Canopies To Be Erected At Pool Monday

Canopies which have been ordered for the Ranger Municipal Swimming Pool, will be installed today, it was announced at the hall Saturday afternoon.

The awnings, which are large enough to cover a good part of the swimming pool, make it comfortable for swimming at all times, were ordered, and were several days ago, but have been installed as yet because negotiations were being made for the three large canopies.

One will cover the kiddies' pool, so it will be shady at all times. These canopies will be erected at night, or when the weather is cloudy.

First British Soil Seized by Nazis

The once-British airport in the foreground, above, is now a nest for Nazi war birds. It's the flying field on the British island of Jersey, which, with Guernsey, its fellow Channel Island, was seized by the German air force following recent British evacuation. Lying close to France, the two islands were considered indefensible.

Attack In '78 Last To Defy British Arms

JOHN PAUL JONES LANDED TWICE BUT WAS BEATEN OFF

By NED RUSSELL
United Press Staff Correspondent
LONDON.—Great Britain is preparing grimly to meet the threatened German invasion of the British Isles—a threat carried out the last time by an American 162 years ago.

Weeks ago, the idea of German forces floating down the English coast with bombers destroying communications and buildings and fifth column agents disrupting defense efforts was laughed at, but now it has become a grim possibility.

JAPAN SHOWS CONCERN OVER FRENCH CHINA

By United Press
TOKYO, July 6.—The Government expressed sharp interest today in reports from Singapore that French and British authorities had conferred at Saigon, French Indo-China, and had agreed that Indo-China should remain allied with Britain and that British and French naval forces should continue to cooperate in the Pacific.

Although Japanese officials would not comment officially, they were earnestly checking these reports, which, if true, might serve as a deterrent on Japanese activity on the Indo-China border.

French sources here said the agreement probably was made before the assault on French warships by British ships at Oran and that in view of that battle, French naval officers might refuse any further cooperation with the British in the far East.

Leads France's 'Free' Warships

Gen. Charles de Gaulle, who refused to accept France's capitulation to Germany, announced from London the appointment of Vice Admiral Emile Muselier, above, to command "all free French naval forces." Admiral Muselier was reported to have then issued an order releasing French air and sea forces from obedience to the armistice terms.

ITALY CLAIMS BRITISH RAIDS ARE REPULSED

ROME, July 6.—Italy's 26th war communique said today that a series of British air raids on Sicily had been repulsed. It was issued as Benito Mussolini conferred with his cabinet on new war measures.

The communique said that the British for the second time this month had attacked Augusta, Sicily, but that the raid had been "thwarted" by the prompt action of Italian planes and anti-aircraft guns "which obliged the enemy to abandon the attack."

(Earlier this week the Italians claimed that a British air raid on Augusta had been repulsed, but in London the air ministry claimed that the British planes had succeeded in setting large oil tanks afire.)

Italian general headquarters said that "another enemy incursion against Palermo (Sicily) likewise was 'thwarted.'"

Enemy planes dropped a few bombs at the Catania airport, hitting an empty shed and causing some victims among the airfield personnel, the communique said.

The communique said that in North Africa there was action by a part of the Italian air force and vast motorized columns. Two British attacks with strong forces against Fort Capuzzo and Birseban were repulsed, general headquarters claimed.

Price Fixing Is Again Urged By Special Interests

AUSTIN.—The issue of price-fixing, one of the most bitter controversies of the last regular session of the legislature, was revived here by news that the Federal Trade Commission is almost ready to release its survey of the effects of the so-called Fair Trade law in other states.

Militant Texas housewives and an aroused Texas press in 1939 arose against the Fair Trade and Anti-Discrimination Laws but the group of lobbyists supporting the two price-fixing laws had done their contact work so early and so thoroughly that the Fair Trade law was passed. After an opinion by Attorney General Gerald Mann, Gov. O'Daniel vetoed the law, which would have invalidated the Texas anti-trust laws by legalizing "price maintenance" contracts between a manufacturer and any retailer by which all retailers in the state would have been bound.

The Anti-Discrimination law would have fixed selling price of all items at about ten per cent above the wholesale cost of the merchandise.

The newspapers and the housewives both are watching this year for a resumption of the "contract work" done by the price-fixing lobbyists. Recently reports began trickling in from all sections of the State that the candidates are again being approached and that the lobbyists are trying to make all of them agree to support the laws, regardless of what they do to the state's anti-trust laws or to the consumers the anti-trust laws are designed to protect.

Next major development in the price-fixing campaign will come when the FTC makes its report. In 1934, the FTC made a survey and reported that the Fair Trade Law had resulted in raised prices without any compensation in the form of higher wages or increases in raw material costs.

Apparently to be used as an antidote against the government's survey, a national druggists' association is conducting a survey of its own, results of which obviously are being withheld until the FTC survey is released. The druggists' association says its survey will not be prejudiced.

The Fair Trade Act has been passed by 44 states, but is not enforced in that many, Texas, Missouri, Vermont and Delaware have not yet succumbed to the Fair Trade, and the law was invalidated in New Jersey. About 12 states have the Anti-Discrimination law in varying forms. The Fair Trade law has been chiefly applied to drug items and whiskeys, but recently the principle of "price maintenance" has been applied to food in Ohio. Any item which carries the name of its manufacturer, whether branded or trademarked, can be governed by Fair Trade contracts.

The Anti-Discrimination act's "cost plus" principles are reportedly most effective on fast-selling, low-profit staple food items which sell in bulk such as rice, sugar, flour, shortening, and salt pork. This bill did not even pass the House last session while the Fair Trade sailed through the House and wormed its way eventually through a most determined senate filibuster.

Small Town Quip

SPRING CITY, Mo.—For 10 years City residents used a catchy phrase to refer to questions of visitation regarding the town's population.

"It's 1,101 and I'm the one," was the stock answer.

Now all of that will be changed. The 1940 census count lists the population at 1,100.

So many claimed to be "the one" that something had to be done about it—that was the theory of the census taker.

MODEL OF 1914 FAITHFUL
GENEVA, N. Y.—With the engine out of the chassis only once in main bearing repairs, and equipped with kerosene headlights, its original old style brass radiator, Jesse J. Johnson still drives his 1914 automobile. He proudly boasts that it has never been in an accident or towed.

Davis Mountain Highway Finally Is To Be Built

EL PASO, Tex., July 6.—Plans were being drawn up today for construction of the Davis Mountain State Park highway which had been held up for two years because of difficulty in obtaining right-of-way.

Division State Highway Engineer Clifton Rice said that the last disputes over right-of-way for the country had been cleared up and that actual construction on an eight-mile link would be started when a contract had been awarded.

Beginning of construction had been delayed since an appropriation of \$56,000 was made two years ago when authorization to begin work was given.

The highway will run through the scenic Southwest Texas country from Fort Davis through Limpia Canyon, through the mountainous area near McDonald Observatory, and on to the Sawtooth Mountain range. Completion of the eight-mile stretch would leave another unit of 14 miles, to the Valentine Highway, for which no appropriation has been made.

Real Sea Battles Are Enacted With Fireworks Display

FORT WORTH, Texas.—William Engelke was never a naval officer—even in the Texas navy—but this week he planned several sea engagements.

His battle features real ships and roaring guns—everything, in fact, except casualties.

Engelke is a pyro-technician. A pyro-technician is a fancy name for a fireworks manufacturer.

The war fever and the public thirst for excitement have "just about dictated the terms in my business," he said.

"And if the people want to see another Trafalgar or a Skagerrak, well, then, they shall have it."

So Engelke and a dozen workers worked today with new displays which reflect war and patriotism. Among the new fireworks is a naval battle between miniature ships which fire pounds of powder in an engagement that has all the color of a real sea battle.

They were built several feet long of bamboo structure and so fired that they will be outlined in flames. The battle was designed along the lines of the recent Scandinavian engagements.

Other displays included a 30-foot high replica of Uncle Sam, a huge red cross display, cloud battles, and, of course, the old standby, a burning display of the American flag.

Eastland Attorney Given Recognition

Jack Frost, young Eastland attorney, was elected regional vice-president of the Junior State Bar association for the eleventh district, which includes all counties in the Eleventh Court of Civil Appeals district.

Frost is a member of the Eastland law firm of Frost & Frost which is composed of himself and his father, Judge Cyrus B. Frost.

BRITISH AND FRENCH AGREE ABOUT NAVIES

LONDON, July 6.—The British and French have reached an agreement under which French naval units now in Alexandria harbor will be immobilized and remain indefinitely in the British-controlled Egyptian port, it was learned today.

Earlier, the Daily Mail, in an undated dispatch, said that the British at Alexandria had given the French the choice of scuttling their ships, cooperating with the British fleet or submitting to voluntary internment.

Meanwhile, the Daily Mail said, British and French sailors at Alexandria were enjoying friendly cooperation.

The newspaper said that although French vessels at Alexandria were unable to leave harbor, French and British sailors were mingling freely ashore and the British were seeing that the French received their pay.

Air Raid Alarms Heard at Gibraltar

GIBRALTAR, July 6.—Air raid alarms sounded today for the second successive day and anti-aircraft guns fired at an unidentified plane flying at a very high altitude.

The all-clear signal was sounded an hour later. Officials said there were no casualties and no damage and that the populace had been calm.

(Gibraltar was raided yesterday by an unidentified plane which was driven off by anti-aircraft fire. Spanish reports said the plane was French, retreating for the British attack on the French fleet at Oran Wednesday.)

Candidates Speak; Eat Much Pie, at Scranton Meeting

Many of the Eastland county candidates delivered short addresses in the interest of their respective candidacies at a pie supper given by the Parent-Teachers' association at Scranton Friday night. The meeting was held in Scranton's new gymnasium. Better than \$20.00 was realized from the sale of pies. There was good attendance.

"Sal" Gatis, representing the parent-teachers association, welcomed the visitors and introduced county chairman Oscar Lyeber, who introduced the speakers, and auctioned the pies.

Omar Burleson, candidate for State Senator, was among the candidates present from outside the county.

Working Hours In Petroleum Industry Are Growing Safer

Fatality rate of the petroleum industry in 1939 was reduced at 31.0 deaths per 100,000 workers from the 36.6 rate of 1938. Off-duty fatalities were 38 per cent greater than those on the job.

"Review of Fatal Injuries in the Petroleum Industry for 1939," published by the American Petroleum Institute's Department of Accident Prevention, shows that 45 per cent of fatal injuries on the job were due to falls, falling objects, drowning, and other miscellaneous causes. Largest single cause of deaths was fire and explosion, blamed for 35 per cent of fatal injuries. Motor vehicle accidents accounted for 16 per cent, electrical contacts for four per cent.

Sixty-five per cent of fatal injuries sustained during leisure hours were caused by motor vehicle accidents. Gunshot wounds and drowning were the next greatest risks.

It is estimated that the fatality rate reduction made possible by the industry accident-prevention training courses and efforts during the past 10 years has saved 112 lives, the 1939 fatality rate being 66.7 as compared with the 1938 rate of 81.0.

Breckenridge Lady Golfers To Sponsor Tourney Monday

BRECKENRIDGE, July 6.—Breckenridge lady golfers will be hostesses to the women of Graham, Ranger, Philisco, Cisco and Rising Star at a guest tournament at the Breckenridge Women's Club Monday, July 8. The tournament had been scheduled for June 25, but was postponed because of flooded fairways.

Play will start promptly at 8:30 o'clock Monday morning, and luncheon will be served at one o'clock. Play will be resumed immediately following the luncheon. Prizes will be given to winners in the various fights.

Willkie To Have Colorado Vacation

NEW YORK, July 6.—Wendell L. Willkie, republican presidential candidate, announced today that he would spend his pre-campaign vacation in Colorado.

Willkie continued today to confer with representatives of the republican national committee, and will fly to Washington Monday to meet Sen. Charles L. McNary, R. Ore., his running mate, and republican members of Congress. From Washington he will fly to Colorado for a two or three week vacation at a spot still unrevealed.

Sewer Squad Gets Back Woman's Gem

PHILADELPHIA.—The age of chivalry lives again.

When Mrs. Margaret Craig was transferring her \$300 diamond ring from her finger to her handbag, the ring slipped from her hand and rolled down a sewer.

Frantic, she called on street cleaners for assistance. All one night and most of the next day, a crew of four combed through muck in the sewer.

They recovered the ring, returned it to Mrs. Craig and gallantly refused her proffered reward.

Old Settlers of County Name New Officers For '41

Some two or three years ago a number of old settlers of Eastland county got together and formed an organization the purpose of which was to preserve the traditions of the past years and to keep in touch with each other through annual meetings. What had been an organization of the Butler family was merged into this organization.

Officers of the above organization were Ben Cunningham, Stephens county, president; and Mrs. Will Van Geem, secretary.

A meeting for July 4th, last, was called and the meeting was held at the Eastland City Park at the time of the big July 4th celebration last Thursday. Due to adverse weather conditions and the fact that at this time of year many people, especially farmers, could not attend because of being employed at home, the attendance was rather small in comparison with what it should have been.

At the Thursday, July 4th meeting, it was decided to change the meeting date for next year to the Friday and Saturday just before the first Sunday in August. The meeting will be held in Eastland.

Officers elected at the Thursday meeting were: Ed T. Cox, president; Lee Littleton, vice-president; Mrs. Florence Roper, secretary.

Of the members of the Butler family here from a distance to attend the old settlers meeting were: Lon Harkey and family of Shaaron, Tennessee; Robt. Butler, and family of Abilene, and Claude Butler and family of Iran, Texas.

German Consul Is Charged In Aiding Mutiny of Sailors

DETROIT, July 6.—Netherlands Consul William G. Bryant said today that 19 sailors of the Dutch ship Prins Willem II, who refused to take the vessel from Sandusky, Ohio, to Canada, had been given money by the German Consul in Chicago.

He said the sailors had been disavowed as Dutch citizens and were accused by the Netherlands government of "mutiny, desertion, disloyalty and treason."

The seamen and chief engineer Franz Haydens were taken into custody at Sandusky yesterday by Sheriff W. S. Souter after the ship's captain, C. A. Vandereyck had accused them of refusing to sail for Montreal and the chief engineer of removing engine parts to prevent the sailing.

Father of Eastland Man Dies Saturday

Funeral services for E. N. Turner, 85, who died at 8:30 Saturday morning in Dallas, will be conducted Sunday afternoon at 4:30 at Hillsboro, according to word received in Eastland today. Death occurred in the Baylor Hospital in Dallas.

Survivors include his widow, two sons, John of Eastland and Paul Turner of Kentucky, and one daughter, Miss Mildred Turner of Dallas, who formerly taught school in Eastland.

Sweden Expecting A British Protest

LONDON, July 6.—Great Britain was expected to ask an explanation and to protest Sweden's decision to let German troops and war materials move on Swedish railways to Norway. The decision was considered flagrantly unneutral and in contrast to Sweden's refusal to let Allied forces cross Sweden to aid Finland.

Suckers and Signatures

It always has been a good rule: "Think before you act." College professors have a time-honored way of impressing this upon their students. They often have done something like this:

Appearing before their class one mornng with a long petition they ask the class to sign it. Sleepy, in a hurry, or just careless, they all do so, without reading the long petition which all have signed. It turns out that all have agreed to have their own heads cut off.

Many a student learned in this simple but unforgettable way not to sign things without knowing what they are.

But not everybody has learned this simple lesson. In Pennsylvania the Communist Party wanted to get on the ballot. To do so, a certain number of signatures of voters on a petition was required, as is customary everywhere.

Evidently feeling that they did not have enough members of their own party to fill the petition to the required length, party workers went around seeking voters' signatures wherever they could get them.

Many people are willing to sign anything, especially a political petition. Many signed this one.

The Pittsburgh Press, however, smelling a rat, began to print the names of those who had signed the Communist petition. And lo and behold, literally hundreds of people learned for the first time what they had done.

"I thought it was a petition to keep the U. S. out of war!" cries one. "I was told it was to help people to get jobs," says another. "I thought it had something to do with the census." "I thought it was to keep the WPA at work." "I didn't read it. I had no idea it had anything to do with the Communist Party."

People supposedly smarter than these innocent people have been taken in by organizations with aims laudable on the surface, but which turned out to be deeply influenced within by forces with which they were not in sympathy at all.

These are times when all must think. It is our duty. The defense of a democratic people is not only in tanks and planes and guns, but in their ability to be alert, keen, and clear-sighted.

Britain tells French not to give up the ship, reminding them they still have an axis to grind.

Biggest complaint fifth columnists have against America is that Uncle Sam just won't listen to treason.

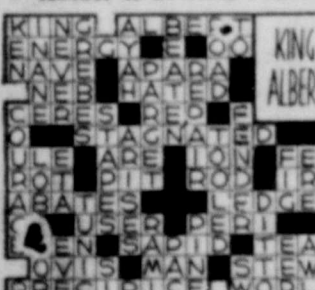

Census figures show an increase of Indians in Arizona. The vanishing American takes a curtain call to handle the jug and rug trade with the tourist trend being westward this year.

It is suggested in some quarters that folks who attend night baseball games be known as electric fans, or can you think of a worse pun?

Michigan Puts Her Favorite Son Up For Second Place

By ROBERT KELLEY
United Press Staff Correspondent
LANSING, Mich.—A move to win the Democratic Vice Presidential nomination for Sen. Prentiss M. Brown of Michigan has been started by Michigan delegates to the national convention at Chicago July 15.

The Michigan delegation, consisting of 48 persons with 38 votes will go to Chicago without binding instructions but with a "recommendation" from delegates to the state convention that they work for a third term for President Roosevelt and for the nomination of Brown as his running mate.

Highway Commissioner Murray D. Van Wagoner, Democratic candidate for the governorship and likely chairman of the Michigan delegation, said he was convinced after talks with party leaders elsewhere that Brown has "as good a chance as anyone else."

Brown, 51 years old, is a small town lawyer of St. Ignace in the Upper Peninsula of Michigan. He is the father of seven children. He is serving his first term in the senate after two terms in the house. In his seven years in Congress he usually has voted with the administration but on occasion he has sided with the conservative elements. One of his notable dissents was his vote against Mr. Roosevelt's court reorganization bill in its original form.

Michigan delegates believe they can win support for Brown on the theory his nomination would help the party in winning a "doubtful" state which has 38 electoral votes. Most of the recent polls indicate that the vote in Michigan, which Mr. Roosevelt carried by 325,000 votes in 1936, is likely to be close. Democratic leaders, realizing that to carry Michigan they must win a major portion of the CIO vote, arranged for the election of two prominent officials of the United Automobile Workers as delegates to the national convention. They are K. J. Thomas, international president of the union, and Richard T. Frankenstein, director of the Chrysler division of UAW.

The need for making room for them was one of the reasons that party leaders at the state conven-

tion at Flint decided to "split" some of the votes. The plan finally worked out resulted in the election of 28 delegates with full votes and 20 delegates with half votes. It is believed likely that Van Wagoner, who wrested control of the party organization from Frank Murphy, now Supreme Court associate justice, two years ago, will have formidable opposition for the governorship nomination.

But party leaders are looking for a strong senatorial candidate. Brown's term does not expire until 1934. There has been some talk of nominating Thomas, but his election would entail his resignation from the presidency of the UAW-CIO. His candidacy also would encounter opposition from conservative Democrats.

What Is Church Is Discussed at Revival On Friday

Evangelist G. K. Wallace spoke Friday evening to the largest audience of the Church of Christ meeting, on the subject of God's Church. It was shown that the terms "church" "body" and "kingdom" were terms used to describe the same institution. They are not synonymous terms yet describe different phases of God's New Testament institution.

His text was Matt. 16:18 "Upon this rock I will build my church... and I will give unto thee the keys of the kingdom." Thus the terms were used interchangeably by the Lord. "We need to hear more in our pulpits today about this church that Jesus built," said Wallace. "With a great many preachers one hears more preached about Mussolini and Hitler than he does about Jesus Christ."

From Col. 1:13-14 it was shown that the Kingdom of Heaven was built, and did exist in the days of the Apostles. For here it says, "God translated you into the kingdom." Beginning Sunday evening at 8:15 and continuing for five consecutive nights, Wallace will discuss the subject of "Conversion." In this series of studies he announced that the Book of Acts will be his text, and that the only way in which men today may know how conversion comes is by learning how those in Acts were converted and then to do likewise. Bible questions are coming in and Wallace displays not only his sound knowledge of the Bible, but a very extraordinary courtesy in the pulpit in answering the queries.

Joseph Leaves To Buy Merchandise For Store Opening

D. Joseph, accompanied by his family, leave today for Los Angeles, where they will spend the next three weeks.

Joseph will be purchasing new merchandise, to be used when he re-opens his store, with a completely new line of modern and up-to-date merchandise. While he is purchasing the new merchandise members of his family will visit in Los Angeles and will visit points of interest near there.

The store will be opened about August 15, it was believed, with nothing but absolutely new merchandise in the store.

The interior of the store it to be remodeled and repainted for the opening, so that it will be one of the most attractive in this part of the country, and the only store near here with nothing but new merchandise in it.

Joseph expects to return to Ranger before the first of the month to superintend opening of the store.

Calvary Revival Is Drawing Crowds

The revival meeting at Calvary Baptist Church continues with great success.

This has been a wonderful week at the revival services, members of the church have reported, with people coming in great numbers into the prayer meetings each evening before the preaching services.

The song services have been enjoyed by all and the congregation has entered into the singing. There have been seven additions to the church with a number of re-dedications. Mrs. Pearl Hunt is pianist for the revival, and song services are conducted by Pearl Hunt.
