## ROOSEVELT IS MAKING MORE RELIEF FUNDS

WASHINGTON, Jan. 11.—President Roosevelt today rebuked certain industrial employers for lengthening the work week and asked Congress for \$790,000,000 to carry the relief burden during the remaining five months of this fiscal year. That will increase the \$1.8-billion cost to \$2,215,000,000. The President charged a tendency toward a longer work week which had important effects on re-employment. He complained that business employers were "stepping up production without an equivalent stepping up of employment."

He added that most employers have not greatly increased maximum hours established under the WPA.

He reported that non-agricultural re-employment since March, 1933, was approximately 6,000,000 persons and that more than 1,000,000 of them found private jobs in 1936.

Simultaneously with his letter to Speaker William Bankhead asking the additional relief appropriation, Mr. Roosevelt submitted a message on unemployment as of Dec. 12. It said 3,151,000 jobs were on government payrolls as of that date, the smallest number since Nov. 30, 1935.

## Works for Auto Strike End

Playing a prominent role as peace-maker in the General Motors strike, James F. Dewey, above, federal labor conciliator, held conferences with both union chiefs and corporation leaders. Following the parleys, he was optimistic that the opposing forces could be brought together for discussions that would show the way to settlement.

## FRANCE TO OPPOSE ANY EXPANSION

PARIS, Jan. 11.—France has warned Germany that she will not tolerate German expansion in Morocco, it was disclosed today.

The warning was transmitted by the French Ambassador to Berlin. The British similarly indicated they would not tolerate fortification of Ceuta, Spanish Morocco.

A formal French proposal for an international blockade of Spain to isolate the civil war while the Moroccan crisis is solved, is expected in 48 hours. The French proposal is expected to be that France and British warships patrol the waters outside nationalist ports, while Italian and German ships patrol outside loyalist ports.

## Berlin to Oppose Any Expansion

BERLIN, Jan. 11.—Adolph Hitler addressing the diplomatic corps today, urged its members to recognize the danger threatening European peace and thereby promote understanding and reconciliation among nations.

## Lions Will Hold A Group Meeting At Breckenridge

Announcement was made here today of a group meeting of Lions clubs, to be held in Breckenridge Friday night, Jan. 22, at which Ranger, Eastland, Cisco, Graham and Breckenridge will be represented. This is to be the first of a series of meetings of the towns in group 3, district 2-E.

Each town in group 3 will furnish a part of the program, which will follow the meal, the announcement said, and group officers will be elected. The meeting will be held in the Breckenridge Y. M. C. A. building, beginning at 7:30.

The Breckenridge club is to furnish a trophy, which will be a mummy goat, to the club having the poorest attendance. Attendance will be based on a percentage basis in determining the winner of the trophy, it was stated.

## Tourist Trade In '36 Placed at 5 Billion

NEW YORK—American tourist trade totaling \$5,000,000,000 in 1936 has become one of the nation's major industries, a survey shows. More money is spent for pleasure travel in the United States per capita than in any other country in the world.

Albert K. Dawson of the American Express company estimates that the money spent for tourist travel actually compares with the expenditure for automobiles. Statisticians have placed the total expenditure for travel as 11 per cent greater than for the clothing business, 45 per cent more than the printing business and 60 per cent greater than for the lumber business.

## TACOMA BOY FOUND DEAD ON HIGHWAY

EVERETT, Wash., Jan. 11.—A youth found the body of a boy just off the highway six miles south of here today and Chief Criminal Deputy Ray Ryan said he had not the slightest doubt that the body was that of Charles Mattson, 10, who was kidnaped from his home at Tacoma, Wash., 15 days ago.

The child's head had been crushed, apparently by a heavy blow.

## HOUSES TO HAVE FULL MEMBERSHIP

AUSTIN, Jan. 11.—Almost a full attendance in both house and senate is expected for the opening of the 45th Texas Legislature Tuesday at noon, despite traffic interruptions.

More than a quorum of each house was in Austin today.

Robert Calvert of Hillsboro seemed certain to be house speaker. Friends predicted his election on the first ballot. Rep. Albert Walker of Vernon was his only opponent.

Sen. Will Pace of Tyler was expected to be the choice of a senate caucus tomorrow morning for president pro-tem. That would make him presiding officer of the senate when Lt. Gov. Walter Woodul is absent.

Rep. Jack Lucas of Athens, who has been organizing a movement for again liberalizing old age assistance, arrived today. He predicted some parts of liberalizing bill will pass the house, but thought the governor would veto it.

The governor's message will be delivered Wednesday or Thursday. The first message will deal largely with state financing.

## Pastors Relaxing With a Creative Work As Hobby

BOSTON—Two Baptist clergymen of Massachusetts find time for pursuit of absorbing hobbies—one is a painter of ship-pictures, the other is an inventor.

The Rev. Marquis James, pastor of Norwood's First Baptist church, in spare moments paints marine-like a professional artist. A one-time seafaring man, the clergyman holds a master's license.

The Rev. Ernest L. Loomis, pastor of the Winter Street Baptist church at Haverhill, has many useful inventions to his credit. Taught to use tools as a boy on a Connecticut farm, he found relief in inventing gadgets after a second nervous breakdown caused by the strain of ministerial duties.

The Haverhill pastor holds the rank of major in the U. S. Army reserves.

Among inventions of the Rev. Loomis is a device to prevent use of slugs in subway slot-machines, a foolproof fountain pen clip, a one-unit air-conditioner for automobiles and buses, a gadget for keeping pictures straight on walls, and an easily adjustable brake lining that saves wear and tear on the drum.

## Giant Bone Found In New Mexico

ALBUQUERQUE, N. M.—Proof that a gigantic species of prehistoric elephant plodded over New Mexico terrain many thousand years ago is believed indicated by discovery of a humerus, or upper bone of the forelimb of a proboscidean in a gravel pit 22 feet below the earth's surface.

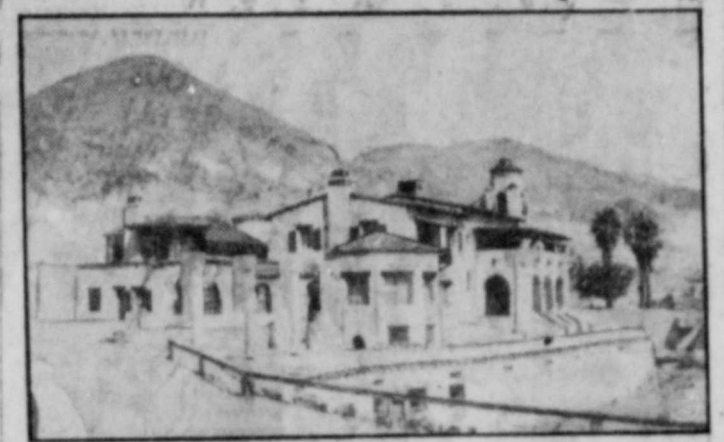

The bone, nearly 3 feet long and with a ball-and-socket circumference of 27 inches, crumbled when exposed to air.

The proboscidean was a mammoth animal which stood 14 feet high at the shoulder and lived in the pleistocene, or ice age.

## POPE GROWS WORSE

VATICAN CITY, Jan. 11.—Reliable informants said today that Pope Pius passed an unpleasant night and officials were concerned regarding his illness.

## Love Faded in Castle, Charges Wife of 'Death Valley Scotty'

Fear that his "hole card," an "in-exhaustible" vein of gold known only to himself, may be revealed was Walter "Death Valley" Scotty's recreation to a separate maintenance suit filed by his 60-year-old wife. Separated from her husband 10 years, she says "Scotty," shown at left, forgot his promise of a home and children in pursuing a desert prospector's life. "Scotty" is living alone now in the \$2,381,000 castle, shown above, which he built in California's Death Valley. He is reputed to have spent \$8,000,000 from the "hole card" since it was opened 30 years ago. The couple, married in 1900, have one son, 22.

## Food Clothing Supplied to Many Through the WPA

SAN ANTONIO—During 1936, food and clothing were supplied to a monthly average of 70,549 destitute Texas families through the WPA commodity distribution project, it has been announced by R. L. Montgomery, state director of the project.

Now sponsored as a WPA project by the Texas Relief Commission, the distribution of surplus commodities has been effected through various governmental agencies since June, 1933. Number of families dependent upon the distributing agency for food and clothing during the year just closed is the smallest in the three and one-half year history of the organization, Montgomery pointed out. In 1933 there were 148,240 families receiving necessities from the government. In 1934 there were 203,956 families on the list, and 186,399 families were benefited in 1935.

Working with a staff of 786 persons, 744 of whom were formerly on relief rolls, Montgomery has supervised the distribution of more than 45 million pounds of food and more than five million garments and household articles this year. Retail value of these commodities is estimated at \$9,534,006. Expense of distribution was \$440,517, less than five per cent of the value of the commodities disbursed. Ninety-six per cent of the expenditure was for salaries, Montgomery said.

Social workers employed by local agencies certify to the need of applicants for food and clothing. Most of the recipients are unemployables or have not been absorbed on WPA projects.

Primary purpose of the project is to utilize price-depressing agricultural surpluses for distribution to families with subnormal consumption. The system of distribution through non-commercial channels has not interfered with retail business but has served to stimulate and increase the consumption of a number of commodities, Montgomery declared. While the main concern is the proper distribution of surplus agricultural commodities, facilities have been made available for the distribution of other products. Thus, articles from WPA sewing rooms and other production projects are disbursed to the needy.

In the entire program of distributing commodities to the state the federal government has supplied Texas with \$62,000,000 worth of products, including such items as 19,000,000 pounds of smoked meat, 95,000,000 pounds of canned meat, 21,000,000 pounds of butter, 3,000,000 pounds of prunes, and 35,428,000 pounds of flour.

## Judge Funderburk's Father Ill at Home

L. D. Funderburk, father of O. C. Funderburk of Eastland, associate justice of the Eleventh Court of Civil Appeals, was reported "very low" in health Monday at Palestine.

The Eastland son left Saturday night for his father's bedside.

## MOROCCO IS NEW SCENE OF CRISIS

PARIS, Jan. 11.—Spanish nationalist authorities deny that "any constituted units" of Germans have landed in Spanish Morocco, or that any is expected, the foreign office announced today.

TANGIERS, North Africa, Jan. 11.—It was reported today that 10 German submarines were at Ceuta, Spanish Morocco.

GENEVA, Jan. 11.—Reports reached diplomatic sources today that 3,000 Japanese volunteers for the Spanish rebel army were expected to arrive in Spain.

MOSCOW—Soviet Russia's war budget was increased 30 per cent in estimates made public today by the finance commissar.

## Buyers For R. A. Farms Being Picked

WICHITA FALLS—Farmers from counties around Wichita Falls have been invited to make application for purchase of the 33 farms which are being developed near this city by the Resettlement Administration. Construction is well under way on building for thirty of these farms, and they will be occupied as soon as work is completed.

G. C. McGown, project manager, and Ben S. Harrison, family selection specialist, are looking through the large number of applications which are coming in daily. Selection will be made from tenant farmers who are not able to obtain financing from any other source. This will include the best qualified of those who have received rehabilitation loans, and those who have been receiving work from WPA. The list of eligibles, however, is not limited to these rehabilitation and WPA clients.

The farms will be around 45 to 50 acres and are located in a group on irrigated land of the Wichita River Valley on a good highway a few miles west of here. The houses are being wired for electricity and will have modern plumbing. The layouts will provide facilities for two cows, one brood sow and poultry. One or two acres will be laid out for truck, and the cropping schedule will be diversified, including cotton, corn and alfalfa among the main items.

The farmers now being selected will operate the farms for several years under lease, this providing a probationary period during which it will be determined whether or not they will receive a sales contract. When sales contracts are finally made, they will give forty years for paying out the farm with 3 per cent interest.

## Plans Made For Administering Oaths to Officers

AUSTIN—Plans for the second inaugurations of Gov. James V. Allred and Lieut. Gov. Walter Woodul will be worked out in the first few days of the session of the state legislature which convenes on Jan. 12, 1937. In fact, neither is re-elected yet, officially. The result of the Nov. 3 election will not be canvassed formally on those dates until the legislature meets.

Weather conditions likely will determine if the oaths will be taken in the House of Representatives or at the south entrance of the state capitol.

Austin citizens, without waiting for the legislature, are going ahead with plans for an inaugural ball. It will be held at Gregory gymnasium of the University of Texas.

Judge John Hornsby, chairman of a committee on attendance, announced that tickets will be available for all persons who wish to come to Austin for the ceremony. He suggested that notification of intended attendance be sent to the committee promptly.

Re-elected Railroad Commissioner Ernest O. Thompson, plans to take the oath of office for his new term on Jan. 19—the same day as the Governor's inauguration. At that time, Commissioner C. V. Terrell will become chairman of the commission, succeeding Thompson. A policy of rotating the chairmanship each two years has been followed generally by the commission.

Judge George Christian of the Court of Criminal Appeals will administer the oath to Thompson. Christian was first lieutenant of a machine gun unit commanded by Colonel Thompson in the A. E. F.

Re-election of most state officials makes the change of terms a matter of comparatively little import this year to state departments. Some of the officials began new terms with the New Year; some delayed. Land Commissioner William H. McDonald took over the State Land Office on Dec. 16. He was the only elective state officer changed by the Nov. 3 vote.

## Huge Diamond "Lucky" Stone Has Changed Hands

LONDON—A 19-carat diamond, valued at \$60,000, which is said to be the luckiest stone in the world, has been purchased by a group in England.

Unlike the famous Hope Diamond of ill-omen, the "lucky" diamond is rosy-pink. It is credited with the power of warding off ill-health.

When Azon Barbara of Paris bought it 100 years ago, he was suffering from an apparently incurable disease. Immediately after it came into his possession, his health improved, and during the next 28 years of his life he never had an illness.

Since then it has been handed down from generation to generation, and it has always held the same charm.

A short time ago, the sole survivor of the family sold it.

## Beville Machinist Invents New Burner

BEEVILLE, Texas—C. H. Coffey, Beville machinist, has invented a new type air flow burner, reported to work equally well with gas or oil as fuel. He has applied for and has pending a patent for the device.

The burner requires no motive power, pressure of the gas or oil being utilized to operate a fan which forces the flames into the firebox. Intensity of the heat is controlled by regulation of the fuel pressure, which in turn determines the speed of the fan blades.

Use in oil fields during drilling operations was believed to be the best use of the burner because whatever fuel happens to be at hand may be used.

The inventor said that he had spent over a year in perfecting the burner.

## J. R. Webb Rites Held at Eastland

Funeral services for J. R. Webb, who died Saturday morning at Snyder, were conducted Sunday afternoon at the First Baptist church in Eastland with Rev. J. I. Cartledge, pastor, officiating.

Burial was in Eastland cemetery under direction of Hamner Undertaking company.

Webb, father of Bob Webb of Ranger, formerly lived at Eastland.

## Police Join Hunt for Student

Missing for more than a month, William E. Morse, above, 19-year-old University of Michigan freshman, is the object of a widespread police search. Authorities joined in the hunt after an appeal by the boy's mother, who lives in Joliet, Ill.

## G. M. TOLD NEXT MOVE 'UP TO YOU'

DETROIT, Jan. 11.—Automobile strike leaders told General Motors today, "it's your move."

The \$1,500,000,000 corporation made no immediate reply. Standing firm on its demands that sit-down strikers leave its plants before negotiations begin.

The deadlock kept about 100,000 employees out of work.

PONTIAC, Jan. 11.—Officials of the Pontiac Motor Company, a General Motors subsidiary, said they would close their assembly and shipping divisions tomorrow night because of a shortage of materials. There are 1,800 men affected.

## Eastland Lawyer Dies In Hospital Of Heart Attack

Frank Judkins, 59, Eastland attorney, died Monday morning in St. Joseph's hospital at Fort Worth after a heart attack.

Injuries suffered two weeks ago when he was injured by a "hit and run" driver at Odessa while walking to town after a visit with a brother, Charlie, were believed to have contributed to his death. The automobile accident resulted in dislocation of the lower left arm, and a split elbow.

Funeral arrangements had not been announced, but it was understood burial will be held at Eastland beside the body of his wife.

Judkins had since his removal to Eastland from El Paso in 1917 been identified with many prominent civil and criminal cases. He was Ector county attorney for several terms. Later he moved to El Paso.

Survivors include two daughters, Mrs. Mack W. Ready of Eastland and Miss Mary Pearl Judkins of Yoleta, near El Paso, four brothers and two sisters.

## Worker Hurt As Stone Hits Eye Is Now Improved

Gradual improvement has dispelled a fear of C. D. Rattikin that an accident suffered Jan. 1 would cost him the sight of an eye.

A particle of stone struck his eyeball after he hit a rock with a sledge hammer east of Eastland at a quarry.

## Bills Approved At County Session

Approval of bills for payment constituted the major business of members of county commissioners' court who met Monday morning at Eastland. All members were present.

## BLIZZARD HITS SOUTH TEXAS, NORTH THAWS

South Texas communities fought ice and sleet Monday as North Texas thawed from a blizzard which caused five deaths last week.

As freezing temperatures extended almost to the Gulf, telephone and telegraph companies maintained lines between major Texas cities with difficulty. Many, including Tyler, Bryan and Temple were without communications.

Damage to communication lines was estimated at several million dollars.

Citrus growers relaxed their vigil as the temperature dropped to 28 degrees, six degrees above freezing, and then began to rise.

Freezing weather continued in North Texas until noon Monday.

The temperature reached a minimum of 29 at Dallas, 28 at Abilene and Fort Worth, 26 at Austin and San Antonio, 36 at El Paso and 32 at Amarillo.

Bus and train schedules still were irregular. Telephone calls Sunday night between Houston and Dallas were routed by way of New Orleans, Atlanta, New York and San Francisco and then back to Texas.

## Well Pluggings Are Recorded In Office

Plugging records for the following wells were sent Saturday from the Eastland office of the railroad commission to headquarters at Austin:

Dunigan Tool & Supply Co., No. 1 Williams "B," John Beck survey, section 792, Brown county.

Dunigan Tool & Supply Co., No. 1 J. A. Bearman, E. Brooks survey, section 792, Brown county.

Dunigan Tool & Supply Co., No. 1 Williams "A," John Beck survey, section 792, Brown county.

Dunigan Tool & Supply Co., No. 1 Gay Dabney, John Beck survey, section 792, Brown county.

Dunigan Tool & Supply Co., No. 2 J. A. Bearman, E. Brooks survey, abstract 1197, Brown county.

W. J. Murray No. 7 P. J. Bush, James Kinney survey, Brown county.

Phillips Petroleum Co., No. 1 Mahstedt-Madison, Seth Ingram survey, Brown county.

Texas Pacific Coal & Oil Co., No. 4 Higginbotham trustees, H. & T. C. survey, Eastland county.

Texas Pacific Coal & Oil Co., No. 2 Mahstedt-Madison trustees, H. & T. C. survey, Eastland county.

W. J. Murray No. 2 P. J. Bush, James Kinney survey, Brown county.

Phillips Petroleum Co., No. 1 W. L. Alameda, J. Beck survey, block 792, Brown county.

Dunigan Tool & Supply Co., No. 1 Williams "C," John Beck survey, section 792, Brown county.

## Jury Is Chosen For Civil Suit

Selection of jurors for the case of George H. Walls against Safety Casualty company, an appeal from the Industrial Accident Board, was completed Monday morning in 88th district court.

The jurors are R. L. Jones, S. P. Parks, Oscar Braswell, R. W. Chalker, H. H. Harrelson, Henry Grinder, Ted Bacon, E. R. Finley, H. L. Jackson, M. L. Dulin, J. T. Cavanaugh and Joe Donaway.

The case scheduled for trial Monday in 9th district court, B. T. Anderson against Phillips Petroleum company was passed and jurors dismissed.

## Child Shot by Her Mother May Live

COLUMBIA, Mo., Jan. 11.—Physicians said today that Jeanne Trombly, 9, whose grief-stricken mother shot her and then killed herself because she feared the child was an imbecile, had "a chance to recover."

The child was shot as she slept by Mrs. Mary Trombly, wife of a University of Missouri professor of languages. Mrs. Trombly died of a bullet in her brain.

The coroner said it was "obviously suicide."

**Hilarious Racing Hit "Three Men On A Horse" Coming**

Manager B. E. Garner of the Arcadia theatre has the answer for everyone in town who happens to be in need of a real down-to-earth, guffawing evening of fast and furious fun.

He has booked "Three Men on a Horse," the first National screen version of the Broadway stage play — which is well on its second year in New York and going strong — and has already toured the country in seven road companies. The date for the local opening is tomorrow.

"Three Men on a Horse" is the side-splitting story of Erwin (pronounced Owlin), a meek little writer of greeting card verses — who has the weird gift of picking winners in horse races. He keeps that secret to himself, and as he rides to and fro to work from his home, he jots down in a little book his prognostications and imaginary winnings. His nagging wife finds the book, denounces him as a philanderer, and browbeats him to the point of desperation.

When his boss orders him to produce fifty Mother's Day greeting verses before the noon whistle blows — and drive him to a gin mill to drown his woes in drink. It is there that fate catches up with him.

Three gamblers are talking about horses and Owlin timidly offers a tip. They laugh at him and bet on the favorite, who loses. Seeing that the little man has something — they imprison him and proceed to get rich on his tips on the winners. They phone to his boss that he is sick — and when his wife hears this — she rouses the police and a city-wide search is instituted. Then begins an uproarious complication as ever set an audience chortling.

The cast is headed by Frank McHugh and Joan Blondell.

Carol Hughes plays Owlin's weepy wife. The trio of gamblers are played with loud gusto by Allen Jenkins, Teddy Hart and Sam Levene — the latter two from the Broadway stage production. Guy Kibbee is the greeting card manufacturer who drives Owlin to his doom.

**Edwin George, Jr. to be Removed Home This Week**

Edwin George, Jr., Ranger business man who has been a patient in the West Texas clinic and hospital for several days, will be able to be removed to his home, Tee-Pee camp, this week. He is making a nice recovery from an operation.

**Miss Izetta Woods to Give Book Review at Club Meet**

Miss Izetta Woods, member of the Junior New Era club, will be guest speaker Wednesday afternoon when the New Era club is to meet in the home of the hostess, Mrs. J. D. Johnson, W. Main street, at 3.30 o'clock.

Miss Woods will review "Beyond Sing the Woods." Members are looking forward to this review and a full membership is desired by the president, Mrs. Archie Robinson.

The latter period of the program will be given over to reports from the nominating committee.

**Comings and Goings**

Mr. and Mrs. W. M. Brown of 711 Young street, have as their house guest her mother, Mrs. Margaret Terry, of Winniewood, Oklahoma.

Mr. and Mrs. C. J. Moore were Abilene visitors Sunday afternoon, paying a visit to Mr. Chapman, a representative of Hudson-Terraplane Corp., of Dallas, who is receiving treatment at an Abilene hospital for injuries sustained in an automobile accident on Dec. 15th.

Cards in today's mail from Mrs. Herbert Suits and Mrs. Mickey Sloan report they are having a most delightful visit in Alabama and Tennessee, where they are visiting relatives. Their two weeks' stay will draw to a close during the week-end coming, at which time they are expected home.

**HOME FROM THE NAVY**

Lewis R. Snyder, son of Mr. and Mrs. R. H. Snyder, is home on leave from the navy. Lewis is connected with the Mississippi Unit Aviation Division. It will be remembered that he was a member of turret No. 1 crew on the Mississippi that broke the navy's and world's record for accurate firing of the 14-inch gun. He has now been transferred to the aviation division aboard the same ship.

**Employers Mistaken About Provisions in The Security Act**

SAN ANTONIO — Many employers believe that simply because they employ less than eight persons they are exempt from all provisions of the Social Security Act. This is a mistaken idea, Oscar M. Powell, regional director of the board, declared today.

"All employees under the age of 65 in industry and commerce are covered by the old-age benefits section of the law except those in several types of work specifically named in the act," Powell said.

"Many employers have been confused by the several forms they have been asked to fill out during recent weeks, because these forms have come from several different agencies and have dealt with different subjects," Powell continued.

"First of these was the SS-4, the 'employer's application for identification number,' distributed by the Post Office Department. Its primary purpose was to determine the number of employees in the country who might be eligible for old-age benefit accounts.

"Second form was the SS-5, the 'employee's application for account number,' also distributed by the Post Office Department. On the basis of these applications benefit accounts are being set up and account number cards are being

**Still Coughing?**

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

## Mother of Ranger Man to Be Buried

H. C. Clark, manager of the Ranger Montgomery Ward Store, left Sunday for Kansas City upon receipt of word of the death of his mother, which occurred in that city.

No funeral arrangements had been completed at the time of Clark's departure, but it was assumed that funeral services would be held in Kansas City.

## Loan Association Will Hold Meeting

A stockholders meeting of the First Federal Savings and Loan Association of Ranger will be held at the Paramount Cafe Tuesday morning at 7 o'clock, at which time a breakfast will be served to all stockholders present. It has been announced by A. J. Ratliff, president.

A short business session of the stockholders will follow the breakfast. All stockholders have been urged to be present.

**Travels Cover a Total Mileage of Million and Half**

By United Press

JOHANNESBURG. — J. H. Curle, "world's champion wanderer," whose wanderlust has led him on travels totaling 1,600,000 miles and into every country of the world except Tibet, has returned here to prepare for another journey.

Curle began roaming when he was 14 years old, and he has kept a map of his travels. The tracks criss-cross Europe in a tangled network, plunge into the heart of Asia to Samarkand, and circle the globe in many lines.

He has just returned from a visit to Afghanistan and little-known Nepal, where he penetrated to the fringe of Tibet, the only country he has not entered.

Down through the Malay Archipelago to Sumatra and on to the inaccessible mining areas of New Guinea, where supplies all go in by air, lies one route. Australia he has traveled thoroughly, and the South Sea islands. From the Klondike to the Straits of Magellan he has explored the two Americas. In Africa he has visited Timbuctoo and traveled down the River Congo from its source to the sea.

In his search for material for a book on gold mining, Curle has visited more than 300 gold mines the world over. He has written a series of books containing his philosophical musings upon the people and places he has seen.

He considers Brazil the most beautiful country in the world; India the most romantic; Jerusalem the place and country in which he would settle if he could give up traveling. He first came to Johannesburg years ago as mining editor of a newspaper. He has no intention of settling down yet, and has already planned a journey into the heart of South America.

## Scene From Current Arcadia Hit

## College of Mines Schedule Complete

EL PASO, Tex. — The 1937 football schedule of the Texas College of Mines will include nine games, Mack Saxon, director of athletics has announced.

The new opponents, Greeley State College of Colorado and St. Edwards University of Austin were scheduled for the first time.

The College of Mines finished in second place in the Border Conference behind the University of Arizona. Hardin-Simmons defeated College of Mines in the post-season Sun Bowl game here on New Year's Day.

The 1937 schedule:

Oct. 2 — New Mexico Military Institute at Roswell.

Oct. 9 — West Texas State at El Paso.

Oct. 16 — University of New Mexico at Albuquerque.

Oct. 23 — Sul Ross State Teachers at El Paso.

Oct. 30 — Greeley State at El Paso or Greeley, Colorado.

Nov. 6 — Northern Arizona State at El Paso.

Nov. 11 or 13 — Arizona Teachers of Tempe at Tempe.

Nov. 20 or 27 — New Mexico A. & M. at Las Cruces.

Nov. 20 or 28 — St. Edwards University at El Paso.

## Wants 'Security' in 17-Cent Lump

Lump sum payment of 17 cents under the old age benefit section of the Social Security Act has been asked by Ernest Ackerman, above, for 33 years a Cleveland street car motorman. Ackerman, 65 years old on Jan. 2, had worked only New Year's Day under provisions of the act, but, on his wage of \$4.96, he applied for the 3 1/2 per cent share fixed by the law, amounting to 17 cents. Deduction of the federal 5-cent tax would leave Ackerman a net profit of 12 cents.

Belief that if prizes were offered for killing banded crows, the stamped metal band to serve as proof, men and boys would kill many of the birds in an attempt to secure one bearing a band was expressed by Smothers.

Purpose of the crow-killing campaign would be to give more protection to ducks and quail, whose eggs are eaten by crows. Farmers, whose crops have been ravaged by the birds, would benefit also, Smothers said.

## Crow Shoot Plans For Dallas County Are Being Formed

DALLAS, Texas — Plans for a meeting of sportsmen this month in Dallas to discuss organizing the Dallas Crow Shooters' Association and for a crow-killing campaign were announced recently by Ralph Smothers of the tax collector's office.

If the association is formed, traps will be set to catch crows, a stamped band will be put around

**WE RUN OUR HOUSE ON THE Huddle System!**

Maybe two can live as cheaply as one — on a desert island. But right after we married, Jim and I soon found out that running a house costs money — more, we first thought, than we could manage to scrape together.

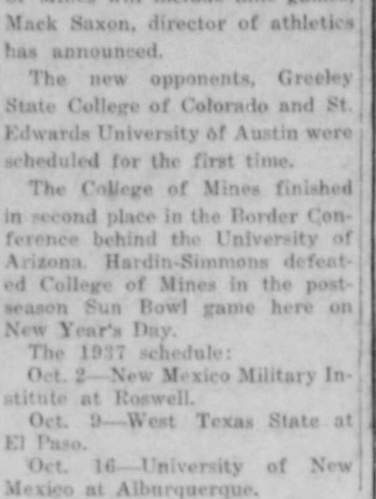

Things are easier now. It took a while for us to learn; but we have the plan down pat. Jim calls it our "huddle system."

There really isn't any trick about it. We have a budget, of course — so much for food, clothes, amusements, luxuries, vacation. But having a budget is one thing. Making it work is another. There's where the system comes in.

Religiously, each day, we read the advertisements in this paper — together. Jim looks for the things he is most interested in — suits, shirts, golf equipment, books, smoking supplies. I look out for myself — shoes, dresses, winter coat, cosmetics. Both of us keep our eyes open for household needs — furniture, draperies, bathroom accessories, linens. Then we go into a "huddle" — report to each other — check over our budget — spend what we can for what we feel we need — and save!

Careful buying, Jim says, is the secret of saving money. But careful reading of advertising, we both agree, comes first!
