Politics Can Destroy All Good of G-Men

It isn't exactly news, any more, that the Bureau of Investigation of the Department of Justice is one of the most efficient police organizations ever set up anywhere. The patient, relentless, and deadly tracking-down of slippery crooks such as Karpis is the sort of thing which, eventually, should reduce to a gentle ripple the crime wave about which we are so fond of talking.
The G-Men, in short, have justified all the fine things that have been said about them, and have demonstrated that they are a national possession of great value in the war on crime.
But we might just as well recognize right now, before we begin indulging in the kind of hero-worship that will exalt this outfit into a superhuman creation that cannot err, that along with this power goes an equally weighty responsibility.
If this efficient bureau is to meet this responsibility, it must be kept forever divorced from politics.

That does not mean merely that congressional job-hunters must keep their noses out. It means that no federal administration must ever be permitted to use this organization for anything but the prevention of punishment of actual felons.
There must never be even the faintest suspicion that its activities are directed against any personal or political enemy of a president or a member of his cabinet or political party.
To understand why this is important you need do only one thing; imagine the late Huey Long in the White House, with the matchless organization of G-Men lying ready for his hand to pick it up and use it for his own ends.
Dwell on that picture briefly and you will see that an unscrupulous executive with dreams of a dictatorship could make of this Bureau of Investigation a terroristic instrument of repression which would make Ogpu, Okrang, and Gestapo look like something the Boy Scouts invented.

There is, fortunately, no need to lie awake nights, worrying about it. There has been not the slightest hint that the present administration would dream of trying to pervert the organization in such a way. There is no reason to suppose that any of the presidential candidates now on the skyline would harbor such dreams.
All we need do is recognize that the machinery is there, and that a president who wanted to be dictator would find it infinitely useful.
Keeping that fact in mind, we ought to understand once and for all that the continued usefulness of this splendid organization depends on its remaining permanently divorced from politics.
Valuable as the outfit is, the moment any administration begins trying to use it for its own ends, it will become a curse instead of a blessing.

For the past month, a Glens Falls, N. Y., man has lived on honey, whereas, during the depression a number of men lived on their honey's parents.

POST MORTEM?

"OUT OUR WAY" - - - - - By William

Centennial To Be First World's Fair Air Cooled

DALLAS.—The Texas Centennial Exposition will be the first air-conditioned World's Fair in history.
For the first time, an exposition has been designed and is being built with the comfort of its visitors primarily in mind," said William A. Webb, general manager of the \$25,000,000 show which opens in Dallas June 6.
"More than \$1,000,000 is being spent to provide fresh, cool air throughout every major building. The temperature and humidity of the atmosphere will be kept constant over more than 10 acres of floor space in 29 buildings. This is 60 per cent of our floor space. The air over all other floor space will be changed completely every eight minutes or less, thus lowering the temperature 10 degrees or more and insuring fresh, clean air at all times.
"With two exceptions, our exhibit buildings have been erected without windows. This makes it much easier to control the temperature.
"There were a few air-conditioned spots at the Century of Progress in Chicago," Mr. Webb continued, "but this is the first time an entire world's fair has been air-conditioned. We feel sure, however, that in future all big expositions will be equipped in this way."
Air-conditioning engineers said 6,000,000 gallons of water will be used daily in cooling the atmosphere at the Dallas exposition. As an economy measure, this water will be used over and over again, only enough being added to take care of evaporation.
"This volume of water, of course, does not include that used in the many fountains, reflecting basins and the lagoon," Mr. Webb explained, "although they also will help cool the air. Indeed, engineers tell us they will take a considerable load off the air-conditioning equipment."

Baby Clippers Newest Ships in Tuna Fleet

SAN DIEGO, Cal.—Largest expansion in history of the tuna fleet is under way, with new construction totaling approximately \$500,000.
Two vessels, to range southward as far as the Galapagos Islands in search of the fighting, white-fleshed tuna, include four "baby clippers," one 100-foot vessel and two 130-foot clippers of greatly improved design.
Each of the largest ships, which will carry 420 tons of tuna, will be equipped with two-phase refrigeration, seawater cooling system, world-range wireless and other latest improvements.
Radical changes in design include a round, cruiser type stern instead of the conventional square stern, and three decks with accommodations for 22 men.
Power is to be furnished by 550-horsepower directly-reversible Diesel engines, with auxiliary 115-horsepower Diesels. Each of the auxiliary motors will be connected with electric generators.
The "baby clippers" will vary from 68 to 75 feet in length. Each will be equipped with 150 horsepower Diesel engines.

Britain Rushes Vast Air Fleet

LONDON.—Great Britain today is at work on the biggest aviation construction program in the history of the nation calling for an expenditure of \$132,500,000 during the next year.
Modernization and huge increases to the military aviation force and speeding up of civil airlines are responsible for the aviation construction boom.
The government is spending \$90,000,000 for the Royal Air Force expansion plan.
Expenditures already approved for Imperial Airways machines to be used on the trans-Atlantic service total \$10,000,000.
Orders placed for fast, light airliners total \$15,000,000. Britain hopes to regain lost postal and passenger business with these machines.
Another \$5,000,000 is to be spent in airport construction and improvements.
All of these expenditures would be increased, according to aviation authorities, if more skilled workers were available.
Most plants have increased their quarters during recent months and many are operating two shifts. A third shift would be added in many cases if technicians could be obtained.
To speed production and meet both civil and government demands work is divided. Numerous small plants have been established to provide specific parts or materials for large manufacturers.
One of the greatest demands is for light airplanes to train R.A.F. pilots and for aviation clubs.
Another boost to British aviation has been the granting of 2,500,000 pounds in subsidies. These grants have opened up new

Spanish Coins Of 1648 Are Found

MOHLER, Ore.—August 6 dug up 12 Spanish coins on his farm, all dated around 1648 and stamped with the head of Queen Isabel.
The find revived interest in an Indian legend that a Spanish galleon once was wrecked on the Nehalem coast during a fight with pirates, and a fabulous treasure was buried somewhere on Nash-Kah-Nie Mountain.
The mountain is pitted with the diggings of hopeful treasure hunters, but none has found the chest although several have lost their lives looking for it.

THIS CURIOUS WORLD By William Ferguson

QUEEN BEES AND WORKERS HATCH FROM IDENTICAL EGGS, YET IT TAKES ONLY SIXTEEN DAYS TO PRODUCE AN ADULT QUEEN WHILE TWENTY-ONE DAYS ARE REQUIRED FOR COMMON WORKERS.

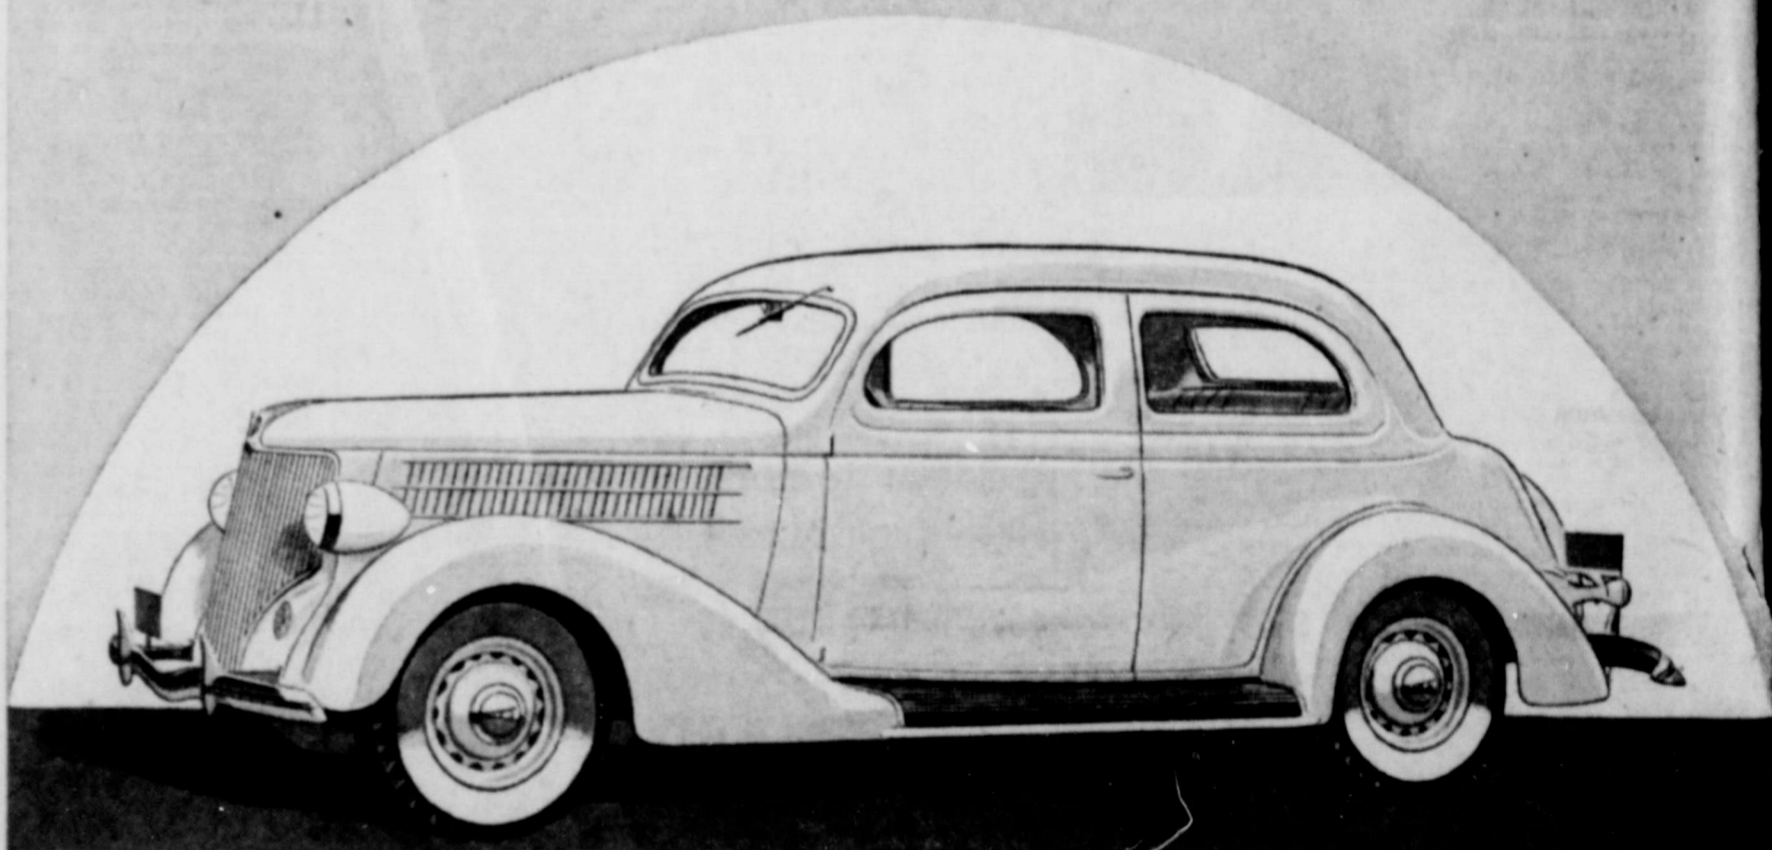

THE VALUE OF THE WORLD'S ANNUAL FISH CATCH IS ESTIMATED AT EIGHT HUNDRED MILLION DOLLARS.

rests with the worker bees to decide whether a worker or queen is to be produced. If the newly hatched larva is fed on a food known as "royal jelly," a queen will result. On the third day in the larval stage, if the diet is changed to pollen, a worker will be developed.

Grocery Taken to Farmers in Iowa

BUCKINGHAM, Ia.—Oscar Herman has applied to the grocery business the old story about Mahomet and the mountain.
He purchased a grocery here last November. With the coming of spring, he started an auxiliary shop on wheels with which he tours his "trade territory."
He has started his new service on a schedule of two trips a week over an established route. His truck carries groceries, bread meat and fruits. His return trip replenishes his regular store stock of eggs, poultry and butter, which he purchases for cash or goods in the rural areas.
Buckingham is five miles from Geneseo Center, where there is a consolidated school but no store. Herman got the idea for his traveling store during last winter when farmers shoveled their way to his store to buy provisions during a severe blizzard. He decided then that he would reverse the procedure this spring.

Ford - FOR ECONOMY

MORE MILES PER GALLON IS GOOD...
MOK MILES PER DOLLAR IS BETTER

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better.
The big items of car economy are low first cost, low up-keep cost, and low depreciation. Savings here can make a great deal of difference in cost per mile.
Gasoline mileage is more of a talking point than an economy factor.
Here are the big items that make the Ford an economical car:
More value for every dollar you pay.
Lower cost for repairs and service.
Long life. Slow depreciation.
The up-keep cost of today's Ford V-8 is the lowest of any Ford ever built.
Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. Made to closer precision limits and of better materials, there is no waste anywhere. Many dollars are saved by Ford production methods and low-profit policy. Those savings are put back into the car.
You pay a thousand dollars more for any other car with the power and performance of a V-8 cylinder engine. No other low-price car gives you modern Center-Poise Riding, safe, sure, dependable mechanical brakes with 186 square inches of braking surface and Safety Glass all around at no extra cost.

133 A MONTH, AFTER USUAL DOWN-PAYMENT, BUYS ANY MODEL OF THE NEW FORD V-8 CAR FROM ANY FORD DEALER, ANYWHERE IN THE UNITED STATES. ASK ABOUT THE NEW UCC 1/2% PER MONTH FINANCE PLANS
BE OUR GUESTS... Ford Sunday Evening Hour, Columbia Network. Fred Waring and His Pennsylvanians on Tuesday nights (Columbia) and Friday nights (N. B. C.). See radio page for details

# FAREWELL

By Mark Blizzard

It was worth trying to get. He liked her wit and her wits, her manner and her manners. He liked being with her.

Invitations to her parties were not after. Her intimates were more conservative members of the colony, and she numbered among her closest friends three unapproachable stars of true greatness.

Yes, Linda Bourne, in any way, any price, was a feather in Basil Thorne's cap. That was the time that Hollywood was beginning to walk its social strata. Linda brought the same elegance to Hollywood that had made her president of the Newtown Junior League. She was invited to Pickfair, met visiting royalty and was not unknown in Pasadena society.

With Thorne, she couldn't recapture the mood that had made for light banter on the occasion of their first meeting.

"How are the love-letters piling up?" he asked, going back to it.

"I told you I didn't save them," she said.

"Does the same thing go for saved old loves?"

She looked at him in complete surprise, nicely assumed.

"Where did I hear it?" He drew her brows together in simulated homesickness. "An idyll about a boy and his romance? Girl comes to Hollywood? Boy goes to Hollywood? Boy doesn't make good. Folks don't make good."

of her role in the industry and how it had changed her. It wasn't a remarkable good in Europe here if he had a playing lady patron.

He comes around to me. I was playing lady patron. I should have sent him a card. That ought to prove it. She appeared to be a lately patient.

He was thoughtful. "That's quite true. Would you like me to meet him?"

That was exactly what Linda wanted him to say. She didn't want to ask him for the favor. She never wanted to be indebted to him, but in her fondest hopes she had never expected the idea would come from him.

She appeared to be thinking it over. "How did you know he was a singer?" she asked after a while.

"I didn't," he answered. "Is he?"

"Yes. Baritone and sweet-voice. I mean. He's done some excellent things in England. I think you might be interested to see and hear him."

"Give him a card and he can see me at the studio." Thorne called for his check.

That wasn't what Linda wanted.

"Will you dine with me, Sunday week? We'll dine alone as I'll ask some people in. You can't hear him then. I think he will come."

"I'd like it better if we spent the evening alone," he said.

She smiled and that was all to answer.

Dix was elated. So was she. Living something for him at last made her happy. She would dispose of Thorne in due time. She had gotten herself into it and she would get out. The only difficulty about the matter was being entertaining to Thorne and thinking of Dix.

SHE had more to think of in a few hours. Gretchen Morgan was giving a stork shower for Hilda Howe. Every movie-goer in America knew "a little stranger" was expected in the vivacious, dark-haired star's ménage.

The girls were talking about men. Not unusual at a luncheon party. Gretchen, who had been engaged to practically every unattached male star, sighed wistfully. "Ronald Colman is still my dream man."

"I have a new dream man. Have you seen Gardiner, the playwright? Metro brought him out last week and women are swooning all over the lot. One of those strong, silent men with a paw like a hammer and a smile that breaks suddenly and—Whoops!—hearts are broken!" Gilda De Lyse looked toward heaven.

Linda, hiding her face back of her tea-cup, remembered that smile. So Pete Gardiner had come to Hollywood!

"And, my dear, he has already been annexed." Cora Jarrett contributed. "Glasgow asked him what woman he wanted most in Hollywood the day he got off the train, and he said, 'Honey Harmon.' That was all she needed. She..."

"What happened to Basil Thorne? I thought he was her last big moment?" Someone answered, and then there was the slightest pause before someone changed the subject. In that pause Linda caught one short exchanged glance and knew that they had stopped because of her. Already they were linking her name with that of the director.

There was Dix, Thorne, and now Pete!

And Honey had "annexed" him? Well, why not? Linda shrugged her shoulders in their beautiful white tailored coat. Did she expect to tie every man to her apron string? She certainly wasn't that kind of a girl, she hoped.

She unpinned the violet corsage on her coat and left it in the dressing room. Violets always reminded her of Pete Gardiner and the first time he had brought them to her.

## Many Tourists in California

SACRAMENTO, Calif. — More than 50,000 of the season entered California by the last six months of the year were destitute and unemployed and three-fourths of them from the so-called "drouthy" states.

Records of the state department of agriculture border checkers revealed the largest number of employed visitors, sending to the state, Texas sent 2,400; Arizona, 2,467; Arkansas, Missouri, 2,428; Kansas, Colorado, 1,655; New Mexico, 597; Nebraska, 1,292; and 1,188.

The combined itinerant and refugee migration to the state constituted only about 5 per cent of the total number of passengers of all classes who entered California by motor vehicle during the six-month period.

## FIVE SHIPS TO CARRY VETERANS

OTTAWA, Ont. — Five ships will be pressed into service to carry Canada's delegation of pilgrims to Vimy Ridge for the unveiling of the Canadian war memorial there in July. It is expected nearly 8,000 ex-soldiers and their relatives will make the pilgrimage.

**GENERAL ELECTRIC REFRIGERATOR**

**You can always depend on a G-E Refrigerator!**

and it costs less to own!

**G-E THURFT-UNIT Now Serves More Homes Than All Other "Sealed" Refrigerators Combined**

You'll need no "gadgets" to insure against food spoilage worries with a General Electric. The famous G-E sealed-in-steel mechanism has kept the temperatures in General Electric all-steel cabinets always below 50° for years. And a stainless steel super-freezer provides extra cold temperatures for fast freezing of ice cubes.

**New "Double the Cold" with Even Less Current Than Ever**

General Electric developed the first sealed-in-steel mechanism nearly nine years ago. Its unmatched dependability and low cost have been proved in nearly 2,000,000 homes. Basically unchanged but constantly improved, the General Electric Refrigerator is now even thrifter than ever. Every minute of every day somebody buys a General Electric.

**See the New G-E Models Today!**

You will, of course, find all modern convenience features in General Electric Refrigerator cabinets, including sliding shelves, interior lighting, vegetable drawer, temperature control and defrosting switch.

**General Electric's exclusive FORCED-FEED LUBRICATION and OIL COOLING**

mean quieter operation, longer life and lower operating cost.

## COLONY

The Junior choral club attended the district centennial celebration in Brownwood Monday. Schools of Brown, Comanche, Eastland, Emath, Hamilton, Lampasas, McCulloch, Mills and San Saba counties were represented at the singing. The program was held in the Legion Memorial building. Those attending were: Bonnie Jean Bowlin, Peggy Lou High, G. W. Moore, Billard Morgan, Pauline Morgan, Bill England, Alice Cance, Wynona Loper, Imogene Stuard, Pauline Bowen, Georgia Mae Baggett, Jessie Morton, June Eakin, Norma Jean Hadley, Jessie Hadley, Norma Crab, Kathleen Payne, Dorothy Colburn, Frankie

when they meet in the home of their president, Mrs. Saule Paulstein, 717 Cypress street, Thursday afternoon at 2:30.

Mrs. T. J. Powell's talk will be on "The Cultural and Spiritual Home," Mrs. J. B. Eudy will speak on "Maternal Care," and officers will be installed at the close of the meeting.

**Royal Neighbor Juveniles**  
To Practice for Dist. Convention  
Members of the Royal Neighbor Juvenile chapter, of Ranger, has been set aside Wednesday evening for practice and drill work which they will offer at the district convention to be held at Elaville, May 28th.  
The practice will be conducted in the IOOF hall, at 7:30, and every member of the lamp is mostly urged to be present.

Lee, John Hathcock, Hazel Eakin, Annie Mae Ivy, Mrs. D. A. Morgan, Mr. and Mrs. Walter High, Mr. and Mrs. E. D. Payne and Miss Walters, director.

The all-day picnic held Friday, May 11, was quite a success. The receipts of the stands will be used to defray expenses of 11 students to the Texas Centennial in Dallas. About 20 candidates for public offices spoke. Some made personal donations to the cause.

The last meeting of the PTA was held Thursday evening in the form of a social. After a short program, Mrs. Guy T. Smith, the retiring president, was presented with a beautiful display of handkerchiefs arranged on a miniature maypole.

The following officers for the coming year were installed: Mrs. W. O. Barrett, president; Mrs. Walter High, secretary; Mrs. J. L. O'Shields, treasurer.

Pupils of the first six grades will present a program Tuesday, May 12, in the auditorium under the direction of Miss Cassie Williams and Mr. Townsend. The program marks the end of the school year for the children of these grades, and is free of admission.

"The Dutch Detective," a three-act play will be presented on Thursday evening, May 14, under the direction of Carl Johnston. Those high school students cast are:

Otto Schmittz, Sidney Bowlin; Plunk Jarick, Jack Alderson; Jack Grabb, Ernest Dodd; Augustus Cook, Jessie Hathcock; Gladys Howler-Cook, Inez Briden; Major Hannibal Howler, Jack O'Shields; Annabrona McCarly, Melba Haveman; Miss Araminda Saurdrops, Ruth Poynor; Hortensy Smatties, Dorothy Bowen; Katrina Kraut, Louise Caze.

Dorothy and Marilyn, spent the past week-end in Colorado and Lubbock.

Mrs. H. G. Ramsey of Waco is the guest of her daughter, Mrs. S. F. Bowlin.

Mr. and Mrs. W. O. Barrett have as their guests, Mr. Barrett's parents of Mineral Wells.

### BABY SURVIVES

**2-STORY FALL**  
VANCOUVER, B. C.—Maxine Klöpfer, 2, fell from a second-story window here and laughed. Doctors said he didn't get even so much as a scratch.

**TUESDAY AT 2:30 p. m.**

## Learn How to Save Time, Work and Money in Your Own Kitchen

**No Charge—No Obligation**

Here is an unusual opportunity for every woman in this community to avail herself of the latest, up-to-the-minute ideas on kitchen arrangement and kitchen management. The time and labor saving ideas you will gain will be entirely practical, so that you can apply them right in your own home. And there is no charge whatever and no obligation to buy anything.

### Individual Instruction to Help You Solve Your Particular Problems

We want, above all, to make this new kind of a school helpful to those who cannot afford to spend a lot of money on new equipment or remodeling. That's why the expert in charge is a woman who can help each person make the best possible use of equipment and space in their present kitchen. Everyone attending the school will receive individual attention if she desires it.

### Meal Planning, Budgets, Etc.

Special emphasis will be given to kitchen management—but in addition we will help you with such important problems as thrifter buying, planning of more varied daily menus, and attractive preparation of leftover foods.

### VALUABLE PRIZES WILL BE AWARDED

Every woman attending our Kitchen Modernization School will be in line for securing valuable prizes for her kitchen on modernizing her own kitchen, which she will submit following the close of the program.

At The **Recreation Building**  
Tuesday Afternoon  
At 2:30 o'Clock  
Sponsored by **Killingsworth, Cox & Co.**

Miss Ellen Strehorn, who will conduct the Kelvinator Kitchen Modernization demonstration at the Recreation Building Tuesday afternoon at 2:30.

**VALUABLE PRIZES WILL BE AWARDED**

Every woman attending our Kitchen Modernization School will be in line for securing valuable prizes for her kitchen on modernizing her own kitchen, which she will submit following the close of the program.

On these prizes are now your last chance, and when we will say they are by the first prize, Table Lamp.
