### Ranger School to Have a Program On Centennial

**VOLUME XVII** 

According to W. T. Walton, su-erintendent of schools, a special-arranged centennial program as been prepared and will be pre-ented at the Ranger high school March 2, at 2:30 p. m.

Although the occasion is to be recognition of the 100th anni-ersary of Texas' independence, ersary of Texas' independence, and is being sponsored primarily for the benefit of the high school and junior college student body, announcements are to the effect that the patrons of the school are ordially invited to be present.

The program will consist of an address by the Rev. J. Stuart Pearce of Cisco, who incidentally a one of the best read men in West Texas in regard to the early traditions and history of the Lone Star state. In addition, Jack Chevigny, head football coach of the University of Texas, has been invited to be present and make an address, and it is felt by the program committee that he will here, due to the fact that he be in our neighboring city Breckenridge the same evening

A splendid orchestra, featuring A splendid orchestra, featuring Miss Virgie Sue Wyatt on the xylophone and Edmund Herring on the accordion, will furnish the music for the occasion. This program, according to Professor Walton is being proposed by the ton, is being sponsored by the en-tertainment committee of the local American Legion Post, which is ample justification for every citizen of the community who can to

## No Biography of Veteran Run Today

No installment of the series of biographies of war veterans is be-ng run this week, due to unforeen delays in getting information

Another biography will appear in the issue of Sunday, March 8, however, and an effort will be A \$100 rev made to have one each Sunday authorities in their search for Cleveland starting June 2, are thereafter. ### RANGER, TEXAS, SUNDAY MORNING, MARCH 1, 1936

# Bovernor Allred's Proclamation!

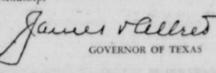

To early Americans, the word "Tejas" meant friendship.

Today the word "Texas" still means friendship, and more. It means opportunity, a land of fabulous natural resources, of rolling ranges, of loamy black farmiands, of unsurpassed climate, and — BEAUTY.

This year, Centennial Year, Texas is entertaining millions of visitors from every part of America. They're coming to see the Texas they've heard and read about. They will travel every part of our state. The favorable impression Texas and Texans make will result in a priceless asset for the Lone Star State.

Let each of us do everything possible to see that our visitors not only remember Texas as an empire of friendly people but as a land of BEAUTY, as well. This can best be accomplished by each citizen seeing that his or her premises is free from unsightly rubbish, made attractive with flowers or green lawns. In brief, let us all cooperate to the end that visitors will be impressed with the cleanliness and beauty of Texas as well as with

our far-famed reputation for friendship.

#### Art Has No Concern With Political Ideas

It must be hard to be such a devout party man that you don't know whether you like a piece of music until you find out what the party authorities have to say about

No American is likely to get into such a fix, because neither the Republicans nor the Democrats, as such, pay much attention to the fine arts. But it is a real problem in Soviet Russia where the composer, Dimitri Shostakovitch, has been denounced formally and officially for composing "un-Soviet" music.

Until a few days ago, Shostakovitch was the darling of the radicals. His music embodied the purest spirit of Com- tives munism, and when capitalist outfits like the Philadelphia orchestra played some of it the world revoution drew perceptibly nearer.

But Shostakovitch has gone off the front page and is S. R. Patterson back among the want ads, and no good Communist will listen to him.

His case is worth examining, because, it helps illustrate terson, 70, truck farm operator the odd state of affairs into which you get when you try near Eastland, who died Friday to make every activity of life conform to some one all-embracing theory.

Shostakovitch writes music in the modern manner; music that is harsh, dissonant, blaring; music that you can't whistle, because there is nothing to whistle.

A conservative soul is apt to find it just a lot of noise; and somehow, perhaps because of that fact, the Russians got the notion that this music was Marxism expressed in terms of trombones and kettledrums.

So he became a national hero. His opera, "Lady Macbeth," had a two-year run in Moscow. Party leaders assured everyone that this man was greater than Wagner. He found himself Russia's most famous composer.

And then, without warning the tables were turned. The Moscow newspaper, "Pravda," suddenly announced that his music was just a muddle, after all-"fragments of melody dissolving into a general roar, scrunch, and

Newspapers all over Russia followed this cue; from Joe Patterson, Moran; Arthur Patbeing the very embodiment of distilled Marxism, Shostako- terson, Fort Stockton, and George vitch overnight became a petty bourgeois, who was clearly widow, Mrs. Lucy Patterson, Eastup to no good.

disciples allowed to experience the vision? Possibly it was only for those who were most capable the experiences on the mountain, of receiving it; and Peter, James, and John were chosen because of can be no real service; and their qualities of unusual leader—where faith and vision are pres-

We have been accustomed to seeing Peter, James, and John as men of ambition, all striving for the foremost place. Peter had been bold in asserting his superiority to the other disciples, and James and John, through their is very beautiful and at the mother, had requested the places come into His Kingdom. Jesus took Peter, James, had roused the other disciples to indignation by the intensity and vanity of their ambition.

Here, however, the three ambisaw, talking to Him, two men, tious men are subdued, all who, we are told, were Moses and thought of their own glory has departed from them, The conversation concerned the boasting as they come down from death of Jesus, about to take the mountain, no disposition to place at Jerusalem. This came lord it over their fellow disciples. the disciples, apparently, in On the contrary, there is a peace

THERE'S a double advantage in having a V-8 engine in your car. It helps to give you fine-car roominess, as well as fine-car performance.

The Ford V-8 engine takes up less space under the hood because of its compact design. And it is positioned forward in the chassis, in accordance with the most modern construction.

More of the car's length can thus be used for passengers-extra inches of leg room are provided in both the front and rear compartments.

Wide seats are another reason for the big-car roominess of the Ford. All seats in all body types (except the individual bucket-type front seats of the Tudor Sedans) hold three persons in comfort. The 1936 Fordor Sedans have 31/2 inches more elbow room in the rear seat because the rear-quarter trim is recessed above the arm rests.

We'd like to have you ride in the Ford V-8 for 1936. Actual measurements will confirm your own impression of big-car roominess and comfort.

POLICY "The car we make does not have to be cast aside every year. At any period a customer buys, he gets the best we have. . . . Our main purpose is to make a car that will become more and more useful, and more and more easy to obtain, to more and more people."

TIN and LINDA BAYES. Goor show entertainers.

Dirk and Jane spend much of their time together. Then a misunderstanding comes between them. Dirk meets Norn Lane and is attentive to her. Tino Rossi becomes Jane's constant rescort.

Snowshoes persandes Norn Lane to tuen the Kokinor diamond over to the purser. They go to her stateroom to get if and find Mannie Jackson, dead from a builtet, on the floor. The diamond is missing.

Snowshoes takes charge of the investigation. He asks who had keys to the room. The purser turns to Dirk and says. "You have one."

FIRST METHODIST CHURCH

T. E. Bowman, Pastor Wanted! The largest attendance in all the services of the church today that we have had in recent onths. Let's break all recent records in the attendance in the ties and the preaching services. Church school starts at 9:45, and preaching at 11 a.m. and 7:15 p. m. Young people and children meet at 6:15. All these services are interesting, but we can make them still more interesting.

At the morning hour the Pastor preaches on "Aids to Worship." This is the last of three sermons the general theme, "Jesus and Worship." I would like for all our people to hear this sermon. At :15 subject, "Jesus, a Man of Strength," A cordial invitation is xtended to all to worship with us. You will enjoy good music, a healthy religious atmosphere and

#### BALANCED COIN SHOWS HUDSON ENGINE SMOOTHNESS

Workman indicating five-cent piece balanced on its edge on the cylinder head of a Hudson engine rotating at 2, 200 revolutions per minute.

So free is the Hudson engine from vibration that a five cent piece will stand on its edge on the cylinder head at over 2,000 revolutions per minute. Visitors passing through the Hudson factory are often given this demonstra-tion in the blocktest room and it is a very graphic and impressive demonstration of the accuracy of balance of this motor, particularly since these engines are never even bolted down on the test blocks.

even bolted down on the test blocks. The engines are simply deposited on the test blocks by the crane which brings them from the end of the assembly line. The fuel and water lines are connected and the engine is started under its own power and run under the watchful eye of the inspectors. As a part of the manufacturing routine all engines are given this block test at the factory. They are started at about 1,000 r. p. m. and run until warm after which the speed is increased to about 2,000
