### Children picket welfare office

By TERRI LOUDDER

Jesus Moya of the Texas Farm Workers Union led a group of children in a protest march Friday while their parents, who Moya said are all on food stamps, watched.

The protest was held from 2 to 5 in front of the Texas Dept. of Human Resources building at 210 SE Third St.

Moya, who led pickets last summer against the Castro County Housing Authority, local vegetable growers and processors, said the purpose of Friday's march was to protest "discriminatory practices" by the TDHR against migrant farm workers. Moya charged that Jean Chunn and Debbie White of the TDHR had been shouting obscenities at food stamp applicants and humiliating them.

"Food stamps are paid out of our tax money," Moya said. "Why should we go through all this humiliation when we're getting what is ours."

Moya complained that the TDHR workers were asking applicants "too many questions" and were denying them emergency food stamps.

Chunn said part of Moya's complaint was due to the fact that the TDHR must proceed according to federal regulations. She said the TDHR is a federal program and has to follow strict guidelines.

Emergency food stamps, or expedited services, Chunn explained, are available only if the applicant has no income and does not anticipate any income within the next 10 days.

Chunn also explained that workers on food stamps in other parts of the state may obtain a "continuation of certification" form from the office in their county to bring with them when they come here to work. With a continuation of certification, they can get their food stamps here within three days, she said.

Chunn said few of the workers take advantage of this service. Moya claimed that he had "about 30" complaints against White and Chunn on file at the Texas Farm Workers Union office in Hereford though Chunn said the TDHR office had received no complaints.

In addition to the complaints about the TDHR, Moya had the marching [See CHILDREN, Page 15]

### Six from NHS get Lone Star Farmer awards

The Nazareth FFA had six winners of Lone Star Farmer Awards at the 53rd annual FFA State Convention in Dallas last week.

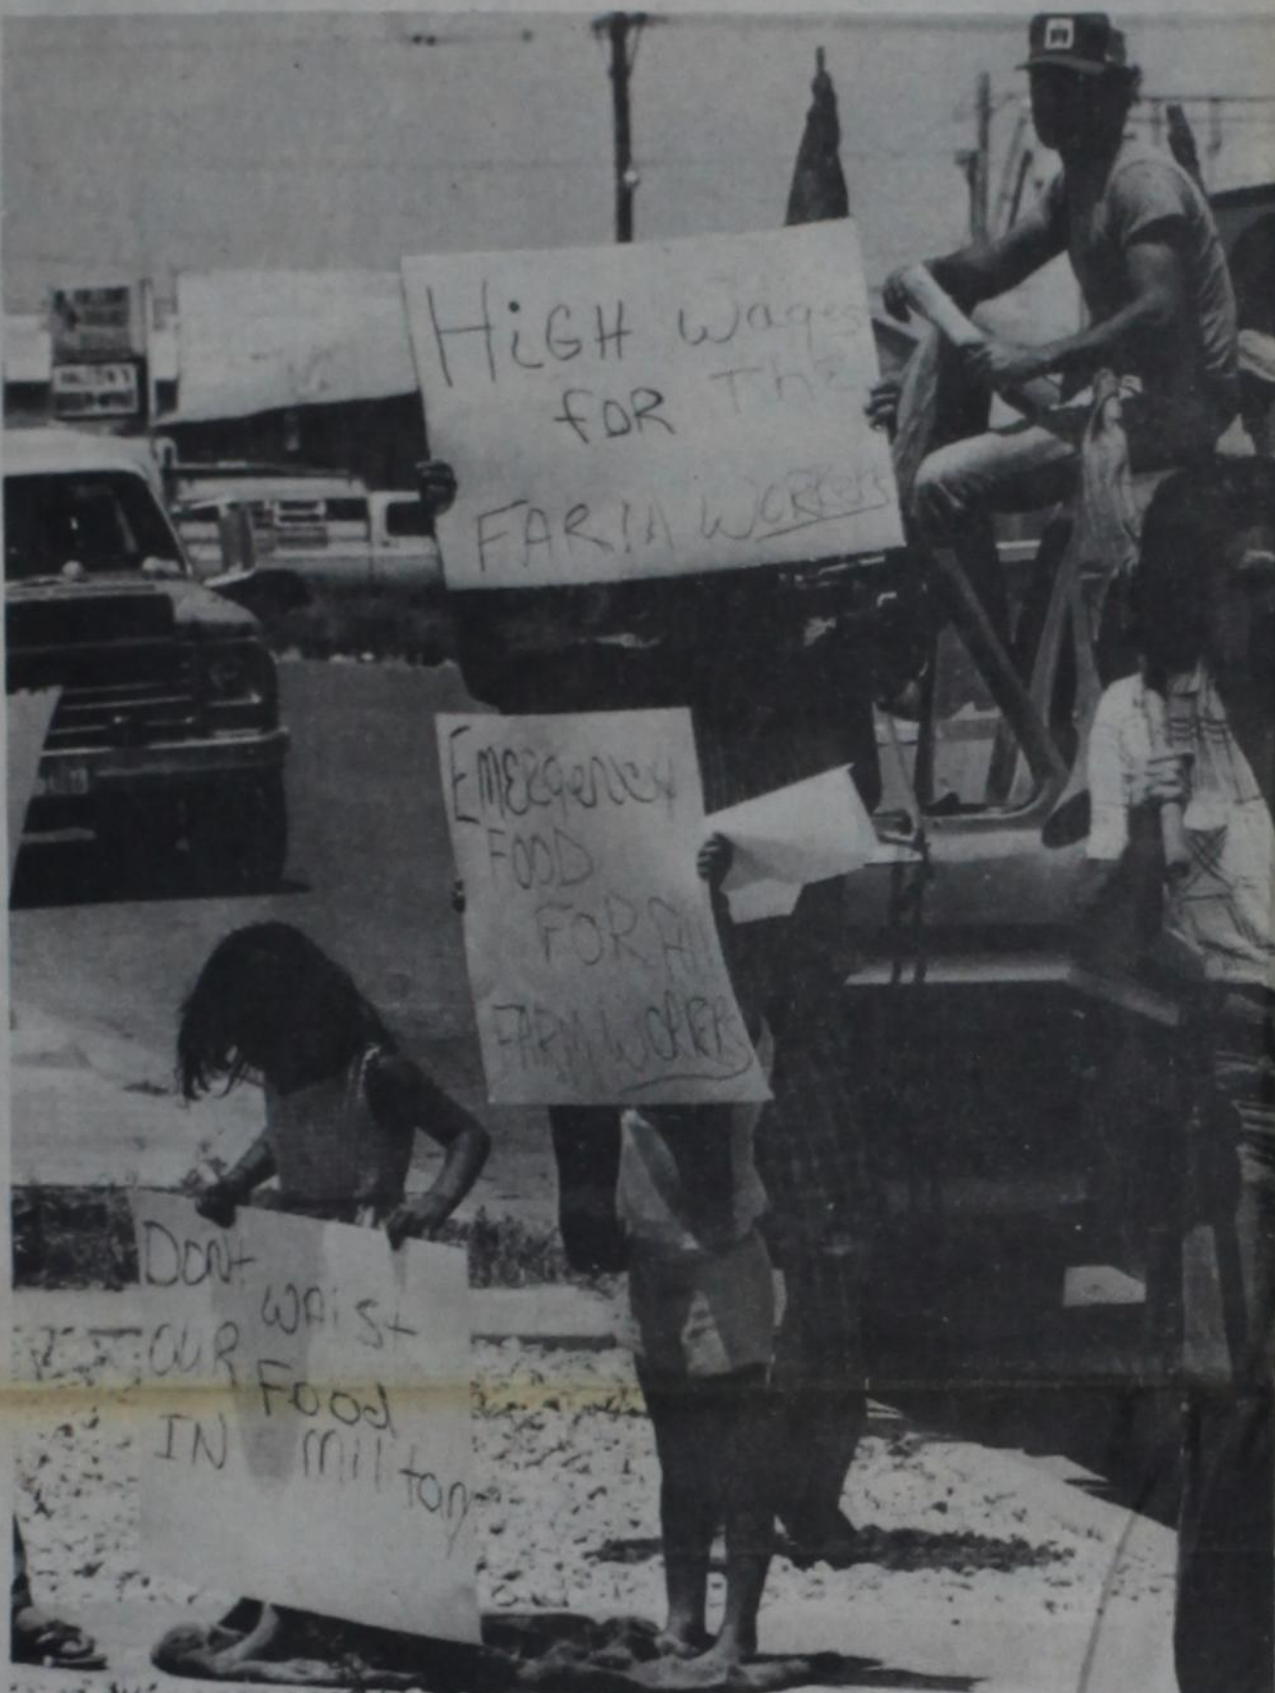

Dale Hoelting, Lester Backus, Pierce Brockman, Perry Brockman, Gerry Kleman and Kent Hoelting were the winners.

Rodney Kleman received a \$6,000 scholarship and Michael Kern was the state winner in agricultural electrification.

The voting delegates at the convention were Joe Kleman and Joel Birkenfeld. David Bowns went as the chapter adviser.

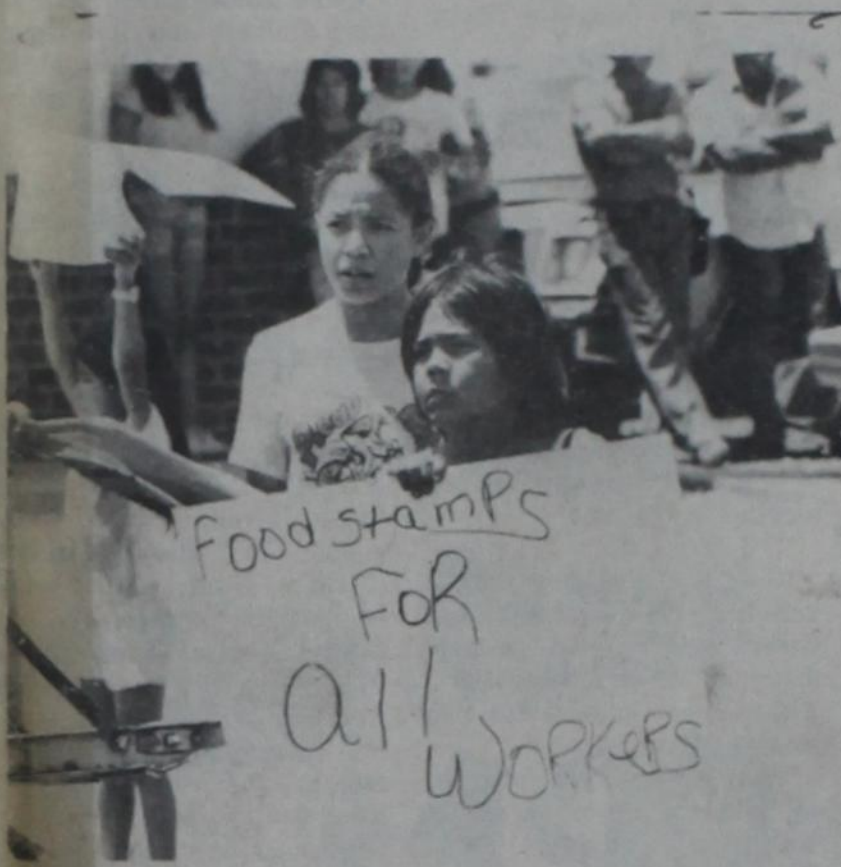

Other members attending the convention were Thomas Braddock, Rafe Albracht, Steve Albracht, Richard Steffens, George Hochstein, Phillip Birkenfeld, Francis Kern and Doyle Schulte.

The Nazareth sponsors were Mr. and Mrs. Walter Kerr. The Nazareth FFA received a superior rating at the convention.

**WHY DO THEY MARCH?**—Jesus Moya [right] of the Texas Farm Workers Union claimed that Friday's protest march at the Dept. of Human Resources office was due to unfair practices in the issuance of food

stamps, but marchers carried signs listing a number of complaints, ranging from wages to federal military spending. The picketers Friday were all children.

**PROTEST**—Children of farm workers flash posters at passers-by while their parents watch from the sidelines at the march in front of the Department of Human Resources Friday. The march was led by Jesus Moya of the Farm Workers Union.

**THE WORKERS INSIDE**—Moya charged that Jean Chunn [left] and Debbie White of the Dept. of Human Resources office harassed food-stamp applicants and denied them emergency food stamps. The women said those denied didn't have authorization papers.

### Cucumber quality 'good' City will ask county to help on 'jaws' van

Harvest of the first crop of cucumbers is well underway, according to Lee Kimball of Western Vegetables, with two million pounds having been processed so far.

Kimball said Western expects between 10 and 12 million pounds to be harvested. The company has 800 acres contracted to cucumbers, and lost 35 acres to hail in May.

Crop yields and quality are good, according to Kimball, who added that Western has "good hands" in the field. He estimated yields between 16,000 and 18,000 pounds per acre.

Kimball said the Dimmitt plant can process as much as 38,000 pounds of cucumbers per hour. The local plant is sending three to four truck-

loads of fresh cucumbers daily to the home plant in LaJunta, Colo.

Western Vegetables has 100 brine tanks here for processing.

### Rawls fund is started

A fund has been started at the First State Bank of Dimmitt to help pay the medical expenses for Scott Rawls, 18, who was injured in a motorcycle accident July 4. Donations may be made to the Scott Rawls Fund at the bank.

Also, a youth group is trying to organize a benefit dance to help boost the fund.

Rawls was reported in satisfactory condition Wednesday morning at St. Anthony's Hospital in Amarillo. He has been moved from the intensive care unit, has regained consciousness and is showing steady improvement, a hospital spokesperson said.

### City will ask county to help on 'jaws' van

The Dimmitt Board of Aldermen will ask the County Commissioners' Court to go halves on the cost of a van to carry the fire department's new "jaws of life" rescue-tool system.

The Dimmitt Volunteer Fire Dept. requested through Alderman Fred Annen that the city provide a van in which to carry the bulky tool system, which was purchased with money raised in a public fund drive.

The hydraulic tool system could be better protected, dispatched and utilized if kept in a separate vehicle, aldermen agreed. They suggested at their Monday night meeting that the fire department include the cost of a van in its budget request for the next fiscal year.

At the same time, it was

### Police issue warrant in stabbing case

Vickie Davila, T. D. Davila Sr. and San Juana Face were transferred from Plains Memorial Hospital by ambulance to a hospital in Amarillo, where they were treated for lacerations.

Face received multiple lacerations, with the other two sustaining less serious injuries. No arrests have been made at this time.

**READ 'EM AND WEEP**—A new feature of the annual Hart Days celebration this year is the "Texas Hold 'Em" Poker Tournament starting at 7:30 p.m. Saturday in the community room of Farmers State Bank. The

competition is sponsored by Beta Sigma Phi sorority. Players can learn how their poker prowess stacks up against others' without losing their shirts — they'll compete for trophies.

The county's biggest shindig of the year kicks off today with the opening of the 1981 Hart Days celebration.

The three-day celebration includes a beauty pageant, carnival, parade, public reception, merchants' drawings, beard-growing contest, fiddlers' contest, arts and crafts show, game booths, food booths, and a new event this year, a "Texas Hold 'Em" poker tournament.

Theme of this year's celebration is "Farming — Yesterday, Today and Tomorrow."

A new Little Miss Hart and Miss Hart will be named tonight (Thursday) in the annual pageant which marks the beginning of the 1981 Hart Days.

At 5 p.m. all contestants will meet at the home of Mr. and Mrs. Bill Rich at 408 Ave. G. Little Miss Hart contestants will have dinner and be interviewed while Miss Hart contestants will dine and interview with the judges at 6 p.m.

The pageant will begin at 8 p.m. in the elementary school gym. Admission will be \$1 for adults and 50 cents for children, with all proceeds going to the Hart High School senior class.

Contestants will be judged on the basis of accumulated points in the categories of poise, grooming, personality and taste in appropriate apparel.

The carnival will also begin tonight (Thursday) and continue Friday and Saturday nights. It will feature the Lions' Burger Booth, the Latin American Organization Taco and Tamale Stand, an ice cream booth and game booths. The midway will be set up across from Farmers State Bank, behind West Texas Gas Co.

The Hart Days Parade will begin Saturday at 10 a.m. Parade entrants should meet at the north side of the town site at 9 a.m. to line up.

Honored Pioneers in this

year's parade will be Ira McLain and Zella Rice. They will lead the parade, followed by Mayor Bill Ritter, Miss Hart, Little Miss Hart, and this year's parade marshals, Danny Joe Carson and James McLain.

The parade is still open to floats, antique cars, machinery, bicycles and motorcycles.

Parade judging will be based on the overall appearance, coordination of the floats to the parade theme, and use of color. Bicycles, motorcycles and antique machinery will be judged differently than the floats. Cash prizes will be awarded to the winners.

The parade will be followed by the fiddlers' contest, the merchants' drawings and the beard judging.

The Good Neighbors Club will hold a reception in the community room of the bank during the day.

The "Texas Hold 'Em" Poker Tournament will start at 7:30 Saturday night in the community room of the bank sponsored by the Chi Psi

### Reagan Brown to be honored next Thursday

Texas Commissioner of Agriculture Reagan Brown will be honored with an appreciation dinner next Thursday at 7:30 p.m.

The dinner will be held in the County Expo Building. Homegrown food and homemade ice cream will be served at a cost of \$5 per person.

There will be a discussion of recent dumping of embargoed grain on the local market by Commodore Credit Corporation. Tickets are available at the Texas Corn Growers office.

The dinner is open to the public.

### United Way push to start Aug. 1

The 1981 Dimmitt United Way campaign will get underway Aug. 1 with a goal of \$12,025.

Campaign chairman this year is Cheryl (Mrs. Doug) Pybus, who said representatives of the organizations that receive UW funds will spearhead the public fund-raising drive.

Mrs. Pybus has called a campaign kickoff meeting for all workers for 5 p.m. next Thursday in the Dimmitt school administration building on West Halsell Street. The campaign will begin two days later, with workers distributing pledge cards to businesses and industries and mailing

them to area farmers.

The first report meeting will be Monday, Aug. 10.

The United Way hopes to raise \$6,500 for Dimmitt Kids, Inc., \$1,250 for the Caprock Girl Scout Council, \$1,250 for the South Plains Boy Scout Council, \$2,000 for the Meals on Wheels service, \$975 for the American Field Service exchange student program, and \$50 for United Way expenses.

Two organizations that received United Way funds last year — the Salvation Army and the United Services Organization — will not be among this year's recipients, Mrs. Pybus said.

"REMEMBER, GRANDPA, WHEN..." How Grandpa loves to hear that young voice say those magic words that mean, "We had good times together! I appreciate all the wonderful things you did for me when you were younger and able." Old folks love attention. They need it. They deserve to have it. They've spent their lives helping us, many times at the expense of their own desires and plans. God commands us in Leviticus 19:32: "Thou shalt rise up before the hoary head, and honour the face of the old man, and fear thy God. I am the Lord." Honor the older ones, too, by attending church this week and taking them with you.

Whenever asked about Carlos Casteneda, his editors all say he's weird. Carlos flies in and out, but in between times is nowhere to be found. Often times he is in Arizona or Sonora, Mexico. But he never says.

For the past 20 years Carlos Casteneda has explored the world of the Indian sorcerer. It all began in 1961 when he went down to Mexico on the advice of a friend to find out about hallucinatory plants like peyote. The friend told Carlos about Juan Mata, a Yaqui Indian from Sonora, and took him down to meet him. Juan Mata was a curious old man, indeed. Juan knew many things about peyote and how it was used. However, Carlos got more than he bargained for. A trip meant to be an anthropological field trip turned out being a turning point in the life of Carlos Casteneda.

Juan Mata was a Yaqui medicine man. He took Carlos in hand and began

teaching him the secrets of the trade. The information Carlos took in during the 10 years of his apprenticeship became the plot of half a dozen books.

The latest book, a best seller, is called "The Eagle's Gift." It takes up where his last books leave off.

The set of Casteneda books, read end-to-end, form the story of a man who sets out on a spiritual journey. The books

are beautifully written, and terrifying at the same time. They have the uncanny ability of setting the reader off balance by pulling his reality out from under him.

The Library calendar includes:

—TOPS Club, Mondays, 5:30 p.m.

—Story Hour, Wednesdays, 10:30.

—Summer Reading Program (Come help us fill out the poster!)

—Various ongoing games and teasers (win a soft drink). —402 books were checked out last week!

Bill and Deanne Clark are going to Dallas this weekend to attend a business meeting of the coop or agri business of the grain company. They will stay at the "Anatole."

Brenda, Becky and Sonya Andrews spent eight days in Hawaii, doing the usual tourist attractions, such as the Polynesian Culture Center, Pearl Harbor, Paradise Park, a luau picnic, the Punchbowl, and the Jim Nabors Show, went snorkeling and enjoyed the beach. Becky enjoyed surfing.

Shirley and Harold Stephens spent a few days last week in Fort Collins, Colo. visiting with Eleanor and Ray Koehler. They live west of Fort Collins in the foothills near "Horsetooth Lake." They had a good time, went over to Estes Park and into the Rocky Mountain National Park. They said there certainly were a lot of people vacationing in Estes Park.

Edwin "Goose" Ramey did a lot of reliving and reminiscing last week as he visited the old home place where he was born.

He traveled with his son, Bub, and daughter Decimae Beene. They visited a Masonic friend, Joe Steed, in Mt. Pleasant and enjoyed a good catfish dinner. Fish, Mr. Steed had caught.

Rusk, Texas was where Mrs. Effie Jacobs, Goose's oldest sister is buried.

Alto, Texas is where Goose was born in 1890. The old house in which he lived still stands, has beautiful pecan trees which are "loaded" with pecans. The Mt. Pleasant church with the original "pews" still stands and is in good condition.

Mrs. Bub Ramey and girls Ann Marie and Lenora are visiting Mr. and Mrs. Edwin Ramey in Chicago. They will return to Dallas next week for a visit with Edgar Ramey, their son before returning home in Amarillo.

Jo Nita and Leslie Gordin attended Jo's high school reunion at Rotan last week. This was the 35 year and 33 people from the class of 1944 were there for the banquet and get together. Jo was awarded a gift for changing the most. One person says "much prettier," one college professor now, was voted the bad boy of that class. Much fun remembering the doings of teen years. The Gordins came home by Roaring Springs Camp where the pretty swimming pool and lakes are. They plan to build a camp site like a club. Edmund Hunter is a member. The place is beautiful and hot.

They went another day to Mackenzie Lake. They say you must have a boat, steep land to the water. Jo says they stayed with her mother Ina Warren at Rotan.

Retta Cluck was hostess to the Friday bridge club with a good roast beef dinner at the Center served by Elena Martinez and I think Ralph Lambright helped with that dinner. Wilda has been out for a while. Anyway playing the game were Cletha George, Josie Bradford, Emily Clingsmith, Betty Cartwright, Gladiola Shipley, Ruth Coleman, Cleo Forson, Jeannie Miller, Myrtle Sheffy, Johnnie Vannoy won high score and Opha Burks came in second.

The Duplicate Bridge met Wednesday and Thursday bunch that day. I didn't get players names. All played in.

# Economist outlines advantages of estate planning

Estate planning at some point becomes a concern of every farmer, contends an economist in management. Dr. Wayne Hayenga, an attorney as well as economist with the Texas Agricultural Extension Service, Texas A&M University System, says an "asset freeze" is one of the biggest estate planning ideas with respect to preparing for disposition of farm land.

The first goal of an asset freeze is to fix, at today's price levels, the taxable estate of the landowner and to let all future appreciation in the land pass directly to the next

generation without being subject to tax in the landowner's estate, Hayenga explains.

A second goal is to make sure that the landowner can

still retain operating control and the income from the land as long as he or she lives. To secure this right, the landowner sets up a corporation. This corporation is

authorized to issue two classes of stock — common stock and preferred stock. The landowner transfers his farm land to the corporation for both some common stock

and some preferred stock. At this point the landowner is still the sole owner and the stockholder of the corporation, the economist explains.

After the corporation is set up, the landowner then chooses one of the two benefits under the gift and estate tax laws. These benefits are the annual \$3,000 exemption, and the lifetime unified credit gift exemptions and credits, Hayenga says.

For example: A landowner transfers \$500,000 of farm land to a corporation in 1981. He or she receives \$100,000 of common stock and \$400,000 of preferred stock in a tax-free exchange. In the first few years, the landowner transfers all of the common stock to the children.

Then, 10 years later, after incorporating, the landowner may die. At this time, if the land continued to appreciate at 10 percent, the farm would be worth \$1,290,000. Since the landowner gave away all common stock and kept only the preferred stock, the estate would contain only \$400,000 of preferred stock.

"Depending on how the landowner made use of gift exemptions and credits, approximately \$890,000 would escape taxation and probate costs in the estate. Estimated tax and administrative savings of approximately equivalent exemption of \$175,625.

By using the annual \$3,000 exemption, landowners can give anybody and everybody up to \$3,000 worth of property each year gift tax free. Also, the landowner can give a one time gift of \$175,625 away using his equivalent exemption credit and not pay any gift taxes with cash out of his pocket, Hayenga adds.

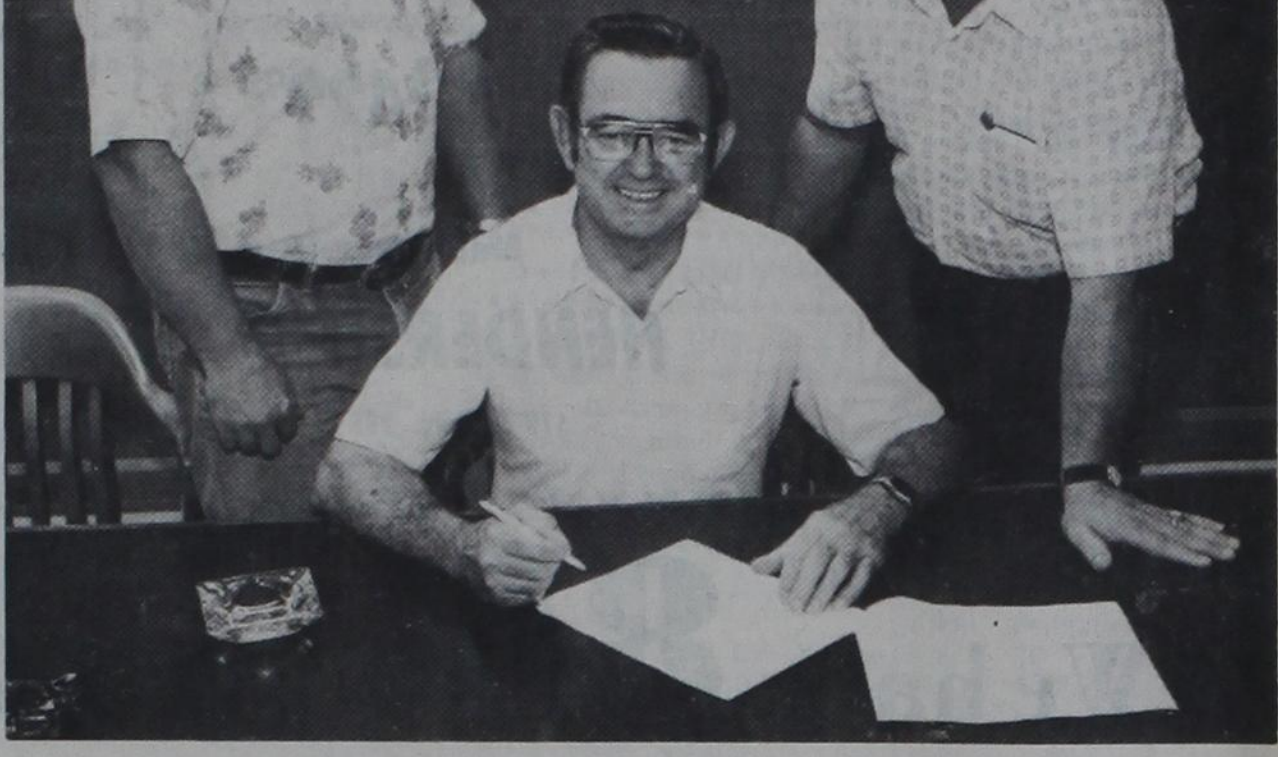

"After selecting the best gift program for his goals, the landowner can make gifts of the common stock to his expected heirs. As the land value increases, the increase will go to the common stockholders if the corporate charter is structured properly. The value of preferred stock will remain constant at its original value," he explains.

Thus, the landowner gives away all of the common stock and keeps only his preferred stock. The amount he keeps depends on how he used his

\$336,000 would result," and the owners' goals. The major continuing cost of corporation in Texas may be the state franchise tax, which has a rate of \$4.25 per \$1,000 of corporate net worth. This "net worth" is based on what the assets transferred to the corporation cost the former owner, not what they were worth when transferred to the corporation or their current value. So, if a farmer has owned land for a long time, this cost may be low.

"Finally, expect some additional accounting and legal costs over that of a proprietorship, but these should be small," Hayenga adds.

There are some additional requirements and other minor technicalities, but most can be met with a minimum of effort. Also, other rules must be met, but most of these other points are in establishing classes of stock and will be done by legal advisors without any concern on the part of the landowner.

**FARM AND RANCH SAFETY WEEK**—County Judge M. L. Simpson signs the proclamation declaring July 25-31 as Farm and Ranch Safety Week in Castro County. Looking on are Edgar Dennis (left) and Larry Hausmann, Castro County Farm Bureau directors. The special safety week is co-sponsored nationally by the Farm Bureau, National Safety Council and US Dept. of Agriculture.

## Farmers, ranchers urged to 'Enjoy Life -- Safely'

County Judge M. L. Simpson Jr. has proclaimed July 25-31 as Farm and Ranch Safety Week in Castro County, at the request of Edgar Dennis and Larry Hausmann, Castro County Farm Bureau directors.

This marks the 38th annual National Farm Safety Week, co-sponsored by the National Safety Council and the US Department of Agriculture.

The theme for the 1981 observation of Farm Safety Week is "Enjoy Live — Safely."

In his proclamation, Judge Simpson said, "Accidents

involving farm and ranch residents, employees and guests at work, in the home, at play and on the highways accounted for more than 330 Texas fatalities and more than 3,300 disabling injuries, costing millions of dollars in 1980.

"Time, planning and educational efforts using engineering ingenuity could help prevent much pain, expense and even death.

"National Safety Council accident surveys indicate that nearly half the accidents were traffic related, with home accidents, recreational accidents and work related accidents following.

"With 106,000 fatal accidents in the United States in 1980, and with agriculture accounting for more than 4,200, we need to endeavor stronger to 'Enjoy Live — Safely.'"

In concluding his proclamation, Simpson urged all agricultural producers, their families, employees, and guests to read, take training courses to prepare for a safer

life or to administer to those who become involved in an accident.

## CPR course scheduled next week

The local unit of the American Heart Association will sponsor a free course in cardio-pulmonary resuscitation Monday and Tuesday at the First United Methodist Church at 6:30 each evening.

The course will be taught by members of the Plains Memorial Hospital Staff.

Anyone wishing to take the course should call the church office at 647-4106 to register.

"We need to know how many will be taking the course so we'll know how many CPR dummies and instructors will be needed," said a spokesman for the Heart Association.

Satellite television reception, utilizing a privately owned antenna and reception equipment is very much on the horizon, as we've mentioned, to bring entertainment, information and a new business tool to the farmer and rancher. And, although it's not one of the 90-odd channels you might receive with your own set-up, the U.S.D.A. is benefiting from satellite technology in faster and more accurate information on crop conditions, particularly in Russia, through Landsat and soon through NOAA-6, a meteorological satellite. A constant and accurate eye on Russian weather conditions and crops is a valuable tool in light of reconvened U.S.A. - U.S.S.R talks on grain sales. And how does the Russian wheat crop look? Good, according to the satellite - about 34 million hectares, down about 3 million from 1980, with an almost ideal winter and almost no snow cover.

# Amstar to phase out oldest sugarbeet plant

The Amstar Corp. has announced that its Spreckels Sugar Division will discontinue sugar beet processing operations at its factory near Salinas, Calif., at the conclusion of the 1982 spring processing campaign.

The estimated cost of terminating these operations will result in an after-tax charge of approximately \$10 million, or \$1.10 per common share, against Amstar's net income for its fiscal year which ended June 30.

The packaging and some agricultural activities conducted at the Salinas site will not be affected by the discontinuance of sugar beet processing operations.

Spreckels Sugar, which has three other beet sugar factories in California and one in Arizona, will continue to service the requirements of its customers in California and other western states. The Salinas factory, which commenced operations in 1899, is the oldest Spreckels beet sugar plant. Although it accounts for about a quarter of Spreckels' total daily beet slicing capacity, it has contributed a somewhat smaller percentage of Spreckels' total beet sugar production because of the shorter growing and processing season in the Salinas Valley.

Of the 700 employees presently employed at the facility, approximately 200 will remain employed in packaging and other continuing operations. Spreckels Division President Guy D. Manuel said that "fair and equitable" severance arrangements are being developed for the approximately 500 employees who will be affected when processing operations terminate in mid-1982.

REIGN TO END TONIGHT—Tanya Lee [center] is a little young to become an "ex," but that's what will happen tonight (Thursday) when a new Little Miss Hart is crowned to succeed her. Other winners in the Little Miss Hart Contest last year were Leticia Centno [left], first runner-up; and Eloisa Rayna [right], second runner-up. The Little Miss Hart Contest is a feature of the Miss Hart Pageant, to be held at the Hart Elementary School gymnasium, beginning at 8 o'clock.

# Group conducts revival at Deyo Indian Mission

By TEENY BOWDEN

Rev. and Mrs. Raymond Jones and the Uppitts, Mr. and Mrs. Cliff Brown, Lynn and Lee Brown, Karen Jones, Ginny and Anne Guy, and Mrs. David Sadler, conducted a VBS and held revival services at Deyo Indian Mission west of Lawton, Okla., Tuesday evening through Friday evening, holding revival services each night following the VBS.

During the Sunday morning service, each one present who made the trip told the highlight of the week to them instead of the regular sermon. Cliff Brown and Ginny Guy had charge of the 9-10 year olds, teaching them and other

groups Bible verses. The things that most impressed him was their joy at having a man teacher, and the commencement service Friday night when the Indians presented to each of them a beaded gift they had made.

Naomi Brown, the Uppitts director, also mentioned the closing service, and the emotion involved as these gifts were presented to them, and the fact that she got to be with all ages of the children. Lee Brown reported an average of 70 kids each night, and the hardships the children had in getting there. He worked with youth and picked up and delivered nine each evening. He was most impressed with how the

Indians have to give up the tribal customs and traditions when they become Christians. When he asked what the beads given to him meant, they explained that they didn't know because their ancestors were Christians, and were not allowed to teach them the tribal customs and language.

Lynn Brown who with Karen Jones taught fifth and sixth graders, continued on Lee's thoughts, explaining that the only traditional chant they knew from their ancestors was the Kiowa Prayer Chant, and that it had been taught to them by the missionaries.

Bro. Robert Coffee, pastor of the mission said he learned the English language by giving the Pledge of Allegiance to the United States flag.

Gay Sadler taught first and second grades, and younger, and had 33 the first night. Lodema Jones and Anne Guy helped her. She, too, was moved by the presentation of the beaded gifts.

Lodema was most touched by 5-year-old Marcy, who asked her while Gay was teaching them about prayer, to pray for her mother who

was in the hospital. They paused and had prayer at that time, and later found that the mother was in a mental hospital.

Lodema, who was "chief cook and bottle washer," asked that we, too, pray for Marcy and her mother. Marcy was a special pal after that.

The pastor taught an adult class during VBS and then preached the revival messages. The morning service ended with the children's sermon as Rev. Jones used a chemistry set to tell the story of the Prodigal Son and illustrate how the blood of Christ cleanses from all kinds of sins.

Benny Villareal, a deacon in his church, his wife and son from Anton conducted the Spanish service Sunday morning with 23 attending. They had a Sunday School class, stayed in the auditorium for the song service, then he preached in Spanish to them in fellowship hall. Janelle Haydon and Conrado (Pete) Garcia sang "What A Friend" in Spanish and Lonnie Wilson sang "Growing Stronger," in the morning service.

Sunday night was the third

Sunday singing. Solos were brought by Gerald Elkins, Lonnie Wilson, Hershel Wilson and Benny Villareal, who sang in Spanish. Janelle Haydon and Conrado Garcia sang a duet in Spanish. The Spanish service was conducted for the first time during the evening worship with Benny Villareal doing the preaching.

Mr. and Mrs. Eules Waggoner, Winston Waggoner, Mrs. E. R. Sadler and Mrs. L. B. Bowden attended the funeral services of Mrs. Katie Waggoner in Dimmitt Wednesday morning. She passed away Monday, and would have been 95 in ten days. Winston was a pall-bearer.

L. B. Bowden started dialysis in Amarillo Monday afternoon. His present schedule is Tuesday, Thursday and Saturday mornings. He liked four days making it a year since his arm was prepared for the dialysis.

Mrs. Ray Joe Riley attended the Emergency Trauma Workshop in Muleshoe Thursday sponsored by the South Plains Emergency Services.

Jerri Ka Clark participated

in the state 4-H Horse Show in Waco Wednesday through Saturday. While she was in Waco she was named one of the three Castro County FFA members winning top state awards at the 53rd annual State FFA Convention in Dallas. She was the state winner in sheep production.

.50 of an inch of rain was recorded for Tuesday night with .90 at the Eules Waggoners. Another .05 was received Friday and .30 inch Saturday. In the south part of the community, .20 was received Friday with some hail damage in the southwest.

Lupe Yanez and Danny Green received little race cars during the Sunday morning services for having read 25 books in the summer reading program. 23 books were checked out Thursday afternoon.

Eules Waggoner was the KDHN Good Neighbor for the day Monday.

Mrs. E. R. Sadler worked with auxiliary duties at Plains Memorial Hospital last Monday. Mrs. L. B. Bowden worked Tuesday afternoon.

Mr. and Mrs. Ezell Sadler and Cheryl Powell of Canadian, attended the McWilliams reunion on Lake Hubbard at Breckenridge over the weekend.

Baptist Women met Tuesday morning for the prayer program with Mrs. Roy Phelan in charge.

Mr. and Mrs. E. R. Sadler spent last Sunday night in Lubbock with Dr. and Mrs. Myles Sadler, Gregory and Amy.

Camille and Carla Summers were among the members of the Flagg 4-H attending the babysitting clinic held in Dimmitt recently.

David Sadler killed a four rattler and a button rattlesnake north of the Larry Sadler house Friday. He saw a larger one in the Bowden pasture last week, but was unable to kill it.

Mrs. Mary Schultz of Earth spent the day Tuesday with Mr. and Mrs. E. R. Sadler.

Mrs. Carl Dean Carson taught the book "The Gifted

Woman I Am" to the Baptist Women and Baptist Young Women at the church Thursday morning.

The Uppitts and the Raymond Jones visited with friends in Lawton and Anadarko while they were in Oklahoma. Some of these they met on their first mission trip three years ago, and some of them attended the mission services at Deyo each night.

Mrs. Dick Gregory of Amarillo moved in with her husband and son, Randy in the community recently. Mr. Gregory is the manager of the Sunnyside Farm Store.

Mr. and Mrs. Marshall King and Lance were in Llano, Texas for the funeral of

her grandfather Tuesday through Thursday.

Melody Sadler attended church camp with Holly Waggoner in the mountains of New Mexico recently. Karla stayed in Hereford while her mother was in Oklahoma.

# Candlelight ceremony Friday unites Miss Brantley, Jones Gerber-Wilhelm vows read; couple to live in Eastland

Kenneth Ringo and Monika Maria Schmitt

## Aug. 15 vows read

Monika Maria Schmitt and Kenneth David Ringo, a former Dimmitt resident, will exchange wedding vows Aug. 15 in the Joseph A. Hill Chapel on the campus of West Texas State University.

Miss Schmitt is the daughter of Mr. and Mrs. Johann Schmitt of Wesel, West, Germany. Mr. and Mrs. George Kenneth Ringo of Dalhart, formerly of Dimmitt, are the parents of the prospective groom.

Miss Schmitt is a senior mass communications major at WTSU and is currently employed at the Pizza Hut in Canyon.

Ringo is a senior at WTSU also, and is employed with Irwin's Greenhouse in Canyon. He is a graduate of Dimmitt High School.

In a candlelight ceremony Friday evening, Billie Jo Brantley became the bride of Kelly Jones. Rev. Jack Lee, church pastor, directed the double-ring vows in the sanctuary of the First Baptist Church of Hart.

Parents of the bride are Mr. and Mrs. Bill Brantley. The groom's parents are Mr. and Mrs. Weldon Jones.

The bride's grandparents are Mr. and Mrs. Bert Lamb of Slaton, Chester Brantley of Wewoka, Okla., and Lois Whitt of Duncan, Okla. Grandparents of the groom are Mr. and Mrs. Worth Jones of Happy and John H. Alldredge of Dimmitt, and his great-grandfather is George Rouser of Plainview.

An arch decorated with silk apricot daisies, greenery, baby's breath and apricot satin bows formed the nuptial area. Centering the arch was a memory candle featuring an embossed wedding announcement and picture of the betrothed couple, and topped with a pair of white wedding doves. The family candles, which flanked the memory candle, were lighted by the bride's and groom's parents as they entered the church. Each mother was escorted to the altar area by the bridegroom. Mrs. Mark Bennett sang "The Rose" as the candles were lighted by the parents.

Twin brass 15-branch spiral candelabras holding apricot tapers, adorned with silk greenery and apricot bows, flanked the arch. Also featured were baskets of fresh apricot-tipped gladiolas, greenery and bows. In front of the organ and piano were twin seven-branched candelabras with matching decor. Completing the altar were fig trees and green potted plants.

Each pew on the two aisles featured apricot satin bows with beige baby's breath. On alternate pews were brass hurricane lamps with apricot candles, tied with apricot bows and baby's breath.

Selected wedding music was presented by Mrs. Carl Rambo, pianist, and Mrs. Weldon Davis, organist. Mrs. Bennett, vocalist, also sang, "Twelfth of Never," and "We've Just Begun."

As the bride was escorted to the altar by her father, she was attired in a formal bridal ribbon gown of French Chantilly lace. The bodice of the gown featured twin rows of satin ribbon accenting the ruffled lace over the shoulders forming a V-yolk at the center front and back waistline accented with pearls. A standup lace ruffle collar matched the full Bishop sleeves, graced with pearls and twin satin ribbon bands. The tiered skirt featured twin rows of satin ribbon with overlays of lace ruffles with pearls. A Cathedral length train adorned with alace train adorned with a lace ruffle, rows of satin ribbon and pearls fell from the lower tier of the gown.

The bride wore a Derby hat of French Chantilly lace adorned heavily with pearls. Flowing from the center back of the hat was a waltz-length veil of tulle attached by a large matching bow.

She carried a ball-shaped cascading arrangement of white daisies, white silk baby's breath accented with apricot roses, white bridal bows and streamers tied in love knots.

As the bride and her father walked down the aisle, she paused to present apricot roses to her grandmothers and her mother. After the ceremony, she did the same for the groom's parents and grandparents.

Maid of honor was Pennie Pierce of Hardin. Other bridal attendants were Kim Blankenship of Plainview and Darshan Jennings of Lazbuddie. Flower girls were Bridget Massey of Lubbock, cousin of the bride, and Amber Ethridge of Houston, cousin of the groom.

The feminine attendants were dressed in identical gowns of apricot organza over taffeta, featuring an off the shoulder ruffle with apricot satin ribbon at the waistline tied in bows with long streamers. A full bustle in the back flowed down and formed the lower ruffle of the skirt. The bustle was accented at the top with apricot silk daisies. Each carried matching beige lace

parasols trimmed with apricot lace. Apricot silk flowers covered the top of the parasols accented with apricot and beige bows.

Serving as best man was Scott Jones, brother of the groom. Groomsmen were Ricky Rowland and Steven Brantley of Canyon, brother of the bride. Ushers were Scott Butler of Plainview, Vic Hart, Carey McLain and Kelly King. Ring bearer was Brent Talley of Lubbock, cousin of the groom, who carried a beige heart-shaped satin-and-lace pillow with satin bows and streamers. Candlelighters were Ware and Blair Brown.

The male attendants wore beige tuxedos with apricot daisy boutonnieres with baby's breath and silk apricot leaves. The groom was attired in a white tuxedo with tails, and wore an apricot rose boutonniere.

In the foyer of the church, guests were registered by Teresa Mapp. The registry table was covered with an apricot cloth featuring an overlay of apricot organza dotted swiss. A picture of the couple graced the table with the bridal book which was adorned with a cascade of apricot daisies and baby's breath. Guests registered with an apricot feathered pen. Behind the table was a fan arrangement of apricot roses in a brass urn with a large open Bible.

Apricot printed programs rolled as scrolls were distributed by Ware and Blair Brown, and Marc Cardarella of McAllen, cousin of the bride. They also handed out bags of bird seed at the reception.

A reception following the ceremony was held in fellowship hall of the church. The bride and groom joined by their parents and grandparents in the receiving line.

The reception area featured a peach latticework trellis as a backdrop for the combined bride and groom tables. English ivy and baby's breath decorated the trellis, which was accented with a large champagne-colored bow and streamers with gold lettering of "B.J. and Kelly." Beige satin with an overlay of apricot organza dotted swiss covered the long table. The overlay was tied at vantage points around the top with apricot daisies, baby's breath and champagne satin bows.

Highlighting the table was the three-tiered wedding cake featuring a waterfall and iced with daisies of pale apricot and white. Wedding bells graced the top layer, and a bride and groom were on the second layer, which had stairs down to a separate two-layer cake and transcending down to a two-layer round cake decorated with dolls depicting and dressed as the wedding party.

A centerpiece of apricot lattice candles holding a peach votive and nestled in apricot silk flowers was used. It was surrounded by brass candlesticks holding apricot tapers and matching apricot

silk candle rings. Hors d'oeuvres were served from the groom's portion of the table. Brass punch bowl, coffee service, and accessories completed the table decor.

Presiding at the table were Theresa Kittrell, Stacy Averitt, Laurey Franks, LuDonne Bonsal, Lori Barnes and Suzhan Rowland. Members of the houseparty were Clara Beth and Cindy Blankenship of Plainview, Linda Washington, Tamera Bowden, Mrs. Leo Robertson, aunt of the bride; Mrs. Dwayne Brown, who handled the reception decor; Mrs. Everette Heller, Mrs. Theron Morrison, Mrs. Carl Rambo, Mrs. Bill Rich, Mrs. Arnold Gilcrease and Mrs. Richard Franks.

For a wedding trip to Dallas, the bride chose a two-piece hot pink suit with matching accessories, a straw hat with hot pink and purple band, and a nosegay of hot pink and purple silk flowers.

The bride and groom are both graduates of Hart High School. For the past two years, Jones has attended West Texas State University in Canyon. In the fall, he will be employed by Haliburton Oil Co. in Amarillo. Mrs. Jones is employed in the County Tax Office and plans to enter Amarillo Junior College.

The groom's parents hosted the rehearsal dinner last Thursday night at their home. Tables were laid with linen cloths and centered with straw baskets filled with ivy and silk flowers.

The Hereford Country Club was the setting for the bridesmaids' dinner last Wednesday, hosted by Mrs. Leo Robertson of Plainview, aunt of the bride, and Mrs. DeWayne Brown.

Mrs. Royce Blankenship of Plainview held a brass luncheon honoring the bride July 11 at her home southeast of Hart. She was assisted by her daughters, Kim, Cindy and Clara Beth. Tables were covered with white linen cloths with brass accessories and centerpieces of fresh yellow and white daisies.

Colleen Gerber and Neal Wilhelm were united in marriage in a double-ring ceremony Saturday at 4 p.m. in the Holy Family Catholic Church, with Father Stanley Crocchiola officiating.

The bride is the daughter of Mr. and Mrs. Francis Gerber of Nazareth. Mr. and Mrs. Francis Wilhelm, also of Nazareth, are the parents of the groom.

Lori Gerber, sister of the bride, served as the maid of honor. Bridesmaids were Lydia Schacher, sister of the bride, and Becky Hooper and Gaylene Wilhelm, both of Wichita Falls, sisters of the groom.

Bridal attendants wore gowns of golden yellow lustreglow with three-tiered circular ruffles on the bodices. They carried hand-tied nosegays of white daisy poms tied with a yellow ribbon.

Serving as best man was Rocky Wilhelm, brother of the groom. Groomsmen were Stanley Gerber, brother of the bride, Hugh Wilhelm, brother of the groom, and Randy Huseman of Tulia.

Ushers were Gordon Wilhelm, Mark Chaney and Douglas Wilhelm.

The altar of the sanctuary was adorned with bouquets of yellow gladiolas, white daisies and ferns. Yellow and white bows marked the pews.

Providing music were Mrs. Alma Conrad, organist, Doretta Ramaekers and Dwayne Kleman, guitarists; and Tricia and Glenda Gerber and Bernice Hoelting, vocalists. Musical selections included "Nadia's Theme," "Ave Maria," and "A New Life."

The bride was given in marriage by her father. Her gown of white smooth fluid jersey featured Venice lace flowers on the Empire bodice and cap sleeve, was hemmed with scalloped Venice lace, and flowed to a chapel-length train. Venice lace adorned the caplet and veil. She carried a traditional cascading bouquet of yellow sweetheart roses accented with white daisy poms, baby's breath and a first communion rosary.

A reception was held in the Nazareth Community Hall after the ceremony. The tables were decorated with silk yellow and white daisies in clay pots and a white enamel candelabra with yellow candles. A dance followed the reception, with the Rough Riders Band providing the music.

After a wedding trip to the Coast, the couple will make their home in Eastland. The bride is a 1979 graduate of Nazareth High School. The groom, also a 1979 graduate of Nazareth High School, attended Midwestern State University in Wichita Falls and is now employed with Fluor Oilfield Supply in Ranger.

**Now is a critical time for corn borer control**

By ALLEN KNUTSON  
Extension Agent - Entomology

Corn fields have been the center of attraction for corn borer moths and spray planes this past week. Fields that were infested with first generation borers in June will have heavy second generation infestations unless treated now. These early treatments could have been avoided if adjacent corn stubble fields had been destroyed.

Light-trap catches have been erratic. A mid-week decline probably resulted from the full moon, reducing the light's attractiveness. Catches the 17th and 18th jumped up to 350 borer moths per night. Fields will continue to be under pressure as corn borers are expected to lay eggs for another 1-2 weeks.

A corn grower has three options in dealing with corn borers. He can:

(1) Ignore the problem. He wins when fields escape infestation, and loses when they do not.

(2) Get on the corn borer program. Two or three scheduled treatments of every field will ensure control. However, some fields may receive unnecessary and expensive treatments.

(3) Take the time to check his own fields, or hire a qualified person to do so. Treatments then can be properly timed and applied only to those fields that are economically infested, or reinfested after treatment.

Eggs can be laid anywhere on the plant, but are generally laid on the upper surfaces of the leaves above and below the ear. It appears that eggs may be laid lower on plants during particularly hot and dry years. Eggs hatch in about 4-6 days, larvae feed for approximately 25 days and the pupal stage lasts about 10 days.

Larvae infesting young corn move to the inner whorl, where feeding damage will appear as 'streaks' running down the leaf due to their surface grazing. Small larvae in silking corn are usually found between the husk layers of the primary ears and ear shoots, and later may feed on the cob and ear shank. When larvae are several days old, they bore into the stalk and begin tunneling.

**Damage:**

Losses from southwestern corn borer can occur from 'dead heart' (or death of the growing tip), resulting from first-generation larvae feeding in the whorls of young corn plants, from larvae tunneling in the stalk and ear, and from larval girdling which frequently results in lodged plants.

Girdling is a behavior pattern in which larvae, in preparation for overwintering in the plant stub, chew a groove around the inside of the stalk a few inches (several centimeters) above the soil surface. Girdled plants are weakened and susceptible to lodging.

**Scouting Techniques:**

Scout for second-generation corn borers from about mid-July through mid-August, or until effective control has been achieved. Most eggs will be found on the upper surfaces of the three leaves above the ear leaf and three to four leaves below. Several sites in each field should be checked for presence of corn borers. At each site, 10 plants should be examined. Keep records of plants infested with egg masses or small larvae. Checking fields every five to seven days is adequate until activity increases. Then, the scouting interval should be shortened to every 3-5 days.

**Economic Thresholds:**

Insecticide applications are usually directed toward second-generation larvae. Control should be applied when 20-25% of the plants examined are infested with eggs or newly hatched larvae. Once larvae bore into the stalk, insecticides are not generally effective.

Where low levels of egg pressure are detected over a period of time and on any given check day, the percent infested plant count does not

exceed the treatment level, then an accumulative treatment level of 20-25% can be used spanning 2-3 sampling dates covering no more than 7-10 days.

Where control is necessary, additional treatments may be required. Two and even three applications are sometimes needed to protect the corn crop during an extended egg lay. The interval between applications of Sevimol-4 should be about 5-7 days; the two Furadan formulations, 7-10 days. Be sure to read the insecticide label for any use restrictions and safety precautions.

**Suggested Insecticide Control**

Carbaryl (Sevimol-4), 1½ qts. per acre.

Carbofuran (Furadan 10G), 10 lbs. per acre.

Carbofuran (Furadan 4F), 1-2 pts. per acre. (Allow 14-28 days between last application and harvest or grazing.)

(Other insecticides may be labeled but they do not have the research basis from Texas A&M University for the Extension Service to recommend these materials at this time.)

This corn borer information is provided by James F. Leser, area entomologist-pest management.

**SORGHUM GREENBUGS**

Greenbug colonies are increasing to dime and quarter size with red spotting more common.

Corn leaf aphids are very abundant in whorls and are helping to build up beneficials. Treatment for corn leaf aphids may be necessary only in the rare instance when honey dew deposits interfere with head emergence and flowering. Corn leaf aphids will decline once the emerging head pushes them from the protective whorl.

Lady beetles are beginning to reproduce as eggs and larvae are more common. No aphid mummies or parasites have been reported.

**Social Security in Castro County**  
By JANICE ULMER

For many people working at summer jobs, tips will be a large part of their earnings. They should understand how tips should be reported for social security purposes.

Social security benefit amounts are based on all of a worker's earnings covered by social security. Generally, the higher the earnings reported, the higher the benefits paid. Benefits are paid when a worker retires, or becomes disabled, and to the family when a worker dies. The social security taxes also finance Medicare's hospital insurance.

While your employer is responsible for reporting and collecting social security taxes on your regular wages, you are responsible for reporting cash tips. These tips should be reported in writing to your employer within 10 days after the month ends.

The tip report can be made on a special form available from any Internal Revenue Office - ask for form 4070 - or it can be made on any other form you devise, so long as it contains the same information that's on form 4070. This includes your name, address, and social security number; your employer's name and address, total tips, and the period they were earned. Be sure to keep a record of what you report.

If your cash tips for the month total less than \$20, don't report them for social security purposes. However, they would still be reported on your income tax return as part of your gross income.

Your employer will collect from you the tax due on the tips you report.

For 1981, the tax rate is 6.65 percent on earnings up to \$29,700. For example, if you report \$100 in tips for the month of June, you pay \$6.65 in taxes.

You should report credit card tips and those paid by check as cash tips. If you split or share tips with fellow employees, report only the amount you receive as your share.

The employer is responsible for paying social security taxes on tip amounts that are deemed to be earnings for purposes of meeting the requirements of the minimum wage law. This happens in jobs where low wages are paid in expectation of substantial tips. Federal law allows the employer to pay as little as 50 percent of the minimum wage and permit tips to be considered earnings up to the level of the minimum wage. The employer must treat these tips as wages for social security reporting purposes.

At the end of the year, your employer must give you a form W-2, Wage and Tax Statement. It shows wages, tips you reported, and any uncollected social security taxes you owe on tips reported.

People who wish to check to see if their tips have been properly reported to the Social Security Administration may call our toll-free number, 1-800-392-1603 and request a statement of their earnings. The office will provide a special form that can be sent to the Baltimore headquarters to get a statement of the earnings reported to your social security record.

The social security office also has a special leaflet, "Social Security and Cash Tips," that can be helpful in reporting tips. Single copies are free at any social security office. Our local office is located at 1401-B W. Fifth, Plainview.

**VETERAN'S SERVICES**

By BEDFORD W. SMITH  
County Service Officer

Veterans should remind their families that burial in a Veterans Administration national cemetery is open to any veteran who has been discharged under other than dishonorable conditions, Jack Coker, Director of the Waco VA Regional Office, said today.

Although the law doesn't provide for grave site reservations, a veteran can make things easier for his survivors by expressing a desire to be buried in a national cemetery, keeping military service records accessible and verifying eligibility at any VA office.

To be eligible for burial, military service must have been for other than training purposes. Reserve or national guard personnel do not meet those requirements, but who die as a result of their active duty training, may also be eligible. Service members who die on active duty are also eligible. Burial is available to an eligible veteran's widow, widower, minor children, and under special circumstances, unmarried adult children.

When a veteran or dependent dies, the documents verifying eligibility should be presented to the funeral director handling the burial. The funeral director then contacts the national cemetery director to determine eligibility and space availability.

Of the 108 national cemeteries, 58 have grave space available, 47 are closed and three are under construction or design. A closed cemetery means it is not available for initial interments. Those who have a spouse or dependent buried in a closed cemetery may still be buried in that family grave site. Once eligibility and space are determined, the VA will open the grave, handle the burial, furnish a headstone or marker and provide perpetual care and maintenance.

National cemeteries listed as full and closed may have sites available in the future through expansion, removal of obstructions or the cancellation of a reserved space. Reservations were permitted until 1962.

Questions regarding burial in a national cemetery or other VA burial benefits can be answered by the nearest VA cemetery or regional office. The Toll-free number for our area is 1-800-792-3271.

IN the town of Newton, Kansas it is illegal for anyone to practice knife-throwing at a human target dressed in a striped suit.

The Plainview All-Stars walked away with the district Senior Babe Ruth championship Sunday night after three nights of tournament play here that pitted the ALMO League All-Stars against the Plainview All-Stars.

Littlefield didn't show up for the tourney, so it became a best-of-three playoff between Plainview and ALMO. And it went down to the final inning of the third game.

Tournament play got underway Friday evening with Plainview batting in six runs to ALMO's one in the first inning. Alton Jackson and Rodney White both contributed to Plainview's high-scoring first inning with two-run homers.

Throughout the rest of the game, Plainview hurler David Pena was able to hold the ALMO All-Stars to four runs

once again heading for victory, but the ALMO team turned the tables in the last two innings to gain a 12-7 win.

Going into the top of the sixth, the Plainview All-Stars held a 7-0 lead, but ALMO League's Dwayne Acker and Ronnie Angeley both sent the ball sailing over the fence to drive home six runs in the top of the sixth.

Then the fired-up ALMO team went on to get six more runs in the top of the seventh, defeating Plainview 12-7.

Sunday's playoff game was a scoreless deadlock going into the third inning.

The ALMO All-Stars were the first to score, chalking up two in the top of the third.

Plainview fought back with one run in the bottom of that inning, but ALMO added three in the top of the fourth and one in the top of the fifth to increase their lead over Plainview to 6-1 going into the bottom of the fifth.

Then Plainview came alive in the bottom of the fifth, chalking up five runs to tie the score at 6-6.

With one run in the bottom of the seventh and final inning, Plainview emerged as district champions with a 7-6 win.

The Plainview All-Stars will now advance to the state tournament in Dumas, which starts July 26. The regional tournament, in Del Rio, will begin Aug. 8.

Saturday night the players and their wives were feted with a barbecue and special entertainment.

Gold putters were awarded to Cook and Goodwin for tournament low score. Door prizes were also awarded.

Tournament placers were:

## Tulia wins LL tourney

The Tulia Little League All-Stars shut out South Randall County (Canyon) 5-0 Friday night to remain undefeated and capture the area championship here.

Friday's championship game climaxed the four-day area tournament played at George Howell Little League Park.

Tulia's Danny Macias slammed his fifth home run of the tourney in the top of the fourth inning to give the Swisher County lads a 2-0 lead, and Morgan Voss added a two-run homer in the top of the fifth.

Macias was the winning pitcher, while Canyon's Julian Garza absorbed the loss.

The victory propelled Tulia into the district playoffs.

For Canyon, the tourney ended the way it had started — with a shut-out loss to Tulia. The Canyon lads, who had dropped a 7-0 decision to Tulia on opening night, had fought back with victories over Dimmitt Tuesday and Friona Thursday to earn a second shot at the classy Tulia squad.

It was a three-run homer by Canyon's Ross May that iced the South Randall County team's victory over Friona in the semifinals last Thursday night.

May's homer came in the bottom of the fourth, with the score tied at 5-5, and gave Canyon a big three-run lead.

Friona fought back with a run in the top of the sixth but was never able to close the gap.

David Thomason was the winning pitcher, while Tracy Carthell absorbed the loss.

# Corn for Poland should be CCC stock--Bentsen

Sen. Lloyd Bentsen said in a letter to President Reagan this week that any US corn sold to Poland should come from Commodity Credit Corp. inventories in the Texas High Plains.

"The Polish government has stated that they will require some 15 million bushels of feed grain this fall in order to avoid having to slaughter their poultry flock," Bentsen said.

"You may recall that, due to the Russian grain embargo, the CCC purchased major quantities of corn which were to have been exported from the Midwest to Russia. Much of this corn is now stored in the Texas Panhandle area, where it overhangs the local grain markets, even though the CCC had assigned 25

million bushels of it for the disaster reserve.

"The corn was to have been sold to Russia but these sales were blocked as a protest against the brutal invasion and occupation of Afghanistan. We are now being asked to provide grain badly needed by Poland, a country which has been under Russian domination since 1945.

"The Polish people have made a courageous break with their Russian overlords and they are now walking a tight rope in a bid to secure a measure of freedom and democracy that has been denied by brutal application of Russian military might in other countries of Eastern Europe, including Czechoslovakia and Hungary as graphic examples."

"I believe that any corn

sold to Poland should come from the CCC inventories in the Texas Panhandle which were acquired during the ill-advised Russian grain embargo.

"No better message could be sent to tell the world of the

support of the United States of America for people who are struggling towards freedom. I urge you to support the cause of freedom with this grain that was denied to the cause of tyranny," Bentsen said.
