Representative Bill Clayton of Springlake met with Castro County Chamber of Commerce Directors Friday morning and discussed requirements for a Junior College.

At present, the new coordinating board for higher education is formulating requirements for the establishment of Junior Colleges in Texas. Senator Spears Is Guest Speaker At Democratic Women Meeting

Mayor George Bradford introduced the guest speaker, State Senator Franklin Spears of San Antonio. Senator Spears is a candidate for the office of Attorney General of the State of Texas.

In his opening remarks Senator Spears declared: "I am proud to be a speaker at a Democratic function. The Democrats know how to get together, it has always been a party, made up of groups of people with specific interests, but which culminates in a whole. Why is it, with all of the things that the Democratic Party has done for the people, that the people have neglected their right to vote, or their loyalty to the Democratic party, or to the nation in general?"

Senator Spears pointed out that it is the complacency of the American people, with respect to the law, that has the nation in the position it is in today. He declared, "Maybe it is a phase, but why it is young people think that policemen are people to stay away from? They (the policemen) deserve every bit of encouragement we can give them."

Senator Andy Rogers, due to car trouble, arrived late for the meeting but was introduced to the group. Refreshments of coffee and cookies were served.

Dimmitt Lions Club Selling Lights In Order To Buy Glasses

Dimmitt Lions Club began a campaign this week to raise money through selling light bulbs. The money raised will be used to buy glasses for local children whose parents cannot afford to buy glasses for them.

The Lions set up a stand in the Bobcat Gymnasium Friday and Tuesday nights in order to raise money for the glasses needed in Dimmitt. It was reported that the club made approximately \$55 Tuesday night to help buy glasses.

Bruce Taylor, president of the Lions Club in Dimmitt said that the money left after buying glasses for persons in Dimmitt, will be used for either sight conservation or by the crippled children in Kerrville.

The Lions Club has selected a committee, composed of Paul Hilburn, Dr. Charles Vandiver, and Weldon Skinner, to find children in Dimmitt who need glasses. The committee would also like to know of adults in Dimmitt who need glasses, but cannot afford to buy glasses for themselves.

Light bulbs that the Lions are selling are Westinghouse, and come in a carton of eight. Within the carton are two 60 watt, two 75 watt, and four 100 watt light bulbs. The Lions are selling each carton of light bulbs for \$2.

Taylor said that the Dimmitt Lions Club is also planning to send some children from crippled to the Lions Home for crippled children in Kerrville.

The Dimmitt Lions Club would also like to know if there are some blind people in the Dimmitt area who do not have a radio. The Lions in a project called "Nine to Ninety," are trying to furnish blind people with a radio who do not already have one.

Dr. Mayes Miller Celebrates Eighty-Seventh Birthday

Dr. Mayes Miller, resident of Dimmitt for 47 years recently celebrated his eighty-seventh birthday. Miller practiced medicine in Dimmitt for 37 years.

When Miller began his practice in Dimmitt, he said that there were only two hospitals in the country. One hospital was located in Plainview and the other was at Amarillo.

Miller started the first hospital in Dimmitt in the upstairs of the bank building. He said that at one time he had four offices in the bank building.

Miller stated that the only time he had to use a wagon and horses was in the fall and winter of 1923 when the snow was so deep a car could not be used.

Miller spoke of the flu epidemic that started in January, 1920, as being one of the most memorable occasions in his life as a doctor. For six weeks during the epidemic Miller reported that he got up every day at 6 a.m., and came back home at 3 a.m., after making calls in the four county area. He also said that during the six week period, he had nine different drivers who drove him on his rounds.

Members of Miller's family visiting him at the birthday party were, Mr. and Mrs. Ennis Burt, Mr. and Mrs. Tommy Burt, Jane Burt, Sue Miller, Dennis McMahon, Michael McMahon, Edd Miller and Tom Miller.

Miller said that he counted at least 40 people at the party who were at the time of birth delivered by him. Miller stated that he delivered approximately 2500 babies during his career as a doctor.

Miller began his practice in 1901 at Texico, New Mexico. Miller was born at Wills Point Texas in Van Zandt County. He received his training in medicine at the Kentucky School of Medicine in Louisville, Kentucky.

Miller's father was also a doctor of medicine and was the first doctor in Dublin, Texas.

After leaving Texico in 1906, Miller said that he went to Lamesa where he practiced medicine for 12 years. Being forced to leave Lamesa because of a drought, he then joined a railroad construction crew, and for two years served as the doctor for the railroad.

When Miller came to Dimmitt, he said there were approximately 200 people living in the town. Miller said that his first office in Dimmitt was upstairs in the old bank building, that he said was one of the first brick buildings in Dimmitt. The building now houses the Agricultural Stabilization and Conservation County Office at 101 N. Broadway.

As a General Practitioner, Miller said that he has seen many changes in the medical field since he began practicing medicine. One such change that he noted

was the fact that doctors used to go to the patient's home, but today, the patient comes to the doctor's office or to the hospital for treatment.

Sen. John Tower's

Washington Report

I fully support our President in his determination that it was necessary to resume bombing of North Vietnam. I hope all Texans will support him as our military commander in chief.

The decision to resume the bombing was eminently correct, in my judgment as a member of the Senate Armed Services Committee. Many voices were raised, some of them from the President's own party in the Senate, urging him to continue the bombing pause.

Had we continued the pause, we would have been committed to a long-term war of attrition and stalemate with no end in sight. I'm glad such advice did not prevail with the President.

We now face the task of having to go back over military targets in North Vietnam which previously had been destroyed and which now have been rebuilt and repaired during the bombing breather we granted in an effort to achieve peace.

It is known here in Washington that North Vietnam never made any move toward acceptance of our peace offers. Even though we walked the extra mile, turned the other cheek and bent over backwards to achieve an end to the war North Vietnam's communist regime continued her terrorism and aggression. Even worse the Reds took advantage of the bombing lull to prepare for an even greater war effort against us and our Allies.

Before the bombing pause began, North Vietnam had built some 50 surface-to-air missile sites. During the lull she added some 10 more. These will complicate our bombing efforts and further endanger the lives of our pilots.

In addition, during the "grace" period we allowed them, the communists worked night and day to reopen Communications lines roads and railways, to improve bypass routes around downed bridges, to infiltrate men and arms into South Vietnam, and to increase training of their limited air force.

We could not continue these advantages to an enemy. We could not so endanger the lives of the American men committed to battle there.

We must now do what is necessary militarily to bring a speedy end to the war. There is no substitute for victory.

Americans spent a whopping \$779 million dollars to buy consumer magazines in 1964. The public spent half its magazine money on general interest, about a fifth on news, and another fifth on women's magazines.

Bible Thoughts

"UNITY"

By Ronnie Parker

Religious people today realize that one of the greatest problems in Christianity is the lack of UNITY among believers in Christ. Division of those who have confessed their faith in Christ has brought great harm to the cause of our Lord. At present, many are striving for "union", but not for unity.

During New Testament times the church of our Lord was one. Christ had proved that all disciples would be one, Jn. 17:20-21. This UNITY for which our Lord prayed would cause the world to believe in Him.

There was UNITY in the message they preached. UNITY in their faith and practice, UNITY in organization in the church under Christ, and UNITY of worship. This bond of unity was faith in Christ and obedience to his will. The first century church had one tie of affiliation, love to God and each other: one mission, the conversion of the world; and one destiny, the everlasting city of God. UNITY can be achieved by all consenting to the truth. All that we believe must be in harmony with the Scriptures.

Campus Chat

The snow has melted, but the activities have not. Our industrious, yet fun-loving, students are still at it.

Last Friday the Friona Chiefs came to Dimmitt, only to be defeated by the Bobbies and Bobcats in three thrilling games. Tuesday night our teams traveled to Olton to gain three more victories. We are clearing out a place in the trophy case for this state championship trophy. This trophy can be won only by the combined efforts of the players and their supporters — YOU!

Tuesday the National Honor Society met to discuss the state convention and the candy selling project. It was decided that they would not sell the candy. Nancy Axe is a second semester addition to the membership of the organization.

Chest X-Rays were given Wednesday and Thursday by a mobile unit from Lubbock. These X-Rays were given at a rate of 13 seconds per person. Helping with them were: Nancy Axe, Peggy Ott, Donna Dehtan, Eva Giles, and several P-TA members.

The varsity football and basketball teams met Wednesday to elect candidates for football and basketball queens. Candidates for football queen are Evelyn Waggoner, Penny Hays, Paralynd Renner, and Kay Bradley. Candidates for basketball queen are Penny Hays, Ginger Kemp, Kay Bradley, and Mary Hays. The queens will be crowned at the annual Athletic Banquet in April.

Wednesday the second and third period homemaking I classes visited Marie's Beauty Bar where they learned about hair style and care. They watched the operators as they demonstrated on several people. Thursday the Representative from Merle Norman Studios visited their classes to demonstrate the technique of applying make-up. I can see that these girls are going to be more beautiful from now on.

The home-ec showcase contains information on the fiber of the month — cotton. Included are twenty-four examples of material and the process used in making them.

The big green worm in the library showcase represents the need for more book-worms in this school. I'll bet Mrs. Leeth would drop her teeth if we responded to her hint. Let's try it.

The hidden message in the gym showcase is that we should all work toward getting a high school "Education — the Key to Success" was done by Marcellus Nance. Herminia Sandoval has constructed a poster bearing the message: "Smile and the world smiles with you; Sigh and You sign alone." This poster can be found in the showcase near the cafeteria.

If you have done something outstanding, let us know, and we will be glad to print it in the Campus Chat.

See you next week.

Trivia

How many of you have heard of the game Trivia?

For those of you who have not, it is a game in which knowing the important facts does not matter; but knowing the unusual or different facts will win you the game. In case you ever need them, here are a few facts that may some day help you win a game.

The first accordion patent was issued January 13, 1854 to Anthony Fass of Philadelphia, Pennsylvania, and bore patent number 11,062.

The first actor of American birth was John Martin, who appeared at the Old Southwark Theatre, in Philadelphia, Pennsylvania, on March 13, 1790. He played the part of Young Norval in a play titled "Douglas."

The first Agricultural Experiment farm was a ten acre tract set aside by Savannah, Georgia in 1735. Here a skillful botanist collected seeds of drugs and dye-stuffs from other places with the same climate, in order to see if they would thrive well in Georgia.

The first Air Mail Carrier was Varney Airline. They operated a single engine Swallow bi-plane from Pasco, Washington to Elko, Nevada, on April 6, 1926.

The first alligator farm was established in 1892 at Anastasia Island, St. Johns County, Florida, by George Reddington.

America was first used as a geographical designation by Martin H. Waldseemuller in his book Cosmographie Introduction published in April 1507, at St. Die, in the Vosques Mountains of Alsace.

Camels were first imported for commercial purposes on May 14, 1856, to Indianola, Texas, a town 120 miles south of Galveston. There were thirty-four camels in this load.

Cows were first imported to this country from Devon, England in March of 1624, by Edward Winslow.

The first arithmetic book written in this country was Arithmetic, written by James Hobber and published by James Franklin in Boston, Massachusetts, in 1719.

In one state — Massachusetts we think — it is against the law for a husband to kiss his wife on Sundays.

"Our earth is degenerate; bribery and corruption are common; children no longer obey their parents; every man wants to write his memoirs; and the end of the world is evidently approaching." These words were impressed on a clay tablet by an Assyrian forty eight centuries ago. It was recently dug up in Turkey.

It sounds like this last item might have been written somewhere in the United States, February 4, 1966, doesn't it? I guess the world has always been beset with problems and that most of the ones we have today are old.

Until next time we meet, Happy Triviaing!

FREEDOM REQUIRES WORK

When freedom is the object of a war, men work and fight desperately to win it; however, if this war is won, too many men stop fighting. Very few countries have had their freedom given to them; they had to fight for it. Yet, today, several of those countries have lost their freedom. Why? What happened to them? The people got lazy. They had what they wanted, so they quit working. What a tragedy it is when we fail to realize that freedom is fatiguing! It requires ceaseless attention and watchfulness. It requires fear and anger — the fear of losing the war against Communism, and anger at those who don't care enough to help fight this war.

We cannot neglect our duty and say, "I will do it tomorrow." Tomorrow may never come. Today, right now, is the time to act. However, we must not blunder into something that we do not understand. Part of our job is to learn what real freedom is, and then how to preserve it. Not only does this job belong to our school systems, but also it belongs to the mass communication media. We have freedom of speech and of the press, so we must use it in the best way possible. The public must be accurately informed on local and world affairs. It is the duty of the public, in return, to absorb this information and use it to promote freedom and justice throughout the world.

Dimmitt FFA Plans To Sell Calendars

The sixth regular meeting of the Farmers of America was called to order February 1, with opening ceremony at one o'clock p.m. in the High School. President Ray Bradley presided. There were fifty-three members present and no guests. Treasurer Charles Summers gave a report on the current financial status of the Chapter; secretary Bruce Fuller read the minutes of the last meeting.

The Chapter decided to sell FFA calendars in order to pay for the FFA banquet which scheduled for May 3. In further business, it was decided that on February 8, the five Greenhands that weren't initiated at the first of the year would be initiated. The meeting was then adjourned.

Library Receives New Books

The library has recently received some new books that are about great works of literature. One of these, "Books That Changed the World," contains essays, addresses, history, and criticism. The author selected sixteen books that have had great power and influence from the days of the Renaissance until now. The book tells how each came into being, and it gives descriptions of the authors and their times. How the course of human existence was affected by them is also explained.

A few of the well known books discussed are: Common Sense, by Thomas Paine, Civil Disobedience by Thoreau, Uncle Tom's Cabin, by Stowe, Origin of Species, by Darwin, and Interpretation of Dreams, by Freud.

Another new book, The Story Behind Great Books, discusses the works of many authors including Alcott, Clemens, Cooper, Dickens, Doyle, Eliot, Hawthorne, Kipling, and Verne.

The book tells a little about each author and how he happened to write his stories. These articles about the authors are often as interesting as the authors' own stories. The descriptions are based on historical facts; however the author, Elizabeth Montgomery told how she imagined these authors thought, spoke, and acted.

Three to six pamphlets of a new series containing reports on seventy-five nations of the world are received by the library each month. The contents, based on interviews with diplomats, is arranged into 101 facts about the nations; hence the title 101 Highlights. More books have been ordered that will be of help in world geography, world history, economics, and American history.

Friday night the Bobbies won their second district game with a 50-48 win over Friona. Debra Summers sank the winning basket with only six seconds left. The

Bobcats trailed at the end of the first period 10-7, but took a 42-29 lead going into the last eight minutes.

The 'B' team beat Olton Tuesday night 50-32. Doug Hays was the high point man with 19.

Class Meetings

Thursday, February 5, 1966, the freshmen, sophomore, and senior classes met during activity period.

The senior class meeting was called to order by Dennis Lytle, president. "Try to Remember" was decided on as the class song.

Sheets were handed to each class member to fill out, recording all their honors received in high schools.

SOPHOMORE

The sophomore class met to discuss the class dues situation. The dues are set at \$5.00 a year to help pay for the Junior - Senior Banquet next year. It was decided that the ones failing to pay their dues would be barred from the banquet next year.

Two parliamentarians were elected to help keep the class in order. Jack Bradford and Doug Hays were elected to this position. The class also decided to "take names" and turn them in to Mr. Fuquay.

The meeting was adjourned.

FRESHMEN

The freshman class met and elected Doricell Oldham as Annual Queen candidate.

The class also elected Mrs. Narrell as its second sponsor. Mr. Cooper is the other sponsor.

The meeting was then adjourned.

The boys, as well as the fans, were disappointed that our little group did not get to play. But, they were rewarded with a victory, 61-44.

Besides our varsity boys, we have another pretty important ball team. Our "B" team. These boys deserve a little, if not a lot, of recognition. So, we'll start off by naming them. They are: Claudio, Jack Bradford, John Hays, Doug Hays, Bill Glidewell (Boob), Bill Hunt (Windy Bill), Charles Hodge, Taft Finch, Donny and Ronny Johnson, Ronny Hutton, Ronny Prather, Toot, Bartley, etc.), Stanley Byrnes, Joe Bob Sanders, Gary Crum, (Farmer), and Lint Merritt. That is a lively sounding group; that's because these boys are a lively group.

Dimmitt Student Describes An Ideal Date

One day a good friend of mine came to see me for some advice. He had just begun to date thought there was something lacking in his relationship with his dates. I wasn't sure just what he was looking for, so I just told him what my idea of an ideal date would be.

Of course, any girl likes her date to be handsome, rich, popular, and to drive his own car. Almost any girl would trade these qualities, however, for courtesy, respect, neatness, and a good time. No matter how handsome a boy is, he is far from the ideal date if his hair isn't combed and his shoes aren't shined. Good grooming is the epitome of attractive appearance. You really can't have one without the other.

It is nice for any girl to have a date with a boy who can spend money on her, but very few girls would choose money over courtesy, especially if the money is accompanied by conceit (and it usually is). A girl would much rather just go to the show and be shown simple courtesy, such as opening the door for her and being on time; than to go to an expensive restaurant and be treated rudely. No amount of money can make up for rudeness. Being courteous doesn't take any more trouble than being rude; it just takes more taste.

If a person is popular, that does not necessarily mean that a girl will enjoy being on a date with him. Popularity does not mean that a boy will respect a girl and make her evening enjoyable just because of his presence. He should make every effort to see that his date is having the best time possible under the circumstances. He should respect her feelings and wishes, and should do what she wants to whenever possible.

My friend listened to my opinion and seemed to be satisfied. I don't know if he is taking my advice, but the girls he dates are apparently very happy girls.

Thoughts For The Week

"Our past contains our future." — Swinbourne

Today's actions lead to tomorrow's failures or successes.

The future is limited only by ourselves.

Life leaps like a geyser for those who drill through the rock of inertia.

A bell is not a bell till you ring it.

And love in your heart wasn't put there to stay,
 Love isn't love till you give it away.

FOUR THINGS A MAN MUST DO

1. To think without confusion — clearly
2. To love our fellow man — sincerely
3. To act from honest motives — purely
4. To trust in God and Heaven — securely

Joc Louis, of Washington, was asked why he hadn't been more active in the Civil Rights movement, he replied, "Some people do it by shouting, some by marching, some by giving lots of money. I do it my way — behaving. All ways help."

Pre-Vocational Classes Hold Competition

The pre-vocational eighth grade English classes taught by Mrs. Kountz have been studying composition. Last week they wrote a theme entitled, "The Many Wonders of —", The Best of the lot. Each student chose what he wrote about.

First place went to Marcellus Nance, who wrote about the "Many Wonders of a Ghost in a Haunted Castle." Edwin Byrd tied for first with his theme, "The Many Wonders of Hot Rod Harry." There was also a tie for second place between Danny McDowell and Herminia Sandoval. The third place winners were George Bernal and Jessie Bernal.

Asks Blockade, Buffer-Zone Study

Rogers Urges U.S. Halt Aid To Nations Trading, Recognizing North Viet Nam

WASHINGTON, D. C. (Special) — Congressman Walter Rogers, long an opponent of U. S. foreign aid programs, said Saturday American assistance "should be suspended immediately to nations trading with or maintaining diplomatic relations with the Communist regime in North Viet Nam." Congressman Rogers said he would introduce a resolution Monday in the House of Representatives "so that the sense of Congress may be expressed in this very important matter."

Noting that U. S. military forces are engaged in a war of "unforeseeable duration and proportions," the Congressman urged that "all steps be taken now to hasten victory." He added, "It is a disservice to our fighting forces to fail to support them by taking steps to curb commerce to North Viet Nam."

Congressman Rogers said also he is urging Department of Defense officials to study the feasibility of (1) a naval blockade of North Viet Nam seaports, and (2) creating a 5-to-10 mile wide "defensible" buffer-zone between North and South Viet Nam — and extending across the so-called Ho Chi Minh Trail in neighboring Laos — to curtail the flow of men and equipment to the north.

"The major problem in the war is the aggression from North Viet Nam. By a combination of bombing and land and sea blockades, the United States can move toward victory by halting North Vietnamese support," Congressman Rogers said.

Foreign assistance authorizations and appropriations acts passed by Congress for the current fiscal year permit the Administration to halt foreign aid to nations trading with North Viet Nam, if the need is apparent. The effect of Congressman Rogers' resolution would be to encourage the use of the law by showing the will of the House and Senate. In addition, it would urge the suspension of assistance because diplomatic missions are maintained in Hanoi.

Congressman Rogers had consistently opposed foreign aid bills before the House of Representatives — both those to authorize foreign aid projects as well as those appropriating foreign aid funds. The Congressman said Saturday he would continue to oppose U. N. participation in foreign aid "because of its demonstrated, documented ineffectiveness in furthering U. S. efforts in the continuing Cold War and Hot War with Communism."

Rogers Sees Congressional Approval Of Lake Meredith Recreation Funds

WASHINGTON, D. C. (Special) Congressman Walter Rogers said today he expects Congress to approve without change a \$510,000 developing recreation facilities at Lake Meredith in the fiscal year beginning July 1.

The expenditure would complete a two-year program authorized by the Rogers Canadian River Recreation Bill passed in 1964 to provide \$1.1 million in recreation facilities development at sites around the reservoir. In the current fiscal year, \$590,000 is being expended, the Congressman said.

"Full recreation development will be pushed in the years ahead," Congressman Rogers said. "The National Park Service is going to give its full cooperation for the proper development of Lake Meredith recreation, carrying out the intent of Congress as expressed in the Rogers Bill."

Meanwhile, the National Park Service will receive by February 15 bids from prospective concession operators who wish to develop facilities in the Fritch Fort-ress area of the reservoir. The concessioner chosen by the Park Service will be required to invest approximately \$865,000 to develop, in a two-phase program, such facilities as a motel, restaurant, marina, and golf course.

Congressman Rogers said the proposed budget for Fiscal Year 1967 calls for an expenditure by the Park Service of \$67,000 for initial development of facilities at the Alibates Flint Quarries and Texas Panhandle Pueblo Culture National Monument. The site adjacent to the Alibates recreation area on the south shore of the reservoir was made a National Monument — the first ever designated in Texas — under legislation introduced and pushed through to enactment by Congressman Rogers. His bill to name the reservoir "Lake Meredith" also was approved.

In addition to funds to begin work on the Alibates National Monument, the Park Service budget also calls for \$123,000 to support work of the service in administering and enhancing facilities at the lake. The Park Service, under an agreement with the Canadian River Municipal Water Authority, began active supervision of recreation development early last year.

Fourteen million dollars has been requested by the Bureau of Reclamation for Fiscal Year 1967 to complete work on Sanford Dam and aqueducts carrying water to 11 Panhandle - South Plains CRMWA cities, including \$11,733,809 for pipelines; \$550,000 for pumping plants; and \$227,510 for permanent operating facilities, according to Congressman Rogers.

SPORTS AFIELD

By Ted Kesting

Those big steelhead and salmon rivers of the Pacific Northwest call for special boats, called drift boats.

There are all kinds of variations and at least two distinct types: the McKenzie River boats and the Rogue River boats. The McKenzie is a faster river than the Rogue, and the McKenzie boats carry two men—a fisherman and a guide. They are lighter, have more freeboard. The McKenzie boats float stern first, with the guide controlling the boat from the oars in the bow, and the fisherman stands braced against the transom facing downstream.

Rogue River boats carry more beam on the bottom and usually drift with two fishermen and a guide—three and a guide in a pinch. They float downstream with the bow first, and the fishermen face the baits from a comfortable forward seat. But the guide, although rowing backward (the most powerful way to row), also faces ahead. The reason he can do this is that the boat's stern is cut sharply up out of the

water, so that it becomes almost the same as a bow. The water can't "catch" on the stern, as in a conventional boat, but slips easily underneath the bottom.

What makes this drifting so unique is that, unlike the situation on other float trips, in which the anglers cast to likely spots, the drift boat, controlled by the oarsman, in effect does the fishing.

"With drift boat control, the guide probes every likely spot with the lures," points out Zack Taylor, Boats Editor of Sports Afield Magazine. He may zigzag side to side across the river, back and forth. He may bounce them along one rocky undercut bank, retreat and drift down the other bank. He often slows or holds steady against the current's movement while the lures wander behind rocks and through boils and eddies.

The same boat qualities that allow precision handling of the lures also give the skipper complete control over the vessel in the dangerous white-water stretches that separate the pools of these mountain-drainage rivers.

Girl Scout Representative Invited To Explain Program

Mrs. Thelma Vestal, District Advisor of the Caprock Girl Scout Council, was in Dimmitt recently at the invitation of some persons interested in starting a girl scout troop in Dimmitt.

Mrs. Vestal said that she thought it would be good for Dimmitt to start a girl scout organization. She said that if just one troop was organized, it would be easy for the troop to fizzle without a full organization to support it.

In speaking of Girl Scouts, Mrs. Vincent Black, Scout worker from Tulia said, "When Juliette Lowe set about organizing the first troop in 1912 she said, 'I've got something for the girls of Savannah, all of America and all the world.' She really meant something for the girls — not for well-meaning adults inclined to take over the thinking and planning."

In an article written by Mrs. Black about Girl Scouts, she further said, "Girl Scouting gives the girls a chance to belong to a democratic group, to work, play and plan together, to explore hundreds of activities and interests from the kitchen to the practical code of living and a way to carry it out."

"Girl Scouting gives to adults the satisfaction of seeing other girls develop in a purposeful program guided by trained leaders."

"As a volunteer movement, it offers adults a constructive outlet for their desires to assume civic responsibilities, acquire new interests and skills and meet new people in a variety of activities. Girl

Scouting gives to the community an organized program for girls that provides the values of recreation, education and citizenship training."

"The community also derives great benefit from countless services given to agencies by Girl Scout troops. In turn, the community backs Girl Scouting through its facilities for meeting places and its wonderful response to the Council's Annual Cookie Sale and our yearly Fund Drive."

"The basic beliefs of Girl Scouting as embodied in the laws and promise are: Belief in God, Belief in Country; and Service to Others."

"These beliefs are put into action with the leaders guidance." Mrs. Vestal said that the Girl Scouting program has within its organization activities for girls beginning in the second grade through high school. Divisions of Girl Scouts are: Brownies, second and third grades; Junior, fourth, fifth and sixth grades; Cadettes, junior high grades; and Senior Scouts, high school grades.

In the Caprock District, Mrs. Vestal said that there are 372 troops with approximately 5,475 girl scouts.

While in Dimmitt, Mrs. Vestal visited with Mrs. Steve Taylor and Mrs. Frank Wise, who said they were interested in trying to start some kind of program for girls in Dimmitt.

Melvin Hooten Receives B.A. Degree

Melvin Richard Hooten, Amherst, is among 14 seniors that completed requirements for graduation in January at Wayland Baptist College.

Son of Mr. and Mrs. Doyle Hooten, Tulia, he is receiving the B. A. degree with a major in religion and a minor in English.

A 1960 graduate of Tulia High School, he has served as social chairman of the Ministerial Alliance and was president of the Baptist Student Union at Tarleton State in 1960-61.

Hooten plans to attend Southwestern Baptist Theological Seminary in Fort Worth following his graduation.

All candidates for January graduation will take part in May 23 Commencement exercises when the largest Senior Class in Wayland's history, around 100, is to be graduated, according to Registrar Audrey Boles.

Hooten is presently employed by Castro County News.

America lives by buying and selling, barter and exchange. Magazines will alone carry more than a billion dollars in advertising this year to sell goods and services in the United States and nearly \$750 million in England.

An investment in Your Future

ATTEND CHURCH

The RESPECTED WORD

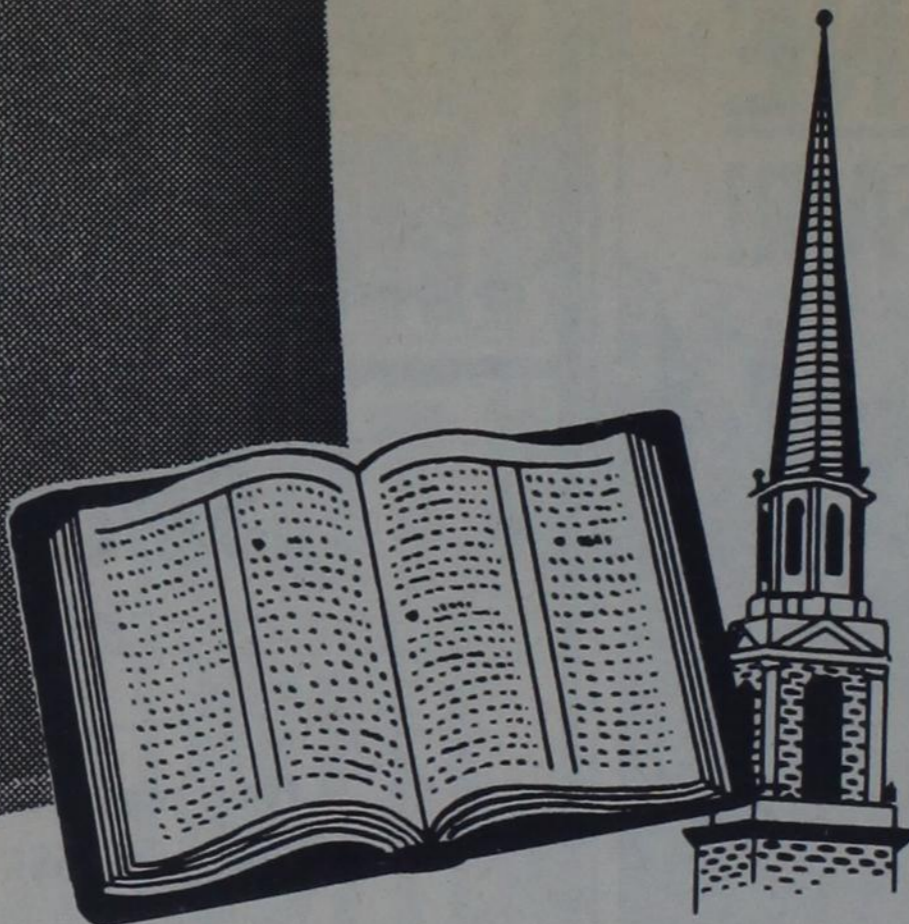

The bible is a book translated into every known language. It is the word that men have died for, in order that it may be available to all men. It is the textbook for God's people.

The bible, itself, is not worshipped, but is respected, for it is the story of God and his relationship to man. It is man's guide for worship and daily living.

Attend church regularly, study, and seek God's will in your life.

"I wait for the Lord, my soul doth wait, and in his word do I hope."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Vo-Ag Students Build Stock Table

The Dimmitt High School Vo-Ag students have just put a new stock table into use that was recently completed in the Vo-Ag shop. It was constructed out of scrap from an old combine and used pipe. A wench was devised from an old automobile transmission.

To have purchased a new stock table would have cost approximately \$400 but by building one out of scrap required an investment of less than \$25.

The table will enable the students with calves to take it home behind a pickup and trim them without having to throw them. There is little struggle from the calves and their feet are at a convenient working height.

The Dimmitt FFA boys will have sixteen calves entered in the Castro County Junior Livestock Show scheduled for March 10-12.

Have you ever had the pleasure of giving someone a promotion? Let me promote the speaker for our Awards Banquet from the office of Sister to Mother. Well, actually she was Mother Angela Claire all the time but regretfully not in this column. Our memory was faulty — as was our information.

Anyway, she's just great and I'm looking forward with pleasure to Saturday night.

Our meeting Wednesday, February 9, will entail the appointing of a nominating committee for

next year's slate of officers.

Another item of discussion will be the litter around the hospital grounds. We're going to need some ideas on combatting this situation. And it is not limited to the hospital grounds.

The Church yards get more than their share. A young man I know had to clear away numerous beer bottles from the walk to get to his Sunday School class. That's a shame. Let's think about this and see what we can do to help remedy the condition.

See you at the Awards Banquet.

Walter Rogers' NEWSLETTER WASHINGTON

The responsibility of Congress is to pass sound laws. The responsibility of departments and agencies of the Executive Branch is to administer those laws well — and in line with the intention of Congress in passing them. Good lawmaking breaks down when it runs up against bureaucratic bumbling, mismanagement, or deliberate undercutting. As I have noted often, Congress is some times at fault for passing legislation so broad in scope that too many decisions are left to the discretion of administrators, who have been known to abuse their powers. And too often Congress is victimized by deliberate distortions of objectives intended under new laws.

As a case in point, I cite the farm program enacted last summer. The Department of Agriculture is administering this new law in such a way that substantial numbers of farmers are being hit in their pocketbooks — and this was never the intent of Congress in passing the farm bill. The problem has developed because of rules and regulations adopted by the Agriculture Department.

I am sending a letter to Agriculture Secretary Freeman to point up again the serious problems facing American farmers are facing because of what I am convinced is faulty administration of the new agriculture act. I am asking the Secretary to take necessary steps to correct the situation at the department level. If Secretary Freeman does not indicate a move to make corrections Congress will be asked to enact new legislation to do the job.

Despite Secretary Freeman's announced objective in pushing for enactment of the new farm program, that of maintaining farm income, the effect on feed grain producers and others in the grain trade has been the direct opposite. An evaluation of regulations issued to county ASC committees on November 19 made it clear that grain sorghum producers would face an average loss in total gross income of about \$3 per base acre. Soon after that, I and other Members of Congress made strong protests to Secretary Freeman asking that an adjustment be made in regulations. However, nothing has been done — and no explanation has been forthcoming.

Part of the problem lies in rules by the Department concerning the common High Plains conservation practice of skip-row cotton planting. Grain sorghum crops were planted, under past practices in the "skipped" land — the land left fallow between two or more rows of cotton — and the practice was a sound, economical one from several standpoints. The Department's change in regulations in the way this land is measured for participation in farm programs is having a serious effect on the producers. Department officials were well aware of the problem the change would cause; they were also aware that the stated intent of Congress was that no such change be made.

Secretary Freeman can make the farm program work as Congress intended. If he does not, I predict that Congress will reopen its debate on farm legislation — and that an increasing chorus of voices will be heard from Capitol Hill asking for Secretary Freeman's resignation.
