### Assembly Of God To Have Film On "The Bowery"

An unusual Rally will be held on Sunday morning, Nov. 3 at the Assembly of God Church, S. E. Second and Belsler at 9:45 o'clock.

A true, dramatic film entitled "Raised From The Dead" will be shown during the rally. This film was produced in actual gang-infested territory and in one of the world's worst skid rows. "The Bowery". See the true story of Santos, a teenager who became an alcoholic at the age of 19; Fernando, a young man from an upright home who became hooked on barbiturates; and Louie, a confirmed drug addict who in his desperation tried to commit suicide. See also, how a mainline drug addict injects Heroin into his veins. Then see how their lives were transformed by the power of Christ.

The guest speaker will be Evangelist Carl King, who has ministered among young gangsters, drug addicts and Beatniks in the crime ridden areas of New York, Chicago and other cities. Rev. King, now 21, began his career as a minister at the age of 16 and continued an active pastoral and evangelistic ministry even while receiving his theological training at Central Bible Inst. and Seminary in Springfield, Missouri. While in college he was chosen student's choice speaker three times, held several positions of leadership and was the director of Springfield's Teen Challenge. Rev. King has also traveled in several states as an Assembly of God Evangelist. Pastor B. C. Elswick extends a cordial invitation to all.

## Pioneer Gas Wins National Driver Safety Award

National honors for outstanding driver safety performance were won by Pioneer Natural Gas Company in the Gas Industry Division of the 32nd National Fleet Safety Contest conducted by the National Safety Council and sponsored by the American Gas Association.

The Pioneer Natural Gas Company fleet, consisting of 464 vehicles, was awarded third place here today in the Gas Industry Division of the contest of ceremonies held in conjunction with the 51st National Safety Congress and Exposition.

The award is based on the company's fleet safety performance from July, 1962 through June, 1963. During the period, the firm's drivers operated 7,521,800 miles and had 8.1 accidents per 1,000,000 vehicle miles of operation.

All accidents were counted in the contest except those occurring when a company vehicle was properly parked. Winners were determined after inspection of their records by an auditor appointed by the National Fleet Safety Contest Committee.

A total of 114 fleets competed in the Gas Industry Division of the Contest. They operated 39,784 ve-

hicles and traveled 480,815,000 vehicle miles with a frequency rate of 12.58 accidents per 1,000,000 vehicle miles. The rate is a 3 per cent reduction below last year's rate.

ENTERED AS SECOND CLASS MATTER IN THE UNITED STATES POST OFFICE IN DIMMITT, CASTRO COUNTY, TEXAS, UNDER THE ACT OF MARCH 3, 1879

A Houston federal court's order wiping out present State congressional district lines and directing all Texas congressmen to run at-large until the legislature redistricts on the basis of population alone is on appeal to the U. S. Supreme Court.

Cooperation also pays on the telephone party line

You may not be kissed for being a good telephone neighbor, but you will be thanked. By using your telephone sharingly—by hanging up your receiver properly—by keeping your calls reasonably brief—you are being a good telephone neighbor. Your thoughtfulness is appreciated—and results in better telephone service for you.

West Texas Telephone Company

Atty. Gen. Waggoner Carr's request for a stay of the Houston judges' decision pending final disposition of the appeal was granted by Supreme Court Justice Hugo Black.

Gov. John Connally conceded that the present line-up is unfair, with districts ranging from 213,000 to 960,000 population. But he argued that it's the responsibility of the legislature, not the federal courts. He felt that the action by the Republican majority on the court was politically planned.

GOP members filed the lawsuit attacking the population imbalance among districts.

The Governor pledged to fight the order to the last legal ditch. He termed it "ridiculous" and unprecedented. Connally stated he would call no special session on redistricting "until all other avenues of action are closed."

His belief was that such a complicated measure could not be worked out in 30 days, especially since there have been no decisions of the U. S. Supreme Court to show what, if any, rules will be placed on Congressional redistricting.

A Georgia case will be argued in November. This may provide guidelines.

Connally believes that once the

filing deadline has passed in February the Supreme Court will not interfere with the 1964 elections. Top ranking Republicans found the Governor's tough words "shocking."

State AFL-CIO President Hank Brown said "complete and total anarchy" is going to be the result of failure to redistrict before the February 3 filing deadline.

The Governor drew blasts of criticism from major cities, which are under-represented in Congress. But there was approval from rural areas. They will lose strength in Congress when the districts are readjusted to be more equal in size, population-wise.

The Water Pollution Control division of the Health Department found that the U. S. Congress had voted \$340,000 more than earlier announced for community sewage treatment plant projects. It is finding funds for several projects in addition to the 38 originally requested.

SLANT-HOLE OIL WELLS—Roy D. Payne, field supervisor for the Railroad Commission, now reports that there are 900 oil wells shut down in the giant East Texas Field, and about 300 of them have been found to be deviated.

TANKS OIL PROBLEMS—Representatives of five independent oil associations have asked Governor Connally to examine the "serious condition" of the Texas crude oil producing business. They pointed out that other States have formed economic study groups for this purpose.

Represented in the talks with Connally were Texas Independent Producers and Royalty Owners Association, Panhandle Producers Association, Permian Basin Petroleum Association and organizations from West Central and North Central Texas.

WATER RECREATION—Governor Connally's committee charged with working out plans for full recreational use of Texas lakes plans to meet the third Monday of each month.

FEEL RICHER?—Texans' incomes were at an all-time high in 1962 at \$20,360,000,000, reports the Department of Commerce. This was 4.4 percent above 1961. It means that 4.6 percent of the dollars earned by all Americans belonged to Texans.

But when the massive figures

are put into averages, Texans fall back. Texas ranks third in population, but sixth in total personal income. New York's \$50,990,000,000 and California's \$49,180,000,000 mean that people in those states have higher average incomes than Texans.

HOSPITAL FUNDS APPROVED—State Board of Health has approved \$11,200,000 in applications for federal Hill-Burton hospital aid funds on 21 projects. Grants usually finance half the construction cost.

Allocations include: Leon County Hospital, Buffalo, \$160,000; Lee Memorial Hospital, Giddings, \$100,000; Community Hospital, Luling, \$295,000; Ruth Memorial Hospital, Yorktown, \$250,000; Sabine Area Home for Older Adults, Carthage, \$225,000. Grants totaling \$1,000,000 or more each were awarded hospitals in Houston, Corpus Christi, Fort Worth and El Paso.

Payne estimated that thousands of barrels of oil from deviated wells is in storage. He said operators are being given the choice of putting it back into the reservoir, or giving it free to the county from which it came for use on roads.

Then it ordered a widespread study of shell and aggregate resources which contribute \$1,500,000 a year of 25 percent of the department's income. It concluded that without this important revenue the Commission, in all probability, would be forced to substantially increase fishing and hunting license fees.

However, the State Water Development Board already has stated it will take recreational potential into account when voting on loans for community water projects.

State Highway Department has just authorized construction of 29 more boat-ramp projects, in addition to the 56 now built or programmed. Each ramp project includes a parking area, access road, incinerator, signs and landscaping.

Latest on the list of lake builders is Brady, Texas. It will lose an old mall and school-bus route just west of town when recently-completed Brady Lake is filled.

Increased requests to the State Highway Commission for "farm-to-market-type" roads, connecting towns with reservoirs, caused Highway Chairman Herb Petry Mr. of Carrizo Springs to jokingly suggest a new road classification, "Fish-to-Market roads."

Latest on the list of lake builders is Brady, Texas. It will lose an old mall and school-bus route just west of town when recently-completed Brady Lake is filled. The town wants \$200,000 to build a new road around the lake and over the dam.

SHORTEST SNORTS—Governor Connally appointed Gene Lehmann of Kerrville to the Upper Guadalupe River Authority; John Thompson of Beaumont to the Governor's Statewide Water Recreation Study Committee; Donald G. Austin of Chappell Hill and Charles A. Guy of Lubbock to the Texas Commission on Alcoholism.

This past week Governor Connally dedicated the new Owens-Corning Fiberglass Corporation plant in Waxahatchie; visited Boys Ranch at Old Tascosa; dedicated a historical marker at Panhandle on the Carson County Court House lawn; spoke at a dinner honoring him in Amarillo and at a Lubbock Cham-

### Swifts Clobber Bula 22-8

Nazareth Swifts found big holes in the Bula defense Friday night as they plowed through for three touchdowns and one safety to win a coveted 22-8 victory. This is the second district win for the Swifts. They are potential district champions as they have defeated two of the toughest teams in their district, one being last year's district winner.

Quarterback Marvin Hoelting threw a 15 yard touchdown pass to Lester Schulte for the second Swift TD. Gerber ran the conversion points on a plunge up the middle.

Third quarter play found both teams on the defensive once again. Lester Schulte tackled Curtis Archer of Bula in the end zone for a two-point safety.

Marvin Hoelting made the third and final TD for the Swifts on a one yard quarterback plunge. Extra point failed.

Season record for the Swifts is 4-2-1. District record for the Swifts is 2-0. They are first in district.

Outstanding defensive players for the Swifts Friday night were Lester Schulte, Tommy Wethington and Jimmy Hoelting.

# PLOW-DOWN NOW FOR MORE PROFIT NEXT YEAR

A logical way to increase profit is to increase yield without increasing the cost of the crop. You can increase yield by 10% and profit by 15% just by using fertilizer more efficiently. You will get increased efficiency if you apply anhydrous ammonia now instead of waiting until Spring... giving the nitrogen a chance to aid in the decomposition of stubble.

As a farmer, you realize the value of your stubble. But, in order to do the most good for next year's crop, this stubble must be completely decomposed. The soil bacteria that do the work in this decomposition process must have nitrogen... more nitrogen than is naturally available in most crop land. That's why it is wise to apply anhydrous ammonia to your soil now. Nitrogen immediately starts to work, helping to decompose the turned under stubble, and release the important plant foods contained in it. Then, when you plant in the Spring, all the nitrogen you put down now, plus the nutrients it has helped release, will be waiting to feed your crop right from germination.

By providing the necessary plant food right from the start, a plow down application can increase your yield by 10% or more. Since the extra yield does not add to the cost of the crop, it can mean a 15% higher profit.

So, plow nitrogen down now! Your best source of nitrogen, in its most efficient, usable form is anhydrous ammonia. Shamrock's Nitromite is a fine brand of anhydrous ammonia.

THE BALANCE OF PAYMENTS PROBLEM

The nagging balance-of-payments deficit plays a continuing major role in influencing United States policy decisions.

United States exports exceed imports by a wide margin. But this trade advantage is more than offset by other factors.

The major drain on our dollars has come in recent years from an outflow of private capital.

THE BIBLE TEACHES...

... us to recognize ourselves for what we are. One cannot be more like Christ unless he sees how different he now is.

We need to see our strong points and our weak points. Each one is told, in Romans 12:3, "not to think of himself more highly than he ought to think."

Properly, I believe, our government has consistently refrained from taking the drastic step of instituting exchange controls.

A legislative proposal before the Congress, the so-called "interest equalization tax," would raise the cost of foreign long-term borrowings.

Our government has tied most foreign aid purchases to the United States. Instead of money, the foreign aid program has in recent years called for assisting underdeveloped nations by giving them American-made goods.

One of the objectives of tax cut legislation, which has passed the House and is pending in the Senate, is to stimulate the investment of capital in American business.
