## Fund drive for library begins

The Castro County Library Board launched its fund drive this week with a unique proposition: if the county's citizens come across with \$35,000 in donations, they can have a \$225,000 public library.

THE \$35,000 is the amount needed to purchase necessary books, equipment and incidental items for the proposed new library building.

**about dimmitt and castro county**  
by b. m. n.

Nearly two weeks have passed since the first primary and very little has been heard from the candidates, successful or defeated. I can't remember reading of or hearing of a defeated candidate congratulating the winner in the recent election. I am sure that the losers don't believe that the winners are capable or fit to hold office, but certainly people in public life should be good sports, for instance like boxers or wrestlers who shake hands and make up after every bout. But, of course, some of the people that bit the dirt weren't expecting such treatment at the hands of the voters, and just weren't prepared to accept the inevitable.

The recent rains have been worth a ton in money to our county. What wheat there is will make without any more irrigating, the moisture is ample to make good grazing in the few remaining pastures, and in most areas a planting season is assured for cotton, milo and other row crops. I predict a bumper crop will be harvested in Castro County this year, and before you let your skepticism clatter, remember it was here that you first learned how the election was going.

Texas political history sort of runs in eras. In my memory, without the aid of history books, there has been the Ferguson era, the semi-calm era during the mid and late thirties, then the birth of the states righters in the forties that resulted in the Shivercrat era of the early fifties. Then state leadership shifted to Washington where Lyndon Johnson and Sam Rayburn, to a large extent, called the shots, in the mid-fifties and early sixties. In the mid and late sixties, and thus far in the seventies, we have seen an era the likes of which we have never seen before. When news of the Sharpstown scandal broke, many, if not most, state officials screamed to high heaven that it was politics being engineered from Washington to crucify Texas politicians. Be that as it may, the investigation resulted in the conviction of three high state officials on a charge of conspiring to accept a bribe. Most people haven't been fully convinced that bribing two or three mem-

The rest of the money for the big library project is already in hand. It includes a stock gift from Mrs. Ralph Perry of Plainview, now estimated to be worth \$135,000; a \$50,000 grant from the state; and initial contributions of \$5,000 from 10 local businesses and individuals.

HE ADDED, "We'll take pledges as well as actual donations, and we'll also take books—they're as good as money in this case."

Donors of \$100 or more, \$500 or more and \$1,000 or more will be recognized on special plaques in the new building, Ross said, unless the donor wants to remain anonymous.

CONSTRUCTION cost site will all be paid by the gift from Mrs. Perry and the grant from the state, they explained.

"We've gone as far as we can go with the planning," Miller said, "and we've nurtured Mrs. Perry's gift of stock from its original \$90,000 value to

\$135,000. The library board has come up with what it considers to be the most suitable site and the best building design for the purpose. What we need now is a good response from the public to give our county a library it can be proud of."

ROSS INVITED all clubs in

the county to call on library board members to explain the project in detail.

"We would welcome the opportunity to speak to any clubs in the county," he said. "Several board members and myself are willing to explain the library plans at any time."

## County Demos 'reason together' to send uncommitted delegation

Castro County's Democrats will send an uncommitted delegation to the party's state convention in San Antonio next month. However, it will be heavy with Humphrey supporters.

AT THE county Demo convention Saturday, representatives of the 16 voting precincts chose a six-person delegation that includes three who favor Sen. Hubert Humphrey for President, one who prefers Sen. George McGovern, and two who are still uncommitted.

The county's Democrats also elected six alternate delegates, four of whom have said they favor Humphrey.

The county convention adopted, by a simple majority, a motion calling for Castro County Demos to support Humphrey in his bid for the presidential nomination. However, Humphrey supporters could not get the 70 percent majority necessary to commit the county's state delegation to the former vice-president.

STATE convention delegates elected were Carl King, B. M. Nelson, Oscar Wylie, Bob Du-

Laney, Bob Ebeling and Mrs. Ann Touchstone.

Alternates are Bill Graham Jr., Mrs. Albert Schoenberger, Mrs. Oscar Wylie, Mrs. Lynn Ehly, Rayphard Smithson and Mrs. Jean DuLaney.

COUNTY DEMOS also adopted these six resolutions:

1. "That Daylight Saving Time in Texas be effective only from June 1 to Aug. 31, in better interest of education of school children in Texas.
2. "That the wording on the Democratic primary election ballot be clearer in the future.
3. "That we favor a strong farm program, providing producers at least 90 percent parity, and no payment limitations, as an improvement over the Republican farm program.
4. "THAT ALL delegates to the state convention be required to support all the nominees of the Democratic Party.
5. "That we urge the President of the United States to end the war in Vietnam as soon as possible, and bring the boys back home.
6. "That we back the Presi-

Dimmitt Public Schools' protest over the cutting of the popular "Follow Through" pilot program here spurred action this week when agents of the General Accounting Office started an investigation of the local program.

THE investigation was requested by Congressman Bob Price, who said the reasons given by the US Office of Education for cancelling its program funds here "didn't add up."

The GAO agents are to report their findings to Price, who hopes to challenge the Office of Education action and get the program reinstated here.

When the Office of Education announced in March that it would drop its funding of the pilot program here next year, Supt. Charlie White fired off a letter of protest to Texas congressmen and senators, and urged others to do so. White termed "Follow Through" as "the greatest program I've ever been associated with in the education field."

AFTER receiving White's letter, Price contacted the US Office of Education "to see what the situation was." Price was dissatisfied with the OE's answers and called for an investigation by the GAO, the independent auditing agency of Congress.

When the GAO investigation started this week, the News contacted Price's Washington office, Ron Martinson, Price's administrative assistant, gave this account of the controversy from the Washington end:

"When our office contacted the Office of Education, we got the usual runaround as to why the program did not measure up to certain specific standards, etcetera. They also gave a budget cutback as one of the reasons."

"WE RELAYED the agency's allegations to Mr. White. He refused, point by point, the various allegations made by the Office of Education as to why the Dimmitt program didn't measure up."

"Then it came out on the Senate floor that the programs weren't dropped because of any program problems here, but because they were trying to save money administratively. That didn't add up."

"This kind of thing is what congressmen have to fight every day when they deal with the federal bureaucracy. People make directives and apply them across the board, and it's difficult to find out why."

"CONGRESSMAN Price decided we ought to have an investigation to see just what the situation was. We contacted the General Accounting Office and told them, 'We want a full-scale investigation of this entire program, and then a further investigation of the Dimmitt program. We want to know why the agency has cut off the Dimmitt schools from the Follow Through program, especially since the program seems to be doing so well in the Dimmitt schools and is being so well received by the public in Dimmitt.'"

"We have ordered the GAO to conduct a full, independent

## Growth made it necessary

# Southwestern completes big power-boost project

Southwestern Public Service Co. construction crews have completed a conversion project which has raised the primary voltage on the Dimmitt electrical distribution system from 2,400 volts to 7,200-12,500 volts

"WITHOUT being technical about it, what we have done is made more power available to all sections of the community. Converting from a 2,400-volt system to the new system makes much more power available and a higher quality of service on basically the same facilities as far as poles and wires and other equipment are concerned," Ralph Glover, Dimmitt manager for Southwestern, said.

Glover attributed the decision to improve the electrical system in Dimmitt to the new loads brought about by the starch plant, the remodeling and enlarging of the courthouse and the growth and increase in number of smaller businesses in the community.

Two additional electrical circuits were extended from the company's East Dimmitt substation as part of the conversion project, providing additional power sources for future growth. One of the circuits goes north from the substation to State 86 and then west into the central business section.

THE OTHER new circuit goes west from the substation for a block and then turns south to serve the south central section of the city. Protective equipment to control the new circuits was also installed, in the event of emergency.

"With additional circuits and

higher voltage on the primary system, we are going to be offering our customers a higher quality of service," Glover added. "When you start out with a higher voltage on the primary system, you lessen the voltage drop down at the end

of the line. It's like having more water pressure when you start, that improves the flow at the end. Our customers will notice improved voltage levels and that will improve the efficiency and economy of their electrical equipment."

BOOSTING UP—Southwestern Public Service Co. workmen replace an old 2,400-volt transformer with a new 12,500-volt one near the Golden Spread Nursing Home during the utility's recent power conversion program for Dimmitt. Workmen, from left, are Allen Cochran, Joe Harris, Ross Mitchell, and truck driver H. W. Lowery.

## DHS senior free on bond after shooting

Floyd Bossett, 20, of Dimmitt was released from Castro County Jail Tuesday morning after posting \$5,000 bond. Bossett is charged in connection with the Sunday night death of Emory Jackson, 30, of Hereford.

BAIL WAS reduced to \$5,000 from the original bond of \$10,000 set Sunday night when he was arraigned before Justice of the Peace Elvon DeVaney on a charge of murder with malice.

The shooting incident occurred about 10 p.m. Sunday on North-east Sixth Street in Dimmitt, in front of a neighborhood cafe.

The sheriff's office said Jackson was in a parked car when the incident started. The shooting was believed to be an outgrowth of a fight involving other persons, officers said.

BOSSETT faces Grand Jury action May 30.

Jackson was employed in Hereford. His wife and six children live in Littlefield.

Bossett is a Dimmitt High School senior.

THE RECESSIONAL by Bishop Lawrence DeFalco, Father Raphael Chen, acolytes and visiting church officials marked the end of the formal dedication of the new Immaculate Conception Church in Dimmitt last Wednesday evening. Bishop DeFalco

preached the Homily and was joined by Father Chen and Father Boniface Reidmann of Hereford in the celebration of the dedication Mass. The new church building on West Halsell Street was crowded with parishioners for the dedication.

A RECEPTION in the foyer of the new Immaculate Conception Church followed dedication ceremonies last Wednesday evening. Ladies of the church served sandwiches, cookies and punch to a capacity crowd of 400 or more. Under Father Raphael

Chen's leadership, the congregation raised and saved enough money to enable their new church building to be debt-free at the time of its completion. Design of the contemporary brick church building allows for future expansion.

Sheffy's chatter

Mother's Day, flower show give ladies big weekend

By MYRTLE SHEFFY Mothers Day is a great institution for we moms. I am glad someone thought of it. Everyones children came home or called. I have quit cooking for our 34 descendants, but they come in for coffee bringing gifts. I wish you could see the pale green lacey hat with big flowers on it our granddaughter gave me. I wore it to church but it is really my Garden Club hat. I also got candy, necklaces and other pretty things.

Texas called. Another daughter Melba and family live in Turkey is Asia. And Roland and Maurine Shepard of Hart also came for coffee.

A GROUP of friends went to the home of Dr. Dennis and Jane Blackburn Saturday night after the flower show for a house warming. They brought in cookies and coffee. This was a fun thing, but was my energy ever gone. Couldn't go—tired.

Mr. and Mrs. Earl Brock bought a new house on a car or something and they went on a trip to Phoenix, Ariz. to see son Bob and Pat and children Rebby, Shea and Ramona.

Mrs. George Bradford was hostess at a bridge party Thursday afternoon. She served a turkey salad and lemon fluff pie to Cletha George, Gladys Cleavinger, Maggie Boren, Opal Rearden, Ruth Wooten, Retta Chuck, Myrtle Sheffy and Dee Williams who won high score.

WES and Helen Brown were in Albuquerque this week visiting their daughter Judy and Sid Perkins. Wes has work there and they plan to move when their business here is finished. Bud White, son of Supt. Char-

lie and Monte White is home after a US tour of duty in Spain. He has been in California for a while also.

Therefore thou shalt love the Lord thy God, and keep his charge, and his statutes, and his judgments, and his commandments, always. Deuteronomy 10:1. GOD'S WILL The greatest commandment is that we should love our God. This is a free choice that man has, but it is God's desire that all would seek Him. He is our heavenly Father, and desires only the best for us. ATTEND CHURCH The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Baccalaureate services held

By Mrs. Florance Albracht

Sunday morning at the 8 o'clock mass baccalaureate services were held in which 25 seniors and 35 eighth grade graduates attended with their parents.

Father Stanley gave a very good homily on "What it means to leave school, and each one then has to take their place in the world."

The CYO guitar group led the singing. After the services the seniors and parents enjoyed a breakfast in the school cafeteria.

Graduation exercises will be held Friday evening in the school cafeteria at 8 p.m.

Father Stanley, Mr. and Mrs. Fritz Gerber and Mr. and Mrs. Ed Ramaekers are in Fort Worth attending the Knights of Columbus State Convention May 15, 16, 17.

**DOUGLAS Wilhelm** spent three days in Lubbock the past week taking the CPA tests.

Ricky Gerber, son of Albert Gerbers, is home for a week between semesters. He is a student at Wichita State College in Wichita, Kan.

Mr. and Mrs. John Stork and their families enjoyed Mothers Day in Tulla with the Virgil Pohlmeier family.

Sunday was a very busy day in the parish with baccalaureate services, Senior breakfast, Mothers Day and May Crowning in the evening.

Mothers of the parish were honored with parties, dinners, suppers, lovely corsages and flowers and gifts.

The Crowning of Our Mother Mary on Sunday evening at 7 p.m. was beautiful as always. This time the weather was perfect for the outdoor procession in which the school children marched around the block praying the rosary and singing hymns in honor of Mary. CYO members marched in church with the former queens and attendants. Juanita Wilhelm was the queen who had the honor of crowning Mary. After this Benediction of the Blessed Sacrament.

**THE NAZARETH PTA** held their last meeting of the school year on Monday evening, May 15 in the school cafeteria. It was teachers appreciation night. Teachers were honored with a lovely carnation.

Dr. Murphy sang several numbers, Mrs. Leonard Conrad accompanied him on the piano which was enjoyed by the group.

New officers were installed, Miss Catoe, president, Irene Wilhelm, vice president, Sister Adrian, secretary and Willie Faye Huseman, treasurer.

**JOHN SLAVIK** was presented a money tree. He has resigned from the superintendent's job and a new man is taking over the job in the fall.

Slavik praised the PTA for all the work and help they had given the school in the years he has been in charge here. He will still be teaching here. After the meeting a delicious covered dish supper was enjoyed.

Mr. and Mrs. Clarence Birkenfeld and Mrs. Thelma Wethington left Thursday for New Mexico to attend the funeral of their nephew, Eddie Wethington, 20-year-old who had been sick for a long time.

**MR. AND MRS. Greg Hoelting** left Thursday morning for Colorado to spend a few weeks with their son, Leroy and family of Colorado Springs, and Denis and Marvin and family of Denver.

Mr. and Mrs. Leonard Wilhelm attended the graduation exercises at Texas A&M at which their son Dean graduated.

Mrs. Helen Burt and daughter Sue drove to Kermit Wednesday to visit their sister-in-law and aunt and also to bring Mrs. Margaret Stultz of Plainview, who has been visiting there back with them.

Mr. and Mrs. Joe Lange and son Billy, Mr. and Mrs. Ed Hoelting and Mrs. Sybil Stefens drove to San Antonio over the weekend for the golden wedding anniversary of the Ted Dirks, formerly of our parish. Comig home they were within 20 miles of the flood that hit New Braunfels. No one was allowed to get close.

Mr. and Mrs. Roy Schmucker and family moved to Amarillo on Monday. He has a job at K-Mart as manager of the garden shop. We really hate to see our young families quit farming and move to the city.

JOHN B. CONNALLY, Treasury Secretary, speaking to newspaper editors: "A democracy without a high degree of public confidence cannot long survive."

JOHN W. YOUNG, Astronaut: "The earth rise is just beautiful. We can hardly wait to get there."

Too Expensive For Them

Past surveys taken by the National Federation of Independent Business show that the majority of the nation's independent business people would prefer to see the present Social Security system scrapped in favor of an operation by a quasi-private corporation.

Comments from many of the younger business people state that they could get better protection for the same, or less money, through private insurance carriers.

It now develops that the majority of the employees of the State of California would like to pull out of Social Security and the pressure is on the state legislature to pass the necessary legislation to accomplish this.

In 1951 the Social Security law was amended to permit coverage of public employees under Social Security. Although Ohio, Illinois and Massachusetts have never gone to the Federal system, the State of California adopted the system in 1961, making coverage under it optional for employees at that time, and mandatory for all new employees. This totals about 70 per cent of the current state work force, or 115,000 state employees.

At the time the state employees went under Social Security the payroll tax was 3 per cent on both employee and employer on the first \$4,800 in annual earnings. Currently it is 5.2 per cent on the first \$9,000 in earnings, with every prospect of this tax being boosted.

This has become far too expensive, the state employees complain, and the state retirement program, operated by the state, is much better, than the Federal program.

There is another factor.

Approximately 32 per cent of the state's employees are women and most of them, after paying the Social Security tax for years, will never receive any benefits because their husbands benefits will exceed theirs.

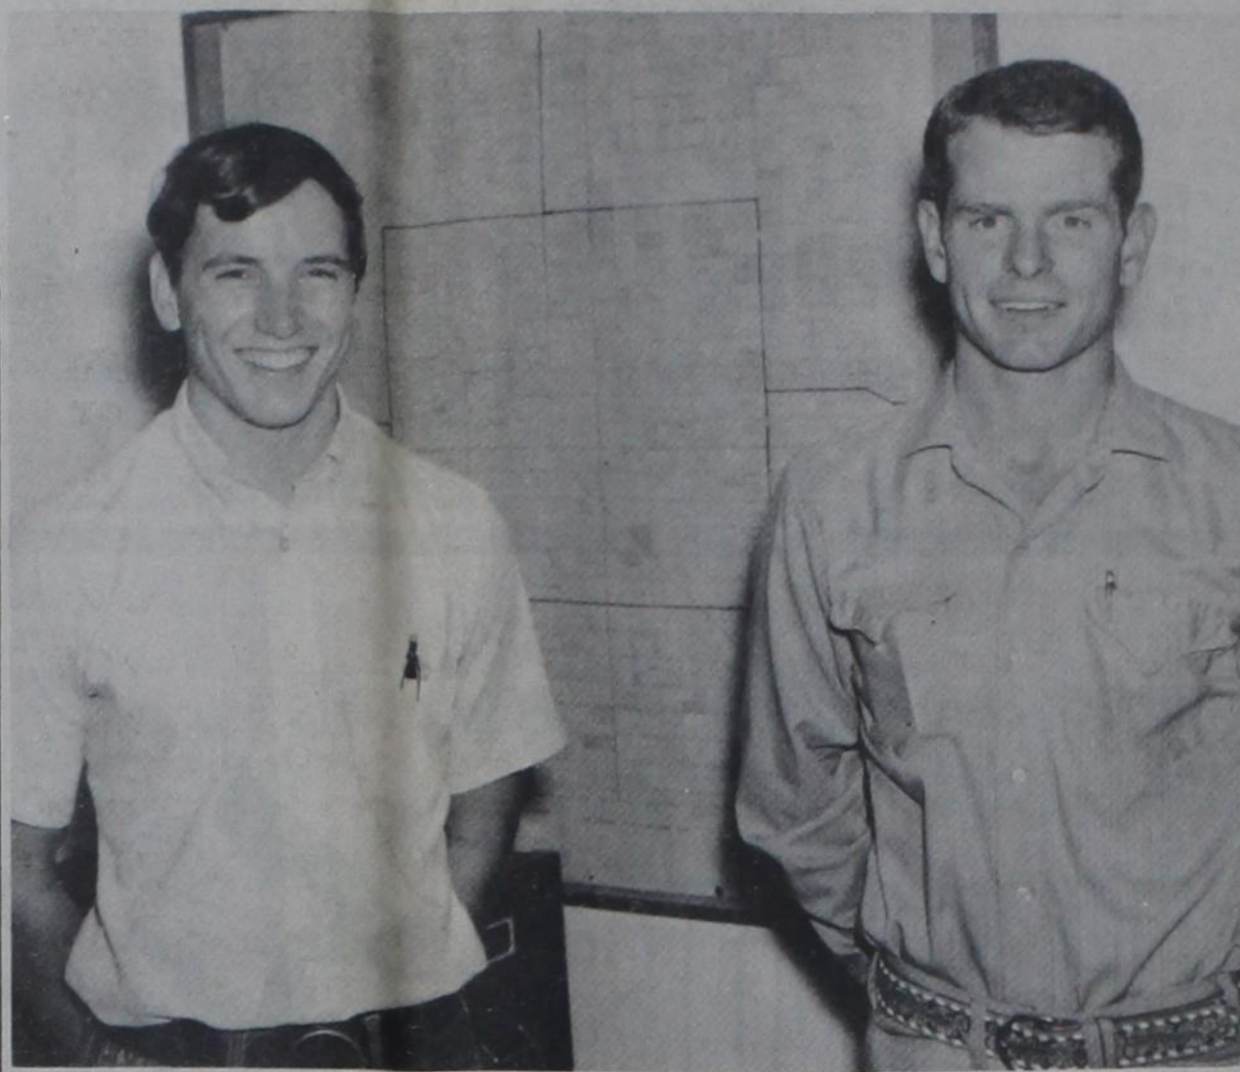

A. Alan Post, the long time esteemed legislative analyst for the State of California, a non-partisan position, agrees that state employees could end up with a better and less costly retirement program by pulling out of Social Security.

This is disputed by the Federal Social Security officials in the state capitol.

While the nation's independent employers, through the National Federation of Independent Business say they cannot afford to absorb any more payroll taxes, there is a move in Congress to boost them.

But even in Washington they may get the news that 115,000 state employees in California want out of the Social Security system, in order to adopt a better, less costly plan. They are fortunate to the extent that their state legislature can arrange for them to do this. So far, no such recourse is offered private employees.

A wise vacationer knows how to pack

By IRENE KEATING

This has been a busy week. The THDA luncheon was held Wednesday. This is always the highlight of our home demonstration club work.

IT IS going to be vacation time soon for many of you so I want to share some ideas with you to make your packing easier. Good packing begins with planning ahead.

Determine all the clothes and accessories needed for the climates and activities your trip will include. Visualize every outfit from head to toe, inside to outside. Also itemize the cosmetics and drugs you usually rely on.

For a greater variety with a minimum of bulk, choose a basic color scheme and garments that serve more than one purpose. Pack clothes that you enjoy wearing and that can "Take it." Easy-care fabrics are ideal for travel. These include such materials as jerseys, no-wrinkle synthetics and blends and knits—garments that are washable as well as packable.

Prints that camouflage spots and wrinkles are also good traveling companions. Whether using the "roll-up" or "fold-it-flat method," pack tightly, but without crushing clothes. Too much room allows clothes to roll and shift, thus forming unnecessary wrinkles. Pad out needed folds with crumpled tissue paper or soft garments.

USE PLASTIC bags for laundry, damp swimsuits, or anything you want to protect. Tissue paper and plastic bags are the tools of good packing.

Pack heavier items such as shoes and less used garments

in the bottom of the suitcase. Lighter, frequently used items should be placed near the top.

Carry cosmetics in a separate case. A good method of arranging cosmetics is to pack go-togethers individually. For example, put hair setting items together and soaps and cleaning supplies in another area or package.

Plastic bottles and jars make ideal containers because of their light-weightness. Leave room at the top to allow for expansion of liquids; then seal with tape.

Do not forget the many small gadgets on the market that make life easier for the traveler. Consider such things as folding inflatable hangup miniature clotheslines and pins, sewing and repair kits, spot remover, shoe shine pads and plug-in hot cups.

IT IS WISE to make allowances for an unexpected separation of you and your luggage by labeling both inside and outside with your name and address. An unusual decal or strip of colored tape on the outside of your luggage will cut time spent at baggage claim areas to a minimum. The chance of someone picking up your bag by mistake will also be reduced.

Planning ahead for your travel needs will give you that extra amount of confidence as you open your luggage for the first time. When miles from home, you'll find that you DID bring that oh-so-important item.

THE trials of living and the pangs of disease make even the short span of life too long.—Herodotus.

'Money for Expansion Plans' is theme of SBA workshop today

A Small Business Administration Workshop, co-sponsored by the SBA and the Southwestern Public Service Co., will be held today (Thursday) in the Reddy Room of the Tahoka office of Southwestern. Registration will begin at 1:30 p.m. with the first session at 2 p.m.

"MONEY for Your Expansion Plans" will be the theme for the workshop, which is designed to point out to present industries in the area the avenues for financial and technical assistance which will aid them in expanding their operations.

The speakers from the SBA, including Phillip J. O'Jibway, district director, Hall T. Martin and Carl Lightner, community economic development specialists, and J. B. Hare, from the procurement and management assistance division, will advise participants on availability of direct government loans and community loans and how to get government contracts.

Frank Alagna of the Texas Industrial Commission in Austin will discuss the sources of assistance in employee training and Don Workman, vice president of the First National Bank of Lubbock, will speak on what a banker wants to know.

THE WEST Texas Business Development Corp., a new industry-financing plan, will be explained by Bob Brummal, chairman of the new corporation. Brummal is Southern Division manager for Southwestern Public Service Company.

Larry Milner, manager of industrial development of Southwestern, said the workshop would be of interest to manufacturers, businessmen and community leaders throughout the area.

"The very heart of industrial development is for area and community leaders to help those industries they already have expand and develop so they can play a bigger role in the economic growth of the region. This workshop is designed to help in that effort by emphasizing the opportunities that are available to existing small industries for financing and technical assistance from governmental and private sources." Milner concluded.

## Panhellenic Forum planned Saturday for grads interested in sororities

All high school senior girls and their mothers from the Dimmitt area are invited to attend the annual Panhellenic Rush Forum scheduled at 2 p.m. Saturday in the College Union Building at Amarillo College.

**THE FORUM** is co-sponsored by the local sororities at AC and the Amarillo City Panhellenic, which is composed of representatives from the 16 national Greek sororities.

The seniors and their mothers, as well as college girls interested in pledging a sorority, will hear general information on rush, costs and the benefits of being in a sorority. Group sessions will also be held for individual schools.

**JACKIE SCHAEFFER** of Dimmitt will be taking part in the panel at the forum.

The Forum will also feature coeds from Texas Tech, West Texas State University, Amarillo College, the University of

Texas and other schools in a style show of campus and rush fashions.

Refreshments will be served, and the girls may visit tables displayed by each sorority, and ask questions.

If a girl wishes to register with the Amarillo City Panhellenic, she should bring information about her grade average, activities, honors and names of personal references.

**ALL GIRLS** except those going to Texas Tech (who must send pictures directly to the Tech Panhellenic) are also asked to bring pictures of themselves—four pictures if they are going to WTSU and 16 (one for each sorority) for any other college. This information and pictures assist sorority alumnae in filling out recommendations on individual girls.

The Forum will be very beneficial to all girls who are considering rush.

## Garden Club show is success

By JON NELL FORRESTER

The Dimmitt Garden Club presented its annual Home Tour and Flower Show Saturday afternoon.

**MRS. SID SHEFFY**, general chairman, announced that this year's show, which hosted an estimated 175 guests, was the most successful the club had ever sponsored.

The flower arrangement program was held in the homes of Dr. and Mrs. Dennis Blackburn, Mr. and Mrs. Wade Maynard and Mr. and Mrs. O. C. Fry. Hostesses were Meses J. C. Gilbreath, J. L. Touchstone and James Welch at the Blackburn home; Meses Douglas Adams, George Bradford and Goodwin Miller at the Maynard home; and Meses Sid Sheffy, Swain Burkett, Ray Riley, J. W. Benson, Clarence Bearden,

H. E. Hershey and Al Forrester at the Fry home.

Mrs. Sheffy praised the homeowners, hostesses and guest arrangers for making the home tour a success, and extended special thanks to Mrs. Carolyn Copeland for her work.

Tri-color winner in the Maynards' modern ranch style home was Mrs. George Bradford for her modern arrangement named "The Rocket." Mrs. Raymond Wilson was the big winner in the "Panhellenic French" Blackburn residence with her "Glorious Summer" topiary tree. Mrs. Ray Riley copped top honors in the Frys' Spanish modern, split-level home with her mass line "Golden Summer" display.

**MRS. BILL BEHRENS**, horticulture hostess, reported that this division received 30 blue ribbons, 19 red, 9 yellow and

11 white, with Meses Marcella Summers and Viola Nelson acting as hostesses.

Awards of Merit were given to Coby Gilbreath and Tobin Touchstone, sixth grade students, for Outstanding Potted Plant with their terrarium in a jug. Mrs. Myrtle Sheffy received an Award of Merit for "Sid's Purple Allium" judged the outstanding horticulture specimen.

Sweepstake awards were given to Mrs. Sheffy and Mrs. George Bradford, who tied for the greatest number of blue ribbons in both divisions.

Mrs. Betty Boothe, art exhibit chairman, reported that the art display was growing bigger every year, with over 20 water colors, oils and charcoals entered from over Castro County this year.

## Getting married soon? Here's how to get your wedding story in paper

The summer months are bridal time and the News wants to report your engagement and wedding as accurately as possible.

**TO INSURE** a well-placed story and timing, the News requests you to follow these steps:

Please observe our social-page deadline of Monday noon. And if possible, turn in your wedding information and picture before the wedding. Wedding stories turned in before the wedding will be held until the appropriate release time, and pictures will be kept from public view until then.

The News prefers a 5X7 black and white glossy print, although any standard size photo can be used. Photos may be included

with our standard wedding form or may be forwarded by the studio to the News before our Monday noon deadline.

**THE NEWS** has its own wedding form with detailed instructions available to each bride. The form may be picked up in our office at 108 W. Bedford or requested by mail. We will accept other newspapers' forms or typed stories, and they will accept ours. You may take as many of our information forms as you need.

When filling in our form please type or print the information carefully. We want your story to be an accurate and memorable account of your wedding, so please be careful with name spellings, etc.

**ENGAGEMENT** stories may be run with or without a picture. Black and white glossy billfold size photos are preferred. The News does not have a standard form for engagement stories. Please list the fiancee and fiance's names, their parents' names, the wedding date and place if set, and the couple's schooling and present occupations.

We will appreciate your cooperation, because this is your story and we want you to have a memorable account of this special day in your life.

If you have any questions, please call Becky Berryhill at the News office, 647-3123.

## Town & Country Club sees homes, chooses officers

The Town and Country Home Demonstration Club met recently at Mrs. Sammie Lytal's home. Members toured her home and gathered many ideas to try in wallpaper and furnishings.

HER SON'S room was decorated imaginatively for an elementary student, with everything done in "Cat-in-the-Hat" decor, even the wallpaper. Mrs. Lytal has the new vinyl wallpaper in every room. She and her mother, Mrs. Alva Tisdale, had hung it all themselves.

After coffee and cookies, the club elected new officers for next year and all members volunteered to help with the Cancer Crusade now underway.

The meeting was adjourned to tour the Wade Maynards' new home. Mrs. Maynard demonstrated her new appliances that had all the latest features. The den and kitchen were the favorite rooms of the ladies because of the warm, friendly atmosphere created by a big corner fireplace and beautiful wallpaper.

NEW OFFICERS for next year are Mrs. Jackie Smotherman, resident; Mrs. Mickey Lemme, vice-president; Mrs. Margaret Womack, secretary; Mrs. Ann Pevehouse, council delegate; Mrs. Kathy Cantrell, alternate; and Mrs. Sue Slough, reporter.

The Town and Country Home Demonstration Club entertained at the annual THDA County luncheon this week.

The Castro County Country Club Ladies' Golf Association will sponsor a Scotch Foursome Sunday with a covered dish supper afterwards.

Plans are being formulated for the cleaning of the pool and "Splash Day" should be about Saturday, May 27, if all goes well. Ken Cleveland has been pumping the water out of the pool, and says he is looking forward to a very pleasant summer. Swimming lessons will be announced at a later date.

The Ladies' Golf Association is taking golf lessons every Tuesday at 9 a.m. and 6 p.m. The group lessons are free to association members and consist of five lessons each for beginners: (1) etiquette; (2) chip shot; (3) putting; (4) full swing with short iron; and (5) wood shot. Clubs will be furnished those who do not have clubs.

Bradford makes MSU honor list

A total of 512 students at Michigan State University achieved a 4.0 or "straight A" average during winter term. The total enrollment during that term was 39,746.

KENT J. Bradford of Dimmitt, a biochemistry major, was named to the honors list. An additional 3,858 students were named on MSU's honors list, which includes students who achieved at least a 3.5 (B-plus) grade point average for the term. Approximately 80 percent of the honor students were from Michigan.

Conservation

Our wildlife is valuable!

By TALMADGE P. PORTER
Although the conservation of our wildlife is secondary to soil and water conservation, it is one of our most valuable natural resources.

MOST everyone enjoys having an abundance of wildlife around, but we don't ordinarily realize the things we should practice in order to improve what we have. These things usually can be accomplished with a minimum of time and effort from land owners and operators who are sincere about wildlife conservation.

Pheasant is probably our primary consideration because it has overall popularity over water fowl. Pheasant also require more management for maintenance and improvement than do waterfowl.

Most of our farmers practice good conservation in one way by leaving grain sorghum or corn stubble on their cropland through the winter months. This is an extremely good practice because it provides cover and also is a good food source during what is the most critical period for pheasants.

WE ALSO need to consider leaving some small areas of uncultivated land as a permanent area for nesting. These can be odd areas around old farm houses, in corners of fields or fence rows where it is difficult to farm.

We are pretty well limited here on the high plains as far as a variety of wildlife, so we should make an extra effort to at least maintain or increase the numbers of what we have.

# Hospital: payment first?

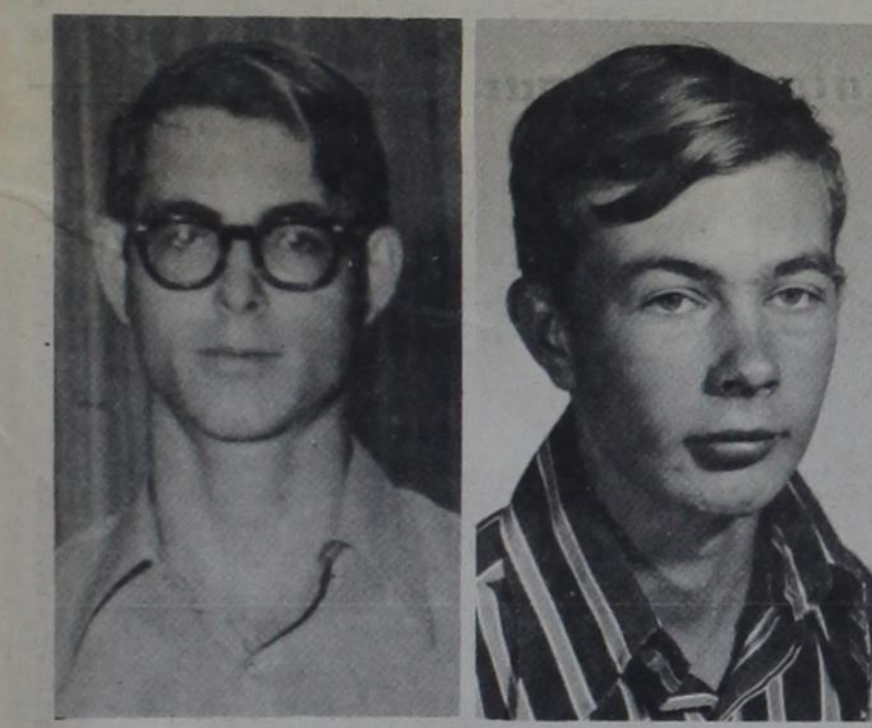

By DON NELSON  
National Hospital Week came and went last week.  
THE SPECIAL week went almost unnoticed here, except for "stuffers" that appeared in bills and payroll envelopes from Plains Memorial Hospital.  
These stuffers pointed out that there are 7,000 hospitals in the US serving 1 1/2 million patients per day, that a hospital needs three employees for every patient, that annual expenses for the nation's community hospitals now total more than \$19 billion, that more than 200 dif-

ferent job classifications are needed to staff a large hospital, and that cutting hospital budgets costs lives.  
But they didn't answer the main charge that's being leveled against more and more US hospitals, including Plains Memorial—the complaint that hospitals worry about money first and service second.  
VERLE WEST, the administrator who has put Plains Memorial in the black financially for the first time in years, seemed willing—even eager—to discuss the problem.

West was brief and to the point on this question: If a person needs emergency care and shows proof of insurance coverage, does he have to pay the \$15 registration fee anyway for emergency room service?  
"Yes," West said.  
Why?  
"Because we were collecting three out of 20 on emergency room bills before."  
THAT collection rate—which no business could stand for long—included insured patients, West explained.  
"One reason for settling emergency room payment at the time of treatment is that the trend of the insurance companies is not to pay for many of the services," West said. "Some of our agents think the companies are cutting off their nose despite their face, but there's not much they can do about it. What it boils down to is that if you don't collect the fee at the time of treatment, the chances are 20 to 3 against ever collecting it."

**SNIFTER PEEKER-INNER**—Carolan Owens, 2, takes a close, enthralled look at a miniature forest scene inside a large sniffer during the Dimmitt Garden Club's annual Spring Flower Show and Home Tour Saturday afternoon. Keeping Carolan from falling into the sniffer is her aunt, Cindy McDaniel. Mrs. J. C. Gilbreath created the arrangement that caught Carolan's fancy. In right foreground is a plant-filled jug by Tobin Touchstone and Coby Gilbreath, Award of Merit winner in the terrarium division. The horticulture competition and art exhibit were held in Lamar Fellowship Hall of the First United Methodist Church.

## Two youths win 4-H tour of US

Gary Hart of the Hart 4-H Club and Stephen Acker of the Nazareth 4-H Club have been named as Texas delegates to the National 4-H Citizenship Short Course and Heritage Tour in Washington, D.C. this summer.  
THEY WILL leave College Station July 5 and tour many historical sites en route to Washington. The course itself in Washington is set for July 15 through 18.  
Both youths were awarded the honor on the basis of their 4-H Club work.  
Hart is the son of Mr. and Mrs. Joe Percy Hart of Hart. Acker is the son of Mr. and Mrs. David Acker of Nazareth.  
EDWARD KENNEDY, Senator (D-Mass), speaking at the S.C. Education Association: "Why should there be a moratorium for Massachusetts? I want my state to live up to the responsibilities that South Carolina is making (in desegregation)."

**CONGRESSWOMAN?**—Mrs. Noel Gollehon of Dimmitt checked out Congressman Bob Price's "uneasy chair" at the desk of his Washington, D.C., office during a recent trip to the nation's capital. At left is Mrs. Gollehon's husband, and at right is Congressman Price. The visitors were attending the annual convention of the Rural Electrification Administration cooperatives.

Apparently, the patient-insurance-hospital conflict on this point revolves around the definition of "emergency." An asthma attack, for instance, might be considered an emergency by the patient—but to the insurance company it's an "office call after hours" for standard medical treatment, and to a hospital it's "outpatient care" (treatment that does not require hospitalization).  
DOES AN emergency room patient have to pay up before he will be treated?  
"On any true medical emergency, we treat first and worry about financial arrangements later," West said. "We don't send anyone away who needs sutures, for instance."  
He added, "Usually the treatment process and financial arrangements are going on at the same time, and patients don't realize this. Sometimes people think we're waiting until we get the registration fee before we will treat, when actually we've already called the doctor and are getting the treatment process underway. It's two different departments doing their jobs at the same time."

THE HOSPITAL is stiff on collections because it has to be, West explained. The administrator considers collections to be vital if the hospital is to stay in business and continue to serve. It's a \$461,000-a-year operation. A year's tax revenue of \$93,000 is enough to operate the hospital less than three months. Plains Memorial must pay off its past debts to the bank—which had climbed to \$80,000 by fiscal 1969, when a worried hospital board hired West as the administrator.  
Plains Memorial was faced with the choice of either increasing its collections or greatly increasing its tax rate if it was to pay off its debts.  
In fiscal 1969, collections were running less than 80 percent. Last year the hospital collected 96.1 percent of all its bills. The result is that the hospital district is now paying off its back debts.  
These debts on past operating losses have now been cut to \$20,000. But as long as the hospital is still in debt, it has no operating surplus. So it must collect as it goes.  
"We want to impress on the people that it isn't that we don't think they'll pay us; it's that we have to have the money to operate on while they WOULD be paying us," West said. "When you're paying off a debt yourself, you're not in a position to loan or extend credit. What we ask is that if the patient needs time to pay, he make arrangements with a firm that is set up to loan or extend credit."

He added, "We get a lot of gripes over our collection policy, but we feel we would get a lot more if we didn't collect. You can't stay in business losing the kind of money we were losing before we started our present collection policy."  
"STILL," he said, "anyone who has a true medical emergency will be treated. No one has to worry about that."

WHILE THE bill which passed was a watered-down version in that the minimum wage increase to \$2 will come in two stages. From the present \$1.60 an hour wages will increase to \$1.80 for the first year and \$2 an hour thereafter. The original version would have raised the minimum wage to \$2 immediately.  
Nevertheless, this action will solve fewer problems than it creates.  
Increasing the minimum wage will help in eliminating existing low wages; however, a high wage is not all happiness for higher wages lead to higher prices which too often fall hardest on low-income workers for whose benefit the act was passed.  
WHEREAS MINIMUM WAGE This past Thursday the House passed an increased minimum wage bill by a vote of 330-78. It opposed final passage of this legislation which I believe is both irresponsible and unfair to all concerned.

THE shooting of Governor George Wallace was a senseless and regrettable occurrence, but before you throw your hands up in despair and wonder what our country is coming to, just remember that tragedies of this nature have been happening for many years. The man that shot Governor Wallace would have probably shot Senator McGovern or Senator Humphrey if either of them had been the speaker at that time and place.

bers of the state legislature is sufficient to secure the passage of undesirable banking laws. Following the Sharpstown scandal we are appraised of the fact that a number of legislators have been checking out postage stamps, at state expense, and using them for legal tender. This is small potatoes but it has the odor of rotten potatoes. Then there is the matter of nepotism. State officials have been putting relatives on the state payroll, in some cases even where they never did report for duty. These are some of the things that will be threshed out in court. With the climate that has apparently prevailed in Austin for the past several years, it might be reasonable to assume that other irregularities will surface from time to time. You can name the era that the voters attempted to put an end to in the recent primary.  
Viola's roses were just beginning to bloom when the rains came. I believe they were larger and prettier than ever before, but their beauty was short lived. We're not fussing, the roses will bloom again and we did need the rain.
