CHEER FUND DRIVE AGAIN IS UNDER WAY

The Christmas Cheer Fund drive, which was slowed down but not stopped by rain and ice Friday and Saturday, got underway again today, with committees being urged to get their work done as rapidly as possible.

Nearly half of the money needed for Christmas baskets this year was raised the first two days of the drive, in spite of the fact that no work was done either Friday or Saturday. This was due chiefly to one large donation by the Carl Barnes Post of the American Legion, which swelled the total collected by \$100. The First Methodist Church of Ranger was also a big donor, with a \$10 contribution to the fund.

No report was made Monday by Lee Dockery, chairman of the drive, on the amount of donations received, because of the fact that the committees had been inactive and voluntary contributions were few Saturday and this morning.

It was confidently expected by Dockery that by the time the committees complete today's work that an additional list of names of donors could be made in time for publication tomorrow.

Plans have already been started listing the items that will be placed in the baskets, even though the fund has not been raised as yet, and lists of names of needy families are being compiled in the Chamber of Commerce office. These lists of names will be checked by Mrs. Waurine Long, head of the Ranger relief office, who has available information about the need of nearly all the families in this part of the county, and who will investigate the need of those whose names are turned in, but whom she has not yet investigated. Only those who are approved as being actually in need will be given the baskets. It was pointed out, and the baskets will be packed according to the number in the families.

Ice Does Damage To Trees and Power Lines In The City

Much damage to trees and to utility lines was done throughout Ranger late Saturday night and early Sunday morning by ice which formed on trees and utility lines.

Through the town trees were either uprooted or limbs were broken off by the weight of ice that formed when the slow rain froze.

Several electric poles in Ranger fell under the weight of ice and a number of power lines were down in various sections of the city. Repair crews worked all day Sunday and late into the night repairing damage done to the lines, and most of the wires had been replaced Monday. Only a few instances of disrupted service were reported, despite the damage done.

Church of Christ To Hear Minister

Wesley Mickey of Fort Worth will preach at the Church of Christ Wednesday evening, it was announced here today. The service will start at 7 o'clock.

The minister will come to Ranger with the view of locating a church, announcement of the service stated.

All members of the church have been urged to attend the service Wednesday evening.

243 Fines Are Paid For Violations Of Fish and Game Law

AUSTIN, Tex.—A few out-of-state residents and Texans totaling 243 paid fines for violations of game and fish laws during November, the report of wardens to the executive secretary of the Texas Game, Fish and Oyster Commission discloses. Hunters and fishermen were found guilty of a large variety of offenses and paid fines ranging from \$10 to \$100.

Several deer headlighters suffered to the extent of \$100 each and two brothers were each fined \$125 on two counts, that of headlighting and killing deer out of season. Several out-of-state residents attempting to hunt in Texas without a license were each fined \$100.

Violations for which anglers and nimrods were convicted during the month include: hunting from car, no lure license, hunting without license, killing deer out of season, headlighting for deer, killing doe deer, hunting doves after sunset, having unplugged gun, killing squirrel out of season, killing ducks or geese after 4 p. m., shrimping in closed waters, pollution of streams, killing turkey hens, hunting geese before sunrise, unlawful fishing with hands, killing spike buck, over bag limit on ducks, quail and doves, possessing short bass, selling fish from Lake Buchanan, possessing quail out of season, dragging nets, dynamiting fish, selling wild game, taking crappie out of season, no commercial fishing license, no skiff license, injuring small fish, illegally dredging oysters, taking fish with illegal line and baiting ducks with corn.

Roundup Time Is Coming To An End

MARFA, Tex.—Once more roundup time in the highland section of West Texas is coming to an end.

For almost an eight-week period cattlemen have shipped carloads of sturdy calves to feeders in other states for fattening. From there they will be distributed all over the nation.

Final shipments of highland range livestock are expected to be made not later than mid-December.

The 1940 fall shipments have been the best in several years, according to veteran stockmen. Favorable range conditions helped to make the season a profitable one for most cattle raisers and livestock men in general.

SPEED UP OF DEFENSE PLAN BEING URGED

WASHINGTON, Dec. 16.—William Knudsen, head of the United States re-armament program, today wrote a letter to machine tool workers, asking their cooperation in speeding up work because of "the terrible emergency of this situation."

Meanwhile President Roosevelt is speeding by special train from Georgia to the national capital, after an inspection trip to proposed naval bases in the Western Hemisphere.

It was believed in some quarters that he would confer with Knudsen and other defense heads, in an effort to speed up production of armaments and supplies for both the national defense program and Great Britain, and because of the "unlimited state of national emergency in the armament production program."

The President is also expected to confer with Secretary of State Cordell Hull concerning the vacancy in the British Embassy, caused by the death of Lord Lothian.

Meanwhile in London it was rumored in semi-official circles that David Lloyd George, prime minister of Great Britain during the World War, would be asked to become ambassador to the United States.

Royal Air Force Hits Objectives In Raid On Berlin

After 19 raidless days, Berliners took to their air raid shelters Sunday night when the Royal Air Force staged another raid on the German capital.

The British Air Ministry claimed, and Berlin partly confirmed, that military objectives in the capital were struck by high explosive bombs. For the first time the German high command admitted damage had been done in Berlin, stating that a big railway station, a subway and other objectives had been damaged during the raid. Only two deaths and five other casualties were reported in Berlin.

Photographic Records Collected By School

WACO, Tex.—A collection of Texas photographic records to which newspapers, commercial and amateur photographers will contribute, has been begun at Baylor University under the direction of Prof. A. Clarence Smith, it was announced today by President Pat M. Neff.

The collection is intended to preserve a pictorial history of all Texas communities. President Neff said. Whenever anyone has need in future years for a picture of the old school house at Cameron, for example, he explained, it can be obtained from this collection.

Professor Smith, considered the dean of the nation's news-photography instructors, said that the collection will be formed of negatives that would ordinarily be destroyed. There will be all kinds of film of all subjects by all cooperating photographers in the state, he said.

He explained that newspapers usually file their negatives from one to four years and then destroy them. Instead, under the arrangements for Baylor collection the film will be preserved here indefinitely, available at any time.

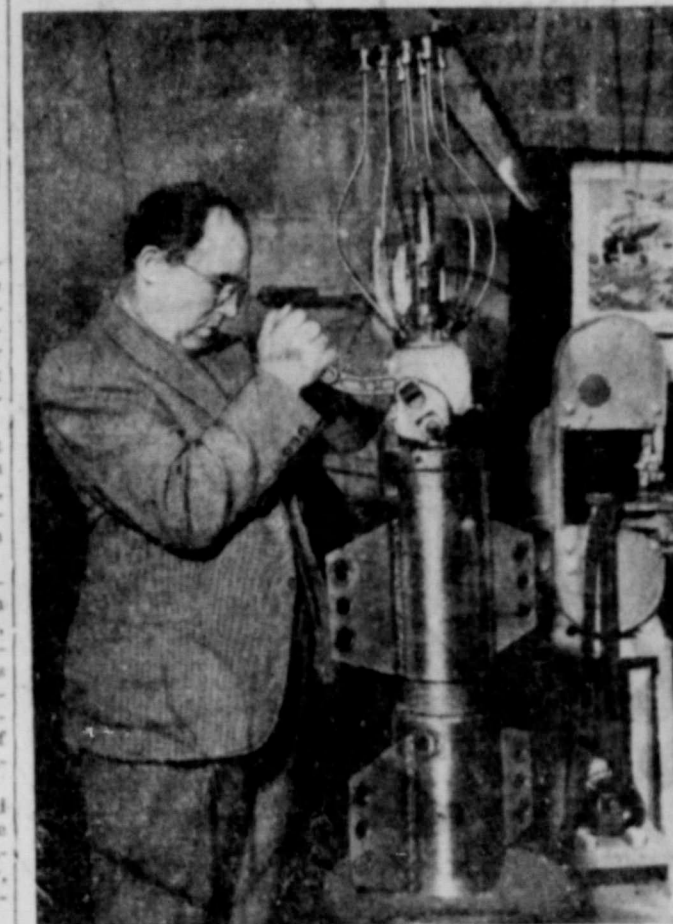

Commercial and amateur photographers usually operate under the same principle, Professor Smith continued, and will furnish valuable contributions to the file.

The files will be indexed in every way possible, he said, so that a court house negative might be located either by the name of the county, the town, individuals in the picture or under the general head of courthouse.

CHIEF PETERS ILL
W. J. Peters, Eastland police chief, is threatened with the flu and on the advice of his physician is staying in for a day or so. It was reported this morning that he would probably be out Tuesday.

BAKERY BURGLARIZED
Approximately \$60 in cash was taken by burglars who entered the front of a Cisco bakery while the staff was busy in the back. The money was taken from the office safe at about 11:00 a. m. Friday.

Revolutionary 'Kicker' for Planes

E. E. Myers, New York inventor, demonstrates his new auxiliary airplane motor of revolutionary design, which, he thinks, can increase fighter planes' speed bursts by as much as 200 miles per hour and add 85 per cent to present bomber loads. New "kicker" is not unlike "rocket" motors, using the blast of explosions of a new liquid fuel which army experts call "as powerful as TNT."

West Texas Chamber of Commerce Plan for a Business-Like Government Is Discussed By 120 Member Towns

ABILENE, Tex.—The West Texas Chamber of Commerce program and campaign for more business-like administration in the Texas state government has been taken directly to taxpayers' groups from 120 towns in the past three weeks. And the sponsor, said WTCC Manager D. A. Handerson in a statement from the Abilene headquarters, "has been gratifyingly responsive, fully up to our expectations."

The regional chamber is pushing for passage by the coming legislature of a bill covering its financial reorganization plan. The problem, the legislative remedy and the benefits expected to accrue have been explained to and discussed with taxpayers' groups in 31 regional meetings held throughout West Texas beginning November 27th. A half-dozen more are scheduled—the next, at Decatur Wednesday the 18th with the local chamber of commerce board and Lions club. The 31 meetings to date have been held under sponsorship of local chambers, joined by WTCC town directors; and the WTCC is asking the local chambers to, first, pledge support of the plan, and second, to take leadership in winning support of other community organizations. They are also asked to appoint committees to call upon their legislators, asking them to put the program through early in the session at Austin.

Need for Haste
"With the legislature's opening less than a month away, time is the all-important factor," said J. S. Bridwell, WTCC president. "We want as many co-sponsors as we can get, strong blocs in the two houses, fast action in bringing about this vitally needed change in our state administrative departments. We urge all bodies concerned over the problem and believing in the soundness of this plan to act once need is felt."

The bill will be introduced in the lower house by Rep. Joe Humphrey of Abilene. This new legislator majored in college in studying of government. He holds a master's degree from Southern Methodist University.

The drive for better business methods in the state government will not be pushed by West Texas alone. The three regional chambers of commerce—East and South Texas as well as West Texas—are planning to "throw in" together a united front. A joint statement to that effect was issued by their executives December 2. Last week the South Texas chamber's board formally confirmed its participation, and on December 17 the WTCC and ETEX presidents and managers will meet in Longview to plan future steps in the campaign.

Explanation of Plan
The reorganization bill, now being written, will provide for the continuous and responsible supervision of the state's receipts and expenditures through an executive budget. It will set up a closely thought out system for centralized purchasing of supplies, materials and equipment; an integrated centrally controlled accounting system kept on an accrual basis; and better auditing and independent post-auditing of expenditures. It will set up a system for closer coordination of the staff services of the state. It calls for a civil service system for state employees based on merit and competitive examination. It seeks reorganization of the state's administrative agencies now numbering more than 100, into not more than 18 departments. And it provides for complete information on administrative affairs to the legislature for policy-determining purposes.

Two new agencies are created under the plan. One is a governor's cabinet, an advisory board composed of the constitutionally designated executives of the state all of whom are elective officials except the secretary of state, and of the appointive departmental executives representing the major functions of the government. The bill provides that the governor will organize the cabinet and be its presiding officer.

The other new agency is a department of finance and control charged with the responsibility of carrying out the objectives of the act. By the act the commissioner heading the department will be an appointive officer, by the governor, to be confirmed by the senate. The department will be composed of budget, personnel and purchasing divisions, also a division on reorganization and efficiency. Job of this division will be to study the constitutional duties of all state agencies; report on duplications, wastes and inefficiencies; submit plans for reorganizing and consolidating the administrative functions; and serve the legislature in an advisory capacity.

Governor and Legislature
"The very essence of the plan," said Jas. D. Hamlin, chairman of the WTCC's public expenditure commission, "is making the governor really the chief executive and giving him the machinery with which he can be a chief executive, as is very definitely prescribed in our constitution of Texas. At the same time the plan provides a sound system of checks against the misuse of executive authority by making the governor responsible to the people through the legislature, which is the other constitutionally designated policy-determining agency of the state."

National Defense Is Nothing New In The United States

AUSTIN, Tex.—"National Defense" isn't a new slogan coined for 1940's generation—they had it back in 1918, and Texas did its part in talking, singing and thinking "patriotism."

A cross-section of Texas zeal is reflected in a stack of faded pamphlets, rounded up in the University of Texas' Extension Division to complete its file of World War I publications.

University bulletins described the compulsory military training for college students, the training schools for radio, auto mechanics, aeronautics—all part and parcel of the state university's curriculum.

In 1918 was dictated new rules for the Interscholastic League contests—schoolboy declamations must be patriotic in nature, and essay-writers were required to try their talents on "What I Have Done to Help Win the War."

A slim pamphlet outlined a series of Liberty Day patriotic services for schools.

In the broader community field, a bulletin offered "Patriotic Programs for Community Meetings," suggesting such popular songs as "Over There," "Keep the Home Fires Burning," "Smile, Smile, Smile," and a "new number" written by George M. Cohan, "Canning the Kaiser."

The Extension Loan Library—then as now catering to Texas citizens who have little or no local library facilities—in 1918 announced it had assembled a large quantity of packaged libraries on war topics, such as "Causes of Wars" and "Duties and Opportunities of Americans."

Piece-de-resistance of the war-conscious University extension department was a bulletin entitled "Councils of Defense," written by E. D. Shurter, then director.

Beavers Build Dam And Flood Farmers Field Of Cotton

GRAPELAND, Tex.—Despite the fact Sam Musick, a farmer living in the Reynard community near Grapeland, awoke one morning recently to find part of a cotton field covered with a foot of water, he declared he would rather have the beaver responsible for the flood on his land than the cotton he lost.

The Texas Game Department placed beaver in Walker County last year and it is believed the beaver which dammed a large creek on Mr. Musick's farm migrated into Crockett County. There they cut down trees as large as six inches in diameter, floated them to the site of the dam and built a sturdy structure.

Beaver are sought by many landowners who need ponds on their places. The small lakes built by beaver provide watering places and are beneficial in many ways.

Winners Of Camera Club Awards Made at End Of Contest

Ending a six-month contest, in which members of the Ranger Camera Club participated, awards have been issued to the four who were most consistent as winners of the monthly contests in photography.

Lloyd McEwen of Eastland and S. D. Gayton of Ranger tied for third place in the contest, just closed, while J. C. Cooby of Ranger won second place and Bill Drienhofer placed first.

Decided improvement in the quality of pictures made by all members of the camera club was noted throughout the contest period.

Former Resident Of Eastland Dies

Funeral services for Mrs. Della Ann Simmons, who died Thursday in Arlington at the home of her niece, Mrs. C. H. Simmons, were held at 3:00 o'clock Saturday at Big Spring. Interment was in the Big Spring cemetery.

"Aunt Ann," as she was called by many friends, was an early day resident of Big Spring and at various times had lived in Eastland where she made her home with Mrs. Simmons.

Switzerland's New President

New president of Switzerland is Dr. Ernest Wetter, above, noted economic expert recently elected for 1941. He is a leader of Swiss industrial activities and foreign trade negotiations.

Baylor Is Classed As 100 Per Cent

WACO, Tex.—President Pat M. Neff of Baylor University said today that action of the Southern Association of Colleges and Secondary Schools has removed all questions regarding Baylor and places the institution in 100 percent standing with the association.

President Neff and Dean E. N. Jones had attended the association's annual session in Memphis, Tenn.

This is the first time since Baylor became a member of the association that it has complied 100 percent with all standards set up by the association, Neff explained.

Never at any time however, he said, has the scholastic work of the university been questioned. Criticism always has been due to financial conditions.

The problem during recent years, he explained, was that the university's endowment has not increased as rapidly as the student body. The growing student body, which has more than doubled in size during the past eight years, has made impossible as great an educational expenditure per student as prescribed by the association.

Recent appropriation of \$30,000 per year for the next five years by the Baptist General Convention of Texas was of material assistance to the university in reaching the requirement, Neff said. The grant is equivalent to the income from a million dollars in endowment.

Scholarship Fund Is Left For Students

AUSTIN, Tex.—A \$12,000 scholarship fund has been bequeathed the University of Texas by the late Alfred B. Wolters of Schulenburg, the Board of Regents office here has announced. The fund will be administered by the University to provide an annual scholarship for a graduate of Schulenburg High School.

Reports at a recent meeting awarded four E. D. Farmer International Scholarships to Texans for enrollment in 1941 in the National University of Mexico. Recipients were William Devers Johnson, Fannin, \$1,000; Hollie Max Cummings, Alto, \$500; Thomas Sutherland, Austin, \$500; Norman Laird McNeil, San Antonio, \$1,000.

Austin Pan American Round Table Scholarships for study at the University went to Joaquin Basilio Diaz, Arcoibo, Puerto Rico; Juan Pablo Pedretti, Asuncion, Paraguay; Carlos Perez R. Torreon, Mexico; Carlos Manuel Valdes, Havana, Cuba; and Octavio Rodolfo Tiddie, Piedras Negras, Mexico. The awards were \$50 each.

Regents also extended library hours from 10 to 11 p. m. on week nights in response to student demand.

CORN PICKER HOME-MADE

OKLAHOMA CITY, Okla.—A home-made tractor with a mechanical corn picker attached has saved Paul Hutton time and money. He built the tractor from old auto parts. All told, including a red paint job, the cost was \$85.

THE WEATHER

WEST TEXAS—Fair tonight. Tuesday partly cloudy. Slowly rising temperatures.

BRITISH AND GREEKS STILL GAIN GROUND

The Greek high command today announced the Greek forces occupied the strategic town Tepelini, and now had control of the road leading to the Alban oil field, which has been Italy chief source of oil supplies.

At the same time the high command announced that the p of Valona had also been occupied and reported continued success all along the 120-mile Alban front.

One Greek officer was reported today to have made the statement that, if enough equipment could be procured by the Greeks, it would be able to clear all Italy out of Albania without any outside help. The British have been praised by the Greeks for aid given them in the Alban conflict, and much of the materials and equipment used in Greek campaign have come from British sources.

The British, meantime, announced that with the exception of the town of Sollum in the African campaign against Italians, which started one week ago, was now being fought on Italian territory in Libya. It of Sollum was predicted Egyptian sources, where it said that it was only a matter of hours until the town would be taken.

The British reported 74,000 Italian soldiers had been captured in the week's campaign and trouble has been encountered in taking care of the prisoners. The British navy has been cooperating in the campaign, and British transports are taking the prisoners to Alexandria, Egypt, bring in oil, food and other supplies on their return trips. So not an English transport been molested, the navy reports.

Hints continue in Europe that because of the Italian defeat Albania and Egypt, a new diplomatic, and possibly a military move is being planned by Hitler to offset these losses. In Turin it was reported that Hitler had been advised by his aides to be off relations with Italy, point out that since Italy did not Hitler's approval for the German campaign Germany was not ligated under axis terms to aid.

No Flu Epidemic State, Doctor Sa

AUSTIN, Dec. 16.—Dr. George Cox, state health officer, stated today there was no "epidemic" of influenza in the state, despite many rumors to that effect. Dr. Cox stated that he had received reports of approximately 1,600 cases of influenza, he said was about half the number reported at this time the year.

He stated that the influenza was of a mild type, which was proving serious.

Damage Is Done By Storm In Eastland Over The Week E

The heavy coating of ice had covered this section since day vanished as the sun came this morning leaving behind a damage done to light and utility lines, telephone lines and sherry in Eastland.

Southwestern Bell Telephone Company reported that many of their circuits were out of service but repair crews were at work and had been since Friday afternoon.

Up to now today there were reports of injuries to persons no accidents of any consequence were reported.

Eight Complaints Filed In The Court

Eight complaints filed Friday the County Clerk's office in Eastland by agents of the State Liquor Control Board charged the salaried bear and whiskey in dry areas violation of law.

Criminal Docket Is Called By Judge

Judge B. W. Patterson of 88th district court this morning began calling cases on his criminal docket, but up to 1 o'clock had not gotten into one of any of them.

Uncle Sam Tackles a Big One

The anti-trust division of the United States Department of Justice has announced a nation-wide investigation of trade restraints which allegedly result in increased food prices to the consumer and decreased crop prices to farmer.

The action has been prompted, the department says, by evidence that food industries and some wholesale and retail distributors function badly, hiking particularly the prices for bread, milk, meat, fish, cheese and canned and fresh fruits and vegetables.

The government claims that between 1913 and 1920 food processors and distributors received 40 to 48 cents from every dollar spent for food by the consumer and that since then they have been getting from 52 to 60 cents. On the other hand, the farmer who used to get from 52 to 60 cents, now gets the short end.

The government claims poor crop prices caused one farm in four to be foreclosed between 1930 and 1936. Millions of farming people have moved to the cities.

As a result of the high food prices about 45 million Americans get too little to eat, says the government. These millions do not necessarily suffer deficiency diseases like pellagra or scurvy, but many have chronic fatigue, digestive disorders, or such lowered resistance that they fall easy victims to epidemics.

The anti-trust officials believe they can prove that many organizations stand between producer and consumer, taking unreasonable toll through illegal price-fixing schemes.

The secretary-manager of the National Association of Retail Grocers and the president of the Associated Grocery Manufacturers of America have said their organizations will welcome a sweeping investigation of all phases of the manufacture and distribution of food products.

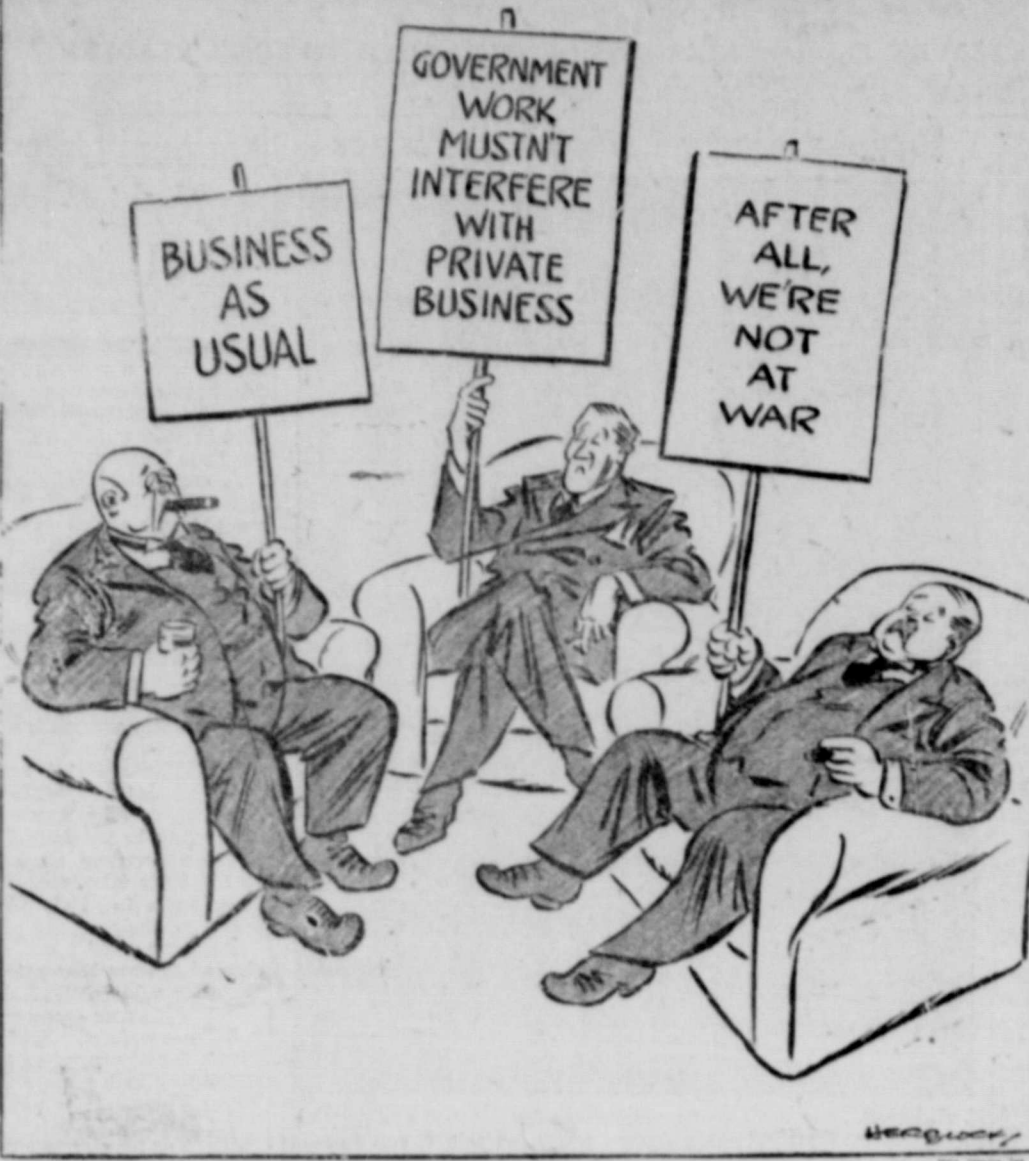

Moreover, at its recent annual meeting, the manufacturers group adopted a resolution maintaining prices should be equitably related in each instance to production costs. It further disapproved using the conditions resulting from the present crisis in world affairs as a means to extract unjustifiable profits from the American consumer.

As the consumer wants more and better food for less cost and as the farmer wants higher prices for what he raises, that almost makes it unanimous.

Uncle Sam can start shooting when he gets ready. It is a hunting expedition long overdue.

We're beginning to believe that you can't keep a good ship down either. The Bremen has been sunk how many times now?

L. McDonald, Duncan Coffee Company representative who presented the prizes.

Air Field Paper Will Be Published For Training Unit

By ARNOLD DIBBLE

United Press Staff Correspondent FORT WORTH, Tex.—Cadet Cecil H. Scott today had turned over the Hicks Field Herald to a new chief and thus became the first editor of the historic air field paper ever to live through basic flight instruction.

The jinxes that followed and finally killed all previous editors of the field paper started in the last war when the field was used to train American and Canadian fliers. It is now used for primary U. S. Army flight instruction.

Scott shunned the editor's job 20 years ago. Not a one survived a crash. Not a one dabbled with the shears and the paste pot more than a week.

(There were 54 fatal air crashes at the three field during Col. Roscoe's seven-month stay here during the World War.)

Scott left for advanced instruction at Randolph Field in San Antonio. He passed the editor's chair to Cadet H. Boothe, a part-time reporter on the Atlanta field paper and a graduate of Duke University.

Former assistant city editor of the Dallas Times-Herald, Scott avowed that he was not superstitious. "But," he added, "I'm darned glad it's over with."

MODERN MENUS

BY MRS. GAYNOR MADDOX
NEA Service Staff Writer

SNOW on the mountains, holly in the window and roast goose on the table. That's an old world picture of Christmas. Of course, many Americans favor roast turkey for Christmas dinner, or a fat capon with oyster or chestnut stuffing. And there are some who stick on roasted little pig with a bright apple in its mouth and a necklace of holly as the ideal dish. But for those who favor old world traditions, Christmas goose is the answer.

For a family party of eight, select an 8-to-10-pound goose. Allow 1 pound of goose for each guest. Have goose drawn, remove pin feathers and oil sac. Singe, scrub and dry. Stuff, allowing about 6 cups of stuffing for a 10-pound bird. Truss with string or skewers. Place on rack in open roasting pan. Prick with fork to allow excess fat to run out. Cook in slow oven (325 degrees F.) allowing about 25 minutes to a pound.

Roast goose with sauerkraut and dumplings is an elaborate Czechoslovakian Christmas specialty. It is prepared this way, according to Pearl V. Metzlin, who spent years preparing her well-documented World Wide Cook Book.

GOOSE WITH SAUERKRAUT

One goose, 10 pounds; 1 1/2 teaspoons salt, 1/4 teaspoon pepper. Stuffing: 1 tablespoon goose fat, 1 large onion, minced; 2 pounds sauerkraut, 1/4 teaspoon black pepper, 1/2 teaspoon caraway seeds (optional), 1 large potato (5 to 6 oz.), 1/2 cup white wine or water, if needed. Clean and trim goose. Rub inside with salt and pepper. Remove all fat from inside of goose and heat 1 tablespoon in a pan. Fry onion in fat until light golden brown. Wash sauerkraut and drain thoroughly. Add to onion. Add pepper and caraway seeds, if desired. Let all come to a boil. Grate potato into sauerkraut and cook until mixture thickens. Add wine or water gradually if needed, using

TOMORROW'S MENU

BREAKFAST: Grapefruit juice, oatmeal, rye toast, jelly, coffee, milk.

LUNCHEON: Cheese souffle, raw carrot sticks, whole-wheat toast, canned peaches, graham crackers, tea, milk.

EUROPEAN CHRISTMAS GOOSE DINNER: Cauliflower soup, roast goose, sauerkraut, dumplings, creamed mushrooms, Brussels sprouts, mince-meat tarts, plum tarts, cheese, nuts, fruit, coffee, milk.

careful not to make the stuffing too moist. Stuff into goose, skewer or sew up opening. Roast as described above. The goose gravy is not thickened. Serve dumplings with this, surrounding the goose with the dumplings. Keep these closely covered as they are only good if piping hot. The goose, in all Central European countries, is carved across the breast instead of lengthwise. The slices of breast are from 1 to 1 1/4 inches wide. The skin of this roast goose should be brown and very crisp.

KNEDELKY (DUMPLINGS)

Three slices bread, diced; 2 tablespoons butter, 3 eggs, 2 1/4 cups milk, 2 tablespoons flour, or more; 1 1/2 teaspoons salt. Fry diced bread in butter and set aside to cool. Beat eggs and add the milk. Cream butter, add and mix well. Stir mixture about 10 minutes after combining with the flour and salt, and when thoroughly smooth, allow to stand for 25 to 30 minutes. Add fried bread to dough and form small dumplings. Drop into fast-boiling salted water, being careful they do not stick as they sink to the bottom of the pot. Cover and boil for 15 to 20 minutes, then test one to see if it is thoroughly cooked before removing them all from the water. This is done by breaking dumpling in half. Never cut them. Serve with the goose.

It's Quilted

Quilting makes news in the mid-season collection of Sophie Gimbel, top-ranking American designer. She uses it here to fashion the large patch pockets on a full-skirted day dress of blue and white silk print.

that class to beat Cap. Price on the wash-tub ride." editors explained, is the final flight taken with the commanding officer. It determines whether a cadet shall continue instruction or be flunked ("washed out.")

The permanent members of the staff remain. They are "girl Friday," Mary Stephens, actually secretary to Major B. S. Graham, field commandant; and Jeff Isbell, director of Y.M.C.A. activities at the field.

No important change will be made in the policy of the paper Boothe said. It will, in all probability, remain largely unintelligible to the layman. To wit, this sample: "Orchids to Mr. Williamson of 41-C for being the first man of

COINS IN FOUNDATION
By United Press
SAN JUAN, Cal.—A century-old millstone and several 1822 Spanish silver coins, buried under the foundations of a barn, were unearthed here by a CCC crew. The millstone, once used by San Juan Bautista Mission, and coins are believed to have been the property of Frederick Breen I, member of the Donner party and builder of the barn.

SERIAL STORY

DUDE COLLEGE

BY OREN ARNOLD

COPYRIGHT 1940, NEA SERVICE, INC.

YESTERDAY Returning home after the fire, Wes stops at the sink...

Together they fired first pistols and then the rifle he carried...

Chiapas and other Mexican states, he had become intimate with the dialects in almost every section...

WESLEY SPRINGS A TRAP

CHAPTER XXVI

THE sudden turn of events found Wesley unprepared. He wasn't at all sure what to make of the autogiro's presence...

Very conscious of her presence (as any man as shy as Wesley York would be), he studied her face when she was shooting...

Several times he looked at Lona as if in surprise, but in a moment she shifted back to English...

Wesley cried out happily when she heard him. "You are out riding, too!"

When they had exhausted most of their shells, Lona suggested they sit for a while and talk.

His thoughts were interrupted here because Lona had actually smuggled closer to him!

"Yes!—I thought I might do a little shooting Jackrabbit or coyote maybe."

"Surely, a ranch—in old Mexico! It's romantic to think about."

Already sitting very close to him, she had made a slight movement to get even closer.

"I come out often to paint and sketch. But today I just ride. You saw the autogiro?"

"Yes. An old, old rancho, Wesley. You would love it!"

"On wet or even dry pavements, always anticipate ice on bridges, in shaded spots, around curves and over hills, and when thawing temperatures are dropping...

"They stop near me to ask if I have seen any aliens—imagine, Wesley! If I see any stranger—I would faint!"

"Mexico is a beautiful country, no es verdad?" He lapsed into Spanish.

"When it is slippery, try out the brakes occasionally to get the feel of the road. Maintain adequate vision through windshield windows. Circulate fresh air by opening cowl ventilator, rather than side windows, which in old cars tends to suck exhaust gases through floor boards."

"I want to see you again, but he had appraised her equipment, too. She had a gun, and small saddle packs and canteen and rope."

"Let's speak it together; I need the practice."

"Without chains or sand on an icy road it is unsafe to overtake vehicles unless the road ahead is clear for a half mile. Pump the brakes in stopping, even with chains, to prevent wheels from locking and sliding on rubber between cross links."

"I want to see you again, but he had appraised her equipment, too. She had a gun, and small saddle packs and canteen and rope."

"I want to see you again, but he had appraised her equipment, too. She had a gun, and small saddle packs and canteen and rope."

OUT OUR WAY By Williams

THE HEIR

For example, average stopping distances without chains are 68 feet on packed snow, and 169 feet on ice. With chain on rear wheels and at the same speed, the average stops are 40 feet on packed snow and 88 feet on ice.

"On wet or even dry pavements, always anticipate ice on bridges, in shaded spots, around curves and over hills, and when thawing temperatures are dropping avoid spinning the rear wheels."

"Without chains or sand on an icy road it is unsafe to overtake vehicles unless the road ahead is clear for a half mile. Pump the brakes in stopping, even with chains, to prevent wheels from locking and sliding on rubber between cross links."

"Non-skid tread tires are definitely helpful on dry and wet pavements and to a very limited extent on fresh, loose snow, but they give no more anti-skid protection on packed snow or ice than smooth tires."

"Chains on the rear wheels alone will reduce stopping distance on ice 40 per cent, and if used on all four wheels 52 per cent. Chains provide a higher percentage of help on ice than on snow, but stopping distances are longer on ice than snow. At 20 miles per hour, making 20 miles per hour reasonably safe. Without them the same speed is extremely hazardous and speeds well below 15 miles an hour are imperative."

"The common practice of lowering tire pressure gives only slightly more traction, and this is more than offset by increased tendency to skid and skid on curves. It also damages tires, making them more susceptible to blow-outs after much operation under reduced pressure."

"Chains on the rear wheels alone will reduce stopping distance on ice 40 per cent, and if used on all four wheels 52 per cent. BRUCE CATTON IN WASHINGTON

ROW DUE OVER SOCIAL SECURITY RESERVE FUND LABOR SEEKS HIGHER UNEMPLOYMENT INSURANCE

BY BRUCE CATTON NEA Service Staff Correspondent

WASHINGTON—Pressure of a snow-balling reserve fund is likely to force a change in the unemployment compensation sections of the social security set-up this winter.

Under the present law money is coming in just about twice as fast as it is going out. The unemployment insurance reserve fund today stands at about \$1,700,000,000, and is figured to reach \$2,250,000,000 by next July.

This reserve fund is invested by the secretary of the treasury in government bonds, each state's own contribution being held to its account.

Thus, instead of contributing to an increase in the national debt, this piling-up of the insurance fund provides a market for some of the bonds which the increase in the national debt puts on the market.

LABOR FAVORS LIBERALIZATION FROM labor and important New Dealers comes a demand that benefit payments be liberalized. From business interests comes a demand that the employers' burden be lightened—either by a lowering of the 3 per cent payroll tax, or by extension of the experience-rating system. Or perhaps both.

Whole future of the unemployment compensation system may depend largely on how this scrap comes out.

The Social Security Board is inclined to liberalize benefits, both on the theory that in many states the sums now paid are inadequate and in the belief that anything which would increase mass buying power would be all to the good.

Under the general heading of liberalizing benefits would come shortening of the waiting period, extension of the time over which benefits can be paid, and hiking of the amount paid out.

In general, both the A. F. of L. and the C. I. O. would back such a move. Interesting point is that the final rallying point of the liberalizers may be the McCormack bill (backed by Majority Leader John W. McCormack), which would write minimum benefit standards into the federal law. End result of such a step would probably be more or less complete federalization of the whole system—which, as it now stands, is actually a state affair operated under a degree of federal supervision.

REAL center of the argument, however, will be the business about experience ratings.

This is a system, now in effect in a number of states, whereby the unemployment insurance tax, which an employer pays dependent on his record in regard to stabilizing his own force. An employer who can show that over a three-year period he has kept his force from fluctuating very much and has discharged few persons pays a lower tax than the employer who lays off a large number every so often.

For years the National Association of Manufacturers has urged extension of this system. Argument is that it offers a powerful incentive toward the stabilization of employment, forces the employer who is most responsible for unemployment to bear the heaviest part of the load, and tends to make the whole system a means for helping to reduce unemployment.

Labor organizations and the Social Security Board don't like experience ratings much. They consider this a means of stabilizing unemployment, assert it works out in favor of corporations (like utilities) whose labor requirements are fairly steady, and say that it promotes the replacement of men by machines.

Miss Roberson Becomes Bride of Mr. Rider

In a single ring ceremony performed Sunday afternoon at 2 o'clock in the home of the bride's parents, Miss Bessie Roberson, daughter of Mr. and Mrs. Alex Roberson, became the bride of Mr. Ralph Rider, son of Mr. and Mrs. H. D. Rider of Gorman. Rev. David M. Phillips, pastor of the First Baptist Church, read the service.

The improvised altar before which the ceremony was read was formed in the archway between the living room and dining room of the home and was draped with greenery. Silver candelabra holding yellow candles were placed on pedestals at each side of the arch. Jack Alderson, cousin of the bride from Royalty lighted the candles before the service. Yellow

mums were used in the decorations of the living room, where greenery outlined the mantel at the fireplace and hung on the walls.

The prenuptial solo, "Because," was sung by Miss Lillian Ruth Carter accompanied by Mrs. F. P. Brasher. Mrs. Brasher also accompanied Mrs. Muri Dean Murrell and Billy Ross Hodges, violinists, who played the Lohengrin professional and recessional.

The bride's only attendant was Miss Betty Gorman who wore a dress of red earth with brown accessories. She wore a single white mum at her shoulder.

The bride was attired in a soldier blue dress trimmed with white Irish lace, worn with a white ribbon hat, white gloves and black bag and shoes. Her carriage was of gardenias and she carried a Battenberg handkerchief which Mrs. Bob Hodges, a friend of the family, had carried at her wedding.

Mr. Joe Harrison of Gorman attended the groom as best man.

Receiving the guests for the wedding was Mrs. E. R. Anderson, aunt of the bride and her cousin, Miss June Anderson, registered the guests in the bride's book.

Immediately following the ceremony a reception was held with the bride cutting the lovely three tiered wedding cake which was placed on a table covered with lace over yellow satin. The cake, topped by a tiny bridal couple was surrounded by ferns and small yellow chrysanthemums. A crystal vase filled with yellow mums formed the centerpiece and Miss Rita Mooney presided over the silver coffee service placed at one end of the table. Misses Maude Mae and Sue Turner as-

Special Service Is Conducted Sunday At Christian Church

Because of the bad weather Sunday only about 50 members of the National Guard, Home Guard and American Legion were able to attend special services conducted at the First Christian Church of Ranger.

Rev. H. B. Johnson, pastor of the church, had a special sermon for the service men and ex-service men, which was enjoyed, not only by the military organizations but by all who attended.

Home Guard To Meet At The Legion Hall

The regular weekly meeting of the Home Guard will be conducted this evening at the American Legion Hall, it was announced today.

The meeting had previously been postponed because of the barbecue that had been planned for the National Guard and Home Guard, but since the barbecue was put off until later this month the Home Guard will meet as usual, it was stated today.

Youth Beats Co-eds In Home Economics

By United Press
TUSCALOOSA, Ala.—It's a man's world, girls. Men have been winning knitting contests and milking marathons for years, but for the first time in the history of the University of Alabama, top scholastic honors in home economics went to a boy, Ervin Wyatt, Jr., of Hialeah, Fla., sophomore in clothing textiles and art. His average was 2.6.

The award, presented at the home economics convocation by Phi Upsilon Omicron, professional home economics sorority, was the book, "Home Economics." Wyatt's name is engraved on a silver honor plaque in Doster Hall.

Besides his interest in dress design, Ervin Wyatt has appeared many times as tap and acrobatic dancer.

Last year's winner also came from Florida. She was Lillian Anderson, of Pensacola, Fla.

Blind Salesman On Road For 47 Years

By United Press
WHATELY, Mass.—Carl Fay, 64-year-old Boston native, became blind at the age of 10, yet his travels exceed 100,000 miles. Wandering through the United States, Great Britain, Ireland and Scotland, Fay has earned his way since he was 17—selling shoe strings.

Fay travels mostly on foot and is not afraid of automobiles because he cannot see them. For a man who has no access to newspapers and periodicals, he keeps well abreast of the times.

GROCERY AND MARKET
Phone 103 - We Deliver

At the close of the evening refreshments were served to the following Messrs. and Meses. Bruce Harris, Warren Moore, Walter Davis, Forest Webber, Wilnot Simpson, William Herbert, J. B. Ponder, Hugh Smith, Dr. and Mrs. C. L. Jackson, Misses Eva K. Reese, Ella Joy Bearden, Florence Jane Ponder, Richard Davis and David Simpson.

Cooper Christmas Meeting Postponed
The Christmas meeting of the Cooper School Parent-Teacher Association which was scheduled to be held Tuesday night has been postponed because of the weather and the illness among members and students.

Members of the organization are urged to note the change in plans.

Legion Auxiliary To Meet Tonight
The American Legion Auxiliary will meet tonight at 8 o'clock in the Legion Clubrooms and all members are urged to attend.

THIS CURIOUS WORLD

GENERAL GRANT, COMMANDER-IN-CHIEF OF THE UNION FORCES IN THE CIVIL WAR, WAS SO UNORTHODOX IN HIS DRESS THAT HIS OWN MEN FREQUENTLY STOPPED HIM, NOT RECOGNIZING HIM AS A SOLDIER.

BAR-B-Q—it's as typically American as the western range! Delicious pork or beef with that inimitable Porkey Pig Bar-B-Q sauce. Try it with a cup of coffee.
