Storm Damage in Millions

A vicious windstorm and a two-pronged attack of heavy hail dealt a multi-million-dollar blow to Castro County's beautiful crops Sunday night.

THE DEVASTATING blow caused at least \$3 million worth of crop destruction in the county — and possibly as much as \$7 million worth—as winds up to 100 mph and hailstones as large as golfballs pounded crops that were almost ready for cash-in.

Although the storm struck less than half the county with its full fury, professional observers felt it cut the county's 1967 agricultural production by 10 to 15 percent because of its timing.

The storm caught tomatoes, carrots, potatoes and cucumbers in mid-harvest, pushed over thick grain sorghum fields that were just two or three weeks from cutting, stripped corn crops, defoliated sugar beets in the field and pulverized cotton, soybean and castor bean crops that were blooming and fruiting.

IT WAS PART of a 200-mile-long storm system that stretched southwesterly from the northern Panhandle to the South Plains, creating havoc throughout the region.

The turbulence that lashed Castro County was actually two storm belts—one that cut a mile-wide-swath through the north-central part of the county and another that chewed a wide path through Nazareth, Five Point, Sunnyside and on into Lamb County to Springlake and Earth.

The two-pronged storm almost wiped out several farmers, while others outside the two main hail channels suffered only minor damage.

DESTRUCTION ranged from moderate to merciless. Edd McLeroy, vice-president and farm representative of First State Bank, estimated the worst hail less on sugarbeets at 10 to 15 percent, sugar content and tonnage combined.

But damage estimates on other crops in the main storm areas ranged as high as 75 to 90 percent on grain sorghum and 80 to 100 percent on cotton, beans, tomatoes and cucumbers.

The hail was typically spotty but the wind wasn't, and "what the wind didn't get, the hail did," according to one hard-hit farmer.

WORST HIT, apparently, were farms on both sides of Running Water Draw in the Sunnyside community, an area northeast of Nazareth, a strip in the Five Point area, and farms along US 385 near the Easter turnoff.

In Sunnyside, Weldon Bradley lost the roof of his store building and the Morrison Gin received extensive damage, including a demolished burr hopper. One airplane was demolished and one damaged.

Farms reported to be the hardest hit in the Sunnyside area were the Cluck Farms, Hubert Lilley, John, Sam and Punk Gilbreath, Troy Blackburn, Troy Jones and Lloyd Farris, although reports were sketchy and others in the vicinity obviously received heavy damage also.

TELEPHONE lines also were knocked out in Sunnyside.

In the Five Point area, Glenn Merritt, Jackie Harris and Allan Webb apparently caught the worst of it.

The storm knocked down a power line along the highway south of Hart and officers had to halt traffic until the dangerous line could be repaired. Hart was without power for almost an hour as .45 of an inch of rain fell in driving sheets.

JAMES WILHELM, eight miles northeast of Nazareth, reported a twister and golfball sized hail which caused heavy crop damage. Apparently the hail cut an eight-mile-wide path northeast of Nazareth, causing heavy destruction at the farms of Leonard and Francis Wilhelm also.

Mrs. Dan Schmucker reported that a twister a year ago destroyed one of their farm buildings, leaving only the roof. She said that Sunday night another twister visited their farm and this time tossed the roof onto a nearby combine.

In addition to the hail and wind.

County Enrollment Plunges

Castro County's schools have 227 fewer students than last year at this time.

Enrollment is down 107 in Dimmitt, and 120 in Hart.

MAIN REASON, school officials say, is a drop in the number of migrant workers' children in the elementary grades. The Sept. 1 enrollment figures filed with the state are likely to climb later in the year.

Dimmitt's public school enrollment is the lowest since 1963, and the drop is all in the junior high and elementary schools.

Dimmitt High School's enrollment is actually up 26 over last year, Supt. Paul Hilburn reported. The DHS enrollment has climbed steadily in the past five years, from 295 in 1963 to 399 last year and 425 this year.

But in Dimmitt Junior High, enrollment took a sharp drop of 52 students, mostly in the seventh grade. On Sept. 1 of last year, junior high enrollment stood at 321. The 1967 enrollment figure is 269, lowest since 1963. The eighth grade and special education actually increased slightly, but the seventh grade dropped by 55, from 162 to 107.

IN NORTH Elementary School, the number of students is down from 499 last year to 456 this term. Enrollment has dropped from 173 to 148 this term. Enrollment has dropped from 173 to 147 in the fifth grade, and from 27 to 14 in special education. However, the sixth grade

showed an increase of 25, from 122 last year to 147 at present.

Despite more pupils in Head Start and special education, South Elementary School's enrollment is down from 616 last year to 578 this year, a drop of 38. First grade enrollment is down from 229 last year to 192, second grade has dropped from 159 to 153, and third grade is 158, compared with 166 last year. Head Start enrollment is up from 37 last year to 49 at present, and special education is up from 25 last year to 26 now.

In South Elementary School also, enrollment is the lowest since '63.

HART'S SCHOOLS grew from a 671 enrollment in 1964 to 700 in 1965 and 750 last year. But this year the pupil total took a sharp 16-percent dive to 630 students, 120 less than last year.

Supt. Andy Gardenhire attributed the decrease to a smaller registration of migrant workers' children.

AT NAZARETH, Supt. John Slavik reports a first-of-school enrollment of 348, with not over a 1 per-

cent variation from last year's enrollment at this time.

The Nazareth School enrollment by grades is: Seniors, 25; Juniors, 23; Sophomores, 23; Freshmen, 19; 8th Grade, 25; 7th Grade, 31; 6th Grade, 25; 5th Grade, 38; 4th Grade, 30; 3rd Grade, 37; 2nd Grade, 32 and 1st Grade 40. Total enrollment in the Nazareth High School is 90, and in the Grade and Junior High School 258.

All schools have the services of truant officers — they're labeled as "attendance counselors" now — and are backed by a state law that requires all children 7 through 17 to attend school. The teeth of the law are heavy fines for parents keeping their children out of school or farmers working children of school age during

school hours without permits.

So with harvest time coming up and the new migrant workers' complex building here, enrollment is likely to climb within the next three months. But whether monthly enrollment totals can keep pace with the same tallying periods last year is doubtful.

THROUGHOUT the state, public school enrollment is expected to be up 42,000 over last year. The expected statewide total of 2,598,000 will include approximately 1,418,000 students in grades 1 through 6 and 1,179,000 in grades 7 through 12.

So Castro County's enrollment pattern is just the opposite of the statewide trend, with secondary enrollment climbing while elementary enrollment drops here.

Boys, Girls to Vie Saturday In Castro County Youth Fair

Divers Will 'Fly' Sunday

Sky divers from West Texas and New Mexico will perform hundreds of jumps, free falls and specialty acts Sunday afternoon when the Easter Lions Club stages its big Sky Diving Contest.

THE CONTEST will begin at 1 p.m. at the "Easter International Airport" on the Frye Farms at the intersections of Farm Roads 1055 and 1057. Both professional and semi-pro jumpers will perform.

In addition to falling humans, the show will include plane rides for visitors, an antique plane display with trophies for the best preserved models, and a concession booth.

Admission is free. **AN ADDED** attraction of the show will be sky diver Bob Hulse, who will jump from 10,000 feet wearing a cut-away chute.

PLUNK! — Cropduster pilot Ronnie Elder "kept his cool" when his plane's engine quit Friday afternoon, and averted a serious mishap just outside Dimmitt's south city limits. He jettisoned his spray load and made a forced landing in high weeds. The landing went smoothly until the right landing gear collapsed in the bumpy weed field, but Elder was unhurt. This photo was taken by City Marshal W. W. Jones. The plane belongs to Tidwell Flying Service.

Plan Available For Horse Barn

With careful planning and wise use of materials, a well-constructed saddle horse barn can be built at minimum cost.

THE PLAN, developed by the US Department of Agriculture Cooperative Farm Building Exchange, provides enough space for four 12x12 foot box stalls and a combination tack and feed room, reports W. S. Allen, Extension agricultural engineer at Texas A&M University.

The barn, as shown in the plan, is 60 feet long and 12 feet wide. However, if you need to add more stalls, you can vary the building length. Build all the stalls in 12-foot units.

The roof overhang, which is eight feet wide, extends over a covered area that provides a shelter area for saddling, grooming and other chores.

Detailed working drawings of Plan No. 5994 may be obtained from your Extension agent's office free of charge, Allen said.

TEXANS drive almost 55 billion vehicle miles a year. The Texas Highway Department estimates travel will increase by 40 percent by 1985.

MORE THAN 20 thousand bridges are on the 68,000 miles of Texas highways.

Bible Thoughts. Convenience or Conviction. By Ronnie Parker. With some, religion has become a matter of mere convenience. To others, their religion is undergirded by conviction that brings them to sacrificial living. What about you? This is the day of bargain counters and too many are searching for a bargain in Christianity. Often we want an easy way into the church, an easy going life while in it, and an easy going way out if the road gets tough. Where did we ever learn of a 'casual' road to heaven? Paul said that if we reign with him we must also 'suffer with him' Rom. 8:16. If there is no pain in our life for Christ, can we say that we are his? We want Christ without His cross. We must beware of a religion that never makes us uneasy because of our sins, or one that calls for no self denial, or one that never keeps one from a single worldly pleasure. As long as our religion is a matter of convenience — of spare time, spare cash, with little difficulty — we are in trouble. Jesus said, 'strive to enter in by the narrow door' (Lk. 13:24). The man who has a religion that cost him nothing has a religion that is worth nothing. YOU ARE ALWAYS WELCOMED AT ALL OUR SERVICES. 4th AND BEDFORD CHURCH OF CHRIST

for the Days AHEAD

Even now trees are being felled, cords of wood cut, in preparation for cold winter days which are sure to come. Woodcutters are preparing for the days ahead, to bring comfort against the cold.

To prepare for our future "cold days," periods of sadness, times of bereavement, and times when we are tempest tossed, begin now to attend church regularly and let God, His Church, and His people help you to meet any situation in life.

"Blessed be God, even the Father of our Lord Jesus Christ, the father of mercies, and the God of all comfort; who comforteth us in all our tribulation, that we may be able to comfort them which are in any trouble, by the comfort wherewith we ourselves are comforted of God." 2 Cor. 1:3, 4.

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE. The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God. Easter

Lions Clubbers 'Pass the Goat'

By RUBY STONE
 "Lucky" members of the Easter Lions Club will find themselves entertaining an uninvited guest in weeks to come. The club will be divided into two teams, and the team having the fewest members present at each meeting will have to take care of a new "member" — the Easter Lions goat.
 Absentees may wake up to a strange sound some Tuesday morning, as the goat will be "staked out" in someone's front yard after each meeting. The lucky party will also be fined five cents for each pound the goat loses during his visit.

BENNY HILL visited in the Moss home Friday night.
 Gary Moss is recuperating at home after undergoing surgery in the Deaf Smith County Hospital.
 Mrs. Johnny Brannon is visiting the Glenn Sells at the Easter Cafe.

The Melvin Bartons have moved into Dimmitt for the school year.
 Mr. and Mrs. J. H. Flood spent several days last week transacting business in Lawton, Okla.

MRS. GORDON SIMMONS of Tulia visited the Loy Stones Saturday.

Mrs. W. A. Epperson visited this week with Mrs. Ray Smith, who underwent surgery in Hereford.

The Jack Tuckers visited with the Moss family Friday.

Mr. and Mrs. J. H. Flood spent Sunday in the home of their son, Mr. and Mrs. Edwin Flood in Amarillo.

Mr. and Mrs. Lynn Grayson and children of Albuquerque, N.M., spent Sunday in the Loy Stone home.

Mr. and Mrs. Joe H. Cowen visited Sunday with the Loy Stones.

THE FIRST fall meeting of the Easter Club will meet in the home of Mrs. Ruby Stone next Thursday. We urge all members to be present.
 Clyde and Betty Renfro visited the Bob Wards in Tulia Sunday.

Freeman Boosts Farming Career

Young people have been challenged by Secretary of Agriculture Orville L. Freeman to look to agriculture for careers of excitement and service — and profit.

HE SAID, "Agriculture has been, is, and I believe, will continue to be the pace-setter of our nation's advance." There are more than 500 distinct occupations in eight major fields in agriculture, including farming.

The decline in farm numbers, he said, indicates farming's status as a growth industry, one in which output per man-hour rose nearly three times as fast as that of the rest of the economy from 1950 to 1965.

TOURISTS FOR A DAY on model milo plots throughout the county last Thursday were these Dimmitt Young Farmers. From left are Monty Boozer, David Cole, Glenn Odum, Gary Moore, Jerry Varner, Danny Bruton, Rayphard Smithson, Clark Dobbs, and Ben Holcomb. Also taking the tour but not

pictured was John Quinby, advisor of the chapter. Each member showed his 10-acre plot during the tour. All plots are entered in a club contest to promote higher yields and practical experience in production efficiency.

Young Farmers Tour Test Plots

Dimmitt's Young Farmers last Thursday toured members' milo fields which are entered in the milo efficiency contest being conducted by the chapter.

DURING THE tour, the young producers gleaned information which included several different varieties of hybrids. Each Young Farmer explained his seeding rates, fertilizer rates and water applications as his test plot was toured.

Purpose of the contest is to find the combinations that will make the most profit per acre. Accurate

records must be kept by each contestant to determine the exact cost per 100 pounds of milo. Prizes will be awarded by the chapter to the winners.

THE CONTEST was started last year on five-acre blocks, and this year the Young Farmers decided to increase the test plots to 10 acres each.

The tour started at 1 p.m., and the first stop was at the Gary Moore farm. From there, the entourage visited the farms of David Cole, Danny Bruton, Monty Boozer, Glenn Odum, Ben Holcomb and Jerry Varner.

Recreational Projects Profitable, FHA Says

Farmers in Castro County may be able to develop income-producing recreational projects with Farmers Home Administration supervised credit, according to Donald R. Jennings, county supervisor for the federal agency. **JENNINGS SAID** approximately 1,100 US farmers and rural groups have borrowed some \$65 million to develop rural recreation projects during the past five years.

"Nearly all the farmers who have developed recreation projects with Farmers Home Administration loans showed some profit in 1966," he said. recreation area on their farms that they can develop and exploit should analyze their situation thoroughly. If the project is feasible, financing may be arranged through my office," Jennings said.

AMONG THE more successful projects that have been financed with Farmers Home Administration loans, according to Jennings, are golf courses, marinas, hunting projects, camping and picnic areas, vacation farms, swimming pools and fishing facilities. Youth camps seem to be the most profitable. They showed an average profit of \$2,670 in 1966.

Farmers Home Administration uses its farm operating and farm ownership loan program to finance recreation loans. Farmers can obtain a maximum of \$35,000 for operating expenses, including the operating costs of farm-based recreation enterprises and \$60,000 for a real estate program, including development of land and buildings for recreation purposes.

These loans carry a 5 percent interest rate on the unpaid principal. The repayment period of loans secured by real estate may not exceed 40 years, while that secured by chattels has a 7 year limitation. Such credit is only extended to those who cannot obtain it through normal lending channels at reasonable rates and terms.

DEVELOPING A community's recreational potential is big business in some areas, the Castro County Supervisor explained. Whole communities benefit when new recreation areas are created. Businessmen benefit by the influx of tourists. The community's tax base is increased, providing more money for schools and other public services.

Farmers Home Administration also makes loans to community groups for financing recreation facilities such as golf courses, swimming pools, tennis courts, lakes and ponds. The Castro County Recreation Center is being built with such an FHA loan, he noted.

COMPLETE information on loans to individual farmers and community groups for recreation purposes, along with details about other Farm Home Administration credit programs, may be obtained from Jennings at his office located in the basement of the courthouse in Dimmitt, or at 140

Enrollment Up; Teachers Still In Short Supply

By VERN SANFORD
Texas Press Association
With the tolling of school bells, some 2,598,000 students are back in Texas classrooms. Enrollment is 42,000 more than last year.

An estimated 122,000 professional people (teachers, principals, and superintendents) are required in the 1,275 school districts in Texas.

TEXAS STATE Teachers Association reported a month ago that there were only 450 applications for 1,951 vacancies.

Texas Education Agency estimates \$1,350,300,000 will be spent on public school education in 1967-68. This is a four percent, or \$55,700,000, increase over last year.

During the coming year, Texas will be spending \$505 for each pupil. Average cost per child for 1966-67 was \$479.

With an anticipated continuing teacher shortage, TEA expects an increase in the number of teaching aides employed to do clerical and other non-teaching tasks. Nearly 5,000 of these aides are expected to be employed over the state, compared with 4,317 in 1966-67.

While enrollment continues to grow, some observers have noted that the two percent increase this year is not nearly as dramatic as the increases in prior years.

Grades one to six will enroll approximately 1,418,000 pupils and grades seven to 12 about 1,179,000.

CITY SALES TAX
A dozen Texas cities — including Austin — are rushing into special elections on the new one percent local option sales tax which became legal on Aug. 28.

Here's what the big hurry is all about: local levies approved in elections this month will be collectable Jan. 1. Elections after Oct. 1 would not provide money in the till until April 1.

Thirty days' notice is necessary to call elections — either by order of city governing bodies or in response to petition by citizens.

First cities to vote on the sales tax will be Elgin and El Paso. Their elections will be held Sept. 27. Aransas Pass, Corpus Christi, Elcetra, Henrietta, Nacogdoches, Orange Grove, Texarkana and Wichita Falls will vote Sept. 28. Voters in Austin and Taylor will go to the polls on Sept. 30.

CONNALLY UNDECIDED
Gov. John Connally returned from his African hunting expedition undecided whether he wants to travel Texas campaign trails again.

He told reporters that he may take several weeks or even months to make up his mind whether to seek a fourth term.

Lt. Gov. Preston Smith says he will run for governor whether Connally does or not.

Other candidates said to be considering 1968 races are:

—Don Yarborough of Houston, a liberal who has opposed Connally twice. He may run for the gubernatorial post again next year.

—Former Sen. Franklin Spears of San Antonio, who may run for lieutenant governor.

—House Speaker Ben Barnes who is ready to announce for lieutenant governor if Connally runs again, and for governor if Connally retires.

COTTON PLOW-UP
John C. White, state agriculture commissioner, has extended the cotton stalk plow-up deadline to Sept. 10 in Cameron, Willacy and southern portions of Hidalgo and Starr counties.

White said 100 percent mop-up is necessary to destroy winter hibernation quarters of the destructive pink bollworm. Bollworm used to destroy every third bale of cotton in the Rio Grande Valley. Now it does only nominal damage, usually late in the season, says the commissioner.

NEW LAWS EFFECTIVE
Major new laws went into effect within the last week.

Among the most significant: —"Medicaid" implementing act to free medical benefits to 350,000 Texans on welfare rolls;

—Minimum age for drivers increased to 16;

—Changes in the 1965 Texas Code of Criminal Procedure designed to strengthen law enforcement officers;

—New hours for Texas liquor stores — 10 a.m. to 9 p.m. except Sunday;

—Eligibility of 10,000 non-citizens for old age assistance payments — if they have lived in the US 25 years or more.

SHORT SNORTS
Acting Governor Preston Smith ordered a special election for Nov. 11 to replace Rep. Jesse T. George of Levelland, who resigned effective Sept. 5 to accept a Washington post as congressional liaison officer with the Small Business Administration.

Atty. Gen. Crawford Martin has announced these additions to his staff as assistant attorneys general: Jim D. Vollers, Goliad; Alfred L. Shepperd, Odessa; H. Wayne Gillies, Angleton; Donald Keith, Houston; and Robert B. Davis, Jourdanton.

Railroad Commission ordered Eastland County oil and gas operators to stop using unlined pits to dispose of salt water.

It's Youth Fair Time

By IRENE KEATING
September is here and 4-H activities are once again in full swing. The Castro County Youth Fair will be held in the assembly room of the courthouse Saturday. Entries close at 9:30 a.m., and awards will be presented at 4 p.m. The public is invited to come by and see what our young people are doing.

★
RACHEL CLEAVER, Esther McRee and I went to Stratford

to judge the Sherman County Fair. It's such fun to see what the people have made.

If you haven't been by Charles Heck's between Nazareth and Hart, you've really deprived yourself. Ann, his wife, has beautiful flowers — zinnias, marigolds and many others. They sure do look beautiful and there are such pretty colors. It reminds me of the seed company flower beds I saw in Colorado last month.

POTS AND PANS can be shiny even with hard daily use, if you know what metal each pan is made of and treat it accordingly. Wash aluminum utensils thoroughly in hot soap or detergent suds, then rinse with hot water. Remove stuck foods by boiling water a few minutes or by scraping with wooden spoon, plastic scouring pad or steel wool soap pad.

Remove inside discoloration by cooking tomatoes, rhubarb, apples

or other acid foods in the pan. Polished exterior surfaces need cleaning with a sudsy cloth or silver polish. Steel wool soap pads could scratch the surface.

Wash stainless steel in hot suds promptly after use to maintain and dry thoroughly. Moisture left on the surface causes a cloudy film. When food sticks to utensils, soak in warm suds and scrub with a cloth, sponge or fiber brush. Avoid using abrasive which could scratch finishes. Remove brownish or vari-colored "heat-tint" on pot bottoms with silver polish. Pans with copper bottoms are cleaned with vinegar or lemon juice and salt and a fine steel wool pad or commercial cleaner.

PREDICTING exactly how a person will face an emergency is impossible. So emergency preparedness authorities are taking the next best approach — emphasizing advance planning.

General patterns of emotional behavior apply in all emergency situations. Familiarity with these general patterns will better prepare you for the unexpected. Fear, anger or other similar emotional states can work for you, rather than against you. These often increase blood pressure, speed respiration and rate of heartbeat and give a feeling of added strength and aggressiveness.

★
FEAR SETS the stage for maximum action and spurs a person

to do things otherwise impossible. Sometimes, however, fear can cause a person to stop thinking clearly. In these cases, use a few words of sympathy and encouragement; assigning routine task to help people regain confidence; firm, but patient, restraint when necessary; small jobs, such as rearranging supplies or helping others, assigned to overactive people.

Help your children to handle emergency situations with less emotional strain. Talk with your children about what may happen, making the unknown more familiar and easier to face. Informed children are more likely to be self-confident.

Take along a familiar object, such as a toy or a blanket, when

entering strange or new situations with children. Youngsters need a sense of security, and reading a book to them may do the trick and keep their attention from the emergency.

★
ELDERLY people tend to become more confused in an emergency situation than the young or middle-aged. Calm, realistic assurance and quiet supervision goes far toward helping them regain composure.

When the emergency is over, lessen the strain by balancing the work load; doing one task at a time; getting away from it all for a while; talking about the situation; and trying to accept what cannot be changed. Discuss with your family now,

in the relaxation and quiet of your home, what you would do in an emergency situation. Remember, you may not have all of your faculties intact in an emergency.

TIPS FOR OUTDOORSMEN
by Vern Sanford

FINDING FISH IS EASY—Finding white bass is easy, providing you know how. Perhaps the easiest way on most of Texas' large impoundments is to watch for the birds. When you see a flock of gulls diving down into the water, it is a sign that the whites are chasing shad. And that's a cue for you to chase the fish. Cast a heavy, fast sinking spoon near the edge of the activity. You'll discover that the whites usually are deep down and dining on the injured shad that sink to the bottom.

Once in awhile you'll latch onto a big old lazy black bass down there, too.

FISHING THE POINTS—When you're fishing around points it's always safe to leave your outboard motor running. That way you can avoid slamming into the bank when a gust of wind hits your boat.

Another good idea is to reverse the motor and troll backwards.

all afternoon. The parade was just wonderful. The school band rendered a concert which was a delight to all who crowded in to hear them. A dance climaxed the day's activities.

More About:

Storm Damage

(Continued From Page 1)

rains up to 1.85 inches were reported north and east of Nazareth.

IN THE crossroads area six miles north of Dimmitt, heavy destruction was recorded on the Dale and Troy Maxwell farm, the Ruby Stone farm and the E. Lee Stanford place, farmed by E. M. Jones. J. M. Wright also reported heavy hail, with a 30 percent loss on his grain sorghum and nearly total destruction of his cotton.

"I've never been hurt that badly before," said Carl King after surveying his hail damage on the Ruby Stone farm. "My beets were topped, I had 85 percent damage to my maize, and some of my cotton bolls looked like they had been sliced with a knife."

The same channel of hail that hit these farms also cut through the farms of Dan Bruton, Roy Meacham, Len Woodburn, Walter Schilling, Ben Derrick and others in a southwestward line.

CHARLEY HILL, county ASCS office manager, accompanied Fred Bruegel Sr. and Allan Webb on a mile-by-mile survey of the worst hit areas and said later, "I imagine our county's production will be cut about 10 to 15 percent."

Latest dollar amount available on Castro County's agricultural production is \$46,549,171 in 1965, according to the county agent's office.

Castro County seemed primed to surpass that figure this year—until Sunday night.

Her veil of imported silk illusion, enhanced by a panel of hand-run lace, gently gathered at her pillbox headpiece and was complemented by Lily of the Valley lace which softly framed her face and fell into a chapel length train.

Her bridal bouquet was of white gladioli.

Shelly's Chatter

Town Settles Down to Routine

By MYRTLE SHEFFY Looks like our town has settled down to the regular routine - school, work, clubs and parties are all starting again.

The football scrimmage Friday evening with Eovina showed our boys up good - they are not "big, big," but they "try-try," so let's get with them now.

And church attendance is always better when school starts. MANY FOLKS took advantage of a long weekend to go places. Dr. Dennis Blackburn and wife, Jane, and County Attorney Jimmy Ress and wife Nancy spent a few days in the beautiful hill country around Kerrville.

Laura Jean Nadolski and daughter Linda and son Ed of Santa Maria, Calif., were here for a few days' visit with her parents, the P. L. Cunninghams and sister, Pauline and W. W. (Punk) Gilbreath.

And Aural Davis enjoyed having the three girls home. Keitha Davis went back to Galveston Monday to continue her medical school training. Janis goes back to Denton to school, and Suzie will practice teach here.

Some of the children of the Floyd Stanfords are here this week - their daughter, Mrs. Richard Little and two daughters of Austin, the Allen Stanfords of Lubbock, and Gordon and Diker and children of Dimmitt all enjoyed a barbecue supper together, then went to see "Texas."

Mr. and Mrs. Larry Bull are the parents of a new girl baby. Grandparents are Mr. and Mrs. Earl Bull.

CHARLES AND Lois Wales and children and Donald and Katy Wright and children spent a few days at Tyes Rites at the Cleavinger cabin here. Jimmy and Steve Green, students at A&M, were up to visit their sister at Merlon and their uncle Heywood Smith, who works at the ASC office here. He went there for a visit with all of them.

The James Bradfords went up to Conchas Lake last weekend before their son Bob goes back to Missouri University.

Jasper and Nell Proffitt and children visited his kin at Tahoka last weekend.

MR. AND MRS. Jerry Sandlin and Katy of Lubbock were here for the Labor Day weekend to visit their daughter, Jerry and Jimmy Jack Butler. Jerry said they attended a nice party at the Hereford Country Club Saturday night.

Do come to the Garden Club hat sale Saturday at the Bank. Jerry will help you find just the one.

Rex and Dorothy Sheffy and two sons visited her father, Mr. Smotherman, Sunday, in Duke, Okla.

Jim and Ina Cleavinger and sons Tom and Jim visited her sister and family at Arlington, then all went to see "Six Flags Over Texas." The Cecil Ginns also went to Six Flags a while back - he says the trip is worth the money.

MR. AND MRS. E. C. Nossaman of Cherokee, Okla., were weekend guests of their son Norman and family. They were among the guests at the "Texas" pageant Saturday night.

I met Bob and Carolyn Farrer at church Sunday. Bob is the high school teacher of speech and journalism. Carolyn teaches fifth grade. They live at S&K Manor. Carolyn's father, Weldon Clay of Dallas, was a Sunday guest and looking over our town.

I saw Elmer Hershey at church, also. He works at Fort Worth and is the son of the Howard Hersheys.

Mrs. Ira Brown is recuperating from surgery in a Lubbock hospital.

tal. She was in Plains Memorial for a few days.

TROY AND BETTY Schuder and children have moved to Hereford. Troy was our "Spudnut Man." He has now opened a shop on Park Avenue, near the high school there.

Dorothy Wright and her aunt, Sarah Northern of Amarillo, have returned from a trip to Hawaii. They toured the three islands and visited Sarah's nephew, Darrell Rumsey, who teaches school there and attends the University of Hawaii.

Mr. and Mrs. J. M. Birdwell were hosts at a Sunday get-together for his brothers and sisters, M. L. of Azel, Wade and family of Dimmitt, Mr. and Mrs. J. F. Revell of Electra, Mr. and Mrs. H. A. Speer of Hereford, Mrs. Allie Logan of Mineral Wells, and also their sons, Kent and Bill, and families. Their daughter and family, Bobbie and Harlan Dodd and girls, Darlene and Billie Sue, went to Fort Worth to visit a daughter, Mrs. Sandy Rhedes and her husband.

BLACKIE BLACKWELL is at St. Anthony's getting well from surgery. Sarah is with him.

Have you seen the camping bus that belongs to Dale and Marie Winters? They bought a city transit bus and outfitted it with a table, stove and beds. They were going to Palo Duro Canyon Sunday with the Ralph Smiths, Frank Wises, George Sikes and a few other folks. Ralph was taking a tent. The big rain and wind may have stopped them.

Dan Heard Sr. of Littlefield is a guest of his son and family, the Dan Heards. Dan Jr. has been in an Amarillo hospital for observation.

THE GLEN GODFREYS, Joe Ed and Joe Sheffy, the M. L. Simpsons, Larry Sanders of Hart and the E. M. Joneses attended the Boys Ranch Rodeo Sunday.

Mr. and Mrs. John Childers were hosts this week to his parents, the Childers and his sister

and family from near Abilene.

Mike Burkett is home a few days between weddings. He was best man for Jim Cowser in Colorado, and goes this week to Galveston to help his friend Ovis Spencer get married. He says he will probably enter the service.

Dricilla and Bob Stairs are back at Wayland after spending

the summer in Denver, where Bob was assistant pastor at a Baptist Church. They stopped here a while to visit her mother, Mrs. Rex Sheffy.

Carl and Frances King and children are home from a trip to Yellowstone National Park. Carl said the only crops that can compare with ours are in a spot in Idaho.

Hightower Represents State At Conference on Education

State Senator Jack Hightower of Vernon returned last week from White Sulphur Springs, W. Va., where he represented the State of Texas at the 16th annual legislative work conference of the

Southern Regional Education Board.

THE PROGRAM included a look at the function of two-year colleges, the relationship between private and state institutions and the impact of federal activity on the structure of state higher education programs.

Sen. Hightower pointed out that even though Texas has pushed ahead with its development of higher education facilities, much more needs to be accomplished to place a college degree within the reach of more high school graduates.

The 60th Legislature enacted laws exempting cold war veterans from paying tuition and fees to state colleges and universities, and also exempted Texans under 25 who are from low income families making \$4,800 a year or less.

Social Security Man Slates Visit

A field representative of the Social Security Administration will be at the Castro County Courthouse Wednesday to counsel local residents on matters pertaining to social security.

His office hours here will be 9:15 to 11:15 a.m.

Visits in Higgins

Mr. and Mrs. Franklin Latimer and family visited relatives at Higgins last weekend.

Young Farmers Tour Test Plots

Dimmitt's Young Farmers last Thursday toured members' milo fields which are entered in the milo efficiency contest being conducted by the chapter.

DURING THE tour, the young producers gleaned information which included several different varieties of hybrids. Each Young Farmer explained his seeding rates, fertilizer rates and water applications as his test plot was toured.

Purpose of the contest is to find the combinations that will make the most profit per acre. Accurate records must be kept by each contestant to determine the exact cost per 100 pounds of milo. Prizes will be awarded by the chapter to the winners.

TOURISTS FOR A DAY on model milo plots throughout the county last Thursday were these Dimmitt Young Farmers. From left are Monty Boozer, David Cole, Glenn Odum, Gary Moore, Jerry Varner, Danny Bruton, Rayphard Smithson, Clark Dobbs, and Ben Holcomb. Also taking the tour but not

pictured was John Quinby, advisor of the chapter. Each member showed his 10-acre plot during the tour. All plots are entered in a club contest to promote higher yields and practical experience in production efficiency.

Enrollment Up; Teachers Still In Short Supply

By VERN SANFORD
Texas Press Association
With the tolling of school bells, some 2,598,000 students are back in Texas classrooms. Enrollment is 42,000 more than last year.

An estimated 122,000 professional people (teachers, principals, and superintendents) are required in the 1,275 school districts in Texas.

TEXAS STATE Teachers Association reported a month ago that there were only 450 applications for 1,951 vacancies.

Texas Education Agency estimates \$1,350,300,000 will be spent on public school education in 1967-68. This is a four percent, or \$55,700,000, increase over last year.

During the coming year, Texas will be spending \$505 for each pupil. Average cost per child for 1966-67 was \$479.

With an anticipated continuing teacher shortage, TEA expects an increase in the number of teaching aides employed to do clerical and other non-teaching tasks. Nearly 5,000 of these aides are expected to be employed over the state, compared with 4,317 in 1966-67.

While enrollment continues to grow, some observers have noted that the two percent increase this year is not nearly as dramatic as the increases in prior years.

Grades one to six will enroll approximately 1,418,000 pupils and grades seven to 12 about 1,179,000.

CITY SALES TAX
A dozen Texas cities — including Austin — are rushing into special elections on the new one percent local option sales tax which became legal on Aug. 28.

Here's what the big hurry is all about: local levies approved in elections this month will be collectible Jan. 1. Elections after Oct. 1 would not provide money in the till until April 1.

Thirty days' notice is necessary to call elections — either by order of city governing bodies or in response to petition by citizens.

First cities to vote on the sales tax will be Elgin and El Paso. Their elections will be held Sept. 27. Aransas Pass, Corpus Christi, Electra, Henrietta, Nacogdoches, Orange Grove, Texarkana and Wichita Falls will vote Sept. 28. Voters in Austin and Taylor will go to the polls on Sept. 30.

CONNALLY UNDECIDED
Gov. John Connally returned from his African hunting expedition undecided whether he wants to travel Texas campaign trails again.

He told reporters that he may take several weeks or even months to make up his mind whether to seek a fourth term.

Lt. Gov. Preston Smith says he will run for governor whether Connally does or not.

Other candidates said to be considering 1968 races are:

—Don Yarborough of Houston, a liberal who has opposed Connally twice. He may run for the gubernatorial post again next year.

—Former Sen. Franklin Spears of San Antonio, who may run for lieutenant governor.

—House Speaker Ben Barnes who is ready to announce for lieutenant governor if Connally runs again, and for governor if Connally retires.

COTTON PLOW-UP
John C. White, state agriculture commissioner, has extended the cotton stalk plow-up deadline to Sept. 10 in Cameron, Willacy and southern portions of Hidalgo and Starr counties.

White said 100 percent mop-up is necessary to destroy winter hibernation quarters of the destructive pink bollworm. Bollworm used to destroy every third bale of cotton in the Rio Grande Valley. Now it does only nominal damage, usually late in the season, says the commissioner.

NEW LAWS EFFECTIVE
Major new laws went into effect within the last week.

Among the most significant:

—“Medicaid” implementing act to free medical benefits to 350,000 Texans on welfare rolls;

—Minimum age for drivers increased to 16;

—Changes in the 1965 Texas Code of Criminal Procedure designed to strengthen law enforcement officers;

—New hours for Texas liquor stores — 10 a.m. to 9 p.m. except Sunday;

—Eligibility of 10,000 non-citizens for old age assistance payments — if they have lived in the US 25 years or more.

SHORT SNORTS

Acting Governor Preston Smith ordered a special election for Nov. 11 to replace Rep. Jesse T. George of Levelland, who resigned effective Sept. 5 to accept a Washington post as congressional liaison officer with the Small Business Administration.

Atty. Gen. Crawford Martin has announced these additions to his staff as assistant attorneys general: Jim D. Vollers, Goliad; Alfred L. Shepperd, Odessa; H. Wayne Gillies, Angleton; Donald Keith, Houston; and Robert B. Davis, Jourdanton.

Railroad Commission ordered Eastland County oil and gas operators to stop using unlined pits to dispose of salt water.

It's Youth Fair Time

By IRENE KEATING
September is here and 4-H activities are once again in full swing. The Castro County Youth Fair will be held in the assembly room of the courthouse Saturday. Entries close at 9:30 a.m., and awards will be presented at 4 p.m. The public is invited to come by and see what our young people are doing.

★
RACHEL CLEAVER, Esther McRee and I went to Stratford

to judge the Sherman County Fair. It's such fun to see what the people have made.

If you haven't been by Charles Heck's between Nazareth and Hart, you've really deprived yourself. Ann, his wife, has beautiful flowers — zinnias, marigolds and many others. They sure do look beautiful and there are such pretty colors. It reminds me of the seed company flower beds I saw in Colorado last month.

POTS AND PANS can be shiny

even with hard daily use, if you know what metal each pan is made of and treat it accordingly. Wash aluminum utensils thoroughly in hot soap or detergent suds, then rinse with hot water. Remove stuck foods by boiling water a few minutes or by scraping with wooden spoon, plastic scouring pad or steel wool soap pad.

★
Remove inside discoloration by cooking tomatoes, rhubarb, apples

or other acid foods in the pan. Polished exterior surfaces need cleaning with a sudsy cloth or silver polish. Steel wool soap pads could scratch the surface.

Wash stainless steel in hot suds promptly after use to maintain and dry thoroughly. Moisture left on the surface causes a cloudy film. When food sticks to utensils, soak in warm suds and scrub with a cloth, sponge or fiber brush. Avoid using abrasive which could scratch finishes.

Remove brownish or vari-colored "heat-tint" on pot bottoms with silver polish. Pans with copper bottoms are cleaned with vinegar or lemon juice and salt and a fine steel wool pad or commercial cleaner.

PREDICTING exactly how a person will face an emergency is impossible. So emergency preparedness authorities are taking the next best approach — emphasizing advance planning.

General patterns of emotional behavior apply in all emergency situations. Familiarity with these general patterns will better prepare you for the unexpected.

Fear, anger or other similar emotional states can work for you, rather than against you. These often increase blood pressure, speed respiration and rate of heartbeat and give a feeling of added strength and aggressiveness.

★
FEAR SETS the stage for maximum action and spurs a person

to do things otherwise impossible. Sometimes, however, fear can cause a person to stop thinking clearly. In these cases, use a few words of sympathy and encouragement; assigning routine task to help people regain confidence; firm, but patient, restraint when necessary; small jobs, such as rearranging supplies or helping others, assigned to overactive people.

Help your children to handle emergency situations with less emotional strain. Talk with your children about what may happen, making the unknown more familiar and easier to face. Informed children are more likely to be self-confident.

Take along a familiar object, such as a toy or a blanket, when

entering strange or new situations with children. Youngsters need a sense of security, and reading a book to them may do the trick and keep their attention from the emergency.

★
ELDERLY people tend to become more confused in an emergency situation than the young or middle-aged. Calm, realistic assurance and quiet supervision goes far toward helping them regain composure.

When the emergency is over, lessen the strain by balancing the work load; doing one task at a time; getting away from it all for a while; talking about the situation; and trying to accept what cannot be changed.

in the relaxation and quiet of your home, what you would do in an emergency situation. Remember, you may not have all of your faculties intact in an emergency.

MRS. WILLIAM ANSON THOMPSON JR.
The former Le Nora Jo Sanders

Tech Students Wed In Hart Saturday

In an 8:30 p.m. ceremony in Hart's First Baptist Church Saturday, Miss Le Nora Jo Sanders of Hart became the bride of William Anson Thompson Jr. of Lubbock.

THE BRIDE'S parents are Mr. and Mrs. W. T. Sanders of Hart. Thompson is the son of Mr. and Mrs. David C. Ward of Littlefield. Rev. Van Earl Hughes of Hart performed the double ring ceremony.

Mrs. Doyle Warren of Lubbock, sister of the bride, was matron of honor. Bridesmaids were Ann Boyd of Detroit, Mich., Clara Robinson of Childress, Cheryl Russell of Granbury, and Mrs. Douglas Carruth of Pueblo, Colo.

JOHN BASDEN of Littlefield served as best man, and groomsmen were John Kittrell of Dimmitt and Doyle Warren, Soike Jones and James Wicker, all of Lubbock.

Candle lighters were Jana and Beverly Hill of Hart, Randy Smith of Happy and Brad Sanders of Dimmitt. Joe Bob Sanders of Dimmitt and Mike Reed of Hart were ushers.

Mrs. Weldon Davis played traditional wedding music at the organ and accompanied her husband, who was soloist.

GIVEN IN marriage by her father, the bride wore a floor length wedding dress of deep ivory English net over silk peau de soie, appliqued with imported hand-drawn alencon lace. The molded princess A-line dress and batteau neckline were accented by scallops of lace, and a narrow band of silk peau de soie formed a flat rosette bow in the front of the waistline. Her veil of imported silk illusion, enhanced by a panel of hand-run lace, gently gathered at her pillbox headpiece and was complemented by Lily of the Valley lace which softly framed her face and fell into a chapel length train.

Her bridal bouquet was of white gladioli.

All the bride's attendants wore floor length gowns of chiffon over satin. The avocado A-line gowns featured long sheer sleeves. Their headpieces were clusters of flowers with veils of silk illusion. Each attendant carried crystal votive candles on lemon leaf greenery.

THE WEDDING reception was in the home of the bride's parents.

TIPS FOR OUTDOORSMEN

by Vern Sanford

FINDING FISH IS EASY—Finding white bass is easy, providing you know how. Perhaps the easiest way on most of Texas' large impoundments is to watch for the birds. When you see a flock of gulls diving down into the water, it is a sign that the whites are chasing shad. And that's a cue for you to chase the fish. Cast a heavy, fast sinking spoon near the edge of the activity. You'll discover that the whites usually are deep down and dining on the injured shad that sink to the bottom.

Once in awhile you'll latch onto a big old lazy black bass down there, too.

FISHING THE POINTS—When you're fishing around points it's always safe to leave your outboard motor running. That way you can avoid slamming into the bank when a gust of wind hits your boat.

Another good idea is to reverse the motor and troll backwards.

all afternoon. The parade was just wonderful. The school band rendered a concert which was a delight to all who crowded in to hear them. A dance climaxed the day's activities.

More About:

Storm Damage

(Continued From Page 1)

rains up to 1.85 inches were reported north and east of Nazareth.

IN THE crossroads area six miles north of Dimmitt, heavy destruction was recorded on the Dale and Troy Maxwell farm, the Ruby Stone farm and the E. Lee Stanford place, farmed by E. M. Jones. J. M. Wright also reported heavy hail, with a 30 percent loss on his grain sorghum and nearly total destruction of his cotton.

"I've never been hurt that badly before," said Carl King after surveying his hail damage on the Ruby Stone farm. "My beets were topped, I had 85 percent damage to my maize, and some of my cotton bolls looked like they had been sliced with a knife."

The same channel of hail that hit these farms also cut through the farms of Dan Bruton, Roy Meacham, Len Woodburn, Walter Schilling, Ben Derrick and others in a southwestward line.

CHARLEY HILL, county ASOS office manager, accompanied Fred Bruegel Sr. and Allan Webb on a mile-by-mile survey of the worst hit areas and said later, "I imagine our county's production will be cut about 10 to 15 percent."

Latest dollar amount available on Castro County's agricultural production is \$46,549,171 in 1965, according to the county agent's office.

Castro County seemed primed to surpass that figure this year—until Sunday night.

Brother of Mrs. Vaughan Expires

Funeral services for Clarence Wayne Hewett, 59, brother of Mrs. Charles Vaughan of Dimmitt, were conducted Wednesday at 3 p.m. at Plainview in the College Heights Baptist Church with the pastor, Rev. Wayne Blankenship, officiating.

HEWETT, a deacon of the College Heights Baptist Church, was assistant postmaster in Plainview. He had lived in Plainview since 1908 and had been with the Postoffice Department 28 years. He was a member of the IOOF lodge.

Survivors include his wife, one daughter, four sons, two brothers and two sisters.

'4-F' Party Set For Hart Youths After Tilt Friday

Hart's churches will sponsor a "4-F" party for high school students Friday night after the Hart-Silverton game.

THE PARTY, featuring "food, fun, foolishness and fellowship," will be in the Hart Grade School gym.

A Texas Tech football game film will be shown.

"4-F" get-togethers for Hart High School students will be held after all five home games this season.

Returns Home

Leonard Fry of Port Neches came to Dimmitt last weekend to accompany his wife and children home. They had visited a month here with her parents Mr. and Mrs. Ray Bearden.

Mrs. Reinhardt Shower Hostess

Mrs. Dick Reinhardt was hostess Aug. 28 at a tea and shower for Mrs. Sandy Rhodes, the former Jerry Kay Dodd.

Shelly's Chatter

By MYRTLE SHEFFY

Looks like our town has settled down to the regular routine - school, work, clubs and parties are all starting again.

The football scrimmage Friday evening with Eovina showed our boys up good - they are not "big, big," but they "try-try," so let's get with them now.

And church attendance is always better when school starts.

MANY FOLKS took advantage of a long weekend to go places. Dr. Dennis Blackburn and wife, Jane, and County Attorney Jimmy Rcss and wife Nancy spent a few days in the beautiful hill country around Kerrville. Alisa May, Nancy's sister, looked after the children. Alisa lives at Luling, near Austin, and will go home next week after a summer's visit here.

Laura Jean Nadolski and daughter Linda and son Ed of Santa Maria, Calif., were here for a few days' visit with her parents, the P. L. Cunninghams and sister, Pauline and W. W. (Punk) Gilbreath.

And Aural Davis enjoyed having the three girls home. Keitha Davis went back to Galveston Monday to continue her medical school training. Janis goes back to Denton to school, and Suzie will practice teach here.

Some of the children of the Floyd Stanfords are here this week - their daughter, Mrs. Richard Lillie and two daughters of Austin, the Allen Stanfords of Lubbock, and Gordon and Diker and children of Dimmitt all enjoyed a barbecue supper together, then went to see "Texas."

Mr. and Mrs. Larry Bull are the parents of a new girl baby. Grandparents are Mr. and Mrs. Earl Bull.

CHARLES AND Lois Wales and children and Donald and Katy Wright and children spent a few days at Tyes Rites at the Cleavinger cabin here.

Jimmy and Steve Green, students at A&M, were up to visit their sister at Merton and their uncle Heywood Smith, who works at the ASC office here. He went there for a visit with all of them.

The James Bradfords went up to Conchas Lake last weekend before their son Bob goes back to Missouri University.

Jasper and Nell Proffitt and children visited his kin at Tahoka last weekend.

MR. AND MRS. Jerry Sandlin and Katy of Lubbock were here for the Labor Day weekend to visit their daughter, Jerry and Jimmy Jack Butler. Jerry said they attended a nice party at the Hereford Country Club Saturday night.

Do come to the Garden Club hat sale Saturday at the Bank. Jerry will help you find just the one.

Rex and Dorothy Shelly and two sons visited her father, Mr. Smotherman, Sunday, in Duke, Okla.

Jim and Ina Cleavinger and sons Tom and Jim visited her sister and family at Arlington, then all went to see "Six Flags Over Texas." The Cecil Ginns also went to Six Flags a while back - he says the trip is worth the money.

MR. AND MRS. E. C. Nossman of Cherokee, Okla., were weekend guests of their son Norman and family. They were among the guests at the "Texas" pageant Saturday night.

I met Bob and Carolyn Farrer at church Sunday. Bob is the high school teacher of speech and journalism. Carolyn teaches fifth grade. They live at S&K Manor. Carolyn's father, Weldon Clay of Dallas, was a Sunday guest and looking over our town.

I saw Elmer Hershey at church, also. He works at Fort Worth and is the son of the Howard Hersheys.

Mrs. Ira Brown is recuperating from surgery in a Lubbock hospital.

and family from near Abilene. Mike Burkett is home a few days between weddings. He was best man for Jim Cowsett in Colorado, and goes this week to Galveston to help his friend Olvis Spencer get married. He says he will probably enter the service.

Draciella and Bob Storrs are back at Wayland after spending the summer in Denver, where Bob was assistant pastor at a Baptist Church. They stopped here a while to visit her mother, Mrs. Rex Shelly.

Carl and Frances King and children are home from a trip to Yellowstone National Park. Carl said the only crops that can compare with ours are in a spot in Idaho.

Mr. and Mrs. J. M. Birdwell were hosts at a Sunday get-together for his brothers and sisters, M. L. of Azel, Wade and family of Dimmitt, Mr. and Mrs. J. F. Revell of Electra, Mr. and Mrs. H. A. Spear of Hereford, Mrs. Allie Logan of Mineral Wells, and also their sons, Kent and Bill, and families. Their daughter and family, Bobbie and Harlan Dodd and girls, Darlene and Billie Sue, went to Fort Worth to visit a daughter, Mrs. Sandy Rhodes and her husband.

BLACKIE BLACKWELL is at St. Anthony's getting well from surgery. Sarah is with him.

Have you seen the camping bus that belongs to Dale and Marie Winders? They bought a city transit bus and outfitted it with a table, stove and beds. They were going to Palo Duro Canyon Sunday with the Ralph Smiths, Frank Wises, George Sides and a few other folks. Ralph was taking a tent. The big rain and wind may have stopped them.

Dan Heard Sr. of Littlefield is a guest of his son and family, the Dan Heards. Dan Jr. has been in an Amarillo hospital for observation.

THE GLEN GODFREYS, Joe Ed and Joe Shelly, the M. L. Simpsons, Larry Sanders of Hart and the E. M. Joneses attended the Boys Ranch Rodeo Sunday.

Mr. and Mrs. John Childers were hosts this week to his parents, the Childers and his sister

and family from near Abilene. Mike Burkett is home a few days between weddings. He was best man for Jim Cowsett in Colorado, and goes this week to Galveston to help his friend Olvis Spencer get married. He says he will probably enter the service.

Hightower Represents State At Conference on Education

State Senator Jack Hightower of Vernon returned last week from White Sulphur Springs, W. Va., where he represented the State of Texas at the 16th annual legislative work conference of the

Southern Regional Education Board.

THE PROGRAM included a look at the function of two-year colleges, the relationship between private and state institutions and the impact of federal activity on the structure of state higher education programs.

Sen. Hightower pointed out that even though Texas has pushed ahead with its development of higher education facilities, much more needs to be accomplished to place a college degree within the reach of more high school graduates.

The 60th Legislature enacted laws exempting cold war veterans from paying tuition and fees to state colleges and universities, and also exempted Texans under 25 who are from low income families making \$4,800 a year or less.
