... What the Judges Say It Is.'

We are under a written constitution, but the constitution is what the judges say it is.

That classic phrase of constitutional lore never was more aptly illustrated than in the unanimous Supreme Court decision upholding constitutionality of the Wage-Hour law.

The law providing a national floor under wages and ceiling over hours (and by implication of a national child labor law), both as concerned with production substantially affecting interstate commerce, are now ruled consistent with the constitution.

But in 1918 this was not so. The written constitution has not literally changed. The times, and the judges, have changed. And so the constitution has for practical purposes changed, because the judges say it has, though its literal wording remains unaltered on the printed page.

There is nothing about this to cause concern. Certainly it was never intended that the constitution should enclose the nation in an iron mold. The reason for a written constitution is to give stability, to limit powers, and to assure that changes shall not be violent or capricious. It was never meant to choke off all change.

The Supreme Court has reversed itself. But let's go back over the history of that reversal. Nearly 25 years ago, Congress passed a law prohibiting shipment in interstate commerce of the products of child labor. A test case, the famous "Hammer vs. Dagenhart," was carried up to the Supreme Court. That court decided that the constitutional power of Congress to regulate interstate commerce was no sufficient to justify the law.

The years pass. In a world that bears little relation socially to that of 1918, a similar test is made. And now the court unanimously decides otherwise, and specifically avers that the 1918 decision was "unsupported by any provision of the constitution," and "should and now is over-

Does this mean that the Supreme Court is itself capricious and unstable? Not at all. A great deal of water has gone over the dam since 1918-a troubled and tumultuous 23 years. The court has simply proved that it, too, can move with the times, and read the handwriting that is written large before us.

That does not mean that the court should literally follow the election returns, be responsive to the shifting play But it does mean, and the assurance is good, that the court ' can read the constitution in terms of the larger sweeps of social movement

Texas Highway Maps for 1941 Are

AUSTIN, Texas - The 1941 spring edition of the Texas Highway map issued by the Texas Highway Department is now available to the public. The cover of the spring edition is a natural color photograph picture showing a sunrise scene on the Gulf Coast of Texas, and the new map shows all State highways, cities and towns, and, as with every issue of the map, shows that pavement has been placed on many unpaved gaps since the last map was issued

Features of the 1941 spring edition map are the new Federal census figures for Texas cities and towns. Shown on the map itself are oil and gas regions, national forests, and principal lakes and streams, Inserts around the map show in larger scale the routes into and thru larger cities. On the back is a brief description of State parks, and other attractions; facts about Texas; and interesting pictures of industry and development in the State. The tances showing that it is farther between some cities in Texas than from the same cities to Los Angeles, Chicago, and Jackson- District Offices.

A Thriller From

Junior College The Ranger NYA cagers took a thrilling overtime game from Ranger Junior College Tuesday night by a score of 38 to 37. The game was close and fast throughut, the largest margin between the two teams being at the end of

agers led by 27 to 17. Time for the official game endd with the scor knotted at 32-32 and at the end of the three minute overtime period it was again tied at 36-36. Captains of the two teams agreed that the irst field goal would determine he winner. Smith of the Junior College sank a free throw to put his team in the lead 37 to 36, but Marlow of NYA took a pass under the basket and sank the shot to end the game 38 to 37.

Warren of Junior College was high point man of the evening with 11 points and Marlow and Tate of NYA tied for second with

March would be a dismal month indeed if man had no imagination. Fortunately, hope springs eternal, and each returning Spring sees new ideas, new aspirations brought once more to life.

"We'll do that in the Spring," is a familiar expression. Plans shelved during the Winter are dusted off. Now, the family talks about replacing the old car . . . buying new clothes . . . a new radio ... dahlia bulbs ... paint for the garage. A thousand things are needed . . . a thousand tasks must be done.

Here in the advertising pages of this newspaper is real Spring news. Articles you need, carefully selected and arranged, are paraded before your critical eyes. Read the advertisements thoughtfully . . . and so choose wisely. For advertisements, the maker's guide to good values, will be your guide to a happier, more cheerful Spring.

CASA BLANCA, everyone said, was a wonderful night club for a town like Pattonsville. A big shell of a place, it had a smooth floor and a good orchestra. Every now and then some of the big-name bands you heard on the attempt at laughter. April decided, Casa in the wouldn't do. What he right way. And yes, Hal was going places.

"T'd like to be in uniform right now." He was saying. "But I'm in chemical research at the plant on a rush order for the government, so it looks as if I'd be kept there for a while. Is that what was worrying you. April?"

April shook her bead, uncertainly.

Hal didn't try to kiss her, but taking her hands said, "Well, whatever it is, April, if the time ever comes when you want to tell made the world in the right way. And yes, Hal was going places.

"To ilike to be in uniform right now." He was saying. "But I'm in chemical research at the plant on a rush order for the government, so it looks as if I'd be kept there for a while. Is that what was worrying you. April?"

April shook her head, uncertainly.

Hal didn't try to kiss her, but taking her hands said, "Thanks, but I'm in chemical research at the plant on a rush order for the government, so it looks as if I'd be kept there for a while. Is that what was worrying you. April?"

April shook her could like
