## LABOR ASKS FOR PLACE ON COMMISSIONS

TAMPA, Fla., Nov. 24.—The American Federation of Labor, having confirmed the expulsion of the John L. Lewis rebel union, turned today to an effort to win greater representation on government bodies handling problems of interest to the nation's workers.

The federation 56th annual convention approved a report by its resolutions committee demanding that labor be given "adequate representation on every federal board, commission or other body administering legislation affecting labor directly or indirectly."

Other resolutions adopted were: For the prevailing wage rate on government work.

For labor representation in administering federal reserve and RFC acts.

## Program Outlined In Junior College Meeting on Friday

The following is the program for the junior college section of the Texas Teachers Association, to be held at Fort Worth, Friday, Nov. 27, from 9 a. m. to 12:30 p. m.

1. Need for Terminal Courses in Texas Junior Colleges (30 minutes).
1. W. P. AIKEN, Texarkana Junior College.
2. L. A. ALLISON, Weatherford College.
- II. Relationships of the Junior College with Senior Colleges and Universities (45 minutes).
1. BERTRAM HARRY, San Antonio Junior College.
2. R. W. SCHMIDT, Lee Junior College.
- "The Problem of Applying Progressive Theories of Education in Junior College Work."
3. JOHN A. GUINN, Shreiner Institute.
- "Certain Problems of Articulation and Accreditation Affecting the Junior College in Its Relation to the Senior College and the University."
- III. Why not a Texas Association of Junior Colleges (30 min.).
1. H. A. HODGES, Edinburg College.
2. B. F. HARDT, Victoria Junior College.
- IV. State Aid for Public Junior Colleges (45 min.).
1. B. E. MASTERS, Kilgore Junior College.
2. L. W. HARTSFIELD, Hillsboro Junior College.
3. W. T. WALTON, Ranger Junior College.
- V. How Do Junior College Standards in the Association of Texas Colleges Compare with Those in the Southern Association with California? Should They Be Raised? Lowered? (30 Minutes).
1. E. C. DODD, Brownsville Junior College.
2. Discussion by Members of the Southern Association.
- VI. Business Session.

## LIBRARY GETS NEW BOOKS

Arrival of the following new books has been announced by the Eastland Public Library:

The books and authors are: "Drums Along the Mohawk," by Walter D. Edmonds; "White Oak for Harvest," Mazu-De-LaRoche; "Beyond Sing the Woods," Trygve Gulbransen; "Flowers of the Sun," Harvey Ferguson; "Mrs. Meigs and Mr. Cunningham," Elizabeth Corbett; "World with a Fence," Marion Sims; "Town Girl," Elizabeth Carrae; "Two Keys to a Cabin," Lisa Larrimore; "Shed on the Brook," Elizabeth Payne, and "Rainbow Glory," Louise P. Hauck.

**Ranger Times** has **Guest Tickets** Wednesday for **Westley Talbert** and friend

to see **"CHINA CLIPPER"** With **PAT O'BRIEN** At the **ARCADIA** Call at **Times Office**

## Ciscoan Obtains Poll Tax No. 1

Henry H. Curtis, Cisco claim adjuster, received poll tax receipt No. 1 in Eastland county, Deputy Tax Assessor-Collector, J. T. Cooper disclosed Tuesday.

Second poll tax receipt issued for 1937 voting went to J. T. Starke, Eastland printer.

Citizens have from now until the last day of January to obtain their poll tax receipt.

If polls and half of other taxes are paid on or before Nov. 30, the balance will be extended until June 30, 1937, without penalty or interest.

First poll tax receipts had been issued up to Tuesday noon.

## HOT OIL RULE FOR FOREIGN TRADE SOUGHT

AUSTIN, Nov. 24.—Texas Railroad Commissioners faced the problem, today, of determining whether the Tom Connally "hot oil" act applies to foreign shipments, as they awaited arrival of a New York agent for a foreign purchaser.

Commissioner Lon Smith, who said the agent telephoned that he had a foreign purchaser for more than 1,000,000 barrels of Texas oil, expected the oil purchaser to arrive today by plane.

## CCC Enrollment Is Again Opened

There will be another enrollment of boys for the CCC Camps during the month of January, according to information just released by C. J. Sweeney, District Administrator of the Texas Relief Commission, with headquarters at Abilene.

To be able to give the War Department information as to the number of boys that will be available, it is requested that all who desire to attend immediately, call at their county relief or welfare office and leave their names and addresses. Reports on the number of men available must be sent to Washington on Nov. 30, although applications will be taken until December 21. However, some idea must be had as to just how many will be ready to leave when the time comes.

This will possibly be the last opportunity for boys to make application for this training, and it is hoped that all who have a desire to attend will lose no time in registering with the least possible delay.

## Employees Receive SS Number Forms

Employees' application for account number forms were being delivered Tuesday to workers here by the postoffice. The distribution marked another step in the setting up of the machinery of the social security old age benefit program.

These forms, for convenience also being given to employers who in turn give them to their workers, are known as SS-5. They should be returned to No. 1 post office by Dec. 5.

Employees, if they wish, may obtain forms direct from the post-office. Forms may be returned direct to the post office, thus keeping all information confidential from the employer.

Social Security forms SS-4 for employers were distributed last week.

## Sentence Is Given On Plea of Guilt

A penitentiary sentence of two years was received Monday by J. W. Adams from 91st district court after he pleaded guilty to a charge of burglary.

Adams was charged with entering July 26 a house occupied by C. H. Richardson.

The sentence was made effective August 4 of this year.

## RANGERS SEEK SLAYERS OF TWO FARMERS

RAYMONDVILLE, Nov. 24.—Texas Rangers and highway patrolmen worked secretly today in the questioning of three or more fence riders on a cattle ranch, where two farmers disappeared mysteriously Wednesday.

The pair, Luther Blanton, 57, and his 24-year-old son, John, went hunting in the vicinity of a lagoon adjoining the King Ranch and did not return. The family, fearing they had met with violence, asked the Ranger force to investigate.

Capt. Bill McMurray of the Highway Patrol was known to have taken three men into custody for questioning yesterday. It first was reported he placed the riders in the Hebronville jail for safe keeping, as feeling became tense among citizens here.

Jailor Frank McMurray at Hebronville however, reported by telephone that the men were not in jail there. Neither were they jailed at Beeville, according to Sheriff J. B. Arnold of Bee county.

Deputies here said no trace had been found, either of the missing men or their bodies. They denied reports of threatened reprisals by Willacy county citizens.

## Re-Investigation Of Pensioners Is Started In County

Work was started Monday of this week of re-investigating the 500 applicants for old age assistance under the Texas Social Security Law, it was announced here today.

The work in this section is being done by W. W. Kelly of Eastland and Mrs. Lulu Riddell of Ranger, investigators for the old age assistance administration, which is now under the board of control.

According to the new law the applicants must be re-investigated to determine how much property is owned, whether or not it is bringing in any revenue, and whether or not the applicant has children from whom they can receive assistance.

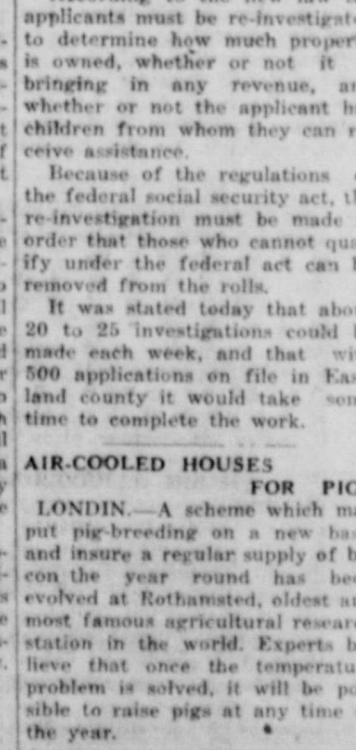

Because of the regulations of the federal social security act, the re-investigation must be made in order that those who cannot qualify under the federal act can be removed from the rolls.

It was stated today that about 20 to 25 investigations could be made each week, and that with 500 applications on file in Eastland county it would take some time to complete the work.

## AIR-COOLED HOUSES FOR PIGS

LONDON.—A scheme which may put pig-breeding on a new basis and insure a regular supply of bacon the year round has been evolved at Rothamsted, oldest and most famous agricultural research station in the world. Experts believe that once the temperature problem is solved, it will be possible to raise pigs at any time of the year.

## FIRE TERROR INVADERS BESIEGED MADRID

As flames added to the terror of bursting shells and incendiary bombs, the cameraman recorded this tragic scene in Madrid, Spain, where rebel forces and government troops were locked in a final fight. In the background smoke billows from buildings doomed by fire, while troops in foreground form a barrier to prevent looting. The picture was rushed by plane to London, flashed to New York by radio, and telephotographed for distribution in America.

## First Tenants Helped to Farm Ownership

T. H. Scharff family, first of 200 in Texas to be accepted by the Resettlement Administration for its "farm tenant security project." The Scharffs are being helped to buy a farm in Grayson County with annual installments no greater than they were paying as rent on the same farm. In addition, the farm is to be terraced and fenced, a new house to be built with modern conveniences, surrounded by trees and shrubs. This is made possible by three per cent interest and forty years in which to pay. Extension if this plan to a large per cent of tenant farmers would be provided under the Bankhead Jones Farm Tenancy Bill, scheduled for action at the coming session of Congress.

## Health Safeguards Cause for Thanks In Prison Sentence

AUSTIN.—"A high standard of community health is the best asset that a state can possess," said Dr. John W. Brown, State Health Officer, in speaking of the progress since the first Thanksgiving Day was observed by our forefathers.

"The State of Texas has much to be thankful for in this Centennial Year," he said, "in the steadily increasing interest and cooperation of the people of the State in matters pertaining to sanitation and control of communicable diseases."

"The control of the water and milk supplies, sewage disposal, vaccination against smallpox, immunization against diphtheria, food inspection, housing regulations, and many other measures have been spectacularly successful in reducing the killing power of a number of maladies that formerly took a terrific annual toll."

"Responsibility for success and advancement of a public health program lies not with the health department primarily, but with the people who support and encourage the community effort put forth and who apply in their own individual lives the knowledge which they have acquired."

"It follows that the individual citizen, to reap the benefits of public health administration, must be more concerned about his well-being than he is today. His program should involve a conscientious effort to abide by the living rules prescribed by nature, as well as a clearer conception of the value of a physician's services from a disease prevention standpoint."

"In short, when the private citizen fully appreciates the benefit of public health administration and shows that appreciation by a reasonable personal concern for his own welfare, medicine, surgery, and science generally will be able to do their wonderful work with utmost efficiency."

## Ft. Worth Among First to Protect Small Borrowers

FORT WORTH.—Fort Worth this month became one of the first cities in America to adopt regulations protecting small borrowers from "loan sharks."

A last-minute revision lowered the license fee from \$50 to \$15 a year, but the protective features were retained. The new ordinance requires all personal loan agencies to register with the city council.

All such agencies must have a city license and post \$1,000 bond against which persons claiming damages may sue.

The ordinance came after many complaints were filed by employees of certain loan companies were "bothering" their employees by calling on the phone and in person to collect small amounts loaned to them.

The ordinance also requires all such agencies to have a city license and post \$1,000 bond against which persons claiming damages may sue.

The ordinance came after many complaints were filed by employees of certain loan companies were "bothering" their employees by calling on the phone and in person to collect small amounts loaned to them.

## Cleburne Man Is Killed at Midland

MIDLAND, Nov. 24.—Sam Smith of Cleburne died last night in a hospital of injuries suffered when an automobile struck him as he walked along a highway near Midland.

The motorist did not stop. Smith, who was enroute to Phoenix, Ariz., said his automobile had exhausted its gasoline supply and he was walking to a filling station, when the car struck him. He could only give a meagre description of the car.

## Constable Position Attracts Another

Members of commissioners' court Tuesday had before them the second application requesting appointment as constable of precinct No. 6. The coming vacancy was occasioned by the recent death of Lee Barton, constable-elect.

L. A. White of Cisco made the second application, filed in county clerk T. M. Collier's office. E. O. Gustafson, also of Cisco, had previously made application for the post.

White is a former chief of police and deputy sheriff. Precinct No. 6 embraces Cisco.

## No Paper Will Be Issued Tomorrow

No issue of this paper will be published on Wednesday, Nov. 25, but a morning edition will be published on Thursday, Nov. 26, and distributed to all subscribers.

The office of publication will be closed all day Thursday for Thanksgiving in order that all employees might have a holiday, which has been a custom of this paper for a number of years.

## OLDEN, MORAN TO CLASH ON EASTLAND GRID

Olden, winner in one division of District 11, Class B, and Moran, winner in the other division, will play for the district championship at Welsh field, Eastland, Friday afternoon at 2:30. It was announced today by Coach Herman Scroggs of the Olden high school Oilers.

The game is expected to draw a good crowd, because the two teams are about evenly matched, and both have made impressive records in their divisions.

Moran and Woodson fought to a tie in the second division, while Olden was winner in her division without a defeat during the 1936 season.

The Olden attack centers around Curry at quarter, Hyatt and Norton at halves and Anderson at full, with Curry and Anderson making one of the best aerial attacks in Class B football, and one that has not been stopped this year.

Moran also has a splendid passing attack and both teams are good on running plays as well as being among the best in their respective divisions on the defense which indicates that the game will be one of the best played in this part of the country this year, either in Class A or Class B.

A good attendance is expected when the two teams clash at Eastland Friday afternoon.

## Terrace Lines On 26 Farms Finished

The NYA youths in Eastland county have run terrace lines on 26 farms for a total of 703 acres or approximately 369,075 feet of terraces since November 1st, announced Dan L. Childress, County Project Supervisor.

These boys are working on a soil conservation program sponsored by the Texas Extension Service and under the supervision of Elmo V. Cook, County Agricultural Agent.

All farmers that are planning to terrace their land between now and Spring are urged to take advantage of this opportunity to have lines run of their farms at no expense. Applications are received at the County Agent's office in Eastland.

## Mrs. Wheat's Home Scene of D. C. Meet

The Morton Valley Home Demonstration club met recently at Mrs. T. L. Wheat's home.

The vice president, Mrs. W. E. Tankersley, presided at the meeting. The club prayer was led by Mrs. Guy Steker. Songs were sung by the group. Approved minutes were read by the secretary, Mrs. Guy Steker.

During the business session the bedroom demonstrators' cards were filled out, showing bedroom improvements.

A lovely shower was presented Mrs. Mittie Tankersley at the social hour.

The club will meet Tuesday, Dec. 1, at Mrs. Thad Henderson's. Refreshments of coffee, cocoa and cake were served to Mmes. Guy Steker, T. C. Harbin, J. E. Littleton, D. B. Tankersley, W. C. Wheat, J. B. Harbin, Elnos Hensley, O. J. Tarver, W. E. Tankersley, Mittie Tankersley, Tobe Hamilton, J. E. Funk, Bernard Fisher, C. R. Westfall, Huse Williamson, Varner Williamson, Lon Fisher, Thad Henderson and the hostess, Mrs. T. L. Wheat.

## Defendant Found Innocent by Jury In Burglary Case

Ysobel Soto was found not guilty of burglary by a jury in 88th district court Monday.

Soto had been charged by indictment with entering April 16 a home occupied by J. D. Wickham.

W. M. Bagley was foreman of the jury, which also included F. P. Medford, A. C. Crossley, C. E. Bennett, A. D. Starling, S. H. Brock, C. Fuller, S. P. Boone, H. D. Warren, M. H. Byrd, J. B. Johnson and Wayne White.

## Alaskan Landslide Anxiously Watched

JUNEAU, Alaska, Nov. 24.—Residents of the outlying section of Juneau, where an estimated 14 or 15 persons lost their lives Sunday night, watched Mount Roberts anxiously today for indications of additional slides.

## Grand Jury Panel For Term Drawn

Jury commissioners of 91st district court for the December term have drawn the names of the following who will report at Eastland Dec. 7, for the formation of a grand jury:

J. R. Snoddy, Cisco, Rt. 4; J. E. Spencer, Cisco; Paul Poe, Cisco; V. V. Cooper, Ranger; F. W. Roberts, Rising Star; Ben Woods, Gorman; Clayton Cook, Gorman; Ira Swift, Rising Star; Gratton Adams, Okra; Andy Rhodes, Eastland; Ed Curry, Pioneer; F. D. Moore, Deedemona; John D. Harvey, Eastland; Oscar Schaffner, Nimrod; W. W. Speer, Carben; and W. J. Jessop, Eastland.

## SHIP IS SUNK BY SPANISH CRUISER TODAY

GIBRALTAR, Nov. 24.—The Spanish nationalist radio station at Seville broadcast today that the nationalist cruiser "Tanagra" sank a foreign merchantman of unknown nationality off Barcelona.

## Nine-Duel Sargo Wins One Conflict

BUDAPEST, Hungary, Nov. 24.—Dr. Franz Sargo, who felt that his honor and that of his wealthy wife had been smirched by insinuations that he married for money, fought two pistol duels today, winning one adversary in the hand and missing the other.

Then he announced that he is going to carve his initials on other traders, with heavy military swords instead of the mere effete pistols.

There was actually little blood shed in today's duels. The adversary who received the wound in the hand was Sigmund Cowac, an official in the bank of which Mrs. Sargo's wealthy grandfather is managing director.

## American Embassy In Madrid Will Be Abandoned

WASHINGTON, Nov. 24.—The staff of the American Embassy in Madrid must remain in the war-torn Spanish capital for two more days, charge d'affaires Wendlin notified the State Department today.

Because of lack of immediate transportation facilities, Wendlin and his staff will be required to submit to the dangers of aerial bombing and artillery firing until Thursday.

The State Department has ordered Wendlin to leave the embassy as soon as possible, setting up new headquarters at the seaport town of Valencia, now the seat of the Spanish loyalist government, which fled Madrid some time ago.

## HIGHWAY 89 CONTRACT TO BE LET SOON

Delegates representing the Highway 89 Association appeared before the State Highway Commission Monday morning at Austin relative to final plans for the topping and completion of Highway 89, extending from Weatherford to a few miles south of Strawn. The delegation was assured that contract would be let during December for the completion of said road according to order entered April 20th, of this year.

Delegates were present from Ranger, Thurber, Sante, Eastland and other places interested in Highway 89.

Highway No. 89 Association was formed at Abilene, August 14, 1935 for the purpose of promoting and securing the topping and completion of the highway. At the organization meeting Milburn McCarty of Eastland was elected president and R. V. (Rip) Gallows of Ranger was elected secretary, and the organization has since been very active in securing the final completion of Highway 89.

The representatives from Ranger at the hearing were Hall Walker, J. E. Meroney, J. J. Kelly, E. A. Ringold and L. H. Piwellon.

Conservation Lets Us Eat and Have Our Cake

When you talk about the conservation of natural resources, the ordinary citizen is apt to conclude that you are in favor of wrapping up in burlap all our forests...

We tend to look on conservation as a plan for keeping us from using the advantages which nature has blessed us. It sounds like going without things.

But, as a matter of fact, conservation does not mean that at all. To conserve our timber resources, for instance, is not to stop cutting down trees; it is merely to cut them down sanely and intelligently...

An excellent illustration of the way a smart conservation policy would work is provided in an article by C. B. Stott, of the U. S. Forest Service...

Mr. Stott discusses a certain stand of virgin timber in upper Michigan. The stand comprises 129,000 acres of forest; at present rate of cutting, between 15,000,000 and 20,000,000 board feet of lumber are removed each year.

In 20 years all the timber on this land will be gone, the towns in the vicinity—prosperous now because of the lumber boom—will be without visible means of support...

Suppose, now, says Mr. Stott that the rate of cutting were reduced to something like, 8,500,000 board feet annually. Suppose that, at the same time, an intelligent reforestation scheme were put into operation...

Consequently, the timber would not be gone in 20 years; it would last forever.

One hundred years hence the region containing this forest would be as busy as it is today. It would be producing its 8,500,000 board feet of timber every year...

The state would not have a tax delinquency problem on its hands. It would not have a little group of dying towns with thousands of former wage earners on relief...

Altogether, the nation would get much more lumber out of these 129,000 acres than the amount which is in sight under the present rate of cutting.

That is what real conservation means. It does not mean going without things; it simply means using them intelligently, with an eye to the future...

Two alleged robbers, caught trying to take a bath in someone else's house at Tyler, Tex., are reported in jail now, all washed up.

THE HIGHER EDUCATION

In this cartoon, winners will be given to winners as to Texas history and other matters pertaining to the state and its people...

Q. What is the story of Gen. Sullivan's death? W. B. M. A. He was found in a small upturned boat...

Q. What early Texas school was established by Rev. John W. P. McKenzie? T. N. A. McKenzie Institute, at Itinerant Retreat...

Q. Where do Texans who live in Washington, D. C., vote in National elections? H. M. O. A. If they still retain their Texas citizenship...

Q. What amount has been spent in Federal buildings in Texas in the last three years? G. S. A. Federal expenditure for Federal building, completed or allocated...

Q. What is the timber acreage in what is known as the "East Texas Timber Belt"? B. L. A. There is an area of 12,624,000 acres...

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NRA Service Staff Correspondent

WASHINGTON—Perhaps the summer and fall of 1940 will find a few persons with very long memories recalling how extravagant were some of this year's campaign utterances.

The most cockeyed piece of tax legislation ever imposed on a modern country was what the Republican presidential candidate called the New Deal's new tax on undivided corporation profits.

The tax was also said to be a millstone around the neck of the little fellows and a body blow to the poor.

So now the steel and automobile industries are leading what promises to become a big parade of corporations merrily passing out money to employees and stockholders in the form of wage increases, bonuses, and dividends.

The only cause for these sudden bursts of generosity, as far as anyone has been able to determine, is that "cockeyed piece of tax legislation" which levies heavily on undivided corporate surpluses.

Distribution of profits in higher dividends and wages is exactly what Mr. Roosevelt said would happen as a result of the tax.

It is worth noticing that the steel and automobile industries are centers of the drive by organized labor to bring the unorganized workers into unions.

Announcements of wage increases and dividends were generally withheld until after election. In the election had resulted differently, the disbursements might have been withheld, since Landon had promised to repeal this tax...

ONE garment manufacturer in New York was so impressed

by Republican propaganda against the old-age benefits phase of the social security program...

When certain outsiders got after him and warned him that he had committed a penitentiary offense, he said he had read in the newspapers and heard over the radio that this was his duty.

THE Social Security Board would like to have it emphasized that prior to Nov. 24 none of us should go inquiring around postoffices and SSB field offices about the act and its "payroll tax" for old-age benefits.

During that week it plans to put application blanks for old-age benefit account numbers and information sheets in the hands of about 26,000,000 eligible employees.

Certain agencies, acting on the theory that certain large employers would like to know everything they could find out about employees' affairs, have sold copies of unofficial blanks which have nothing to do with the case.

There are four ways to return the blank besides through the employer—through any labor organization, by letter carrier, through the local postoffice or in sealed envelope mailed to the local postmaster.

B.T.U. Delegates to Be Guests of H-SU

By United Press

ABILENE, Nov. 23—More than a hundred of the delegates to the state B. T. U. convention in session Thursday, Friday and Saturday will be guests of Hardin-Simmons resident students, Dean R. A. Collins reported today.

Students living in Mary Frances, Ferguson and Smith halls voted in called meetings last week to contribute what bedding and linens they could spare to make visiting young people comfortable.

Other convention activities involving Hardin-Simmons university are the music festival in the university auditorium Wednesday night, ushering by the famous

Fort Worth Dog Is Found In Denver

By United Press

FORT WORTH—It was a long route, but Roscoe Fleming of Denver, Colorado, former Fort Worth newspaper man, learned that his dog had been found.

T. P. McKinstry of Denver found the dog wandering near his home. He noticed a Fort Worth license tag and asked local tax collectors whose dog it was.

The Fort Worth Press, which formerly employed Fleming, notified him that his dog had been found—in Denver.

Happy Helpers Club Has Quilting Part

The Happy Helpers club at the home of Mrs. Guy T. Smit at 1 o'clock, Thursday, Nov. 19.

The club pieced a lovely red white and blue friendship quilt for their hostess. While Mrs. Smit was teaching the ladies did the piecing of the quilt. She was called home to find a house full of friends and a beautiful friendship quilt.

After refreshments were served each member was presented with a present from her unknown class sister. The club was glad to have Mrs. Somers, a sister-in-law of Mrs. Ferguson, as a guest.

After the social, the club adjourned, planning to meet with Mrs. Dave Tarrant for their next meeting, Dec. 3.

NEW TOBACCO AREA FOUND

By United Press

WATSONVILLE, Cal.—The famous Parajito Valley hopes to be able to raise its own smoke hereafter. Armenian tobacco experts have declared its soil is perfect for growing Turkish tobacco.

ROLLS HIS "MAKIN'S IN 10 SECONDS

Can you do it too?

"I don't reckon that lightning-quick rolling is the main reason why Prince Albert is so 'specially popular. My hunch is that it's the mild, smooth flavor of it," says Tony Grimes.

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the packet in with the rest of the tobacco in an empty tin within a month from this date...

Note: For grand pipe smoking, just try to equal P. A.

THE NATIONAL JOY SMOKER

THIS CURIOUS WORLD

By William Ferguson

NONE OF THE NEW WORLD INDIANS... MAYAS, INCAS, OR AMERICAN... PROGRESSED FAR ENOUGH TO LEARN THE USE OF THE WHEEL, UNTIL THE WHITE MAN CAME.

THERE ARE NO ABSOLUTE DESERTS IN NORTH AMERICA! PLANT LIFE OF SOME SORT IS TO BE FOUND IN EVERY REGION.

Sport Glances. . . . .By Grayson

PINEHURST—Because the Professional Golfers' Association tournament this year inaugurates the winter circuit, the big shot money players are keyed up as never before for the second most coveted of their championships, which is to be held at ritzy Pinehurst, Nov. 16-22.

This year's show has drawn a tremendous field from Johnny Revolta, the defending titleholder, and Tony Manero, the United States open champion, on down the line.

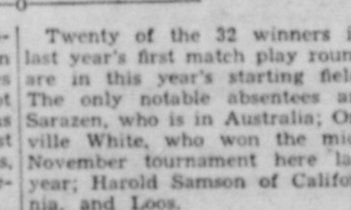

The tournament starts with a field of 121, composed of 105 sectional qualifiers and 16 others who got in automatically as Ryder Cup team members, semi-finalists in the 1935 championship and, as in the case of Manero, for capturing the National Open.

They play 18 holes medal the first two days, 64 to qualify, followed by 18 holes of match play, and then 36-hole matches until the final.

The two 18-hole rounds at match play scheduled on Nov. 18 correspond to the rounds which last year in Oklahoma City saw the elimination of Walter Hagen, Harry Cooper, Henry Picard, Willie Klein, Frank Walsh, and Billy Burke in the first round, and Ray Mangrum, Vic Ghezzi, Gene Sarazen, and Mortie Dutra in the second.

FROM the point of view of the gallery these 18-hole matches are grand. Many of them are fought to the home hole or beyond. No fewer than 17 out of 48 in Oklahoma City went the full route or extra holes, from a minimum of two up to a maximum of the 21-hole clash in which flashy Ky Lafoon put out Eddie Loos

HELPS PREVENT MANY COLDS

Regular Size .304 Double Quantity .504

Twenty of the 32 winners in last year's first match play round are in this year's starting field. The only notable absentee are Sarazen, who is in Australia; Orville White, who won the mid-November tournament here last year; Harold Samson of California, and Loos.

The history of the P. G. A. championship makes it odds-on that the Pinehurst victor will be a man who has a well established reputation. Hagen won it five times, Sarazen three, Jim Barnes and Leo Diegel twice each, and the other winners have been Revolta, Paul Runyan, Olin Dutra, Jock Hutchison, Tommy Armour, and Tom Creavy.

BARNES was twice runner-up. Hagen, Sarazen, Diegel, and Armour filled that role once each. Other runners-up have been Fred McLeod, Johnny Farrell, Denny Shute, Craig Wood, the late J. Douglas Edgar, Al Espinosa, and Joe Turnesa.

The No. 2 course here on which the P. G. A. championship will be settled measures 6879 yards.

The one factor which hitherto had deterred the P. G. A. from bringing its tournament here was the perfectly understandable hesitation of playing such an important championship on a course with sand greens. That obstacle was removed when grass greens were installed on the No. 2 course last season, along with a few alterations.

### With morning . . . came the repair crews

An early snow, drifting down from leaden December skies, froze to telephone poles and lines. Hard on its heels came the wind. Ice-laden wires snapped and poles splintered before the blast.

Night found scores of towns throughout the storm region handicapped by crippled telephone service.

But, with the morning, came the repair crews. Hastily gathered from

regions untouched by storm, they poured into the stricken area with trucks, tools and materials. Day and night they rushed the work of reconstruction.

One advantage of the Bell System's far-flung organization is this: When disaster flattens the telephone system, men and money and materials are instantly available for the prompt repair of the damage.

#### SOUTHWESTERN BELL TELEPHONE COMPANY

A Bell System operating company served by American Telephone and Telegraph Company, Bell Telephone Laboratories, and Western Electric.

### ON TEXAS FARMS

**WAXAHACHIE.**—In 1934 R. E. Edmondson of Ellis county took charge of an almost worthless 15-acre field that was a thicket of briars, undergrowth, and trees. The land was cleared and only the best pecan trees were left standing, according to W. M. Love, agricultural agent. In 1935 the field yielded more than 7,000 pounds of native pecans.

This year Edmondson sowed the field to bermuda grass and planted Italian rye grass, and now has a pasture which is taking care of several head of stock.

**DIMITT.**—A preliminary survey at the end of October showed that 41 trench silos had been filled in 16 of the 13 communities of Castro county, according to W. Thomas, agricultural agent. Of these, 32 had been constructed this year to take care of the heavy crop of grain sorghums.

**ALPINE.**—Sheley Brothers recently topped 400 ewes out of a flock of 2,500 and purchased 15 heavy shearing polled Rambouillet rams to round out a breeding program on their range. Records will be kept on the shearing of the lambs from this flock as compared with their regular flock, according to Ernest Gibbons, agricultural agent of Brewster, Jeff Davis and Presidio counties.

**TIMPSON.**—Through the efforts of the County Conservation Committee farmers of Shelby county pooled their orders for 11,000 pounds of yellow blooming sweet clover seed which they will plant on idle crop land to control soil

### Becomes 'Single' Siamese Twin

Illness of Lucio Godino, which endangered the life of his Siamese twin brother, Simplicio, in New York City, cast an interesting light on the case of Selda Alsleben, above, 9, of New Auburn, Minn., who is believed to be the only living single Siamese twin in the nation. Selda and her sister were separated by operation when they were 7 weeks old. The sister died recently. Selda remains robust and healthy.

erosion and improve the fertility of the soil, according to J. O. Moosberg, county agricultural agent.

**PADUCAH.**—A worn linoleum was made into a different floor covering at a cash outlay of 60 cents by Mrs. Cullen Wood, bedroom demonstrator of the Moon Home demonstration club, according to Miss Hattie Tacker, county home demonstration agent of Cottle county. Mrs. Wood painted the entire surface of the linoleum with two coats of buff colored house paint and followed this with two coats of ivory enamel. A small design of brown and green was stripped to give it color.

**FARWELL.**—Celery in the hotbed of Mrs. Frank Hastings of Bovina reached a height of 28 to 30 inches, according to Miss Margaret St. Clair, home demonstration agent of Farmer county, while sets planted on the same day in the garden are not taller than six to ten inches.

**LONGVIEW.**—The ten demonstrators in home food supply in Gregg county have already canned 3,120 quarts of vegetables and fruits, according to Miss Vida Holt, home demonstration agent, in addition to brining 255 quarts of pickles, canning 600 containers of meat, 165 quarts of jellies, curing 1,200 pounds of meat and drying 1,450 pounds of vegetables and fruits.

**GEORGETOWN.**—Careful planning and judicious selection of shrubs has enabled Miss Lois Steward, special yard demonstrator of the Concord community in Williamson county, to have a yard that is a pleasure the year around, according to Miss Bessie L. Vogt, home demonstration agent. Some of the 16 varieties of flowering shrubs are always in bloom.

Besides the screen planting of the flowering shrubs, Miss Steward has planted evergreens about the foundation of the house, resodded her lawn, removed scattered and unrelated shrubs from the front lawn, laid down cobblestone walks, and moved her roses from the front yard to the back, where they are concentrated into an attractive rose garden.

### Pay Rolls of Texas Banks Are Reported

**DALLAS.**—Texas banks employed 9,084 persons and had payrolls amounting to \$14,588,170 in 1935, William L. Austin, Director of the U. S. Bureau of the Census, has announced. Of the state's 945 banks, only two failed to report.

National Food Products, Inc., New Orleans, Louisiana. Made from Texas Flour

### Teeth Are Guide To Character Is Claim of Expert

**VIENNA.**—To judge a person's character, look at the teeth. That is the advice of Peritus, Austrian characterologist.

Civilization has taught mankind to wear masks, and the more a person is civilized the more impenetrable is his mask, according to Peritus.

"We cannot, however, change our teeth," says the characterologist. "They are a most valuable element in judging a person."

Watch, therefore, the teeth of your interlocutors, when they talk or smile, urges Peritus. A real he-man has four almost equal incisive upper teeth, and his chin is usually square, while in the real woman the two middle teeth are much larger than the two others, and her chin is more or less pointed says Peritus.

A man with large middle teeth may have weaker characteristics, and, for instance, probably will respond easily to flattery.

On the other hand, love's labor probably will be lost when anyone tries to flatter a woman with even upper incisors.

Motherly instincts are indicated in a tooth with female cutters, and, doubtless, a woman with even upper teeth will try to boss her surroundings.

Use the mirror to find out about your own shortcomings, because self-knowledge is the first step toward improvement, advises Peritus.

#### DOUKHOBORS PREFER JAIL

**NELSON, B. C.**—Doukhobors would rather go to jail for a month than pay a \$10 fine. They were found guilty of keeping their children away from school. One of the two sentenced said it was "against his conscience" to have his children educated.

### HE MADE A TEN-YEAR TEST WITH ALL-BRAN

Say good-bye to the headaches, the low spirits, the sleeplessness that often follow common constipation. Just read this letter:

"In 1926, I started using ALL-BRAN. And now, after ten years, during which I have put Kellogg's ALL-BRAN to a long, hard test, I am writing you this letter. It is better to eat this food and be in condition, than to resort to laxatives." —Bernard Altman, 63 Goodale Road, Mattapan, Mass.

Kellogg's ALL-BRAN will help you too. Its "bulk" absorbs moisture within the body, forms a soft mass, gently cleanses the system. Tests prove it is safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company.

Just eat two tablespoonfuls daily. Either as a cereal, or in recipe. How much better to use this food than to take patent medicines. Buy ALL-BRAN at your grocer's. Made by Kellogg in Battle Creek.

## HOW TO CARVE A TURKEY

1. Place turkey on back with legs pointing towards the carver. Grasp paper frill covering end of leg. Cut through skin between leg and body with carving knife and disjoint leg.
2. Push wing down and hold firmly with fork. Make a deep cut diagonally into breast just above wing. Carve breast in thin slices. The deep diagonal cut enables you to end slice neatly.
3. Hold wing with fork and disjoint with carving knife. Then carve balance of white meat from breast. Under the back, on either side, may be found two, small oystershaped pieces of dark meat.
4. For a small family, it is advisable to carve but one side of the turkey as required, so that the remainder may be left in good condition for a second serving.

## HOW TO COOK A TURKEY

Give your family roast turkey as it should be by cooking it in the even heat of a ROPER Gas Range Oven.

See how easy it is: Prepare turkey with salt and butter, place in covered roaster, set oven heat control at 300 degrees and bake 25 to 30 minutes per pound. Remove cover and baste occasionally. That's all there is to it! The turkey will have a crackly, glistening brown skin and the meat will have a luscious tenderness that will keep the family coming back for more.

Come into our store and get the facts about the beautiful, new ROPER Gas Ranges. See the many new features that science has devised to take the guesswork out of cooking. See the numerous conveniences that make cooking a pleasure instead of a task. We'll be glad to give you a demonstration at any time.

### Features That Make ROPER Ranges Outstanding

- \*—Oven heat control maintains uniform oven temperatures.
- \*—Heavy rock-wool insulation keeps kitchen cool—saves gas.
- \*—Multi-flame burners give exact heat for cooking operation.
- \*—Automatic top-lighter lights burners by simply turning valve.
- \*—Roll-out broiler makes broiling easy.
- \*—Lifetime cooking charts on inside of oven door eliminates guesswork.

BACKING THE BULLDOGS -- WIN OR LOSE!

HALF-ACRE in EDEN

BY ROBERT DICKSON

BEGIN HERE TODAY
MARCIA CANFIELD, daughter
of the late FRANK CANFIELD,
owns that neighborhood in
Eden which has been announced
as a site for a new school.

and the four men prepared to de-
part, first cutting the telephone
wires.
The police, when they arrived,
were satisfied, first, that the four
men were the Dog Wagon robbers,
and, second, that the four had the
assistance of three outside men, a
fact suspected in that former rob-
bery but not verified.

in Chicago as an address because
I had to be there during the time
I could reasonably expect an an-
swer. The call was to tell me the
job was mine. So here I am."
"That's grand," said Marcia.
"Where's the business you are in?"
"McDougall looked pained.
"Where are you going to work?"
"Where are you going to work?"
"Where are you going to work?"

CHAPTER XII
ON the following day there took
place another holdup, remark-
able not alone for the amount of
loot involved, but because of its
wholesale character and because it
was committed by the same four
men who had robbed the Dog
Wagon and its crew, and who were
generally credited with having
been the authors of several
previous robberies as well.

MARCIA CANFIELD and Helen
Waddell had passed the after-
noon in more direct, if less social,
endeavor for the welfare organiza-
tion. They had accompanied the
nurse on her rounds, and by occu-
pying themselves with the new
babies and other troubles of the
town's less affluent citizens saved
the jewelry they wore and the
money they carried.

"A SYNDICATE. They peddle
my stuff to the newspapers.
I draw a daily feature called
'Scenes from Life.' I did some-
thing like it out west for one pa-
per. It was so good that a great
public clamor arose for wider cir-
culation. I held back, modestly,
but the call became too great. I
was persuaded, and here I am..."
"Where are you going to work?"
"Where are you going to work?"
"Where are you going to work?"

The husband of Mrs. Henner-
son's maid, a sister for the after-
noon, had just gone to the back
porch to bring in the inevitable
cream. He was thus permitted
the privilege of viewing a hitherto
unseen member of the bandit
gang, a young man who was
lunging at the side of the house
and who, at sight of the Negro,
summoned him profanely to get
back in the house, emphasizing
his order with a pistol, quickly
reveling and quickly shoved back
into the pocket of his overcoat.

"This is getting to be a habit,"
said a voice from the living room.
"You!" said Marcia.
"Still am not trailing you,"
Bruce McDougall told Marcia as
he crossed the room toward them.
"I can't claim that good manage-
ment does it—I'm just one of those
lucky people you read about. You
may as well give in."

"I'm not visiting," he said. "I
am a candidate for permanent
residence. Do you remember, in
the coffee shop of the hotel in
Chicago, when the bellboy paged
me? That was a call from New
York. I had sent in an application
for a job, and had given the hotel

Inland Sailor Is Building New Ark For Another Trip

WACO, Tex., — Commodore B. M. Hatfield, the Texas Noah, is building another ark—this one from part of three rusted East Texas steel oil tanks.
During the day, the solitary tank of the commodore's sledge sits through the wooded thickets that surround the new Texas shipyard. At night he stands watch over his ship by the light of a blazing log fire.
Curious residents of the neighborhood creep through the underbrush to watch the commodore at work—and to laugh at that do-no-worry Texas inland sailor. He set swings and sings.
Building boats is nothing new to Hatfield. Back in 1933 he built a boat, "The Texas Steer," from trap lumber and fence timber. One bright morning, he said goodbye to civilization and set out.

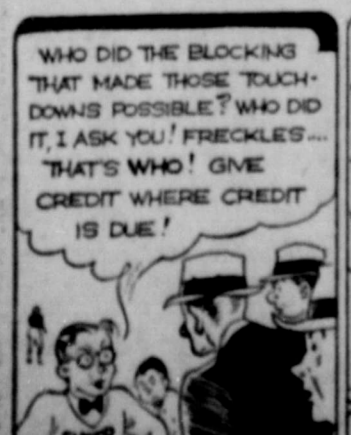

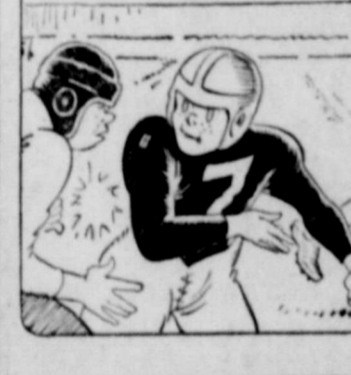

INDIAN CHIEF IN POVERTY NORTH MANCHESTER, Ind.

A movement has been started here to erect a comfortable shelter for John Newman, a 91-year-old Indian and former chief of the powerful Miami who once claimed this territory. Newman is living in a shack.

MINNEAPOLIS BUILDING UP MINNEAPOLIS, Minn.

An increase of more than 50 per cent in value of building construction in Minneapolis for the first 10 months of 1936 as compared with the same period in 1935, is reported by City Building Inspector Louis H. Clousing.

FRECKLES AND HIS FRIENDS—By Blosser

MAHONEY HAS CIRCULARIZED THE 40 DISTRICT DELEGATES, AND SAYS THAT THE MAJORITY WILL INSIST UPON DRAFTING HIM.

Intercollegiate officials will have something to say about that, however.
Those of them who made the trip to the Rhineland were even more dissatisfied with the way things were handled than the more disgruntled athletes.
On their return they made it clear that there would have to be a change if their organizations

SISTER MARY'S KITCHEN

THE turkey is the big news. Fixin's, yes, of course, but the great American family feast should be built around the royal American bird. And this year there will be five million more turkeys on the Thanksgiving market than last year.
Poultry raisers have been studying the feeding and raising of infants, you see. Tender birds, with smooth black legs, pliable breast bones and fat well distributed under the skin—these await you at the market. Fresh turkeys—never a cold storage bird for Thanksgiving, remember. No need for that, despite what anyone may tell you. Those birds shipped in ice or partially frozen are not cold-storage; they have been freshly killed but frozen slightly merely to keep them fresh in transit to your oven.
There are as many ways to roast a turkey as there are ways to bring up a child to honor his parents in their old age. The basic principal is about the same in all good American families, however. First comes the matter of stuffing. Oysters, chestnuts, sausage and what not pass in delectable review. We'll appoint an apple stuffing to honor this year's feast.

Apple Stuffing
(For a 12 Pound Turkey)
Ingredients: 1-2 cup diced salt pork, 1-4 cups chopped celery, 1-4 cup chopped onion, 2 cups fine, dry bread crumbs, 1-3 cup chopped parsley, 10 sour apples cut in cubes, 1 cup sugar, 1-16 teaspoon poultry seasoning, salt and pepper.
In a large pan, fry the pork, then remove. In the fat, fry celery, onion, parsley for 2 minutes, then remove and add the apples which have been sprinkled with sugar. Cover, simmer until ten-

Sport Glances. . . . .By Grayson

NEW YORK.—A college man may be elected president of the Amateur Athletic Union while a divided Old Guard fights it out in the big showdown in Houston, Dec. 4, 5, and 6.
A new deal in amateur athletics would be too good to be true, but even grizzled badgers are weary of the old alignment.
Tactless Avery Brundage already has announced that he will step down, which is what he would have to do anyway after getting practically everybody but Hitler mad at him in Berlin.
This leaves two members of the Old Guard, Judge Jeremiah T. Mahoney and Maj. Patrick J. Walsh, both of New York, campaigning for the right to wear the brightest brass hat.

MYRA NORTH, Special Nurse -- By Thompson and Coll

Remove cover and simmer a few minutes more, then add crumbs, cooked pork and vegetables. Season.
There's a farm tradition that the turkey should be stuffed the night before using, and that some of the stuffing should be rubbed on the surface. Farm traditions deserve Thanksgiving respect.
New Mince Pie for Six
One cup brown sugar, 1 cup chopped apples, 1 cup chopped raisins, 1 cup chopped cooked meat, 1-4 cup butter, 1 tablespoon molasses, 1 teaspoon salt, 1-2 teaspoon nutmeg, 1 teaspoon cinnamon, 2 teaspoon cloves, 3-4 cup cider or meat stock, 2 tablespoons currant jelly, pastry for two-crust pie.
Mix all ingredients together except the jelly. Simmer until the apples are tender and the mixture thickened, about 30 minutes. Cool and pour into pastry lined pie plate. Dot with jelly, cover with top pastry and bake.

Fossils Are Saved On Dakota Site

NEW HAVEN, Conn.—The Fossil Cycad National Monument of the Southern Black Hills of South Dakota has been added to the two national monuments left by nature and now protected and preserved as illustrations of plant and animal life of millions of years ago.
The other two sites are the Dinosaur National Monument of Utah and the Arizona Petrified Forests. Dr. G. R. Wieland, of Yale University, internationally known author-
ority on fossil plants, is virtually the donor of the new monument.
This site, in the neighborhood of the 'Stratosphere Bowl' and Mount Rushmore where the great rock carving is being carried on by Gutzon Borglum, was recognized by Wieland some 25 years ago. Here in formations 20,000,000 years old or more and dating back to the days of the dinosaurs, are petrified forests of cone-bearing or "flowering cycads," ancestors of present day ferns and palms and whose solitary modern day relative is the rare Chinese maiden-hair tree.
The monument first was set aside by act of Congress in the latter part of the Harding admin-

istration, its first inception being due to Dr. Wieland. His first step had been to file on the area under the homestead laws; his filing fees have been returned to him on the surrender of his equity, making Dr. Wieland in reality the founder of the monument.
The cost of the final development, estimated at \$65,000, thus far has prevented the opening of this field botanical museum to the public. Some excavations were carried on last year by a group of CCC workers under the direction of Dr. Wieland, who found a ton of specimens.

Needlecraft Club Meets

A social hour was enjoyed by members of the Needlecraft club recently when the gathering was held in the home of Mrs. Tom Wilson, hostess.

As the new year period reached its close the hostess served a plate of cherry pie with whipped cream and coffee cups to those present, Misses A. W. Dooley, T. L. Leonard, O. M. Leonard, Hyatt, Thomas, Jesse Weaver, John Tibbles.

G. A. Business Session The Monday session of the G. A.'s of First Baptist church was consumed in strictly business matters, presided over by the sponsor, Mrs. Lee Mitchell. The program for the coming week was planned and the members were urged to report for next week's meeting of the organization at 4 o'clock.

Individual Talks Offered On Thanksgiving at W. M. U. The Women's Missionary union of Central Baptist church met at the home of Mrs. E. S. Brink Monday afternoon and had for their instructive lesson a Bible study offered under the direction of the splendid Bible student, Mrs. Sarah Scrivens.

Impromptu talks were offered in Margaret Hatton, Claribel Coffman, Ina Jene Reynolds and Altha Mae Bearden. A duet, "Silver Threads Among the Gold," was sung by Misses Reynolds and James. W. K. Cooper played "A Christmas Choral" on the harmonica. Mrs. Harris gave a special talk on "Friendship," after which the group was dismissed with prayer.

Special Attention Dance Folk! The society desk is in receipt of a letter from E. D. Ebersole, director of public relations, Fort Worth, Blackstone hotel, extending a special and cordial invitation to those who enjoy dancing in the right surroundings and to the tune of an outstanding orchestra, to form a dance group of Ranger persons and pay a visit to the Venetian ballroom of the Blackstone hotel, where Carol Lafner's orchestra is now enjoying a popular engagement.

According to Mr. Ebersole, he would love designating Saturday night, Dec. 5th, as Ranger night, and make special table reservations. It would indeed be a gala send-off for the approaching holidays. Words are inadequate in describing the beauty of the Venetian ballroom, which is now agreed the night spot of the South-west.

Those who like dancing could formulate plans and make it one of the most real celebrations ever to have come our way.

Boy Marvel in "Let's Sing Again"

BOBBY BREEN, who thrilled millions on Eddie Cantor's broadcasts with his magnificent tenor voice, makes his cinema bow in "LET'S SING AGAIN," RKO Radio release. Bobby, only eight years old, is gifted with a Caruso-like voice with which he vocalizes a quintet of popular and arias in his role as a runaway orphan who is guided by a circus rooster, Henry Armetta. This picture shows today only at the ARCADIA theatre.

40 Germs In Foot Of New York Air

NEW YORK — Forty or more germs may be present in a cubic foot of air in New York City, reports the American Institute of Sanitation. At times in some sections the number is much larger. Most of the microbes found everywhere in the air are harmless and come chiefly from the soil, being blown about by the winds. They cause molds, decay and spoilage of foods. Some dangerous germs, however, do at times contaminate the air in New York and other cities, but as a source of infection the air is not regarded as great a peril as it once was, continues the institute.

"During the early days of bacteriology it was thought that most contagious diseases were air borne but with increased knowledge the list of diseases regarded as being transmitted by air has steadily decreased, until now only measles and small pox remain in that category. At one time yellow fever and malaria (which means "bad air") were thought to be air borne but it is now known that they are carried from person to person by mosquitoes.

"The fact that the atmosphere is not, in a narrow sense, an agent in the spread of disease does not mean that it is not important. Tests have shown that cold infections can remain suspended in the air for a long time in a closed room," continues the institute. "There may be many germs on the floor in a closed room and they may be set in motion when the air is disturbed. In that manner the air may contribute to the spread of various ills.

"Sanitation in schools, offices and other buildings is most effectively carried out by using disinfectants in the water used to wash the floors, for the germs settle on the floor and if they are destroyed there, they will not be put into circulation when the atmosphere is disturbed. Dust-cloths should be wrung out dry from an antiseptic solution before being used. This practice should be carried out in schools especially, where little fingers repeatedly go from desk to mouth."

Woman Finds a Profitable Company ST. LOUIS.—Miss Vivien Kellems, now in her late 30s, is president of a company, started by herself, which manufactures a new cable grip—an achievement which electrical engineers had said was impossible. She went about launching her concern nine years ago in a truly feminine fashion—but it worked. She explained: "I just went out and sold a lot of cable grips but in which to manufacture them."

Today her company is paying her \$50,000 a year, she said. And she has the distinction of being the first woman ever to address the St. Louis Electrical Board of Trade. Her brother invented the cable grip which her company produces. It is a gadget of woven steel wires designed to ease the strain of ice, snow and wind on heavy cables. Although Miss Kellems had no knowledge of the problems of manufacturing she did know how to sell.

She organized the company, became its sole owner and president, got a machine shop going to manufacture the cable grips and other products. Some of them are of her own invention.

Adventure Put In Curriculum

HONOLULU—Adventure ranks algebra on the curriculum of Kamehameha boys' school, a prep school for Hawaiian youths in Honolulu.

Fifteen boys are enrolled in this adventure "class," in which the grades, incidentally, are almost constantly "A."

Selected for intelligence as well as physical strength, the boys have been made American colonizers on the sand heaps of the South Pacific known in geographies as Baker, Howland and Jarvis Islands and to aviation experts as potential bases on a sky route to Australia.

The first members of Kamehameha's adventure class, modern Robinson Crusoes, were taken to these islands aboard the Coast Guard cutter Itasca nearly two years ago.

Collect Marine Specimens They made detailed weather observations and collected specimens of marine and island life for the Bishop Museum, celebrated for its Polynesian collections.

The boys are replaced every six months. At present there are four on each of the three islands and three more at Wake, one of the bases along Pan American Airways' route from San Francisco to Manila.

On Baker, Howland and Jarvis, the boys are doing everything from grading and planting trees to developing vital water supplies.

Dr. Homer F. Barnes, principal of Kamehameha, where a youth must be at least one-eighth Hawaiian before he can seek entrance, emphasizes that the adventure course is one of the most important on the schedule.

It is necessary that boys get the romance and thrill of some kind of adventure," Dr. Barnes said. "It challenges the capacities of boys and puts them in the position of having something they want to do.

"Modern life has taken much of the physical adventure away from boys; there is far less horseback riding, hiking, conquering nearby mountains and that sort of thing than in other generations.

"I think that is one reason juvenile delinquency has risen to such an extent. Gangsters are in many instances but boys whose yearning for adventure in an automobile-machine age leads them astray."

Federal court struggled with the problem, "What is an infant?" Our idea was anyone who could cry from 10 to 2 each night.

Million Is Made After a Farmer Started In Debt

LONDON.—The story of how George Baylis, of Berkshire, overcame early adversity to become the largest farmer of arable land and producer of barley in England, was told by C. S. Orwin, Director of the Oxford University Agricultural Economics Research Institute, in an address at King's Lynn.

After six years of farming in Berkshire, Orwin said, Baylis lost \$3,000, and in his search for some other method of farming he came upon the experiments at Rothamsted, which proved that corn could be grown with an application of ammonia and phosphates. He made a great success of it, and eventually farmed 12,000 acres, half of which he owned.

Except for a few working horses Baylis dispensed with animals, and he obliterated villages and farmhouses in building up his great holding.

Oldest Fireman Dies at McAllen

McALLEN, Texas.—One of the oldest active firemen in Texas, Sid J. Furl, Sr., 61, resident of McAllen for the past 43 years, died here after a lengthy illness.

He began his career as a volunteer fireman as a member of the Georgetown volunteer fire department in 1893. He was a member of that organization for 31 years and served as department chief on several occasions.

He moved with his family to McAllen in 1921 and immediately joined the McAllen organization. Widely experienced in fire department work, his advice was constantly sought by departments both in and out of the Valley. He was a charter member of the Texas Fire Chiefs' and Fire Marshals' Association, organized 25 years ago, and had missed only two of the annual conventions.

BLACK-DRAUGHT For Clean System Helps To Prevent Sickness One of the advantages of Black-Draught is that, if it is taken at the first disagreeable feeling of constipation, one or two doses usually bring relief. Prompt relief, such as that, is well worth while. Constipation is too dangerous to be neglected.

"A clean system for health" plan has saved thousands of people each useless sickness. They keep a package of Black-Draught in the family medicine cabinet and take this purely vegetable laxative at the first sign of constipation. They say the relief it brings is mighty hard to beat.

Find out, by trying it, why so many people prefer Black-Draught when it comes to buying a laxative.
