## HITLER'S FIRST SPRING OFFENSE BACKFIRES

### Woman, 82, Fishes Dreams of Treasure Draws Pension

ELKHART, Anderson County, Tex. (UP)—Mrs. Susa Freeman, 82, probably is sitting on the bank of some stream—if it be a good day—wishing the fish would bite better and dreaming of a hidden cache of gold.

Mrs. Freeman is one of four persons now receiving Texas Revolution pensions. Her husband, 40 years her senior, was Thomas Freeman who fought with Gen. Sam Houston in 1836 and later joined Gen. Zachary Taylor in the Mexican war.

The bright-eyed octogenarian has two hobbies, fishing and raising chickens on her little farm dreams of finding a fortune which she believes her husband brought back from California in 1849. She believes the gold is buried in a cave some where around Austin. She says that her husband also knew of other deposits of silver and gold in Texas. Before he died in 1891 he told her of the presence of a map which would lead to the discovery of these riches, she says, but he never revealed the location of the map.

In 1925 Mrs. Freeman searched the old home at Austin in which she and her husband had lived, but found nothing that indicated hidden wealth.

She has a great deal of her time with her daughter, Mrs. Edna Woodard of Elkhart, but makes almost daily trips to the chicken farm. And during the fishing season, she's apt to be found out on the streams angling for perch and channel catfish.

Mrs. Freeman's husband came from Ohio. She doesn't recall the date of their marriage, but believes it was in the '70's. But she's certain her husband was a great lover of adventure.

### Wholesale Evictions of War Workers Not To Be Tolerated

DALLAS, Texas—Wholesale evictions of war workers by landlords "cannot and will not be tolerated," Max L. McCullough, region administrator for the office of Price Administration, said today.

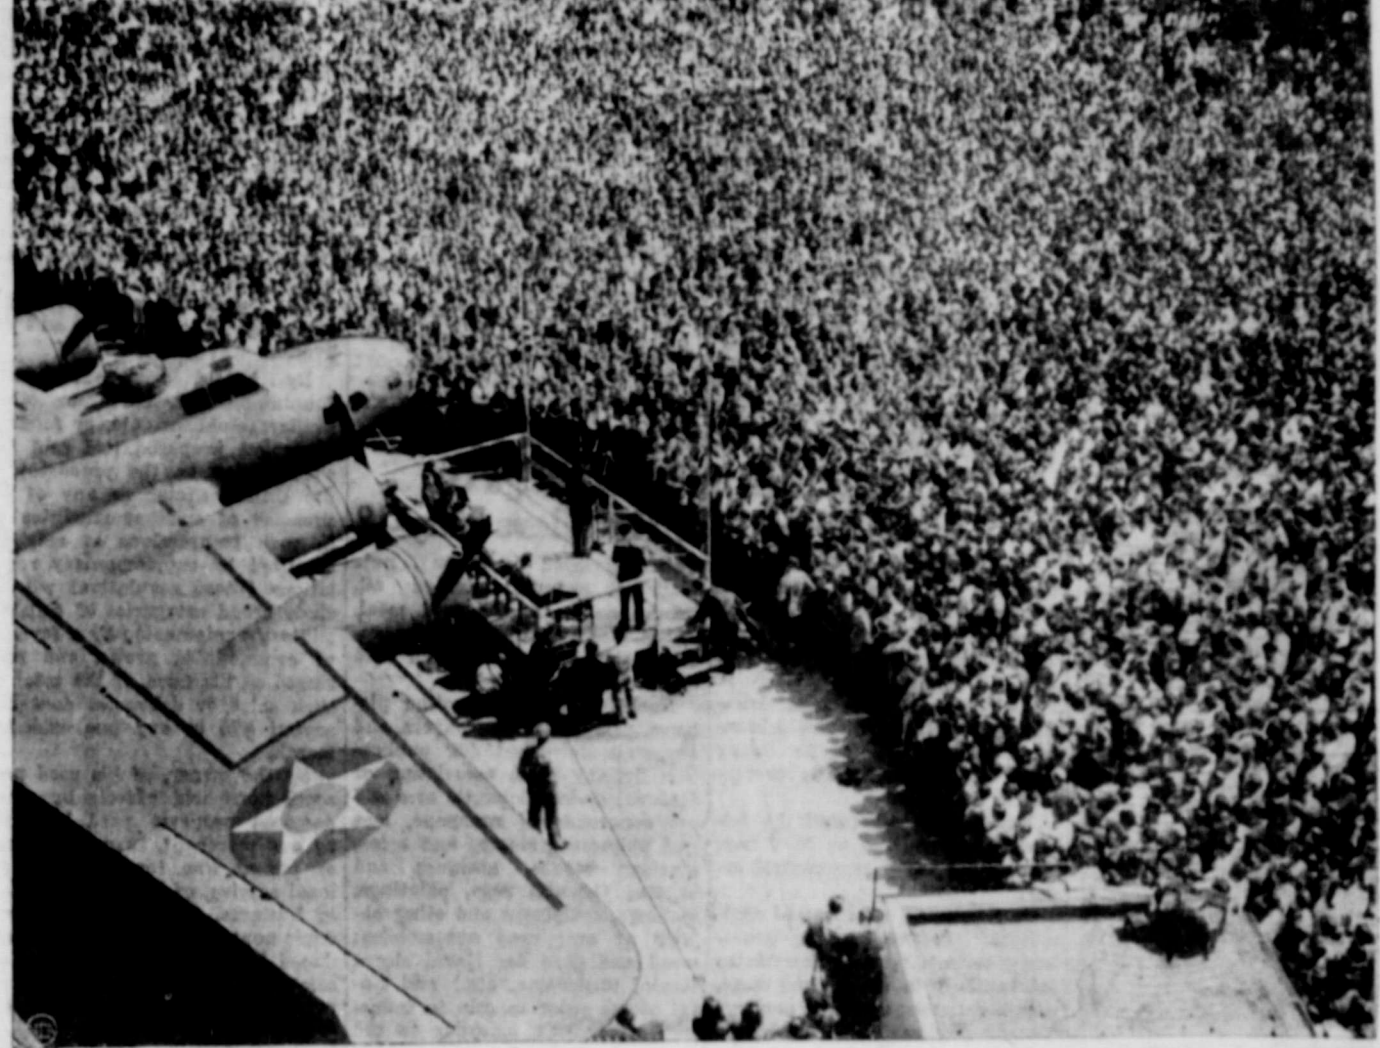

"Landlords who evict tenants in the hope of evading maximum rent regulations are engaging in a futile and unpatriotic act," Mr. McCullough said.

Mr. McCullough's statement followed reports that in some of the defense rental areas designed on April 28 as the first step toward federal regulation of rents, landlords were attempting to evict tenants and bring in new tenants at higher rentals.

"The OPA will not permit the war production program to be sabotaged by a few landlords who have the mistaken notion that they can somehow wiggle outside of this essential war-time program," he said.

"The new tenants will not be required to pay, nor will the landlords be permitted to collect, rents in excess of that collected on the maximum-rent date prescribed for each rental area."

### Yours The Glory Too. Hero Tells Plane Builders

"Our men in the combat zones don't want all the credit for successes in battle," Capt. Hewitt T. Wheelis, cited for heroism by President Roosevelt, told Boeing Aircraft workers in Seattle. "If it were not for you fellows here and the splendid equipment you send us, our task would be all but impossible." Workers by thousand sought to shake hands with Wheelis after speech.

### GERMAN PROPAGANDA STATES RUSSIAN MAN POWER STOPS FIRST ATTACKS IN CRIM

Expected Drive Toward Caucasian Oil Fields Result in Nazis Getting Big Setback

By United Press

Adolf Hitler's first effort to start a new Axis offensive in Russia appeared to have backfired today on the bloodstained Kerch Peninsula guarding the Crimean "short cut" to the oil fields of the Caucasus.

Meager reports of severe fighting on the Kerch front indicated that the Germans and Rumanians suffered heavy losses in a drive started with strong air support the "new weapons" on May 8, and that they had been hurled back to their original position by the Red army.

This version came from British military sources, but was supported by the German radio explanation that the Russians were numerically superior on the Kerch front, and had extraordinarily strong fortifications and good air bases. The Russians, after issuing a communique disclosing that "our troops waged a stubborn battle against German troops that had taken the offensive," permitted nothing further to leak out and today's communique said only that there had been no important developments.

There was mounting action on other fronts, too, including the Mediterranean, where three British destroyers were sunk by German bombers and air forces, whose heavy fighting continued.

Dispatches from the war front included:

Mediterranean—The British Admiralty admitted the loss of the destroyers Lively, Kipling and Jackal, and of two airplanes, due to Axis air bombardments, but at least 500 men were saved in the Gulf of Sollum. Continued attacks upon Malta have cost the Axis more than 100 planes downed or damaged since last Friday, due to improved British defenses.

France—Anti-Nazi have bombed six Paris hotels and restaurants requisitioned by the Germans. Marshal Petain and Laval confer on a threatened rupture with the United States over the Martinique situation.

Burma—British troops drive 500 Japanese soldiers southward in the Shwegyin sector. Chinese troops hammer at enemy columns in the north and force a 50-mile Japanese retreat. From India it was reported the monsoon season was starting, which brings heavy rains throughout the Burma area, which is expected to aid the defenders of China's back door.

Australia—American and Allied bombing squadrons continue battering attacks upon the Japanese invasion forces, knocking out two or three more vessels in the islands north of Australia.

### Traveler Seeks A Wife From TSE

BEEVILLE, Tex. (UP)—A well preserved man in his sixties, traveling in a de luxe trailer house entered the Texas State Employment office and asked for a wife.

He presented his papers certifying to his possessions which included property and government bonds and said since he had enough for two persons to live on, he wanted to marry.

However, he qualified his choice of a bride by wanting her to be a widow and preferably receiving a pension.

The employment office said sorry, it wasn't authorized to act as a matrimonial agency.

### Specialist Will Discuss Bombs At Meeting Tonight

Frank Williams, drill instructor of the State Fireman's School at A. & M. will be the chief speaker at a meeting of firemen from Eastland, Ranger and neighboring towns to be held this evening at the Eastland City Hall.

At this meeting Williams and others will demonstrate and lecture on incendiary bombs.

All firemen, air raid wardens and other civilian defense workers are urged to attend the meeting.

Chief A. W. Hennessey of the Eastland fire department aided in preparing the meeting.

### Still Menaced By Japanese

Despite a sweeping U. S. victory in the Coral Sea battle, Australia still faces invasion threat. United Nation leaders expect reinforced Jap fleet to start new drive southward. Map shows eastern section of Australia, most likely to be attacked.

### Conserving Fats In U. S. Is Urged

COLLEGE STATION, (UP)—American families eat more than six billion pounds of fats and oils yearly. According to Roy W. Snyder, animal industries specialist of A. & M. College Extension Service, it would require 5,000 freight trains of 50 cars each to haul that essential food to a central market.

The world shortage of fats and oils makes it imperative to conserve them here. Store lard to be used at home in tight containers in a dry, cold, dark place. Packing lard in gallon buckets with a layer of wax at the top to make the containers air tight is a proved method for keeping it through the summer months. Moisture, air, light and high temperature hasten lard to become rancid.

In using lard from a large container—five gallons for example—take it off the top evenly. Snyder cautions that digging down in the center or at one side exposes more surface to the air and increases the chance of rancidity. Save lard by using no more than necessary in cooking. Bacon and sausage dripping, which are suitable for seasoning other foods, should be strained and stored in a cool place as carefully as new lard.

If lard is strained through several thicknesses of cloth to remove foreign matter after use in deep fat frying, its frying life is increased. Snyder warns against heating fat to the smoking point as it reduces the number of times it can be used effectively.

### William D. Trott Is Promoted To Staff Sergeant

William D. Trott of Eastland son of Mr. and Mrs. J. F. Trott of Eastland has just been promoted to Staff Sergeant according to Col. Thomas L. Gilbert, Commandant of the Lubbock Army Flying School, Lubbock, Texas.

Sgt. Trott attended the Ranger and Eastland High School, ACC Academy at Abilene and HSU at Abilene. He is with the Headquarters and Headquarters Sqdn. at the large advanced twin-engine flying school.

A special orders clerk in the post headquarters, Sgt. Trott is serving his second enlistment. He first enlisted November 8, 1938 and enlisted the second time on February 4, 1942. Prior to being transferred to the Lubbock Flying School he had been stationed at both Fort Sill, Oklahoma and Camp Walters, Texas.

Mrs. Trott is the former Jerry Smith of Ranger and is the daughter of Mr. and Mrs. Pat Smith of Greggton.

### Woman of 70 Has A Victory Garden

TYLER, Tex. (UP)—One of the best victory gardens in this area is the result of the efforts of Mrs. Ella Jeter.

Mrs. Jeter is 70, and has coaxed a super abundance of vegetables from a small plot at her home here with a small spade and a hoe only. Her lettuce and bush beans, corn and tomatoes are well along. Next on the list are popcorn, okra, collards, cucumbers and squashes. Already gone to market are English peas, mustard and turnip greens beyond her need or ability to can.

"If a 70-year old woman with nothing but determination, a hoe and a spade can produce one of the county's best gardens, there's a little excuse for any family's failure to produce most of its own vegetable requirements at home—and that's so important now with the war upon us."

### Wool Is Precious; Care For It, Is Advice Of A & M

COLLEGE STATION, (UP)—Two or three times this nation's domestic production of wool will be necessary to meet military needs in 1943. With the manufacture of woolen blankets prohibited and a similar order for clothing expected shortly, home makers should take the best possible care of these articles.

Louise Bryant Extension Service specialist in home management, offers these suggestions for making woollens last longer:

Collect all winter clothing, blankets, and woolen accessories which will not be used again until next fall. Inspect the garments carefully for soil and grease spots. If they are spotted or dirty, send them to the cleaner. Dry cleaning or washing in a correct solution of neutral soap kills all forms of moth.

Articles not soiled enough to warrant cleaning or laundering should be hung out to air on a sunny, breezy day and given a thorough brushing.

Give each garment as much chance as possible to keep its shape. If articles are packed in chests or trunks, place the heaviest things at the bottom and the lighter things on top. Fold every thing lightly sprinkling flake naphthalene or paradichlorobenzene between each fold.

There are dust proof bags on the market made of heavy paper treated with a moth preventive. These hold several garments and allow the garments to breathe naturally. Stuffing the sleeves and body of the garment with wads of tissue paper will help keep it free of wrinkles. Do the same with folded garments.

### Youth From Ranger Missing At Manila

Word was received in Ranger Monday from the Navy Department that Woodrow David Patterson, 26, son of Mr. and Mrs. H. B. Patterson, was missing in the Manila Bay area.

Yong Patterson is a graduate of Ranger High School in the class of 1936, and has been in the United States Navy for eight years.

### Bomb Turns Out To Be Antenna Weight

BEEVILLE, Tex. (UP)—Beeville has sent forth its first demolition squad—and none too eagerly.

At best it was a pickup group—volunteers A. S. Wier and Frank Probst, State Highway Patrolmen whose job doesn't call for bomb hunting. But a farmer had called the sheriff and said he thought a bomb had been dropped on his farm.

### OPA Clinic Will Explain Ceilings Tuesday, May 12

The Fort Worth Chamber of Commerce has issued invitations to local wholesalers and retailers to attend an office of Price Administration Clinic, to be held in the Municipal Auditorium, Fort Worth, on the evening of Tuesday, May 12 at 8:30, at which time the new price control measures will be explained.

Price ceiling of most commodities go into effect for wholesalers on May 15 and for retailers on May 18.

A representative of the office of Price Administration will be present to interpret and explain the price control plan and the new price regulations which go into effect after this week.

### Wheat Loan Plan Is Announced

COLLEGE STATION, (UP)—Basic loan rate for this year's wheat crop in Texas is \$1.34 per bushel but individual prices will vary according to locations.

The loan program, with rates based upon returns equivalent to 85 per cent of parity, became effective when wheat farmers approved marketing quotas in national referendum May 2. Unofficial vote indicates Texas wheat farmers approved quotas by approximately 89 per cent while national approval is expected to average about 82 per cent.

General provision of the loan program are similar to those of the 1941 program, according to P. C. Colgan, state AAA commodity loan specialist.

### Rio Grande Going After Citrus Sales

McALLEN, Tex. (UP)—Florida and California please note: The Texas Rio Grande Valley in going after your citrus fruit business. The Valley has just harvested one of its largest crops of oranges and grapefruit.

According to the Federal Bureau of Agricultural Economics, the grapefruit crop totaled more than 15,000,000 boxes. The orange output was estimated at 2,900,000.

Both crops were larger than last year, the grapefruit yield increasing by 1,300,000 boxes.

And—the rest of the country showed a decrease in both orange and grapefruit production.

### Trinity River Is On A Rampage In Liberty Section

LIBERTY—The Trinity River rose higher today than ever before recorded and, despite sand-bagging, threatened to block the Houston-Beaumont highway to traffic.

A stage of 28.8 feet was recorded as 1.62 inches of rain was added to the flood hazard.

Three miles of the Southern Pacific main line were underwater and train service was halted at 2 o'clock Tuesday morning as a result of the floodwaters.

Lowland residents had been warned for several days that the flood crest was approaching and Texas Defense Guard planes were used in aiding with flood warnings and rescue work.

County Spending Quadruples PRYOR, Okla. (UP)—Merchandise sales increased 399 per cent during the month of March in this county over March 1941. The two per cent sales tax raised \$8,880, against \$2,327 last year. Nearly defense industries were given credit for much of the increase.

Texas first anti-trust and anti-monopoly laws were passed during the administration of Governor J. S. Ross, 1887-1891.

Movie Lights for Air Defense HOLLYWOOD, Cal. (UP)—Screen actor James Gleason proposed to Gov. Olson a new Hollywood contribution for air defense. He has asked authorization to recruit an anti-aircraft unit, utilizing the giant searchlights used for launching the movie premieres.

The University of Texas was opened at Austin in 1853.

Wants Her to Make Mind UP SAN JOSE, Cal. (UP)—Homer W. Calhoun asked the custody of his twin children from his former wife on the grounds that she cannot make up her mind about whether she first married him, then divorced him, then remarried him, then remarried him; then had the marriage annulled; then married a Mr. Davis; divorced him; then remarried Davis.

THE WEATHER West Texas—Widely scattered shower and thunderstorms this afternoon and tonight, little temperature change, fresh gust-winds.

Mills for grinding wheat and corn were established by the first white settlers of Texas. Manufacture of lumber also began at an early date.

## Why We Are Rationed

The American people are indulging in unrealism to which is going to add to the unpleasantness of the war. Even after Pearl Harbor, Bataan, Singapore, Burma, and our present pampering ourselves with the narcotic of idleness.

Specifically, to take current illustrations, there are matters of automobiles and of sugar.

With all that has been said and written, the average man still appears to believe that the tire shortage will be relieved soon by a huge output of synthetic rubber; that there is no need for severe restriction upon gasoline, and so this will be lifted as soon as a few dunderheads in Washington have been rebuked scathingly.

The same is true of sugar. We have been told, truthfully, that enough sugar is available to fill our national sweet tooth to overflowing. There are stories, believed if not true, that in Puerto Rico sugar cane is rotting uncut. Ergo, we are being victimized by some bureaucrat in the capital.

The Lord knows there are bureaucrats enough on the Potomac, and they have pulled sufficient boners to deserve much of the mistrust they receive. But that is another story, which doesn't affect the bald, unpleasant truth.

Tires, gasoline, sugar are bannor or rationed because there is no other way of beating Hitler and the Japs. In all probability they will be banned, restricted or rationed until the war is over.

He who plans on any other basis is blowing soap bubbles of the flimsiest type. He'll be very sad when they burst.

Everybody realizes that tires are cut off because we can't get rubber to make more. As for filling the gap with synthetics, let's use our heads.

We're so short of steel, already, that we're struggling to keep armament and munitions production booming. We are forced to divert some of that steel to construct plants in which to make enough synthetic rubber for military use.

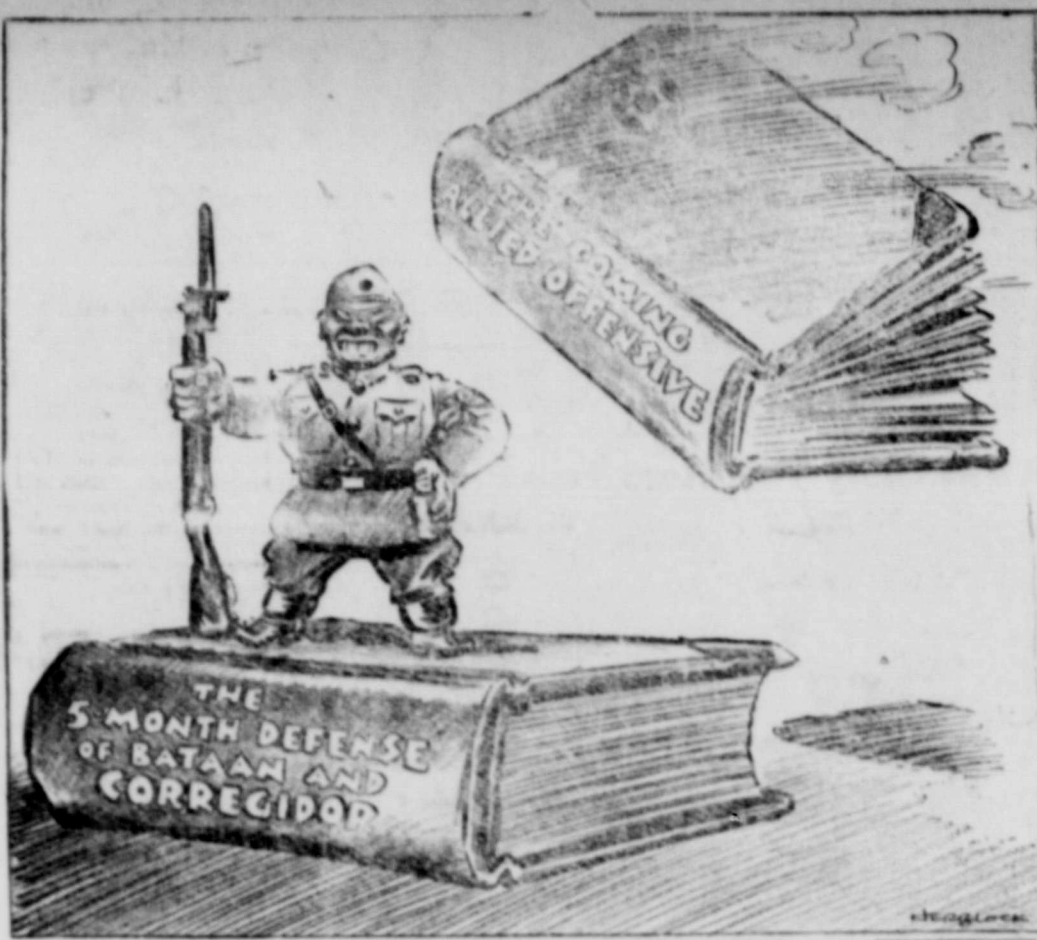

Is it sensible to suppose that any sane government will pull more steel out of war production, just so we can have tires for pleasure automobiles?

Everybody knows this country has more petroleum than we can use for generations to come, and believes that capacity for distilling gasoline is ample.

But neither crude nor even gasoline helps unless it can be brought to our filling stations. War use and sinkings have depleted our tanker fleet. The railroads are handling all the oil and gasoline they possibly can. We can't spare the steel or labor to build tank cars, locomotives, or tank ships just to please the civilians of a nation at total war.

Wonder where gossips would stand if there wasn't any middle of the sidewalk.

## Yes, That Book Is Closed

### Where Billions Go

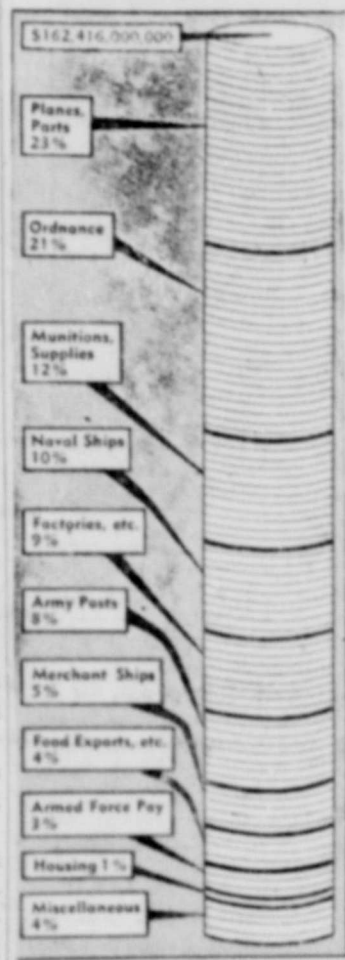

Chart shows how \$162,416,000,000 in war funds made available by Congress or RFC since June, 1940, is being spent.

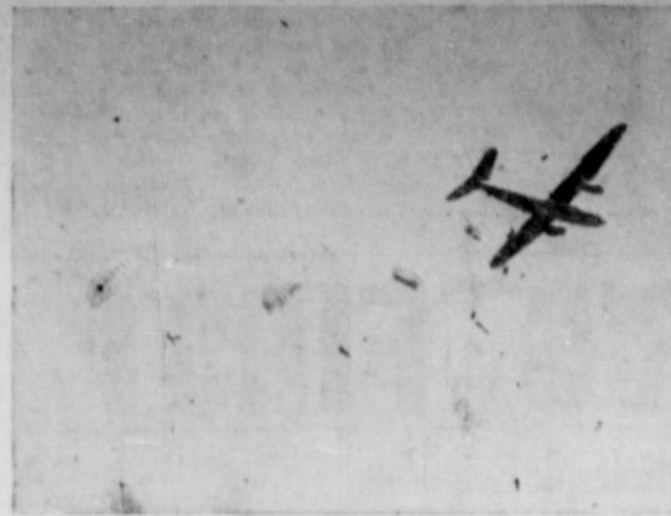

## Many Commodities Expected From List On Which Price Ceilings Go Into Effect For Retailers May 18

DALLAS, Texas.—Many commodities are expected under the Maximum Price Regulation which went into effect May 11 for wholesalers and goes into effect May 18 for retailers, Max L. McCullough, region administrator of the Office of Price Administration, said today in listing those articles specifically exempted by the order.

Mr. McCullough listed the following commodities as NOT covered under the price control order: Any raw and unprocessed agricultural commodity or greenhouse commodity while it remains substantially in its original state, except bananas, eggs and poultry; all milk products, including butter, cheese, condensed and evaporated milk (but not fluid milk sold at retail, cream sold at retail, and ice cream); flour (but not packaged cake mixes and other packaged flour mixes); mutton and lamb; fresh fish and seafood, and game; dried prunes, dry edible beans, leaf tobacco

(whether dried or green), nuts (but not peanuts), linseed oil, linseed cake and linseed meal, mixed feed for animals, and manure; living animals, whether wild or domestic. Books, magazines, motion pictures, periodicals, newspapers, and materials furnished for publication by any press association or feature service; domestic ores and ore concentrates; stumpage, logs and pulpwood; stamps and coins, precious stones, antiques and knotted Oriental rugs, paintings, etchings, sculptures and other objects of art; used automobiles; wood and gum for Naval stores (resin, turpentine, etc.) and Naval stores prior to sale to industrial consumers, or prior to the first sale to a distributor (all sales of Naval stores on any exchange, however, are not exempt); securities (securities are defined as any notes, stocks, bonds, or instruments commonly known as securities); sales of all waste materials up to the level of the industrial consumer; zinc,

## Leatherneck Sky Soldiers

Like puppets in a Punch and Judy show United States Marine Corps parachute troopers dangle in air after leaving a Leatherneck transport plane. Most jumpers are between 21 and 25 years, 5 feet, 8 or 2 inches and weigh from 160 to 190 pounds.

lead and tin industrial residues; certain machines and parts manufactured in the course of sub-contracting (and services performed on these sub-contracted materials); antimony ore and concentrates; and instrument jewel bearings.

The general regulation exempts the following sales and deliveries:

By hotels, restaurants, soda fountains, bars, cafes, or other similar establishments, or food or beverages prepared and sold for consumption on the premises; to the United States or any of its agencies of such commodities or in such transactions as may be specified by supplementary regulations (these regulations will include broad categories of finished military equipment); by a farmer, of commodities grown and processed on his farm, if the total of such sales or deliveries does not exceed \$75 in any one calendar month.

By the owner, of his used personal household effects or other personal property used by him; by any merchant, farmer, artisan, or person who renders professional service, of his used supplies, or business, farm of professional equipment, not acquired or produced by him for the purpose of sale; at a bona fide auction, of used household or personal effects; by a breeder, trapper, or hunter, of pelts, furs or other parts of wild animals raised by him, or trapped, shot, or killed by him, if the total of such sales or deliveries does not exceed \$75 in any one calendar month; and of commodities sold without private profit in the course of any sale, fair or bazaar conducted for

## The 19th Hole

The Ranger golfers rededicated themselves in the matches with Breckenridge Sunday by winning 23 to 13. "I will be remembered that the Breck boys did a bit of winning the week before on their course."

Only twelve players were over due to the Lions convention being held in their city, which included a golf tournament Sunday. Compiling Breckenridge's 13 points were: Bill Russell 2, Rupert Coles 1, Walter Johnson 2, Burton Jones 0, Marshall Watson 0, Paul Smith 0, A. N. Riding 0, B. Wheatstone 2, Ed McDowell 0, B. H. Jones 2 1/2, Chas. Deere 1, L. V. Foreman 0.

Ranger players—Roy Trower 1, Bobby Sikes 2 1/2, H. H. Vaughn 1, Pop Cole 3, Sam Conner 3, Glenn West 3, E. L. Norris 0, J. D. McClester 1, Happy Harrison 3, F. P. Brasher 1/2, H. P. Ernest 2, Earl Conner 3.

Mr. Watts has been working very hard on the greens and fairways and has them in excellent shape. He is putting sand and some new grass on the greens, which should have them in grand

a period of not more than 15 days by any religious, charitable, or philanthropic organization.

condition for the tournament. Mrs. Watts has also made new bright red flags, (which were very badly needed) and we hope we don't see anyone cleaning the mud off their golf balls with them, at least until after the tournament.

In case you have forgotten of you forget the dates of the tournament, they are May 29th, 30th and 31st. And WAR BONDS AND STAMPS are still prizes, no matter how you get them.

Several of our out-of-town golfers were over Saturday, namely Spink Howard, Olney Black, Bobby Sikes, Gayland Poe, J. D. Harvey, Neal Day, Earl Conner, Sam Gamble, Cecil Sylvester and Rip Galloway of Eastland; Sam Conner, Haskell; Fred Hughes, Longview; J. D. McClester, Texarkana and J. W. Mingus and S. H. Martin of Strawn.

## Red Cross Sewing Station Will Open Each Day In Week

It was announced Saturday by Mrs. J. E. McLaughlin, chairman of the Red Cross sewing room, that material has been received for 25 pairs of shirts for women and 50 pairs of workmen are needed immediately as the quota deadline has been set for the first of June.

The sewing room is open every day of the week and there are sewing machines available to keep a number of women busy all the time.

Mrs. McLaughlin also stated that the quota of dresses recently received has been completed with Mrs. P. M. Kayndall serving as cutting chairman. Wives of employees of the Premier Oil Company under the direction of Mrs. David Pickrell completed 17 of the dresses.

Announcement was also made Saturday that Mrs. Henry Davenport has been appointed as chairman in charge of the collection of wool clips taken from men's clothing.

New Problems for Farm Wife BERKELEY, (UP)—The California College of Agriculture has worked out a list of 18 new war problems which the national emergency has created for the farm wife. The list includes conservation of valuable materials, food and clothing, tires, gasoline, electricity, paper, silk, metals, fat for soap making, vegetable gardening, raising of small meat animals and various other tasks.

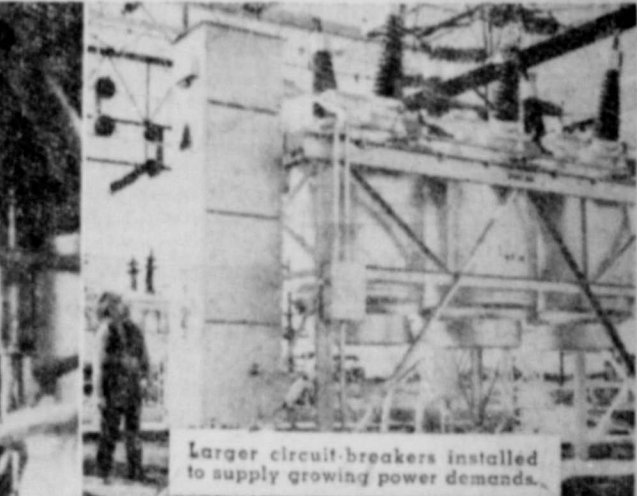

Texas Agricultural and Mechanical College was opened October 4, 1876, during the administration of Governor Richard Coke.

Changing wiring while "hot" to avoid interrupting your electric service.

Power plant machine shop, where quick repairs are made to machinery.

Larger circuit-breakers installed to supply growing power demands.

## Supplying You with Electric Service is a Never-Ending Job!

Any woman knows what a job it is to keep house. You're never quite through with the job. If it isn't planning the next meal, there is cleaning, mending, dusting and the many other things that must be done each day.

So it is with your electric service friends whose job it is to supply dependable electric service to you and to rapidly expanding war industries. Every day there are many little, but important, jobs to be done.

In these days when electric service is a vital factor in our war production program, these daily tasks of the electric company workers are doubly important. They are making it their No. 1 job to see that power is available for all war needs.

## TEXAS ELECTRIC SERVICE COMPANY

J. E. LEWIS, Manager

Installing larger transformers to supply increased amounts of power.

Complex wiring in the control systems of power plants is checked after.

Frequent tests of automatic devices reduce interruptions to your service.

Testing delicate relay equipment that protects your electric service.

Hero Of Tornado Of 1929 Still Is Conducting School

PALESTINE, Tex. — (UP) — Thomas Gatlin, the hero of the Slocum tornado of 1929, still heads the public school system there.

If it hadn't been for Gatlin's alertness and presence of mind, hundreds of school students would almost certainly have lost their lives.

When the wind became strong, Gatlin ordered his pupils to crawl under the desks where they would be safe from flying timbers.

Scratch. She was a little girl who failed to obey instructions and she was bruised slightly.

He said, "The first essential is to train the student how to make a living. That is why we have cut out a lot of non-essentials."

**Committees Urged To Aid On Bond Sale**

W. F. Creager, chairman of the War Bonds Committee of Ranger, stated Saturday that while the committees which had been working had been meeting with good response, there was still lots of work to be done by some of the committees, and all were requested to report to the Chamber of Commerce office for solicitation of pledges as soon as possible.

"This is a great emergency," Creager pointed out, "and one which the American people, including the citizens of Ranger, should be glad to meet. The drive merely means that the people will have a chance to invest their money with Uncle Sam instead of having it confiscated in the form of taxes. There are now proposals to increase income taxes, but if the response to bond sales are sufficient for the war effort this increase in taxation might be eliminated."

Committees which have been appointed to carry out the work include:

Block 13—B. E. Garner, E. T. Eubank, Lester Crossley.  
Block 20—C. E. May, F. P. WANTED—Man with small truck or pickup to haul household effects from East Texas to Ranger. M. S. Wade Ranger Times.

Block 29—L. W. Meador, J. F. Killingsworth, Chas Bobo, Calvin Brown.  
Block 12—J. J. Kelly, Lee Dockery, W. H. Clarke.

**May Meeting To Decide Fate Of A Conference**

By CARL REICH  
United Press Staff Correspondent DENVER — (UP)—The Big Seven Conference, split by dissension, becomes a "little six" athletic organization June 1 unless a change of heart removes the stumbling blocks of harmony.

The Big Seven, known officially as the Mountain States Interscholastic Athletic Conference, is one of the youngest college sports organizations in the country. Formed in 1937, it operated successfully until Jan. 24, when Denver university resigned, effective in June, after a squabble over football schedules.

The other six members, Colorado, Wyoming, Utah, Brigham Young, Colorado State and Utah State, left a loophole by which Denver could be reinstated. If taken, this action very well may come at the meeting at Salt Lake City this month.

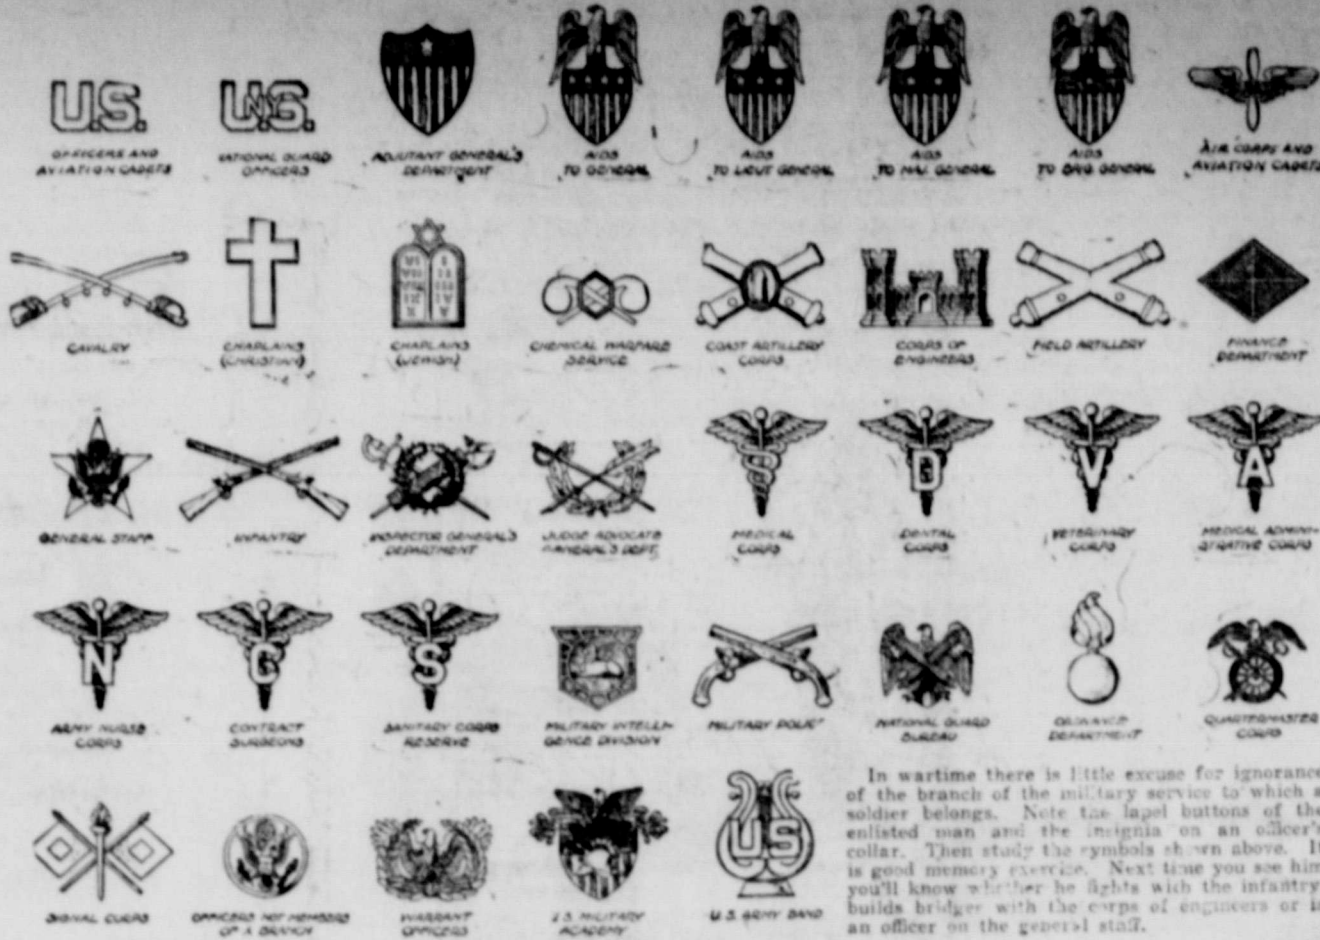

The effect of war on gate receipts and squad size may influence the six survivors to admit Denver to the league. Among the handicaps they face are those:

1. Denver consistently draws more spectators than any two other members except Colorado and Utah, but now no conference member may schedule Denver after the 1942 football season, which will be kept intact for the sake of existing agreements.

2. With only six members, the tentative 1943 schedule calls for two clubs to be idle each Saturday for two weeks. Under the seven-team setup, only one lacked a conference each week. There will be six less conference games during the season. As league encounters draw bigger crowds, this loss will hurt despite filling the dates with inter-sectional contests.

3. Already athletic directors are squabbling over the home-and-home schedule that prompted Denver's withdrawal. This school is dependent on athletic receipts to boost its revenues because it is not state-supported. It has played most of its games at home because of its larger crowds and gate receipts.

**Study This Army Collar Insignia and Improve Your Military I.Q.**

In wartime there is little excuse for ignorance of the branch of the military service to which a soldier belongs. Note the insignia on an officer's collar. Then study the symbols shown above. It is good memory exercise. Next time you see him you'll know whether he fights with the infantry, builds bridges with the corps of engineers or is an officer on the general staff.

**J. K. Jordon, Nov In Navy Writes C Service In Haw**

Mr. and Mrs. Hermya Jordon of Ranger have received word from their son, J. K. Jordon, is now in the United States Navy and who is stationed at H Point, Oahu, Hawaii.

Young Jordon sailed from United States for Hawaii April arriving at the naval base on 28.

His letters have been censored but nothing was cut from them. He stated that he is of censorship requirements was endeavoring to write in a way that nothing would be censored. The fact that he found nothing that might be considered a military secret in any of his letters indicates that he has been particularly careful to observe all censorship restrictions.

The letters state that he has as yet, experienced a raid, that there have been one or minor alerts since his arrival. Nothing was said as to the size of the convoy in which he travels nor the route it took in going to Hawaii.

Mr. and Mrs. Jordon live at Ghobson Hotel, while Mr. Jordon employed by the Premier Oil Company. He was recently transferred here from Houston.

Letters From Readers

Norfolk, Va. May 5, 1942

Dear Sir— 73 of us left Dallas at 6 p. m. for Norfolk, Va. We left Dallas on time but the tracks were washed out and we had to lay over at Dennison 24 hours. We changed trains at Cincinnati and followed the Ohio river for 150 miles. It was very scenic country on the Kentucky side of the river. There were many colonial homes. The blue grass for which the country is famous was green and high. We passed over and through the Alleghany Mountains in West Virginia. This is the heart of the world's largest coal mining and iron smelting region. After entering Virginia the sides of the tracks were lined with tall pines, much the same as East Texas. We left the train at Newport News and crossed the Chesapeake Bay by ferry to the Naval operating base. We were met by buses and taken to the Naval Construction Training Center known as Camp Allen. All construction recruits are to be trained at this camp. Three months ago this was a swamp, now it is an almost complete training center. After entering camp you are given bedding and clothes and you are now a sailor. The first thing you hear upon entering is "You'll be sorry". Every sailor is known by the name "Mack". We are quarantined for three weeks and are not allowed to leave the area. After this period we will be given shore leaves. We hit the deck at 5:30 a. m. and lights are out at 9:30 p. m. outside of eating and cleaning up the entire time is taken up in drills and lectures. There is no foolishness. The climate here is typical East Texas, warm and sultry. We are drilled by Marines as the Navy has adopted army drill. The Marines are known for their drilling ability and precision. We drill a beautiful golf course as well as play on it when I receive liberty. We all have our hair cut off and look like convicts. However it is very cool and convenient. The food is fine and plenty of it. I have gained five pounds on the eating and exercise. Jack Rex is stationed at the hospital and comes to see me often. Onis Warden is at the Tunney Fish base, Harlan Hill of Ranger is in my barracks. There are more men found from Texas here than from any other state. We have one platoon known as the Longhorn Platoon. I am well contented and like it fine. It is a hard grind but I have worked out all the soreness. I believed you walked in the army, but I think I have walked a thousand miles in a half mile space. This construction regiment is known as See Boes. The air here is black with planes all day long. You may print whatever you can and see fit of this letter. I miss the local news and would like to have a copy of the Times if you see fit to send same. Sincerely yours, Elmer Allen, Norris SEA-1c N. C. T. C. (Camp Allen) Co. D. Plt. 4, 5th Bn, Norfolk, Va.

OUT OUR WAY . . . ?

BY WILLIAMS

Ranger Woman To Be Buried In The Strawn Cemetery

Funeral services for Mrs. Lelo Vivian Tankersley, 33, of Ranger, who died Monday, will be conducted from the Second Baptist Church of Ranger Wednesday afternoon at 2:30 o'clock, with Rev. Jasper Massage, pastor of the church in charge of the services. Burial will be in Mt. Marion Cemetery, Strawn, with the Morris-Stone Funeral Home in charge of arrangements.

The decedent was a member of the Church of Christ, and had been a resident of Ranger for the past six years. She was born in Strawn Dec. 3, 1908.

Survivors include her husband, J. R. Tankersley of Ranger; one daughter, Mrs. Jean Greenhaw, Ranger; two sisters, Mrs. Ina Carpenter, Tulsa, Okla. and Miss Jackie Tittle; one brother, Robert Tittle, Camp Roberts, Calif., and one granddaughter, Charles Donald Greenhaw, Ranger.

One Baby Is Born During Showing of Feature at Arcadia

Only one baby was reported born in Ranger during the showing of "Babes on Broadway" at the Arcadia Theatre Sunday and Monday, and for which a number of presents were promised by merchants of Ranger.

The baby was delivered Monday morning at 4:45, by Dr. P. M. Kuykendall. The parents, who will receive the prizes offered, were Mr. and Mrs. Jim Vinson, 619 North Marston Street.

A checkup Tuesday morning, at the conclusion of the run of the picture, showed this was the only baby reported born during the picture's run in Ranger, and therefore qualifies the parents for the prizes being offered.

The Navy has 744 nurses on duty now and will have 1,250 by July, 1942.

Charles Bobo Is A Candidate For Justice Of Peace

Charles Bobo of Ranger has announced his candidacy for the office of Justice of the Peace from Precinct 2, and has issued the following statement to the voters of the precinct:

ANNOUNCEMENT In making my announcement as a candidate for the office of Justice of the Peace Precinct, 2, Ranger, Eastland County, Texas, I hope if elected, I may be of some service to the community, and that the emoluments of the office, even though small may be of value to me. Having lived in Ranger longer than most of the voters, I feel that most of them know me. If I be worthy of your vote and support, I shall endeavor to the best of my ability to serve you fairly and justly.

Charles Bobo

Ranger Has A Big Delegation At The Lions' Convention

The Ranger Lions Club had one of the largest delegations, other than from towns boasting candidates for district governor, at the district Lions convention, held at Breckenridge.

A number of Lions from Ranger attended the afternoon business session Monday, while still others attended the banquet at the Burch Hotel Monday evening. A golf tournament was featured on the entertainment program Sunday afternoon.

More than 250 Lions from over the district attended. More than 200,000 Texans saw service during World War I.

# Society, Club and Church Notes

## Cleaners Have Business And Social Meet.

Members of the Gleaners Class of the First Baptist church met Friday evening at 8 o'clock for a business meeting and social in the home of Mrs. Chester Rogers. Mrs. Rogers was assisted by Misses J. N. Graham and J. C. Cosby. For the affair the home was attractively decorated with sweet peas, roses and honeysuckle.

After a regular business meeting members honored Mrs. E. H. Jenkins with a shower of lovely handkerchiefs. Mrs. Jenkins will leave soon to make her home in Gainesville.

Those who attended were: Misses A. L. Styles, Roy Russell, Mamie Ruth Hamrick, J. C. Cobby, Kenneth Kirk, Homer Doolley, C. C. Cash, Frank Penn, Homer Gay, David M. Phillips, Nath Deaton, Roy Payne, Rogers and Graham and Miss Ann McEver.

## Hope for folks pestered by KIDNEY PAIN

No more getting up at night! Swamp Root quickly relieves bladder pain and backache due to sluggish kidneys—makes restful sleep possible.

Thousands of middle-aged folks say Swamp Root helps them sleep like their youth. Swamp Root restores the natural acid content of the kidneys, enabling them to do a thorough job of their work. In addition, Swamp Root quickly relieves bladder pain, backache and that general "soreness" that comes from irritating kidneys. You can't make the wonderful benefit Swamp Root was originally created by a well-known physician, Dr. Kilmer. It contains 15 herbs, roots and balsams—all good ingredients that help your kidneys. Try this remarkable, non-toxic and liberal refund policy FREE. Thousands have found relief with only a small bottle of Swamp Root. Send your name and address to Dr. Kilmer & Company, Inc., Department One, P.O. Box 103, Freeport, N.Y., for a complete literature on Swamp Root. Offer limited. Send today! All druggists sell Dr. Kilmer's Swamp Root.

Kilmer & Co., Inc., Dept. 714, Freeport, N.Y., for a complete literature and refund policy. Be sure to follow directions on package. Offer limited. Send today! All druggists sell Dr. Kilmer's Swamp Root.

## Mrs. Honson Observes 83rd Birthday.

Friends and relatives of Mrs. A. L. Honson, celebrated her 83rd birthday Sunday with a picnic. The occasion was also the 18th birthday of her grandson, Gerald Martin Brewer.

A delicious picnic lunch was enjoyed by all. Those attending this outing were: Mrs. A. L. Honson, Mr. and Mrs. Tom Burka, and daughter Juanita of Cross Plains, Mrs. Will Mc Cleskey of Weatherford, Mrs. G. W. Woods of Oklahoma City, Mr. and Mrs. J. J. Brewer of Ranger, Mrs. Scott Honson of Ranger, Mr. and Mrs. Demmit Young and children, Geneva and J. W., and Mrs. J. W. Robertson of Ranger, Mr. and Mrs. Mart Brewer and children, Marjorie, Harold Wade, and Gerald Martin of Ranger, Mrs. J. N. Rawling and son, Johnny of Napa, California, Mr. and Mrs. G. L. Tully of Ranger, Mr. and Mrs. Will Parish of Ranger.

## Mrs. Moore Complimented Saturday.

Mrs. Daron Moore, the former Miss Margaret Low Hargrave who was recently married, was complimented Saturday afternoon with a gift tea from 4 to 6 o'clock in the home of Rex and Mrs. W. H. McCulloch, Eastland.

The home was attractively decorated with roses and honeysuckles forming the decoration for the refreshment table. Miss Joyce Lynn Moore presided at the punch bowl and Miss Ruthie McCulloch was in charge of the white satin heart shape brides bouquet.

During the afternoon 40 guests called and presented the bride with a shower of gifts. Immediately after the shower, Mrs. Moore left for Lufkin, Texas, to join her husband who is associated as an announcer with KRLD Radio Station.

They will make their home in Lufkin.

# "UNCLE SAM" wants Your Gas Range to LAST!

Your Gas Range is one of the most durable of cooking appliances — a reliable, economical servant. It will give you perfect performance for years if you exercise a little care in its use.

## Easy-to-Follow Hints for Longer Service!

### HOW TO PRESERVE THE ENAMEL

- After use wipe range enamel with soft dry cloth while range is warm... NOT HOT.
- If further cleaning is necessary, wash with mild soap, rinse and dry.
- Don't place wet dishes, bottles or glasses on top of the range.

### HOW TO CARE FOR TOP BURNERS

- Wipe burners with damp cloth after use.
- When necessary, clean with mild soapy water, rinse and dry thoroughly.
- If burner become clogged, clean with stiff brush. Modern range burners are non-clog.
- Do not boil aluminum or enamel burners in soda. Cast iron burners may be boiled in a solution of one tablespoon sal soda to each three quarts of water. Wipe dry and turn upside down to drain before replacing.

### HOW TO CLEAN THE BROILER

- Remove broiler pan and grill after food has been served.
- Allow to cool before washing.
- Wash broiler compartment with soap and warm water.
- If broiler is beneath oven, remove empty broiler pan when oven is in use.

### HOW TO CLEAN OVEN

- If boil-overs occur, allow oven to cool and then remove char with a good cleanser or fine steel wool.
- Do not place oven bottom into water if it is insulated.
- Low temperature roasting of meat reduces spattering of grease... minimizes oven cleaning.
