot New Jersey and Delaware. But Crawford? He's another steel man, president of the Jones & Laughlin Steel Corporation.

Similarities In State and National Wars Is Noted

By United Press
GONZALES, Texas.—Striking similarities in events at the opening of the American Revolution and Texas' War for Independence are being revealed as Gonzales prepares for a seven-day centennial observance of its part in wrestling Texas from Mexico.

Gonzales was the Lexington of the Texas War for Independence. Just the British had marched out of Boston to seize weapons when the colonial farmers fired "the shot heard 'round the world," the Mexican soldiers had come from San Antonio to take a small canon formerly given Texas colonists as a protection against Indians.

Texas, on Oct. 2, 1935, had its Paul Revere. He was Matthew Caldwell. Hastily he rode to the surrounding settlements spreading the alarm that brought colonists

Texas' New Laws Which Go Into Effect On Aug. 10 Are Outlined In Series of Austin Dispatches

Editor's Note: Here is the first of a series of articles on new Texas laws which become effective Aug. 10, 90 days after the adjournment of the 44th legislature.

By United Press
AUSTIN.—Texas steps further into the field of regulation Aug. 10, when acts affecting a variety of industries—from hairdressing to undertaking—become effective.

The field of artificial beauty will be regulated literally "down to the fingertips" under direction of a state board of hairdressers and cosmetology. All beauty shop and beauty school operators must be registered. Licenses are procured on a showing of proficiency.

Another profession for women, that of nursing, is regulated and "accredited school of nursing" defined. Special hospitals approved by the state board of nurse examiners are allowed to train nurses, providing there are 25 or more beds in the hospital and a daily average of 15 patients. Three years is specified as the minimum time to train a nurse.

Son Killed In War, Aged Parents Just Get Federal Benefit

AUSTIN.—Mr. and Mrs. John Creaton of 306 East Eleventh street, learned in late August, 1918, that their only son, Leroy Hays Creaton, had been killed in action at Hill 212 in France. They have been receiving monthly payments from his insurance in recent years, but only Thursday learned they might receive also a federal benefit amounting to \$35 a month, simply by applying for it.

Meanwhile life has been hard for the Creatons, who are 80 and 72 years of age. They own their home, but getting along, even for old folks, on a limited insurance income isn't easy.

Wynn Goode, state service officer of the American Legion, who has his office on the first floor of the state land office building, Thursday filled out the application which will make life a bit easier for them. Mr. Goode has been doing this for six years, as state service officer, and his predecessors in office have been on the job since 1924.

Any widow or orphan of a World War veteran killed in action or who dies as a result of war injuries or any dependent parent of such a veteran is entitled to a monthly benefit payment upon making ap-

Challenge Issued To Widow Spiders

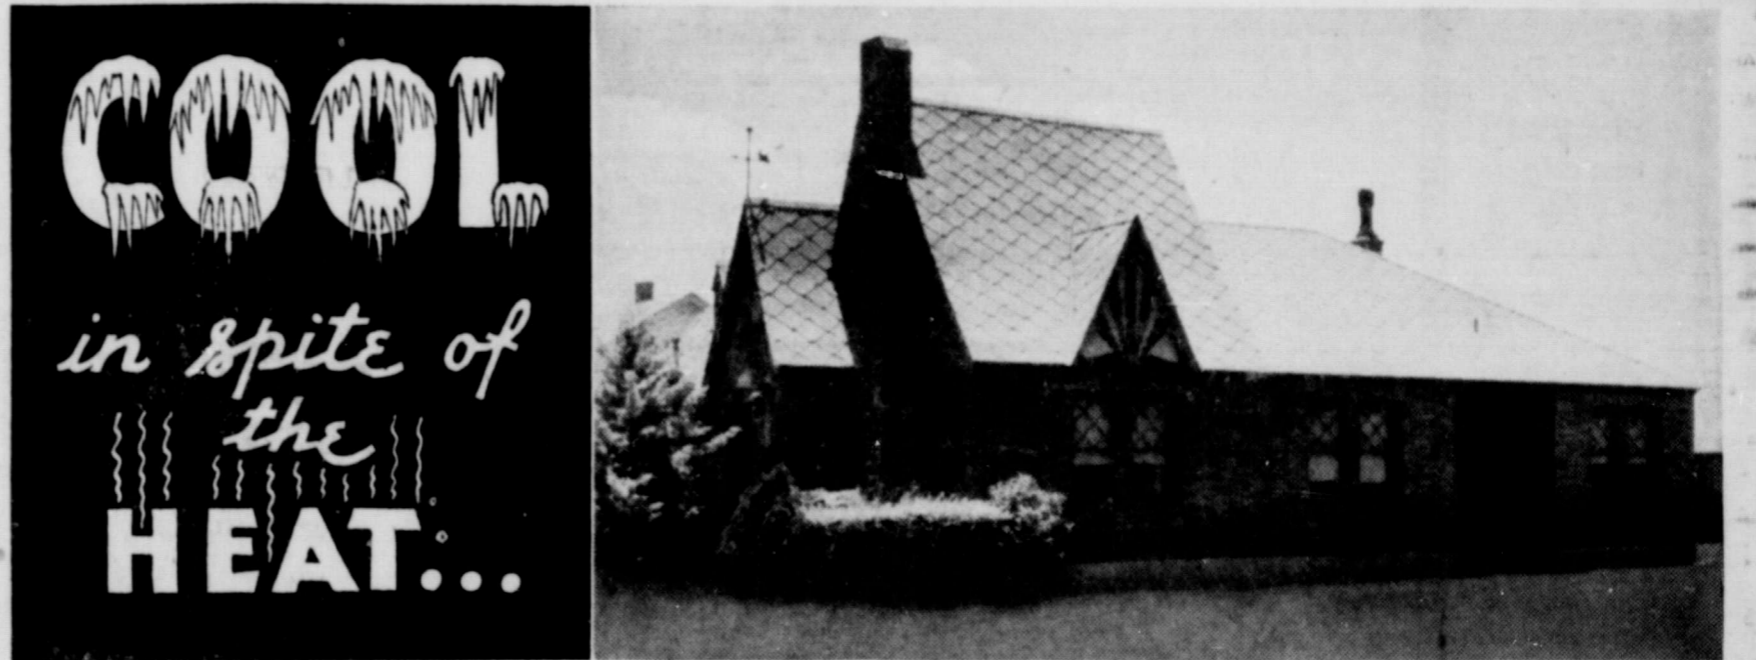

DALLAS.—Her majesty, the Black Widow Spider, notorious insect of the dreaded species, is challenged in Dallas.

Eddie Carroll, emergency hospital ambulance driver, who caught what he terms the granddaddy of all poisonous insects—a young vinegarone, issues a challenge to backers of black widow spiders, scorpions, tarantulas or any other of the many legged species, for a fight unto death.

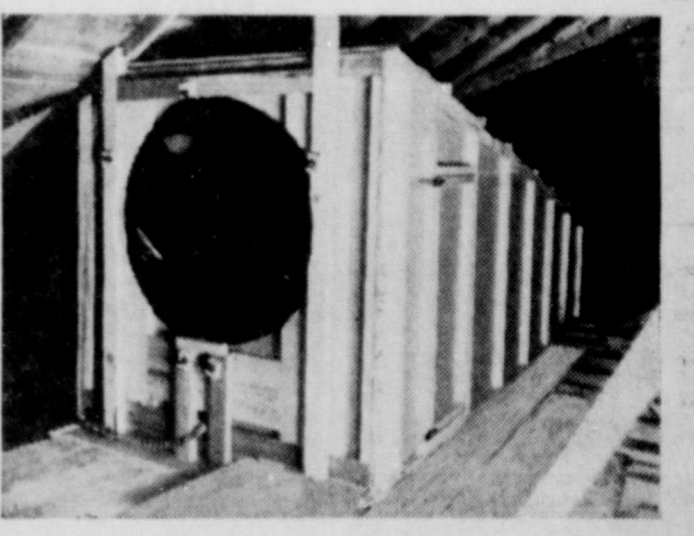

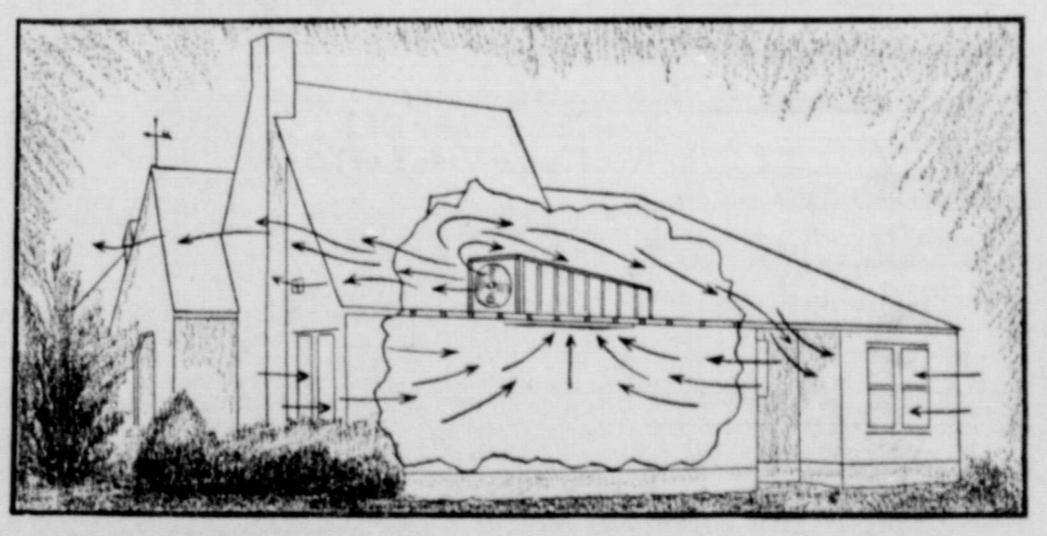

In behalf of his "Viny" he made the challenge to fight them one at a time or all at once.

"Viny's" diet of just plain bugs and things is a bit too soft for him, I'm afraid," Carroll declared. "I fear for his well being unless I can scrape up some black widow spiders or scorpions to afford him a little exercise and a square meal for a change."

The unsightly, copper-colored member of the scorpion family after whose bite Mexican sheep-knives to have wrapped a blanket around their bodies and lie down in the shade to await death, is being kept carefully guarded in a glass container.

No matter how much the sun beats down on a shingle, tile or composition roof, excessive heat can't collect in the attic and make an oven out of the entire house if a Comfort Cooling system is installed. Instead, cooling breezes come in ALL the windows and hot, dead air in the attic is forced out.

Cut-away view showing how a Comfort Cooling system operates in the attic, out of sight and out of hearing. The only visible evidence is a grilled opening in the ceiling of a hall. The arrows show how large quantities of air is drawn in through windows and forced out through openings. At the right is a photograph of an actual installation, showing the large ventilating fan that changes the air in the house every minute.

Here is a way to make your entire home comfortable, even on the hottest days and nights. Install a Comfort Cooling system and banish the discomfort of hot, stuffy rooms. Make the inside of your home as pleasant in the day time as a spot under the shade of a tree and as refreshing at night as a breeze on the lawn.

We will be glad to furnish detailed information about a Comfort Cooling system for your home. Just call our office or fill out and mail the coupon.

YEP SINCE 28 AND SHE STILL GIVES ME PLENTY OF SERVICE

YOU KNOW WHERE WE'RE FEEDIN' ON THE NORTH PLACE, WELL, THIS OLD GIRL'S BEEN PULLIN' THAT DEEP SAND THREE TIMES A WEEK AND NOT EVEN GETTING OVERHEATED. THAT'S BECAUSE I'VE ALWAYS USED THE BEST OIL.

TP AERO THAT'S THE OIL AND I ALWAYS CARRY A SPARE CAN. IT'S SEALED SO NO DUST STORM CAN BOTHER IT. I'VE FOUND THAT IT PAYS TO USE A GOOD OIL—THIS MOTOR RUNS BETTER AND I'VE HAD PRACTICALLY NO REPAIR BILLS.

Use TP Aero for perfect lubrication at all times. For smoother, more efficient operation, longer life for your motor, reduced repair bills, and more mileage.

TP Aero Motor Oil is a 100% Pure Petroleum Base Oil, yet it's Wear-Free, and runs still in sealed cans at all TP dealers—carry a spare can in your car.
