

JAPAN PLANS ACTION AS NEW ARMY APPEARS

By United Press

TOKYO, Japan, Jan. 17.—Although Japan will sever diplomatic relations with nationalist China, she intends to maintain a diplomatic mission in Shanghai to deal with foreign powers, it was reported today.

The move was interpreted as a step to fulfill the promise made by Japan that foreign interests will be protected.

Army and navy authorities meanwhile started a campaign of "spiritual mobilization" to arouse the entire nation. Comment indicated Japan had made her last gesture to the present Chinese government and from now on would seek only to crush it.

A foreign office spokesman said that "Chinese authorities residing in Japan" might soon "desire to leave."

Justice Cardozo, Ill, Is Famed as Greatest Law Scholar of Time

Grave fears were expressed by physicians for the life of Associate Justice of the Supreme Court Benjamin N. Cardozo, 67, pictured above in the robes of the highest bench, as he lay critically ill in his Washington apartment with a heart ailment. Acclaimed by both his liberal associates and conservative opponents as the greatest legal scholar of his time, the small, thin, bachelor justice, with eager, piercing eyes and a great shock of white hair, has devoted his entire life to law. Born of Jewish parents in New York City, an honor student at Columbia, he was elected to the New York Supreme Court in 1913, named to the court to appeals, and in 1926 became chief justice. He refused President Coolidge's invitation to become a member of the International Permanent Court of Arbitration at The Hague, and has had innumerable honors, culminating in his appointment by President Hoover to the Supreme Court in 1932. On the highest bench, his decisions have been characterized by a conviction that the law must take the form and pressure of the time. Notable were his two majority opinions, delivered last May upholding the social security act in full.

Russia Planning A Sterner Policy With the Japanese

By United Press

MOSCOW, Jan. 17.—A sterner policy against Japanese and Manchukuo "boogymen" against Soviet Russia was demanded today by Andrei Zhdanov, as the supreme Soviet resumed sessions.

Dean Fast's Year in Test of Soul

Believing he can "give up all material life and not die" because the soul is above such needs, Dean H. Fast, above, of St. Mary's Episcopal Cathedral at Memphis, Tenn., has undertaken a fast to prove his belief. Friends said that Dean Fast went on an orange juice diet more than a year ago, and that on Jan. 2, 1938, he gave up even orange juice and up to 12 days later, at least, had taken no food or water except a tiny communion wafer and a sip of wine three times weekly. The friends add that Dean Fast was thin and drawn, and "looked bad."

SHUTDOWN ON SUNDAY URGED FOR ALL FIELDS

By United Press

AUSTIN, Jan. 17.—An offer of Texas to lead the nation in Sunday shutdown for all oil fields was forecast today at a hearing of the Texas Railroad Commission.

The Oil States Company commission meets tomorrow in Oklahoma City. Col. Ernest Thompson, chairman of the commission, announced that Sunday shutdowns will be discussed at Oklahoma City.

Factors that indicated Texas will recommend such a shutdown were:

1. Chief Engineer V. E. Coughlin renewed a recommendation that all Texas fields be shut down for four Sundays.
2. By telegram the Tyler Chamber of Commerce made a similar request.
3. The U. S. Bureau of Mines estimated February demands for Texas oil at less than current production.
4. Texas' new oil order will be deferred until after the Oklahoma City meeting. The U. S. Bureau of Mines estimates of February demands in Texas was 1,365,700 barrels, which is 40,000 barrels a day less than current production.

Sergeant Myers of Highway Patrol to Speak at Assembly

Country Needs Some Work From Congress

The retirement of Associate Justice Sutherland would seem to end the Supreme Court reorganization controversy once and for all.

Partisan considerations regarding the merits or demerits of the conservative and liberal views of the court factions should not prevent the nation from heaving a sigh of thankfulness.

Die-hard reactionaries undoubtedly are bemoaning the fact that the Sutherland retirement, coupled with that of Justice Van Devanter, leaves the high tribunal with only two staunch conservative justices.

Liberals are shouting hosannas, of course, knowing that President Roosevelt now may appoint a justice whose views are more in line with the principles which he espouses.

But to the mass of American people, the fact that the court fight is over is really more important than the outcome—if it can be said that there has been an outcome.

Presumably President Roosevelt now will be content to let the court enlargement plan go by the boards, and that will be a major relief to those who feared that he might bring the matter before Congress again at the current session.

Congress wasted almost all its regular session last year in arguing and bickering over the court plan. Virtually every piece of major legislation was stalemated or sidetracked because members of the House and Senate were so intent on the court fight that they couldn't take time to act on constructive legislation.

Even the President's own legislative program went by the boards in the quarrel over his judicial reorganization plan, and the controversy carried over into the special session to such an extent that nothing was accomplished.

The nation will beglad to know that the court proposal, as an issue, no longer will hang around congressmen's necks like The Old Man of the Sea, preventing them from serious consideration of more immediately pressing matters.

The country needs new tax legislation and farm legislation. It needs a Congress which will buckle down to the job of formulating a government labor policy which will ease this constant employer-employee bickering and this internecine labor warfare. It needs an intelligent approach to such matters as monopoly and anti-trust legislation, the armament and defense situation, and foreign affairs.

With the Supreme Court fight out of the way, it is to be hoped the nation will get some of the things it needs.

Wildest Livestock Is Being Secured For Fat Stock Show

FORT WORTH—From Mexico, the mountain range of the West and the coastal plains of Texas will be assembled the wildest of the rodeo livestock for the forty-second annual Southwestern Exposition and Fat Stock Show, which will be held in Fort Worth, March 11 to 20.

Manager John B. Davis, believing that the success of the rodeo depends largely upon the animals, has gone to extra pains to gather in sturdy calves, steers and vicious broncos. Many of them have never been ridden or conquered by man. Seventy head of bulldozing steers have been brought from Mexico.

Thrills and spills were promised when the cowboys vie with the rodeo stock this year.

Verne Elliott of Johnstown, Colo., and Eddie McCarthy of Chugwater, Wyo., have contracted to bring 120 bucking horses to the rodeo. In the lot will be new horses with outlaw reputations to make. The chutes also will be opened for many of the old favorites—bad horses that have caused contestants to suffer nightmares in past years.

The rodeo prize list of approximately \$10,000, in addition to entrance fees for various events, have been mailed out to contestants throughout the United States.

Texas Smallpox Epidemics Can Be Stopped by People

AUSTIN—Texas is faced with the probability of local smallpox epidemics if precautions are not immediately employed, declared Dr. Geo. W. Cox, State Health Officer. "Last year there was not a single death from smallpox in Texas, while last week over thirty cases and two deaths were reported.

"Smallpox epidemics would never occur if everyone, and especially children, could be effectively vaccinated. The lack of vaccination causes the present menace of this disease. Modern safeguards have removed every legitimate objection to vaccination. The virus is made from calves and, consequently, is incapable of transmitting human blood diseases.

"A primary vaccination with one successful revaccination will, as a rule, protect throughout life from the milder forms of smallpox, but this is not true in the severer types of this disease. Therefore, be vaccinated and re-vaccinated at least every seven years, so that you will have the greatest protection possible and the least chance of being sick. Revaccination should also be done after each time you have been near a known case of smallpox, for you know that the old vaccination protects if the new one fails to 'take.' Vaccination is not to be feared, but rather to be sought as the only safe, positively harmless and absolutely certain safeguard against smallpox. See your family physicians today and be sure that you are protected."

Flood Is Blamed For Company Loss

By United Press

PUEBLO, Colo.—The mystery of a \$2.35 shortage in the accounts of a creamery here which appeared in May, 1915, has been cleared up, but the shortage will continue to exist.

When the lock on the strong box in the safe at the creamery needed repairs it was necessary to remove the box from the safe. A

faded check for \$2.35 dated May 15, 1915, was found stuck to the top of the little iron box.

The check apparently had slipped through a small slit at the top of the box where it lay from 1915 to June of 1921, when the flood came and the safe was under water. The water covered the check and left it stuck fast to the metal when it dried. The check is faded, but plainly visible.

To cash the check, it would be necessary to take the strong box to the bank.

Four Reasons For Recession

By United Press

IOWA CITY, Ia.—Business day is less stable than it was a century ago because of its increasing complexity, despite its increased productivity, according to Prof. George B. Davis of the University of Iowa bureau of business research.

He cites four causes for instability:

1. Development of central labor markets. When business is very active, the bidding for labor may raise wages to a point which encroaches upon profits.
2. The modern system of banks' banking. The separation of Federal reserve institutions multiplies this source of instability with "control" placed in the hands of persons inflexible in judgment and action.
3. The so-called "principle of acceleration." This causes economic over-expansion in certain industries, with resulting general loss of confidence.
4. The "multiplier" principle, which states that, when business is active, a marked decline in ratio of income to investment increases less rapidly than production.

Richest Girl in the World

CONSTANCE CORBY - heroine who lives in the world's richest girl in the world.

CHAPTER XI

"YOU should know better than that," Bret sneered. "I know you're not a thief, Miss Blyn. I know I had no right. It's just..." Her voice faltered, she turned her head; she could not go on.

From the big oak bureau Constance took the emerald brooch, the ring, the exquisite gleaming pearls. "They were my mother's," she told Eloise, for that was true. "She left them to me. I want you to have these pearls."

claimed he had no time for romance! Constance chided gayly. "You're the lady who predicted I'd learn!" he reminded.

UPSTAIRS at the door of her room Constance encountered Eloise. Her pale face was streaked; her eyes red and swollen. "I wanted to tell you I'm sorry," she murmured. "I didn't mean to say the things I did. I know you're not a thief, Miss Blyn. I know I had no right. It's just..."

Constance put her arms around her, drew her close. "I understand," she told this girl whose defeat was her triumph, who had given her heart into the same man's keeping. "Better than you think I do. Come in a moment, Eloise, please."

"Oh, but I couldn't accept them!" Eloise staid at her mirrored reflection. The pearls did indeed become her. Why! she could look like a princess, too, had she had the fine raiment. Never in her life had she looked like this, hoped to own anything so beautiful.

"If you want me to be, really and truly..."

"REALLY and truly!" Constance said; she crossed her heart, in childhood fashion, to prove her sincerity, to seal the vow between them. Then she laughed gayly. "But we must not be so solemn about it! I've never had a little sister in my life, or a real girl friend. That is 'really and truly' too, believe me! This has made me very happy, Eloise. And if it's done the same for you, take your pearls and put them away and keep them to remember me by, always."

"You sound as though you're going away forever!" Eloise said. Her eyes were big and wide; but her face no longer was so pale, a smile hovered around her quivering lips. "Just when we've become friends, too?"

"I'll never let you!" he warned her. He put his arm through hers; together they went out into the soft, starlit night; together climbed the hill. Oh, she thought, let me have this little while, this one sweet night, at least. Almost, it was a sort of prayer. So fearful was Constance that such happiness, such throbbing joy, could not be lasting.

Sport Glances. By Grayson

NEW YORK—Nathan Mann always reminds me of Arthur Dutch Schultz Fliegenheimer, because once it was feared that the gunman who rubbed out that particular public enemy also ended the pugilistic career of the young man who fights Joe Louis, Feb. 23.

MANN was the first volunteer, and it just so happened that his blood was the only satisfactory type that could be found. So Mann went all the way.

MANN was a middleweight when he joined the ranks of the money fighters four years ago, but soon developed into a light-heavy, and just blossomed into a full-fledged heavy when Krompfer picked him up shortly before the shooting.

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER NEA Service Staff Correspondent

WASHINGTON—Roosevelt fully approved of the fire-eating speeches by Assistant Attorney General Robert H. Jackson and Secretary of the interior Ickes, which livened the holidays and stirred the ire of Democratic and other conservatives.

The second fact is plainly visible to anyone who lays the Jackson-Ickes speeches side by side with the presidential message. It may seem surprising that the President and his friends should seek to cover up or blur these very essential facts and that the President, if he fully agrees with Jackson and Ickes as to monopolies, concentrated economic power and "strikes of capital" against the administration, should choose much softer words and fail to show similar belligerence.

LET'S KNOW TEXAS - TEXANS

This column answers will be given to you in Texas history and other facts pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What was Austin doing during the stirring days of the Turbide administration in Mexico?

A. Following his arrival in Mexico City on April 28, 1822, Austin was carefully studying the Mexican language and politics, getting acquainted with members of the congress and the junta, courting the favor of Turbide and other authorities, talking over his colonization plans with any who would listen, carefully reframing his petition and finally securing its approval by Congress and the executive signature in April, 1823.

Q. What followed Spanish rejection to Turbide's proposal?

A. On May 18, 1822, Turbide was elected, and assumed the title of Constitutional Emperor of the Mexican Nation and Grand Master of the Imperial Order of Guadalupe. He began ruling with an iron hand, soon dissolved the congress, set up a junta, recalled congress under revolutionary pressure, and abdicated February 29, 1823, when no longer able to suppress the republican insurrection initiated by Santa Anna.

The basketball game between Ranger Junior College and Hillsboro Junior College, scheduled for last Friday night, will be played tonight at the Recreation Building, it was announced today by W. T. Walton, president of the Ranger Junior College.

The postponement was necessitated, Walton stated, because of a mixup in the schedule. The game will start promptly at 7 o'clock. Walton has received a telegram from L. W. Hartsfield, president of the Hillsboro Junior College, stating that the team will be here tonight in time for the game.

Youngsters Not Hunting Marriage; Just Feared Parent's Wrath

Just a schoolgirl is smiling Edwina Keyser, 13, pictured above feeding a pet fawn, but it was feared that her love for Lowell Mast, 14, had prompted her to take her father's car and elope, seeking a state where they could be married. When found by police she explained that the pair had no intentions of marrying, but that she fled because she feared her father's anger when he found she had smashed up his new automobile.

Ranger High School News

Announcement
Everyone is cordially invited to the high school chapel Tuesday, Jan. 18, at 11:30, to hear the state patrolman, Mr. Myers of Abilene, talk on safe driving. This program is sponsored by the Safe Drivers club of our own high school.

Recommended to have a chapel program where Mr. Tulloch finishes his discussion of the fourth dimension. It's really very interesting. Please finish that discussion, Mr. Tulloch.

Music Club
On Wednesday the Music club had its first in a series of programs devoted to the lives and works of famous composers. The club plans to have from time to time other programs of similar nature.

First on the program was Lewis Hughes, who spoke on the life of Johann Sebastian Bach.

Herchel Eyley talked on Ludwig van Beethoven and his works.

The program was concluded with the life of Frederic Francois Chopin, told by Glenn Rex.

Dramatic Club
Miss Black was in charge of the Dramatic club program this week. Two impromptu debates on: "Resolved that a man should remove his hat before entering a public building" and "Resolved that the textbooks should have more pictures in them and less reading."

Claudine Jarvis, Jo Belknap and Bertha Mae Polan were on the negative side on the debate about men removing their hats, and Vera Bryan, Dan Milmo and Hazel Fondren spoke on the affirmative.

Emma Lee Cole, Edna Rogers, and Noble Robertson were on the affirmative side on the debate on textbooks, and Noma Dilworth, Adeline Hill and Polly Seymour were on the negative.

Tennis
On last Wednesday the Tennis club went to the gym and Mr. Wilson showed us how to grip the racket and how to stand when using the backhand or forehand stroke. Then he asked each member to demonstrate how to grip his racket.

Safe Drivers Club
Plans have been made concerning the program we are to have in chapel Tuesday. The club has made arrangements with Mr. Myers, but we had to discuss methods of advertising it so those interested might come. That didn't take much time so the rest of the time we just played "Hang the Thief." It's a pretty good game for those who can read, think, write and draw.

That is all, but next time I'll tell you what Mr. Myers from the State Highway Department said.

Home Ec Club
The Future Homemakers met Wednesday, Jan. 12, in the study hall. A report of the club was made by Miss Spinks. Committees for the district meeting, which is to be held in Ranger in February were appointed by the president.

Spanish Club
The members of the Spanish club read a Spanish current event in response to the roll call.

A Spanish game was then played, using words ending in "bre." Three Spanish stories were told by different members of the club.

Library Club
The Library club met Wednesday, Jan. 12. A talk was made on vacations for women by Annie Marie Hill. The remainder of the time was spent in studying "author numbers." Miss Murray explained the cutter table for author numbers and exhibited several books to demonstrate how those were used on the backs of books in libraries. Each pupil then examined the table and found the numbers that would be used for his name if he were the author of a book.

The senior rings have come and are now being proudly worn by them. I haven't yet learned whether a certain Junior girl has succeeded in wearing a certain Senior boy's ring. Some people are real vandals. The Juniors have ordered their pins and wristlets, which should be here in about four weeks.

The band gave a splendid concert in chapel Tuesday. Mr. Tulloch said that the average person thought of the band as being able to play only swing music, but he is now teaching classical and symphonic music, which was beautifully played and enthusiastically received by the student body.

Mrs. Homer Smith from Hodges Oak Park School, presented her Grammar school orchestra Thursday.

The orchestra was assisted by the Girls Sextet which sang popular songs, winning great applause from the song, "How Many Rhymes Can You Get."

Dramatic Club Meet Has Been Postponed
Mrs. Hal Hunter, sponsor of the Ranger Junior College Dramatic Club, has announced that the regular meeting of the club, scheduled for Wednesday night of this week, had been postponed until Wednesday night, Jan. 26.

Parents' Lives Are Basis for a Play

By United Press

NEW ORLEANS. — Versatile Walter Armitage, English playwright, stage and screen star, and now director of the New Orleans Federal Theatre, displayed most of his talents in the world premiere of "African Vineyard," his own play, in which he also was director and actor.

Armitage, born in Johannesburg, South Africa, and schooled in Normandy and England, worked with British films a number of years before going to New York to act. In New York came the offer to direct for government project theatres.

"That's my weakness," he said. "Directing, I mean. I like that much better than anything connected with the stage, unless it is writing."

"African Vineyard" is the story of the intimate lives of his own father and mother. Many of the details, and often whole passages of its script, are based on actual happenings and words of his parents.

"Rather cruel," his mother once called it, he said. And "perhaps a trifle unfair, but a good likeness," is the way his father described it.

The play was inspired, he said, by his collaborator, Gladys Unger, with whom he wrote "The Sultan Complex."

A special trick of Armitage's direction is his system of using double-curtain methods of changing scenery, so that there is no wait between scenes or acts.

TOMBSTONE, Ariz. — Bodies of undiscovered gold day again may put historic Tombstone among gold producing centers of the world, the Bureau of mines says.

An exhaustive survey by Eldred Wilson, geologist, mines body, and Dr. E. S. head of the University of geology department, has stored the "ghost town" to a new level.

The mining town, almost abandoned now, produced more than 600,000 in mineral wealth between 1879 and 1937.

HENDERSON, N. C., Jan. 17.—Deputy Sheriff J. M. Mitchell said today that Clarence Fairbanks, 19-year-old Baltimore youth, had confessed to the hatchet slaying of Steve Good, 45, traveling showman of Carson, Texas.

Good was found hacked to death last night near the van in which he transported his road show. His wife, also beaten and slashed, was unconscious in a hospital and was near death. A sum of between \$300 and \$400 was missing.

The Japanese claim the Panay bombing incident is "ended." It is—for the Panay.

The postponement was made, Mrs. Hunter stated, because many of the members were studying for final examinations.

Relief Client Pays Dole Back In Full

By United Press

LARAMIE, Wyo.—In what since has been characterized the "spirit of the old West," Charles H. Trahan, 70, walked into the Albany county welfare office and paid back in full the relief money he had been given.

"I owe this money and I want to pay it back," he told county welfare officers.

He laid \$350 on the table—the aggregate amount he had received in small monthly allowances during a year and a half.

Trahan recently sold a ranch for \$3,500. His first act afterward was to pay back the relief money "so I can hold up my head again."

"I'm glad to get this relief business off my mind," the aged man said as he stalked out of the office.

"7. Fix a tax, for the duration of the emergency, of 95 per cent of all income above the previous three-year average, with proper adjustments for capital expenditures for war purposes by existing or new industries.

"8. Fix a penalty of \$100,000, or one year in jail, or both in the discretion of the court, for violations.

"9. Give the President power to create agencies, boards and commissions, and employ necessary personnel to carry the purposes of the Act into effect.

"The bill in the House was reported without the man-power-drafting section and with the tax feature changed to permit Congress to fix a taxing program after declaration of war."
